Notes to Condensed Consolidated Financial Statements
OM Group, Inc. and Subsidiaries
(In thousands, except as noted and per share amounts)

Note 1 Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of OM Group, Inc. and its subsidiaries (the Company). These financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the instructions to Form 10-Q and do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair financial presentation of the financial position of the Company at June 30, 2006 and the results of its operations for the three and six months ended June 30, 2006 and 2005 and its cash flows and changes in stockholders equity for the six months ended June 30, 2006 and 2005 have been included. The balance sheet at December 31, 2005 has been derived from the audited consolidated financial statements at that date but does not include all of the information or notes required by U.S. generally accepted accounting principles for complete financial statements. Past operating results are not necessarily indicative of the results which may occur in future periods, and the interim period results are not necessarily indicative of the results to be expected for the full year.
These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2005.
Unless otherwise indicated, all disclosures and amounts in the Notes to Condensed Consolidated Financial Statements relate to the Company s continuing operations.
Certain prior period amounts have been reclassified to conform to the current period s presentation. Cash flows associated with liabilities of business sold for the first six months of 2005, which had previously been included in the operating section of the cash flow statement, have been reclassified and are now included with cash flows attributable to discontinued operations.

Note 2 Recently Issued Accounting Standards

Accounting Standards adopted in 2006:

SFAS No. 123R: In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123 (revised), Share-Based Payments (SFAS No. 123R). SFAS No. 123R is a revision of SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123) and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. SFAS No. 123R requires that the cost of transactions involving share-based payments be recognized in the financial statements based on a fair-value-based measurement. The Company adopted SFAS No. 123R on January 1, 2006 using the modified prospective method. The Company has selected the Black-Scholes option-pricing model and will recognize compensation expense on a straight-line method over the awards vesting period. Previously, the Company expensed share-based payments under the provisions of SFAS No. 123.
SFAS No. 123R requires the Company to estimate forfeitures in calculating the expense relating to share-based compensation while SFAS No. 123 had permitted the Company to recognize forfeitures as an expense reduction upon occurrence. The adjustment to apply estimated forfeitures to previously recognized share-based compensation was accounted for as a cumulative effect of a change in accounting principle and increased net income by $0.3 million, or $.01 per basic and diluted share, for the six months ended June 30, 2006. The income tax expense related to the cumulative effect was offset by a corresponding change in our deferred tax assets and valuation allowance; thus, there was no net tax impact upon adoption of SFAS 123R.
The Company s 2002 Stock Incentive Plan authorizes the grant of options and restricted stock to employees and outside directors of up to 1,400,000 shares, with a limit of 200,000 shares to a single individual in any year. The Plan also limits the total number of shares subject to the Plan that may be granted in the form of restricted stock. The Company s 1998 Long-Term Incentive Compensation Plan authorizes the annual grant of options to employees and outside directors of up to one and one-half percent of the number of outstanding shares of common stock of the Company on the prior December 31, plus unused shares and shares relating to terminated awards from prior years,

subject to an overall annual maximum of 2% of common stock outstanding. This plan also limits awards to a single individual to 200,000 shares in any year. All options granted under both plans have 10-year terms and generally have an exercise price equal to the market price at the date of grant.

The unaudited condensed statements of consolidated income include share-based compensation expense of $1.6 million and $0.5 million for the three months ended June 30, 2006 and 2005, respectively, and $2.9 million and $1.1 million for the six months ended June 30, 2006 and 2005, respectively. At June 30, 2006, there was $14.0 million of total unrecognized compensation expense related to nonvested share-based awards. That cost is expected to be recognized as follows: $4.2 million in the remainder of 2006, $6.5 million in 2007, $3.0 million in 2008 and $0.3 million in 2009. Unearned compensation expense is recognized over the vesting period for the particular grant as a component of Selling, general and administrative expenses within the unaudited condensed statements of consolidated Income. The Company currently provides a full valuation allowance for net U.S. deferred tax assets, and accordingly, a valuation allowance is also provided for any tax effects of share-based compensation expense pursuant to SFAS 123R.

In connection with the exercise of stock options granted, the Company received cash payments of $0.1 million and $0.3 million for the three and six months ended June 30, 2006, respectively. No options were exercised in the first six months of 2005. The Company issues new shares to satisfy stock option exercises and restricted stock awards. The Company does not settle share-based payment obligations for cash.

Stock Options

Options granted prior to 2003 generally vested and became fully exercisable at the end of the next fiscal year following the year of grant. Options granted subsequent to January 1, 2003 generally vest equally over three years. The Company accounts for options that vest over more than one year as one award and recognizes expense related to those awards on a straight-line basis over the vesting period. During the first six months of 2006, the Company granted 105,450 stock options.

In June 2005, as an inducement to join the Company, the Chief Executive Officer (the CEO) was granted options to purchase 254,996 shares of common stock, of which options for 80,001 shares vested on May 31, 2006, options for 85,050 shares vest on May 31, 2007 and options for 89,945 shares vest on May 31, 2008, subject to the CEO remaining employed by the Company on those dates. The options that vested in 2006 have an exercise price equal to the market price of the Company s common stock on the date of grant ($24.89). The options that vest on May 31, 2007 and 2008 have exercise prices set above the grant date market price of the Company s common stock ($28.67 and $33.67, respectively).

The fair value of options was estimated at the date of grant using a Black-Scholes options pricing model with the following weighted-average assumptions:

	Six Months Ended June 30,	
	2006	2005
Risk-free interest rate	**4.9%**	3.9%
Dividend yield		
Volatility factor of Company common stock	**0.47**	0.44
Weighted-average expected option life (years)	**6.1**	5.0
Weighted-average grant-date fair value	**$14.12**	$9.64

The risk-free interest rate assumption is based upon the U.S. Treasury yield curve appropriate for the term of the options being valued. The dividend yield assumption is zero, as the Company intends to continue to retain earnings for use in the operation of the business and does not anticipate paying dividends in 2006. Expected volatilities are based on historical volatility of the Company s common stock. The expected term of options granted is determined using the shortcut method allowed by SAB No. 107. Under this approach, the expected term is presumed to be the mid-point between the vesting date and the end of the contractual term.

A summary of the Company s stock option activity for the six months ended June 30, 2006 is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggegate Intrinsic Value
Outstanding at January 1, 2006	**1,252,817**	**$ 30.71**		
Granted	**105,450**	**27.15**		
Exercised	**(18,333)**	**18.82**		
Expired unexercised	**(35,000)**	**31.29**		
Forfeited	**(2,500)**	**27.00**		
Outstanding at June 30, 2006	**1,302,434**	**$ 30.59**	**7.36**	**$ 5,487,969**
Vested or expected to vest at June 30, 2006	**1,271,503**	**$ 30.67**	**7.33**	**$ 5,368,587**
Exercisable at June 30, 2006	**646,745**	**$ 34.33**	**5.89**	**$ 2,548,018**

The total intrinsic value of options exercised during the six months ended June 30, 2006 was $0.1 million. No options were exercised during the six months ended June 30, 2005.

