Board of Directors Meetings and Attendance

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the Company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

We have no formal policy regarding director attendance at the annual meeting of stockholders. The Board of Directors held twenty-one meetings in 2014, one in person and twenty via telephone. Each director attended at least 75% of the aggregate of the meetings of the Board and meetings of the committees of which he or she was a member in our last fiscal year. The Board also acted by unanimous written consent three times.

Board Committees

Our Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The members of each committee are appointed by our Board of Directors, upon recommendation of the Nominating and Corporate Governance Committee, and serve one-year terms. Each of these committees operates under a charter that has been approved by the Board of Directors. The charter for each committee is available on our website.

Audit Committee

Mr. Perry, Dr. Shapiro, and Mr. Loshitzer serve on our Audit Committee. The Board of Directors has determined that Mr. Perry qualifies as an “audit committee financial expert” as defined in Item 407(d)(5) of Regulation S-K and is independent according to the requirements of Rule 5605(a)(2) of the Nasdaq Marketplace Rules and Rule 10A-3 under the Securities Exchange Act of 1934, as amended. The Audit Committee met ten times during 2014 and acted by unanimous written consent twice. The Audit Committee’s responsibilities include:

- appointing, approving the compensation of, and assessing the independence of our independent registered public accounting firm;
- approving audit and permissible non-audit services, and the terms of such services, to be provided by our independent registered public accounting firm;
- reviewing the audit plan with the independent registered public accounting firm and members of management responsible for preparing our financial statements;
- reviewing and discussing with management and the independent registered public accounting firm our annual and quarterly financial statements and related disclosures as well as critical accounting policies and practices used by us;
- reviewing the adequacy of our internal control over financial reporting;

- establishing policies and procedures for the receipt and retention of accounting-related complaints and concerns;

- recommending, based upon the audit committee's review and discussions with management and the independent
- registered public accounting firm, whether our audited financial statements shall be included in our Annual Report on Form 10-K;

- monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to our financial statements and accounting matters;

- preparing the audit committee report required by the rules of the Securities and Exchange Commission, or SEC, to be included in our annual proxy statement;

- reviewing all related party transactions for potential conflict of interest situations and approving all such transactions; and

- reviewing quarterly earnings releases and scripts.

Compensation Committee

The members of the Compensation Committee are Dr. Shapiro, Mr. Perry, Mr. Loshitzer, and Mr. Heffernan. Dr. Shapiro serves as chair of the Compensation Committee. The Compensation Committee met five times during 2014 and acted by unanimous written consent twice. The Compensation Committee's responsibilities include:

- annually reviewing and approving corporate goals and objectives relevant to the compensation of our chief executive officer;
- evaluating the performance of our chief executive officer in light of such corporate goals and objectives and determining the compensation of our chief executive officer;
- reviewing and approving the compensation of our other executive officers;
- appointing, compensating and overseeing the work of any compensation consultant, legal counsel or other advisor retained by the Compensation Committee;
- conducting the independence assessment outlined in Nasdaq rules with respect to any compensation consultant, legal counsel or other advisor retained by the compensation committee;
- annually reviewing and reassessing the adequacy of the committee charter in its compliance with the listing requirements of Nasdaq;
- reviewing and establishing our overall management compensation, philosophy and policy;
- overseeing and administering our compensation and similar plans;
- reviewing and approving our policies and procedures for the grant of equity-based awards;
- reviewing and making recommendations to the Board of Directors with respect to director compensation;
- reviewing and discussing with management the compensation discussion and analysis to be included in our annual proxy statement or Annual Report on Form 10-K; and

- reviewing and discussing with the Board of Directors corporate succession plans for the chief executive officer and other key officers.

Generally, the Compensation Committee's process comprises two related elements: the determination of compensation levels and the establishment of performance objectives for the current year. For executives other than the chief executive officer, our Compensation Committee solicits and considers evaluations and recommendations submitted to the compensation committee by the chief executive officer. In the case of the chief executive officer, the evaluation of his performance is conducted by the Compensation Committee, which determines any adjustments to his compensation as well as awards to be granted. For all executives and directors, as part of its deliberations, the Compensation Committee may review and consider, as appropriate, materials such as financial reports and projections, operational data, tax and accounting information, tally sheets that set forth the total compensation that may become payable to executives in various hypothetical scenarios, executive and director stock ownership information, company stock performance data, and analyses of historical executive compensation levels, including analyses of executive and director compensation paid at a peer group of other companies approved by our Compensation Committee.

