EXPLANATORY NOTE

We are filing this Form 10-K/A (Amendment No. 1) to our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, originally filed with the U.S. Securities and Exchange Commission on March 16, 2015 (the "Original Filing"), solely for the purpose of including the financial statements of certain unconsolidated joint ventures in accordance with Rule 3-09 of Regulation S-X. Rule 3-09 requires that we file financial statements of unconsolidated joint ventures in which we hold equity interests of 50% or less and account for them under the equity method, to the extent that the unconsolidated joint ventures are individually significant. Under Rule 3-09 of Regulation S-X, we are permitted to file the financial statements for these unconsolidated joint ventures within 90 days of the end of our fiscal year.

We have determined that as of and for the year ended December 31, 2014, four of our unconsolidated joint venture interests, including Franklin Imaging Joint Venture, Carroll County Radiology, LLC, MRI at St. Joseph Medical Center, LLC, and Greater Baltimore Diagnostic Imaging Partnership (collectively, the "Group"), were significant unconsolidated joint ventures under Rule 3-09. We are permitted to file combined financial statements for individually significant joint ventures which are in the same line of business. Accordingly, we are filing this Amendment No. 1 to include the combined financial statements of the Group under Item 15 - Exhibits and Financial Statement Schedules, and are amending the list of the financial statements and exhibits being filed herewith. We are also filing an updated Exhibit Index and updated Certificates of our Chief Executive Officer and Chief Financial Officer under Sections 302 and 906 of the Sarbanes Oxley Act of 2002.

Except as described above, this Form 10-K/A does not amend or change any other items or disclosures in the Original Filing. The disclosure in this Form 10-K/A has not been updated to reflect events occurring after the Original Filing. Accordingly, this Amendment should be read in conjunction with the Original Filing and our other filings with the SEC subsequent to the Original Filing.

Report of Independent Registered Public Accounting Firm

To the partners of:

Franklin Imaging Joint Venture;

Carroll County Radiology, LLC;

MRI at St. Joseph Medical Center, LLC; and

Greater Baltimore Diagnostic Imaging Partnership

We have audited the accompanying combined balance sheets of certain RadNet, Inc. affiliates including Franklin Imaging Joint Venture, Carroll County Radiology, LLC, MRI at St. Joseph Medical Center, LLC, and Greater Baltimore Diagnostic Imaging Partnership (collectively, the “Group”), as of December 31, 2014 and 2013, and the related combined statements of income, partners’ capital, and cash flows for each of the three years in the period ended December 31, 2014. These financial statements are the responsibility of the Group’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Group’s internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the combined financial position of the Group at December 31, 2014 and 2013, and the combined results of their operations and their cash flows for each of the three years in the period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

CERTAIN RADNET, INC. AFFILIATES
 NOTES TO COMBINED FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF BUSINESS

Franklin Imaging Joint Venture, Carroll County Radiology, LLC, MRI at St. Joseph Medical Center, LLC, and Greater Baltimore Diagnostic Imaging Partnership (collectively, the “Group”), are joint ventures between RadNet, Inc. and, as applicable, hospitals, health systems or radiology practices operating within the state of Maryland and were formed for the purpose of owning and operating diagnostic imaging centers. Professional services at the joint venture diagnostic imaging centers are performed by contracted radiology practices or a radiology practice that participates in the joint venture. Each joint venture within the Group is an affiliate of RadNet, Inc. as follows:

	% owned by RadNet, Inc.
Franklin Imaging Joint Venture	49%
Carroll County Radiology, LLC	40%
MRI at St. Joseph Medical Center, LLC	49%
Greater Baltimore Diagnostic Imaging Partnership ("GBDIP")	50%

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF COMBINATION – Under Rule 3-09 of Regulation S-X, RadNet, Inc. is permitted to file combined financial statements for individually significant unconsolidated joint ventures. The combined financial statements include the assets, liabilities, and operations of each member of the Group. The operating activities of each of these joint ventures are completely separate from one another. Accordingly there are no intercompany transactions and balances to be eliminated when combining each together.

USE OF ESTIMATES - The preparation of these financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates and assumptions affect various matters including the Group’s reported amounts of assets and liabilities in the combined balance sheets at the dates of the financial statements; disclosure of contingent assets and liabilities at the dates of the financial statements; and reported amounts of revenues and expenses in the combined statements of income during the reporting periods. These estimates involve judgments with respect to numerous factors that are difficult to predict and are beyond management’s control. As a result, actual amounts could materially differ from these estimates.