Restricted Stock Performance-Based Awards

In May 2006, the Company granted 96,680 shares of performance-based restricted stock which vest subject to the Company s financial performance. The total number of shares of restricted stock that ultimately vest is based upon the Company s achievement of specific measurable performance criteria. A recipient of performance-based restricted stock may earn a total award ranging from 0% to 100% of the initial grant. The satisfaction of the performance criteria will be finally determined based on the three-year performance period ending December 31, 2008. The market value of the performance-based restricted stock award was valued based upon the market price ($28.80) of an unrestricted share of the Company s common stock at the date of grant. The Company recognizes expense related to performance-based restricted stock ratably over the requisite service period based upon the number of shares which are anticipated to vest. The number of shares anticipated to vest will be evaluated quarterly and compensation cost will be adjusted accordingly.

A summary of the Company s performance-based restricted stock awards for the six months ended June 30, 2006 is as follows:

	Shares	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2006		**$**
Granted	**96,680**	**28.80**
Outstanding at June 30, 2006	**96,680**	**$ 28.80**
Expected to vest at June 30, 2006	**43,290**	

Restricted Stock Time-Based Awards

In May 2006, the Company granted 22,150 shares of restricted stock that vest on May 1, 2009 subject to the respective employee remaining employed by the Company on that date. The market value of the restricted stock award was based upon the market price ($28.76) of an unrestricted share of the Company s common stock at the date of grant. The expense is being recognized ratably over the vesting period.

In June 2005, the Company granted 166,194 shares of restricted stock to its CEO in connection with his hiring. The restricted shares vest on May 31, 2008 subject to the CEO remaining employed by the Company on that date. The market value of the restricted stock award based upon the market price ($24.89) of an unrestricted share of the

Company s common stock at the date of grant was $4.1 million and the expense is being recognized ratably over the vesting period.

A summary of the Company s time-based restricted stock awards for the six months ended June 30, 2006 is as follows:

	Shares	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2006	**166,194**	**$ 24.89**
Granted	**22,150**	**28.76**
Outstanding at June 30, 2006	**188,344**	**$ 25.35**
Vested or expected to vest at June 30, 2006	**187,444**	

EITF No. 04-6: In June 2005, the FASB ratified modifications to EITF No. 04-6, Accounting for Stripping Costs Incurred during Production in the Mining Industry. EITF No. 04-6, which was required to be adopted in the first reporting period beginning after December 15, 2005, clarifies that stripping costs incurred during the production phase of a mine are variable production costs that should be included in the costs of the inventory produced during the period that the stripping costs are incurred. The Company adopted EITF No. 04-6 on January 1, 2006. In accordance with EITF 04-6, stripping costs incurred during the production phase of a mine will be included in the cost of inventory produced. Previously, the Company capitalized and deferred stripping costs when developing a new pit or expanding an existing pit until that pit reached full production. Upon adoption of EITF No. 04-6, the Company wrote off the amount of deferred stripping costs that were incurred after production commenced at each pit. The transition provisions require that adoption be accounted for in a manner similar to a cumulative effect adjustment with any adjustment recognized in the opening balance of retained earnings in the year of adoption. The effect of adoption was a $1.6 million reduction to Other non-current assets and beginning retained earnings, including the additional valuation allowance to offset the resulting tax benefit.

SFAS No. 154: In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections, which replaces APB Opinion No. 20, Accounting Changes, and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements, and provides guidance on the accounting for and reporting of accounting changes and error corrections. SFAS No. 154 applies to all voluntary changes in accounting principle and requires retrospective application (a term defined by the statement) to prior periods financial statements, unless it is impracticable to determine the effect of a change. It also applies to changes required by an accounting pronouncement that does not include specific transition provisions. In addition, SFAS No. 154 redefines restatement as the revising of previously issued financial statements to reflect the correction of an error. The statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company adopted SFAS No. 154 on January 1, 2006 and will apply SFAS No. 154 in future periods, when applicable. The adoption did not impact the Company s results of operations and financial position.

SFAS No. 151: In November 2004, the FASB issued SFAS No. 151, Inventory Costs An amendment of ARB No. 43. SFAS No. 151 clarifies that abnormal amounts of idle facility expense, freight, handling costs and spoilage should be expensed as incurred and not included in overhead. Further, SFAS No. 151 requires that allocation of fixed production overheads to conversion costs should be based on normal capacity of the production facilities. SFAS No. 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Companies must apply the standard prospectively. The adoption of SFAS No. 151 did not and is not expected to impact the Company s results of operations or financial position.

Accounting Standards Not Yet Adopted

SFAS No. 155: In February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Instruments, which is an amendment of SFAS No. 133 and 140 and allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity s first fiscal year that begins after September 15, 2006. Companies must apply the standard prospectively. The adoption of SFAS No. 155 is not expected to have a material impact on the Company s

results of operations or financial position.

SFAS No. 156: In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, which requires all separately recognized servicing assets and servicing liabilities be initially measured at fair value. SFAS No. 156 permits, but does not require, the subsequent measurement of servicing assets and servicing liabilities at fair value. Adoption is required as of the beginning

of the first fiscal year that begins after September 15, 2006. Early adoption is permitted. The adoption of SFAS No. 156 is not expected to have a material impact on the Company s results of operations or financial position.

FIN No. 48: In July 2006, the FASB issued Financial Accounting Standards Interpretation No. 48, Accounting for Uncertainty in Income Taxes. FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN No. 48 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures and transitions. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently analyzing the effects of FIN No. 48.

Note 3 Inventories

Inventories consist of the following:

	June 30, 2006	December 31, 2005
Raw materials and supplies	$ 187,877	$ 192,739
Work-in-process	31,000	21,781
Finished goods	88,992	90,037
	$ 307,869	$ 304,557

Note 4 Acquisition and Investments

On March 21, 2006, the Company completed the acquisition of Plaschem Specialty Products Pte Ltd. and its subsidiaries (Plaschem). Plaschem develops and produces specialty chemicals for printed circuit board chemistries, semiconductor chemistries and general metal finishing with a manufacturing facility in Singapore and an integrated manufacturing, research and technical support facility in the Shanghai area of China. Plaschem had sales of approximately $11.0 million in 2005. In connection with the acquisition, the Company paid $5.2 million in cash, net of cash acquired and issued a $0.5 million note that is payable in March 2007. The Company incurred fees of approximately $0.2 million associated with this transaction. Additional contingent consideration, up to a maximum of $2.0 million, is due to the seller if certain specified financial performance targets of the acquired business are met over the three-year period following the acquisition. Plaschem is included in the Specialties segment results of operations since the date of acquisition.

The Company has an approximately 5% equity interest ($1.3 million at June 30, 2006) in Talvivaara Mining Company, Ltd. (Talvivaara). During the fourth quarter of 2005, the Company entered into a convertible loan agreement with Talvivaara pursuant to which it has loaned a total of 2.0 million Euros ($2.5 million at June 30, 2006), of which 0.3 million Euros was advanced in 2005 and 1.7 million Euros was advanced in the first six months of 2006. The loan is convertible into Talvivaara shares at the Company s option.

During the second quarter of 2006, the Company sold the outstanding common shares it held in Weda Bay Minerals, Inc. (Weda Bay) and received cash proceeds of $12.2 million. The Company recognized a $12.0 million gain, net of $0.2 million tax expense, upon completion of the sale as the net book value of the investment was zero due to a permanent impairment charge recorded in prior years. The gain is included in Gain on sale of investments in the unaudited condensed statements of consolidated income.