Nominating and Corporate Governance Committee

The members of the Nominating and Corporate Governance Committee are Dr. Shapiro, Mr. Loshitzer, Mr. Heffernan, Mr. Perry, and Dr. Langer. Mr. Loshitzer serves as chair of the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee did not meet nor did it act by unanimous written consent during 2014. The Nominating and Corporate Governance Committee's responsibilities include:

- developing and recommending to the Board of Directors criteria for board and committee membership;
- establishing procedures for identifying and evaluating board of director candidates, including nominees recommended by stockholders;

- identifying individuals qualified to become members of the Board of Directors;

- recommending to the Board of Directors the persons to be nominated for election as directors and to each of the board's committees;

- - developing and recommending to the Board of Directors a set of corporate governance guidelines; and

- overseeing the evaluation of the Board of Directors and management.

•
Our Board of Directors may establish other committees from time to time.

Identifying and Evaluating Director Nominees

Our Board is responsible for selecting its own members. The Board delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board, and of management, will be requested to take part in the process as appropriate.

Generally, our Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by stockholders or through such other methods as the nominating and corporate governance committee deems to be helpful to identify candidates. Once candidates have been identified, our Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, detailed questionnaires, background checks or any other means that the Nominating and Corporate Governance Committee deems to be appropriate in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of our Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board's approval as director nominees for election to the Board.

Minimum Qualifications

Our Nominating and Corporate Governance Committee will consider, among other things, the following qualifications, skills and attributes when recommending candidates for the Board's selection as nominees for the Board and as candidates for appointment to the Board's committees. The nominee shall have the highest personal and professional integrity, shall have demonstrated exceptional ability and judgment, and shall be most effective, in conjunction with the other nominees to the Board, in collectively serving the long-term interests of the stockholders.

In evaluating proposed director candidates, our Nominating and Corporate Governance Committee may consider, in addition to the minimum qualifications and other criteria for board membership approved by the Board from time to time, all facts and circumstances that it deems appropriate or advisable, including, among other things, diversity (not limited to race, gender or national origin), the skills of the proposed director candidate, his or her depth and breadth of professional experience or other background characteristics, his or her independence and the needs of the Board. We have no formal policy regarding board diversity. Our Nominating and Corporate Governance Committee's priority in selecting board members is identification of persons who will further the interests of our Company through his or her established record of professional accomplishment, the ability to contribute positively to the collaborative culture among board members, and professional and personal experiences and expertise relevant to our growth strategy. The Nominating and Corporate Governance Committee will consider candidates recommended by stockholders. The policy adopted by the Nominating and Corporate Governance Committee provides that candidates recommended by stockholders are given appropriate consideration in the same manner as other candidates.

In considering candidates to serve as directors, the Nominating and Corporate Governance Committee uses a subjective process for identifying and evaluating nominees to serve on our Board based on consideration of all factors it deems relevant. In addition, our Corporate Governance Guidelines set forth general minimum criteria for nomination as a director, which include the following:

- The nominee shall have experience at a strategic or policymaking level in a business, government, non-profit or academic organization of high standing;
- The nominee shall be highly accomplished in his or her respective field, with superior credentials and recognition;
- The nominee shall be well regarded in the community and shall have a long-term reputation for high ethical and moral standards;
- The nominee shall have sufficient time and availability to devote to the affairs of the Company, particularly in light of the number of boards of directors on which such nominee may serve; and
- To the extent such nominee serves or has previously served on other boards, the nominee shall have a demonstrated history of actively contributing at board meetings.

Communicating with the Directors

The Board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The chair of the Audit Committee is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other directors as he considers appropriate.

Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the chair of the Audit Committee considers to be important for the directors to know. In general, communications relating to corporate governance and corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to the Board should address such communications to the Board of Directors, c/o Corporate Secretary, Ocata Therapeutics, Inc., 33 Locke Drive, Marlborough, Massachusetts, 01752. Stockholders should indicate on their correspondence that they are an Ocata Therapeutics, Inc. stockholder.

