Preliminary Prospectus Supplement dated November 9, 2010

**PROSPECTUS SUPPLEMENT** (To Prospectus dated October 8, 2010)

## 10,000,000 Shares

## **Common Stock**

We are offering for sale 10,000,000 shares of our common stock.

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments.

We are externally managed by Ares Capital Management LLC, an affiliate of Ares Management LLC, a global alternative asset manager and a Securities and Exchange Commission ("SEC") registered investment adviser with approximately \$37 billion of total committed capital under management as of September 30, 2010. Ares Operations LLC, an affiliate of Ares Management LLC, provides the administrative services necessary for us to operate.

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." On November 8, 2010, the last reported sales price of our common stock on The NASDAQ Global Select Market was \$17.25 per share. The net asset value per share of our common stock at September 30, 2010 (the last date prior to the date of this prospectus supplement on which our board of directors determined net asset value) was \$14.43.

Investing in our common stock involves risks that are described in the "Risk Factors" section beginning on page 25 of the accompanying prospectus, including the risk of leverage.

This prospectus supplement and the accompanying prospectus concisely provide important information about us that you should know before investing in our common stock. Please read this prospectus supplement and the accompanying prospectus before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at <a href="https://www.arescapitalcorp.com">www.arescapitalcorp.com</a>. The SEC also maintains a website at <a href="https://www.arescapitalcorp.com">www.arescapitalcorp.com</a>. The SEC also maintains a this prospectus supplement and the accompanying prospectus.

#### FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus supplement and the accompanying prospectus constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this prospectus supplement involve a number of risks and uncertainties, including statements concerning:

our, or our portfolio companies', future business, operations, operating results or prospects;
the return or impact of current and future investments;
the impact of a protracted decline in the liquidity of credit markets on our business;
the impact of fluctuations in interest rates on our business;
the impact of changes in laws or regulations governing our operations or the operations of our portfolio companies;
the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
our ability to successfully integrate our business with the business of Allied Capital Corporation;
our ability to recover unrealized losses;
our ability to successfully invest any capital raised in this offering;
market conditions and our ability to access alternative debt markets and additional debt and equity capital;
our contractual arrangements and relationships with third parties;
the general economy and its impact on the industries in which we invest;
the financial condition of and ability of our current and prospective portfolio companies to achieve their objectives;
our expected financings and investments;
our ability to successfully integrate any acquisitions;

the adequacy of our cash resources and working capital;

the timing, form and amount of any dividends or distributions;

the timing of cash flows, if any, from the operations of our portfolio companies; and

the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as "anticipates," "believes," "expects," "intends," "will," "should," "may" and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Our actual results and condition could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth in "Risk Factors" in the accompanying prospectus and the other information included in this prospectus supplement or the accompanying prospectus.

The forward-looking statements included in this prospectus supplement and the accompanying prospectus have been based on information available to us as of their respective dates, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events

## Table of Contents

or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

The forward-looking statements in this prospectus supplement and the accompanying prospectus are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act").

S-2

#### THE COMPANY

This summary highlights some of the information contained elsewhere in this prospectus supplement and the accompanying prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its consolidated subsidiaries; "Ares Capital Management" or "the investment adviser" refers to Ares Capital Management LLC; "Ares Operations" refers to Ares Operations LLC; and "Ares" refers to Ares Partners Management Company LLC and its affiliated companies (other than portfolio companies of its affiliated funds), including Ares Management LLC, which we refer to separately as "Ares Management."

As described in more detail below, we consummated the acquisition (the "Allied Acquisition") of Allied Capital Corporation ("Allied Capital") on April 1, 2010. Other than as set forth in the pro forma financial information or otherwise specifically set forth herein or the accompanying prospectus, financial information presented herein and in the accompanying prospectus for and as of periods ended on or prior to March 31, 2010 does not include any information in respect of Allied Capital. In addition, other than as set forth in the pro forma financial information or otherwise specifically set forth herein or the accompanying prospectus, financial information for the nine months ended September 30, 2010, including, without limitation, with respect to the Company's consolidated statements of operations, stockholders' equity and cash flows, only includes results attributable to Allied Capital for the period beginning on April 1, 2010.

#### **Ares Capital**

Ares Capital, a Maryland corporation, is a specialty finance company that is a closed-end, non-diversified management investment company. We have elected to be regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, or the "Investment Company Act." We were founded on April 16, 2004, were initially funded on June 23, 2004 and completed our initial public offering on October 8, 2004. We are one of the largest BDCs with approximately \$12 billion of total committed capital under management as of September 30, 2010, including available debt capacity (subject to leverage restrictions), funds managed or co-managed by us or one of our wholly owned subsidiaries and funds managed or sub-managed by our wholly owned portfolio company, Ivy Hill Asset Management, L.P. ("IHAM").

Ares Capital's investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive. However, we may from time to time invest in larger companies. In this prospectus supplement, we generally use the term "middle market" to refer to companies with annual EBITDA between \$10 million and \$250 million. As used herein, EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

On April 1, 2010, we consummated the Allied Acquisition in an all stock merger whereby each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock. The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital's then-existing stockholders, thereby resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company. For a description of the risks that the Company may face as a result of the Allied Acquisition, see in the accompanying prospectus "Risk Factors" Risks Relating to Our Business. We may be unable to realize the benefits anticipated by the Allied Acquisition, including estimated cost savings and synergies, or it may take longer than anticipated to achieve such benefits."

#### **Table of Contents**

We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. These loans also have the benefit of security interests on the assets of the portfolio company, which may rank ahead of or be junior to other security interests. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments have ranged between \$20 million and \$200 million each, although the investment sizes may be more or less than the targeted range. Our investment sizes are expected to grow with our capital availability.

To a lesser extent, we also make equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent loan investment). However, we may increase the size or change the nature of these investments. Also, as a result of the Allied Acquisition, Allied Capital's equity investments, including equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to actively seek opportunities over time to dispose of certain of these non-yielding equity investments, as well as lower or non-yielding debt investments acquired as part of the Allied Acquisition (i.e., the legacy Allied Capital portfolio) and rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. As of April 1, 2010, the investments comprising the legacy Allied Capital portfolio had a fair value of approximately \$1.8 billion and a total weighted average yield at fair value of approximately 9.1%, including approximately \$769 million at fair value of lower or non-yielding debt and equity securities with an aggregate weighted average yield at fair value of 1.2% and approximately \$1.1 billion at fair value of higher-yielding debt and collateralized loan obligation securities with an aggregate weighted average yield of 14.8%. Since April 1, 2010 through September 30, 2010, we have decreased the assets comprising the legacy Allied Capital portfolio by approximately \$153 million, primarily as a result of payoffs and exits of approximately \$261 million, offset by an increase in net unrealized appreciation in the portfolio of approximately \$67 million, and other increases of approximately \$40 million due to fundings of revolving and other commitments of \$23 million, payment-in-kind interest and accretion of purchase discounts. As of September 30, 2010, the remaining investments in the legacy Allied Capital portfolio had a fair value of approximately \$1.7 billion and a total weighted average yield at fair value of approximately 9.9%. including approximately \$600 million at fair value of lower or non-yielding debt and equity investments with an aggregate weighted average yield at fair value of 1.6% and approximately \$1.1 billion at fair value of higher-yielding debt and collateralized loan obligation investments with an aggregate weighted average yield of 14.5%. The total fair value of investments on non-accrual status in the legacy Allied Capital portfolio has decreased by approximately \$128 million, from approximately \$336 million at fair value as of April 1, 2010 to approximately \$208 million at fair value as of September 30, 2010. Ares Capital intends to continue its strategy of rotating and repositioning a portion of the legacy Allied Capital portfolio, with a focus on reducing our holdings of lower and non-yielding investments and investments on non-accrual, over time. However, there can be no assurance that this strategy will be successful. For risks relating to our equity investments, see in the accompanying prospectus "Risk Factors Risks Relating to Our Investments Investments in equity securities involve a substantial degree of risk."

The proportion of these investments will change over time given our views on, among other things, the economic and credit environment we are operating in. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In such situations, while we may initially agree to fund up to a certain dollar amount of an investment, we may syndicate a portion of such amount to third parties, such that we make a smaller investment than what was reflected in our original commitment.

#### Table of Contents

The first and second lien senior loans in which we invest generally have stated terms of three to 10 years and the mezzanine debt investments in which we invest generally have stated terms of up to 10 years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, we may invest in loans and securities with any maturity or duration. The instruments that we invest in typically are not initially rated by any rating agency, but we believe that if such instruments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's). We may invest without limit in debt or other securities of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage Ares' current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investments. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares has been in existence for more than 12 years and its senior principals have an average of over 20 years experience investing in senior loans, high yield bonds, mezzanine debt and private equity securities. The Company has access to the Ares staff of approximately 140 investment professionals and approximately 190 administrative professionals who provide assistance in accounting, finance, legal, compliance, operations, information technology and investor relations.