The Company has a 20% interest in MPI Nickel, an Australian nickel company, that is accounted for by the equity method. The investment is included in other non-current assets in the unaudited condensed consolidated balance sheets, and equity income (loss) is included in Other income, net in the unaudited condensed statements of consolidated income. During the first quarter of 2006, the Company loaned $2.8 million to MPI Nickel, with no stated repayment date. Interest on this loan accrues at LIBOR plus 1% and is payable quarterly.

Note 5 Income Taxes

The income tax provision is based on the application of a forecasted annual effective income tax rate applied to the current quarter s year-to-date pre-tax income. In determining the estimated annual effective income tax rate, the Company analyzes various factors, including projections of the Company s annual earnings, taxing jurisdictions in which the earnings will be generated, the Company s ability to use tax credits and net operating loss carryforwards, and available tax planning alternatives. The tax effects of discrete items, including the effect of changes in tax laws, tax rates, certain circumstances with respect to valuation allowances or other unusual or non-recurring items, are reflected in the period in which they occur as an addition to, or reduction from, the income tax provision, rather than included in the estimated annual effective income tax rate.

The Company s effective tax rates are as follows:

	Three Months Ended June 30,		**Six Months Ended June 30,**	
	2006	**2005**	**2006**	**2005**
Effective income tax rate	**12.1%**	24.7%	**15.7%**	24.7%

The effective income tax rate is lower than the United States statutory rate primarily due to a higher proportion of earnings in jurisdictions having lower statutory tax rates (primarily in Finland at 26%), a tax holiday from income taxes in Malaysia and the recognition of previously unrecognized tax benefits of NOL carryovers in Australia which were partially offset by losses in the United States with no corresponding tax benefit. As discussed in the Company s 2005 Form 10-K, the Malaysian tax holiday expires on December 31, 2006.

During the three months ended June 30, 2006, the Company adjusted its estimated annual effective income tax rate from its previous projection of 25.4% to 18.0%, excluding discrete items. As a result, the Company recognized $1.7 million ($0.06 per basic and diluted share) less income tax expense for the three months ended June 30, 2006 than if 18.0% had been utilized in the first quarter of 2006. The change in the annual effective tax rate resulted from a change in the mix of earnings within the tax jurisdictions in which the Company operates, an increase in forecasted earnings for the year, and changes in foreign currency exchange rates.

The difference between the estimated annual effective income tax rate of 18.0% and the 15.7% estimated annual effective income tax rate for the six months ended June 30, 2006 is due to the $0.2 million tax impact on the $12.2 million gain on the sale of the Company s investment in Weda Bay, which represents a discrete item in the second quarter of 2006.

Note 6 Pension and Other Postretirement Benefit Plans

The Company sponsors a defined contribution plan covering all eligible U.S. employees. To be eligible for the plan, an employee must be a full-time associate for at least six months and at least 21 years of age. Company contributions are determined by the board of directors annually and are computed based upon a percentage of individual participant compensation. The Company also sponsors a non-contributory, nonqualified supplemental executive retirement plan for certain employees, providing benefits beyond those covered in the defined contribution plan.

The Company has a funded non-contributory defined benefit pension plan for certain retired employees in the United States related to the Company s divested SCM business. The Company also has an unfunded supplemental executive retirement plan (SERP) that was executed as of January 1, 2004 for the former Chief Executive Officer and other unfunded postretirement benefit plans (OPEB), primarily health care and life insurance for certain employees and non-employees in the United States. The Company uses an October 31 measurement date for both its pension and postretirement benefit plans.

Set forth below is a detail of the net periodic pension expense for the defined benefit plans for the three and six months ended June 30:

	Three months ended June 30,		Six months ended June 30,	
	2006	**2005**	**2006**	**2005**
Pension Benefits				
Interest cost	**$ 306**	$ 305	**$ 612**	$ 610
Amortization of unrecognized net loss	**67**	54	**134**	108
Expected return on plan assets	**(228)**	(236)	**(456)**	(472)
FAS 88 curtailment loss				4,728
Total expense	**$ 145**	$ 123	**$ 290**	$ 4,974
Other Postretirement Benefits				
Service cost	**$ 33**	$ 17	**$ 66**	$ 34
Interest cost	**60**	63	**120**	126
Amortization of unrecognized prior service cost	**10**	10	**20**	20
Total expense	**$ 103**	$ 90	**$ 206**	$ 180

During the first six months of 2005, the Company recorded a $4.7 million curtailment loss related to the SERP for the former Chief Executive Officer.

Note 7 Earnings Per Share

The following table sets forth the computation of basic and diluted income per common share from continuing operations before cumulative effect of change in accounting principle:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	**2005**	**2006**	**2005**
Income from continuing operations before cumulative effect of change in accounting principle	**$ 53,514**	$ 10,474	**$ 71,674**	$ 22,254
Weighted average shares outstanding	**29,319**	28,473	**29,316**	28,463
Dilutive effect of stock options and restricted stock	**170**	46	**96**	82
Weighted average shares outstanding assuming dilution	**29,489**	28,519	**29,412**	28,545
Income from continuing operations before cumulative effect of change in accounting principle per common share basic	**$ 1.82**	$ 0.37	**$ 2.44**	$ 0.78
Income from continuing operations before cumulative effect of change in accounting principle per common share assuming dilution	**$ 1.81**	$ 0.37	**$ 2.43**	$ 0.78

The following table sets forth the computation of basic and diluted net income per common share:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	**2005**	**2006**	**2005**
Net income	**$ 53,115**	$ 11,315	**$ 71,288**	$ 23,879
Weighted average shares outstanding	**29,319**	28,473	**29,316**	28,463
Dilutive effect of stock options and restricted stock	**170**	46	**96**	82
Weighted average shares outstanding assuming dilution	**29,489**	28,519	**29,412**	28,545
Net income per common share basic	**$ 1.81**	$ 0.40	**$ 2.43**	$ 0.84
Net income per common share assuming dilution	**$ 1.80**	$ 0.40	**$ 2.42**	$ 0.84

Note 8 Comprehensive Income

Comprehensive income, net of related tax effects, for the three months ended June 30, 2006 and 2005 was $50.5 million and $3.6 million, respectively. Comprehensive income, net of related tax effects, for the six months ended June 30, 2006 and 2005 was $73.5 million and $18.3 million, respectively.

Note 9 Commitments and Contingencies

James P. Mooney ceased to be employed as the Company s Chief Executive Officer in January 2005. The Company is currently engaged in pending litigation with Mr. Mooney in federal court in Florida. The Company brought suit against Mr. Mooney seeking disgorgement of certain bonuses and profits he received during his tenure as Chief Executive Officer and has filed a declaratory judgment asking the court to determine if Mr. Mooney s termination should be considered with cause such that he would not be entitled to any severance benefits. Mr. Mooney has asserted a counterclaim against the Company seeking damages based on additional bonuses he alleges he is owed and other additional payments he claims he is entitled to under his employment agreement and for the release of shares of stock which the Company has held pending the resolution of its claims.

In addition, Mr. Mooney filed suit against the Company in Delaware state court seeking advancement and reimbursement of his attorney s fees in connection with the pending Florida litigation and other related matters. In the first quarter of 2006, this matter was settled, and the Company is now paying Mr. Mooney s attorney s fees on an ongoing basis.