Anyone may express concerns regarding questionable accounting or auditing matters or complaints regarding accounting, internal accounting controls or auditing matters to the Audit Committee by calling (508) 756-1212. Messages to the Audit Committee will be received by the chair of the Audit Committee and our Corporate Secretary. Stockholders may report their concern anonymously or confidentially.

Board Leadership Structure and Role in Risk Oversight

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, in October 2013, the Board determined that the roles should be separated. Dr. Wotton currently serves as our President and Chief Executive Officer, and Mr. Heffernan serves as Chairman of the Board.

Our Audit Committee is primarily responsible for overseeing our risk management processes on behalf of our Board of Directors. The Audit Committee receives and reviews periodic reports from management, auditors, legal counsel, and others, as considered appropriate regarding our company's assessment of risks. In addition, the Audit Committee reports regularly to the full Board of Directors, which also considers our risk profile. The Audit Committee and the full Board of Directors focus on the most significant risks facing our company and our company's general risk management strategy, and also ensure that risks undertaken by our Company are consistent with the Board's appetite for risk. In connection with its reviews of the operations and corporate functions of our Company, the Audit Committee and the full Board of Directors address the primary risks associated with those operations and corporate functions. In addition, our Board reviews the risks associated with our Company's business strategies periodically throughout the year as part of its consideration of undertaking any such business strategies. The Board oversees our Company's risk management, while management is responsible for day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our Company and that our Board leadership structure supports this approach.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and persons who own more than 10% of the Company's stock (collectively, "Reporting Persons") to file with the SEC initial reports of ownership and changes in ownership of the Company's Common Stock. Reporting Persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) reports they file. Based solely on a review of the reports furnished to us, or written representations from Reporting Persons that all reportable transaction were reported, we believe that during the fiscal year ended December 31, 2014, our officers, directors and greater than ten percent stockholders timely filed all reports they were required to file under Section 16(a).

Compensation Committee Interlocks and Insider Participation

During 2014, Dr. Shapiro, Mr. Perry, Mr. Loshitzer and Mr. Heffernan served on the Compensation Committee. None of the members of the Compensation Committee has had a relationship with the Company or any subsidiary other than as a director or stockholder. No executive officer of the Company served or serves on the Compensation Committee or board of any company that employed or employs any member of Company's Compensation Committee or Board of Directors.

Code of Ethics and Corporate Governance Guidelines

We have adopted a code of business conduct and ethics that applies to our directors, officers (including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions) as well as our employees. A copy of our code of business conduct and ethics is available on our website at www.ocata.com under "Investors—Corporate Governance" or by requesting a copy in writing from Edward Myles, Secretary, at our Marlborough, Massachusetts office. We intend to post on our website all disclosures that are required by applicable law, the rules of the Securities and Exchange Commission or NASDAQ listing standards concerning any amendment to, or waiver from, our code of business conduct and ethics. A copy of the Corporate Governance Guidelines may also be accessed free of charge by visiting the website at www.ocata.com and going to the "Investors—Corporate Governance" section or by requesting a copy from Edward Myles, Secretary, at our Marlborough, Massachusetts office.

Wotton, Ph. D. (President and Chief Executive Officer), Edward Myles (Chief Financial Officer and Chief Operating Officer), Robert P. Lanza M.D. (Chief Scientific Officer), Eddy Anglade, M.D. (Chief Medical Officer), and H. LeRoux Jooste (Senior Vice President of Business Development and Chief Commercial Officer). In particular, this section focuses on our 2014 compensation program and related compensation decisions.

As discussed above, the Board has established a Compensation Committee, comprised of independent, non-employee directors, which approves all compensation and awards to executive management. The members of the Compensation Committee have extensive executive level experience in other companies and bring a perspective of reasonableness to compensation matters with our Company. In addition, the Compensation Committee compares executive compensation practices of similar companies at similar stages of development.

The objectives of our compensation program are as follows:

- attract and retain individuals with superior ability and managerial experience;
- align executive officers' incentives with our corporate strategies, business objectives and the long-term interests of our stockholders; and
- increase the incentive to achieve key strategic performance measures by linking incentive award opportunities to the achievement of performance objectives and by providing a portion of total compensation for executive officers in the form of ownership in the company.

Executive compensation is paid or granted pursuant to each Named Executive Officer's compensation agreement. Compensation adjustments are made occasionally based on changes in a Named Executive Officer's level of responsibility or on changed local and specific executive employment market conditions. Based on these factors, the Compensation Committee approved the execution of employment agreements with each of the Company's Named Executive Officers.

