PROPOSAL 1. ELECTION OF DIRECTORS

A) INFORMATION ABOUT THE BOARD, COMMITTEES, AND COMPENSATION

The authorized Board of Directors presently consists of eight members. There are currently two vacant positions on the Board.

The Board held five meetings during 2001. Except for Mr. Bonderman who attended all but two meetings, the average attendance by Directors at these meetings was greater than 80%, and all nominees attended at least 90% of the Committee meetings they were scheduled to attend. The Board has both an Audit Committee and Compensation Committee.

Audit Committee. The independent Audit Committee's primary responsibilities are:

to approve the selection of independent auditors;

to review the scope, performance and results of the independent audit;

to review the evaluation of the Company's systems of internal accounting controls;

to appraise the Company's financial reporting (including its Proxy Statement and 10-K) and the accounting standards and principles followed; and

to discuss fees paid to the Company's independent accountants.

The Audit Committee met five times during 2001. The Audit Committee also meets to review quarterly financials with the management of the Company and its independent auditors prior to the filing of quarterly financial results to the Securities and Exchange Commission. Messrs. Roubos (Chairman), Oberndorf, and Scully are members of the Audit Committee. The Audit Committee operates under a formal written charter, which has been approved by the Board and is reviewed periodically. The charter was filed with last year's Proxy Statement. All of the members of the Audit Committee are independent under New York Stock Exchange listing standards.

Compensation Committee. The Compensation Committee's responsibilities are:

to monitor the Company's management resources, structure, succession planning, development and selection process and the performance of key executives; and

to review and approve executive compensation.

This Committee also administers the ProQuest 1995 Employee Stock Option Plan and the Management Incentive Bonus Plan. This Committee met three times during 2001. Messrs. Oberndorf (Chairman), Bonderman, and Roubos are members of the Compensation Committee.

Compensation of Directors. All of the Directors, except for Directors who are employees of the Company (who receive no additional compensation as Directors), receive their compensation through cash payments, restricted stock and participation in the 1995 Non-Employee Directors' Stock Option Compensation Plan:

each non-employee Director receives an annual cash retainer of \$25,000;

a one-time grant of restricted stock upon a member's initial election at an economic value targeted at \$70,000;

an annual retainer fee of \$25,000 in stock options;

a fee of \$2,000 in cash is paid to each Director for each Board meeting attended;

Edgar Filing: PROQUEST CO - Form DEF 14A

a fee of \$1,000 in cash is also paid to each Director for their attendance at a Committee meeting;

a fee of \$2,500 in cash is paid to those Directors who serve as a Chairman of a Committee meeting;

Each member of the Board is also reimbursed travel expenses for their attendance at these meetings.

Table of Contents

The Annual Stock Option Grant is made under the Non-Employee Directors' Stock Option Compensation Plan. Each non-employee Board member receives an annual stock option grant made as of the last day of trading of the Company's Common Stock in the second fiscal quarter (June 29, 2001). The stock option grant permits a non-employee Director to purchase shares of the Company's Common Stock at an exercise price not less than the market value of the Common Stock on the date the option is granted. The number of shares that may be purchased is equal to the total annual compensation otherwise payable to a Director divided by the fair market value of an option on one share of Common Stock. For these purposes, the value of an option is determined by using the Black-Scholes option pricing model. In 2001 each non-employee Director received an option grant of 1,613 shares of the Company's Common Stock at an exercise price of \$31.00 per share; a one time grant of restricted stock with a targeted value of \$70,000; and the annual cash retainer of \$25,000.

B) INFORMATION ABOUT THE NOMINEES FOR DIRECTOR

The names of the persons who have been nominated by the Board for election as Directors at the Annual Meeting are set forth below. There are no other nominees. All nominees have consented to serve as Directors if elected.

If any nominee becomes unable to serve as a Director, the proxies will be voted by the proxy holders for a substitute person nominated by the Board, and authority to do so is included in the proxy. EXECUTIVE COMPENSATION

A) COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The philosophy of the Compensation Committee is to:

align executive compensation with shareholder interests;

ensure that compensation is at a level that enables the Company to attract and retain high quality talent; and

to provide significant rewards for achievement of business objectives and growth in shareholder value.

