PROXY STATEMENT

This Proxy Statement is being furnished to shareholders of MESA AIR GROUP, INC., a Nevada corporation (the Company), in connection with the solicitation of proxies by the Board of Directors for use at the 2002 Annual Meeting of Shareholders of the Company to be held on April 4, 2002, at 10:00 a.m., Arizona Time, at the Phoenix Airport Marriott, 1101 North 44th Street, Phoenix, Arizona, and any adjournment or postponement thereof (the Annual Meeting). A copy of the Notice of the Meeting accompanies this Proxy Statement. This Proxy Statement and the accompanying form of Proxy Card are being mailed on or about March 8, 2002.

Solicitation and Voting of Proxies

Only shareholders of record at the close of business on February 28, 2002 (the Record Date) are entitled to notice of and to vote at the Annual Meeting and at any adjournment or postponement of the meeting. On the Record Date, 34,141,267 shares of Common Stock, no par value per share (the Common Stock), were issued and outstanding.

Each shareholder present at the Annual Meeting, either in person or by proxy, will be entitled to one vote for each share of Common Stock held of record on the Record Date on each matter of business to be considered at the Annual Meeting. The nine (9) nominees receiving a plurality of votes by shares represented and entitled to vote at the Annual Meeting, if a quorum is present, will be elected as directors of the Company.

All valid proxies received before the Annual Meeting and not revoked will be exercised. All shares represented by proxy will be voted, and where a shareholder specifies by means of his or her proxy a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specifications so made. If no specification is indicated and authority to vote is not specifically withheld, the shares will be voted (i) for the election of the persons named in the proxy to serve as directors; (ii) against the shareholder proposal to adopt confidential voting, and (iii) for the ratification of Deloitte & Touche LLP (Deloitte & Touche) as the independent auditors of the Company. Abstentions and broker non-votes will be included in the determination of the number of shares represented for a quorum and have the same effect as no votes in determining whether the proposals are approved. Proxies may be revoked at any time prior to the time they are voted by: (a) delivering to the Secretary of the Company a written instrument of revocation bearing a date later than the date of the proxy; or (b) duly executing and delivering to the Secretary of the Company a subsequent proxy relating to the same shares; or (c) attending the meeting and voting in person, provided that the shareholder notifies the Secretary of the meeting of his or her intention to vote in person at any time prior to the voting of the proxy. In order to vote their shares in person at the meeting, shareholders who own their shares in street name (i.e., in the name of a bank, broker or other record holder) must obtain a special proxy card from their broker or bank.

The cost of soliciting proxies, including the cost of preparing and mailing the Notice and Proxy Statement, will be paid by the Company. Solicitation will be primarily by mailing this Proxy Statement to all shareholders entitled to vote at the meeting. Proxies may also be solicited by officers and directors of the Company personally or by telephone or facsimile, without additional compensation. The Company may reimburse brokers, banks and others holding shares in their names for others for the cost of forwarding proxy materials and obtaining proxies from beneficial owners.

The Board of Directors does not know of any matters other than the election of directors, the shareholder proposal, and the ratification of independent auditors that are expected to be presented for consideration at the

Table of Contents

Annual Meeting. However, if other matters properly come before the meeting, the persons named in the accompanying proxy intend to vote thereon in accordance with their judgment.

Board and Committee Meetings

The Board of Directors held four meetings during the 2001 fiscal year. No director attended less than 75% of the Board meetings while serving as such director, or less than 75% of all committee meetings on which he or she served as a committee member.

The audit, executive, nominating and compensation committees are the standing committees of the Board of Directors. These committees are comprised as follows:

Audit	Nominating	Compensation
Ronald R. Fogleman	Daniel J. Altobello	Daniel J. Altobello
Maurice Parker	Maurice A. Parker	Maurice A. Parker
Julie Silcock	James E. Swigart	Joseph L. Manson
George Murnane(1)		

(1) Mr. Murnane resigned from the Audit Committee effective December 2001 upon his accepting an Executive Vice President position at the Company.