The SEC s Division of Enforcement is conducting an informal investigation resulting from the self reporting by the Company of the internal investigation conducted in 2004 by the audit committee of the Company s board of directors in connection with the previously filed restatement of the Company s financial results for the periods prior to December 31, 2003. The Company is cooperating fully with the SEC informal investigation.

During 2005, the Company reversed a $5.5 million tax contingency accrual that was originally established in July 2003 upon the sale of the Company s Precious Metals Group (PMG) as the liability is no longer probable. Such amount had previously been included in Retained Liabilities of Businesses Sold in the Consolidated Balance Sheets. The contingency relates to a tax matter in Brazil for which the Company has indemnified the PMG buyer under terms of the PMG sale agreement. Although the contingency is no longer probable, the likelihood of an unfavorable outcome of this contingency is reasonably possible based on the length of time expected before the matter is closed and the inherent risk of changes in the political or legal situation in Brazil.

The Company is a party to various other legal proceedings incidental to its business and is subject to a variety of environmental and pollution control laws and regulations in the jurisdictions in which it operates. As is the case with other companies in similar industries, the Company faces exposure from actual or potential claims and legal

proceedings involving environmental matters. A number of factors affect the cost of environmental remediation, including the determination of the extent of contamination, the length of time the remediation may require, the complexity of environmental regulations, and the continuing improvements in remediation

techniques. Taking these factors into consideration, the Company has estimated the undiscounted costs of remediation, which will be incurred over several years. The Company accrues an amount consistent with the estimates of these costs when it is probable that a liability has been incurred. At June 30, 2006 and December 31, 2005 the Company has recorded environmental liabilities of $5.8 million and $8.8 million, respectively, primarily related to remediation and decommissioning at the Company s closed manufacturing sites in Newark, New Jersey; St. George, Utah and Vasset, France. The Company has recorded $5.3 million in other current liabilities and $0.5 million in Other non-current liabilities as of June 30, 2006.

Although it is difficult to quantify the potential impact of compliance with or liability under environmental protection laws, the Company believes that any amount it may be required to pay in connection with environmental matters, as well as other legal proceedings arising out of operations in the normal course of business, is not reasonably likely to exceed amounts accrued by an amount that would have a material adverse effect upon its financial condition, results of operations, or cash flows.

Note 10 Debt

Debt consists of the following.

	June 30, 2006	December 31, 2005
Senior Subordinated Notes	$ 400,000	$ 400,000
Note payable banks	1,745	17,250
Deferred gain on termination of fair value hedges	5,596	5,984
Fair value of interest rate swaps (fair value hedges)	(4,085)	(1,388)
	403,256	421,846
Less: Current portion of long-term debt		5,750
Total long-term debt	$ 403,256	$ 416,096

In November 2004, the Company entered into a note payable with a Finnish bank with principal a balance of $23.0 million which was payable in 48 equal installments beginning in January 2005 and ending December 2008. The balance of this loan was $17.3 million at December 31, 2005. The Company repaid the balance outstanding of $14.4 million in May 2006.

Note 11 Special Charges and DRC Smelter Shut-down

In years prior to 2004, the Company refinanced the capital contribution for the 25% minority shareholder in its joint venture in the Democratic Republic of Congo (DRC). At December 31, 2005 the receivables from this partner were $25.2 million, net of a $4.2 million valuation allowance. During the first six months of 2006, the Company recorded an additional $1.0 million valuation allowance. At June 30, 2006, the receivables from this partner were $24.2 million, net of a $5.2 million valuation allowance. The receivables are due in full on December 31, 2008 ($22.9 million) and December 31, 2010 ($6.5 million).

On January 11, 2005, James P. Mooney s employment with the Company was terminated and he ceased to be its Chief Executive Officer. On that date, the Company recorded a charge of $8.7 million related to his termination in accordance with Mr. Mooney s employment agreement and a SERP. Such amount includes termination benefits based on salary, estimated bonus (as calculated per the provisions in the agreement) and certain benefits to be paid over the remaining term of the agreement, as well as the actuarially-determined present value of amounts to be paid under a supplemental executive retirement plan. The Company is examining its alternatives for recovery against Mr. Mooney, including claims for disgorgement under the Sarbanes-Oxley Act of 2002. Any such claims would be recognized when settled.

During the first half of 2005, the Company s joint venture in the DRC shut-down its smelter as scheduled for approximately four months for regular maintenance and production improvements. The impact of the shut-down reduced the Company s operating profit by approximately $2.0 million and $9.4 million for the three and six months

ended June 30, 2005, respectively. Income from continuing operations, representing the Company s 55% share in the joint venture, was reduced by approximately $1.1 million and $5.2 million for the three and six months ended June 30, 2005, respectively. The smelter resumed operations in May 2005.

Note 12 Reportable Segments

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, establishes standards for reporting information about operating segments in financial statements. Operating segments are defined as components of an enterprise that are evaluated regularly by the Company s chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company s chief operating decision maker is the chief executive officer.

The Company has two reportable operating segments Specialties and Nickel. The Company realigned management responsibilities effective for the first quarter of 2006. As a result, the former Cobalt segment has been renamed the Specialties segment and the Electronic Chemicals business unit, formerly a component within the Nickel reportable segment, was realigned to the Specialties reportable segment. Because the Company changed the structure of its internal organization in a manner that caused the composition of its reportable segments to change, the corresponding information for prior periods has been reclassified to conform to the current year reportable segment presentation.

The Specialties segment includes three business units: Advanced Organics, which produces products for the tire, coatings and inks, additive and chemicals markets; Inorganics, which produces products for the powder metallurgy, battery, ceramic and chemical markets; and Electronic Chemicals, which produces products for the semiconductor finishing, memory disk, general metal finishing and printed circuit board finishing markets. The Nickel segment includes nickel-based products. The Company s products are essential components in numerous complex chemical and industrial processes, and are used in many end markets, such as rechargeable batteries, coatings, custom catalysts, liquid detergents, lubricants and fuel additives, plastic stabilizers, polyester promoters, adhesion promoters for rubber tires, colorants, petroleum additives, magnetic media, metal finishing agents, cemented carbides for mining and machine tools, diamond tools used in construction, stainless steel, alloy and plating applications. The Company s products are sold in various forms such as solutions, crystals, powders, cathodes and briquettes. Intersegment sales are accounted for at the same prices as if the sales were made to third parties. The Company s Corporate segment is comprised of general and administrative expenses and share-based compensation not allocated to the segments.

While its primary manufacturing sites are in Finland, the Company also has manufacturing and other facilities in Australia, Canada, the United States, Europe and Asia-Pacific, and the Company markets its products worldwide. Further, approximately 24% of the Company s investment in property, plant and equipment is located in the DRC, where the Company operates a smelter through a 55% owned joint venture.

