UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15 (d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported) December 31, 2002

SIGHT RESOURCE CORPORATION

(Exact name of registrant as specified in its charter)

Delaware	0-21068	04-3181524
-----	-----	-----
(State or other jurisdiction of Incorporation)	(Commission File Number)	(I.R.S. Employer Identification No.)

6725 Miami Avenue, Cincinnati, Ohio	45243
-----	-----
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code (513) 527-9770

(Former name or former address, if changed since last report)

Item 5. Other Events and Regulation FD Disclosure

On December 31, 2002, the following transactions, relating to Sight Resource Corporation (the "Company"), were completed.

CadleRock Joint Venture L.P. ("CadleRock") purchased from Fleet National Bank ("Fleet"), at a discount, indebtedness of the Company. The amount of the indebtedness at the time of purchase was \$7,120,000. In connection with the purchase, CadleRock and the Company entered into a Sixth Loan Modification Agreement (the "Modification Agreement"). Pursuant to the Modification Agreement, (i) the Company paid to CadleRock \$1,560,000 and (ii) CadleRock agreed to the reduction to \$2,000,000 of the balance of the indebtedness owing by the Company. The \$2,000,000 is payable June 30, 2004 and bears interest at the rate of 12% per annum. A \$200,000 termination fee is payable by the Company to CadleRock at the time of payment of the \$2,000,000.

Edgar Filing: SIGHT RESOURCE CORP - Form 8-K

The Company's fiscal year ended December 28, 2002. Therefore, the gain on the extinguishment of more than \$3,000,000 of debt in connection with the foregoing transaction will, net of expenses, be most likely recognized in the first fiscal quarter of 2003.

Also on December 31, 2002, the Company completed the sale of 12,500,000 shares of Common Stock at an aggregate purchase price of \$2,500,000 (\$0.20 per share). The shares were sold and purchased in a private placement. The purchasers of the shares, and the number of shares purchased by each purchaser, were as follows:

Purchaser	Number of Shares	Aggregate Purchase Price
-----	-----	-----
Carlyle Venture Partners, L.P.	1,940,295	\$ 388,059
Carlyle U.S. Venture Partners, L.P.	257,335	\$ 51,467
C/S Venture Investors, L.P.	396,255	\$ 79,251
Carlyle Venture Coinvestment, L.L.C.	156,115	\$ 31,223
E. Dean Butler	1,250,000	\$ 250,000
Excalibur Investments B.V.	5,500,000	\$1,100,000
La Sesta S.A.	3,000,000	\$ 600,000
-----	-----	-----

Mr. Butler is Chairman of the Company. The other purchasers were pre-existing stockholders of the Company.

The sale and purchase of the shares was completed pursuant to a Common Stock Purchase Agreement dated as of December 31, 2002 among the Company and the purchasers (the "Purchase Agreement"). A portion of the proceeds from the sale of the shares was used to make the \$1,560,000 payment to CadleRock.

The above described share sale transaction was reviewed by a special committee of the Company's Board of Directors. The special committee recommended the transaction for approval by the full Board. In connection with that review and recommendation, the committee received and considered a fairness opinion from a financial advisory firm.

Also pursuant to the Purchase Agreement and as of December 31, 2002, the Company issued to Carlyle Venture Partners, L.P., C/S Venture Investors, L.P., Carlyle U.S. Venture Partners, L.P.,

2

and Carlyle Venture Coinvestment, L.L.C. (the "Carlyle Entities") an aggregate of 1,849,625 shares of Common Stock as payment of accrued and unpaid dividends (in the amount of \$508,000) on the shares of Series B Convertible Preferred Stock, par value \$.01 per share (the "Preferred Stock"), held by the Carlyle Entities.

Also pursuant to the Purchase Agreement and as of December 31, 2002, the Carlyle Entities converted all of their Preferred Stock (1,452,119 shares) to 3,243,900 shares of Common Stock of the Company. There are no remaining shares of Preferred Stock outstanding.

Also pursuant to the Purchase Agreement, the Carlyle Entities and the Company agreed to the cancellation of certain warrants (being referred to as Class I (Mirror) Warrants) representing an obligation to purchase an aggregate of 62,884 shares of Common Stock of the Company.

Edgar Filing: SIGHT RESOURCE CORP - Form 8-K

The Purchase Agreement provides that, for a period of three years, the Board of Directors of the Company shall take such action as may be consistent with its fiduciary duties to cause the Board of Directors to remain consistent with its current composition, subject to the following: (i) Mr. Dino Tabacchi (a director of the Company and an affiliate of Excalibur Investments B.V.) and one representative of the Carlyle Entities will be members of the Board; (ii) Mr. Marco Brustio (who was elected to the Board on December 31, 2002 and who is an affiliate of La Sesta S.A.) will be a member of the Board; and (iii) the Board shall nominate an additional director who shall have significant and financial and accounting expertise and who is neither employed by the Company nor any affiliate of the Company as an employee or consultant, and the identity and financial and accounting experience of such director shall be reasonably satisfactory to the Carlyle Entities; and (iv) Mr. Tabacchi shall have the right to designate a director to fill the first vacancy on the Board (other than vacancies related to the positions reserved for the Carlyle Entities and Mr. Brustio).

In anticipation of the transactions contemplated by the Purchase Agreement, the Company and American Stock Transfer & Trust Company entered into an Amendment to Rights Agreement dated December 30, 2002. The purpose of the Amendment was to avoid any party to the transactions contemplated by the Purchase Agreement being designated as an "Acquiring Person" for purposes of the Company's Right Plan.

Item 7. Financial Statements and Exhibits

ePlus inc. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION — Our company was founded in 1990 and is a Delaware corporation. ePlus inc. is sometimes referred to in this Quarterly Report on Form 10-Q as “we,” “our,” “us,” “ourselves,” or “ePlus.” The unaudited condensed consolidated financial statements include the accounts of ePlus inc. and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated.

INTERIM FINANCIAL STATEMENTS — The condensed consolidated financial statements for the three and six months ended September 30, 2014 and 2013 are unaudited, but include all normal and recurring adjustments that, in the opinion of management, are necessary for a fair presentation of our financial position, results of operations, changes in comprehensive income and cash flows for such periods. Operating results for the three and six months ended September 30, 2014 and 2013 are not necessarily indicative of results that may be expected for any other interim period or for the full fiscal year ending March 31, 2015 or any other future period. These unaudited condensed consolidated financial statements do not include all disclosures required by the accounting principles generally accepted in the United States (“U.S. GAAP”) for annual financial statements. Our audited consolidated financial statements are contained in our annual report on Form 10-K for the year ended March 31, 2014 (“2014 Annual Report”), which should be read in conjunction with these interim financial statements.

SUBSEQUENT EVENTS — Management has evaluated subsequent events after the balance sheet date through the date our financial statements are issued.

USE OF ESTIMATES — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Estimates are used when accounting for items and matters including, but not limited to, revenue recognition, residual values, vendor consideration, lease classification, goodwill and intangibles, reserves for credit losses, inventory obsolescence, and the recognition and measurement of income tax assets and other provisions and contingencies. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates.

The notes to the consolidated financial statements contained in the 2014 Annual Report include additional discussion of the significant accounting policies and estimates used in the preparation of our consolidated financial statements. There have been no material changes to our significant accounting policies and estimates during the six months ended September 30, 2014.

CONCENTRATIONS OF RISK — A substantial portion of our sales of product and services are from sales of Cisco Systems, Hewlett-Packard, and NetApp products, which represented approximately 56%, 8% and 6%, and 52%, 8% and 6%, respectively, of our technology segment sales of product and services for the three and six months ended September 30, 2014, as compared to 47%, 11%, and 6%, and 51%, 10%, and 7% respectively, of our technology segment sales of product and services for the three and six months ended September 30, 2013. Any changes in our vendors’ ability to provide products could have a material adverse effect on our business, results of operations and financial condition.

Table of Contents

RECENTLY ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED — In May 2014, FASB issued ASU 2014-09, which will update ASC topic Revenue from Contracts with Customers, which will replace all current US GAAP on this topic. The principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which entity expects to be entitled in exchange for those goods or services. The effective date for ASU 2014-09 for us is for fiscal year beginning April 1, 2017. The standard can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. We are currently evaluating the impact it will have on our financial statements and disclosures and have not yet selected our planned transition approach.

2. FINANCING RECEIVABLES AND OPERATING LEASES

Our notes receivable, investments in leases, and leased equipment consist of assets that we financed for our customers, which we manage as a portfolio of investments. Our leases to our customers are accounted for as investments in direct financing, sales-type or operating leases in accordance with Codification Topic, Leases. We also finance third-party software, maintenance, and services for our customers, which are classified as notes receivables. Our notes receivables are interest bearing and are often due over a period of time that corresponds with the terms of the leased products.

FINANCING RECEIVABLES—NET

Our financing receivables, net consist of the following (in thousands):

	Notes Receivables	Lease-Related Receivables	Total Financing Receivables
September 30, 2014			
Minimum payments	\$ 59,745	\$ 86,289	\$ 146,034

Unearned income	-	(6,285)	(6,285)
Reserve for credit losses (3)	(3,364)	(1,024)	(4,388)
Total, net	\$ 40,697	\$ 83,054	\$ 123,751

Reported as:

Current	\$ 22,109	\$ 35,640	\$ 57,749
Long-term	18,588	47,414	66,002
Total, net	\$ 40,697	\$ 83,054	\$ 123,751

(1) Includes estimated unguaranteed residual values of \$3,034 thousand for direct financing leases which have been sold and accounted for as sales under Codification Topic Transfers and Servicing.

(2) Initial direct costs are shown net of amortization of \$525 thousand.

(3) For details on reserve for credit losses, refer to Note 4, "Reserves for Credit Losses."

Table of Contents

OPERATING LEASES—NET

Operating leases—net primarily represents leases that do not qualify as direct financing leases. The components of the operating leases—net are as follows (in thousands):

	September 30, 2014	March 31, 2014
Cost of equipment under operating leases	\$ 31,072	\$ 40,513
Accumulated depreciation	(15,674)	(20,525)
Investment in operating lease equipment—net (1)	\$ 15,398	\$ 19,988

(1) These totals include estimated unguaranteed residual values of \$3,842 thousand and \$5,610 thousand as of September 30, 2014 and March 31, 2014, respectively.

TRANSFERS OF FINANCIAL ASSETS

We enter into arrangements to transfer the contractual payments due under financing receivables and operating leases, which are accounted for as sales or secured borrowings in accordance with Codification Topic, Transfers and Servicing. For transfers accounted for as a secured borrowing, the corresponding investments serve as collateral for non-recourse notes payable. As of September 30, 2014 and March 31, 2014, we had financing receivables and operating leases of \$72.8 million and \$72.3 million, respectively, that were collateral for non-recourse notes payable. See Note 6, “Notes Payable and Credit Facility.”

