The following disclosures supplement the disclosures contained in the registration statement on Form S-4, which was filed by Enterprise Financial Services Corp (“Enterprise”) with the Securities and Exchange Commission (the “SEC”) on December 11, 2018, as amended on December 31, 2018, January 22, 2019 and January 29, 2019 (the “Registration Statement”) in connection with the previously announced proposed merger between Trinity Capital Corporation (“Trinity”) and Enterprise (the “Merger”), which contained a preliminary proxy statement/prospectus relating to the Merger, such Registration Statement being declared effective by the SEC on January 30, 2019. Trinity filed a proxy statement/prospectus dated as of January 30, 2019 (the “Proxy Statement/Prospectus”) with the SEC on January 31, 2019, as amended and supplemented on February 6, 2019 and February 12, 2019, and mailed on or about February 4, 2019 to Trinity shareholders of record as of the close of business on January 22, 2019, in connection with the Merger.

The following disclosures should be read in conjunction with the disclosures contained in the Registration Statement, which should be carefully read in its entirety. To the extent that information set forth herein differs from or updates information contained in the Registration Statement, the information contained herein supersedes the information contained in the Registration Statement. All page references are to pages in the Registration Statement, and any defined terms used but not defined herein shall have the meanings set forth in the Registration Statement.

As disclosed in the Registration Statement, a putative securities class action complaint was filed in the United States District Court for the District of New Mexico on January 22, 2019 against Trinity, the members of the Trinity board of directors and Enterprise. In addition, a putative securities class action complaint was filed in the United States District Court for the Southern District of New York on February 12, 2019 against Trinity and the members of the Trinity board of directors. The complaints allege, among other things, that the defendants violated Sections 14(a) and 20(a) of the Securities Exchange Act of 1934, as amended, and certain rules and regulations promulgated thereunder by not disclosing in the Proxy Statement/Prospectus certain allegedly material facts.

Trinity believes that the claims asserted in the lawsuits are without merit. However, to avoid the risk that the lawsuits may delay or otherwise adversely affect the consummation of the Merger and to minimize the expense of defending the lawsuits, Trinity has voluntarily made the supplemental disclosures related to the Merger set forth below. Nothing in this Current Report on Form 8-K shall be deemed an admission of the legal necessity or materiality under applicable law of any of the disclosures set forth herein. Trinity specifically denies that any further disclosure is required to supplement the Proxy Statement/Prospectus under applicable law.

Supplements to the Registration Statement

The following disclosure supplements the Registration Statement and is to be inserted at the end of the seventh paragraph under the subsection captioned “Background of the Merger” which subsection begins on page 40 of the Registration Statement.

None of the confidentiality agreements with Party A, Party B and the remaining potential merger partners contained a “Don’t Ask, Don’t Waive” provision.

The following disclosure supplements the Registration Statement and is to be inserted on page 62 of the Registration Statement as a new subsection immediately after the last paragraph under the subsection captioned “Opinion of Trinity’s Financial Advisor.”

Certain Trinity and Enterprise Unaudited Prospective Financial Information

Neither Enterprise nor Trinity as a matter of course makes public forecasts as to future performance, revenues, earnings or other financial results due to, among other reasons, the inherent uncertainty of underlying assumptions and

estimates. However, Enterprise and Trinity are each including in this document certain unaudited prospective financial information for Enterprise and Trinity that was made available to Trinity and its financial advisor or to Enterprise and its financial advisor in connection with the Merger. The inclusion of this information should not be regarded as an indication that any of Trinity, Enterprise, their respective representatives or any other recipient of this information considered, or now considers, it to be necessarily predictive of actual future results, or that it should be construed as financial guidance, and it should not be relied on as such. Enterprise's management and Trinity's management approved the use of the following unaudited prospective financial information. This information was prepared solely for internal use and is subjective in many respects. While presented with numeric specificity, the unaudited prospective financial information reflects numerous estimates and assumptions made with respect to business, economic, market, competition, regulatory and financial conditions and matters specific to Trinity's business and Enterprise's business, all of which are difficult to predict and many of which are beyond Trinity's and Enterprise's control. The unaudited prospective financial information reflects both assumptions as to certain business decisions that are subject to change and, in many respects, subjective

judgment, and thus is susceptible to multiple interpretations and periodic revisions based on actual experience and business developments. No assurance can be given that the unaudited prospective financial information and the underlying estimates and assumptions will be realized. In addition, since the unaudited prospective financial information covers multiple years, such information by its nature becomes subject to greater uncertainty with each successive year. Actual results may differ materially from those set forth below, and important factors that may affect actual results and cause the unaudited prospective financial information to be inaccurate include, but are not limited to, risks and uncertainties relating to Trinity's performance, Enterprise's performance, industry performance, general business and economic conditions, customer requirements, competition and adverse changes in applicable laws, regulations or rules and the various risks set forth in Trinity's and Enterprise's respective reports filed with or furnished to the SEC. For other factors that could cause actual results to differ, please see the sections entitled "Risk Factors" and "Cautionary Statement About Forward-Looking Statements" beginning on pages 30 and 28, respectively, of this document.

