(Zip Code)

(276) 873-7000

(Registrant's telephone number including area code)

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

n/a

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes X No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐

Smaller reporting company ☐

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No X

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

9,963,982 shares of common stock, par value \$2.00 per share, outstanding as of May 6, 2008

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**NOTE 1 NATURE OF OPERATIONS:**

New Peoples Bankshares, Inc. (the Company) is a financial holding company whose principal activity is the ownership and management of a community bank. New Peoples Bank, Inc. (the Bank) was organized and incorporated under the laws of the Commonwealth of Virginia on December 9, 1997. The Bank commenced operations on October 28, 1998, after receiving regulatory approval. As a state chartered bank, the Bank is subject to regulation by the Virginia Bureau of Financial Institutions, the Federal Deposit Insurance Corporation and the Federal Reserve Bank. In addition, as a member of the Federal Reserve System, the Bank is also subject to regulation by the Board of Governors of the Federal Reserve System. The Bank provides general banking services to individuals, small and medium size businesses and the professional community of southwestern Virginia, southern West Virginia, and eastern Tennessee. On June 9, 2003, the Company formed two wholly owned subsidiaries, NPB Financial Services, Inc. and NPB Web Services, Inc. In 2004 and 2006, the Company established NPB Capital Trust I and 2, respectively, for the purpose of issuing trust preferred securities.

NOTE 2 ACCOUNTING PRINCIPLES:

The financial statements conform to U. S. generally accepted accounting principles and to general industry practices. In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position at March 31, 2008, and the results of operations for the three month periods ended March 31, 2008 and 2007. The notes included herein should be read in conjunction with the notes to financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. The results of operations for the three month periods ended March 31, 2008 are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 INVESTMENT SECURITIES:

The amortized cost and estimated fair value of securities at the dates indicated are as follows:

(Dollars are in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
March 31, 2008				
<u>Available for Sale</u>				
U.S. Government Agencies	\$ 4,000	\$ 25	\$ -	\$ 4,025
Mortgage backed Securities	444	11	-	455
Total Securities AFS	\$ 4,444	\$ 36	\$ -	\$ 4,480
December 31, 2007				
<u>Available for Sale</u>				
U.S. Government Agencies	\$ 4,494	\$ 8	\$ -	\$ 4,502
Mortgage backed Securities	468	4	-	472
Total Securities AFS	\$ 4,962	\$ 12	\$ -	\$ 4,974

The Bank, as a member of the Federal Reserve Bank and the Federal Home Loan Bank, is required to hold stock in each. These equity securities are restricted from trading and are recorded at a cost of \$3.5 million and \$4.3 million at March 31, 2008 and December 31, 2007, respectively.

The amortized cost and fair value of investment securities at March 31, 2008, by contractual maturity, are shown in the following schedule. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE 3 INVESTMENT SECURITIES: (continued)

(Dollars are in thousands)	Amortized	Fair	Weighted
<u>Securities Available for Sale</u>	Cost	Value	Average
			Yield
Due in one year or less	\$ 500	\$ 504	4.99%
Due after one year through five years	3,944	3,976	3.77%
Total	\$ 4,444	\$ 4,480	3.91%

Investment securities with a carrying value of \$3.9 million and \$3.5 million at March 31, 2008 and December 31, 2007, respectively, were pledged to secure public deposits and for other purposes required by law.

NOTE 4 LOANS:

Loans receivable outstanding are summarized as follows:

(Dollars are in thousands)	March 31, 2008	December 31, 2007
Commercial, financial and agricultural	\$ 120,045	\$ 121,198
Real estate - construction	38,363	38,420
Real estate - mortgages	463,086	463,079
Installment loans to individuals	58,856	59,563
Total Loans	\$ 680,350	\$ 682,260

The following is a summary of information at March 31, 2008 and December 31, 2007 pertaining to nonperforming assets:

(Dollars are in thousands)	March 31, 2008	December 31, 2007
Principal:		
Nonaccrual loans	\$ 2,875	\$ 2,946
Other real estate owned	1,499	2,051
Loans past due 90 days or more still accruing interest	527	267
Total nonperforming assets	\$ 4,901	\$ 5,264

NOTE 5 ALLOWANCE FOR LOAN LOSSES:

A summary of transactions in the allowance for loan losses are as follows:

(Dollars are in thousands)	For the Three Months Ended March 31, 2008	March 31, 2007
Balance, Beginning of Period	\$ 6,620	\$ 4,870
Provision for loan losses	250	300
Recoveries of loans charged off	20	32
Loans charged off	(320)	(78)
Balance, End of Period	\$ 6,570	\$ 5,124
Percentage of Loans	0.97%	0.87%