Since our inception on October 8, 2004 through September 30, 2010, our realized gains have exceeded our realized losses by \$13.8 million (excluding the one-time gain on the Allied Acquisition and gains/losses from the extinguishment of debt). For this same time period, our portfolio exits have resulted in an aggregate cash flow realized internal rate of return to us of approximately 14% on original cash invested of \$2.5 billion and total proceeds from such exits of \$2.9 billion. Approximately 81% of the exits resulted in an aggregate cash flow internal rate of return to us of 10% or greater. Internal rate of return is the discount rate that makes the net present value of all cash flows related to a particular investment equal to zero. Internal rate of return is gross of expenses related to investments as these expenses are not allocable to specific investments. Investments are considered to be exited when the original investment objective has been achieved through the receipt of cash and/or non-cash consideration upon the repayment of our debt investment or sale of an investment or through the determination that no further consideration was collectible and, thus, a loss may have been realized. These internal rate of return results are historical results relating to our past performance and are not necessarily indicative of future results, the achievement of which cannot be assured.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies, we also may invest up to 30% of our portfolio in opportunistic investments of non-eligible portfolio companies. Specifically, as part of this 30% basket, we may invest in debt of middle-market companies located outside of the United States, in investment funds that are operating pursuant to certain exceptions to the Investment Company Act, in advisers to similar investment funds and in debt and equity of public companies that do not meet the definition of eligible portfolio companies because their market capitalization of publicly traded equity securities exceeds the levels provided for in the Investment Company Act. We expect that these public companies generally will have debt that may be non-investment grade. From time to time we may also invest in high yield bonds, which, depending on the issuer, may or may not be included in this 30% basket.

We and GE Commercial Finance Investment Advisory Services LLC ("GE") also co-manage an unconsolidated senior debt fund, the Senior Secured Loan Fund LLC, or the "Senior Secured Loan Program." The Senior Secured Loan Program was initially formed in December 2007 to invest in "unitranche" loans (loans that combine both senior and subordinated debt, generally in a first lien

#### **Table of Contents**

position) of middle-market companies and currently has approximately \$3.6 billion of total committed capital, approximately \$2.0 billion in aggregate principal amount of which was funded as of September 30, 2010. At September 30, 2010, the Company's total commitment to the Senior Secured Loan Program was \$0.5 billion, of which \$98 million was unfunded. The Senior Secured Loan Program is capitalized as transactions are completed. Investments made by the program must be approved by both the Company and GE.

In addition, we have made investments in our portfolio company, IHAM, which manages five unconsolidated senior debt funds: Ivy Hill Middle Market Credit Fund, Ltd. ("Ivy Hill I"), Ivy Hill Middle Market Credit Fund II, Ltd. ("Ivy Hill II"), Ivy Hill Senior Debt Fund, L.P. and related vehicles ("Ivy Hill SDF" and, together with Ivy Hill I and Ivy Hill II, the "Ivy Hill Funds"), Knightsbridge CLO 2007-1, Ltd. and Knightsbridge CLO 2008-1, Ltd. In addition, IHAM serves as the sub-adviser/sub-manager for four others: CoLTS 2005-1 Ltd., CoLTS 2005-2 Ltd., CoLTS 2007-1 Ltd. and FirstLight Funding I, Ltd. As of September 30, 2010, IHAM had total committed capital under management of over \$2.7 billion, which includes approximately \$0.3 billion of capital committed by Ares Capital.

We also manage an unconsolidated fund, AGILE Fund I, LLC (the "AGILE Fund"), and our wholly owned subsidiary A.C. Corporation manages three unconsolidated loan funds: Emporia Preferred Funding I, Ltd., Emporia Preferred Funding II, Ltd. and Emporia Preferred Funding III, Ltd. As of September 30, 2010, A.C. Corporation managed approximately \$1.2 billion of committed capital. In August 2010, the Company made an incremental cash investment of approximately \$8 million in IHAM to facilitate IHAM's acquisition of an equity interest in Emporia Preferred Funding III, Ltd.

#### **About Ares**

Founded in 1997, Ares is a global alternative asset manager and SEC registered investment adviser with approximately \$37 billion of total committed capital under management and over 330 employees as of September 30, 2010.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the origination, acquisition and management of senior loans, high yield bonds, mezzanine debt and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle-market companies. Ares has the ability to invest across a capital structure, from senior floating rate debt to common equity. This flexibility, combined with Ares' "buy and hold" philosophy, enables Ares to structure an investment to meet the specific needs of a company rather than the less flexible demands of the public markets.

Ares is comprised of the following groups:

**Private Debt Group.** The Ares Private Debt Group manages the assets of Ares Capital, Ares Credit Strategies Fund II, L.P., Ares Credit Strategies Fund III, L.P. and Ares' private debt middle market financing business in Europe, Ares Capital Europe ("ACE"), which together had approximately \$13 billion of committed capital under management as of September 30, 2010. The Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt, which in some cases may include an equity component. The Private Debt Group also makes equity investments in private middle-market companies, usually in conjunction with loans.

**Capital Markets Group.** The Ares Capital Markets Group managed approximately \$18 billion of committed capital as of September 30, 2010 through a variety of funds and investment vehicles, focusing primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

#### **Table of Contents**

**Private Equity Group.** The Ares Private Equity Group managed approximately \$6 billion of committed capital as of September 30, 2010, primarily through Ares Corporate Opportunities Fund L.P., Ares Corporate Opportunities Fund II, L.P. and Ares Corporate Opportunities Fund III, L.P. (collectively referred to as "ACOF"). ACOF generally makes private equity investments in amounts substantially larger than the private equity investments anticipated to be made by Ares Capital. In particular, the Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior principals have been working together as a group for many years and have an average of over 20 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a large team of highly disciplined professionals. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and high net worth individuals investing in Ares' funds.

#### **Ares Capital Management**

Ares Capital Management, our investment adviser, is served by a dedicated origination and transaction development team of approximately 72 investment professionals led by the senior partners of Ares Capital Management: Michael Arougheti, Eric Beckman, Kipp deVeer, Mitchell Goldstein and Michael Smith. Ares Capital Management leverages off of Ares' entire investment platform and benefits from the significant capital markets, trading and research expertise of all of Ares' investment professionals. Ares has over 140 investment professionals covering current investments in approximately 1,000 companies across over 30 industries. Ares Capital Management's investment committee has nine members, including the senior partners of Ares Capital Management and senior partners in Ares' Capital Markets and Private Equity Groups and ACE.

## **Recent Developments**

On October 21, 2010, we issued \$200 million of senior unsecured notes that mature on October 15, 2040 (the "2040 Notes") and may be redeemed in whole or in part at our option at any time or from time to time on or after October 15, 2015 at a par redemption price of \$25 per security plus accrued and unpaid interest. The principal amount of the 2040 Notes will be payable at maturity. The 2040 Notes bear interest at a rate of 7.75% per year payable quarterly commencing on January 15, 2011. Total proceeds from the issuance of the 2040 Notes, net of underwriters' discount and offering costs, were approximately \$193 million. We used the net proceeds of this offering to repay outstanding indebtedness under our senior secured revolving credit facility (as amended and restated, the "Revolving Credit Facility").

As of November 3, 2010, we had made new investment commitments of \$128 million, all of which were funded, since September 30, 2010. Of these new investment commitments, 61% were in investments in subordinated notes of the Senior Secured Loan Program, 29% were in first lien senior secured debt, 2% were in second lien senior secured debt, and 8% were in equity securities. Of the \$128 million of new investment commitments, 66% were fixed rate with a weighted average yield at amortized cost of 15.2% and 31% were floating rate with a weighted average spread at amortized cost of 6.2%.

As of November 3, 2010, we had exited \$146 million of investments since September 30, 2010. Of these investments, 33% were in first lien senior secured debt, 37% were in senior subordinated debt, 17% were in second lien senior secured debt and 13% were in equity investments. Of the \$146 million of investments exited, 30% were in fixed rate investments with a weighted average yield at

#### **Table of Contents**

amortized cost of 17.4%. Of the remaining investments, 54% were in floating rate investments with a weighted average spread at amortized cost of 6.7%, 3% were investments on non-accrual status and 13% were non-interest earning. Also, of the \$146 million of investments exited since September 30, 2010, \$66 million were investments acquired as part of the Allied Acquisition, including \$4 million that were on non-accrual status. Additionally, we have recognized net realized gains of approximately \$19 million on the investments exited that were acquired as part of the Allied Acquisition.

In addition, as of November 3, 2010, we had an investment backlog and pipeline of \$180 million and \$310 million, respectively. We may syndicate a portion of these investments and commitments to third parties. The consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. We cannot assure you that we will make any of these investments or that we will syndicate any portion of such investments and commitments.

We are in the process of changing transfer agents and expect that The Bank of New York Mellon ("BNY Mellon") will replace Computershare Trust Company, N.A. ("Computershare") as our transfer agent, dividend paying agent, registrar and dividend plan administrator in December. Upon any such change, all references in the accompanying prospectus to the transfer agent, dividend paying agent, registrar or dividend plan administrator, or to Computershare, acting in its capacity as such, shall be deemed to be references to BNY Mellon.

#### **Our Corporate Information**

Our administrative offices are located at 2000 Avenue of the Stars, 12th Floor, Los Angeles, California 90067, telephone number (310) 201-4200, and our executive offices are located at 280 Park Avenue, 22nd Floor, Building East, New York, New York 10017, telephone number (212) 750-7300.