Compensation Consultant

In February 2015, the Compensation Committee retained Radford (an Aon Hewitt company), as an independent compensation consultant to provide executive compensation advice. Radford reports directly to the Compensation Committee.

Radford was hired to perform the following services:

- Assist in developing a peer group to be used to assess executive compensation;
- Assess the executive compensation program and develop recommendations covering salary, non-equity incentives and equity-based incentive compensation; and
- Review peer group short-term incentive design practices and assist in developing structure of short-term incentive program for the Compensation Committee.

Radford prepared analyses for the Compensation Committee based on its review of market data it believed to be relevant, including compensation levels at, and financial performance of, the peer group of companies identified below. Radford also met with the Compensation Committee and with management to solicit input on job scope,

performance, retention issues and other factors it views as relevant. Radford then prepared a report and presented it to the Compensation Committee with recommendations as to the compensation of the Named Executive Officers.

Based on its analysis of peer group compensation and practices, Radford recommended, and the Compensation Committee approved after deliberation, that no adjustments to the base salaries of Named Executive Officers, outside of a standard, annual cost of living adjustment, are needed at this time.

Radford does not provide any executive compensation consulting services other than those requested by the Compensation Committee and which are related to Radford's engagement by the Compensation Committee. Radford does not perform any services directly for management or any other services for the Company and receives no compensation from the Company other than for its work in advising the Compensation Committee.

Given the foregoing, along with (i) the absence of any business or personal relationship between Radford and any member of the Compensation Committee or any of our executive officers, (ii) the fact that Radford does not trade in Company stock, (iii) the fact that Radford has an independence policy that is reviewed annually by its governing body, and (iv) the fact that Radford proactively notifies the Compensation Committee of any potential or perceived conflicts of interest, the Compensation Committee has concluded that Radford's work does not raise any conflict of interest.

Peer Group

In early 2015, Radford recommended (and the Compensation Committee approved) using the following publicly-traded, U.S.-based companies in the stem cell/biotechnology sector for purposes of assessing the compensation of the Named Executive Officers. The following companies were selected primarily because they generally had fewer than 100 employees and because their market capitalization was between \$100 million and \$600 million. Additionally, Radford supplemented the below peer group information with data from Radford's 2014 Global Life Sciences Survey that analyzed publicly traded pre-commercial biotechnology companies with under 100 employees.

Executive Compensation Components

Our executive compensation consists of base salary, cash incentive bonuses, equity incentive compensation and broad-based benefits programs. Each of the elements of executive compensation is discussed in more detail below. We have not adopted any formal guidelines for allocating total compensation between long-term and short-term compensation, cash compensation and non-cash compensation, or among different forms of non-cash compensation. The Compensation Committee considers a number of factors in setting compensation for its executive officers, including Company performance, as well as the executive's performance, experience, responsibilities and the compensation of executive officers in similar positions at comparable companies.

Base Salary

Base salary represents the fixed portion of an executive officer's compensation and is intended to provide compensation for day-to-day performance. The Compensation Committee believes that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced

executives. Base salaries for our Named Executive Officers are intended to be competitive with those received by other individuals in similar positions at the companies with which we compete for talent. Base salaries are originally established at the time the executive is hired based on individual experience, skills and expected contributions, our compensation committee's understanding of what executives in similar positions at other peer companies were being paid at such time and are also the result of negotiations with certain executives during the hiring process. The base salaries of our Named Executive Officers are reviewed annually and may be adjusted to reflect market conditions and our executives' performance during the prior year as well as the financial position of the company, or if there is a change in the scope of the officer's responsibilities. We believe that attractive base salaries can motivate and reward executives for their overall performance.

