SECTION 2. FINANCIAL INFORMATION

ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On July 26, 2005, State Auto Financial Corporation (the "Company") issued a press release disclosing the Company's results of operations for the three-month period ended June 30, 2005 (the "Release"). The full text of the Release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated by reference herein.

The Release included a non-GAAP financial measure, net operating earnings per diluted share. Net operating earnings differs from GAAP net income only by the exclusion of realized capital gains and losses, net of applicable federal income taxes, on investment activity for the period being reported. For the three-month period ended June 30, 2005 and 2004, GAAP net income was \$0.94 per diluted share and \$0.85 per diluted share, respectively, while net operating earnings were \$0.94 per diluted share and \$0.83 per diluted share for these same respective periods. For the three-month periods ended June 30, 2005 and 2004, the difference between GAAP net income per diluted share and net operating earnings per diluted share was \$0.00 and \$0.02, respectively, of realized capital gains and losses, net of applicable federal income taxes.

Management uses net operating earnings because it believes this calculation better indicates their Company's operating performance than GAAP net income because net operating earnings exclude the sometimes volatile realized capital gains/losses, net of applicable federal income taxes, that can produce inconsistent results. Net operating earnings provide a more consistent measure on which to predict future earnings of the Company.