#### FEES AND EXPENSES

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear, directly or indirectly, based on the assumptions set forth below. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus supplement or the accompanying prospectus contains a reference to fees or expenses paid or to be paid by "you," "us," "the Company" or "Ares Capital," or that "we" will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

Sales load paid by us	4.50%(1
Offering expenses borne by us	0.34%(2)
Dividend reinvestment plan expenses	None (3
Total stockholder transaction expenses paid by us	4.84%
Estimated annual expenses (as a percentage of consolidated net assets attributable to common stock)(4):	
Management fees	2.23%(5
ncentive fees payable under investment advisory and management agreement (20% of realized capital gains and 20% of	
ore-incentive fee net investment income, subject to certain limitations)	2.48%(6
Interest payments on borrowed funds	3.30%(7
Other expenses	2.30%(8
Acquired fund fees and expenses	0.01%(9
Total annual expenses (estimated)	10.32%(1

- (1)

  The underwriting discounts and commissions with respect to the shares sold in this offering, which is a one-time fee, is the only sales load paid in connection with this offering.
- (2) Amount reflects estimated offering expenses of approximately \$0.7 million and based on the 10,000,000 shares offered in this offering (assuming that the underwriters do not exercise their overallotment option).
- (3) The expenses of the dividend reinvestment plan are included in "other expenses."
- "Consolidated net assets attributable to common stock" equals our average net assets for the nine months ended September 30, 2010 plus the anticipated net proceeds from this offering (assuming that the underwriters do not exercise their overallotment option).

  Because the Allied Acquisition was consummated on April 1, 2010 and because we calculate consolidated net assets attributable to common stock as a monthly average based on the period from January 1, 2010 to September 30, 2010, the consolidated net assets attributable to common stock used to calculate the amounts shown in this table are significantly lower than our net assets as of September 30, 2010.
- Our management fee is currently 1.5% of our total assets other than cash and cash equivalents (which includes assets purchased with borrowed amounts). For the purposes of this table, we have assumed that we maintain no cash or cash equivalents. The 2.23% reflected on the table is calculated on our average net assets (rather than our total assets). See "Management Investment Advisory and Management Agreement" in the accompanying prospectus.
- This item represents our investment adviser's incentive fees based on annualizing actual amounts earned on our pre-incentive fee net income for the nine months ended September 30, 2010 and assumes that the incentive fees earned at the end of the 2010 calendar year will be based on the

#### **Table of Contents**

actual realized capital gains as of September 30, 2010, computed net of realized capital losses and unrealized capital depreciation. Because the Allied Acquisition was consummated on April 1, 2010 and because we calculate our incentive fee earned on our pre-incentive fee net income by annualizing our pre-incentive fee net income for the period from January 1, 2010 to September 30, 2010, this percentage is slightly lower than what we anticipate it would have been had we consummated the Allied Acquisition on January 1, 2010. It also assumes that this fee will remain constant although it is based on Ares Capital's performance and will not be paid unless Ares Capital achieves certain goals.

We expect to invest or otherwise utilize all of the net proceeds from this offering within three months of the date of this offering and may have capital gains and interest income that could result in the payment of an incentive fee to our investment adviser in the first year after completion of this offering. Since our inception, the average quarterly incentive fee payable to our investment adviser has been approximately 0.63% of our weighted net assets (2.5% on an annualized basis). For more detailed information about incentive fees previously incurred by us, please see Note 3 to our consolidated financial statements for the period ended September 30, 2010.

The incentive fee consists of two parts:

The first, payable quarterly in arrears, equals 20% of our pre-incentive fee net investment income (including interest that is accrued but not yet received in cash), subject to a 2.00% quarterly (8% annualized) hurdle rate and a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, our investment adviser receives no incentive fee until our net investment income equals the hurdle rate of 2.00% but then receives, as a "catch-up," 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50%. The effect of this provision is that, if pre-incentive fee net investment income exceeds 2.50% in any calendar quarter, our investment adviser will receive 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply.

The second part, payable annually in arrears, equals 20% of our realized capital gains on a cumulative basis from inception through the end of the year, if any, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees.

We will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 8.0% of our net assets at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases.

See "Management Investment Advisory and Management Agreement" in the accompanying prospectus.

"Interest payments on borrowed funds" represents an estimate of our annualized interest expenses based on actual interest and credit facility expenses incurred for the nine months ended September 30, 2010. Because the Allied Acquisition was consummated on April 1, 2010 and because we calculate our interest expenses by annualizing our actual interest and credit facility expenses incurred for the period from January 1, 2010 to September 30, 2010, this percentage is slightly lower than what we anticipate it would have been had we consummated the Allied Acquisition on January 1, 2010. During the nine months ended September 30, 2010, our average borrowings were \$1,474.2 million and cash paid for interest expense was \$39.4 million. We had outstanding borrowings of \$1,583.4 million (with a carrying value of \$1,524.2 million) at

S-10

#### **Table of Contents**

September 30, 2010. This item is based on our assumption that our borrowings and interest costs after this offering will remain similar to those prior to this offering. The amount of leverage that we employ at any particular time will depend on, among other things, our board of directors and investment adviser's assessment of market and other factors at the time of any proposed borrowing. See "Risk Factors Risks Relating to Our Business We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us" in the accompanying prospectus.

- Includes our overhead expenses, including payments under our administration agreement with Ares Operations based on our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement. Such expenses are estimated based on annualized "Other expenses" for the nine months ended September 30, 2010 (other than \$17.8 million of professional fees and other costs related to the Allied Acquisition, which are included in "Other expenses" but not annualized). Because the Allied Acquisition was consummated on April 1, 2010 and because we calculate our "Other expenses" by annualizing our actual other expenses (other than \$17.8 million of professional fees and other costs related to the Allied Acquisition, which are included in "Other expenses" but not annualized) incurred for the period from January 1, 2010 to September 30, 2010, this percentage is slightly lower than what we anticipate it would have been had we consummated the Allied Acquisition on January 1, 2010. See "Management Administration Agreement" in the accompanying prospectus. The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses.
- The Company's stockholders indirectly bear the expenses of underlying investment companies in which the Company invests. This amount includes the fees and expenses of investment companies in which the Company is invested as of September 30, 2010. Certain of these investment companies are subject to management fees, which generally range from 1% to 2.5% of total net assets, or incentive fees, which generally range between 15% to 25% of net profits. When applicable, fees and expenses are based on historic fees and expenses for the investment companies. For those investment companies with little or no operating history, fees and expenses are based on expected fees and expenses stated in the investment companies' offering memorandum, private placement memorandum or other similar communication without giving effect to any performance. Future fees and expenses for these investment companies may be substantially higher or lower because certain fees and expenses are based on the performance of the investment companies, which may fluctuate over time. The amount of the Company's average net assets used in calculating this percentage was based on average monthly net assets of \$2.0 billion for the nine months ended September 30, 2010.
- "Total annual expenses" as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage and increase our total assets. The SEC requires that the "Total annual expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period), rather than the total assets, including assets that have been funded with borrowed monies.

#### **Example**

The following example demonstrates the projected dollar amount of total cumulative expenses over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that we would have no additional leverage, that none of

#### Table of Contents

our assets are cash or cash equivalents, and that our annual operating expenses would remain at the levels set forth in the table above. Transaction expenses are not included in the following example.

	1 y	ear	3 y	years	5	years	10	years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual								
return(1)	\$	80	\$	234	\$	378	\$	702

The above illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation. The expenses you would pay, based on a \$1,000 investment and assuming a 5% annual return resulting entirely from net realized capital gains (and therefore subject to the capital gain incentive fee), and otherwise making the same assumptions in the example above, would be: 1 year, \$90; 3 years, \$262; 5 years, \$422; and 10 years, \$775. However, cash payment of the capital incentive fee would be deferred if during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) was less than 8.0% of our net assets at the beginning of such period (as adjusted for any share issuances or repurchases).

The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the investment advisory and management agreement, which, assuming a 5% annual return, would either not be payable or have an insignificant impact on the expense amounts shown above, is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, if our board of directors authorizes and we declare a cash dividend, participants in our dividend reinvestment plan who have not otherwise elected to receive cash will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" in the accompanying prospectus for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses as actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

#### SELECTED CONDENSED CONSOLIDATED FINANCIAL DATA OF ARES CAPITAL

The following selected financial and other data for the years ended December 31, 2009, 2008, 2007, 2006 and 2005 are derived from our consolidated financial statements, which have been audited by KPMG LLP, an independent registered public accounting firm whose report thereon is included elsewhere in the accompanying prospectus. The selected financial and other data for the nine months ended September 30, 2010 and 2009 and other quarterly financial information are derived from our unaudited financial statements, but in the opinion of management, reflect all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results as of and for the nine months ended September 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. The data should be read in conjunction with our consolidated financial statements and notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities," which are included elsewhere in this prospectus supplement or the accompanying prospectus.

# UNAUDITED SELECTED PRO FORMA CONDENSED CONSOLIDATED STATEMENTS OF OPERATIONS

The following tables set forth unaudited pro forma condensed consolidated statements of operations for Ares Capital and Allied Capital as a consolidated entity. The unaudited pro forma condensed consolidated operating data for the nine months ended September 30, 2010 and for the year ended December 31, 2009 are presented as if the Allied Acquisition had been completed on January 1, 2010 and January 1, 2009, respectively. In the opinion of management, all adjustments necessary to reflect the effect of these transactions have been made. The Allied Acquisition was accounted for under the acquisition method of accounting as provided by ASC 805-10 (previously SFAS No. 141(R)), *Business Combinations*.