The Audit Committee held four meetings during fiscal 2001. The principal functions of the Audit Committee include the review of the annual financial statements, reports and recommendations regarding the adequacy of internal accounting controls made by the independent auditors and such other matters with respect to the accounting, auditing and financial reporting procedures as it may deem appropriate or as may be brought to its attention.

With the exception of Mr. Murnane, the Audit Committee is composed of outside directors who are not officers or employees of the Company or its subsidiaries. In the opinion of the Board and as independent is defined under the standards of the New York Stock Exchange, these directors are independent of management and free of any relationship that would interfere with their exercise of independent judgment as members of this committee. Mr. Murnane resigned his position on the Audit Committee on December 6, 2001, upon accepting an Executive Vice President position at the Company. Mr. Murnane had been appointed to the Audit Committee pursuant to the exception contained in NASDAQ Stock Market Rule 4350(d)(2)(B) relating to exceptional circumstances for appointing certain persons to a corporation's Audit Committee who might not otherwise meet the independence requirements of NASDAQ. Mr. Murnane has extensive experience as a public company chief financial officer, significant experience as an investment banker in the field of transportation and further general management experience in the aviation industry. For this reason, the Board determined that it was in the best interest of the Company and its shareholders to have Mr. Murnane on the Audit Committee.

The Nominating Committee met twice in fiscal 2001. The Nominating Committee is responsible for the nominations of persons to serve as directors and corporate officers of the Company. The nominating

Table of Contents

committee will consider, but is not required to approve, nominations for directors by shareholders for all annual meetings, provided a written recommendation is received by the Company no later than the date shareholder proposals must be submitted for consideration.

The Compensation Committee held two meetings during the 2001 fiscal year. Mr. Manson was elected to the Compensation Committee on October 15, 2001. The Compensation Committee makes recommendations concerning officer compensation, employee benefit programs and retirement plans.

It is expected that all current committee members will be nominated for re-election to such committees at a Board meeting to be held immediately following the Annual Meeting of Shareholders.

Compensation of Directors

Directors who are full-time employees of the Company receive no additional compensation for serving as directors. Each non-employee director receives an annual retainer of \$10,000 (increased to \$15,000 on July 13, 2001), along with the payment of \$1,000 per meeting attended in person; \$500 per committee meeting attended in person; \$500 for each telephonic Board meeting attended and reimbursement of all expenses associated with attending committee or Board of Directors meetings.

In addition, under the Company's Outside Director's Stock Option Plan, each non-employee director receives an annual grant of options to purchase 3,000 shares of Common Stock, plus the number of options to purchase common stock equivalent to a cash value of \$13,000 (increased to \$20,000 on July 13, 2001) as calculated pursuant to the Black-Scholes Valuation Method (collectively, the Formula Amount), at a risk-free rate of a ten-year zero coupon bond. Each non-employee director receives an additional Formula Amount on each April 1st thereafter. If there are an insufficient number of options, a pro-rata amount of the options available under the Plan will be granted to each non-employee director. Upon being appointed a non-employee director after April 1, 1998, such director is granted a pro-rata portion of the Formula Amount and receives options pursuant to the plan on each succeeding April 1st. The amount of pro rata options granted to each new outside director is calculated by dividing the number of days prior to April 1st by the number of days in the calendar year and multiplying the quotient by the Formula Amount.

Each outside director, and certain family members of such director, receives free travel on Mesa Air and free or reduced-fare travel on certain air carriers at no cost to the Company or Director. The Company believes that the directors' use of free air travel is de minimis and did not maintain any records of outside directors' travel during 2001.

Compensation Committee Interlocks

During the fiscal year 2001, the Compensation Committee consisted of Messrs. Altobello and Parker. Mr. Manson was elected to the Compensation Committee in October 2001. None of the members of the committee held any executive officer position or other employment with the Company prior to or during such service.

