IMPORTANT NOTICE REGARDING DELIVERY OF SHAREHOLDER DOCUMENTS

The Securities and Exchange Commission permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

EATON VANCE, OR YOUR FINANCIAL ADVISER, MAY HOUSEHOLD THE MAILING OF YOUR DOCUMENTS INDEFINITELY UNLESS YOU INSTRUCT EATON VANCE, OR YOUR FINANCIAL ADVISER, OTHERWISE.

If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

The Fund will file a schedule of its portfolio holdings on Form N-Q with the Securities and Exchange Commission (the "SEC") for the first and third quarters

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

of each fiscal year. The Fund's Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Fund or Portfolio voted proxies relating to portfolio securities during the 12 month period ended June 30 without charge, upon request, by calling 1-800-262-1122. This description is also available on the Securities and Exchange Commission's website at <http://www.sec.gov>.

EATON VANCE FLOATING-RATE INCOME TRUST as of November 30, 2004
MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

THE TRUST

We are pleased to welcome shareholders with this initial shareholder report.

PERFORMANCE FOR THE PERIOD ENDED NOVEMBER 30, 2004

- Based on the Trust's November 2004 monthly dividend of \$0.094 and a closing share price of \$18.92, the Trust had a market yield of 5.96%.⁽¹⁾ The Trust's market yield represented a yield advantage over many other income-producing vehicles during the period.
- Based on share price (traded on the New York Stock Exchange), the Trust had a total return of 0.95% for the period from inception on June 29, 2004 through November 30, 2004. That return was the result of a decrease in share price from \$19.10 on June 29, 2004 to \$18.92 on November 30, 2004 and the reinvestment of \$0.361 in regular monthly dividends.⁽²⁾
- Based on net asset value, the Trust had a total return of 1.80% for the period from inception on June 29, 2004 through November 30, 2004. That return was the result of a decrease in net asset value per share from \$19.10 on June 29, 2004 to \$19.08 on November 30, 2004, and the reinvestment of all distributions.⁽²⁾
- For performance comparison, the S&P/LSTA Leveraged Loan Index had a return of 1.88% for the period from June 30, 2004 through November 30, 2004.⁽³⁾

THE TRUST'S INVESTMENTS

- The Trust is a closed-end fund and trades on the New York Stock Exchange. The Trust's investment objective is to provide a high level of current income. The Trust will, as a secondary objective, also seek preservation of capital to the extent consistent with its primary goal of high current income. The Trust invests primarily in senior, secured floating rate loans. The Trust also employs leverage in the form of Auction Preferred Shares.⁽⁴⁾
- The Trust's senior floating-rate loan investments included 279 borrowers, ranging across 45 industries at November 30, 2004. The Trust's average loan size was just 0.30% of loan assets (based on net assets), and no industry constituted more than 11.0% of the Trust's loan investments. Telecommunications, health care, containers and glass products, chemicals and plastics and leisure goods and activities were the Trust's largest loan industry weightings.*

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

- The Federal Reserve raised its Federal Funds rate - a short-term interest rate benchmark - five times from June 30 through 2004 year-end. With their interest rate reset provisions, floating-rate loans have historically generated higher income in response to rising short-term rates.
- Due to improving fundamentals and strong technical factors in the loan market, loan credit spreads for new issues narrowed and prices averaged above-par in the secondary market. These trends have increased the importance of diligent credit risk-management.
- The Trust's high-yield corporate bond holdings constituted 13.6% of its net assets at November 30, 2004 (8.6% of total investments). This component provided a yield enhancement for the Trust and performed well during the past year.
- At November 30, 2004, the Trust had leverage in the amount of approximately 38% of the Trust's total assets. The Trust uses leverage through the issuance of auction preferred shares. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

* Holdings and sector weightings are subject to change due to active management.

PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS. RETURNS ARE HISTORICAL AND ARE CALCULATED BY DETERMINING THE PERCENTAGE CHANGE IN NET ASSET VALUE OR SHARE PRICE (AS APPLICABLE) WITH ALL DISTRIBUTIONS REINVESTED. INVESTMENT RETURN AND PRINCIPAL VALUE WILL FLUCTUATE SO THAT SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. PERFORMANCE IS FOR THE STATED TIME PERIOD ONLY; DUE TO MARKET VOLATILITY, THE TRUST'S CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE QUOTED RETURN.