The unaudited pro forma condensed consolidated statements of operations should be read together with the respective historical audited and unaudited consolidated financial statements and financial statement notes of Allied Capital and Ares Capital in the accompanying prospectus. The unaudited pro forma condensed consolidated statements of operations are presented for comparative purposes only and do not necessarily indicate what the future operating results of Ares Capital will be following completion of the Allied Acquisition. The unaudited pro forma condensed consolidated statements of operations do not include adjustments to reflect any cost savings or other operational efficiencies that may be realized as a result of the Allied Acquisition or any future merger related restructuring or integration expenses.

See in this prospectus supplement "Management's Discussion and Analysis of Financial Condition and Results of Operations Allied Acquisition" for a description of the terms of the Allied Acquisition and in the accompanying prospectus "Risk Factors Risks Relating to Our Business We may be unable to realize the benefits anticipated by the Allied Acquisition, including estimated cost savings and synergies, or it may take longer than anticipated to achieve such benefits" for a description of certain risks associated with the Allied Acquisition.

#### UNAUDITED PRO FORMA PER SHARE DATA

The following selected unaudited combined pro forma per share information for the nine months ended September 30, 2010 and for the year ended December 31, 2009 reflects the Allied Acquisition and related transactions as if they had occurred on January 1, 2010 and January 1, 2009, respectively.

Such unaudited pro forma combined per share information is based on the historical financial statements of Ares Capital and Allied Capital and on publicly available information and certain assumptions and adjustments as discussed in the section entitled "Unaudited Pro Forma Condensed Consolidated Statements of Operations." This unaudited pro forma combined per share information is provided for illustrative purposes only and is not necessarily indicative of what the operating results of Ares Capital or Allied Capital would have been had the Allied Acquisition and related transactions been completed at the beginning of the periods indicated, nor are they necessarily indicative of any future operating results.

The following should be read in connection with the section entitled "Unaudited Pro Forma Condensed Consolidated Statements of Operations" and other information included in this prospectus supplement and the accompanying prospectus.

See in this prospectus supplement "Management's Discussion and Analysis of Financial Condition and Results of Operations Allied Acquisition" for a description of the terms of the Allied Acquisition and in the accompanying prospectus "Risk Factors Risks Relating to Our Business We may be unable to realize the benefits anticipated by the Allied Acquisition, including estimated cost savings and synergies, or it may take longer than anticipated to achieve such benefits" for a description of certain risks associated with the Allied Acquisition.

(1) The Allied Capital equivalent pro forma per share amount is calculated by multiplying the pro forma combined share amounts by the common stock exchange ratio of 0.325.

(2)

The cash dividends declared per share represent the actual dividends declared per share for the period presented. The pro forma combined dividends declared is the dividends per share as declared by Ares Capital.

S-18

#### USE OF PROCEEDS

We estimate that the net proceeds we will receive from the sale of 10,000,000 shares of our common stock in this offering will be approximately \$164.0 million (or approximately \$188.7 million if the underwriters fully exercise their overallotment option), in each case assuming a public offering price of \$17.25 per share, after deducting the underwriting discounts and commissions of \$7.8 million (or approximately \$8.9 million if the underwriters fully exercise their overallotment option) payable by us and estimated offering expenses of approximately \$0.7 million payable by us. The amount of net proceeds may be more or less than the amount described in this prospectus supplement depending on the public offering price of the common stock and the actual number of shares of common stock we sell in the offering, both of which will be determined at pricing.

We expect to use the net proceeds of this offering to repay outstanding indebtedness under the Revolving Credit Facility (\$169 million outstanding as of November 8, 2010). The interest charged on the indebtedness incurred under the Revolving Credit Facility is based on LIBOR (one, two, three or six month) plus an applicable spread of between 2.50% and 4.00%. As of November 8, 2010, the one, two, three and six month LIBOR were 0.25%, 0.27%, 0.29% and 0.44%, respectively, and the applicable LIBOR spread was 3.00%. The Revolving Credit Facility matures on January 22, 2013.

Affiliates of certain of the underwriters, including Merrill Lynch, Pierce, Fenner & Smith Incorporated, SunTrust Robinson Humphrey, Inc., Deutsche Bank Securities Inc., Morgan Stanley & Co. Incorporated and BMO Capital Markets Corp., are lenders under the Revolving Credit Facility and affiliates of Wells Fargo Securities, LLC are lenders under the CP Funding Facility. Accordingly, affiliates of certain of the underwriters will receive more than 5% of the proceeds of this offering which are used to repay outstanding indebtedness under our Revolving Credit Facility and which may be used to repay outstanding indebtedness under the CP Funding Facility. We intend to use any net proceeds from this offering that are not applied as described above to repay outstanding indebtedness under the CP Funding Facility (\$320.8 million outstanding as of November 8, 2010) and for general corporate purposes, which include investing in portfolio companies in accordance with our investment objective and strategies and market conditions.

Subject to certain exceptions, the interest charged on the CP Funding Facility is based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a "base rate" (which is the higher of a prime rate, or the federal funds rate plus 0.50%) plus an applicable spread of between 1.25% to 2.75%, in each case based on a pricing grid depending upon the credit rating of the Company. The effective LIBOR spread under the CP Funding Facility on November 8, 2010 was 2.75%. The CP Funding Facility is scheduled to expire on January 22, 2013 (subject to two one-year extension options exercisable upon mutual consent).

Investing in portfolio companies could include investments in our investment backlog and pipeline that as of November 3, 2010, were approximately \$180 million and \$310 million, respectively. Please note that the consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation, and there can be no guarantee that we will consummate any of these investments.

Our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies. In addition to such investments, we may invest up to 30% of our portfolio in opportunistic investments of non-eligible portfolio companies. As part of this 30%, we may invest in debt of middle-market companies located outside of the United States.

## Table of Contents

Pending such investments, we will invest a portion of the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities may earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objective. As a result, we may not be able to achieve our investment objective and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our shares may decline. See "Regulation Temporary Investments" in the accompanying prospectus for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective.

S-20

#### PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS

Our common stock trades on The NASDAQ Global Select Market under the symbol "ARCC." Our common stock has historically traded at prices both above and below its net asset value. It is not possible to predict whether the common stock offered hereby will trade at, above, or below net asset value. See "Risk Factors" Risks Relating to Offerings Pursuant to this Prospectus. Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital" in the accompanying prospectus.

The following table sets forth, for each fiscal quarter during the last two fiscal years and the current fiscal year, the net asset value per share of our common stock, the range of high and low closing sales prices of our common stock, the closing sales price as a percentage of net asset value and the dividends or distributions declared by us. On November 8, 2010, the last reported closing sales price of our common stock on The NASDAQ Global Select Market was \$17.25 per share, which represented a premium of approximately 119.5% to the net asset value per share reported by us as of September 30, 2010.

	Net Asset			Price 1	Ran	ıge	High Sales Price to Net Asset	Low Sales Price to Net Asset	Cash Dividend Per

Fourth Quarter (through November 8,									
2010)		*	\$	17.26	\$	15.64	*	*	\$ 0.35

(1)

Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low closing sales prices. The net asset values shown are based on outstanding shares at the end of the relevant quarter.

(2) Calculated as the respective high or low closing sales price divided by net asset value.

(3) Represents the dividend or distribution declared in the relevant quarter.

Net asset value has not yet been calculated for this period.

We currently intend to distribute quarterly dividends or distributions to our stockholders. Our quarterly dividends or distributions, if any, will be determined by our board of directors.

To maintain our status as a regulated investment company, or a "RIC," under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), we must timely distribute generally an amount equal to at least 90% of our investment company taxable income out of the assets legally available for distribution for each year. To avoid certain excise taxes imposed on RICs, we are generally required to distribute during each calendar year an amount at least equal to the sum of (a) 98% of our ordinary income for the calendar year, plus (b) 98% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year, plus (c) any ordinary income and capital gains for preceding years that were not distributed during such years. If this requirement is not met, we will be required to pay a nondeductible excise tax equal to 4% of the amount by which 98% of the current year's taxable income exceeds the distribution for the year. The

#### Table of Contents

excise tax is paid is generally carried forward and distributed to stockholders in the next tax year. Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year distributions into the next tax year and pay a 4% excise tax on such income, as required. For the nine months ended September 30, 2010, we recorded no amounts for U.S. Federal excise tax. Our excise tax benefit for the year ended December 31, 2009 was approximately \$0.1 million. We cannot assure you that we will achieve results that will permit the payment of any cash distributions.

We maintain an "opt out" dividend reinvestment plan for our common stockholders. As a result, if we declare a cash dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends. See "Dividend Reinvestment Plan" in the accompanying prospectus.

S-23

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the Selected Condensed Consolidated Financial Data of Ares Capital and our financial statements and notes thereto appearing elsewhere in this prospectus supplement and the accompanying prospectus.

#### **OVERVIEW**

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a BDC under the Investment Company Act. We were founded on April 16, 2004, were initially funded on June 23, 2004 and on October 8, 2004 completed our initial public offering.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component like warrants. To a lesser extent, we also make equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent loan investment). However, we may increase the size or change the nature of these investments. Also, as a result of the Allied Acquisition, Allied Capital's equity investments, including equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to actively seek opportunities over time to dispose of certain of these non-yielding equity investments, as well as lower or non-yielding debt investments acquired as part of the Allied Acquisition (i..e, the legacy Allied Capital portfolio) and rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. However, there can be no assurance that this strategy will be successful.