REPORT OF AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

In accordance with its written charter adopted by the Board of Directors on May 25, 2000, a copy of which was attached as an exhibit to the Company's 2001 Annual Meeting Proxy Statement, the Audit Committee of the Board of Directors (the Audit Committee) is responsible for, among other things, reviewing and discussing the audited financial statements with management, discussing with the Company's auditors information relating to the auditors' judgments about the quality of the Company's accounting principles, recommending to the Board of Directors that the Company include the audited financials in its Annual Report on Form 10-K and overseeing compliance with the Securities and Exchange Commission requirements for disclosure of auditors' services and activities.

Table of Contents

Review of Audited Financial Statements

The Audit Committee has reviewed the Company's financial statements for the fiscal year ended September 30, 2001, as audited by Deloitte & Touche, the Company's independent auditors, and has discussed these financial statements with management. In addition, the Audit Committee has discussed with Deloitte & Touche the matters required to be discussed by Statement of Auditing Standards 61 regarding the codification of statements on auditing standards. Furthermore, the Audit Committee has received the written disclosures and the letter from Deloitte & Touche required by the Independence Standards Board Standard No. 1 and has discussed with Deloitte & Touche its independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, or in determining auditor independence. Members of the Audit Committee rely, without independent verification, on the information provided to them and on the representations made by management and the independent accountants. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with auditing standards generally accepted in the United States of America, that the financial statements are presented in accordance with accounting principles generally accepted in the United States of America or that the Company's auditors are in fact independent.

Recommendation

Based upon the foregoing review and discussion, the Audit Committee recommended to the Board of Directors that the audited financial statements for the fiscal year ended September 30, 2001 be filed with the Company's annual report on Form 10-K.

DISCLOSURE OF AUDIT AND NON-AUDIT FEES

Audit Fees

The aggregate fees billed by Deloitte & Touche for professional services rendered for the audit of the Company's financial statements for the fiscal year ended September 30, 2001, and the review of the Company's Forms 10-Q during the fiscal year 2001 were approximately \$455,000.

Financial Information Systems Design and Implementation Fees

There were no fees billed for the professional services described in Paragraph (c)(4)(ii) of Rule 2-01 of Regulation S-X rendered by Deloitte & Touche for the fiscal year ended September 30, 2001.

All Other Fees of Independent Public Accountants

During fiscal 2001, the Company paid other fees to Deloitte & Touche totaling approximately \$269,000 for non-audit services rendered to the Company, such as tax consulting and miscellaneous compliance auditing. The audit committee has considered whether the provision of these services is compatible with maintaining the principal accountant's independence.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding the beneficial ownership of the Company's common stock as of February 28, 2002 by (i) each director of the Company, (ii) each of the Company's executive officers, (iii), each person who is known by the Company to be the beneficial owner of more than five percent of the Company's outstanding common stock and (iv) all directors and executive officers as a group.

Under such rules, beneficial ownership includes any shares as to which the individual has the sole or shared voting power or investment power and also any shares, which the individual has the right to acquire within 60 days of February 28, 2002 through the exercise of any stock option or other right. Unless otherwise indicated, each person has sole investment and voting power (or shares such powers with his or her spouse) with respect to the shares set forth in the following table and the address of the listed beneficial owner is that of the Company. In certain instances, the number of shares listed includes, in addition to shares owned directly, shares held by the spouse or children of the person, or by a trust or estate of which the person is a trustee or an executor or in which the person may have a beneficial interest. The table that follows is based upon information supplied by executive officers, directors and principal stockholders and Schedules 13D and 13G filed with the Commission.

The base salary is subject to increase based on increases in the Consumer Price Index, and is subject to annual discretionary increases upon review by the board of directors. Mr. Ornstein also is entitled to an annual bonus, paid quarterly, based on annual performance criteria as set forth in the agreement, and may range from \$52,500 to \$420,000. The Company also is obligated to provide Mr. Ornstein with \$5,000,000 of term life insurance, the limited use of Company aircraft, and other customary fringe benefits.

