TAYLOR DEVICES, INC.

Notes to Condensed Consolidated Financial Statements

1. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of February 28, 2010 and May 31, 2009, the results of operations for the three and nine months ended February 28, 2010 and February 28, 2009, and cash flows for the nine months ended February 28, 2010 and February 28, 2009. These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Annual Report to Shareholders for the year ended May 31, 2009. There have been no updates or changes to our audited

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

financial statements for the year ended May 31, 2009.

2. The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through April 12, 2010 (the date the financial statements were issued).
3. There is no provision nor shall there be any provisions for profit sharing, dividends, or any other benefits of any nature at any time for this fiscal year.
4. For the three and nine month periods ended February 28, 2010 and February 28, 2009, the net income was divided by 3,223,317 and 3,221,155, respectively, which is net of the Treasury shares, to calculate the net income per share.
5. The results of operations for the nine month period ended February 28, 2010 are not necessarily indicative of the results to be expected for the full year.
6. Effective September 1, 2009, the Company adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") regarding Generally Accepted Accounting Principles ("GAAP"). The guidance establishes the FASB ASC as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP for SEC registrants. All guidance contained in the FASB ASC carries an equal level of authority. The FASB ASC supersedes all existing non-SEC accounting and reporting standards. The FASB now issues new standards in the form of Accounting Standards Updates ("ASUs"). The FASB will not consider ASUs as authoritative in their own right. ASUs will serve only to update the FASB ASC, provide background information about the guidance and provide the basis for conclusions on the changes in the FASB ASC. References made to FASB guidance have been updated for the FASB ASC throughout this document.

Effective June 1, 2009, the Company adopted guidance issued by the FASB that requires disclosure about the fair value of financial instruments for interim financial statements of publicly traded companies. The adoption did not have an impact on our consolidated results of operations or financial condition.

Effective June 1, 2008, the Company adopted the FASB ASC "Fair Value Measurements and Disclosures" guidance with respect to recurring financial assets and liabilities. Effective June 1, 2009, the Company adopted the FASB ASC "Fair Value Measurements and Disclosures" guidance as it relates to nonrecurring fair value measurement requirements for nonfinancial assets and liabilities. The ASC guidance defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosure about fair value measurements. The adoption of the standard had no impact on our consolidated financial results.

Other recently issued ASC guidance has either been implemented or are not significant to the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. Information in this Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this 10-Q that does not consist of historical facts, are "forward-looking statements." Statements accompanied or qualified by, or containing, words such as "may," "will," "should," "believes," "expects," "intends," "plans," "projects," "estimates," "predicts," "potential," "outlook," "forecast," "anticipates," "presume," and "assume" constitute forward-looking statements and, as such, are not a guarantee of future performance. The statements involve factors, risks and uncertainties, the impact or occurrence of which can cause actual results to differ materially from the expected results described in such statements. Risks and uncertainties can include, among others, uncertainty regarding how long the worldwide economic recession will continue and whether the recession will deepen; reductions in capital budgets by our customers and potential customers; changing product demand and industry capacity; increased competition and pricing pressures; advances in technology that can reduce the demand for the Company's products; and other factors, many or all of which are beyond the Company's control. Consequently, investors should not place undue

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

reliance on forward-looking statements as predictive of future results. The Company disclaims any obligation to release publicly any updates or revisions to the forward-looking statements herein to reflect any change in the Company's expectations with regard thereto, or any changes in events, conditions or circumstances on which any such statement is based.

Results of Operations

A summary of the period to period changes in the principal items included in the condensed consolidated statements of income is shown below:

Summary comparison of the nine months ended February 28, 2010 and February 28, 2009

	Increase / (Decrease)
Sales, net	\$ 1,006,000
Cost of goods sold	\$ (529,000)
Selling, general and administrative expenses	\$ 559,000
Income before provision for income taxes	\$ 1,014,000
Provision for income taxes	\$ 102,000
Net income	\$ 912,000

Sales under certain fixed-price contracts, requiring substantial performance over several periods prior to commencement of deliveries, are accounted for under the percentage-of-completion method of accounting whereby revenues are recognized based on estimates of completion prepared on a ratio of cost to total estimated cost basis. Costs include all material and direct and indirect charges related to specific contracts.