REVENUES – Combined service fee revenue, net of contractual allowances and discounts, consists of net patient fees received from various payors and patients themselves based mainly upon established contractual billing rates, less allowances for contractual adjustments and discounts. This service fee revenue is earned through providing the use of diagnostic imaging equipment and the provision of technical services as well as providing administrative services such as clerical and administrative personnel, billing and collection, provision of medical and office supplies, secretarial, reception and transcription services, maintenance of medical records, and advertising, marketing and promotional activities.

The Group's combined service fee revenues are recorded during the period the services are provided based upon the estimated amounts due from the patients and third-party payors. Third-party payors include federal and state agencies (under the Medicare and Medicaid programs), managed care health plans, commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Contractual payment terms in managed care agreements are generally based upon predetermined rates per discounted fee-for-service rates. The Group also records a provision for doubtful accounts (based primarily on historical collection experience) related to patients and copayment and deductible amounts for patients who have health care coverage with third-party payors.

The Group's service fee revenue, net of contractual allowances and discounts less the provision for bad debts for the years ended December 31, are summarized in the following table (in thousands):

	Years Ended December 31,		
	2014	2013	2012
Commercial insurance	\$37,384	\$38,846	\$40,220
Medicare	12,003	12,472	12,089
Medicaid	1,872	1,945	1,976
Workers' compensation/personal injury	2,643	2,746	2,615
Other	1,156	1,201	1,222
Service fee revenue, net of contractual allowances and discounts	55,058	57,210	58,122
Provision for bad debts	(2,832)	(2,777)	(2,752)
Net service fee revenue	\$52,226	\$54,433	\$55,370

ACCOUNTS RECEIVABLE - Substantially all of the Group's accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. The Group continuously monitors collections from payors and maintains an allowance for bad debts based upon specific payor collection issues that have been identified as well as historical collection experience.

PROVISION FOR BAD DEBTS - Although outcomes vary, the Group's policy is to attempt to collect amounts due from patients, including co-payments and deductibles due from patients with insurance, at the time of service. The Group provides for an allowance against accounts receivable that could become uncollectible by establishing an allowance to reduce the carrying value of such receivables to their estimated net realizable value. The Group estimates this allowance based on the aging of accounts receivable by each type of payor over a minimum 18-month look-back period, and other relevant factors. A significant portion of the provision for bad debt relates to co-payments and deductibles owed to the Group by patients with insurance. There are various factors that can impact collection trends, such as changes in the economy, which in turn have an impact on the increased burden of co-payments and deductibles to be made by patients with insurance. These factors continuously change and can have an impact on collection trends and the Group's estimation process. The combined allowance for bad debts at December 31, 2014 and 2013 was \$351,000 and \$352,000, respectively.

CONCENTRATION OF CREDIT RISKS - Financial instruments that potentially subject the Group to credit risk are primarily cash equivalents and accounts receivable. Each joint venture places its cash and cash equivalents with a financial institution. At times, the cash in the financial institution is temporarily in excess of the amount insured by the Federal Deposit Insurance Corporation, or FDIC. Substantially all accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. The Group continuously monitors collections from its clients and maintains an allowance for bad debts based upon any specific payor collection issues that are identified and historical experience.

CASH AND CASH EQUIVALENTS – The Group considers all highly liquid investments that mature in three months or less when purchased to be cash equivalents. The carrying amount of cash and cash equivalents approximates their fair market value.

PROPERTY AND EQUIPMENT – Property, furniture and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization of property, furniture and equipment are provided using the straight-line method over the estimated useful lives, which range from 3 to 15 years. Leasehold improvements are amortized at the shorter of the related lease term or their estimated useful lives which range from 3 to 30 years.

GOODWILL – Combined goodwill of the Group at December 31, 2014 totaled \$9.9 million. Goodwill is recorded by each member of the Group as a result of business combinations. Management of each member of the Group evaluates goodwill, at a minimum, on an annual basis and whenever events and changes in circumstances suggest that the carrying amount may not be recoverable. On January 1, 2012, each member of the Group adopted ASU 2011-08, *“Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment”*, changing how a company may test goodwill for impairment. Companies now have the option to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the company determines that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. Each member of the Group adopted the provisions of ASU 2011-08 effective January 1, 2012. Each member of the Group evaluated its respective share of the combined goodwill at October 1, 2014 for signs of impairment under the provisions of ASU 2011-08. By utilizing certain qualitative measures outlined in the guidance, each member determined that its respective share of the combined goodwill was not impaired.