The following table reflects the results of the segments:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	**2005**	**2006**	**2005**
Business Segment Information				
Net Sales				
Specialties	**$ 174,972**	$ 148,405	**$ 319,509**	$ 320,871
Nickel	**171,760**	178,851	**341,214**	376,791
Intercompany sales between segments:				
Specialties	**184**	(174)	**(1,906)**	(484)
Nickel	**(16,752)**	(12,373)	**(34,044)**	(30,537)
	$ 330,164	$ 314,709	**$ 624,773**	$ 666,641
Income (loss) from operations				
Specialties	**$ 32,692**	$ 10,231	**$ 52,346**	$ 21,492
Nickel	**35,902**	10,637	**53,708**	36,476
Corporate (a)	**(10,177)**	(464)	**(18,368)**	(17,283)
	$ 58,417	$ 20,404	**$ 87,686**	$ 40,685
Interest expense	**$ (9,936)**	$ (10,259)	**$ (19,732)**	$ (20,252)
Foreign exchange gain (loss)	**1,066**	(1,482)	**1,577**	(2,812)
Gain on sale of investments in equity securities	**12,223**	2,359	**12,223**	2,359
Other income, net	**494**	1,501	**4,044**	3,494
	$ 3,847	$ (7,881)	**$ (1,888)**	$ (17,211)
Income from continuing operations before income taxes, minority interest and cumulative effect of change in accounting principle	**$ 62,264**	$ 12,523	**$ 85,798**	$ 23,474
Expenditures for property, plant & equipment				
Specialties	**$ 3,230**	$ 3,511	**$ 5,288**	$ 4,770
Nickel	**4,814**	2,917	**6,410**	3,965
	$ 8,044	$ 6,428	**$ 11,698**	$ 8,735
Depreciation and amortization				
Specialties	**$ 7,654**	$ 7,819	**$ 15,363**	$ 15,556
Nickel	**4,220**	4,074	**8,379**	8,049
Corporate	**337**	499	**685**	1,035

	$ 12,211	$ 12,392	**$ 24,427**	$ 24,640

	June 30, 2006	December 31, 2005
Total assets		
Specialties	**$ 745,136**	$ 739,332
Nickel	**535,455**	440,564
Corporate	**45,544**	40,377
	$ 1,326,135	$ 1,220,273

(a) In the six months ended June 30, 2005, Corporate expenses include an $8.7 million charge related to the departure of the Company s former CEO. In the three and six months ended June 30, 2005, corporate expenses are reduced by $8.5 million of insurance proceeds received during the second quarter of 2005 related to the shareholder class action litigation.

Note 13 Guarantor and Non-Guarantor Subsidiary Information

In December 2001, the Company issued $400 million in aggregate principal amount of 9.25% Senior Subordinated Notes due 2011. These notes are guaranteed by the Company s wholly-owned domestic subsidiaries. The guarantees are full, unconditional and joint and several. The Company s foreign subsidiaries are not guarantors of these Notes. The Company as presented below represents OM Group, Inc. exclusive of its guarantor subsidiaries and its non-guarantor subsidiaries. Condensed consolidating financial information for the Company, the guarantor subsidiaries, and the non-guarantor subsidiaries is as follows:

		June 30, 2006			
Balance Sheet Data	**The Company**	**Combined Guarantor Subsidiaries**	**Combined Non-guarantor Subsidiaries**	**Eliminations**	**Total**

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company is a leading, vertically integrated international producer and marketer of value-added, metal-based specialty chemicals and related materials, primarily from cobalt and nickel. The Company applies proprietary technology to unrefined cobalt, nickel and other raw materials to market more than 825 different product offerings to approximately 2,100 customers in over 30 industries. The Company operates in two business segments Specialties and Nickel.

The Company s business is critically connected to both the price and availability of raw materials. The primary raw materials used by the Company are unrefined cobalt and nickel. Cobalt raw materials include ore, concentrates, slag and scrap. Nickel raw materials include concentrates, ore, intermediates, secondaries, scrap and matte. The cost of the Company s raw materials fluctuates due to actual or perceived changes in supply and demand, changes in cobalt and nickel reference/market prices and changes in availability from suppliers. The Company attempts to mitigate changes in availability by maintaining adequate inventory levels and long-term supply relationships with a variety of producers. Fluctuations in the prices of cobalt and nickel have been significant in the past and the Company believes that cobalt and nickel price fluctuations are likely to continue in the future. The Company attempts to pass through to its customers increases in raw material prices by increasing the prices of its products. The Company s profitability is largely dependent on the Company s ability to maintain the differential between its product prices and product costs. Certain sales contracts and raw material purchase contracts contain variable pricing that adjusts based on changes in the price of cobalt and nickel. During periods of rapidly changing metal prices, however, there may be price lags that can impact the short-term profitability and cash flow from operations of the Company both positively and negatively. The Company attempts to minimize the effect on profitability of changes in the market price of nickel through hedging activities. Reductions in the price of raw materials or declines in the selling prices of the Company s finished goods could also result in the Company s inventory carrying value being written down to a lower market value.

The Company has manufacturing and other facilities in North America, Africa, Europe and Asia-Pacific, and markets its products worldwide. Although most of the Company s raw material purchases and product sales are based on the U.S. dollar, prices of certain raw materials, non-U.S. operating expenses and income taxes are denominated in local currencies. As such, results of operations are subject to the variability that arises from exchange rate movements (particularly the Euro and the Australian dollar). In addition, fluctuations in exchange rates may affect product demand and profitability in U.S. dollars of products provided by the Company in foreign markets in cases where payments for its products and the majority of operating and selling, general and administrative expenses are made in local currency. Accordingly, fluctuations in currency prices affect the Company s operating results.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Company s management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying unaudited condensed consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the unaudited condensed consolidated financial statements, giving due consideration to materiality. The application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of the Company s results of operations to similar businesses. There have been no changes to our critical accounting policies as stated in our Annual Report on Form 10-K for the year ended December 31, 2005 other than the adoption of SFAS No. 123R.

The Company adopted SFAS No. 123R on January 1, 2006 using the modified prospective method. The Company has selected the Black-Scholes option-pricing model and will recognize compensation expense on a straight-line method over the awards vesting period. Previously, the Company expensed share-based payments as permitted under SFAS No. 123.

SFAS No. 123R requires the Company to estimate forfeitures in calculating the expense relating to share-based compensation while SFAS No. 123 had permitted the Company to recognize forfeitures as an expense reduction upon occurrence. The adjustment to apply estimated forfeitures to previously recognized share-based compensation was

accounted for as a cumulative effect of a change in accounting principle and increased net income by $0.3 million, or $.01 per basic and diluted share in the first six months of 2006. The income tax expense related to the cumulative effect was offset by a corresponding change in our net deferred tax assets valuation

allowance; thus, there was no net tax impact upon adoption of SFAS 123R.

Results of Operations

Consolidated results of operations are set forth below and are followed by a more detailed discussion of each business segment, as well as a detailed discussion of corporate expenses.

Second Quarter of 2006 Compared With Second Quarter of 2005

Consolidated Results of Operations

	Three Months Ended June 30,			
(thousands of dollars & percent of net sales)	**2006**		2005	
Net sales	**$ 330,164**		$ 314,709	
Cost of products sold	**240,131**		274,136	
Gross profit	**90,033**	**27.3%**	40,573	12.9%
Selling, general and administrative expenses	**31,616**	**9.6%**	20,169	6.4%
Income from operations	**58,417**	**17.7%**	20,404	6.5%
Other income (expense), net (including interest expense)	**3,847**		(7,881)	
Income tax expense	**(7,511)**		(3,090)	
Minority interest share of (income) loss	**(1,239)**		1,041	
Income from continuing operations	**53,514**		10,474	
Income (loss) from discontinued operations, net of tax	**(399)**		841	
Net income	**$ 53,115**		$ 11,315	

Net sales increased $15.5 million, or 4.9%, to $330.2 million for the quarter ended June 30, 2006 compared with $314.7 million for the quarter ended June 30, 2005. Increased sales volumes and an increase in the price of copper, partially offset by lower cobalt prices increased Specialties net sales. Lower nickel sales volumes in the second quarter of 2006 compared with the second quarter of 2005 were partially offset by a higher average nickel sales price and revenue related to a toll refining agreement that began in the second half of 2005 in the nickel segment.