THE VIEWS EXPRESSED IN THIS REPORT ARE THOSE OF THE PORTFOLIO MANAGERS AND ARE CURRENT ONLY THROUGH THE END OF THE PERIOD OF THE REPORT AS STATED ON THE COVER. THESE VIEWS ARE SUBJECT TO CHANGE AT ANY TIME BASED UPON MARKET OR OTHER CONDITIONS, AND EATON VANCE DISCLAIMS ANY RESPONSIBILITY TO UPDATE SUCH VIEWS. THESE VIEWS MAY NOT BE RELIED ON AS INVESTMENT ADVICE AND, BECAUSE INVESTMENT DECISIONS FOR AN EATON VANCE FUND ARE BASED ON MANY FACTORS, MAY NOT BE RELIED ON AS AN INDICATION OF TRADING INTENT ON BEHALF OF ANY EATON VANCE FUND.

EATON VANCE FLOATING-RATE INCOME TRUST as of November 30, 2004
NOTES TO FINANCIAL STATEMENTS (Unaudited)

1 SIGNIFICANT ACCOUNTING POLICIES

Eaton Vance Floating-Rate Income Trust (the Trust) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Trust, which was organized as a Massachusetts business trust on April 28, 2004, seeks to provide a high level of current income. The Trust will, as a secondary objective, also seek preservation of capital to the extent consistent with its primary goal of high current income. The Trust pursues its objectives by investing primarily in senior, secured floating rate loans (Senior Loans). The following is a summary of significant accounting policies of the Trust. The policies are in conformity with accounting principles generally accepted in the United States of America.

A INVESTMENT VALUATION -- Certain senior loans are deemed to be liquid if reliable market quotations are readily available for them. Liquid Senior Loans are valued on the basis of prices furnished by a pricing service. Other Senior Loans are valued at fair value by the Trust's investment adviser, Eaton Vance Management (EVM), under procedures established by the Trustees as permitted by Section 2(a)(41) of the Investment Company Act of 1940. Such procedures include the consideration of relevant factors, data and information relating to fair value, including (i) the characteristics of and fundamental analytical data relating to the Senior Loan, including the cost, size, current interest rate, period until next interest rate reset, maturity and base lending rate of the Senior Loan, the terms and conditions of the Senior Loan and any related agreements, and the position of the Senior Loan in the Borrower's debt

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the Borrower, based on an evaluation of its financial condition, financial statements and information about the Borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the Senior Loan including price quotations for and trading in the Senior Loan, and interests in similar Senior Loans and the market environment and investor attitudes towards the Senior Loan and interests in similar Senior Loans; (v) the experience, reputation, stability and financial condition of the agent and any intermediate participant in the Senior Loan; and (vi) general economic and market conditions affecting the fair value of the Senior Loan. Other portfolio securities (other than short-term obligations, but including listed issues) may be valued on the basis of prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities which may use market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. In certain circumstances, portfolio securities will be valued at the last sale price on the exchange that is the primary market for such securities, or the average of the last quoted bid price and asked price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales during the day. Marketable securities listed in the NASDAQ National Market System are valued at the NASDAQ official closing price. The value of swaps will be based on dealer quotations. Short-term obligations which mature in 60 days or less, are valued at amortized cost, if their original term to maturity when acquired by the Trust was 60 days or less or are valued at amortized cost using their value on the 61st day prior to maturity, if their original term to maturity when acquired by the Trust was more than 60 days, unless in each case this is determined not to represent fair value. OTC options are valued at the mean between bid and asked price provided by dealers. Financial futures contracts listed on commodity exchanges and exchange traded options are valued at closing settlement prices. Securities for which there is no such quotation or valuation are valued at fair value using methods determined in good faith by or at the direction of the Trustees. Repurchase agreements are valued at cost plus accrued interest. Other portfolio securities for which there are no quotations or valuations are valued at fair value as determined in good faith by or on behalf of the Trustees.

B INCOME -- Interest income from Senior Loans is recorded on the accrual basis at the then-current interest rate, while all other interest income is determined on the basis of interest accrued, adjusted for amortization of premium or accretion of discount. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities.

C FEDERAL TAXES -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary.

D INVESTMENT TRANSACTIONS -- Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that

when-issued or delayed delivery purchases are outstanding, the Trust instructs the custodian to segregate assets in a separate account, with a current value at

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

least equal to the amount of its purchase commitments.

E OFFERING COSTS -- Costs incurred by the Trust in connection with the offering of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

F EXPENSE REDUCTION -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Trust maintains with IBT. All credit balances used to reduce the Trust's custodian fees are reported as a reduction of expenses on the Statement of Operations.

G WRITTEN OPTIONS -- Upon the writing of a call or a put option, an amount equal to the premium received by the Trust is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the option written in accordance with the Trust's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Trust. The Trust, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

H PURCHASED OPTIONS -- Upon the purchase of a call or put option, the premium paid by the Trust is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Trust's policies on investment valuations discussed above. If an option which the Trust has purchased expires on the stipulated expiration date, the Trust will realize a loss in the amount of the cost of the option. If the Trust enters into a closing sale transaction, the Trust will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If the Trust exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Trust exercises a call option, the cost of the security which the Trust purchases upon exercise will be increased by the premium originally paid.