Adjustments to cost estimates are made periodically and any losses expected to be incurred on contracts in progress are charged to operations in the period such losses are determined. However, any profits expected on contracts in progress are recognized over the life of the contract.

For financial statement presentation purposes, the Company nets progress billings against the total costs incurred on uncompleted contracts. The asset, "costs and estimated earnings in excess of billings," represents revenues recognized in excess of amounts billed. The liability, "billings in excess of costs and estimated earnings," represents billings in excess of revenues recognized.

7

For the nine months ended February 28, 2010 (All figures discussed are for the nine months ended February 28, 2010 as compared to the nine months ended February 28, 2009.)

	Nine months ended		Change	
	February 28, 2010	February 28, 2009	Increase / (Decrease)	Percent Change
Net Revenue	\$13,286,000	\$12,280,000	\$ 1,006,000	8%
Cost of sales	8,639,000	9,168,000	(529,000)	-6%
Gross profit	\$ 4,647,000	\$ 3,112,000	\$ 1,535,000	49%

...as a percentage of net revenues 35% 25%

The Company's consolidated results of operations showed an 8% increase in net revenues and an increase in net income of 388%. Revenues recorded in the current period for long-term construction projects were 71% higher than the level recorded in the prior year. Revenues recorded in the current period for other-than long-term construction projects (non-projects) were down 28% from the level recorded in the prior year. The gross profit as a percentage of net revenues for the current and prior year periods was 35% and 25%. This fluctuation is attributable primarily to a.) three large export projects in the current year have higher than average margins, and b.) three large projects in the current year with aerospace / defense customers that have higher margins than average projects for construction customers.

While the overall sales figures showed only a slight increase from the prior year, the mix of customers buying our products changed. Sales of the Company's products are made to three general groups of customers: industrial, construction and aerospace / defense. The negative effect of the continued slow global construction market has been offset by an increase in our global sales to customers in the aerospace and defense

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

markets. A breakdown of sales to the three general groups of customers is as follows:

<u>First Nine Months - Fiscal 2010</u>		<u>First Nine Months - Fiscal 2009</u>	
Industrial	9%	Industrial	14%
Construction	38%	Construction	46%
Aerospace / Defense	53%	Aerospace / Defense	40%

At February 28, 2009, we had 104 open sales orders in our backlog with a total sales value of \$12.4 million. At February 28, 2010, we have 20% more open sales orders in our backlog (124 orders) and the total sales value is \$13 million or approximately 5% higher than the prior year.

The Company's revenues and net income fluctuate from period to period. The fluctuations in comparing the current period to the prior period are not necessarily representative of future results.

8

Selling, General and Administrative Expenses

	Nine months ended		Change	
	February 28, 2010	February 28, 2009	Increase / (Decrease)	Percent Change
Outside Commissions	\$ 615,000	\$ 527,000	\$ 88,000	17%
Other SG&A	2,654,000	2,183,000	471,000	22%
Total SG&A	\$ 3,269,000	\$ 2,710,000	\$ 559,000	21%

...as a percentage of net revenues 25% 22%

Selling, general and administrative expenses increased by 21% from the prior year. Outside commission expense increased by 17% from last year's level. This fluctuation was primarily due to a single, high value, non-project, commissionable sales order recorded this year as well as three Projects in Asia that included higher than average commissions in the current year. Other selling, general and administrative expenses increased 22% from last year to this. This increase is primarily due to a.) increased professional fees related to the completion of a tax credit study that resulted in the recording of \$325,000 in tax credits in the current period, b.) increased incentive compensation expense related to the improved operating results and increased aerospace sales, and, c.) the collection, last year, of receivables that had previously been reserved for as potentially uncollectible. The tax credits are included in the current year consolidated statements of income as a benefit within the provision for income taxes.

The above factors resulted in operating income of \$1,378,000 for the nine months ended February 28, 2010, up 243% from the \$402,000 in the same period of the prior year.