We are externally managed by Ares Capital Management, an affiliate of Ares Management, a global alternative asset manager and an SEC-registered investment adviser, pursuant to an investment advisory and management agreement. Ares Operations, an affiliate of Ares Management, provides the administrative services necessary for us to operate.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

The Company has elected to be treated as a RIC under Subchapter M of the Code, and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

#### **Allied Acquisition**

On April 1, 2010, we consummated the Allied Acquisition in an all stock merger whereby each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock. The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital's then-existing stockholders, thereby resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company. Accordingly, although information presented herein as of and for the three and nine months ended September 30, 2010 does include the results of operations and financial condition of the combined company, information presented herein as of and for the three and nine months ended September 30, 2009 relates solely to Ares Capital, as it existed before the Allied Acquisition.

(1) New investment commitments include new agreements to fund revolving credit facilities or delayed draw loans.

S-25

#### **Table of Contents**

- (2) Number of new investments represents each commitment to a particular portfolio company.
- When we refer to the "weighted average yield at fair value" in this prospectus supplement, we compute it with respect to particular securities by taking the (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt included in such securities, and dividing it by (b) total debt and income producing securities at fair value included in such securities. When we refer to the "weighted average yield at amortized cost" in this prospectus supplement, we compute it with respect to particular securities by taking the (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt included in such securities, and dividing it by (b) total debt and income producing securities at amortized cost included in such securities.
- (4) Excludes investments acquired as a part of the Allied Acquisition on April 1, 2010.

The investment adviser employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e. at the time of acquisition), although it may also take into account under certain circumstances the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. Under this system, investments with a grade of 4 involve the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments graded 3 involve a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3. Investments graded 2 indicate that the risk to our ability to recoup the cost of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. An investment grade of 1 indicates that the risk to our ability to recoup the cost of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is not anticipated that we will be repaid in an amount equal to our full initial cost basis. For investments graded 1 or 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company.

Each investment acquired in the Allied Acquisition was initially assessed a grade of 3 (i.e., the grade we generally assign a portfolio company at acquisition) on April 1, 2010, the date of initial acquisition, reflecting the relative risk to our initial cost basis of such investments. Ares Capital grades the investments in its portfolio each quarter and it is possible that the grade of certain of these portfolio investments may be reduced or increased over time.

Set forth below is the distribution of our portfolio companies as of September 30, 2010 and December 31, 2009 (dollar amounts in thousands).

		September 30, 2010		December 31, 2009

	\$	4,149,790	184	\$	2,171,814	95	

#### Table of Contents

As of September 30, 2010, the weighted average grade of the investments in our portfolio (excluding investments acquired in connection with the Allied Acquisition), the investments in our portfolio acquired in connection with the Allied Acquisition and the investments in our portfolio as a whole were each 3.0. The weighted average grade of the investments in our portfolio as of December 31, 2009 was 3.0.

As of September 30, 2010, non-accruing investments for the total portfolio were as follows:

2.2% of the total investments in our portfolio (excluding investments acquired in connection with the Allied Acquisition) at amortized cost (0.2% at fair value) were on non-accrual status;

5.3% of the total investments in our portfolio acquired in connection with the Allied Acquisition at amortized cost (5.0% at fair value) were on non-accrual status; and

In total, 7.5% of the total investments in our portfolio at amortized cost (or 5.2% at fair value) were on non-accrual status.

As of December 31, 2009, 2.5% of the investments in our portfolio at amortized cost (or 0.5% at fair value) were on non-accrual status.

As of June 30 and September 30, 2010, core Ares Capital investments (excluding investments acquired in connection with the Allied Acquisition) on non-accrual status were 4.0% and 3.6%, respectively, at amortized cost of the core Ares Capital portfolio (excluding investments acquired in connection with the Allied Acquisition) and 0.4% and 0.3%, respectively, at fair value.

The weighted average yields of the following portions of our portfolio as of September 30, 2010 and December 31, 2009 were as follows:

	September 30, 2010		December 31, 2009	
		Amortized	Fair	Amortized

#### RESULTS OF OPERATIONS

#### For the three and nine months ended September 30, 2010 and 2009

Operating results for the three and nine months ended September 30, 2010 and 2009 are as follows (in thousands):

	For the three months ended September 30, September 30, 2010 2009		For the nine n September 30, 2010		 hs ended eptember 30, 2009	
Total investment income	\$	138,126	\$ 60,881	\$	326,226	\$ 176,008
Total expenses		67,070	27,521		173,400	80,391
Net investment income before income taxes		71,056	33,360		152, 826	95,617
Income tax expense (benefit), including excise						
tax		(164)	454		360	563
Net investment income		71,220	32,906		152,466	95,054
Net realized gains (losses)		(350)	(1,656)		6,693	22,311
Net unrealized gains (losses)		57,507	32,026		179,911	15,698
Gain from acquisition of Allied Capital					195,876	
Net increase in stockholders' equity resulting from operations	\$	128,377	\$ 63,276	\$	534,946	\$ 133,063

Net income can vary substantially from period to period as a result of various factors, including the recognition of realized gains and losses and unrealized appreciation and depreciation. As a result, quarterly comparisons of net income may not be meaningful.

#### **Investment Income**

For the three months ended September 30, 2010, total investment income increased \$77.2 million, or 127%, to \$138.1 million from \$60.9 million for the comparable period in 2009. For the three months ended September 30, 2010, total investment income primarily consisted of \$107.8 million in interest income from investments, \$20.6 million in capital structuring service fees, \$4.4 million in management fees and \$3.9 million in dividend income. Interest income from investments increased \$50.9 million, or 90%, to \$107.8 million for the three months ended September 30, 2010 from \$56.9 million for the comparable period in 2009. The increase in interest income from investments was primarily due to the increase in investments as the average investments at fair value increased from \$2.0 billion for the three months ended September 30, 2009 to \$4.0 billion for the three months ended September 30, 2010, which was largely due to the investments acquired as part of the Allied Acquisition. Interest income from investments acquired as part of the Allied Acquisition was approximately \$46.6 million for the three months ended September 30, 2010. Capital structuring service fees earned for the three months ended September 30, 2010 were \$20.6 million as compared to no capital structuring service fees earned for the three months ended September 30, 2009. The increase in capital structuring service fees was primarily due to the increase in new investment commitments for the three months ended September 30, 2010 as compared to the three months ended September 30, 2009, Capital structuring fees for the three months ended September 30, 2010 includes sourcing fees related to the Senior Secured Loan Program of \$12.5 million. Management fees increased \$4.3 million, or 4,757%, to \$4.4 million for the three months ended September 30, 2010 from \$0.1 million for the comparable period in 2009. The increase in management fees was primarily related to \$2.5 million in management fees earned from the investments and management contracts acquired as part of the Allied Acquisition as well as \$1.8 million in management fees earned from the Senior Secured Loan Program.

#### **Table of Contents**

For the nine months ended September 30, 2010, total investment income increased \$150.2 million, or 85%, to \$326.2 million from \$176.0 million for the comparable period in 2009. For the nine months ended September 30, 2010, total investment income primarily consisted of \$273.4 million in interest income from investments, \$30.4 million in capital structuring service fees, \$10.0 million in management fees and \$7.8 million in dividend income. Interest income from investments increased \$110.2 million, or 68%, to \$273.4 million for the nine months ended September 30, 2010 from \$163.2 million for the comparable period in 2009. The increase in interest income from investments was primarily due to the increase in investments as the average investments at fair value increased from \$2.0 billion for the nine months ended September 30, 2009 to \$3.2 billion for the nine months ended September 30, 2010, which was largely due to the investments acquired as part of the Allied Acquisition. Interest income from investments acquired as part of the Allied Acquisition were approximately \$90.2 million for the nine months ended September 30, 2010. Capital structuring service fees increased \$28.6 million, or 1,546%, to \$30.4 million for the nine months ended September 30, 2010 from \$1.8 million for the comparable period in 2009. The increase in capital structuring service fees was primarily due to the increase in new investment commitments for the nine months ended September 30, 2010 as compared to the nine months ended September 30, 2009. Capital structuring fees for the nine months ended September 30, 2010 includes sourcing fees related to the Senior Secured Loan Program of \$15.1 million. Management fees increased \$7.4 million, or 273%, to \$10.1 million for the nine months ended September 30, 2010 from \$2.7 million for the comparable period in 2009. The increase in management fees was primarily related to \$5.4 million in management fees earned from the investments and management contracts acquired as part of the Allied Acquisition as well as \$3.7 million in management fees earned related to the Senior Secured Loan Program.

#### **Operating Expenses**

For the three months ended September 30, 2010, total expenses increased \$39.6 million, or 144%, to \$67.1 million from \$27.5 million for the comparable period in 2009. Interest expense and credit facility fees increased \$17.0 million, or 298%, to \$22.8 million for the three months ended September 30, 2010 from \$5.7 million for the comparable period in 2009, primarily due to the additional interest expense incurred for the three months ended September 30, 2010 on Allied Capital's publicly issued unsecured notes assumed in the Allied Acquisition (the "Unsecured Notes") of \$14.8 million. Base and incentive management fees increased \$17.5 million, or 111%, to \$33.2 million from \$15.7 million in total for the comparable period in 2009, primarily due to the increase in investments and the related interest income on those investments as a result of the Allied Acquisition, partially offset by an increase in interest expense related to the assumption of the Unsecured Notes in the Allied Acquisition.