For transfers accounted for as sales, we derecognize the carrying value of the asset transferred and recognize a net gain or loss on the sale, which is presented within financing revenues in the unaudited condensed consolidated statement of operations. During the three months ended September 30, 2014 and 2013, we recognized net gains of \$0.9 million and \$1.2 million, respectively. The fair value of assets received from these sales was \$37.6 million and \$34.9 million for the three months ended September 30, 2014 and 2013, respectively. During the six months ended September 30, 2014 and 2013, we recognized net gains of \$3.2 million and \$5.6 million, respectively. The fair value of assets received from these sales was \$93.8 million and \$122.4 million for the six months ended September 30, 2014 and 2013, respectively.

3. GOODWILL AND OTHER INTANGIBLE ASSETS

Our goodwill and other intangible assets consist of the following (in thousands):

	September 30, 2014			March 31, 2014		
	Gross Carrying Amount	Accumulated Amortization / Impairment Loss	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization / Impairment Loss	Net Carrying Amount
Goodwill	\$42,834	\$ (8,673)	\$ 34,161	\$38,243	\$ (8,673)	\$ 29,570
Customer relationships & other intangibles	11,923	(5,416)	6,507	8,013	(4,671)	3,342
Capitalized software development	2,668	(1,208)	1,460	2,616	(945)	1,671
Total	\$57,425	\$ (15,297)	\$ 42,128	\$48,872	\$ (14,289)	\$ 34,583

Goodwill represents the premium paid over the fair value of the net tangible and intangible assets we have acquired in business combinations. Customer relationships and capitalized software development costs are amortized over an

estimated useful life, which is generally between 3 to 6 years.

All of our goodwill as of September 30, 2014 and March 31, 2014 related to our technology segment. We perform our goodwill impairment test annually during our third quarter of each year. For the year ended March 31, 2014, we performed a qualitative assessment and concluded that the fair value of our reporting units were, more likely than not, greater than their respective carrying amounts.

Table of Contents

The following table summarizes the amount of goodwill allocated to our reporting units (in thousands):

Reporting Unit	September 30, 2014	March 31, 2014
Technology	\$ 33,072	\$ 28,481
Software Document Management	1,089	1,089

OTHER INTANGIBLE ASSETS

Total amortization expense for other intangible assets was \$0.6 million and \$0.3 million for the three months and \$1.0 million and \$0.6 million for the six months ended September 30, 2014 and 2013, respectively.

4. RESERVES FOR CREDIT LOSSES

Activity in our reserves for credit losses for the six months ended September 30, 2014 and 2013 were as follows (in thousands):

	Accounts Receivable	Notes Receivable	Lease-Related Receivables	Total
Balance April 1, 2014	\$ 1,364	\$ 3,364	\$ 1,024	\$ 5,752
Provision for credit losses	(99)	309	11	221
Write-offs and other	(122)	-	(31)	(153)
Balance September 30, 2014	\$ 1,143	\$ 3,673	\$ 1,004	\$ 5,820

	Accounts Receivable	Notes Receivable	Lease-Related Receivables	Total
Balance April 1, 2013	\$ 1,147	\$ 3,137	\$ 845	\$ 5,129
Provision for credit losses	152	(14)	53	191
Write-offs and other	(121)	-	-	(121)
Balance September 30, 2013	\$ 1,178	\$ 3,123	\$ 898	\$ 5,199

Our reserves for credit losses and minimum payments associated with our notes receivables and lease-related receivables disaggregated on the basis of our impairment method were as follows (in thousands):

	September 30, 2014		March 31, 2014	
	Notes Receivable	Lease-Related Receivables	Notes Receivable	Lease-Related Receivables
Reserves for credit losses:				
Ending balance: collectively evaluated for impairment	\$ 552	\$ 788	\$ 265	\$ 852
Ending balance: individually evaluated for impairment	3,121	216	3,099	172
Ending balance	\$ 3,673	\$ 1,004	\$ 3,364	\$ 1,024
Minimum payments:				
Ending balance: collectively evaluated for impairment	\$ 56,292	\$ 86,086	\$ 39,869	\$ 81,114
Ending balance: individually evaluated for impairment	3,453	203	3,838	437
Ending balance	\$ 59,745	\$ 86,289	\$ 43,707	\$ 81,551

The net credit exposure for the notes receivable and lease related receivables evaluated individually for impairment as of September 30, 2014 was \$3.6 million. As of September 30, 2014, we had \$3.2 million of notes and lease-related receivables from one customer that filed for bankruptcy in May, 2012 and total reserves for credit losses of \$3.2 million, which represents our estimated probable loss. As of March 31, 2014, we had \$3.4 million of notes receivables from this customer and total reserves for credit losses of \$3.1 million.

Edgar Filing: SIGHT RESOURCE CORP - Form 8-K

Table of Contents

As of September 30, 2014, the age of the recorded minimum lease payments and net credit exposure associated with our investment in direct financing and sales-type leases that are past due, disaggregated based on our internally assigned credit quality ratings (“CQR”), were as follows (in thousands):

	31-60 Days Past Due	61-90 Days Past Due	Greater than 90 Days Past Due	Total Past Due	Current	Unbilled Minimum Lease Payments	Total Minimum Lease Payments	Unearned Income	Non-Recourse Notes Payable	Net Credit Exposure
September 30, 2014										
High CQR	\$42	\$ 5	\$ 130	\$177	\$ 232	\$ 51,342	\$ 51,751	\$ (2,828)	\$ (18,031)	\$ 30,892
Average CQR	52	48	14	114	566	33,654	34,335	(2,704)	(17,742)	13,888
Low CQR	-	-	-	-	-	203	203	(19)	-	184
Total	94	53	144	291	798	85,199	86,289	(5,551)	(35,773)	44,964

March 31, 2014

High CQR	\$ 194	\$ 35	\$ 106	\$335	\$ 502	\$ 42,159	\$ 42,996	\$ (1,890)	\$ (17,406)	\$ 23,700
Average CQR	33	57	18	108	86	37,924	38,118	(3,401)	(20,709)	14,008

Total	227	92	185	504	588	80,459	81,551	(5,346)	(38,115)	38,090

As of September 30, 2014, the age of the recorded notes receivable balance disaggregated based on our internally assigned CQR were as follows (in thousands):

	31-60 Days Past Due	61-90 Days Past Due	Greater than 90 Days Past Due	Total Past Due	Current	Unbilled Notes Receivable	Total Notes Receivable	Non-Recourse Notes Payable	Net Credit Exposure
September 30, 2014									
High CQR	\$829	\$ 5	\$ 1,802	\$2,636	\$ 521	\$ 38,137	\$ 41,294	\$ (23,463)	\$ 17,831
Average CQR	171	-	-	171	281	14,546	14,998	(4,580)	10,418
Low CQR	-	-	707	707	-	2,746	3,453	-	3,453
Total	1,000	5	2,509	3,514	802	55,429	59,745	(28,043)	31,702

March 31, 2014

High CQR	\$-	\$ 205	\$ 148	\$353	\$2,317	\$ 30,249	\$ 32,919	\$ (19,641)	\$ 13,278
Average CQR	-	-	-	-	-	6,950	6,950	(3,491)	3,459
Low CQR	-	-	791	791	-	3,047	3,838	-	3,838
Total	-	205	939	1,144	2,317	40,246	43,707	(23,132)	20,575

We estimate losses on our net credit exposure to be between 0% - 5% for customers with highest CQR, as these customers are investment grade or the equivalent of investment grade. We estimate losses on our net credit exposure to be between 2% - 25% for customers with average CQR, and between 25% - 100% for customers with low CQR, which includes customers in bankruptcy.

Table of Contents

5. PROPERTY, EQUIPMENT OTHER ASSETS AND LIABILITIES

Our property, equipment, other assets and liabilities consist of the following (in thousands):

	September 30, 2014	March 31, 2014
Other current assets:		
Deposits & funds held in escrow	\$ 6,610	\$995
Prepaid assets	3,079	2,865
Supplemental benefit plan investments	-	2,544
Other	318	521
Total other current assets	\$ 10,007	\$6,925

Other liabilities		
Deferred revenue	\$ 1,786	\$1,822
Other	1,013	-
Total other liabilities - long term	\$ 2,799	\$1,822

6. NOTES PAYABLE AND CREDIT FACILITY

Non-recourse and recourse obligations consist of the following (in thousands):

	September 30, 2014	March 31, 2014
Recourse notes payable with interest rates ranging from 2.24% and 4.22% at September 30, 2014 and 2.24% and 4.84% at March 31, 2014.		
Current	\$ 280	\$1,460
Long-term	2,576	2,100
Total recourse notes payable	\$ 2,856	\$3,560

Edgar Filing: SIGHT RESOURCE CORP - Form 8-K

Non-recourse notes payable secured by financing receivables and investments in operating leases with interest rates ranging from 2.00% to 10.00% at September 30, 2014 and ranging from 2.00% to 11.24% as of March 31, 2014.

Current	\$ 35,262	\$ 30,907
Long-term	30,018	34,421
Total non-recourse notes payable	\$ 65,280	\$ 65,328

Principal and interest payments on the non-recourse notes payable are generally due monthly in amounts that are approximately equal to the total payments due from the customer under the leases or notes receivable that collateralize the notes payable. The weighted average interest rate for our non-recourse notes payable was 3.31% and 3.46%, as of September 30, 2014 and March 31, 2014, respectively. The weighted average interest rate for our recourse notes payable was 2.93% and 3.85%, as of September 30, 2014 and March 31, 2014, respectively. Under recourse financing, in the event of a default by a customer, the lender has recourse to the customer, the assets serving as collateral, and us. Under non-recourse financing, in the event of a default by a customer, the lender generally only has recourse against the customer, and the assets serving as collateral, but not against us.

Table of Contents

In May 2014, we entered into an agreement to repurchase the rights, title, and interest to payments due under a financing agreement. This financing agreement was previously assigned to a third party financial institution and accounted for as a secured borrowing. In conjunction with the repurchase agreement, we recognized a gain of \$1.4 million, which is presented within other income in our unaudited condensed consolidated statement of operations.

Our technology segment, through our subsidiary ePlus Technology, inc., finances its operations with funds generated from operations, and with a credit facility with GE Commercial Distribution Finance Corporation (“GECDF”). This facility provides short-term capital for our technology segment. There are two components of the GECDF credit facility: (1) a floor plan component and (2) an accounts receivable component. Under the floor plan component, we had outstanding balances of \$120.6 million and \$93.4 million as of September 30, 2014 and March 31, 2014, respectively. Under the accounts receivable component, we had no outstanding balances as of September 30, 2014 and March 31, 2014.

