NEW ENVIRONMENTAL TECHNOLOGIES CORPORATION  
(A Development Stage Company)  
Notes to the Financial Statements  
September 30, 2001 and December 31, 2000

### NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at September 30, 2001 and 2000 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2000 audited financial statements. The results of operations for periods ended September 30, 2001 and 2000 are not necessarily indicative of the operating results for the full years.

### NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, develop a reliable source of revenues, and achieve a profitable level of operations, the Company will need, among other things, additional capital resources. Management's plans to continue as a going concern include raising additional capital through sales of common stock and to seek a merger with an existing operating Company. However, management cannot

## Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10QSB

provide any assurances that the company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.