For the nine months ended September 30, 2010, total expenses increased \$93.0 million, or 116%, to \$173.4 million from \$80.4 million for the comparable period in 2009. Interest expense and credit facility fees increased \$35.8 million, or 193%, to \$54.5 million for the nine months ended September 30, 2010 from \$18.6 million for the comparable period in 2009, primarily due to the additional interest expense incurred for the nine months ended September 30, 2010 on the Unsecured Notes assumed in the Allied Acquisition of \$29.8 million. For the nine months ended September 30, 2010, professional fees and other costs related to the Allied Acquisition increased \$15.8 million, or 794%, to \$17.8 million from \$2.0 million for the comparable period in 2009. Base and incentive management fees increased \$30.2 million, or 66%, to \$76.5 million from \$46.3 million in total for the comparable period in 2009, primarily due to the increase in investments and the related interest income on those investments as a result of the Allied Acquisition.

#### **Table of Contents**

#### **Income Tax Expense, Including Excise Tax**

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. Among other things, the Company has, in order to maintain its RIC status, made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. Federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and nine months ended September 30, 2010, the Company recorded no amounts for U.S. Federal excise tax. For the three months ended September 30, 2009, the Company recorded no amounts for U.S. Federal excise tax. For the nine months ended September 30, 2009, the Company recognized a \$0.1 million benefit for U.S. Federal excise tax.

Certain of our subsidiaries are subject to U.S. Federal and state income taxes. For the three and nine months ended September 30, 2010, we recorded a tax (benefit)/expense of \$(0.2) million and \$0.4 million, respectively, for these subsidiaries, and for the three and nine months ended September 30, 2009, we recorded tax provisions of approximately \$0.5 million and \$0.6 million, respectively, for these subsidiaries.

#### **Net Unrealized Gains/Losses**

For the three months ended September 30, 2010, the Company had net unrealized gains of \$57.5 million, which were primarily comprised of \$115.6 million in unrealized appreciation, \$59.4 million in unrealized depreciation and \$1.3 million related to the reversal of prior period net unrealized depreciation. Of the total net unrealized gains for the three months ended September 30, 2010, \$19.1 million were related to investments acquired as part of the Allied Acquisition, which were primarily comprised of \$59.3 million in unrealized appreciation, \$41.5 million in unrealized depreciation, and \$1.3 million related to the reversal of prior period net unrealized depreciation. The most significant changes in net unrealized appreciation and depreciation for the total portfolio (excluding the reversal of prior period net unrealized depreciation) during the three months ended September 30, 2010 were as follows (in millions):

#### FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Since the Company's inception, the Company's liquidity and capital resources have been generated primarily from the net proceeds of public offerings of common stock, the Debt Securitization and advances from the combined CP Funding Facility (and its predecessors) and Revolving Credit Facility, each as defined herein (together, the "Facilities"), as well as cash flows from operations. As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including the Unsecured Notes, which consist of 6.625% Notes due on July 15, 2011 (the "2011 Notes"), 6.000% Notes due on April 1, 2012 (the "2012 Notes") and 6.875% Notes due on April 15, 2047 (the "2047 Notes").

As of September 30, 2010, the Company had \$134 million in cash and cash equivalents and \$1.5 billion in total indebtedness outstanding at carrying value (\$1.6 billion at principal amount). Subject to leverage and borrowing base restrictions, the Company had approximately \$495 million

#### **Table of Contents**

available for additional borrowings under the Facilities and Debt Securitization as of September 30, 2010. As our debt comes due, we will be required to repay or refinance our outstanding indebtedness. Our repayment and refinancing of our indebtedness will be affected by the levels of our available cash, our ordinary course cash flows and a range of economic, competitive and business factors, some of which are outside our control.

We are regularly in discussions with third parties regarding potential capital-raising opportunities, both in the public debt and equity capital markets as well as in the private markets. Based on market conditions, limitations contained in our existing debt instruments and under the Investment Company Act, our capital needs, interest rate conditions, and other factors, we may from time to time seek to execute financing opportunities which our management and board of directors believes to be in the best interests of our company. Such transactions could include, among other things, debt and equity public offerings, credit facilities, funding facilities, private placements of debt and equity securities, and other transactions, with lenders, underwriters, investment companies, institutional investors, and others.

### **Equity Offerings**

The following table summarizes the total shares of common stock issued and proceeds we received in underwritten public offerings of our common stock net of underwriter, dealer-manager and offering costs for the nine months ended September 30, 2010 and 2009 (dollar amounts in millions, except per share data):

	Shares issued	Offering per sh	•	Proceeds underwriti offering	ng and
February 2010 public offering	22,957,993	\$	12.75	\$	277.0
Total for the nine months ended September 30, 2010	22,957,993			\$	277.0
August 2009 public offering	12,439,908	\$	9.25	\$	109.1
Total for the nine months ended September 30, 2009	12,439,908			\$	109.1

In addition, in connection with the closing of the Allied Acquisition, on April 1, 2010, we issued 58,492,537 shares of common stock valued at approximately \$872.7 million.

Part of the proceeds from the February 2010 and August 2009 public offerings were used to repay outstanding indebtedness. The remaining unused portions of the proceeds from these public offerings were used to fund investments in portfolio companies in accordance with our investment objective and strategies and market conditions.

As of September 30, 2010, total equity market capitalization for the Company was \$3.0 billion compared to \$1.4 billion as of December 31, 2009.

#### **Table of Contents**

#### **Debt Capital Activities**

Our debt obligations as of September 30, 2010 and December 31, 2009 consisted of the following (in millions):

	September 30, 2010 Carrying Total		Total		arrying	ber 31, 2009 Total		
CP Funding Facility	\$	7alue(1) 283.4	AVa \$	400.0	\$	Value 221.6	AV \$	ailable(2) 221.6
Revolving Credit Facility	φ	431.0	Ψ	810.0	φ	474.1	ψ	525.0

	\$	1,524.2	\$	2,101.9	\$	969.5	\$	1,221.6

- (1) Except for the Unsecured Notes, all carrying values are the same as the principal amounts outstanding.
- (2) Subject to borrowing base and leverage restrictions.
- (3)
  The CP Funding II Facility was combined with the CP Funding Facility on January 22, 2010. In connection therewith the CP Funding II Facility was terminated.
- (4)

  Represents the aggregate principal amount of the applicable series of notes less the unaccreted discount initially recorded as a part of the Allied Acquisition.

The weighted average interest rate and weighted average maturity, both on principal value, of all our outstanding borrowings as of September 30, 2010 were 4.63% and 8 years, respectively. The weighted average interest rate and weighted average maturity of all our outstanding borrowings as of December 31, 2009 were 2.05% and 3.8 years, respectively.

The ratio of total principal debt outstanding to stockholders' equity as of September 30, 2010 was 0.57:1.00 compared to 0.77:1.00 as of December 31, 2009. The ratio of total carrying value of debt to stockholders' equity as of September 30, 2010 was 0.55:1.00 compared to 0.77:1.00 as of December 31, 2009.

As required by the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of September 30, 2010, our asset coverage for borrowed amounts was 282%.

#### **CP** Funding Facilities

In October 2004, we formed Ares Capital CP Funding LLC ("Ares Capital CP"), a wholly owned subsidiary of the Company, through which we established a revolving facility (as amended, the "CP Funding Facility") that, as amended, allowed Ares Capital CP to issue up to \$350 million of variable funding certificates. On May 7, 2009, the Company and Ares Capital CP entered into an amendment that, among other things, converted the CP Funding Facility from a revolving facility to an amortizing facility, extended the maturity from July 21, 2009 to May 7, 2012 and reduced the availability from \$350 million to \$225 million.

#### **Table of Contents**

On July 21, 2009, we entered into an agreement with Wachovia Bank N.A. ("Wachovia") to establish a new revolving facility (the "CP Funding II Facility") whereby Wachovia agreed to extend credit to us in an aggregate principal amount not exceeding \$200 million at any one time outstanding. Prior to its combination with the CP Funding Facility, the CP Funding II Facility was scheduled to expire on July 21, 2012.

On January 22, 2010, we combined the CP Funding Facility with the CP Funding II Facility into a single \$400 million revolving securitized facility (the "combined CP Funding Facility"). In connection with the combination, we terminated the CP Funding II Facility and entered into an Amended and Restated Purchase and Sale Agreement with Ares Capital CP Funding Holdings LLC, our wholly owned subsidiary ("CP Holdings"), pursuant to which we may sell to CP Holdings certain loans that we have originated or acquired, or will originate or acquire from time to time, which CP Holdings will subsequently sell to Ares Capital CP, which is a wholly owned subsidiary of CP Holdings. The combined CP Funding Facility is secured by all of the assets held by, and the membership interest in, Ares Capital CP. The combined CP Funding Facility, among other things, extends the maturity date of the facility to January 22, 2013 (with two one-year extension options, subject to mutual consent). Prior to January 22, 2010, the interest rate charged on the CP Funding Facility was the commercial paper rate plus 3.50%. After January 22, 2010, subject to certain exceptions, the interest charged on the combined CP Funding Facility is based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a "base rate" (which is the higher of a prime rate, or the federal funds rate plus 0.50%) plus an applicable spread of between 1.25% to 2.75%, in each case, based on a pricing grid depending upon our credit rating. Additionally, we are required to pay a commitment fee of between 0.50% and 2.00% depending on the usage level on any unused portion of the combined CP Funding Facility. As of September 30, 2010, the effective LIBOR spread under the CP Funding Facility was 2.75%.