As of March 31, 2014, the facility agreement had an aggregate limit of the two components of \$175.0 million, and the accounts receivable component had a sub-limit of \$30.0 million, which bears interest assessed at a rate of the One Month LIBOR plus two and one half percent. On July 31, 2014, ePlus Technology, inc. amended its credit facility with GECDF, which included an increase to the aggregate credit limit. As of September 30, 2014, the facility agreement had an aggregate limit of the two components of \$225.0 million, and the accounts receivable component had a sub-limit of \$30.0 million, which bears interest assessed at a rate of the One Month LIBOR plus two and one half percent.

The credit facility has full recourse to ePlus Technology, inc. and is secured by a blanket lien against all its assets, such as receivables and inventory. Availability under the facility may be limited by the asset value of equipment we purchase or accounts receivable, and may be further limited by certain covenants and terms and conditions of the facility. These covenants include but are not limited to a minimum excess availability of the facility and minimum earnings before interest, taxes, depreciation and amortization (“EBITDA”) of ePlus Technology, inc. We were in compliance with these covenants as of September 30, 2014. In addition, the facility limits the ability of ePlus Technology, inc. to transfer funds to its affiliates in the form of dividends, loans or advances. The facility also requires that financial statements of ePlus Technology, inc. be provided within 45 days of each quarter and 90 days of each fiscal year end and also includes that other operational reports be provided on a regular basis. Either party may terminate with 90 days advance notice. We are not, and do not believe that we are reasonably likely to be, in breach of the GECDF credit facility. In addition, we do not believe that the covenants of the GECDF credit facility materially limit our ability to undertake financing. In this regard, the covenants apply only to our subsidiary, ePlus Technology, inc. This credit facility is secured by the assets of only ePlus Technology, inc. and the guaranty as described below.

The facility provided by GECDF requires a guaranty of \$10.5 million by ePlus inc. The guaranty requires ePlus inc. to deliver its annual audited financial statements by certain dates. We have delivered the annual audited financial statements for the year ended March 31, 2014 as required. The loss of the GECDF credit facility could have a material adverse effect on our future results as we currently rely on this facility and its components for daily working capital and liquidity for our technology segment and as an operational function of our accounts payable process.

We have an agreement with First Virginia Community Bank to provide us with a \$0.5 million credit facility, which matures on October 26, 2015. The credit facility is available for use by us and our affiliates and the lender has full recourse to us. Borrowings under this facility bear interest at the Wall Street Journal U.S. Prime rate plus 1%. The primary purpose of the facility is to provide letters of credit for landlords, taxing authorities and bids. As of September 30, 2014 and March 31, 2014, we had no outstanding balance on this credit facility.

Fair Value

As of September 30, 2014, the fair value of our long-term recourse and non-recourse notes payable approximated their carrying value.

Table of Contents

7.COMMITMENTS AND CONTINGENCIES

Legal Proceedings

On May 19, 2009, we filed a complaint (the “Lawson litigation”) in the United States District Court for the Eastern District of Virginia (the “trial court”) against four defendants, alleging that they used or sold products, methods, processes, services and/or systems that infringe on certain of our patents. During July and August 2009, we entered into settlement and license agreements with three of the defendants. We obtained a jury verdict against the remaining defendant, Lawson Software, Inc. (“Lawson”) on January 27, 2011. The jury unanimously found that Lawson infringed certain ePlus patents relating to electronic procurement systems, and additionally found that all ePlus patent claims tried in court were not invalid.

On May 23, 2011, the trial court issued a permanent injunction, ordering Lawson and its successors to: immediately stop selling and servicing products relating to its electronic procurement systems that infringe our patents; cease providing any ongoing or future maintenance, training or installation of its infringing products; and refrain from publishing any literature or information that encourages the use or sale of its infringing products. Lawson filed an appeal. On November 21, 2012, the United States Court of Appeals for the Federal Circuit (the “Appeals Court”) reversed in part, vacated in part, affirmed in part, and remanded. The Appeals Court upheld the finding that the patent claims were not invalid and upheld, in part, the finding of infringement. On June 11, 2013, consistent with the Appeals Court’s decision, the trial court issued an Order modifying the injunction so that it would continue in full effect with respect to those configurations of Lawson’s electronic procurement systems that the Appeals Court affirmed were infringing.

On August 16, 2013, the trial court issued an order finding, by clear and convincing evidence, that Lawson was in contempt of the trial court’s May 23, 2011, injunction, entering judgment in our favor in the amount of \$18.2 million, and ordering that Lawson pay to the court a daily coercive fine. Lawson filed an appeal and posted a bond, and collection of the judgment and imposition of the coercive fine were stayed pending the appeal.

Patent litigation is extremely complex and issues regarding a patent’s validity can arise even subsequent to a patent’s issuance and a court’s enforcement thereof. On April 3, 2014, the United States Patent and Trademark Office issued a notice canceling the patent at issue in the Lawson litigation. On July 25, 2014, the Appeals Court issued an Opinion vacating the injunction and contempt order. We have filed a Petition for Rehearing, and are awaiting the court’s response.

These types of cases are complex in nature, are likely to have significant expenses associated with them, and we cannot predict when any litigation will be resolved, whether we will be successful in our claim for a contempt finding or damages, whether any award ultimately received will exceed the costs incurred to pursue this matter, or how long it will take to bring this matter to resolution.

We filed a claim in a class action suit in the United States District Court for the Northern District of California which alleged that ten groups of companies conspired to fix, raise, maintain or stabilize prices of certain flat panels used in many flat screen televisions, monitors and notebook computers. The Claims Administrator found that we had a valid claim, and on August 6, 2014, issued to us a Notice of Claim Final Determination. On October 20, 2014, the court issued an order directing that approved claims be paid. On October 31, 2014, we received payment in the amount of \$6.2 million, which will be recognized in our statement of operations as other income in our third quarter of fiscal 2015.

Other Matters

We may become party to various legal proceedings arising in the ordinary course of business including preference payment claims asserted in customer bankruptcy proceedings, claims of alleged infringement of patents, trademarks, copyrights and other intellectual property rights, claims of alleged non-compliance with contract provisions, employment related claims, claims by competitors, vendors or customers, claims related to alleged violations of laws and regulations, and claims relating to alleged security or privacy breaches. Although we do not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on our financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered that could adversely affect our results of operations or cash flows in a particular period. We provide for costs related to contingencies when a loss is probable and the amount is reasonably determinable.

Table of Contents

8. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net earnings attributable to common shares by the weighted average number of common shares outstanding for the period. Diluted net earnings per share include the potential dilution of securities that could participate in our earnings, but not securities that are anti-dilutive. Unvested shares of restricted stock awards (“RSAs”), which contain non-forfeitable rights to dividends, whether paid or unpaid are considered participating securities because their holders have the right to participate in earnings with common stockholders. We use the two-class method to allocate net income between common shares and other participating securities. As of September 30, 2014, we no longer have any unvested shares of RSAs that contained non-forfeitable rights to dividends. In addition, we no longer grant RSAs that contain non-forfeitable rights to dividends.

The following table provides a reconciliation of the numerators and denominators used to calculate basic and diluted net earnings per common share as disclosed in our unaudited condensed consolidated statements of operations for the three and six months ended September 30, 2014 and September 30, 2013 (in thousands, except per share data).

	Three months ended September 30,		Six months ended September 30,	
	2014	2013	2014	2013
<u>Basic and diluted shares outstanding</u>				
Weighted average common shares outstanding — basic	7,320	7,976	7,412	7,945
Effect of dilutive shares	25	44	49	62
Weighted average common shares outstanding — diluted	7,345	8,020	7,461	8,007
Calculation of earnings per share - basic				
Net earnings	\$ 11,952	\$ 8,591	\$ 21,429	\$ 16,441
Net earnings attributable to participating securities	-	66	55	192
Net earnings attributable to common shareholders	\$ 11,952	\$ 8,525	\$ 21,374	\$ 16,249
<u>Earnings per share - basic</u>	\$ 1.63	\$ 1.07	\$ 2.88	\$ 2.05
<u>Calculation of earnings per share - diluted</u>				
Net earnings attributable to common shareholders— basic	\$ 11,952	\$ 8,525	\$ 21,374	\$ 16,249
Add: undistributed earnings attributable to participating securities	-	-	1	1
Net earnings attributable to common shareholders— diluted	\$ 11,952	\$ 8,525	\$ 21,375	\$ 16,250
Earnings per share - diluted	\$ 1.63	\$ 1.06	\$ 2.86	\$ 2.03

As of both September 30, 2013 and 2014, we had no unexercised stock options.

9. STOCKHOLDERS' EQUITY

On June 12, 2014, our board of directors authorized the Company to repurchase up to 500,000 shares of its outstanding common stock over a 12-month period commencing June 16, 2014. The purchases may be made from time to time in the open market, or in privately negotiated transactions, subject to availability. Any repurchased shares will have the status of treasury shares and may be used, when needed, for general corporate purposes. This new authorization replaces the company's previous repurchase plan which was to expire on November 13, 2014. The previous plan, which commenced November 14, 2013, authorized the repurchase of up to 750,000 shares of ePlus' outstanding common stock. Since commencement of the previous plan through its termination on June 12, 2014, we

repurchased 687,488 shares.

During the six months ended September 30, 2014, we repurchased 651,019 shares of our outstanding common stock at an average cost of \$50.31 per share for a total purchase price of \$32.8 million under the share repurchase plans. We also purchased 35,158 shares of common stock at a value of \$2.0 million to satisfy tax withholding obligations to the vesting of employees' restricted stock.

Table of Contents

During the six months ended September 30, 2013, we repurchased 62,986 shares of our outstanding common stock under a share repurchase plan at the average cost of \$53.92 per share for a total purchase price of \$3.4 million. We purchased 42,073 shares of common stock at a value of \$2.5 million to satisfy tax withholding obligations to the vesting of employees' restricted stock.

Since the inception of our initial repurchase program on September 20, 2001 to September 30, 2014, we have repurchased 5.5 million shares of our outstanding common stock at an average cost of \$19.65 per share for a total purchase price of \$108.7 million.

10. SHARE-BASED COMPENSATION**Share-Based Plans**

As of September 30, 2014 and March 31, 2014, we had share-based awards outstanding under the following plans: (1) the 2008 Non-Employee Director Long-Term Incentive Plan ("2008 Director LTIP"), (2) the 2008 Employee Long-Term Incentive Plan ("2008 Employee LTIP") and (3) the 2012 Employee Long-Term Incentive Plan ("2012 Employee LTIP"). All the share-based plans define fair market value as the previous trading day's closing price when the grant date falls on a date the stock was not traded.

For a summary of descriptions and vesting periods of the 2008 Director LTIP, the 2008 Employee LTIP, and the 2012 Employee LTIP discussed above, refer to our 2014 Annual Report.

Stock Option Activity

As of September 30, 2014 and 2013, we had no outstanding shares of stock options and there were no options granted or exercised during the six months ended September 30, 2014. During the six months ended September 30, 2013 there were no options granted and 40,000 options exercised.