Gross profit increased $49.5 million to $90.0 million in the second quarter of 2006, compared with $40.6 million in the second quarter of 2005 primarily due to higher average nickel metal prices and the favorable impact related to nickel hedging transactions partially offset by decreased nickel sales volumes. In addition, higher copper prices and increased sales volumes in the Specialties segment were offset by lower cobalt metal prices.

Selling, general and administrative expenses increased to $31.6 million in the second quarter of 2006 compared with $20.2 million in the second quarter of 2005. The increase was primarily due to $8.5 million of income in the second quarter of 2005 related to the receipt of net insurance proceeds related to the shareholder class action litigation and an additional $1.0 million reserve provided in the second quarter of 2006 against the note receivable from our joint venture partner in the Democratic Republic of Congo (DRC).

Other income (expense), net was $3.8 million of income in the second quarter of 2006 compared with expense of $7.9 million in the second quarter of 2005 primarily due to the $12.2 million gain in 2006 related to the sale of the Company s investment in Weda Bay (See Note 4 to the unaudited condensed consolidated financial statements). Other expense, net in the second quarter of 2005 includes a $2.4 million gain on the sale of an investment in equity securities. In addition, other expense, net was also impacted by a foreign exchange gain of $1.1 million compared with a foreign exchange loss of $1.5 million in the second quarter of 2005 and a $1.5 million increase in interest income in the second quarter of 2006 compared with the second quarter of 2005 due to the higher average cash balance. Equity income (loss) from the Company s investment in MPI Nickel was a loss of $1.6 million in the second quarter of 2006 compared with income of $1.0 million in the second quarter of 2005.

Minority interest share of (income) loss relates to the Company s smelter joint venture in the DRC. The losses in 2005 were attributable to the scheduled extended maintenance shutdown of the smelter in 2005.

The income (loss) from discontinued operations results from translation adjustments of retained liabilities of businesses sold denominated in Euros. In addition, during the second quarter of 2006, the Company reversed $0.6 million due to a reduction in estimates of environmental accruals related to the Company s closed manufacturing facility in St. George, Utah.

Segment Results and Corporate Expenses

Specialties

The following table summarizes the average quarterly reference price of 99.3% cobalt:

	2006	2005	Change
Second quarter	**$14.43**	$15.03	$(0.60)

Specialties net sales increased to $175.0 million in the second quarter of 2006 from $148.4 million in the second quarter of 2005, primarily due to increased sales volumes ($16.5 million), increased copper by-product sales ($16.1 million) and sales related to the March 2006 acquisition of Plaschem ($2.8 million). These increases to net sales were partially offset by lower product selling prices caused by the decrease in cobalt reference prices in the second quarter of 2006 compared with the second quarter of 2005 ($6.1 million) and a shift in product mix ($5.4 million).

Operating profit for the second quarter of 2006 was $32.7 million compared with $10.2 million in the second quarter of 2005. Operating profit was positively impacted by the increase in copper by-product sales ($10.7 million) and favorable raw material costs. The second quarter of 2005 cobalt raw material costs were negatively impacted by the sharp decline in cobalt metal prices in the first half of 2005 compared with the second half of 2004. The average quarterly reference price of cobalt declined from $20.78 in the second half 2004 to $16.72 in the first half of 2005 compared with an increase from an average price of $12.96 in the second half of 2005 to $13.40 in the first half of 2006. As a result, cobalt raw material costs in the second quarter of 2006 were favorable compared with the second quarter of 2005 ($9.5 million). In addition, operating profit in the second quarter of 2006 was positively impacted by increased volume ($2.9 million). Operating profit in the second quarter of 2005 included the $2.0 million negative impact of the scheduled maintenance shutdown at the smelter in the DRC. These positive factors were partially offset by the impact of decreased margins due to lower cobalt metal prices in the second quarter of 2006 ($3.7 million) and an additional $1.0 million reserve provided in the second quarter of 2006 against the note receivable from our joint venture partner in the DRC.

Nickel segment

The following table summarizes the average quarterly LME market price of nickel:

	2006	2005	Change
Second Quarter	**$9.09**	$7.44	$1.65

Nickel segment net sales decreased to $171.8 million in the second quarter of 2006 compared with $178.9 million in the second quarter of 2005 primarily due to lower nickel sales volumes as a result of lack of raw material feed ($39.4 million), partially offset by higher average nickel sales price ($22.2 million) and increased revenue from toll refining activities ($8.1 million).

Operating profit for the second quarter of 2006 was $35.9 million compared with $10.6 million in the second quarter of 2005. The $25.3 million increase was primarily due to a higher average nickel price and corresponding raw material prices ($17.4 million) and realized and unrealized gains related to nickel hedging transactions which increased to $12.4 million in the second quarter of 2006 compared with $0.4 million in the second quarter of 2005. In addition, the second quarter of 2005 included a $2.3 million lower-of-cost or market charge due to decreasing metal prices. These positive factors were partially offset by the negative impact of lower volumes and higher manufacturing costs ($4.6 million). The decrease in volumes is primarily due to the lack of raw material feed partially offset by the impact of the toll refining agreement that began in the second half of 2005.

Corporate expenses

Corporate and other expenses consist of unallocated corporate overhead supporting both segments, including legal, finance, human resources and strategic development activities, as well as share-based compensation. Corporate expenses for the second quarter of 2006 were $10.2 million compared with $0.5 million in the second quarter of 2005. The increase was primarily due to $8.5 million of income in the second quarter of 2005 for the receipt of net insurance proceeds related to the shareholder class action litigation and increased employee compensation expense in the second quarter of 2006 ($1.2 million).

First Six Months of 2006 Compared With First Six Months of 2005

Consolidated Results of Operations

	Six Months Ended June 30,			
(thousands of dollars & percent of net sales)	**2006**		2005	
Net sales	**$ 624,773**		$ 666,641	
Cost of products sold	**479,646**		570,217	
Gross profit	**145,127**	**23.2%**	96,424	14.5%
Selling, general and administrative expenses	**57,441**	**9.2%**	55,739	8.4%
Income from operations	**87,686**	**14.0%**	40,685	6.1%
Other expense, net (including interest expense)	**(1,888)**		(17,211)	
Income tax expense	**(13,488)**		(5,791)	
Minority interest share of (income) loss	**(636)**		4,571	
Income from continuing operations before cumulative effect of change in accounting principle	**71,674**		22,254	
Income (loss) from discontinued operations, net of tax	**(673)**		1,625	
Income before cumulative effect of change in accounting principle	**71,001**		23,879	
Cumulative effect of change in accounting principle	**287**			
Net income	**$ 71,288**		$ 23,879	

Net sales decreased 6.3% to $624.8 million for the first six months of 2006 compared with $666.6 million for the first six months of 2005. The decrease in net sales was primarily due to lower nickel sales volumes resulting from continued raw material feed shortages, partially offset by a higher average nickel price and revenue related to a toll refining agreement that began in the second half of 2005.