INCOME TAXES - Each member of the Group is treated as a partnership for federal and state income tax purposes where all taxable income is allocated to the partners in accordance with the respective partnership agreement and so accordingly federal and state taxes on income are the responsibility of the joint venture partners individually. Accordingly, no income tax provision is recorded by any joint ventures in the Group.

Open tax years are those that are open for examination by taxing authorities, and include all returns for tax years ending on or after December 31, 2011, for federal returns and December 31, 2011, for Maryland returns. The Group has no examinations in process and has not been notified of any future examinations at this time. Management of the Group has reviewed all open tax years and major jurisdictions, and has not recorded an unrecognized tax benefit relating to uncertain income tax positions taken or expected to be taken in future tax returns. The Group has recognized no interest or penalties related to uncertain tax positions taken or expected to be taken.

FAIR VALUE MEASUREMENTS –The combined balance sheets include the following financial instruments: cash and cash equivalents, receivables, trade accounts payable, capital leases, equipment notes payable and other liabilities. The Group considers the carrying amounts of cash and cash equivalents, receivables, other current assets and current liabilities to approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization or payment. Additionally, the Group considers the carrying amount of its equipment notes payable and capital lease obligations to approximate their fair value because the weighted average interest rate used to formulate the carrying amounts approximates current market rates.

NOTE 3 – FACILITY ACQUISITIONS

On February 22, 2012, Carroll County Radiology, LLC completed its acquisition of a multi-modality imaging center from RadNet, Inc. located in Westminster, Maryland for \$2.3 million. The members made a fair value determination of the assets acquired and the liabilities assumed and approximately \$200,000 of fixed assets and \$2.1 million of goodwill was recorded with respect to this transaction.

On November 1, 2012, Franklin Imaging Joint Venture completed its acquisition of a multi-modality imaging center located in Baltimore, Maryland for \$635,000. The partners made a fair value determination of the assets acquired and the liabilities assumed and \$635,000 of fixed assets was recorded with respect to this transaction.

NOTE 4 – GOODWILL AND OTHER INTANGIBLE ASSETS

Combined goodwill of the Group totaled \$9.9 million at December 31, 2014 and 2013. Goodwill is recorded as a result of business combinations.

Other intangible assets are primarily related to the value of management service contracts on the books of MRI at St. Joseph Medical Center, LLC and covenant not to compete contracts acquired through GBDIP's acquisition of a controlling interest of a previously held non-consolidated joint venture investment and totaled \$896,000 on the date of acquisition. Accumulated amortization of the management service contract and covenant not to compete contract intangible assets through December 31, 2014 was \$114,000 and \$313,000, respectively. Amortization expense for the year ended December 31, 2014 was \$120,000. The value of these covenant not to compete contracts is amortized using the straight-line method over five years. Management service contracts are amortized over 25 years.

The following table shows annual amortization expense, by asset classes that will be recorded over the next five years (in thousands):

	2015	2016	2017	2018	2019	Thereafter	Total	Weighted average amortization period remaining in years

NOTE 7 – EQUIPMENT NOTES PAYABLE

One member of the Group, GBDIP holds four promissory notes issued by two financing companies for the purpose of acquiring imaging equipment. These notes have interest rates between 3.5% and 4.5%, mature on or before October 2018 and are collateralized by the acquired equipment.

The following is a listing of annual principal maturities of the equipment notes discussed above for years ending December 31 (in thousands):

2015	\$692
2016	208
2017	201
2018	156
	\$1,257

NOTE 8 – COMMITMENTS AND CONTINGENCIES

Leases – The Group leases various operating facilities and certain medical equipment under operating leases with renewal options expiring through 2018. Certain leases contain renewal options from two to ten years and escalation clauses based either on the consumer price index or fixed rent escalators. Leases with fixed rent escalators are recorded on a straight-line basis. The Group records deferred rent for tenant leasehold improvement allowances received from a lessor and amortizes the deferred rent expense over the term of the lease agreement. Minimum annual payments under operating leases for future years ending December 31 follow (in thousands):

	Facilities	Equipment	Total
2015	\$ 2,043	\$ 675	\$2,718
2016	1,868	278	2,146