Summary comparison of the three months ended February 28, 2010 and February 28, 2009

	Increase / (Decrease)
Sales, net	\$ 1,065,000
Cost of goods sold	\$ 443,000
Selling, general and administrative expenses	\$ 135,000
Income before provision for income taxes	\$ 499,000
Provision for income taxes	\$ 206,000
Net income	\$ 293,000

For the three months ended February 28, 2010 (All figures discussed are for the three months ended February 28, 2010 as compared to the three months ended February 28, 2009.)

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

	Three months ended		Change	
	February 28, 2010	February 28, 2009	Increase / (Decrease)	Percent Change
Net Revenue	\$ 4,783,000	\$ 3,718,000	\$ 1,065,000	29%
Cost of sales	3,283,000	2,840,000	443,000	16%
Gross profit	\$ 1,500,000	\$ 878,000	\$ 622,000	71%

...as a percentage of net revenues 31% 24%

The Company's consolidated results of operations showed a 29% increase in net revenues and an increase in net income of 936%. Revenues recorded in the current period for long-term construction projects were 170% higher than the level recorded in the prior year. Revenues recorded in the current period for other-than long-term construction projects (non-projects) were down 16% from the level recorded in the prior year. The gross profit as a percentage of net revenues for the current and prior year periods was 31% and 24%. This fluctuation is attributable primarily to three large projects in the current year with aerospace / defense customers that have higher margins than average projects for construction customers.

9

A breakdown of sales to the three general groups of customers is as follows:

Third Quarter - Fiscal 2010

Industrial	11%
Construction	33%
Aerospace / Defense	56%

Third Quarter - Fiscal 2009

Industrial	15%
Construction	36%
Aerospace / Defense	49%

The Company's revenues and net income fluctuate from period to period. The fluctuations in comparing the current period to the prior period are not necessarily representative of future results.

Selling, General and Administrative Expenses

	Three months ended		Change	
	February 28, 2010	February 28, 2009	Increase / (Decrease)	Percent Change
Outside Commissions	\$ 141,000	\$ 163,000	\$ (22,000)	-13%
Other SG&A	815,000	658,000	157,000	24%
Total SG&A	\$ 956,000	\$ 821,000	\$ 135,000	16%

...as a percentage of net revenues 20% 22%

Selling, general and administrative expenses increased by 16% from the prior year. Outside commission expense decreased by 13% from last year's level. This fluctuation was primarily due to more Project sales in the current year that are to customers in aerospace / defense without the assistance of outside sales representatives and therefore incur no commission expense on these sales. Other selling, general and administrative expenses increased 24% from last year to this due to the collection, last year, of receivables that had previously been reserved for as potentially uncollectible.

The above factors resulted in operating income of \$544,000 for the three months ended February 28, 2010, up 867% from the \$56,000 in the same period of the prior year.

Stock Options

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

The Company has a stock option plan which provides for the granting of nonqualified or incentive stock options to officers, key employees and non-employee directors. Options granted under the plan are exercisable over a ten year term. Options not exercised at the end of the term expire.

10

The Company expenses stock options using the fair value recognition provisions of the ASC. The Company recognized \$20,000 and \$28,000 of compensation cost for the nine month periods ended February 28, 2010 and February 28, 2009.

The fair value of each stock option grant has been determined using the Black-Scholes model. The model considers assumptions related to exercise price, expected volatility, risk-free interest rate, and the weighted average expected term of the stock option grants. Expected volatility assumptions used in the model were based on volatility of the Company's stock price for the thirty month period ending on the date of grant. The risk-free interest rate is derived from the U.S. treasury yield. The Company used a weighted average expected term. The following assumptions were used in the Black-Scholes model in estimating the fair market value of the Company's stock option grants:

	<u>2010</u>	<u>2009</u>
Risk-free interest rate:	4.875%	5.000%
Expected life of the options:	2.5 years	2.5 years
Expected share price volatility:	57.57%	44.62%
Expected dividends:	zero	zero

These assumptions resulted in:

Estimated fair-market value per stock option:	\$1.37	\$1.94
---	--------	--------

The ultimate value of the options will depend on the future price of the Company's common stock, which cannot be forecast with reasonable accuracy.