Gross profit increased $48.7 million to $145.1 million in the first six months of 2006, compared with $96.4 million in the first six months of 2005. Favorable cobalt raw material costs and copper by-product were partially offset by the impact of decreased margins due to lower cobalt metal prices in the first six months of 2006 in the Specialties segment. Higher average nickel metal prices and favorable nickel hedging transactions positively impacted gross profit in the first six months of 2006. In addition, the first six months of 2005 included the $9.4 million impact related to the scheduled maintenance shut-down of the smelter in the DRC and a $2.3 million lower-of cost or market inventory charge due to decreasing nickel prices at the end of the second quarter of 2005.

Selling, general and administrative expenses increased slightly to $57.4 million in the first six months of 2006 compared with $55.7 million in the first six months of 2005. Increased administrative expenses, due primarily to increased employee-compensation expense and an additional $1.0 million reserve provided in the second quarter of 2006 against the note receivable from our joint venture partner in the DRC, were partially offset by decreased selling and technical expenses.

Other expense, net decreased $15.3 million to $1.9 million in the first six months of 2006 compared with $17.2 million in the first six months of 2005. The decrease was primarily due to a $12.2 million gain in the first six months of 2006 related to the sale of the Company s investment in Weda Bay (See Note 4 to the unaudited condensed consolidated financial statements). Other expense, net in the first six months of 2005 includes a $2.4 million gain on the sale of an investment in equity securities. In addition, other expense, net was also impacted by a foreign exchange gain of $1.6 million in the first six months of 2006 compared with a foreign exchange loss of $2.8 million in the first six months of 2005 and a $2.5 million increase in interest income in the first six months of 2006 compared with the first six months of 2005 due to the higher average cash balance. Equity income from the Company s investment in

MPI Nickel decreased $2.2 million to $0.6 million in the first six months of 2006 compared with $2.8 million in the first six months of 2005.

Minority interest share of (income) losses relate to the Company s smelter joint venture in the DRC. The losses in 2005 were attributable to the scheduled extended maintenance shutdown of the smelter.

The income (loss) from discontinued operations results from the translation adjustments of retained liabilities of businesses sold denominated in Euros. In addition, during the first six months of 2006, the Company reversed $0.6 million due to a reduction in estimates of environmental accruals related to the Company s closed manufacturing facility in St. George, Utah, partially offset by the recognition of an additional liability of $0.3 million for additional tax assessments related to PMG when payment of such amount became probable.

Net income in the first six months of 2006 includes $0.3 million of income related to cumulative effect of a change in accounting principle for the adoption of SFAS No. 123R. See further discussion of the adoption of SFAS No. 123R in Note 2 to the unaudited condensed consolidated financial statements in this Form 10-Q.

Segment Results and Corporate Expenses

Specialties

The following table summarizes the average reference price of 99.3% cobalt:

	2006	2005	Change
First six months	**$13.40**	$16.12	$(2.72)

Specialties net sales decreased to $319.5 million in the first six months of 2006 from $320.9 million in the first six months of 2005, primarily due to lower product selling prices caused by the decrease in cobalt reference prices in 2006 compared with 2005 ($30.2 million) partially offset by increased copper by-product sales ($16.3 million) and increased sales volumes ($10.3 million).

Operating profit for the first six months of 2006 was $52.3 million compared with $21.5 million in the first six months of 2005. The average quarterly reference price of cobalt declined from $20.78 in the second half 2004 to $16.72 in the first half of 2005 compared with an increase from an average price of $12.96 in the second half of 2005 to $13.40 in the first half of 2006. As a result, cobalt raw material costs in the first six months of 2006 were favorable compared with the first six months of 2005 ($19.9 million). Operating profit was positively impacted by an increase in copper by-product sales ($10.8 million). In addition, operating profit in the first six months of 2005 included the $9.4 million negative impact of the scheduled maintenance shutdown at the smelter in the DRC. These positive factors were partially offset by the impact of decreased margins due to lower cobalt metal prices in the first half of 2006 ($12.8 million).

Nickel segment

The following table summarizes the average LME market price of nickel:

	2006	2005	Change
First six months	**$7.88**	$7.21	$0.67

Nickel segment net sales decreased to $341.2 million in the first six months of 2006 compared with $376.8 million in the first six months of 2005 primarily due to lower nickel sales volumes as a result of lack of raw material feed ($72.0 million) partially offset by higher average nickel sales price ($20.6 million) and increased revenue from toll refining activities ($17.3 million).

Operating profit for the first six months of 2006 was $53.7 million compared with $36.5 million in the first six months of 2005. The $17.2 million increase is primarily due to favorable realized and unrealized gains related to nickel hedging transactions ($14.9 million) and a higher average nickel price and corresponding raw material prices ($11.6 million). These factors were partially offset by the negative impact of lower volumes and higher manufacturing costs ($12.7 million) and lower by-product credits ($4.8 million). The decrease in volumes is primarily due to the lack of raw material feed partially offset by the impact of the toll refining agreement that

began in the second half of 2005. Also impacting operating profit was the positive effect of the stronger U.S. dollar against the Euro ($4.1 million) and the Australian dollar ($1.4 million) in the first six months of 2006 compared with the first six months of 2005.

Corporate expenses

Corporate expenses for the first six months of 2006 were $18.4 million compared with $17.3 million in the first six months of 2005. The increase in the first six months of 2006 is primarily due to increased employee compensation expense ($3.3 million) partially offset by decreased legal expense ($1.4 million) and decreased corporate aircraft expense ($1.0 million). Corporate expenses in the first six months of 2005 included an $8.7 million charge related to the former Chief Executive Officer s termination which was partially offset by $8.5 million of income related to the receipt of net insurance proceeds related to the shareholder class action litigation.

Liquidity and Capital Resources

The Company s cash flows from operating, investing and financing activities, as reflected in the unaudited condensed statements of consolidated cash flows, are summarized in the following table (in thousands):

	Six months ended June 30,		
	2006	2005	change
Cash Flow Summary			
Net cash provided by (used for):			
Operating activities	**$ 79,592**	$ 23,943	$ 55,649
Investing activities	**(9,822)**	(4,201)	(5,621)
Financing activities	**(16,905)**	(2,758)	(14,147)
Effect of exchange rate changes on cash	**2,742**	(1,605)	4,347
Discontinued operations-net cash used for operating activities	**(1,748)**	(4,722)	2,974
Net change in cash and cash equivalents	**$ 53,859**	$ 10,657	$ 43,202

The $55.6 million increase in cash provided by operating activities was primarily due to the $47.4 million increase in net income in the first six months of 2006 compared with the first six months of 2005. In addition, the first six months of 2005 include a cash outflow of $74.0 million for the settlement of the shareholder class action litigation, which was partially offset by the positive cash flow impact of a $53.3 million decrease in inventory at June 30, 2005 compared with December 31, 2004. The decrease in inventory was primarily due to working down the build up for the smelter shutdown, lower cobalt metal prices and lower nickel inventory quantities at June 30, 2005 compared with December 31, 2004.

