Sunnyvale, CA 94085

(Address of Principal Executive Offices)

(408) 616-8200

(Registrant's telephone number, including area code)

Item 5. Other Events

On February 13, 2003 Scios Inc. announced financial results for the fourth quarter and full-year ended December 31, 2002.

Scios Inc. reported total revenues of \$44.6 million in the fourth quarter of 2002 compared to \$10.5 million in the fourth quarter of 2001. Total revenues for the year ended December 31, 2002 were \$111.2 million compared to \$47.3 million in 2001. Most of the revenues came from sales of the company's flagship product, Natrecor[®] (nesiritide), which were \$43.3 million in the fourth quarter of 2002, a 66 percent increase over the prior quarter. This increase was largely driven by demand in the hospital setting. For the full-year 2002, Natrecor net sales were \$107.3 million versus \$14.1 million in 2001.

Product and Pipeline Highlights

Natrecor

Approximately 88 percent of the targeted hospitals have now stocked Natrecor. Of those that stocked the drug in the third quarter of 2002, 87 percent reordered it in the fourth quarter.

The FUSION (**F**ollow **U**p **S**erial **I**nfusions of **N**esiritide) pilot study, which is evaluating the safety and feasibility of follow-up serial infusions of Natrecor, is nearing completion.

The ADHERE (**A**cute **D**ecompensated **H**eart Failure National **R**egistry) Registry has enrolled over 35,000 patients to date. Over 350 clinicians and staff attended the second annual 2003 ADHERE National Meeting in Palm Springs earlier this year.

Enrollment continued in the longitudinal study module of the ADHERE Registry that will follow patients with advanced heart failure for up to two years to assess change in quality of life as a function of medical management and disease progression.

Data will be presented from six abstracts related to Natrecor and acute congestive heart failure at the American College of Cardiology Annual Meeting in Chicago (March 30 - April 2).

SCIO-469 and p38 MAP Kinase Inhibitor Programs

SCIO-469, the company's first-generation oral p38 MAP kinase inhibitor, continues to be evaluated in the fifth dose group of a total six doses in a Phase II clinical trial in patients with rheumatoid arthritis already receiving methotrexate.

SCIO-323, a second-generation p38 MAP kinase inhibitor, continues to progress in a Phase I clinical trial, which began in December 2002.

Fourth Quarter and Year-End Financial Results

Total costs and expenses for the fourth quarter of 2002 were \$57.4 million compared to \$40.7 million for the fourth quarter of 2001. Total costs and expenses for the year ended December 31, 2002 were \$187.5 million compared to \$112.5 million for the year ended December 31, 2001.

Research and development (R&D) expenses for the fourth quarter of 2002 were \$15.8 million, a decrease of approximately 18 percent versus the third quarter of 2002, primarily due to the reduction in expenses relating to preclinical, R&D programs and the redeployment of quality control personnel to the manufacturing area. For the full year of 2002, R&D expenses were \$66.8 million, an increase of approximately 39 percent versus the prior year, primarily due to increased spending on the Natrecor and p38 MAP kinase development programs.

Selling, general and administrative (SG&A) expenses were \$38.9 million in the fourth quarter of 2002, an increase of 59 percent over the prior quarter due to higher sales and marketing expenses, commissions and promotions. For the full year of 2002, SG&A expenses were \$114.2 million, an increase of 83 percent over the prior year, reflecting costs associated with the Natrecor launch and associated sales and marketing programs. Toward the end of the fourth quarter of 2002, the Company ended the sales support portion of its agreement with Innovex/Quintiles, resulting in an additional expense of \$2.4 million in the fourth quarter of 2002. This termination is ahead of the previously agreed termination date of May 2003.

Net loss for the fourth quarter of 2002 was \$18.5 million, or \$0.40 per share, compared to a net loss of \$28.8 million, or \$0.63 per share, for the fourth quarter of 2001. Net loss for the year ended December 31, 2002 was \$88.1 million, or \$1.90 per share, compared to a net loss of \$62.5 million, or \$1.47 per share, for the comparable period in 2001.

Cash, cash equivalents and marketable securities (both current and non-current) at December 31, 2002 were \$172.0 million, excluding \$24.2 million of restricted marketable securities.

Forward-Looking Safe Harbor Statement

This Current Report on Form 8-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which may include statements concerning the proposed merger with Johnson & Johnson and strategic plans, expectations, and objectives for future operations. We generally identify such forward-looking statements using words like estimate, believe, intend, expect, may, should, plan, project, contemplate, anticipate or similar statements. Statements of historical facts are forward-looking statements based on current assumptions that involve risks and uncertainties. These risks and uncertainties may include the sales penetration and success of Natrecor, the success of clinical trials of Natrecor and our pipeline products, the failure to complete the proposed merger in a timely manner, the inability to obtain Scios shareholder or regulatory approvals or to satisfy other conditions to the merger, actions of governmental entities, and costs related to the merger, as well as other risks detailed from time to time in the reports filed by Scios with the SEC, including the Company's quarterly reports and annual report on Form 10-K. Actual results, performance or achievements of Scios may differ significantly from those described in these forward-looking statements. Scios disclaims any intention or obligation to update or revise any financial projections or forward-looking statements, whether as a result of new information, future events or otherwise.