Mr. Ornstein's employment agreement also provides for the initial grant of stock options to purchase 150,000 shares of Common Stock, with the options vesting in one-third increments over a three-year period, and additional annual option grants of 150,000 shares throughout the term of the agreement. The option exercise price for each option is determined by the market price for the Company's Common Stock on the date the option is granted. The agreement provides for the Company to make market rate loans to Mr. Ornstein to enable him to pay the exercise price of any option held by him to purchase Common Stock.

The agreement provides that upon Mr. Ornstein's disability, as defined in the agreement, Mr. Ornstein will receive on a monthly basis, his base salary, plus an annualized amount equal to his historical bonuses. Mr. Ornstein may terminate the agreement following the occurrence of an event constituting Good Reason. Good Reason is defined as the occurrence of any of the following circumstances: (i) any change by the Company in Mr. Ornstein's title, or any significant diminishment in his function, duties or responsibilities, (ii) any material uncured breach by the Company; or (iii) a Change in Control (as defined in the agreement) and the expiration of 90 days.

In addition, the Company has agreed to enter into a consulting agreement with Mr. Ornstein, at Mr. Ornstein's option, the terms of which will provide for Mr. Ornstein's retention as a consultant for a period of 10 years from its effective date at the rate of \$200,000 per year.

If any payments received by Mr. Ornstein under the agreement are treated as golden parachute payments and are subjected to the excise tax imposed by Section 4999 of the Internal Revenue Code, Mr. Ornstein is entitled to receive gross up payments sufficient to cover the excise tax.

Effective as of March 14, 2001, Michael J. Lotz and the Company entered into a new employment agreement, providing for Mr. Lotz to serve as the President and Chief Operating Officer of the Company for a term of five years ending March 13, 2006. Mr. Lotz also is entitled to an annual bonus, paid quarterly based on annual performance criteria as set forth in the agreement and may range from \$40,000 to \$320,000. Additionally, the board of directors may approve discretionary bonuses. Upon execution of the agreement and on each March 14th thereafter during the term of the agreement, the Company is obligated to contribute \$175,000, as deferred compensation, to an account for the benefit of Mr. Lotz. The Company also is obligated to provide Mr. Lotz with \$2,000,000 of term life insurance, the limited use of Company aircraft, and other customary fringe benefits.

Mr. Lotz's employment agreement also provides for the initial grant of stock options to purchase 100,000 shares of Common Stock, with the options vesting in one-third increments over a three-year period, and additional annual option grants of 150,000 shares throughout the term of the agreement. The option exercise price for each option is determined by the market price for the Company's Common Stock on the date the option is granted. The agreement provides for the Company to make market rate loans to Mr. Lotz to enable him to pay the exercise price of any option held by him to purchase Common Stock.

The agreement provides that upon Mr. Lotz's disability, as defined in the agreement, Mr. Lotz will receive on a monthly basis, his base salary, plus an annualized amount equal to his historical bonuses. The Company will make such disability payments for as long as the disability lasts, up to 48 months, and payments will continue to be made even if they extend beyond the term of the agreement. The Company is required to fund a portion of the payments with disability insurance.

Mr. Lotz may terminate the agreement following the occurrence of an event constituting Good Reason. Good Reason is defined as the occurrence of any of the following circumstances: (i) any change by the Company in Mr. Lotz's title, or any significant diminishment in his function, duties or responsibilities, (ii) any

material uncured breach by the Company; or (iii) a Change in Control (as defined in the agreement) and the expiration of 90 days.