Restricted Stock Activity

For the six months ended September 30, 2014, we granted 9,390 restricted shares under the 2008 Director LTIP, and 78,165 restricted shares under the 2012 Employee LTIP. For the six months ended September 30, 2013, we granted 8,520 restricted shares under the 2008 Director LTIP, and 77,115 restricted shares under the 2012 Employee LTIP. A summary of the restricted shares is as follows:

	Number of Shares	Weighted Average Grant-date Fair Value
Nonvested April 1, 2014	200,120	\$ 41.11
Granted	87,555	\$ 57.12
Vested	(111,296)	\$ 35.57
Nonvested September 30, 2014	176,379	\$ 52.67

Upon each vesting period of the restricted stock awards, employees are subject to minimum tax withholding obligations. Under the 2008 Employee LTIP and 2012 Employee LTIP, we may purchase a sufficient number of shares due to the participant to satisfy their minimum tax withholding on employee stock awards.

Compensation Expense

We recognize compensation cost for awards of restricted stock with graded vesting on a straight line basis over the requisite service period and estimate the forfeiture rate to be zero, which is based on historical experience. There are no additional conditions for vesting other than service conditions. During the three months ended September 30, 2014 and 2013, we recognized \$1.2 million and \$1.1 million, respectively, of total share-based compensation expense. During the six months ended September 30, 2014 and 2013, we recognized \$2.2 million and \$1.9 million, respectively, of total share-based compensation expense. Unrecognized compensation expense related to non-vested restricted stock was \$7.9 million, which will be fully recognized over the next thirty-three months.

Table of Contents

We also provide our employees with a contributory 401(k) plan. Employer contribution percentages are determined by us and are discretionary each year. The employer contributions vest pro-ratably over a four-year service period by the employees, after which all employer contributions will be fully vested. For the three months ended September 30, 2014 and 2013, our estimated contribution expense for the plan was \$302 thousand and \$147 thousand, respectively. For the six months ended September 30, 2014 and 2013, our estimated contribution expense was \$623 thousand and \$524 thousand, respectively.

11. INCOME TAXES

We recognize interest and penalties for uncertain tax positions. As of September 30, 2014, our gross liability related to uncertain tax positions was \$149 thousand. At September 30, 2014, if the unrecognized tax benefits of \$149 thousand were to be recognized, including the effect of interest, penalties and federal tax benefit, the impact would be \$194 thousand. We also recognize accrued interest and penalties related to unrecognized tax benefits as a component of tax expense. We recorded interest expense of \$1 thousand and \$4 thousand for the three months ended September 30, 2014 and 2013, respectively and \$2 thousand and \$9 thousand for the six months ended September 30, 2014 and 2013, respectively. We did not recognize any additional penalties. We had \$67 thousand and \$206 thousand accrued for the payment of interest at September 30, 2014 and 2013, respectively.

12. FAIR VALUE OF FINANCIAL INSTRUMENTS

We account for the fair values of our assets and liabilities in accordance with Codification Topic Fair Value Measurement and Disclosure. The following table summarizes the fair value hierarchy of our financial instruments as of September 30, 2014 and March 31, 2014 (in thousands):

	Recorded Amount	Fair Value Measurement Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Gains (Losses)
<u>September 30, 2014:</u>					
Assets:					
Money market funds	\$ 43,767	\$43,767	\$ -	\$ -	\$ -
Liabilities:					
Contingent consideration	\$ 1,960	\$-	\$ -	\$ 1,960	\$ -
<u>March 31, 2014:</u>					
Assets:					
Money market funds	\$ 54,267	\$54,267	\$ -	\$ -	\$ -

13. SEGMENT REPORTING

Our operations are conducted through two business segments. Our technology segment includes sales of information technology products, third-party software, third-party maintenance, advanced professional and managed services and our proprietary software to commercial, state and local governments, and government contractors. Our financing segment consists of the financing of IT equipment, software and related services to commercial, state and local governments, and government contractors. Our reportable segment information was as follows (in thousands):

	Three Months Ended September 30, 2014			September 30, 2013		
	Technology	Financing	Total	Technology	Financing	Total
Sales of product and services	\$286,584	\$-	\$286,584	\$261,283	\$-	\$261,283
Financing revenue	-	9,059	9,059	-	8,001	8,001

14. BUSINESS COMBINATIONS

On August 18, 2014, our subsidiary, ePlus Technology, inc., acquired the operating assets and assumed certain liabilities of Granite Business Solutions, Inc. dba Evolve Technology Group (“Evolve”). Evolve is a provider of IT solutions in California, expanding ePlus’ presence in the western United States. Located in Sacramento, CA, Evolve provides information security, collaboration, virtualization and data center solutions to an established customer base of state, local and educational institutions, as well as commercial enterprises.

The total purchase price was \$10.5 million, which consists of cash paid, amounts to be paid to Evolve upon collection of certain accounts receivable, and the fair value of contingent consideration. We estimated the fair value of the contingent consideration to be \$2.0 million using a probability weighted cash flow methodology. The purchase price has been allocated to the assets acquired and liabilities assumed based on their estimated fair values on the transaction date, including identifiable intangible assets of \$3.9 million related to customer relationships with an estimated useful life of 6 years, and other net assets of \$0.6 million. We recognized goodwill related to this transaction of \$4.6 million, which was assigned to our technology reporting unit. Goodwill associated with the acquisition is deductible for tax purposes.

On November 14, 2013, our subsidiary, ePlus Technology, inc., acquired the assets of Advistor, Inc., a storage-focused solutions provider located in Pittsford, New York for \$2.8 million in cash. The purchase price has been allocated to the assets acquired and liabilities assumed based on their estimated fair values on the transaction date, including identifiable intangible assets of \$1.6 million related to customer relationships with an estimated useful life of 6 years, and other net assets of \$0.4 million. We recognized goodwill related to this transaction of \$0.9 million, which was assigned to our technology reporting unit. Goodwill associated with the acquisition is deductible for tax purposes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion is intended to further the reader's understanding of our consolidated financial condition and results of operations. It should be read in conjunction with the financial statements included in this quarterly report on Form 10-Q and our annual report on Form 10-K for the year ended March 31, 2014 ("2014 Annual Report"). These historical financial statements may not be indicative of our future performance. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains a number of forward-looking statements, all of which are based on our current expectations and could be affected by the uncertainties and risks described in Part I, Item 1A, "Risk Factors," in our 2014 Annual Report.

EXECUTIVE OVERVIEW

Business Description

ePlus and its consolidated subsidiaries provide leading information technology ("IT") products and services, flexible leasing and financing solutions, and enterprise supply management to enable our customers to optimize their IT infrastructure and supply chain processes.

We design, implement and provide IT solutions for our customers. We are focused primarily on specialized IT segments including data center infrastructure, networking, security, cloud and collaboration. Our solutions incorporate hardware and software products from multiple leading IT vendors, as well as third party services, maintenance and software assurance on the hardware and software products. As our customers' IT requirements have grown increasingly complex, we have evolved our offerings by investing in our professional and managed services capabilities and by expanding our relationships with existing key vendors.

We continue to strengthen our relationships with vendors focused on emerging technologies, which have enabled us to provide our customers with new and evolving IT solutions. We are an authorized reseller of products and services from over 1,000 vendors including Check Point, Cisco Systems, EMC, Hewlett-Packard, McAfee, NetApp, Oracle, Palo Alto Networks and VMware, among many others. We possess top-level engineering certifications with a broad range of leading IT vendors that enable us to offer IT solutions that are optimized for each of our customers' specific requirements. Our proprietary software solutions allow our customers to procure, control and automate their IT solutions environment.

We focus on middle market and large enterprises, and state and local government and educational institutions ("SLED"). The percentage of total sales of products and services revenue for the twelve months ended September 30, 2014 by customer end market include technology (21%), telecommunications, media and entertainment (18%), financial services (11%), healthcare (9%), and state and local government, and educational institutions (21%).

Our revenues are composed of sales of product and services, financing revenues and fee and other income. Our operations are conducted through two segments: technology and financing segment.

Financial Summary

During the three months ended September 30, 2014, total revenue increased 9.7% to \$297.5 million and operating income increased 38.3% to \$20.3 million over the same period for the prior fiscal year. During the six months ended September 30, 2014, total revenue increased 7.4% to \$569.8 million and operating income increased 25.0% to \$35.1 million as compared to the same period for the prior fiscal year. We believe that our growth outpaced the overall industry due to a gain in market share as we captured additional customer spend, and focused on faster growing segments within the market, such as virtualization, collaboration, and security. In addition, we added new customers

as a result of our own organic sales and marketing efforts as well as through increased vendor referrals.

Net earnings for the quarter increased 39.1% to \$12.0 million, as compared to the three months ended September 30, 2013 and for the current six months increased 30.3% to \$21.4 million, as compared to the six months ended September 30, 2013. Diluted earnings per share increased 53.8% to \$1.63, and 40.9% to \$2.86 per share for the three and six months ended September 30, 2014, respectively, as compared to \$1.06 and \$2.03 per share for the three and six months ended September 30, 2013.

Table of Contents

Consolidated gross margins were 21.5% for the three months ended September 30, 2014, compared to 19.5% for the three months ended September 30, 2013. Consolidated gross margins were 21.1% for the six months ended September 30, 2014, compared to 19.9% for the same period for the prior fiscal year. Our gross margin for product and services was 19.5% and 19.0% during the three and six months ended September 30, 2014, respectively, compared to 17.8% and 17.7% during the three and six months ended September 30, 2013. The increase in gross margins was due to shifts in our product mix resulting from our continued focus on value added services for our customers, including the sale of third party maintenance agreements on core elements of our customers' IT environment. Revenues on the sale of third party services, such as software assurances and maintenance, are recognized on a net basis.

Cash and cash equivalents decreased \$17.2 million or 21.5% to \$62.9 million at September 30, 2014 compared to March 31, 2014. The decrease in our cash and cash equivalents was due, in part, to share repurchases during the six months ended September 30, 2014 and the acquisition of Evolve. Share repurchases included 400,000 shares of our common stock for \$19.0 million in connection with the public underwritten secondary offering by certain of our existing shareholders. During the six months ended September 30, 2014, we repurchased 651,019 shares of our common stock for a total purchase price of \$32.8 million. Our cash on hand, funds generated from operations, amounts available under our credit facility and the possible monetization of our investment portfolio provide sufficient liquidity for our business.

Segment Overview

Technology Segment

The technology segment sells IT products, software, advance professional and managed services, and third party services primarily to corporate customers, state and local governments, and higher education institutions on a nationwide basis, with geographic concentrations relating to our physical locations. The technology segment also provides Internet-based business-to-business supply chain management solutions for information technology products. Our technology segment derives revenue from the sales of new equipment and service engagements. Customers who purchase IT equipment and services from us may have customer master agreements, or CMAs, with our company, which stipulate the terms and conditions of the relationship. Some CMAs contain pricing arrangements, and most contain mutual voluntary termination clauses. Our other customers place orders using purchase orders without a CMA in place or with other documentation customary for the business. Often, our work with state and local governments is based on public bids and our written bid responses.