NOTE 6 EARNINGS PER SHARE:

Basic earnings per share computations are based on the weighted average number of shares outstanding during each year. Dilutive earnings per share reflect the additional common shares that would have been outstanding if dilutive potential common shares had been issued. Potential common shares that may be issued relate to outstanding options and are determined by the Treasury Method.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE 7 FAIR VALUE:

Effective January 1, 2008, the Company adopted SFAS No. 157, Fair Value Measurements (SFAS 157) which provides a framework for measuring and disclosing the fair value under generally accepted accounting principles. SFAS 157 requires disclosures about the fair value of assets and liabilities recognized in the balance sheet in periods subsequent to initial recognition, whether the measurements are made on a recurring basis (for example, available for sale investment securities) or on a nonrecurring basis (for example, impaired loans).

SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 also establishes fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an exchange market, as well as U. S. Treasury, other U. S. Government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally included certain derivative contracts and impaired loans.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. For example, this category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly structured or long-term derivative contracts.

Investment Securities Available for Sale Investment securities available for sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices. The Company's available for sale securities, totaling \$4.5 million at March 31, 2008, are the only assets whose fair values are measured on a recurring basis using Level 1 inputs from active market quotes.

Loans - The Company does not record loans at fair value on a recurring basis. The Company is predominantly an asset based lender with real estate serving as collateral on a substantial majority of loans. From time to time a loan is considered impaired and an allowance for loan losses is established. Loans which are deemed to be impaired are primarily valued on a nonrecurring basis at the fair values of the underlying real estate collateral. Such fair values are obtained using independent appraisals, which the Company considers to be Level 2 inputs. The aggregate carrying amount of impaired loans at March 31, 2008 was \$8.5 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Caution About Forward Looking Statements

We make forward looking statements in this quarterly report that are subject to risks and uncertainties. These forward looking statements include statements regarding our profitability, liquidity, allowance for loan losses, interest rate sensitivity, market risk, growth strategy, and financial and other goals. The words believes, expects, may, will, should, projects, contemplates, anticipates, forecasts, intends, or other similar words or terms are intended to identify statements.

These forward looking statements are subject to significant uncertainties because they are based upon or are affected by factors including the following: the ability to successfully manage our growth or implement our growth strategies if we are unable to identify attractive markets, locations or opportunities to expand in the future; maintaining capital and liquidity levels adequate to support our growth; maintaining cost controls and asset quality as we open or acquire new branches; reliance on our management team, including our ability to attract and retain key personnel; the successful management of interest rate risk; changes in general economic and business conditions in our market area; changes in interest rates and interest rate policies; risks inherent in making loans such as repayment risks and fluctuating collateral values; competition with other banks and financial institutions, and companies outside of the banking industry, including those companies that have substantially greater access to capital and other resources; demand, development and acceptance of new products and services; problems with technology utilized by us; changing trends in customer profiles and behavior; and changes in banking and other laws and regulations applicable to us.

Because of these uncertainties, our actual future results may be materially different from the results indicated by these forward looking statements. In addition, our past results of operations do not necessarily indicate our future results.

Overview

For the first quarter of 2008, the Company's total assets were \$766.6 million as compared to \$766.0 million at December 31, 2007. Total deposits grew \$20.4 million, or 3.10%, to \$677.4 million at March 31, 2008 from \$657.0 million at December 31, 2007. Total loans decreased slightly to \$680.4 million at March 31, 2008 from \$682.3 million at year end 2007.

Net income for the quarter ended March 31, 2008 was \$766 thousand, as compared to \$802 thousand for the same period ended March 31, 2007. Basic net income per share was \$0.08 for the quarters ended March 31, 2008 and 2007. Interest rate cuts by the Federal Reserve Board of Governors during the first quarter negatively impacted our net interest margin as loans repriced more quickly than interest bearing deposits. We anticipate this to improve throughout 2008, as higher cost deposits reprice at lower interest rates; consequently, improving the net interest margin. In addition, noninterest expenses are higher in the first quarter of 2008 as compared to 2007 as a result of the five new branches added during 2007.

Critical Accounting Policies

Certain critical accounting policies affect the more significant judgments and estimates used in the preparation of our financial statements. The most critical accounting policy relates to our provision for loan losses, which reflects the estimated losses resulting from the inability of our customers to make required payments. If the financial condition of our borrowers were to deteriorate, resulting in an impairment of their ability to make payments, our estimates would be updated, and additional provisions could be required. For further discussion of the estimates used in determining the allowance for loan losses, we refer you to the section on Provision for Loan Losses below.