If Mr. Lotz's employment is terminated by the Company without Cause (as defined in the agreement), or by Mr. Lotz for Good Reason, or by Mr. Lotz after March 13, 2004, or upon expiration of the term of the agreement, the Company is required to pay all normal accrued amounts, plus \$350,000 (that is, twice the normal deferred compensation payment) each March 14th through 2005 in lieu of payments that would have been made under the deferred compensation plan, and severance pay for 36 months at the rate of twice his normal salary and twice his historical bonuses. In addition, the Company has agreed to enter into a consulting agreement with Mr. Lotz, at Mr. Lotz's option, the terms of which will provide for Mr. Lotz's retention as a consultant for a period of 10 years from its effective date at the rate of \$150,000 per year.

If any payments received by Mr. Lotz under the agreement are treated as "golden parachute" payments and are subjected to the excise tax imposed by Section 4999 of the Internal Revenue Code, Mr. Lotz is entitled to receive "gross up" payments sufficient to cover the excise tax.

Upon their appointment as Chief Financial Officer, Vice President of Planning, President of CCAir, Inc. and Vice President and General Counsel, respectively, each of Messrs. Stone, Kostel, Leake and Gillman and the Company entered into employment agreements. Each of these employment agreements provide for cash and non-cash compensation. Messrs. Stone, Kostel, Leake and Gillman receive a base salary of \$125,000, \$80,000, \$120,000 and \$110,000, respectively, and are eligible to receive quarterly bonuses of varying minimum amounts ranging from at least 5% to at least 25% of their respective base salaries. Further, these employment agreements differ from Mr. Ornstein's and Mr. Lotz's with respect to lump sum payments due to each of them upon termination by the Company without Good Cause or by either of them for Good Reason and with respect to the retention of either of them as consultants thereafter.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation committee consists of independent, outside directors and has the responsibility for allocation of cash compensation and options to senior executive officers of the Company. The compensation committee primarily administers the Company's cash compensation plans, employee stock option plans, and employee stock purchase plans. In those instances in which Rule 16b-3 of the Exchange Act requires grants or awards of stock options to be made by a "disinterested" committee, the compensation committee is solely responsible for the administration of such plans.

The entire board regularly reviews the compensation committee decisions relating to executive compensation. The Company's executive compensation policies, as endorsed by the Compensation Committee, have been designed to provide a balanced compensation program that will assist the Company in its efforts to attract, motivate and retain talented executives who the Compensation Committee and senior management believe are important to the long-term financial success of the Company. The employment contracts of Messrs. Ornstein and Lotz provides for bonuses, which are detailed below. Pursuant to the employment contract of Mr. Ornstein, his salary has been capped. Bonuses are limited to prescribed percentages of base salary, based upon the percentage growth in earnings per share of the Company. Growth in earnings per share is categorized at four levels. Minimum - any growth in earnings per share during the prior fiscal year; Threshold - 7.0% to 12.9% growth in earnings per share; Target - 13.0% to 17.9% growth in earnings per share; and Maximum - 18.0% or greater growth in earnings per share. Since salary and bonuses are capped, an integral part of executive compensation is the issuance of stock options on an annualized basis to key employees under the Stock Option Plan.

Table of Contents

The Stock Option Plan provides for options to be issued to officers and key employees at the discretion of the Committee upon recommendation by the Chief Executive Officer. The options granted under the Stock Option Plan vest at the rate of approximately one-third per year. The options have a 10-year term and are subject to standard option provisions such as are included in existing Company plans and include the requirement of continued employment and provisions to deal with termination of employment due to retirement, death or disability. Under the plan, options will be issued at the closing price of Company common stock on the date of grant. The total number of options granted under the Stock Option Plan in fiscal 2001 was 642,206. The compensation committee believes that the issuance of stock options to officers and key employees related to the appreciation of the Company's Common Stock provides equitable incentives to increase the profitability of the Company.