I FINANCIAL FUTURES CONTRACTS -- Upon entering into a financial futures contract, the Trust is required to deposit an amount (initial margin) either in cash or securities equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Trust (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying securities, and are recorded for book purposes as unrealized gains or losses by the Trust.

If the Trust enters into a closing transaction, the Trust will realize, for book purposes, a gain or loss equal to the difference between the value of the financial futures contract to sell and the financial futures contract to buy. The Trust's investment in financial futures contracts is designed only to hedge against anticipated future changes in interest rates. Should interest rates move unexpectedly, the Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

J REVERSE REPURCHASE AGREEMENTS -- The Trust may enter into reverse repurchase agreements. Under such an agreement, the Trust temporarily transfers possession, but not ownership, of a security to a counterparty, in return for cash. At the same time, the Trust agrees to repurchase the security at an agreed-upon price

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

and time in the future. The Trust may enter into reverse repurchase agreements for temporary purposes, such as to Trust withdrawals, or for use as hedging instruments where the underlying security is denominated in a foreign currency. As a form of leverage, reverse repurchase agreements may increase the risk of fluctuation in the market value of the Trust's assets or in its yield. Liabilities to counterparties under reverse repurchase agreements are recognized in the Statement of Assets and Liabilities at the same time at which cash is received by the Trust. The securities underlying such agreements continue to be treated as owned by the Trust and remain in the Portfolio of Investments. Interest charged on amounts borrowed by the Trust under reverse repurchase agreements is accrued daily.

K TOTAL RETURN SWAPS -- The Trust may enter into swap agreements to hedge against fluctuations in securities prices, interest rates or market conditions; to change the duration of the overall portfolio; or to mitigate default risk. Pursuant to these agreements, the Trust makes monthly payments at a rate equal to a predetermined spread to the one-month LIBOR. In exchange, the Trust receives payments based on the rate of return of a benchmark

23

industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Payments received or made at the end of the measurement period are recorded as realized gains and losses. The value of the swap is determined by changes in the relationship between the rate of interest and the benchmark industry index. The Trust is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Trust does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates or the index.

L CREDIT DEFAULT SWAPS -- The Trust may enter into credit default swap contracts for risk management purposes, including diversification. When the Trust is the buyer of a credit default swap contract, the Trust is entitled to receive the par (or other agreed-upon) value of a referenced debt obligation from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign corporate issuer, on the debt obligation. In return, the Trust would pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Trust would have spent the stream of payments and received no benefit from the contract. When the Trust is the seller of a credit default swap contract, it receives the stream of payments, but is obligated to pay upon default of the referenced debt obligation. As the seller, the Trust would effectively add leverage to its portfolio because, in addition to its total net assets, the Trust would be subject to investment exposure on the notional amount of the swap. The Trust will segregate assets in the form of cash and cash equivalents in an amount equal to the aggregate market value of the credit default swaps of which it is the seller, marked to market on a daily basis. These transactions involve certain risks, including the risk that the seller may be unable to fulfill the transaction.

M USE OF ESTIMATES -- The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

N INDEMNIFICATIONS -- Under the Trust's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Trust, and shareholders are

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

indemnified against personal liability for obligations of the Trust. Additionally, in the normal course of business, the Trust enters into agreements with service providers that may contain indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

O OTHER -- Investment transactions are accounted for on the date the securities are purchased or sold.

P INTERIM FINANCIAL STATEMENTS -- The interim financial statements relating to November 30, 2004 and for the period then ended have not been audited by an independent registered public accounting firm, but in the opinion of the Trust's management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

2 AUCTION PREFERRED SHARES

The Trust issued 3,480 shares of Auction Preferred Shares (APS) Series A, 3,480 shares of Auction Preferred Shares (APS) Series B, 3,480 shares of Auction Preferred Shares (APS) Series C, 3,480 shares of Auction Preferred Shares (APS) Series D, and 3,480 shares of Auction Preferred Shares (APS) Series E on September 16, 2004 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends on the APS Series A, Series B, and Series C, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividends on the APS Series D and Series E, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 28 days thereafter by an auction. Dividend rates ranged from 1.60% to 2.18% for Series A shares, 1.75% to 2.07% for Series B shares, 1.75% to 2.07% for Series C shares, 1.85% to 2.20% for Series D shares, and 1.85% to 2.125% for Series E shares.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the