As of December 31, 2014, the base salaries for our Named Executive Officers were as follows:

Named Executive Officer	Base Salary
Paul K. Wotton, Ph. D.	\$575,000
Edward Myles	\$360,000
Robert P. Lanza, M.D.	\$485,100
Eddy Anglade, M.D.	\$366,000
H. LeRoux Jooste	\$350,000

2014 Cash Bonus Incentive

After considering Radford's report and recommendations, and based on discussions with both Radford and Dr. Wotton as well as previous discussions by the Board in connection with the hiring of, and renegotiation of employment agreements with, a number of the Named Executive Officers, the Compensation Committee formally established a cash bonus incentive arrangement for the Named Executive Officers based on the Company's performance in 2014. The target bonus opportunity was 55% of annual base salary for Dr. Wotton, 35% of annual base salary for Mr. Myles, 40% of annual base salary for Dr. Lanza, 25% of annual base salary for Dr. Anglade and 40% of annual base salary for Mr. Jooste. The actual amount of any bonus that was earned could be more or less than the target amount based on the Compensation Committee's determination as to the degree of achievement of the specified performance goals.

The 2014 bonus arrangement utilized a performance matrix for the Named Executive Officers. The performance matrix included a number of detailed objectives which were categorized across all components of the Company. The major initiatives which make up the performance matrix are listed below:

- Initiate the next phase of clinical trials for our lead retinal pigment epithelium programs for age-related macular degeneration, Stargardt's Macular Degeneration, and myopic macular degeneration.
- Resolve legacy legal and administrative matters that were outstanding as of January 1, 2014.
- Capitalize the Company to pursue objectives and list on a national exchange.
- Advance the Company's intellectual property position, including establishing positions in new clinical and pre-clinical programs.
- Create redundancy in supply chain sufficient for clinical trials in short-term and commercialization in long-term.
- Prioritization of cell source and therapeutic indication of pipeline assets.

The progress against each of these major initiatives was evaluated and graded by the Compensation Committee in early 2015. This evaluation process included discussions with management.

The Compensation Committee believed that the above objectives were appropriate uses of company resources in that, at the time of their development, it was believed that achievement of these objectives were viewed to be value creating for the Company. Furthermore, the Compensation Committee believed the objectives were sufficiently challenging and difficult to achieve, so as to drive management to optimize its efforts to achieve these objectives.

In February 2015, the Compensation Committee unanimously concluded that on an overall basis the target corporate performance objectives were achieved to a level of 50% and that the Named Executive Officers would therefore each receive a cash bonus in an amount equal to 50% of their respective target bonus amounts for fiscal 2014. The Compensation Committee further determined that based on exceptional contributions to corporate performance, Mr. Myles' and Dr. Anglade's bonuses would be increased to approximately 100% of their target bonus for fiscal 2014.

Equity Incentive Compensation

Equity incentive grants to our Named Executive Officers are made at the discretion of the Compensation Committee under the terms of our Stock Option Plans. The Compensation Committee believes that equity incentives subject to vesting over time or upon achievement of performance objectives can be an effective vehicle for the long-term element of compensation, as these awards align individual and team performance with the achievement of our strategic and financial goals over time, and with stockholders' interests. The Compensation Committee approves all option grants.

In 2014, the Compensation Committee made stock option and restricted stock grants to all Named Executive Officers subject to time-based vesting, which are described in the Grants of Plan-Based Awards table below. Stock options, which have exercise prices equal to at least fair market value of our Common Stock on the date of grant, reward executive officers only if the stock price increases from the date of grant.

Employee Benefits

In addition to the primary elements of compensation described above, the Named Executive Officers also participate in broad-based employee benefits programs available to all of our employees, including health insurance, life and disability insurance, dental insurance and our 401(k) plan.

Risk Management Considerations

In response to the ongoing global economic recession, in 2014 the Compensation Committee considered the incentives under our executive compensation program and whether they introduced or encouraged excessive risk taking or other behaviors by our executives that could have a negative impact on our business. The Compensation Committee determined that our executive compensation program provides an appropriate balance of incentives and that it does not encourage our executives to take excessive risks or otherwise create risks that are reasonably likely to have a material adverse effect on us.

*Compensation Committee Report**

Based upon that review and analysis, the Compensation Committee recommended to the Board of Directors that the “Compensation Discussion and Analysis” section be included in this Annual Report on Form 10-K.