A summary of changes in the stock options outstanding during the nine month period ended February 28, 2010 is presented below:

	<u>Number of Options</u>	<u>Weighted- Average Exercise Price</u>
Options outstanding and exercisable at May 31, 2009:	160,000	\$ 4.98
Options granted:	14,500	\$ 3.51
Options outstanding and exercisable at February 28, 2010:	174,500	\$ 4.86
 Closing value per share on NASDAQ at February 28, 2010:		 \$ 5.43

Capital Resources, Line of Credit and Long-Term Debt

The Company's primary liquidity is dependent upon the working capital needs. These are mainly inventory, accounts receivable, costs and estimated earnings in excess of billings, accounts payable, accrued commissions, billings in excess of costs and estimated earnings, and debt service. The Company's primary sources of liquidity have been operations and bank financing.

Capital expenditures for the nine months ended February 28, 2010 were \$181,000 compared to \$589,000 in the same period of the prior year. As of February 28, 2010, the Company has no commitments for capital expenditures during the next twelve months.

Effective August 7, 2009, the Company replaced its bank credit facility with a \$6,000,000 bank demand line of credit, with interest payable at the Company's option of 30, 60, 90 or 180 day LIBOR rate plus 2.5%, or the bank's prime rate less .25%. There is an interest rate floor of 3.5%. The line is secured by accounts receivable, equipment, inventory, and general intangibles, and a negative pledge of the Company's real property. This line of credit is subject to the usual terms and conditions applied by the bank, is subject to renewal annually, and is not subject to an express requirement on the bank's part to lend. There is a \$288,000 principal balance outstanding as of February 28, 2010, compared to the \$1,017,000 balance outstanding on the line of credit in place as of May 31, 2009. The outstanding balance on the line of credit fluctuates as the Company's various long-term projects progress. The Company is in compliance with restrictive covenants under the line of credit. In these covenants, the Company agrees to maintain the following minimum levels of the stated item:

<u>Covenant</u>	<u>Minimum per Covenant</u>	<u>Current Actual</u>	<u>When Measured</u>
Minimum level working capital	\$3,000,000	\$10,299,000	Quarterly
Minimum debt service coverage ratio	1.5:1	n/a	Fiscal Year-end

All of the \$5,712,000 unused portion of our line of credit is available without violating any of our debt covenants.

Principal maturities of long-term debt for the remainder of the current fiscal year and the subsequent five years are as follows: 2010 - \$1,000; 2011 - \$6,000; 2012 - \$5,000; and 2013 - \$4,000.

Inventory and Maintenance Inventory

			February 28, 2010	May 31, 2009	Increase / (Decrease)
Raw Materials	\$ 504,000		\$ 524,000	\$ (20,000)	-4%
Work in process	5,976,000		5,688,000	288,000	5%
Finished goods	343,000		510,000	(167,000)	-33%
Inventory	6,823,000	91%	6,722,000	101,000	2%
Maintenance and other inventory	712,000	9%	809,000	(97,000)	-12%
Total	\$7,535,000	100%	\$7,531,000	\$ 4,000	0%
Inventory turnover	1.5		1.6		

NOTE: Inventory turnover is annualized for the nine month period ended February 28, 2010.

Inventory, at \$6,823,000 as of February 28, 2010, is \$101,000 or two percent higher than the prior year-end level of \$6,722,000. Of this, approximately 88% is work in process, 5% is finished goods, and 7% is raw materials.

Maintenance and other inventory represent stock that is estimated to have a product life cycle in excess of twelve months. This stock represents certain items the Company is required to maintain for service of products sold and items that are generally subject to spontaneous ordering. This inventory is particularly sensitive to technological obsolescence in the near term due to its use in industries characterized by the continuous introduction of new product lines, rapid technological advances and product obsolescence. The maintenance inventory decreased slightly since May 31, 2009. Management of the Company has recorded an allowance for potential inventory obsolescence. The provision for potential inventory obsolescence was \$135,000 for each of the nine month periods ended February 28, 2010 and February 28, 2009. The Company continues to rework slow-moving inventory, where applicable, to convert it to product to be used on customer orders.

