Annex A to Form 12b-25

PART III NARRATIVE

The Registrant's accounting and finance personnel have been principally engaged in providing substantial data and support to the Registrant's efforts to reduce its debt and improve its capital structure. Because the Registrant had experienced a decline in business performance over the course of fiscal 2002, and is attempting to restructure its capital structure, it was deemed appropriate to perform the annual goodwill

impairment test pursuant to the application of Statement of Financial Accounting Standards ("SFAS") No. 142 "Goodwill and Intangible Assets" at a point in time closer to year-end. Therefore, the Registrant's finance personnel needed to update projected cash flow models for use in the SFAS 142 impairment analyses. The decline in business performance and related restructuring activities also impact the assessment of the recoverability of deferred tax assets. Accordingly, the timely preparation of the Annual Report on Form 10-K has been adversely affected by the effort and time required for the Registrant to update the projected cash flow models and conduct such analyses and assessments. As a result, the Registrant is unable to complete and timely file the Registrant's Annual Report on Form 10-K for the fiscal year ended September 30, 2002, without unreasonable effort and expense.

PART IV OTHER INFORMATION

(3) The Registrant cannot currently provide final earnings results for the fiscal year ended September 30, 2002, since it has completed neither its analysis of the application of SFAS No. 142 "Goodwill and Intangible Assets" to certain of the Registrant's identifiable reporting units nor the reassessment of the recoverability of deferred tax assets. However, the Registrant estimates that its consolidated net income for the fiscal year ended September 30, 2002, prior to any charges related to these two analyses, would be approximately \$16 million to \$20 million as compared to net income of \$24.6 million for the fiscal year ended September 30, 2001. The Registrant estimates that charges related to the impairment of goodwill under SFAS 142, on an after-tax basis, will be approximately \$350 million to \$700 million (including both the cumulative effect of adopting SFAS 142 at October 1, 2001, as well as operating charges associated with the Registrant's annual impairment assessment at September 1, 2002) and that charges related to valuation reserves with respect to recoverability of deferred tax assets will be approximately \$150 million to \$250 million. All of the foregoing amounts in this paragraph are unaudited.