A substantial portion of our sales of product and services are from sales of Cisco Systems, Hewlett-Packard, and NetApp products, which represent approximately 56%, 8%, and 6%, and 52%, 8%, and 6% of sales of product and services, respectively, for the three and six months ended September 30, 2014 as compared to 47%, 11%, and 6%, and 51%, 10%, and 7%, of total revenues, respectively, for the three and six months ended September 30, 2013. Included in the sales of product and services are revenues derived from performing advanced professional and managed services that may be sold together with and integral to third-party products and software. Our advanced professional service engagements are generally governed by statements of work, and are primarily fixed price (with allowance for changes); however, some service agreements are based on time and materials. Our managed services arrangements are for terms of one, two, or three year periods.

We endeavor to minimize the cost of sales in our technology segment through vendor consideration programs provided by vendors and other incentives provided by distributors. The programs we qualify for are generally set by our reseller authorization level with the vendor. The authorization level we achieve and maintain governs the types of products we can resell as well as such items as pricing received, funds provided for the marketing of these products and other special promotions. These authorization levels are achieved by us through purchase volume, certifications held by sales executives or engineers and/or contractual commitments by us. The authorization levels are costly to

maintain and these programs continually change and, therefore, there is no guarantee of future reductions of costs provided by these vendor consideration programs. Certain of our sales qualify for incentives that are related to specific customers and products that they may purchase.

Table of Contents

We currently maintain the following authorization levels with our primary vendors:

Vendor	Vendor Authorization Level

VMware	National Premier Partner

We also generate revenue in our technology segment through hosting arrangements, sales of our Internet-based business-to-business supply chain management software and related maintenance, and agent fees received from various vendors.

Our revenues include earnings from certain transactions that are infrequent, and there is no guarantee that future transactions of the same nature, size or profitability will occur. Our ability to consummate such transactions, and the timing thereof, may depend largely upon factors outside the direct control of management. The earnings from these types of transactions in a particular period may not be indicative of the earnings that can be expected in future periods. These revenues are reflected on our condensed consolidated statements of operations under fee and other income.

Table of Contents

Financing Segment

The financing segment offers financing solutions to domestic governmental entities and corporations nationwide and in certain other countries. The financing segment derives revenue from leasing IT and medical equipment and the disposition of that equipment at the end of the lease. The financing segment also derives revenues from the financing of third-party software licenses, software assurance, maintenance and other services. Financing revenue generally falls into three categories: portfolio income, transactional gains and post-contract earnings.

- Portfolio income consists of interest income from financing receivables and rents due under operating leases;
- Transactional gains consist of net gains or losses on the sale of financial assets; and
- Post-contract earnings include month-to-month rents; early termination, prepayment, make-whole, or buyout fees; and net gains on the sale of off-lease (used) equipment.

The types of revenue and costs recognized for investments in leases are determined by each lease's classification. Each lease is classified as either a direct financing lease, sales-type lease, or operating lease, as appropriate.

For direct financing and sales-type leases, we record the net investment in leases, which consists of the sum of the minimum lease payments, initial direct costs (direct financing leases only), and unguaranteed residual value (gross investment) less the unearned income. The unearned income is amortized over the life of the lease using the interest method. Under sales-type leases, the difference between the present value of minimum lease payments and the cost of the leased property plus initial direct costs (net margins) is recorded as profit at the inception of the lease.

For operating leases, rental amounts are accrued on a straight-line basis over the lease term and are recognized as financing revenue.

We enter into arrangements to transfer the contractual payments due under financing arrangements, which are accounted for as sales or secured borrowings in accordance with Codification Topic, Transfers and Servicing. For transfers accounted for as sales, we derecognize the carrying value of the asset transferred and recognize a net gain or loss on the sale, which is presented within financing revenues in the unaudited condensed consolidated statement of operations. For transfers accounted for as a secured borrowing, the corresponding investments serve as collateral for non-recourse notes payable. We classify the interest and financing costs associated with these borrowings as an operating expense, consistent with industry practice.

Our financing segment sells the equipment underlying a lease to the lessee or a third-party other than the lessee. These sales occur at the end of the lease term and revenues from the sales of such equipment are recognized at the date of sale.

We also recognize revenue from events that occur after the initial sale of a financial asset and remarketing fees from certain residual value investments. These revenues are reflected in our unaudited condensed consolidated statements of operations under fee and other income.

Fluctuations in Revenues

Our results of operations are susceptible to fluctuations for a number of reasons, including, without limitation, customer demand for our products and services, supplier costs, changes in vendor incentive programs, interest rate fluctuations, general economic conditions, and differences between estimated residual values and actual amounts realized related to the equipment we lease. Operating results could also fluctuate as a result of a sale prior to the expiration of the lease term to the lessee or to a third-party or from other post-term events.

We expect to continue to expand by opening new sales locations and hiring additional staff for specific targeted market areas in the near future whenever we can find both experienced personnel and desirable geographic areas. These investments may reduce our results from operations in the short term.

Table of Contents

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, or different assumptions were made, it is possible that alternative accounting policies would have been applied, resulting in a change in financial results. On an ongoing basis, we reevaluate our estimates, including those related to revenue recognition, residual values, vendor consideration, lease classification, goodwill and intangibles, reserves for credit losses and income taxes specifically relating to uncertain tax positions. We base estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. For all such estimates, we caution that future events rarely develop exactly as forecasted, and therefore, these estimates may require adjustment.

Our critical accounting estimates have not changed from those reported in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2014 Annual Report.

RESULTS OF OPERATIONS

The Three and Six Months Ended September 30, 2014 Compared to the Three and Six Months Ended September 30, 2013

Technology Segment

The results of operations for our technology segment for the three and six months ended September 30, 2014 and 2013 were as follows (dollars in thousands):

	Three Months Ended September 30,				Six Months Ended September 30,			
	2014	2013	Change		2014	2013	Change	
Sales of product and services	\$286,584	\$261,283	\$25,301	9.7 %	\$547,940	\$508,320	\$39,620	7.8 %
Fee and other income	1,782	1,829	(47)	(2.6 %)	3,829	3,286	543	16.5 %
Total revenues	288,366	263,112	25,254	9.6 %	551,769	511,606	40,163	7.9 %
Cost of sales, product and services	230,742	214,854	15,888	7.4 %	443,650	418,184	25,466	6.1 %
Professional and other fees	1,321	1,580	(259)	(16.4%)	2,907	4,443	(1,536)	(34.6%)
Salaries and benefits	31,963	27,244	4,719	17.3 %	62,633	55,142	7,491	13.6 %
General and administrative	6,703	5,701	1,002	17.6 %	12,461	10,515	1,946	18.5 %
Interest and financing costs	19	26	(7)	(26.9%)	58	46	12	26.1 %
Operating expenses	40,006	34,551	5,455	15.8 %	78,059	70,146	7,913	11.3 %
Segment earnings	\$17,618	\$13,707	\$3,911	28.5 %	\$30,060	\$23,276	\$6,784	29.1 %

Total revenues: Total revenues during the three months ended September 30, 2014 were \$288.4 million compared to \$263.1 million during the three months ended September 30, 2013, an increase of 9.6%, which was due to increases in demand for our products and services. Total revenues increased 7.9% during the six months ended September 30, 2014 to \$551.8 million compared to \$511.6 million during the six months ended September 30, 2013. The increase in revenues for the current quarter and six month period was primarily from our large and middle market commercial customers.

Total sales of product and services before the adjustment to present third party services on a net basis, or gross revenues, for the three months ended September 30, 2014 were \$392.2 million compared to \$321.2 million during the three months ended September 30, 2013, an increase of 22.1% or \$71.0 million. Total sales of product and services presented on a gross basis increased 14.9% or \$93.3 million during the six months ended September 30, 2014 to \$717.7 million compared to \$624.4 million during the six months ended September 30, 2013.

Table of Contents

We experienced year over year increases in the sales of product and services for all the quarters ended from September 30, 2013 through September 30, 2014, as summarized below:

Quarter Ended	Sequential Year over Year	
September 30, 2014	9.7%	9.7%
June 30, 2014	4.8%	5.8%
March 31, 2014	(2.5%)	11.4%
December 31, 2013	(2.1%)	12.1%
September 30, 2013	5.8%	4.4%

We rely on our vendors to fulfill shipments to our customers. As of September 30, 2014, we had open orders of \$89.8 million and deferred revenue of \$24.2 million. As of September 30, 2013, we had open orders of \$65.7 million and deferred revenues of \$14.1 million.

Cost of sales, product and services: Our gross margin for product and services was 19.5% and 17.8% during the three months ended September 30, 2014 and 2013, respectively. Our gross margin for product and services was 19.0% and 17.7% during the six months ended September 30, 2014 and 2013, respectively. The increase in our gross margin was impacted by the increase in sales of third party software assurance, maintenance and services, which are presented on a net basis. The change in the amount of vendor incentives earned during the three and six months ended September 30, 2014 resulted in a 0.1% increase in gross margins from the prior year. There are ongoing changes to the incentives programs offered to us by our vendors. Accordingly, if we are unable to maintain the level of manufacturer incentives we are currently receiving, gross margins may decrease.

Our gross margin on sales of product and services increased sequentially from 18.5% for the three months ended June 30, 2014 to 19.5% for the three months ended September 30, 2014. This increase was due to increases in sales of third party software assurance, maintenance and services, which are presented on a net basis. Also contributing to the gross margin increase was an increase in higher margin service revenues and vendor rebates earned during the three months ended September 30, 2014.

Operating expenses: Operating expenses were \$40.0 million for the current quarter or 15.8% higher than the three months ended September 30, 2013. Operating expenses were \$78.1 million, or 11.3%, higher than the six months ended September 30, 2013. These increases were due to increases in personnel, commissions, and general and administrative expenses.

Professional and other fees decreased \$0.3 million, or 16.4%, to \$1.3 million for the three months ended September 30, 2014, compared to \$1.6 million during the three months ended September 30, 2013. This decrease was primarily due to a decrease of \$0.3 in legal and other fees related to the patent infringement litigation. During the six months ended September 30, 2014, professional and other fees decreased \$1.5 million, or 34.6%, to \$2.9 million, compared to \$4.4 million during the six months ended September 30, 2013. This decrease was primarily due to lower legal and other fees related to the patent infringement litigation, which were \$1.3 million lower for the six months ended September 30, 2014 than in the prior year.