The members of the Compensation Committee are William E. Oberndorf (Chairman), David Bonderman and Gary L. Roubos.

The Company's compensation program for executive officers currently consists of the following key elements: base salary, annual bonuses, and stock option grants. Each element of the program has a somewhat different purpose. Salary and annual bonuses are made to compensate ongoing performance and achievement of business objectives through the year based upon established targets and goals, while stock option grants are designed to provide strong incentives for creation of long term shareholder value and continued retention of executive officers and other key employees by the Company.

In determining the overall level and form of executive compensation to be paid or awarded in 2001, the Company considered, among other things, continued increases in the Company's sales and productivity in a period of rapid change and intensified competition; and the compensation practices and performances of other major corporations which are most likely to compete with the Company for the services of its executive officers.

B) BASES FOR CHIEF EXECUTIVE OFFICER COMPENSATION

For 2001, Mr. Roemer received total cash payments of \$3,819,968 in salary and bonuses, as shown in the Summary Compensation Table on page 8.

At the beginning of fiscal year 2001 (dated December 31, 2000) the Compensation Committee implemented an arrangement pursuant to an Incentive Compensation Agreement with Mr. Roemer to provide long term incentive benefits based upon appreciation of the ProQuest stock price. This arrangement is comprised of the following two elements:

a grant of 406,250 shares of ProQuest stock under the 1995 Employee Stock Option Plan; and

an incentive compensation arrangement that provides for a mirror cash payment based upon the stock price appreciation of ProQuest stock. This element contains 406,250 stock units.

The terms of the stock option grant provides that except in limited circumstances such as disability, death or change of control of the Company, the options shall vest and become exercisable from and after January 1, 2008. The vesting of all of the options may be accelerated if certain performance objectives are met and Mr. Roemer continues to be employed by the Company as of January 1, 2004.

The percentage of the grant that shall vest and become exercisable shall be determined in accordance with the appreciation of ProQuest stock price during the three year period. The option exercise price is equal to the

Table of Contents

fair market value of the date of the grant, \$16.50 per share. The performance percentage of the grant shall be achieved based upon the stock price performance during the three year period based upon the following table:

<u>Stock Price Target</u>	<u>Performance Percentage</u>
Less than \$21.30	0%
\$21.30 to \$24.329	20%
\$24.33 to \$27.649	40%
\$27.65 to \$31.249	60%
\$31.25 to \$35.149	80%
\$35.15 or higher	100%

As of the end of 2001 fiscal year, an 80% performance percentage had been obtained.

Subject to the following exceptions, Mr. Roemer's incentive compensation would be similar to the stock option grant under the mirror cash element of the arrangement.

The mirror cash payment is calculated similar to the amounts due under the stock option element, described above, except Mr. Roemer shall not be entitled to receive payments if he were to terminate services with ProQuest Company prior to December 31, 2003 for any reason, including resignation, termination, death or disability.

In the event of a change of control of the Company, Mr. Roemer would be entitled to an accelerated calculation of performance under the arrangement.

In addition, the first \$3,000,000 earned of the mirror cash payment element was considered compensation for Mr. Roemer's efforts in completing the divestiture of the Company's Imaging division.

Of the options to purchase 385,000 shares of ProQuest common stock granted to Mr. Roemer in May 1995, 154,000 shares are currently exercisable and 77,000 have expired. Mr. Roemer previously exercised his option to purchase and sold the remaining 154,000 shares granted in May 1995. Mr. Roemer was also granted stock options in February 1998 for 250,000 shares, all of which are vested and 100,000 shares in February 1999, all of which are vested. With respect to all option grants to Mr. Roemer, if he were to leave the Company for reasons other than disability or death before any of the respective vesting dates, he would forfeit his right to all unvested shares. As a director of bigchalk.com, inc., Mr. Roemer was granted an option to purchase shares of bigchalk. Mr. Roemer exercised this option and purchased 20,833 shares of bigchalk. As a Director of MotorcycleWorld.com (MCW), Mr. Roemer was granted an option to purchase 75,000 shares of MCW, all of which are currently exercisable.