Table of Contents**COMPARISON OF STOCK PERFORMANCE**

Set forth below is a graph comparing the five-year cumulative shareholder return on the Company's common stock against the five-year cumulative total return on the CRSP Index for NASDAQ Stock Market, U.S. Companies, and the CRSP Index for NASDAQ Stocks (SIC 4510-4519) (Old Peer Group) and American Stock Exchange Airline Index (the New Peer Group). The New Peer Group was selected as the Company believes the American Stock Exchange Index is a more recognizable and representative group of companies in which to compare the Company's common stock. The Old Peer Group composed of NASDAQ companies engaged in air transportation, and includes regional airlines whose stocks trade on NASDAQ for the periods indicated. The graph assumes an initial investment of \$100.00 and reinvestment of dividends, if any.

FREE AND CONFIDENTIAL SHAREHOLDER VOTING

(PROPOSAL NO. 2)

One of the Company's shareholders has given notice of their intention to introduce the following proposal for consideration and action by the shareholders at the Annual meeting. The proposed resolution and accompanying supporting statement have been provided by the shareholder/proponent. The affirmative vote of at least a majority of the Company's outstanding Common Stock on the Record Date is required for approval of the proposal.

This shareholder proposal is submitted by Pauline Berberian, 801 Viewpointe Drive, St. Charles, IL 60174.

This Topic Won The Yes-No Vote By A Nearly 1 Million Margin In 2001

Shareholders recommended that the Board of Directors take the steps necessary to implement a policy of confidential voting at all meetings of the Company's shareholders. This includes the following provisions:

1) The voting of all proxies, consents or authorizations will be secret. No such document shall be available for examination, nor shall the vote or identity of any shareholder be disclosed except to the extent necessary to meet the legal requirements, if any, of the Company's state of incorporation; and

2) Independent election inspectors shall conduct the receipt, certification and tabulation of such votes.

The Integrity of Mesa Elections

It is important for Mesa to establish a system of confidential proxy voting based on an analysis of recommendations published independently of the company. The integrity of company elections and shareholder votes should be protected against potential abuse.

We believe that implementing confidential voting will enhance shareholder value:

1) Shareholders would feel free to question or challenge management nominees and positions on specific ballot items if they are protected by the confidentiality of the ballot box. This is especially important for professional money managers whose business relationships can be jeopardized by their voting positions.

2) To invigorate the corporate governance process at the highest level of the company. We believe that shareholder input should be encouraged and that shareholders be empowered with a free and confidential vote. Thus shareholders could have greater input to encourage the nomination of the most qualified candidates for the board of directors and use greater independence to evaluate management and shareholder proposals.

Management and shareholder proposals need to balance the interest of all shareholders in relation to the potential narrow interest of a few insider shareholders. There needs to be a balance to correct the potential tendency of inside shareholders to give unwarranted support for management stock options with excess stock dilution and for overly generous golden parachutes.

This Topic Won The Yes-No Vote By A Nearly 1 Million Margin In 2001

This proposal topic is now submitted for the second shareholder vote at the 2002 shareholder meeting. In 2001 the for votes outnumbered the against votes by nearly 1 million. It is notable that CalPERS, which invests pension money of \$150 billion, considers it so important for directors to act to adopt proposals passed by shareholders that CalPERS has recommended a withhold vote against directors at the next election when directors fail to act. (This proposal is not a recommendation for voting regarding the directors.)

Institutional Investor Support of this Topic is High-Caliber Support

This proposal topic won significant institutional support to pass at the 2001 annual meetings. Institutional investors own an impressive 79% majority of MESA stock. Institutional investor support is high-caliber support. Many institutional investors have the advantage of a specialized staff and resources, long-term focus, fiduciary duty obligations and independent perspective to thoroughly study the issues involved in this proposal topic.

Double Standard at Mesa?

Consistent with the Mesa directors accepting shareholder votes for their own election, the directors should arguably have a policy to give equal value to shareholder votes for other ballot items.

Dubious Distinction

By not acting to adopt this proposal the directors arguably have the dubious distinction of not commanding the full support of shareholders on a key rule at the highest level of the company.