Salaries and benefits expense increased \$4.7 million, or 17.3%, to \$32.0 million during the three months ended September 30, 2014, compared to \$27.2 million during the three months ended September 30, 2013, of which 57% was due to variable compensation as a result of the increase in gross profit. For the six months ended September 30, 2014, salaries and benefits expense increased \$7.5 million, or 13.6%, to \$62.6 million, compared to \$55.1 million during the six months ended September 30, 2013, of which 47% related to increases in variable compensation due to higher gross profit. The remaining increases were from increases in the number of employees and related benefits. Our technology segment had 928 employees as of September 30, 2014, an increase of 47 from 881 at September 30,

2013. Most of the increase in personnel relates to sales and engineering positions due to both internal growth and the acquisition of Evolve, which added 24 new employees. We continue to invest in sales and engineering talent in order to expand our geographical presence in the continental U.S. as well as extend our advanced technology solutions offerings.

General and administrative expenses increased \$1.0 million, or 17.6% during the three months ended September 30, 2014 over the same period for prior year. For the six months ended September 30, 2014, general and administrative expenses increased \$1.9 million, or 18.5% over the same period for prior year. This increase was primarily due to increases in office locations and our sales force and engineering team as a result of our continued expansion efforts, which resulted in higher rent and travel expenses, depreciation and amortization expense, and an increase in software license expenses.

Table of Contents

Segment earnings: As a result of the foregoing, segment earnings was \$17.6 million, an increase of \$3.9 million, or 28.5% for the three months ended September 30, 2014, and segment earnings was \$30.1 million, an increase of \$6.8 million, or 29.1% for the six months ended September 30, 2014 over the same period for the prior year.

Financing Segment

The results of operations for our financing segment for the three and six months ended September 30, 2014 and 2013 were as follows (dollars in thousands):

	Three Months Ended September 30,				Six Months Ended September 30,			
	2014	2013	Change		2014	2013	Change	
Financing revenue	\$9,059	\$8,001	\$1,058	13.2 %	\$17,933	\$18,761	\$(828)	(4.4 %)
Fee and other income	47	16	31	193.8%	74	79	(5)	(6.3 %)
Total revenues	9,106	8,017	1,089	13.6 %	18,007	18,840	(833)	(4.4 %)
Direct lease costs	2,806	3,495	(689)	(19.7 %)	5,763	6,748	(985)	(14.6 %)
Professional and other fees	256	328	(72)	(22.0 %)	503	703	(200)	(28.4 %)
Salaries and benefits	2,289	2,441	(152)	(6.2 %)	4,566	5,225	(659)	(12.6 %)
General and administrative	455	358	97	27.1 %	970	545	425	78.0 %
Interest and financing costs	592	407	185	45.5 %	1,197	847	350	41.3 %
Operating expenses	3,592	3,534	58	1.6 %	7,236	7,320	(84)	(1.1 %)
Operating income	2,708	988	1,720	174.1 %	5,008	4,772	236	4.9 %
Other income	-	-	-	0.0 %	1,434	-	1,434	0.0 %
Segment earnings	\$2,708	\$988	\$1,720	174.1 %	\$6,442	\$4,772	\$1,670	35.0 %

Total revenues: Total revenues increased by \$1.1 million, or 13.6%, to \$9.1 million for the three months ended September 30, 2014, as compared to the three months ended September 30, 2013 predominately due to higher post contract earnings from the sales of off-lease equipment and an increase in customer renewal rents; which were partially offset by lower transactional gains on the sale of financial assets. During the quarters ended September 30, 2014 and 2013, we recognized net gains on sales of financial assets of \$0.9 million and \$1.2 million, respectively, and the fair value of assets received from these sales were \$37.6 million and \$34.9 million, respectively. Post contract earnings increased \$1.2 million to \$3.4 million for the three months ended September 30, 2014 over the prior year period.

For the six months ended September 30, 2014, total revenues decreased by \$0.8 million, or 4.4%, to \$18.0 million, as compared to the six months ended September 30, 2013 due to lower transactional gains on the sale of financial assets; partially offset by higher post contract earnings due to an increase in customer renewal rents. During the six months ended September 30, 2014 and 2013, we recognized net gains on sales of financial assets of \$3.2 million and \$5.6 million, respectively, and the fair value of assets obtained from these sales were \$93.8 million and \$122.4 million, respectively. Post contract earnings increased \$1.8 million to \$5.5 million for the six months ended September 30, 2014 over the prior year period.

At September 30, 2014, we had \$159.4 million of investments in financing receivables and operating leases, compared to \$140.5 million as of September 30, 2013, an increase of \$18.9 million or 13.4%.

Direct lease costs: Direct lease costs decreased \$0.7 million, or 19.7%, to \$2.8 million and decreased \$1.0 million, or 14.6%, to \$5.8 million for the three and six months ended September 30, 2014, respectively, mostly due to decreases in depreciation expense for equipment under operating leases as compared to the same periods for the prior year.

Operating expenses: For the three months ended September 30, 2014, operating expenses increased \$0.1 million, or 1.6%. For the six months ended September 30, 2014, operating expenses decreased \$0.1 million, or 1.1%. Salaries and benefits decreased \$0.7 million, or 12.6% to \$4.6 million due to a decrease in personnel within this segment. General and administrative expenses increased \$0.4 million, due primarily to an increase in our reserve for credit losses. Interest and financing costs increased \$0.2 million and \$0.4 million, respectively, for the three month and six months over prior year periods due to an increase in total notes payable to \$68.1 million as of September 30, 2014, an increase of \$24.5 million or 56.0% compared to \$43.7 million as of September 30, 2013. Our weighted average interest rate for non-recourse notes payable was 3.31% and 3.82%, as of September 30, 2014 and September 30, 2013, respectively.

Other income: In April 2014, we entered into an arrangement to repurchase the rights, title, and interest to payments due under a financing arrangement. This financing arrangement was previously assigned to a third party financial institution and accounted for as a secured borrowing. In conjunction with the repurchase agreement, we recognized a gain of \$1.4 million, which is presented within other income in our unaudited condensed consolidated statement of operations. There was no other income recognized in the three months ended September 30, 2014, or in the prior year.

Table of Contents

Segment earnings: As a result of the foregoing, earnings increased \$1.7 million for both the three and six months ended September 30, 2014, respectively, over the prior year periods.

Consolidated

Income taxes: Our provision for income tax expense was \$8.4 million and \$15.1 million for the three and six months ended September 30, 2014 as compared to \$6.1 million and \$11.6 million for the same periods last year. Our effective income tax rates for the three and six months ended September 30, 2014 was 41.2% and 41.3%, as compared to 41.5% and 41.4% for the three and six months ended September 30, 2013.

Net earnings: The foregoing resulted in net earnings of \$12.0 million for the three months ended September 30, 2014, an increase of 39.1%, as compared to \$8.6 million during the three months ended September 30, 2013. For the six months ended September 30, 2014, net earnings was \$21.4 million, an increase of 30.3%, as compared to \$16.4 million for the six months ended September 30, 2013.

Basic and fully diluted earnings per common share were \$1.63 for the three months ended September 30, 2014, as compared to \$1.07 and \$1.06, respectively, for the three months ended September 30, 2013. Basic and fully diluted earnings per common share were \$2.88 and \$2.86, respectively, for the six months ended September 30, 2014, as compared to \$2.05 and \$2.03, respectively, for the six months ended September 30, 2013.

Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the three months ended September 30, 2014 were 7.3 million. Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the three months ended September 30, 2013 were 8.0 million.

Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the six months ended September 30, 2014 were 7.4 million and 7.5 million, respectively. Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the six months ended September 30, 2013 were 7.9 million and 8.0 million, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity Overview

Our primary sources of liquidity have historically been cash and cash equivalents, internally generated funds from operations, and borrowings, both non-recourse and recourse. We have used those funds to meet our capital requirements, which have historically consisted primarily of working capital for operational needs, capital expenditures, purchases of equipment or software that are financed for our customers, payments of principal and interest on indebtedness outstanding, acquisitions and the repurchase of shares of our common stock.

Our subsidiary ePlus Technology, inc., part of our technology segment, finances its operations with funds generated from operations, and with a credit facility with GE Commercial Distribution Finance, or GECDF, with an aggregate credit limit of \$225 million. There are two components of this facility: (1) a floor plan component; and (2) an accounts receivable component. After a customer places a purchase order with us and we have completed our credit check, we place an order for the equipment with one of our vendors. Generally, most purchase orders from us to our vendors are first financed under the floor plan component and reflected in “accounts payable—floor plan” in our unaudited condensed consolidated balance sheets. Payments on the floor plan component are due on three specified dates each month, generally 30-60 days from the invoice date. On the due date of the invoices financed by the floor plan component, the invoices are paid by the accounts receivable component of the credit facility. The balance of the accounts receivable

component is then reduced by payments from our available cash. The outstanding balance under the accounts receivable component is recorded as recourse notes payable on our unaudited condensed consolidated balance sheets. There was no outstanding balance at September 30, 2014 or March 31, 2014, while the maximum credit limit was \$30.0 million for both periods. The borrowings and repayments under the floor plan component are reflected as “net borrowings on floor plan facility” in the cash flows from financing activities section of our unaudited condensed consolidated statements of cash flows.

Table of Contents

Most customer payments in our technology segment are remitted to our lockboxes. Once payments are cleared, the monies in the lockbox accounts are automatically transferred to our operating account on a daily basis. On the due dates of the floor plan component, we make cash payments to GECDF. These payments from the accounts receivable component to the floor plan component and repayments from our cash are reflected as “net borrowings on floor plan facility” in the cash flows from financing activities section of our unaudited condensed consolidated statements of cash flows. We engage in this payment structure in order to minimize our interest expense and bank fees in connection with financing the operations of our technology segment.

We believe that cash on hand, and funds generated from operations, together with available credit under our credit facility, will be sufficient to finance our working capital, capital expenditures and other requirements for at least the next twelve calendar months.

Our working capital generally fluctuates as a result of changes in demand for our products and services; however, specific changes in certain elements of working capital may not coincide with changes in other elements of our financial statements. For example, accounts receivable-trade may change by more or less than the change in our revenues, as there are variables impacting accounts receivable that may not impact revenues, such as the amount of third-party software assurance, maintenance and services invoiced, for which revenues are presented on a net basis, or significant changes in our deferred revenues.

We experience fluctuations in certain working capital accounts, which are primarily due to changes in the timing of purchases of equipment by our customers throughout the comparative periods. Our accounts receivable—trade decreased by \$5.5 million, and inventories-net increased \$8.2 million from March 31, 2014. We also experienced a decrease in accounts payable—trade of \$28.8 million, which was offset by an increase in accounts payable—floor plan of \$27.2 million. Our accounts payable—floor plan consists of purchases through the GECDF credit facility, which are generally paid within 30-60 days from the invoice date. We experience fluctuations in accounts payable—equipment due to timing of purchases of assets that will be leased or financed for our customers and accounts payable – equipment increased \$15.0 million from March 31, 2014.

Our ability to continue to fund our planned growth, both internally and externally, is dependent upon our ability to generate sufficient cash flow from operations or to obtain additional funds through equity or debt financing, or from other sources of financing, as may be required. While at this time we do not anticipate requiring any additional sources of financing to fund operations, if demand for IT products declines, our cash flows from operations may be substantially affected.