Balance Sheet Changes

At March 31, 2008, total assets were \$766.6 million, an increase of \$638 thousand, or 0.08%, over December 31, 2007.

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

Deposits continued growing and totaled \$677.4 million at March 31, 2008, an increase of \$20.4 million, or 3.10%, from \$657.0 million at December 31, 2007. Nearly half of the deposit growth was in non-interest bearing demand deposits. This category of deposits grew \$10.1 million, or 12.11%, to \$93.8 million at March 31, 2008 from \$83.7 million at year-end 2007. This is the result of a continued growth of core deposits in the branches we have established both with consumer and commercial customers at the new branches and some of the existing branches. Another indicator of increased core deposit growth occurred in total savings deposits increasing from \$44.7 million at December 31, 2007 to \$50.8 million, an increase of \$6.1 million or 13.65%. Time deposits slightly grew to \$504.0 million from \$501.8 million, an increase of \$2.2 million, or 0.44%.

The increase of funds from deposits was used to decrease borrowings from the Federal Home Loan Bank from \$42.4 million at December 31, 2007 to \$21.2 million at March 31, 2008. This is a decrease of \$21.2 million or 50.08%.

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

Total loans decreased \$1.9 million, or 0.28%, to \$680.4 million at March 31, 2008 from \$682.3 million at December 31, 2007. We have purposely kept loan levels relatively the same as we work to minimize credit risks in the loan portfolio in the economic downturn.

Net Interest Income, Net Interest Margin, and Interest Sensitivity

Net interest income increased to \$6.7 million as of March 31, 2008 from \$5.8 million for the same period in 2007. This is an increase of \$939 thousand, or 16.25% as a result of increased loan and deposit volume from new and existing branches. Total interest income increased \$1.6 million, or 13.89%, to \$13.3 million for first quarter 2008 from \$11.7 million in 2007. Interest expense grew at a slower pace as interest rates decreased during the first quarter of 2008. Total interest expense increased by \$687 thousand, or 11.59%, to \$6.6 million as of March 31, 2008 from \$5.9 million in 2007. The net interest margin for the first quarter of 2008 was 3.88% and was slightly lower than 3.93% for the same period in 2007. With the Federal Reserve interest rate cuts to help stimulate the economy during the first quarter of 2008, the immediate impact of these changes resulted in a lower rate for earning assets as they reprice more quickly than our deposits. We anticipate the net interest margin to improve throughout 2008 as short term certificates of deposits reprice at lower interest rates.

At March 31, 2008, we had a negative cumulative gap rate sensitivity ratio of 30.50% for the one year re-pricing period, compared to a negative cumulative gap of 32.86% at December 31, 2007. This generally indicates that earnings would improve in a declining interest rate environment as liabilities re-price more quickly than assets. Conversely, earnings would probably decrease in periods during which interest rates are increasing. We believe as our liabilities reprice more quickly than our assets in the near future, our cost of funds will decrease more quickly than our yield on earning assets. We are strategically positioned to improve earnings in this low interest rate environment.

Provision for Loan Losses

The provision for loan losses was \$250 thousand for the first quarter of 2008 compared with \$300 thousand for the same period in 2007. The allowance for loan losses was \$6.6 million at March 31, 2008 and December 31, 2007. The ratio of the allowance for loan losses to total loans was 0.97% at March 31, 2008 and at the end of 2007. Net loans charged off for the first quarter of 2008 were \$300 thousand as compared to \$46 thousand for the first quarter of 2007. Of the \$300 thousand net charge offs in 2008, \$223 thousand, or 74.33%, were related to three credits that were charged off as the result of a similar related suspected fraud incident. Recovery efforts on these credits are being aggressively pursued by legal counsel.

The calculation of the allowance for loan losses is considered a critical accounting policy. The adequacy of the allowance for loan losses is based upon management's judgment and analysis. The following factors are evaluated in determining the adequacy of the allowance: risk characteristics of the loan portfolio, current and historical loss experience, concentrations and internal and external factors such as general economic conditions.