The unaudited prospective financial information was not prepared with a view toward public disclosure, nor was it prepared with a view toward compliance with generally accepted accounting principles, published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information. In addition, the unaudited prospective financial information requires significant estimates and assumptions that make it inherently less comparable to the similarly titled generally accepted accounting principles measures in each party's historical generally accepted accounting principles financial statements. Neither Enterprise's nor Trinity's independent registered public accounting firm, nor any other independent accountants, have compiled, examined or performed any procedures with respect to the unaudited prospective financial information contained in this document, nor have they expressed any opinion or any other form of assurance on such information or its achievability.

Furthermore, the unaudited prospective financial information does not take into account any circumstances or events occurring after the date it was prepared. No assurance can be given that, had the unaudited prospective financial information been prepared as of the date of this document, similar estimates and assumptions would be used. Neither Enterprise nor Trinity intends to, and each party disclaims any obligation to, make publicly available any update or other revision to the unaudited prospective financial information to reflect circumstances existing since their preparation or to reflect the occurrence of unanticipated events, even if any or all of the underlying assumptions are shown to be in error, or to reflect changes in general economic or industry conditions. The unaudited prospective financial information does not take into account the possible financial and other effects on either Trinity or Enterprise, as applicable, of the Merger and does not attempt to predict or suggest future results of the combined company after giving effect to the Merger. The unaudited prospective financial information (other than with respect to certain forecasts related to the combined company set forth under "-Certain Forecasts For Pro Forma Financial Impact Analysis" below) does not give effect to the Merger, including the impact of negotiating or executing the Merger Agreement, the expenses that may be incurred in connection with completing the Merger, the potential synergies that may be achieved by the combined company as a result of the Merger, the effect on either Trinity or Enterprise, as applicable, of any business or strategic decision or action that has been or will be taken as a result of the Merger Agreement having been executed, or the effect of any business or strategic decisions or actions that would likely have been taken if the Merger Agreement had not been executed, but that were instead altered, accelerated, postponed or not taken in anticipation of the Merger. Further, the unaudited prospective financial information does not take into account the effect on either Trinity or Enterprise, as applicable, of any possible failure of the Merger to occur. None of Trinity, Enterprise, KBW or their respective affiliates, associates, officers, directors, advisors, agents or other representatives has made, makes or is authorized in the future to make any representation to any shareholder of Trinity, shareholder of Enterprise or any other person regarding Trinity's ultimate performance compared to the information contained in the unaudited prospective financial information or that the forecasted results will be achieved.

In light of the foregoing, and considering that the shareholder meeting of Trinity's shareholders will be held several months after the unaudited prospective financial information was prepared, as well as the uncertainties inherent in any forecasted information, Trinity shareholders are cautioned not to place unwarranted reliance on such information, and

Trinity urges its shareholders to review Enterprise's and Trinity's financial statements and other information contained elsewhere in this document for a description of Enterprise's and Trinity's respective businesses and reported financial results.

This Current Report on Form 8-K contains statements regarding the proposed transaction between Enterprise and Trinity, the expected timetable for completing the transaction, future financial and operating results, benefits and synergies of the proposed transaction and other statements about the future expectations, beliefs, goals, plans or prospects of the management of each of Enterprise and Trinity. These statements are based on current expectations, estimates and forecasts and management assumptions about the future performance of each of Enterprise, Trinity and the combined corporation, as well as the businesses and markets in which they do and are expected to operate. These

regulatory constraints that may limit growth; competitive pressures among depository and other financial institutions may increase significantly and have an effect on revenues; the strength of the U.S. economy in general, and of the local economies in which the surviving corporation will operate, may be different than expected, which could result in, among other things, a deterioration in credit quality or a reduced demand for credit and have a negative effect on the combined corporation's loan portfolio and allowance for loan losses; changes in the U.S. legal and regulatory framework; and adverse conditions in the stock market, the public debt market and other capital markets (including changes in interest rate conditions) which would negatively affect the surviving corporation's business and operating results.