Cash Flows

The following table summarizes our sources and uses of cash over the periods indicated (in thousands):

	Six Months Ended	
	September 30,	
	2014	2013
Net cash (used in) provided by operating activities	\$(10,995)	\$5,561
Net cash used in investing activities	(22,182)	(25,333)
Net cash provided by financing activities	15,948	20,748
Effect of exchange rate changes on cash	(9)	-
Net (decrease) increase in cash and cash equivalents	\$(17,238)	\$976

Net cash used in operating activities. Cash used in operating activities totaled \$11.0 million during the six months ended September 30, 2014. Net earnings adjusted for the impact of non-cash items was \$19.6 million. Net changes in

assets and liabilities resulted in a decrease of cash and cash equivalents of \$30.6 million, primarily due to cash used for accounts payable—trade of \$29.3 million, cash used for inventories and financing receivables, partially offset by changes in accounts receivable-trade, salaries and commissions payable, and deferred costs and other assets.

Cash provided by operating activities totaled \$5.6 million during the six months ended September 30, 2013. Net earnings adjusted for the impact of non-cash items was \$15.4 million. Net changes in assets and liabilities resulted in a decrease of \$9.8 million due to decreases in accounts receivable—trade of \$12.9 million, offset by increases in accounts receivable—other of \$4.1 million, inventories of \$5.0 million and investment in direct financing and sales-type leases—net of \$7.6 million, and decreases in salaries and commission payable, accrued expenses and other liabilities and deferred revenue of \$8.4 million.

Table of Contents

Net cash used in investing activities. Cash used in investing activities was \$22.2 million during the six months ended September 30, 2014. Cash used in investing activities during the six months ended September 30, 2014 was primarily driven by an issuance of financing receivables of \$51.2 million, purchase of assets to be leased and property and equipment of \$11.9 million, and cash used in acquisitions of \$7.8 million, which was partially offset by cash proceeds from the sale of financing receivable of \$12.3 million, the repayment of financing receivables of \$28.1 million, and proceeds from sale of property, equipment and operating lease assets of \$5.8 million.

Cash used in investing activities was \$25.3 million during the six months ended September 30, 2013, which was primarily driven by issuance of notes receivable (net of issuance, proceeds from the sale on notes, and repayments) of \$14.4 million, purchase of assets to be leased of \$7.0 million, and purchases of property, equipment and operating lease equipment of \$6.8 million.

Net cash provided by (used in) financing activities. Cash provided by financing activities of \$15.9 million during the six months ended September 30, 2014 was due to net borrowings on the floor plan facility of \$20.7 million and net borrowings of non-recourse and recourse notes payable of \$29.3 million, partially offset by the repurchase of common stock of \$34.8 million. In the prior year, cash provided by financing activities was \$20.7 million during the six month period, which was due to net borrowings on the floor plan facility of \$14.0 million and net borrowings of non-recourse and recourse notes payable of \$11.6 million, partially offset by the purchase of treasury stock of \$5.9 million.

Non-Cash Activities

We transfer financial assets to third-party financial institutions, some of which are accounted for as secured borrowings. As a condition to the agreement, certain financial institutions may request the customer remit their payments to a trustee rather than to us, and the trustee pays the financial institution. Alternatively, if the structure of the agreement does not require a trustee, the customer will continue to make payments to us, and we will remit the payment to the financial institution. The economic impact to us under either structure is similar, in that the assigned contractual payments are paid by the customer and remitted to the lender to pay down the corresponding non-recourse notes payable. However, these structures are classified differently within our unaudited condensed consolidated statement of cash flows. More specifically, we are required to exclude non-cash transactions from our unaudited condensed consolidated statement of cash flows, so payments made by our customer to the trustee are excluded from our operating or investing cash receipts and the corresponding re-payment of the non-recourse notes payable from the trustee to the third party financial institution are excluded from our cash flows from financing activities. Given that the transfer of these payments is economically the same regardless of the structure of the payments, we evaluate our cash flows from operating, investing and financing activities as if the transfer had been structured without an intermediary.

The non-GAAP financial measure for our cash flows from operating activities is as follows (in thousands):

	Six Months Ended September 30,	
	2014	2013
GAAP: net cash (used in) provided by operating activities	\$(10,995)	\$5,561
Principal payments from customers directly to lenders	7,009	9,084
Non-GAAP: adjusted net cash provided by operating activities	\$(3,986)	\$14,645

The non-GAAP financial measure for our cash flows from investing activities is as follows (in thousands):

	Six Months Ended September 30,	
	2014	2013

Edgar Filing: SIGHT RESOURCE CORP - Form 8-K

GAAP: net cash used in investing activities	\$(22,182)	\$(25,333)
Principal payments from customers directly to lenders	12,162	631
Non-GAAP: adjusted net cash (used in) investing activities	\$(10,020)	\$(24,702)

33

Table of Contents

The non-GAAP financial measure for our cash flows from financing activities is as follows (in thousands):

	Six Months Ended	
	September 30,	
	2014	2013
GAAP: net cash provided by financing activities	\$15,948	\$20,748
Principal payments from customers directly to lenders	(19,171)	(9,715)
Non-GAAP: adjusted net cash (used in) provided by financing activities	\$(3,223)	\$11,033

A “non-GAAP financial measure” is a numerical measure of a company’s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with U.S. GAAP in the statement of income, balance sheet or statement of cash flows of the company; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. We use the financial measures in our internal evaluation and management of our business. We believe that these measures and the information they provide are useful to investors because they permit investors to view our performance using the same tools that we use and to better evaluate our ongoing business performance. These measures should not be considered an alternative to measurements required by U.S. GAAP, such as cash provided by (used in) operating activities, cash provided by (used in) investing activities and cash provided by (used in) financing activities. These non-GAAP measures are unlikely to be comparable to non-GAAP information provided by other companies.

Liquidity and Capital Resources

We may utilize non-recourse notes payable to finance approximately 80% to 100% of the purchase price of the products being leased by our customers. Any balance of the purchase price remaining after non-recourse funding and any upfront payments received from the lessee (our equity investment in the equipment) must generally be financed by cash flows from our operations, the sale of the equipment leased to third parties, or other internal means. Although we expect that the credit quality of our leases and our residual return history will continue to allow us to obtain such financing, such financing may not be available on acceptable terms, or at all.

The financing necessary to support our lease and financing activities has been provided by our cash and non-recourse borrowings. We monitor our exposure closely. Historically, we have obtained mostly non-recourse borrowings from banks and finance companies. We continue to be able to obtain financing through our traditional lending sources. Non-recourse financings are loans whose repayment is the responsibility of a specific customer, although we may make representations and warranties to the lender regarding the specific contract or have ongoing loan servicing obligations. Under a non-recourse loan, we borrow from a lender an amount based on the present value of the contractually committed lease payments under the lease at a fixed rate of interest, and the lender secures a lien on the financed assets. When the lender is fully repaid from the lease payments, the lien is released and all further rental or sale proceeds are ours. We are not liable for the repayment of non-recourse loans unless we breach our representations and warranties in the loan agreements. The lender assumes the credit risk of each lease, and the lender’s only recourse, upon default by the lessee, is against the lessee and the specific equipment under lease. At September 30, 2014, our non-recourse notes payable decreased 0.1% to \$65.3 million, as compared to \$65.3 million at March 31, 2014. Recourse notes payable decreased 19.8% to \$2.9 million as of September 30, 2014 compared to \$3.6 million as of March 31, 2014.

Whenever desirable, we arrange for equity investment financing, which includes selling lease payments, including the residual portions, to third parties and financing the equity investment on a non-recourse basis. We generally retain customer control and operational services, and have minimal residual risk. We usually reserve the right to share in

remarketing proceeds of the equipment on a subordinated basis after the investor has received an agreed-to return on its investment.

Credit Facility — ePlus Technology, inc.

Our subsidiary, ePlus Technology, inc., has a financing facility from GECDP to finance its working capital requirements for inventories and accounts receivable. There are two components of this facility: (1) a floor plan component; and (2) an accounts receivable component. This facility has full recourse to ePlus Technology, inc. and is secured by a blanket lien against all its assets, such as chattel paper, receivables, and inventory. As of September 30, 2014, the facility had an aggregate limit of the two components of \$225.0 million with an accounts receivable sub-limit of \$30.0 million.

Table of Contents

Availability under the facility may be limited by the asset value of equipment we purchase or accounts receivable, and may be further limited by certain covenants and terms and conditions of the facility. These covenants include but are not limited to a minimum excess availability of the facility and minimum earnings before interest, taxes, depreciation and amortization (EBITDA) of ePlus Technology, inc. We were in compliance with these covenants as of September 30, 2014. Interest on the facility is assessed at a rate of the One Month LIBOR plus two and one half percent if the payments are not made on the three specified dates each month. The facility also requires that financial statements of ePlus Technology, inc. be provided within 45 days of each quarter and 90 days of each fiscal year end and also requires other operational reports be provided on a regular basis. Either party may terminate the facility with 90 days advance written notice.

We are not, and do not believe that we are reasonably likely to be, in breach of the GECDF credit facility. In addition, we do not believe that the covenants of the GECDF credit facility materially limit our ability to undertake financing. In this regard, the covenants apply only to our subsidiary, ePlus Technology, inc. This credit facility is secured by the assets of only ePlus Technology, inc. and the guaranty as described below.

The facility provided by GECDF requires a guaranty of \$10.5 million by ePlus inc. The guaranty requires ePlus inc. to deliver its annual audited financial statements by a certain date. We have delivered the annual audited financial statements for the year ended March 31, 2014, as required. The loss of the GECDF credit facility could have a material adverse effect on our future results as we currently rely on this facility and its components for daily working capital and liquidity for our technology segment and as an operational function of our accounts payable process.

Floor Plan Component

The traditional business of ePlus Technology, inc. as a seller of computer technology, related peripherals and software products, is in part financed through a floor plan component in which interest expense for the first thirty to sixty days, in general, is not charged. The floor plan liabilities are recorded as accounts payable—floor plan on our unaudited condensed consolidated balance sheets, as they are normally repaid within the fifteen to sixty-day time frame and represent assigned accounts payable originally generated with the manufacturer/distributor. In some cases we are able to pay invoices early and receive a discount, but if the fifteen to sixty-day obligation is not paid timely, interest is then assessed at stated contractual rates.

The respective floor plan component credit limits and actual outstanding balances for the dates indicated were as follows (in thousands):

Maximum Credit Limit at September 30, 2014	Balance as of September 30, 2014	Maximum Credit Limit at March 31,2014	Balance as of March 31, 2014
\$225,000	\$120,631	\$175,000	\$93,416

Accounts Receivable Component

Included within the credit facility, ePlus Technology, inc. has an accounts receivable component from GECDF, which has a revolving line of credit. On the due date of the invoices financed by the floor plan component, the invoices are paid by the accounts receivable component of the credit facility. The balance of the accounts receivable component is then reduced by payments from our available cash. The outstanding balance under the accounts receivable component is recorded as recourse notes payable on our unaudited condensed consolidated balance sheets. There was no outstanding balance at September 30, 2014 or March 31, 2014, while the maximum credit limit was \$30.0 million for both periods.