Certain risks exist in the Bank's loan portfolio. Since the Bank began in 1998, we have experienced significant loan growth each year. Although we have experienced lenders who are familiar with their customer base, some of the loans are too new to have exhibited signs of weakness. Recent expansions into new markets increase potential credit risk. In addition, a majority of the loans are collateralized by real estate located in our market area. It is our policy to sufficiently collateralize loans to minimize loss exposures in case of default. The recent negative trends in the national real estate market and economy pose potential threats. Local real estate market values have been and remain stable, while national real estate markets have experienced a downturn. It is uncertain as to when or if local real estate values will be impacted. We do not believe that there will be a severely negative effect in our market area, but we deem it prudent to assign more of the allowance to these types of loans. The market area is somewhat diverse, but certain areas are more reliant upon agriculture and coal mining. As a result, increased risk of loan impairments is possible if these industries experience a significant downturn. However, we do not foresee this happening in the near future. We consider these factors to be the primary higher risk characteristics of the loan portfolio.

Given the current market environment and the risks in the Bank's loan portfolio, we are addressing them by making the following improvements to the credit administration process. In January 2008, we hired a Chief Credit Officer to oversee the credit administration function of the Bank. We also have further evaluated our loan portfolio by engaging a third party loan review company who conducted a loan review in January 2008. We are currently reorganizing the credit administration area to create greater efficiency and to enhance the credit underwriting process. In addition, a new loan policy is being developed better addressing the risk factors.

Due to the risk factors previously mentioned, all loans classified as other assets especially mentioned, substandard, doubtful and loss are individually reviewed for impairment. An evaluation is made to determine if the collateral is sufficient for each of these credits. If an exposure exists, a specific allowance is directly made for the amount of the potential loss and these credits are considered impaired. The evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available. Impaired loans decreased to \$8.5 million with a valuation allowance of \$933 thousand at March 31,

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

2008 as compared to \$9.6 million in impaired loans with a \$1.2 million valuation allowance at December 31, 2007. Great efforts are being made to minimize future losses on these credits.

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

As economic conditions and performance of our loans change, it is possible that future increases may be needed to the allowance for loan losses.

As of March 31, 2008, there were 44 loans in non-accrual status totaling \$2.9 million, or 0.42% of total loans. At December 31, 2007, there were 57 non-accrual loans totaling \$2.9 million, or 0.43% of total loans. Loans past due greater than 90 days and still accruing interest totaled \$527 thousand, or 0.08% of total loans, at March 31, 2008 as compared to \$267 thousand, or 0.04% of total loans at December 31, 2007. It is our policy to stop accruing interest on a loan, and to classify that loan as non-accrual, under the following circumstances: (a) whenever we are advised by the borrower that scheduled principal or interest payments cannot be met, (b) when our best judgment indicates that payment in full of principal and interest can no longer be expected, or (c) when any such loan or obligation becomes delinquent for 90 days unless it is both well secured and in the process of collection. Non-accrual loans did not have a significant impact on interest income in any of the periods presented. No loans are classified as troubled debt restructurings as defined by Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards (SFAS) No. 15, Accounting by Debtors and Creditors for Troubled Debt Restructurings. There are also no loans identified as potential problem loans. We do not have any commitments to lend additional funds to non-performing debtors.

Noninterest Income

Noninterest income increased to \$1.4 million in the first quarter of 2008 from \$1.0 million in 2007. The \$383 thousand, or 38.26%, increase is primarily related to increased overdraft fee income on deposit accounts generated through operational growth and increased fee income earned by our subsidiary, NPB Financial Services. Noninterest income as a percentage of average assets (annualized) was 0.72% and 0.50% as of March 31, 2008 and 2007, respectively.

Noninterest Expense

Noninterest expense totaled \$6.8 million for the first quarter of 2008 as compared to \$5.4 million for the first quarter of 2007. The \$1.4 million increase was largely due to additional staffing and expenses associated with the 3 new branches opened, 2 branches purchased, the general growth in operations, and increased FDIC assessments. Salaries and benefits increased \$666 thousand, or 20.45%, from \$3.3 million for the first quarter of 2007 to \$3.9 million for the same period in 2008. We expect noninterest expense to increase for the remainder of 2008 but at a lesser pace than prior years as we implement cost reductions in operations. Noninterest expense as a percentage of average assets (annualized) increased to 3.55% for the first quarter of 2008 as compared to 3.31% for the first quarter of 2007.

Our efficiency ratio, which is defined as noninterest expense less intangible expenses divided by the sum of net interest income plus noninterest income, was 83.13% for the first quarter of 2008 as compared to 79.02% for the same period in 2007. This was higher as the result of additional staffing for new branches in 2007. The ratio of assets to full-time equivalent employees was \$2.1 million at March 31, 2008 and December 31, 2007, respectively.

Capital

Total capital at the end of the first quarter of 2008 was \$46.1 million as compared to \$45.2 million at the end of December 31, 2007. The increase is the result of retained earnings for the quarter. Regulatory capital ratios remain in excess of regulatory requirements.