In addition, any shares which are retained by the Company upon exercise of an award in order to satisfy the exercise or purchase price for such award or any withholding taxes due with respect to such exercise or purchase shall be treated as not issued and shall continue to be available under the 2014 Plan. Shares issued under the 2014 Plan and later repurchased by the Company pursuant to any repurchase right which the Company may have shall be available for future grant under the 2014 Plan. The maximum number of shares that may be subject to stock options and stock purchase rights granted to any one employee under the 2014 Plan for any fiscal year of the Company shall be 250,000. Payments made upon involuntary termination by the Company without cause or for good reason by executive, or company change in control transaction

This section provides estimates for compensation payable to each Named Executive Officer under hypothetical termination of employment and change in control scenarios under our compensatory arrangements with the Named Executive Officers (other than nondiscriminatory arrangements generally available to salaried employees). The amounts shown below are estimates and assume the hypothetical involuntary termination or change in control occurred on December 31, 2014, the last day of fiscal 2014, applying the provisions of the employment agreements that were in effect as of such date. Due to the number of factors and assumptions that can affect the nature and amount of any benefits provided upon the events discussed below, any amounts paid or distributed upon an actual event may differ.

Dr. Wotton, if terminated without Cause or resigned for Good Reason

Pursuant to the terms of the Wotton Agreement, if Dr. Wotton had been terminated without Cause or had resigned for Good Reason on December 31, 2014, Dr. Wotton would have been entitled to his accrued and unpaid salary and other benefits, as well as the following: (i) an amount equal to \$575,000 (his annual base salary then in effect) plus his earned but unpaid incentive compensation (bonus) as of the date of termination, for an estimated total payment of \$891,250, payable in equal installments in accordance with the Company's standard payroll practices and commencing within 60 days of December 31, 2014, (ii) reimbursement to Dr. Wotton on a month-to-month basis of an amount equivalent to Dr. Wotton and Dr. Wotton's spouse and dependent's COBRA payments for up to 12 months following the date of termination if Dr. Wotton were to properly elect COBRA coverage, for an estimated \$14,840 in reimbursements over 12 months, and (iii) full vesting of the stock option or restricted stock units awards held by Dr. Wotton that are scheduled to vest within one year of the termination date. This accelerated vesting of stock options and restricted stock at December 31, 2014 would have resulted in \$1,362,379 in value to Dr. Wotton. In addition, if a milestone underlying a performance-based equity award is achieved during the three month period following such termination, Dr. Wotton would be entitled to the same vesting with respect to the applicable performance-based equity award that he would have vested in if he had been employed on the date of the achievement of the performance milestone.

Dr. Wotton, if terminated without Cause or resigned for Good Reason, within 12 months of a Change of Control

If a change in control had occurred on December 31, 2014, (i) within 60 days of December 31, 2014, a lump sum payment of \$1,150,000 (equal to two times his annual base salary then in effect) plus his earned but unpaid bonus, for an estimated total payment of \$1,466,250, (ii) reimbursement to Dr. Wotton on a month-to-month basis of an amount equivalent to Dr. Wotton and Dr. Wotton's spouse and dependent's COBRA payments for up to 12 months following the date of termination if Dr. Wotton were to properly elect COBRA coverage, for an estimated \$14,840 in reimbursements over 12 months, and (iii) full vesting of all stock option or restricted stock unit awards held by Dr.

Wotton. This accelerated vesting of stock options and restricted stock at December 31, 2014 would have resulted in \$3,931,847 in value to Dr. Wotton.

Mr. Myles, if terminated without Cause or resigned for Good Reason

Pursuant to the terms of the Myles Agreement, if Mr. Myles had been terminated without Cause or had resigned for Good Reason on December 31, 2014, Mr. Myles would have been entitled to his accrued and unpaid salary and other benefits, as well as the following: (i) commencing within 60 days of December 31, 2014, a continuation of base salary for twelve (12) months, for an estimated total payment of \$360,000, (ii) a lump-sum payment equal to 35% of his annual base salary, estimated at \$126,000, and payable on the last payroll date of the 12-month severance period, (iii) reimbursement to Mr. Myles on a month-to-month basis of an amount equivalent to Mr. Myles and Mr. Myles's spouse and dependents' COBRA payments for up to 12 months following the date of termination if Mr. Myles were to properly elect COBRA coverage, for an estimated \$16,234 in reimbursements over 12 months, and (iv) full vesting of the stock option or restricted stock unit awards held by Mr. Myles that are scheduled to vest within one year of the termination date. This accelerated vesting of stock options and restricted stock at December 31, 2014 would have resulted in \$957,003 in value to Mr. Myles. In addition, if a milestone underlying a performance-based equity award is achieved during the three month period following such termination, Mr. Myles would be entitled to the same vesting with respect to the applicable performance-based equity award that he would have vested in if he had been employed on the date of the achievement of the performance milestone.