In determining Mr. Roemer's 2002 compensation, the Compensation Committee has focused on his ability to enhance the long-term value of the Company. During his tenure with ProQuest, Mr. Roemer has been a leader in the revitalization of the Company and its transformation into a provider of technological solutions within a number of market segments. Mr. Roemer's total compensation is based on both ProQuest's recent performance and his contributions to the overall long-term strategy and financial strength of the Company.

The foregoing report on executive compensation is provided by the following members of the Compensation Committee during 2001:

William E. Oberndorf (Chairman), David Bonderman and Gary L. Roubos

Except for Mr. Roemer's options, these options have a ten year term and become exercisable in 33.3% annual increments commencing on the first anniversary of the date of the grant. The exercise price is equal to the fair market value of the shares covered by each option on the date each option was granted.

The value of the options has not been discounted to reflect present values. These amounts are not intended to forecast possible future appreciation, if any, of ProQuest's stock price.
- (6) These options contain a replacement option feature. When the option's exercise price is paid (or, in the case of a non-qualified stock option, when the option's exercise price or the withholding taxes resulting on exercise of that option are paid) with shares of ProQuest's common stock, a replacement option is granted for the number of shares used to make that payment. The replacement option has an exercise price equal to the fair market value of ProQuest's common stock on the date the replacement option is granted, is exercisable in full six months after the date of grant, and has a term expiring on the expiration date of the original option.

SUPPLEMENTAL RETIREMENT PLAN

The ProQuest Company Supplemental Retirement Plan (SRP) was amended effective December 31, 2000, to prohibit the entry of any new participants, and to restrict current participants from earning any additional credited service under the plan after December 31, 2000, except for Mr. Roemer and certain other named executives who had accrued benefits under the plan. As of the end of the 2001 fiscal year, Mr. Roemer is the only active participant continuing to accrue a benefit under the SRP.

The SRP provides certain officers and employees with additional pension benefits upon retirement to supplement social security and the benefits provided under the ProQuest Company Profit Sharing Retirement Plan (PSRP) and the ProQuest Company Replacement Benefit Plan (RBP). The SRP provides for lifetime monthly pension payments which generally equals: (i) a percentage of the participant's average monthly compensation during the highest paid four years of the participant's last six years of employment (the actual percentage is determined by length of service, but cannot exceed 50%) less; and (ii) the sum of the monthly amounts which are attributable to the Company's contribution payable under the PSRP and RBP and as primary social security benefits. If a participant is involuntarily terminated other than for cause and has been a plan participant for at least five years or he voluntarily terminates his employment and has been an employee for at least ten years and a plan participant for at least five years, he will be entitled to deferred SRP payments calculated as if his termination date were his retirement date. The estimated credited years of service at the end of fiscal 2001 for Mr. Roemer is 10 years. The Company estimates that the annual SRP benefits which have accrued through the end of fiscal 2001 and would be payable upon retirement at age 60 to Mr. Roemer is \$216,000.

The Company estimates that the following annual benefits would be payable upon retirement at or after age 60 (participants may elect to receive reduced benefits beginning at age 55) to persons in the following specified participation levels, compensation and year-of-service classifications (these calculations take into account amounts which are estimated to be received under the Company's PSRP and RBP and as social security benefits):

PROPOSAL 2. APPROVAL OF AMENDMENTS TO 1995 STOCK OPTION PLAN

In May 1995, the shareholders approved the ProQuest Company 1995 Stock Option Plan (the Option Plan). The Company is presently authorized to issue 3,660,000 shares of Common Stock upon the exercise of options granted under the Option Plan. As of fiscal year end 2001, 391,054 shares of Common Stock were available for future grants under the Option Plan. As of March 16, 2002 and after Board approval of the annual stock option grants, 102,654 shares of Common Stock are available for future grants under the Option Plan.

The purpose of the Option Plan is to increase shareholder value and maintain an entrepreneurial spirit within the Company by providing significant capital accumulation opportunities to the Company's officers and other key employees. The Board believes that the number of shares remaining available for issuance will be insufficient to achieve the purpose of the Option Plan unless additional shares are authorized. The Board has approved an increase in the number of shares of the Company's Common Stock reserved under the Option Plan by 1,400,000 shares. The Board has also approved an amendment which would place a limit of 500,000 shares on the number of shares subject to stock options that can be granted to any participant during any fiscal year of the Company. This limit is necessary to permit the Company to avoid the Internal Revenue Code Section 162(m) limitation on deductibility of compensation relating to stock options. The Board believes that the adoption of this proposal is in the best interest of the Company for the reasons discussed below.