Cash used in investing activities increased $5.6 million in the first six months of 2006 compared with the first six months of 2005 due to the $5.4 million payment for the Plaschem acquisition, a $2.8 million loan to MPI Nickel, a $2.1 million loan to Talvivaara and a $3.0 million increase in expenditures for property, plant and equipments in the first six months of 2006 compared with the first six months of 2005. These cash outflows were partially offset by a $7.7 million increase in proceeds from the sale of investments in equity securities in the first six months of 2006 compared with the first six months of 2005. During the first six months of 2006, the Company sold its investment in Weda Bay and received cash proceeds of $12.2 million. During the first six months of 2005, the Company received cash proceeds of $4.5 million from the sale of an investment in equity securities.

Cash used for financing activities increased $14.1 million primarily due to the repayment of the $17.3 million note payable with a Finnish bank in the first six months of 2006.

The $3.0 million change in cash used for discontinued operations resulted from higher payments in the first half of 2005 for retained liabilities of businesses sold.

Financing Activities

The Company has a revolving credit agreement (the Revolver) with availability of up to $100.0 million, including up to the equivalent of $25.0 million in Euros or other foreign currencies. The Revolver includes an accordion feature

under which the Company may increase the availability by $50.0 million to a maximum of $150.0 million subject to certain conditions. Obligations

under the Revolver are guaranteed by each of the Company s U.S. subsidiaries and are secured by a lien on the assets of the Company and such subsidiaries. The Revolver provides for interest-only payments during its term, with principal due at maturity. The Company has the option to specify that interest be calculated based either on LIBOR, plus a calculated margin amount, or a base rate. The applicable margin for the LIBOR rate ranges from 0.50% to 1.00%. The Revolver also requires the payment of a fee of 0.125% to 0.25% per annum on the unused commitment. The margin and unused commitment fees are subject to quarterly adjustment based on a certain debt to adjusted earnings ratio. The Revolver matures on December 20, 2010 and contains various affirmative and negative covenants. At June 30, 2006, there were no borrowings outstanding under the Revolver, and the Company was in compliance with all covenants.

The Company has outstanding $400.0 million of 9.25% Senior Subordinated Notes (the Notes) that mature on December 15, 2011. The Notes may be redeemed at the option of the Company beginning December 15, 2006 at prices specified in the indenture. The Company s domestic subsidiaries are the guarantors of the Notes (See Note 13 to the unaudited condensed consolidated financial statements in this Form 10-Q). At June 30, 2006, the fair value of the Notes, based upon the quoted market price, approximated $413.0 million.

In November 2004, the Company obtained a loan with a Finnish bank with principal balance of $23.0 million payable in 48 equal installments beginning in January 2005 and ending December 2008. The balance of this loan was $17.3 million at December 31, 2005. The Company repaid the balance outstanding of $14.4 million in May 2006.

The Company has generated sufficient cash from operations during 2006 to provide for its working capital, debt service and capital expenditure requirements. The Company believes that it will have sufficient cash provided by operations and available from its credit facility to provide for its working capital, debt service and capital expenditure requirements during the balance of 2006.

Capital Expenditures

Capital expenditures in the first six months of 2006 were $11.7 million, related primarily to ongoing projects to maintain current operating levels and were funded through cash flows from operations. The Company expects to incur capital spending of approximately $28.3 million for the remainder of 2006 primarily for projects at the Kokkola refinery to improve by-product yields and expand capacity in selected product lines, a project at the Cawse facility to improve recoveries and other fixed asset additions at existing facilities.

Contractual Obligations

Since December 31, 2005, there have been no significant changes in the total amount of contractual obligations or the timing of cash flows in accordance with those obligations, as reported in the Company s 10-K for the year ended December 31, 2005 except the repayment of the Finnish bank loan discussed above in Liquidity and Capital Resources, which decreased our Debt obligations from $417.3 million as of December 31, 2005 to $401.7 million as of June 30, 2006.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

A discussion of market risk exposures is included in Part II, Item 7a, Quantitative and Qualitative Disclosure About Market Risk, of the Company s 2005 Annual Report on Form 10-K. There have been no material changes from December 31, 2005 to June 30, 2006.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Management of the Company, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company s disclosure controls and procedures as of June 30, 2006. As defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act), disclosure controls and procedures are controls and procedures designed to provide reasonable assurance that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported on a timely basis, and that such information is accumulated and communicated to management, including the Company s Chief Executive Officer and Chief

Financial Officer, as appropriate to allow timely decisions regarding required disclosure. The Company s disclosure controls and procedures include components of the Company s internal control over financial reporting.
Based upon, and as of the date of, this evaluation, the Company s Chief Executive Officer and Chief Financial Officer concluded that the Company s disclosure controls and procedures were not effective solely because of the material weakness identified as of December 31, 2005 relating to the Company s controls over the Company s joint venture smelter in the Democratic Republic of Congo (DRC), as summarized in the Form 10-K for the year ended December 31, 2005. In light of this material weakness, the Company performed additional analysis and post-closing procedures as deemed necessary to ensure that the accompanying unaudited condensed consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the instructions to Form 10-Q. Accordingly, management believes that the unaudited condensed consolidated financial statements included in this report present fairly, in all material respects, the Company s financial position as of June 30, 2006, and the results of its operations for the three and six months ended June 30, 2006, and its cash flows and changes in stockholders equity for the six months ended June 30, 2006.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

As of December 31, 2005, management identified inadequate controls over the Company s joint venture smelter in the DRC that resulted in several control deficiencies that were individually not material weaknesses but, when aggregated, constituted a material weakness in internal control over financial reporting. Management continues to implement mitigating controls over the DRC joint venture smelter, including timely financial and operational oversight at both a Group and Corporate level, increased frequency of internal audits at the location, quarterly review of all cash disbursements made by the location and upgrading finance and management personnel at the location. The additional internal controls put into place during the first six months of 2006 have not been in place for a period of time sufficient for the Company to evaluate their design and operating effectiveness.
The Company continues to review, revise and improve the effectiveness of its internal controls including the controls discussed above. There were no other changes in the Company s internal controls over financial reporting in connection with the Company s second quarter 2006 evaluation, or subsequent to such evaluation, that would materially affect, or are reasonably likely to materially affect, the Company s internal controls over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in the company s Annual Report on Form 10-K for the year ended December 31, 2005.

Item 4. Submission of Matters to a Vote of Security Holders

The following matters were submitted to a vote of security holders at the Annual Meeting of Stockholders held May 2, 2006:

Description	For	Withheld
1. Election of two directors for terms expiring in 2009:		
Richard W. Blackburn	26,624,434	1,068,541
Steven J. Demetriou	27,373,903	319,072

	For	Against	Abstentions
2. Proposal to amend the OM Group, Inc. 2002 Stock Incentive Plan	21,102,080	565,968	400,978

	For	Against	Abstentions
3. Confirmation of the appointment of Ernst & Young LLP:	26,949,300	721,797	21,876

ITEM 6. EXHIBITS

Exhibits are as follow:

31.1 Certification by Chief Executive Officer under Section 302 of the Sarbanes-Oxley Act of 2002

31.2 Certification by Chief Financial Officer under Section 302 of the Sarbanes-Oxley Act of 2002

32 Certification by Chief Executive Officer and Chief Financial Officer under Section 906 of the Sarbanes-Oxley Act (18 U.S.C. Section 1350)

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
