**FIRST DATA ANNOUNCES \$0.39 EARNINGS PER SHARE AND 15% REVENUE GROWTH**

DENVER, April 10, 2003 First Data Corp. (NYSE: FDC), today reported 15% revenue growth in the first quarter to \$2.0 billion. Earnings per share (EPS) of \$0.39 grew 22% from first quarter 2002 recurring EPS of \$0.32 and 26% from reported EPS of \$0.31. Cash flow from operations and free cash flow both were reflective of the high quality of earnings.

"I am very excited about announcing another exceptional quarter and about our recently announced pending merger with Concord," said Charlie Fote, chairman and chief executive officer. "Our 29,000 employees remain keenly focused on current market conditions and opportunities. The momentum of the past several quarters, along with the solid first quarter results, sets the stage for another successful year."

On the pending merger with Concord, Fote noted the combination will create the premier electronic transaction company that will benefit all constituents in the payments system while serving an increasingly diverse customer base.

(Refer to the Financial Measures section below for the definition of recurring operations.)

***Business Segment Highlights***

**Payment Services**, comprised largely of Western Union, achieved first quarter revenue growth of 19% to \$853 million. Profit margins improved to 33% from 32% a year ago, and operating profits were \$281 million, a 22% increase over first quarter 2002. Expanding and diversifying global distribution, aggressively supporting the Western Union brand, and extending Western Union branded product offerings remain the key drivers of success for Western Union.

Western Union's ability to make available world-class product offerings through its far-reaching distribution network has delivered strong transaction growth for yet another quarter. In the first quarter, consumer-to-consumer money transfer transactions, which account for nearly 80% of Western Union's money transfer revenue, grew 23%, including 33% growth in Mexico. Consumer-to-business transactions grew 11%. Prepaid services transactions grew 43%.

Western Union continued its strong international performance, achieving transaction growth of 28% and revenue growth of 27% in the quarter. Forty-nine of the top 50 countries had positive

---

revenue and transaction growth. The agent network rollout in India and China remains on plan. Western Union finished the quarter with 17,000 locations in these two countries.

Western Union ended the quarter with approximately 159,000 worldwide locations, a 28% increase compared with first quarter 2002, after adding 8,000 new agent locations in the first quarter. Included in that total is the rollout of the Australia Post, which added about 3,000 new locations.

With the accelerated add rate and the current backlog of more than 20,000 locations, Western Union will finish the year at or above its target of 180,000 locations. Renewals were signed with Delhaize America and The Kroger Co., which will add an additional 1,500 Western Union locations at these two customers alone.

**Card Issuing Services** posted revenues of \$524 million, a 16% year-over-year growth primarily due to increased print, mail and plastics outsourcing business including the related reimbursable postage. As anticipated, operating profits of \$76 million continued to decline as a result of decreasing sub-prime business, additional depreciation and amortization expense resulting from the recently completed system redesign, and increased investments in international markets.

During the quarter, two clients' accounts were converted. The focus throughout the year will remain on converting approximately 37 million accounts from the pipeline, which now stands at nearly 90 million. The pipeline has increased by several million additional GE accounts.

**Merchant Services** grew revenue 12% for the first quarter to \$697 million. Operating profits rose 8% to \$154 million. Merchant processing transactions grew 23%. The first quarter adoption of Financial Accounting Standards Board Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," negatively affected revenue and operating profit growth on a year-over-year basis by 0.8% and 3.6%, respectively.

In the international arena, First Data continues to capitalize on its strengths and opportunities as evidenced by three recently signed agreements: a long-term revenue sharing alliance with one of Europe's leading card transaction processors, HBOS PLC; a new long-term agreement with Scotiabank to provide credit card processing services in 19 countries across the Caribbean and Central America; and the acquisition of German-based TeleCash Kommunikations-Service GmbH, which closed at the end of March, adding to First Data's ability to enable international merchants to accept a variety of electronic payment types through a network of point-of-sale terminals.

**Emerging Payments**, First Data's eONE Global business, reported \$37 million in revenue during the quarter. First Data continues to invest in its eONE Global business, which is centered around government and mobile payments, and includes govONE Solutions, GovConnect, Taxware, Encorus Technologies and BillingZone.

#### ***Other Highlights***

During the quarter, the company repurchased 3.2 million shares of its stock for \$107 million at an average price of \$33.21 per share under the repurchase program authorized by the company's board of directors. The remaining authorization for stock repurchases is approximately \$355 million. The company expects to continue to repurchase its stock under the stock repurchase program when the economics justify its use of cash and when allowable under applicable regulations.

#### ***Financial Measures***

As noted earlier, EPS of \$0.39 grew 26% on a reported basis and 22% on a recurring operations. Results from recurring operations are non-GAAP (generally accepted accounting principles) measures and should be viewed in addition to, and not in lieu of, the company's reported results. Reconciliations to comparable GAAP measures are available in the accompanying schedules and in the "Invest"

## Edgar Filing: CONCORD EFS INC - Form 425

section of the company's web site at [www.firstdata.com](http://www.firstdata.com). Recurring operations exclude the cumulative effect of a change in accounting principle and the results of divested and discontinued businesses; restructuring, impairment, significant litigation and regulatory settlement charges; and divestiture and non-operating investment gains and losses, as detailed in the accompanying schedules. Recurring operations enhance the understanding of the company's performance by providing comparative results that exclude certain items that are not indicative of normal, recurring operating trends.

### ***Conference Call and Webcast***

First Data will hold a conference call today at 8:00 a.m. EDT to discuss the company's first quarter financial performance. - (a) In the third quarter of 2002, the Company acquired a majority interest in three merchant alliances, Huntington Merchant Services, Wachovia Merchant Services and Wells Fargo Merchant Services. Revenues and expenses have been retroactively restated back to January 1, 2002 to reflect the merchant alliances, which were previously accounted for under the equity method of accounting, as consolidated subsidiaries.
- (b) The items excluded from recurring operations in 2003 represent \$0.1 million in investment losses. The items excluded from recurring operations in 2002 consist of \$8.9 million in restructuring charges and \$5.7 million in investment losses. Minority interest associated with these charges totaled \$1.7 million.
- (c) In March 2002, the Company's Board of Directors declared a 2-for-1 stock split of the Company's common stock to be effected in the form of a stock dividend. Shareholders of record on May 20, 2002 received one share of the Company's common stock for each share owned. The distribution of the shares occurred after the close of business on June 4, 2002. All share and per share amounts for 2002 have been retroactively restated for all periods to reflect the impact of the stock split.
- (d) Adjustments for items included in segment operations represent items that are included in segment revenues but are excluded from total revenues on the Consolidated Statements of Income.
- (e) Excludes equity losses that were recorded in expense of \$0.9 million for the three months ended March 31, 2003 and the amortization related to the excess of the investment balance over the Company's proportionate share of the investee's net book value for 2003 and 2002.
- (f) Represents elimination of adjustment to record payment services revenues on a pre-tax equivalent basis and elimination of intersegment revenue.
- (g) Segment operating profit includes interest income, minority interest and equity earnings in affiliates net of related amortization expense and the allocation of corporate overhead. Segment operating profit excludes items discussed in note (b) above and interest expense.
- (h) Adjustments for items included in segment operating profit represent items that are included in segment operating profit but are excluded from "Income before income taxes, minority interest and equity earnings in affiliates" on the Consolidated Statements of Income.
- (i) Minority interest from segment operations excludes minority interest attributable to items excluded from segment operations.
- (j) Primarily represents elimination of adjustment to record payment services profits on a pre-tax equivalent basis.

NM = Not meaningful.