The following is only a summary of the Option Plan and is qualified in its entirety by reference to the Option Plan. A copy of the Option Plan as proposed to be amended may be obtained upon written request to Todd W. Buchardt, General Counsel and Secretary, ProQuest Company, 300 N. Zeeb Road, Ann Arbor, MI 48103.

Description of the Plan

As initially approved in May 1995, the Option Plan reserved 2,160,000 of the Company's Common Stock for issuance pursuant to stock options to be granted under the Option Plan. In 1998, an additional 1,500,000 shares were approved by the shareholders. The proposed amendment, if adopted, would increase the number of shares reserved for issuance under the Option Plan by 1,400,000 shares.

The Compensation Committee of the Board of Directors (comprised entirely of non-employee directors) has been delegated the authority to grant incentive stock options and/or nonqualified stock options under the Option Plan to officers and other key employees of the Company and to generally exercise all authority of the Board under the Option Plan.

Because the officers and employees of the Company who may participate and the amount of their options are determined by the Compensation Committee in its discretion, it is not possible to state the names or positions of, or the number of options that may be granted to, the Company's officers and employees.

The Compensation Committee will establish the time or times at which options may be exercised and whether all of the options may be exercisable at one time or in increments over time. The option price or procedure for setting the option price shall be established by the Compensation Committee at the time of the granting of an option, but shall not be less than 100% of the fair market value of the Company's Common Stock on the date of grant. The Compensation Committee has the discretion to make equitable adjustments in the option price or other outstanding terms of any stock option in appropriate circumstances. In the event of stock dividends, splits, and similar capital changes, the Option Plan provides for appropriate adjustments in the number of shares available for options and the number and option prices of shares subject to outstanding options.

The term of each option shall be no more than ten years from the date of grant. In the event of termination of employment, options shall terminate at such times and upon such conditions as the Compensation Committee shall, in its discretion, set forth in the option grant at the date of grant.

Table of Contents

The purchase price of the options shall be in cash or, in the discretion of the Committee, by the delivery (or certification of ownership) of shares of the Company's Common Stock then owned by the participant or by delivering an exercise notice together with instructions to a broker to deliver to the Company the sale or loan proceeds to pay the exercise price. The Company shall be entitled to withhold the amount of any tax attributable to any shares delivered under the Option Plan or the Compensation Committee may, in its discretion, elect to withhold shares of Common Stock from the option exercised having a fair market value equal to the amount to be withheld.

In the event of a change of control of the Company, including among other things, any person or entity owning, directly or indirectly, 50% of the securities of the Company, or a sale, lease or other transfer of all or substantially all of the assets of the Company or a subsidiary or a merger, share exchange, consolidation or other combination with another corporation and as a result less than 50% of the outstanding securities of the resulting corporation are owned in the aggregate by the former shareholders of the Company or a subsidiary, all outstanding stock options shall become immediately exercisable, whether vested or unvested.

The Compensation Committee, in its discretion, has the right to substitute, on an equitable basis, options in connection with any merger, consolidation, acquisition or reorganization.

The Option Plan may be amended, suspended or discontinued by the Board, except with respect to stock options granted prior to such action. Notwithstanding the foregoing, no change to the Option Plan requiring shareholder approval under Section §16 of the Securities Exchange Act of 1934 shall be made without shareholder approval.

The issuance of shares of Common Stock upon the exercise of options is subject to registration with the Securities and Exchange Commissions of the shares reserved by the Company under the Option Plan.