Mr. Myles, if terminated without Cause or resigned for Good Reason, within 12 months of a Change of Control

If a change in control had occurred on December 31, 2014, (i) within 60 days of December 31, 2014, a lump sum payment equal to \$360,000 (his annual base salary then in effect) plus the average annual bonus amount paid to Mr. Myles as determined over the three-year period immediately preceding such termination, for an estimated total payment of \$486,000, (ii) reimbursement to Mr. Myles on a month-to-month basis of an amount equivalent to Mr. Myles and Mr. Myles's spouse and dependent's COBRA payments for up to 12 months following the date of termination if Mr. Myles were to properly elect COBRA coverage, for an estimated \$16,234 in reimbursements over 12 months, and (iii) full vesting of all stock option or restricted stock unit awards held by Mr. Myles. This accelerated vesting of stock options and restricted stock at December 31, 2014 would have resulted in \$1,537,440 in value to Mr. Myles.

Dr. Lanza, if terminated without Cause or resigned for Good reason,

Pursuant to the terms of the Lanza Agreement, if Dr. Lanza had been terminated without Cause or had resigned for Good Reason on December 31, 2014, Dr. Lanza would have been entitled to his accrued and unpaid salary and other benefits, as well as the following: (i) commencing within 60 days of December 31, 2014, a continuation of base salary for twelve (12) months, for an estimated total payment of \$485,100 and (ii) reimbursement to Dr. Lanza on a month-to-month basis of an amount equivalent to Dr. Lanza and Dr. Lanza's spouse and dependent's COBRA payments for up to 12 months following the date of termination if Dr. Lanza were to properly elect COBRA coverage, for an estimated \$5,696 in reimbursements over 12 months.

If a change in control had occurred on December 31, 2014, (i) within 60 days of December 31, 2014, a lump sum payment of \$485,100 (equal to his annual base salary then in effect), (ii) reimbursement to Dr. Lanza on a month-to-month basis of an amount equivalent to Dr. Lanza and Dr. Lanza's spouse and dependent's COBRA payments for up to 12 months following the date of termination if Dr. Lanza were to properly elect COBRA coverage, for an estimated \$5,696 in reimbursements over 12 months, and (iii) full vesting of all stock option or restricted stock unit awards held by Dr. Lanza. This accelerated vesting of stock options and restricted stock at December 31, 2014 would have resulted in \$1,189,206 in value to Dr. Lanza.

Accordingly, our Board of Directors has determined that Dr. Alan Shapiro, Dr. Robert Langer, Mr. Zohar Loshitzer, Mr. Gregory Perry and Mr. Michael Heffernan meet the definition of “independent director” as defined in Rule 5605(a)(2) of the Nasdaq Marketplace Rules.

Item 14. Principal Accounting Fees and Services.

The following table summarizes the fees of our current and prior independent registered public accounting firms, BDO USA LLP and SingerLewak LLP, billed to us for each of the last two fiscal years for audit services and billed to us in each of the last two years for other services:

Fee Category	2014	2013
Audit Fees	\$ 154,500	\$ 362,035
Audit Related Fees	\$—	\$ 89,491
Tax Fees	\$—	\$—

All Other Fees \$- \$-

Audit fees consist of aggregate fees billed for professional services rendered for the audit of the Company's annual financial statements and review of the interim financial statements included in quarterly reports or services that are normally provided by the independent auditor in connection with statutory and regulatory filings or engagements for the fiscal years ended December 31, 2014 and 2013.

Audit related fees consist of aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported under "Audit Fees." These fees include review of registration statements.

Tax fees consist of aggregate fees billed for professional services for tax compliance, tax advice and tax planning.

All other fees consist of aggregate fees billed for products and services provided by the independent auditor, other than those disclosed above.

The Company's policy is to pre-approve all audit and permissible non-audit services provided by the independent auditors. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent auditors and management are required to periodically report to the audit committee regarding the extent of services provided by the independent auditors in accordance with this pre-approval, and the fees for the services performed to date. To the extent that additional services are necessary beyond those specifically budgeted for, the audit committee and management pre-approve such services on a case-by-case basis. All services provided by the independent auditors were approved by the Audit Committee.