Accounts Receivable, Costs and Estimated Earnings in Excess of Billings ("CIEB"), and Billings in Excess of Costs and Estimated Earnings ("BIEC")

	February 28, 2010	May 31, 2009	Increase /(Decrease)	
Accounts receivable	\$ 2,935,000	\$ 2,691,000	\$ 244,000	9%
CIEB	2,454,000	1,957,000	497,000	25%
Less: BIEC	99,000	126,000	(27,000)	-21%
Net	\$ 5,290,000	\$ 4,522,000	\$ 768,000	17%

Number of an average day's sales outstanding in accounts receivable	55	54
---	----	----

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

The Company combines the totals of accounts receivable, the current asset CIEB, and the current liability, BIEC, to determine how much cash the Company will eventually realize from revenue recorded to date. As the accounts receivable figure rises in relation to the other two figures, the Company can anticipate increased cash receipts within the ensuing 30-60 days.

Accounts receivable of \$2,935,000 as of February 28, 2010 includes approximately \$418,000 of amounts retained by customers on long-term construction projects ("Project(s)"). It also includes \$42,000 of an allowance for doubtful accounts ("Allowance"). The accounts receivable balance as of May 31, 2009 of \$2,691,000 included an Allowance of \$42,000. The Company expects to collect the net accounts receivable balance, including the retainage, during the next twelve months.

12

As noted above, CIEB represents revenues recognized in excess of amounts billed. Whenever possible, the Company negotiates a provision in sales contracts to allow the Company to bill, and collect from the customer, payments in advance of shipments. Unfortunately, provisions such as this are often not possible. The \$2,454,000 balance in this account at February 28, 2010 is 25% more than the prior year-end. This increase is primarily due to two projects in progress that have an aggregate sales value of \$2.3 million and, in accordance with the terms of each of the contracts, have billings to the customers of only 22% of the contracts' aggregate sales value as of February 28, 2010. In the aggregate, these two projects are slightly more than 85% completed. Generally, if progress billings are permitted under the terms of a Project sales agreement, the more complete the Project is, the more progress billings will be permitted. The Company expects to bill the entire amount during the next twelve months. 65% of the CIEB balance as of the end of the last fiscal quarter, November 30, 2009, was billed to those customers in the current fiscal quarter ended February 28, 2010. The remainder will be billed as the projects progress, in accordance with the terms specified in the various contracts.

The balances in this account are comprised of the following components:

	<u>February 28, 2010</u>	<u>May 31, 2009</u>
Costs	\$ 5,128,000	\$ 3,303,000
Estimated earnings	1,716,000	1,048,000
Less: Billings to customers	4,390,000	2,394,000
CIEB	\$ 2,454,000	\$ 1,957,000
Number of Projects in progress	17	10

As noted above, BIEC represents billings to customers in excess of revenues recognized. The \$99,000 balance in this account at February 28, 2010 is down slightly from the \$126,000 balance at the end of the prior year. The balance in this account fluctuates in the same manner and for the same reasons as the account "costs and estimated earnings in excess of billings", discussed above. Final delivery of product under these contracts is expected to occur during the next twelve months.

The year-end balances in this account are comprised of the following components:

	<u>February 28, 2010</u>	<u>May 31, 2009</u>
Billings to customers	\$ 146,000	\$ 956,000
Less: Costs	45,000	548,000
Less: Estimated earnings	2,000	282,000
BIEC	\$ 99,000	\$ 126,000
Number of projects in progress	1	4

Summary of factors affecting the balances in CIEB and BIEC:

	<u>February 28, 2010</u>	<u>May 31, 2009</u>
Number of Projects in progress	18	14
Aggregate percent complete	66%	58%
Average total sales value of Projects in progress	\$546,000	\$661,000
Percentage of total value invoiced to customer	44%	36%

The Company's backlog of sales orders at February 28, 2010 is \$13.0 million, down slightly from the \$13.1 million backlog value at the end of the prior year. \$4.1 million of the current backlog is on long-term construction projects already in progress.

Other Balance Sheet Items

Accounts payable, at \$1,179,000 as of February 28, 2010, is approximately \$292,000 more than the prior year-end. There is no specific reason for this fluctuation other than the normal payment cycle of vendor invoices.