Federal Income Tax Information

Incentive Stock Options. An optionee who is granted an incentive stock option does not generally recognize taxable income at the time the option is granted or upon its exercise, although the exercise may subject the optionee to the alternative minimum tax. Upon a disposition of the shares more than two years after grant of the option and one year after exercise of the option, any gain or loss is treated as long-term capital gain or loss. If these holding periods are not satisfied, the optionee recognizes ordinary income at the time of disposition equal to the difference between the exercise price and the lower of (i) the fair market value of the shares at the date of the option exercise or (ii) the sale price of the shares. Any gain or loss recognized on such a premature disposition of the shares in excess of the amount treated as ordinary income is treated as long-term or short-term capital gain or loss, depending on the holding period. A different rule for measuring ordinary income upon such a premature disposition may apply if the optionee is an officer, director, or 10% stockholder of the Company. The Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee.

Nonqualified Stock Options. An optionee does not recognize any taxable income at the time he or she is granted a nonqualified stock option. Upon exercise, the optionee recognizes taxable income generally by the excess of the then fair market value of the shares over the exercise price. Any taxable income recognized in connection with an option exercise by an employee of the Company is subject to tax withholding by the Company. The Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee. Upon a disposition of such shares by the optionee, any difference between the sale price and the optionee's exercise price, to the extent not recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period.

The closing price of the Company's Common Stock as reported on the New York Stock Exchange on March 15, 2002 was \$37.46.

Shareholders are being requested at the meeting to approve the amendments to the Option Plan. The Board recommends a vote FOR approval of the Proposal.

The Audit Committee, in carrying out its role, relies on the Company's senior management, including senior financial management, and its independent accountants.

We have reviewed and discussed with senior management the Company's audited financial statements included in the 2001 Annual Report to Shareholders. Management has confirmed to us that such financial statements (i) have been prepared with integrity and objectivity and are the responsibility of management and, (ii) have been prepared in conformity with accounting principles generally accepted in the United States of America.

We have discussed with KPMG LLP, our independent accountants, the matters required to be discussed by Statement of Auditing Standards (SAS) No. 61, Communications with Audit Committee. SAS No. 61 requires our independent accountants to provide us with additional information regarding the scope and results of their audit of the Company's financial statements, including with respect to (i) their responsibility under auditing standards generally accepted in the United States of America, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant audit adjustments, (v) any disagreements with management, and (vi) any difficulties encountered in performing the audit.

We have received from KPMG LLP a letter providing the disclosures required by Independence Standards Board Standard No. 1 Independence Discussions with Audit Committees with respect to any relationships between KPMG LLP and the Company that in their professional judgement may reasonably be thought to bear on independence. KPMG LLP has discussed its independence with us, and has confirmed in such letter that, in its professional judgment, it is independent of the Company within the meaning of the federal securities laws.

Based on the review and discussions described above with respect to the Company's audited financial statements included in the Company's 2001 Annual Report to Shareholders, we have recommended to the Board of Directors that such financial statements be included in the Company's Annual Report on Form 10-K for filing with the Securities and Exchange Commission.

As specified in the Audit Committee Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with accounting principles generally accepted in the United States of America. That is the responsibility of management and the Company's independent accountants. In giving our recommendation to the Board of Directors, we have relied on (i) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with accounting principals generally accepted in the United States of America, and (ii) the report of the Company's independent accountants with respect to such financial statements.

INDEPENDENT ACCOUNTANTS

The Company's certified public accountants for fiscal 2001 were KPMG LLP and that firm has been selected as the Company's accountants for fiscal 2002. Such accounting firm is expected to have a representative at the Annual Meeting of Shareholders and will be available to respond to appropriate questions at that time and have an opportunity to make a statement if they desire to do so.

Audit Fees

For 2001, KPMG LLP billed an aggregate of \$364,800 for professional services rendered for the audit of ProQuest's 2001 financial statements and the review of ProQuest's financial statements included in the quarterly reports on Securities and Exchange Commission Form 10-Q filed by ProQuest in 2001.

Financial Information Systems Design and Implementation Fees

There were no fees billed by the Company's independent accounts for financial information systems design and implementation services.

All Other Fees

The aggregate fees for other services that KPMG LLP rendered in 2001 were \$365,968, including audit related services of \$335,733 and tax services of \$30,235. Audit related services include fees for pension plan and statutory audits, business acquisitions and divestitures, accounting consultations and SEC registration statements.