Status of Company Response to 2001 Shareholder Vote

The company was asked in October 2001 to advise the status of the company accomplishment to research, study and take steps to enact this shareholder proposal topic in the 6 months since it was voted on at the annual shareholder meeting. This included any discussions or polling of the company's institutional investors and also dialog with respected independent proxy analyst and/or analysis firms and relevant minutes from meetings of the full Mesa board or board committee(s).

Confidential Shareholder Vote Precedent Set By Other Companies

The vast majority of major companies have already adopted confidential voting, and we believe that it is time for Mesa to do the same.

MESA AIR BOARD RECOMMENDS AGAINST THIS PROPOSAL

The Mesa Air Board does not recommend the adoption of this proposal. The Company’s current proxy voting procedures comply in all respects with the proxy rules of the Securities and Exchange Commission and the General Corporation Law of Nevada. The Company’s current practices ensure that the voting process does not result in any improper influence or coercion of shareholders. The Company believes that it has consistently conducted shareholder solicitations in a fair and equitable manner. The Mesa Air Board believes that the practices in place adequately address the concerns raised in this proposal.

The Mesa Air Board believes that its ability to communicate with shareholders during a proxy solicitation should not be limited under any circumstances. The Board believes that the Company needs the ability to contact shareholders on issues that are important to the Company’s success. This proposal limits that ability. This proposal also fails to include exceptions to confidentiality for proxy contests, when disclosure is requested by a shareholder or when such disclosure is required by law. In the case of a proxy contest, the proposed confidential voting policy would not apply to the third party that was soliciting proxies, yet would continue to apply to the Company, thereby giving the third party dissident an unfair advantage. The dissident would be able to view shareholder voting decisions and other information, and use that information to persuade individual shareholders to vote in the dissident’s favor. This advantage is not only unfair, but could be detrimental to shareholders. In contesting the dissident’s solicitation of proxies, the Mesa Air Board has a legal obligation to act in the best interests of the shareholders as a group, whereas the dissident would have no such obligation and would be free to act purely in his or her self-interest. Given the unfair advantage the dissident would gain from having access to voting information, the Board’s ability to act in the best interests of shareholders would be hindered because the Board would not have the same access to that information.

Confidentiality safeguards are already in place throughout the voting and tabulation process. The voting and tabulation process is conducted by a third party election inspectors. Votes are tabulated mechanically, except where a vote is withheld in which case it is tabulated by hand, and the Mesa Air Board has full confidence in the accuracy and impartiality of the results. Besides these precautions, however, shareholders have the additional option of registering their shares in the name of a bank, broker, or other nominee. These nominee holders cannot reveal the names of the holders without their permission, thereby further protecting shareholders privacy and the confidentiality of their votes.

In addition to the foregoing reasons, the Company notes that it previously reported in its Form 10-Q for the quarterly period ended March 31, 2001, that this same proposal was not approved by the Company’s shareholders at the Company’s 2001 Annual Shareholders Meeting.

The votes for the Confidential Shareholder Voting proposal at the Company’s 2001 Shareholder Meeting were as follows:

11,789,655	FOR
10,810,059	AGAINST
95,693	ABSTENTIONS
6,855,709	BROKER NON-VOTES

Pursuant to the General Corporation Law of Nevada, abstentions and broker-non votes are included in the determination of the number of shares represented at the meeting for the purposes of determining a quorum, but have the same effect as an AGAINST vote in determining whether the proposals are approved. Accordingly, the proposal did not pass and the number of AGAINST votes with respect to this proposal were substantially greater than the number of votes FOR this proposal.

In light of the foregoing, the Company’s Board of Directors believes that its current practices protect the confidentiality of shareholder votes and further believes that the shareholder proposal described above is not in

the best interests of all of the Company's shareholders, and therefore believes that a modification of the current practice is unwarranted.