No cash dividends have been paid historically and none are anticipated in the foreseeable future. The Company's strategic plan is to grow at a much slower pace than in the earlier years of operation. To accommodate this growth and have sufficient capital, earnings will need to be retained.

Liquidity

At March 31, 2008 and December 31, 2007, we had liquid assets in the form of cash, due from banks and federal funds sold of approximately \$25.3 and \$22.3 million, respectively. At March 31, 2008, all of our investments are classified as available-for-sale, providing an additional source of liquidity in the amount of \$560 thousand, which is net of those securities pledged as collateral for public funds.

Our loan to deposit ratio was 100.43% at March 31, 2008 and 103.84% at year end 2007. We anticipate this ratio to remain about the same in the near future. We can lower the ratio as management deems appropriate by managing the rate of growth in our loan portfolio and by offering special promotions to entice new deposits. This can be done by changing interest rates charged or limiting the amount of new loans approved.

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

At March 31, 2008, we had borrowings from the Federal Home Loan Bank totaling \$21.2 million as compared to \$42.4 million at December 31, 2007. Of these borrowings, \$6.0 million are overnight and subject to interest rate changes daily. The remaining \$15.2 million are term notes which mature in the year 2012. These borrowings are advanced from a \$103.6 million line of credit which is secured by a blanket lien on residential real estate loans.

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

In the event we need additional funds, we have the ability to purchase federal funds under established lines of credit totaling \$20.4 million.

Additional liquidity is expected to be provided by the future growth that management expects in deposit accounts and from loan repayments. We believe that this future growth will result from an increase in market share in our targeted trade area.

With the lines of credit available and the anticipated deposit growth, we believe we have adequate liquidity to meet our requirements and needs for the foreseeable future.

Off Balance Sheet Items

There have been no material changes to the off-balance sheet items disclosed in our annual report on Form 10-K for the fiscal year ended December 31, 2007.

Contractual Obligations

There have been no material changes during the quarter ended March 31, 2008 to the contractual obligations disclosed in our annual report on Form 10-K for the fiscal year ended December 31, 2007.

Recent Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS No. 159 provides all entities with an option to report selected financial assets and liabilities at fair value. The Statement is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007, with early adoption available in certain circumstances. The Company is evaluating the impact this statement will have on its consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised 2007) (SFAS 141R), Business Combinations and SFAS No. 160 (SFAS 160), Non-controlling Interests in Consolidated Financial Statements, an amendment of Accounting Research Bulletin No. 51. SFAS 141R will change how business acquisitions are accounted for and will impact financial statements both on the acquisition date and in subsequent periods. SFAS 160 will change the accounting and reporting for minority interests, which will be re-characterized as non-controlling interests and classified as a component of equity. SFAS 141R and SFAS 160 are effective for us beginning in the first quarter of fiscal 2009. Early adoption is not permitted.

In November 2007, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 109, Written Loan Commitments Recorded at Fair Value Through Earnings (SAB 109). SAB 109 expresses the current view of the SEC staff that the expected net future cash flows related to the associated servicing of the loan should be included in the measurement of all written loan commitments that are accounted for at fair value through earnings. SEC registrants are expected to apply the guidance on a prospective basis to derivative loan commitments issues or modified in the first quarter of 2008 and thereafter. As the Company does not retain servicing rights on secondary market loans application of this view did not impact our consolidated financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations and cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

There were no material changes in market risks faced by the Company since December 31, 2007. For information regarding the Company's market risk, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 4. Controls and Procedures

We have carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer (our CEO) and our Senior Vice President and Chief Financial Officer (our CFO), of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective in providing reasonable assurance that (a) the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (b) such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that our disclosure controls and procedures will detect or uncover every situation involving the failure of persons within the Company to disclose material information otherwise required to be set forth in our periodic reports.

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

Our management is also responsible for establishing and maintaining adequate internal controls over financial reporting and control of our assets to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. No changes in our internal control over financial reporting or control of assets occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting or control over our assets.

Part II Other Information

Item 1. Legal Proceedings

In the course of our operations, we may become a party to legal proceedings. We are not aware of any material pending or threatened legal proceedings.

Item 1A. Risk Factors

There have been no material changes in the risk factors faced by the Company from those disclosed in the Company's Form 10-K for the year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

The following exhibits are filed as part of this Form 10-Q, and this list includes the exhibit index:

<u>No.</u>	<u>Description</u>
31.1	Certification by Chief Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934.
31.2	Certification by Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934.
32	Certification by Chief Executive Officer and Chief Financial Officer, as required by Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