Commission expense on applicable sales orders is recognized at the time revenue is recognized. The commission is paid following receipt of payment from the customers. Accrued commissions as of February 28, 2010 are \$461,000, down 23% from the \$598,000 accrued at the prior year-end. This decrease is primarily due to more Projects in process at February 28, 2010 are to customers in aerospace / defense without the assistance of outside sales representatives and therefore incur no commission expense on these sales. The Company expects the current accrued amount to be paid during the next twelve months. Other current liabilities increased 20% from the prior year-end, to \$1,371,000 primarily due to customer advance deposits. Payments on these liabilities will take place as scheduled within the next twelve months.

Management believes the Company's cash flows from operations and borrowing capacity under the bank line of credit is sufficient to fund ongoing operations, capital improvements and share repurchases for the next twelve months.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Smaller reporting companies are not required to provide the information called for by this item.

Item 4T. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.*

The Company's principal executive officer and principal financial officer have evaluated the Company's disclosure controls and procedures as of February 28, 2010 and have concluded that as of the evaluation date, the disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer to allow timely decisions regarding required disclosure.

(b) *Changes in internal controls.*

There have been no changes in the Company's internal controls over financial reporting that occurred during the fiscal quarter ended February 28, 2010 that have materially affected, or are reasonably likely to materially affect, the Company's control over financial reporting.

Part II - Other Information

ITEM 1 Legal Proceedings

The State of New York Workers' Compensation Board ("Board") commenced a lawsuit against the Company and 264 other entities in May 2008, seeking to recover funds allegedly owed in connection with the Company's participation in the Manufacturing Self-Insurance Trust ("Trust"). Among the Board's claims are that (i) the Trust provided workers' compensation self-insurance to its participating members, including the Company, from April 22, 1997 to August 31, 2006; (ii) the Board has assumed control of the Trust; (iii) the Trust's liabilities exceed its assets by approximately \$29,000,000; and (iv) the Company and the other participating members are jointly and severally liable for the alleged deficit. The lawsuit proceeds slowly.

The Board has performed forensic audits of the Trust to determine the amounts allegedly owed by the participating members, and has calculated an estimate of each participating member's share of the deficit, which, for the Company, is alleged to be in excess of \$118,626. The Board also claims that the Company and the other 264 participating members could be jointly and severally responsible for sums substantially in excess of the Board's estimates. The Company denies the Board's claims that the Company owes the amounts sought, and continues its investigation into the factual allegations of the lawsuit.

Management is vigorously defending the claim and has joined with other participating members in a joint defense against the lawsuit. The Board has initiated settlement discussions, dependent upon participation of defendants holding a minimum aggregate amount of claims against them. Settlement of the Board's claim is possible, although cross-claims may be asserted by non-settling defendants.

There are no other legal proceedings except for routine litigation incidental to the business.

ITEM 1A Risk Factors

Smaller reporting companies are not required to provide the information called for by this item.

ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds

- (a) The Company sold no equity securities during the fiscal quarter ended February 28, 2010 that were not registered under the Securities Act.
- (b) Use of proceeds following effectiveness of initial registration statement:

Not Applicable
- (c) Repurchases of Equity Securities

None
- (d) Under the terms of the Company's credit arrangements with its primary lender, the Company is required to maintain net working capital of at least \$3,000,000, as such term is defined in the credit documents. On February 28, 2010, under such definition the Company's net working capital was significantly in excess of such limit. Additional information regarding the Company's line of credit and restrictive covenants appears under the caption "Capital Resources, Lines of Credit and Long-Term Debt" in the Management's Discussion and Analysis of Financial Condition and Results of Operations.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Taylor Devices, Inc.

We have reviewed the accompanying condensed consolidated balance sheet of Taylor Devices, Inc. and Subsidiary as of February 28, 2010, the related condensed consolidated statements of income for the three and nine months ended February 28, 2010 and February 28, 2009 and cash flows for the nine months ended February 28, 2010 and February 28, 2009. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of May 31, 2009, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated August 7, 2009, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of May 31, 2009 is fairly stated, in all material respects, in relation to the balance sheet from which it has been derived.