The Audit Committee has advised the Company that it has determined that the non-audit services rendered by the Company's independent accountants during the Company's most recent fiscal year are compatible with maintaining the independence of such accountants.

Attendance at Annual Meeting

A representative from KPMG LLP will be available to respond to any appropriate questions at the Annual Meeting of Shareholders.

PROPOSAL 3. RATIFICATION OF KPMG LLP AS AUDITORS

The Board of Directors shall appoint annually a firm of independent public accountants to serve as auditors and that such appointment is being submitted for ratification by the shareholders at the Annual Meeting. The Board has appointed KPMG LLP to act as auditors for the current year. This firm has served as ProQuest's auditors since 1989. The Board of Directors recommends a vote for ratification of the selection of KPMG LLP as independent public accountants for 2002. Regardless of the vote of the shareholders, the Board's decision to appoint KPMG LLP as the Company's auditors for this year will not be changed, but the Board will consider the vote of the shareholders in selecting independent accountants to serve as the Company's outside auditors in future years.

SHAREHOLDER PROPOSALS FOR 2003

Under the rules of the Securities and Exchange Commission, shareholder proposals submitted for next year's Proxy Statement must be received by ProQuest no later than the close of business on December 13, 2002, to be considered. Proposals should be addressed to Todd W. Buchardt, General Counsel and Secretary at ProQuest Company, 300 N. Zeeb Road, Ann Arbor, Michigan, 48103. For a shareholder to bring other business before the Annual Meeting, but not have it included in the proxy statement, timely notice must be submitted in

Table of Contents

writing, delivered or mailed by first class mail, postage prepaid, to the Secretary of the Company not less than 45 days prior to the month and day of mailing of the prior year's Proxy Statement. The notice must identify the proposing shareholder and his/her address and contain a description of the proposed business and such other information as would be required to determine the appropriateness of including the proposal in the Proxy Statement.

VOTING

A) VOTING SECURITIES

Shareholders of record at the close of business on March 16, 2002 will be eligible to vote at the meeting. The voting securities of ProQuest consist of its common stock, of which 24,155,967 were outstanding on March 16, 2002. Each share outstanding on the record date will be entitled to one vote.

Individual votes of shareholders are kept private, except as appropriate to meet legal requirements. Access to proxies and other individual share owner voting records is limited to the Independent Inspectors of Election (Bank Boston, c/o Boston EquiServe, L.P.) and certain employees of ProQuest and its agents who must acknowledge in writing their responsibility to comply with this policy of confidentiality.

B) VOTE REQUIRED FOR APPROVAL

The nominees for Director receiving a plurality of the votes cast at the meeting in person or by proxy shall be elected. All other matters which may be presented at the meeting require the favorable vote of a majority of shares represented and voted at the meeting for approval. Abstentions and broker non-votes will not be treated as votes cast and, therefore, will have no effect on the outcome of the election of directors but will have the effect of a vote against all other proposals to be voted on at the meeting.

C) MANNER FOR VOTING PROXIES

The shares represented by all valid proxies received will be voted in the manner specified on the proxies. Where specific choices are not indicated, the shares represented by all valid proxies received will be voted **for** the nominees for director named earlier in this Proxy Statement.

Although the Board knows of no matter other than the election of directors which may be presented to the meeting, should any other matter need to be acted upon at the meeting the persons named on the proxy card will vote in accordance with their judgment.

D) VOTING ON THE INTERNET OR VIA TELEPHONE

Again this year, registered holders (i.e., those shareholders who hold stock in their own names and whose shares are not held by a broker in a street name on their behalf, or whose shares are not held under the ProQuest Associate Stock Purchase Plan) will be able to vote their proxies over the Internet or by telephone. **Specific Instructions for Voting on the Internet or by telephone are included on the enclosed Proxy Card.**

SOLICITATION OF PROXIES

Proxies may be solicited on behalf of the Board of Directors by mail, telephone, telegraph, or in person, and solicitation costs will be paid by ProQuest. Copies of proxy material and of the Form 10-K for 2001 will be supplied to brokers, dealers, banks, and voting trustees, or their nominees, for the purpose of soliciting proxies from beneficial owners. ProQuest will reimburse such record holders for their reasonable expenses.