Credit Facility — General

First Virginia Community Bank provides us with a \$0.5 million credit facility, which will mature on October 26, 2015. The credit facility is available for use by us and our affiliates and is full recourse to us. Borrowings under this facility bear interest at Wall Street Journal U.S. Prime rate plus 1%. The primary purpose of the facility is to provide letters of credit for landlords, taxing authorities and bids. As of September 30, 2014, we had no outstanding balance on this credit facility.

Table of Contents

Performance Guarantees

In the normal course of business, we may provide certain customers with performance guarantees, which are generally backed by surety bonds. In general, we would only be liable for the amount of these guarantees in the event of default in the performance of our obligations. We are in compliance with the material performance obligations under all service contracts for which there is a performance guarantee, and we believe that any liability incurred in connection with these guarantees would not have a material adverse effect on our financial condition or results of operations.

Off-Balance Sheet Arrangements

As part of our ongoing business, we do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K or other contractually narrow or limited purposes. As of September 30, 2014, we were not involved in any unconsolidated special purpose entity transactions.

Adequacy of Capital Resources

The continued implementation of our business strategy will require a significant investment in both resources and managerial focus. In addition, we may selectively acquire other companies that have attractive customer relationships and skilled sales and/or engineering forces. We may also start offices in new geographic areas, which may require a significant investment of cash. We may also acquire technology companies to expand and enhance the platform of bundled solutions to provide additional functionality and value-added services. We may continue to use our internally generated funds to finance investments in leased assets or investments in notes receivables due from our customers. As a result, we may require additional financing to fund our strategy, implementation and potential future acquisitions, which may include additional debt and equity financing.

Inflation

For the periods presented herein, inflation has been relatively low and we believe that inflation has not had a material effect on our results of operations.

Potential Fluctuations in Quarterly Operating Results

Our future quarterly operating results and the market price of our common stock may fluctuate. In the event our revenues or earnings for any quarter are less than the level expected by securities analysts or the market in general, such shortfall could have an immediate and significant adverse impact on the market price of our common stock. Any such adverse impact could be greater if any such shortfall occurs near the time of any material decrease in any widely followed stock index or in the market price of the stock of one or more public equipment leasing and financing companies, IT resellers, software competitors, major customers or vendors of ours.

Our quarterly results of operations are susceptible to fluctuations for a number of reasons, including, but not limited to, reduction in IT spending, any reduction of expected residual values related to the equipment under our leases, the timing and mix of specific transactions, the reduction of manufacturer incentive programs, and other factors. Quarterly operating results could also fluctuate as a result of our sale of equipment in our lease portfolio at the expiration of a lease term or prior to such expiration, to a lessee or to a third party and the transfer of financial assets. Sales of equipment and transfers of financial assets may have the effect of increasing revenues and net income during the quarter in which the sale occurs, and reducing revenues and net income otherwise expected in subsequent quarters. See Part I, Item 1A, "Risk Factors," in our 2014 Annual Report.

We believe that comparisons of quarterly results of our operations are not necessarily meaningful and that results for one quarter should not be relied upon as an indication of future performance.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Although a portion of our liabilities are non-recourse, fixed-interest-rate instruments, we utilize our line of credit and other financing facilities which are subject to fluctuations in short-term interest rates. These instruments, which are denominated in U.S. dollars, were entered into for other than trading purposes and, with the exception of amounts drawn under the GECDF facility, bear interest at a fixed rate. Because the interest rate on these instruments is fixed, changes in interest rates will not directly impact our cash flows. Changes in interest rates may affect our ability to fund or transfer our financing arrangements if the rate rises above the fixed rate of the instrument. Borrowings under the GECDF facility bear interest at a market-based variable rate. As of September 30, 2014, the aggregate fair value of our non-recourse notes payable approximated their carrying value.

We have financed certain customer leases for equipment which is located in Canada and Iceland. As such, we have entered into lease contracts and non-recourse, fixed-interest-rate financing denominated in Canadian dollars and Icelandic krona. To date, our Canadian and Icelandic operations have been insignificant and we believe that potential fluctuations in currency exchange rates will not have a material effect on our financial position.

Item 4. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and our Chief Financial Officer (“CFO”), of the effectiveness of the design and operation of our disclosure controls and procedures, or “disclosure controls,” as defined in Securities Exchange Act of 1934 (“Exchange Act”) Rule 13a-15(e). Disclosure controls are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this quarterly report, is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission’s rules and forms. Disclosure controls include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Our disclosure controls include some, but not all, components of our internal control over financial reporting. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of September 30, 2014.

Changes in Internal Controls

There have not been any changes in our internal control over financial reporting during the quarter ended September 30, 2014, which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Our management, including our CEO and CFO, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system cannot provide absolute assurance due to its inherent limitations; it is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. A control system also can be circumvented by collusion or improper management override. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of such limitations, disclosure controls and internal control over financial reporting cannot prevent or detect all misstatements, whether unintentional errors or fraud. However, these inherent limitations are known features of the financial reporting process; therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this

risk.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are the plaintiff in a lawsuit in the United States District Court for the Eastern District of Virginia (“the trial court”) in which a jury unanimously found that Lawson Software, Inc. (“Lawson”) infringed certain ePlus patents. The jury verdict, which was reached on January 27, 2011, also found that all of ePlus’ patent claims tried in court were not invalid. On May 23, 2011, the trial court issued a permanent injunction, ordering Lawson and its successors to: immediately stop selling and servicing products relating to its electronic procurement systems that infringe our patents; cease providing any ongoing or future maintenance, training or installation of its infringing products; and refrain from publishing any literature or information that encourages the use or sale of its infringing products. Lawson filed an appeal. On November 21, 2012, the United States Court of Appeals for the Federal Circuit (the “Appeals Court”) reversed in part, vacated in part, affirmed in part, and remanded. The Appeals Court upheld the finding that the patent claims were not invalid and upheld, in part, the finding of infringement. The Appeals Court remanded the case to the trial court for consideration of what changes, if any, are required to the terms of the injunction. Consistent with the Appeals Court’s decision, on June 11, 2013, the trial court issued an order modifying the injunction so that it would continue in full effect with respect to those configurations of Lawson’s electronic procurement systems that the Appeals Court affirmed were infringing.

On August 16, 2013, the trial court issued an order finding, by clear and convincing evidence, that Lawson was in contempt of the trial court’s May 23, 2011, injunction, entering judgment in our favor in the amount of \$18.2 million, and ordering that Lawson pay to the court a daily coercive fine. Lawson filed an appeal and posted a bond, and collection of the judgment and the imposition of the coercive fine were stayed pending the appeal.

Patent litigation is extremely complex and issues regarding a patent’s validity can arise even subsequent to a patent’s issuance and a court’s enforcement thereof. On April 3, 2014, the United States Patent and Trademark Office issued a notice canceling the patent at issue in the Lawson litigation. On July 25, 2014, the Appeals Court issued an Opinion vacating the injunction and contempt order. We have filed a Petition for Rehearing, and are awaiting the court’s response.

Court calendars and rulings are inherently unpredictable, and we cannot predict when any litigation will be resolved, or the outcome thereof.

Other Matters

We may become party to various legal proceedings arising in the ordinary course of business including preference payment claims asserted in customer bankruptcy proceedings, claims of alleged infringement of patents, trademarks, copyrights and other intellectual property rights, claims of alleged non-compliance with contract provisions, employment related claims, claims by competitors, vendors or customers, claims related to alleged violations of laws and regulations, and claims relating to alleged security or privacy breaches. Although we do not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on our financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered that could adversely affect our results of operations or cash flows in a particular period. We provide for costs related to contingencies when a loss is probable and the amount is reasonably determinable.

Item 1A. Risk Factors

There have not been any material changes in the risk factors previously disclosed in Part I, Item 1A of our 2014 Annual Report.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information regarding our purchases of ePlus inc. common stock during the six months ended September 30, 2014.

Period	Total number of shares purchased (1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares that may yet be purchased under the plans or programs	
April 1, 2014 through April 30, 2014	414,013	\$ 47.78	414,013	200,572	(2)
May 1, 2014 through May 31, 2014	115,230	\$ 53.54	115,230	85,342	(3)
June 1, 2014 through June 15, 2014	22,830	\$ 55.69	22,830	62,512	(4)
June 16, 2014 through June 30, 2014	35,158	\$ 57.69	-	500,000	(5)
July 1, 2014 through July 31, 2014	25,740	\$ 55.67	25,740	474,260	(6)
August 1, 2014 through August 31, 2014	15,377	\$ 54.74	15,377	458,883	(7)
September 1, 2014 through September 30, 2014	57,829	\$ 56.34	57,829	401,054	(8)

The timing and expiration date of the current stock repurchase authorizations are included in Note 9, "Stockholders' Equity" to our unaudited condensed consolidated financial statements included elsewhere in this report.

(1) All shares acquired were in open-market purchases, except for 35,158 shares, which were repurchased to satisfy tax withholding obligations that arose due to the vesting of shares of restricted stock.

The share purchase authorization in place for the month ended April 30, 2014 had purchase limitations on the (2) number of shares of up to 750,000 shares. As of April 30, 2014, the remaining authorized shares to be purchased were 200,572.

The share purchase authorization in place for the month ended May 31, 2014 had purchase limitations on the (3) number of shares of up to 750,000 shares. As of May 31, 2014, the remaining authorized shares to be purchased were 85,342.

(4) The share purchase authorization in place through June 15, 2014 had purchase limitations on the number of shares of up to 750,000 shares. As of June 15, 2014, the remaining authorized shares to be purchased were 62,512.

On June 12, 2014, the board of directors authorized the Company to repurchase up to 500,000 shares of its (5) outstanding common stock over a 12-month period commencing June 16, 2014. As of June 30, 2014, the remaining authorized shares to be purchased were 500,000.

The share purchase authorization in place for the month ended July 31, 2014 had purchase limitations on the (6) number of shares of up to 500,000 shares. As of July 31, 2014, the remaining authorized shares to be purchased were 474,260.

The share purchase authorization in place for the month ended August 31, 2014 had purchase limitations on the (7) number of shares of up to 500,000 shares. As of August 31, 2014, the remaining authorized shares to be purchased were 458,883.

The share purchase authorization in place for the month ended September 30, 2014 had purchase limitations on the (8) number of shares of up to 500,000 shares. As of September 30, 2014, the remaining authorized shares to be purchased were 401,054.

Item 3. Defaults Upon Senior Securities

Not Applicable.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.