24

common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws and the Investment Company Act of 1940. The Trust pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 DISTRIBUTION TO SHAREHOLDERS

The Trust intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding Auction Preferred Shares. In addition, at least annually, the Trust intends to distribute net capital gain, if any. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the Auction Preferred Shares

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

is generally seven or twenty-eight days. The applicable dividend rate for the Auction Preferred Shares on November 30, 2004 was 2.18%, 2.07%, 2.07%, 2.20%, and 2.125%, for Series A, Series B, Series C, Series D, and Series E Shares, respectively. For the period ended November 30, 2004, the Trust paid dividends to Auction Preferred shareholders amounting to \$344,416, \$351,887, \$354,828, \$358,861 and \$354,628 for Series A, Series B, Series C, Series D, and Series E Shares, respectively, representing an average APS dividend rate for such period of 1.890%, 1.917%, 1.911%, 1.993%, and 1.955%, respectively.

The Trust distinguishes between distributions on a tax basis and a financial reporting basis. Accounting principals generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital. These differences relate primarily to the method for amortizing premiums.

4 INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

EVM serves as the administrator of the Trust, but currently receives no compensation for providing administrative services to the Trust. The investment adviser fee is earned by Eaton Vance Management (EVM), as compensation for management and investment advisory services rendered to the Trust. Under the advisory agreement, EVM receives a monthly advisory fee in the amount equal to 0.75% annually of average daily gross assets of the Trust. For the period from the start of business, June 29, 2004 to November 30, 2004, the advisory fee amounted to \$2,875,682.

In addition, the Adviser has contractually agreed to reimburse the Trust for fees and other expenses in the amount of 0.20% of the average daily gross assets of the Trust for the first five full years of the Trust's operations, 0.15% of average daily gross assets in year six, 0.10% in year seven and 0.05% in year eight. For the period from the start of business, June 29, 2004 to November 30, 2004 the Investment Adviser waived \$766,848 of its advisory fee. In addition, the Adviser has agreed to reimburse the Trust for all organizational costs, estimated at \$7,500.

During the period from the start of business, June 29, 2004 to November 30, 2004, the Trust engaged in purchase and sale transactions with other trusts that also utilize EVM as an investment adviser. These purchase and sale transactions complied with Rule 17a-7 under the Investment Company Act of 1940 and amounted to \$36,940,673 and \$10,500,00, respectively.

Certain officers and Trustees of the Trust are officers of the above organization.

5 PURCHASES AND SALES OF INVESTMENTS

Purchases and sales of investments, other than short-term obligations and including paydowns, aggregated \$1,661,249,409 and \$549,129,314 respectively, for the period from the start of business, June 29, 2004, to November 30, 2004.

6 COMMON SHARES OF BENEFICIAL INTEREST

The Agreement and Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares of beneficial interest. Transactions in common shares were as follows:

Gross unrealized appreciation	\$ 7,205,878
Gross unrealized depreciation	(1,995,264)
<hr/>	
NET UNREALIZED APPRECIATION	\$ 5,210,614

8 OVERDRAFT ADVANCES

Pursuant to the custodian agreement between the Trust and Investors Bank & Trust (the Bank), the Bank may in its discretion advance funds to the Trust to make properly authorized payments. When such payments result in an overdraft by the Trust, the Trust is obligated to repay the Bank at the current rate of interest charged by the Bank for secured loans (currently, a rate above the federal funds rate). This obligation is payable on demand to the Bank. At November 30, 2004, the Trust's payment due to the Bank pursuant to the foregoing arrangement was \$2,548,432.

9 FINANCIAL INSTRUMENTS

The Trust may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include written options and financial futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

At November 30, 2004, the Trust had entered into a Credit Default Swap with Lehman Brothers Special Financing, Inc. dated September 24, 2004 whereby the Trust will receive 2.30% per year times the notional amount of \$4,000,000. The Trust makes payment only upon a default event on underlying loan assets (50 in

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

total, each representing 2.30% of the notional value of the swap). At November 30, 2004, the Trust had sufficient cash segregated to cover potential obligations arising from open swap contracts.

26

EATON VANCE FLOATING-RATE INCOME TRUST DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have distributions reinvested in common shares (the Shares) of the Trust. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Trust's transfer agent, PFPC, Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC, Inc., at 1-800-331-1710.

ITEM 6. SCHEDULE OF INVESTMENTS

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the

Edgar Filing: Eaton Vance Floating-Rate Income Trust - Form N-CSR/A

upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board of the Fund except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its

shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies guidelines when it believes the situation warrants such a deviation. The Policy includes voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the Fund voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 [is/will be] available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.
