PART III - NARRATIVE

On July 14, 2003, the Company and substantially all of its wholly-owned subsidiaries in the United States filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the U.S. Bankruptcy Court for the Northern District of Texas, Fort Worth Division. As a result of time and resources required to support bankruptcy-related activities, additional monthly financial reporting requirements under the Bankruptcy Code, timing of its year-end long-lived asset impairment testing, and high employee turnover in the organization, the Company has been unable to complete its annual financial reporting process by the required due date. However, the Company continues to diligently work toward completion of its annual financial reporting process and intends to file its annual report on Form 10-K for the year ended December 31, 2003 as soon as practicably possible after completion of that process for 2003.

1. Form 10-K for the year ended December 31, 2002 (the Form 10-K did not include the interim financial information required by Item 302 of Regulation S-K).

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? [X]Yes []No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

On July 14, 2003, the Company and substantially all of its wholly-owned subsidiaries in the United States filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the U.S. Bankruptcy Court for the Northern District of Texas, Fort Worth Division. As such, the Company anticipates that significant changes from the corresponding period for the prior fiscal year could be reflected in the form of lower profitability and decreased cash flow. As of the date of this Form 12b-25, the Company has not completed its financial reporting process for 2003. Therefore, the Company is not in a position to

quantify any potential differences between the comparable periods. The Company

does expect, however, to record a significant impairment of long-lived assets related to certain of its North America generation facilities. The amount of this impairment has not yet been finalized.