As of September 30, 2010, the principal amount outstanding under the combined CP Funding Facility was \$283.4 million and the Company continues to be in material compliance with all of the limitations and requirements of the CP Funding Facility. See Note 7 to our consolidated financial statements for the period ended September 30, 2010 for more detail on the combined CP Funding Facility.

#### Revolving Credit Facility

In December 2005, we entered into the Revolving Credit Facility, under which, as amended, the lenders agreed to extend credit to the Company. On January 22, 2010, we entered into an agreement to amend and restate the Revolving Credit Facility. The amendment and restatement of the Revolving Credit Facility, among other things, increased the size of the facility from \$525 million to \$690 million (comprised of \$615 million in commitments on a stand-alone basis and an additional \$75 million in commitments contingent upon the closing of the Allied Acquisition), extended the maturity date from December 28, 2010 to January 22, 2013 and modified pricing. The Revolving Credit Facility also includes an "accordion" feature that allows us, under certain circumstances, to increase the size of the facility to a maximum of \$1.05 billion. During the three months ended September 30, 2010, we exercised this "accordion" feature and increased the size of the facility by \$60 million to bring the total facility size to \$810 million. As of September 30, 2010, there was \$431.0 million outstanding under the Revolving Credit Facility and the Company continues to be in material compliance with all of the limitations and requirements of the Revolving Credit Facility.

Prior to January 22, 2010, subject to certain exceptions, pricing on the Revolving Credit Facility was based on LIBOR plus 1.00% or on an "alternate base rate" (which was the highest of a prime rate, the federal funds rate plus 0.50%, or one month LIBOR plus 1.00%). After January 22, 2010, subject to certain exceptions, pricing under the Revolving Credit Facility is based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on the "alternate base rate" plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending upon our credit

#### Table of Contents

rating. As of September 30, 2010, the effective LIBOR spread under the Revolving Credit Facility was 3.00%. See Note 7 to our consolidated financial statements for the period ended September 30, 2010 for more detail on the Revolving Credit Facility.

#### **Debt Securitization**

In July 2006, through ARCC Commercial Loan Trust 2006, a vehicle serviced by our wholly owned subsidiary, ARCC CLO 2006 LLC ("ARCC CLO"), we completed a \$400 million debt securitization (the "Debt Securitization") and issued approximately \$314 million principal amount of asset-backed notes (including revolving notes in an aggregate amount of up to \$50 million, \$27.0 million of which were drawn down as of September 30, 2010) (the "CLO Notes") to third parties that were secured by a pool of middle market loans that have been purchased or originated by the Company. The CLO Notes are included in the September 30, 2010 consolidated balance sheet. We retained approximately \$86 million of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization. During the first quarter of 2009, we repurchased \$34.8 million of additional CLO Notes, bringing our total holdings of CLO Notes to \$120.8 million (the "Retained Notes"). During the nine months ended September 30, 2010, we repaid \$96.6 million of the CLO Notes.

The CLO Notes mature on December 20, 2019 and have a blended pricing of LIBOR plus 0.35%. As of September 30, 2010, there was \$177.2 million outstanding under the Debt Securitization (excluding the Retained Notes). See Note 7 to our consolidated financial statements for the period ended September 30, 2010 for more detail on the Debt Securitization.

### Publicly Issued Unsecured Notes Payable

As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including the Unsecured Notes, which consist of the 2011 Notes, the 2012 Notes and the 2047 Notes.

	Carrying Value(1)		
2011 Notes (principal amount			
of \$300.6)	\$	294.3	
2012 Notes (principal amount of \$161.2)		157.5	
2047 Notes (principal amount		137.3	
of \$230.0)		180.8	
Total	\$	632.6	

(1) Represents the principal amount of the notes less the unaccreted discount initially recorded as a part of the Allied Acquisition.

The 2011 Notes and the 2012 Notes require payment of interest semi-annually, and all principal is due upon maturity. The Company has the option to redeem these notes in whole or in part, together with a redemption premium, as stipulated in the notes.

The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time on or after April 15, 2012, at par and upon the occurrence of certain tax events as stipulated in the notes.

In addition, the Company may purchase the Unsecured Notes in the market to the extent permitted by the Investment Company Act. During the three months ended September 30, 2010, the Company purchased \$14.4 million of the 2011 Notes and \$29.4 million of the 2012 Notes. As a result of these transactions a realized loss of \$1.6 million was recognized during the period. During the nine months ended September 30, 2010, the Company purchased \$19.4 million of the 2011 Notes and

#### Table of Contents

\$34.4 million of the 2012 Notes. As a result of these transactions a realized loss of \$2.0 million was recognized during the period.

See Recent Developments and Note 17 to our consolidated financial statements for the period ended September 30, 2010 for more detail on the issuance of unsecured notes on October 21, 2010.

#### PORTFOLIO VALUATION

Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our management and audit committee and independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period, and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum 50% of our valuations of portfolio at fair value are subject to review by an independent valuation firm each quarter.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, based on the input of our management and audit committee and independent valuation firms, under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment, such as inflation, and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses that would be realized based on the valuations currently assigned. See the factors set forth in "Risk Factors" included in our annual report on Form 10-K for the fiscal year ended December 31, 2009, including the Risk Factor entitled "Risk Factors" Risks Relating to our Investments Price declines and illiquidity in the corporate debt

#### Table of Contents

markets have adversely affected, and may in the future adversely affect, the fair value of our portfolio investments, reducing our net asset value through increased net unrealized depreciation."

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.

Preliminary valuations are reviewed and discussed with the entire investment portfolio and management team, and then valuation recommendations are presented to the board of directors.

The audit committee of our board of directors reviews these valuations, as well as the input of independent third-party valuation firms with respect to the valuations of a minimum of 50% of our portfolio at fair value.

The board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our management and audit committee and independent third-party valuation firms.

Effective January 1, 2008, the Company adopted ASC 820-10 (previously SFAS No. 157, *Fair Value Measurements*), which expands the application of fair value accounting for investments (see Note 8 to the consolidated financial statements for the period ended September 30, 2010). Investments acquired as part of the Allied Acquisition were accounted for in accordance with ASC 805-10 (previously SFAS No. 141(R)), *Business Combinations*, which requires that all assets be recorded at fair value. As a result, the initial amortized cost basis and fair value for the acquired investments were the same value at April 1, 2010 (see Note 15 to the consolidated financial statements for the period ended September 30, 2010).

#### OFF BALANCE SHEET ARRANGEMENTS

As of September 30, 2010 and December 31, 2009, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans to its portfolio companies (in millions):

	Septen	nber 30, 2010	December 3	1, 2009
Total revolving and delayed draw commitments	\$	633.4	\$	136.8
Less: funded commitments		(382.6)		(37.2)
Total unfunded commitments		250.8		99.6
Less: commitments substantially at discretion of the Company		(63.4)		(4.0)
Less: unavailable commitments due to borrowing base or other covenant restrictions		(16.1)		(16.2)
Total net adjusted unfunded commitments	\$	171.3	\$	79.4

Of the total net adjusted unfunded commitments as of September 30, 2010, \$78.1 million are from commitments for investments acquired as part of the Allied Acquisition. Also, of the total commitments as of September 30, 2010, \$176.6 million extend beyond the maturity date for our Revolving Credit Facility. Included within the total commitments as of September 30, 2010 are commitments to issue up to \$21.7 million in standby letters of credit through a financial intermediary

#### Table of Contents

on behalf of certain portfolio companies. Under these arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of September 30, 2010, the Company had \$18.7 million in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability on the balance sheet as they are considered in the valuation of the investments in the portfolio company. Of these letters of credit, \$0.3 million expire in December 2010, \$0.8 million expire in January 2011, \$8.2 million expire in February 2011, \$2.0 million expire in March 2011, \$2.3 million expire in September 2011, and \$5.1 million expire in December 2011.

As of September 30, 2010 and December 31, 2009, the Company was a party to subscription agreements to fund equity investments in private equity investment partnerships as follows (in millions):

	Septem	ber 30, 2010	Dece	mber 31, 2009
Total private equity commitments	\$	567.6	\$	428.3
Total unfunded private equity commitments	\$	442.5	\$	415.4

Of the total unfunded private equity commitments as of September 30, 2010, \$400.5 million are substantially at the discretion of the Company. Additionally, of the total unfunded private equity commitments as of September 30, 2010, \$28.1 million are for investments acquired as part of the Allied Acquisition.

As of September 30, 2010, one of the Company's portfolio companies, Ciena Capital LLC ("Ciena"), had one non-recourse securitization Small Business Administration ("SBA") loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which Ares Capital succeeded to as a result of the Allied Acquisition) whereby Ares Capital must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of September 30, 2010, there are no known issues or claims with respect to this performance guaranty.

See Notes 5 and 10 to the consolidated financial statements for the period ended September 30, 2010 for more information on the Company's commitment to the Senior Secured Loan Program.

#### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

### Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of September 30, 2010, approximately 53% of the investments at fair value in our portfolio were at fixed rates while approximately 26% were at variable rates, 16% were non-interest earning and 5% were on non-accrual status. Additionally, as of September 30, 2010, 18% of the investments at fair value or 69% of the investments at fair value with variable rates contain interest rate floors. The Debt

#### **Table of Contents**

Securitization, the combined CP Funding Facility and the Revolving Credit Facility all bear interest at variable rates while the Unsecured Notes bear interest at fixed rates.

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

In October 2008, we entered into an interest rate swap agreement that ends on December 20, 2010, for a total notional amount of \$75 million. Under the interest rate swap agreement, we will pay a fixed interest rate of 2.985% and receive a floating rate based on the prevailing three-month LIBOR.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Based on our September 30, 2010 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure and reflecting the effect of our interest rate swap agreement described above and in Note 11 to the consolidated financial statements for the period ended September 30, 2010 (in millions):

Basis Point Change	Inter	terest Income Interest Exper		erest Expense	No	et Income
Up 300 basis points	\$	20.5	\$	24.5	\$	(4.0)
Up 200 basis points	\$	11.7	\$	16.3	\$	(4.6)
Up 100 basis points	\$	4.5	\$	8.2	\$	(3.7)
Down 100 basis points	\$	(1.4)	\$	(5.0)	\$	3.6
Down 200 basis points	\$	(1.6)	\$	(5.0)	\$	3.4
Down 300 basis points	\$	(1.7)	\$	(5.0)	\$	3.3

Based on our December 31, 2009 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure and reflecting the effect of our interest rate swap agreement described above and in Note 11 to the consolidated financial statements for the period ended September 30, 2010 (in millions):

Basis Point Change	Interes	st Income	Inter	est Expense	Ne	t Income
Up 300 basis points	\$	17.6	\$	26.8	\$	(9.2)
Up 200 basis points	\$	11.2	\$	17.9	\$	(6.7)

Total stockholders' equity	\$	2,778,476	\$	2,942,513
Total capitalization	\$	4,302,619	\$	4,302,619

The above table reflects the carrying value of indebtedness outstanding as of September 30, 2010. However, on October 21, 2010, we issued \$200 million of the 2040 Notes, the proceeds of which were used to pay down outstanding indebtedness under the Revolving Credit Facility. As of November 8, 2010, outstanding indebtedness under the Revolving Credit Facility and the CP Funding Facility was \$169 million and \$321 million, respectively. For pro forma purposes, the above table assumes that net proceeds from the sale of our common stock in this offering are used to paydown outstanding indebtedness under the Revolving Credit Facility as of September 30, 2010.

#### **Table of Contents**

#### UNDERWRITING

Wells Fargo Securities, LLC, Merrill Lynch, Pierce Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc. are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in a purchase agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

Underwriter	Number of Shares
Wells Fargo Securities, LLC	
Merrill Lynch, Pierce, Fenner & Smith	
Incorporated	
SunTrust Robinson Humphrey, Inc.	
Deutsche Bank Securities Inc.	
Morgan Stanley & Co. Incorporated	
BB&T Capital Markets, a division of Scott & Stringfellow, LLC	
BMO Capital Markets Corp	
Stifel, Nicolaus & Company, Incorporated	
JMP Securities LLC	

Total 10,000,000

Subject to the terms and conditions set forth in the purchase agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the purchase agreement if any of these shares are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

#### **Commissions and Discounts**

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price set forth on the cover page of this prospectus and to dealers at that price less a concession not in excess of \$ per share. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the public offering price, underwriting discount and proceeds before expenses to us. The information assumes either no exercise or full exercise by the underwriters of their overallotment option.

	Per Share	Without Option	With Option
Public offering price	\$	\$	\$
Underwriting discount	\$	\$	\$
Proceeds, before expenses, to us	\$	\$	\$
•		S-47	

#### **Table of Contents**

The expenses of the offering, not including the underwriting discount, are estimated at \$0.7 million and are payable by us.

#### **Overallotment Option**

We have granted an option to the underwriters to purchase up to 1,500,000 additional shares at the public offering price, less the underwriting discount. The underwriters may exercise this option for 30 days from the date of this prospectus supplement solely to cover any overallotments. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

#### No Sales of Similar Securities

We have agreed, with exceptions, not to sell or transfer any common stock for 45 days after the date of this prospectus supplement without first obtaining the written consent of Wells Fargo Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc.

Our executive officers and directors and Ares Capital Management and certain of its affiliates have agreed, with exceptions, not to sell or transfer any common stock for 45 days after the date of this prospectus supplement without first obtaining the written consent of Wells Fargo Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly

offer, pledge, sell or contract to sell any common stock,
sell any option or contract to purchase any common stock,
purchase any option or contract to sell any common stock,
grant any option, right or warrant for the sale of any common stock,
lend or otherwise dispose of or transfer any common stock,

request or demand that we file a registration statement related to the common stock, or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. In the event that either (x) during the last 17 days of the lock-up period referred to above, we issue an earnings release or material news or a material event relating to the Company occurs or (y) prior to the expiration of the lock-up period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day period beginning on the last day of the lock-up period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

#### **NASDAQ Global Select Market Listing**

The shares are listed on the NASDAQ Global Select Market under the symbol "ARCC."

#### Table of Contents

#### **Price Stabilization, Short Positions**

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' overallotment option described above. The underwriters may close out any covered short position by either exercising their overallotment option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the overallotment option. "Naked" short sales are sales in excess of the overallotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the NASDAO Global Select Market, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

#### **Passive Market Making**

In connection with this offering, underwriters and selling group members may engage in passive market making transactions in the common stock on the NASDAQ Global Select Market in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of common stock and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of our common stock to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriters and dealers are not required to engage in passive market making and may end passive market making activities at any time.

#### **Electronic Offer, Sale and Distribution of Shares**

The underwriters may make prospectuses available in electronic (PDF) format. A prospectus in electronic (PDF) format may be made available on a web site maintained by the underwriters, and the

#### Table of Contents

underwriters may distribute such prospectuses electronically. The underwriters may allocate a limited number of shares for sale to their online brokerage customers.

#### Other Relationships

The underwriters and their affiliates have provided in the past and may provide from time to time in the future in the ordinary course of their business certain commercial banking, financial advisory, investment banking and other services to Ares and its affiliates and managed funds and Ares Capital or our portfolio companies for which they have received or will be entitled to receive separate fees. In particular, the underwriters or their affiliates may execute transactions with Ares Capital or on behalf of Ares Capital, Ares or any of our or their portfolio companies, affiliates and/or managed funds. In addition, the underwriters or their affiliates may act as arrangers, underwriters or placement agents for companies whose securities are sold to or whose loans are syndicated to Ares, Ares Capital or Ares Capital Management and their affiliates and managed funds.

Affiliates of certain of the underwriters are limited partners of private investment funds affiliated with our investment adviser, Ares Capital Management.

The underwriters or their affiliates may also trade in our securities, securities of our portfolio companies or other financial instruments related thereto for their own accounts or for the account of others and may extend loans or financing directly or through derivative transactions to Ares, Ares Capital, Ares Capital Management or any of the portfolio companies.

We may purchase securities of third parties from the underwriters or their affiliates after the offering. However, we have not entered into any agreement or arrangement regarding the acquisition of any such securities, and we may not purchase any such securities. We would only purchase any such securities if among other things we identified securities that satisfied our investment needs and completed our due diligence review of such securities.

After the date of this prospectus supplement, the underwriters and their affiliates may from time to time obtain information regarding specific portfolio companies or us that may not be available to the general public. Any such information is obtained by the underwriters and their affiliates in the ordinary course of its business and not in connection with the offering of the common stock. In addition, after the offering period for the sale of our common stock, the underwriters or their affiliates may develop analyses or opinions related to Ares, Ares Capital or our portfolio companies and buy or sell interests in one or more of our portfolio companies on behalf of their proprietary or client accounts and may engage in competitive activities. There is no obligation on behalf of these parties to disclose their respective analyses, opinions or purchase and sale activities regarding any portfolio company or regarding Ares Capital to our stockholders.

Affiliates of certain of the underwriters serve as lenders under our credit facilities or other debt instruments and are also lenders to private investment funds managed by Ivy Hill Asset Management, L.P., our portfolio company. Certain of the underwriters and their affiliates were underwriters in connection with our initial public offering and our subsequent common stock and debt offerings and rights offering, for which they received customary fees.

Frank E. O'Bryan and Greg Penske, two of our independent directors, hold certain securities of one or more of this offering's underwriters (or their affiliates). As a result, each of Mr. O'Bryan and Mr. Penske may be considered an "interested person" of the Company during the pendency of this offering under relevant rules of the Investment Company Act.

#### **Conflicts of Interest**

Proceeds of this offering will be used to repay or repurchase outstanding indebtedness under (a) the Revolving Credit Facility and (b) the CP Funding Facility. Affiliates of certain of the underwriters, including Merrill Lynch, Pierce, Fenner & Smith Incorporated, SunTrust Robinson Humphrey, Inc., Deutsche Bank Securities Inc., Morgan Stanley & Co. Incorporated and BMO Capital Markets Corp., are lenders under the Revolving Credit Facility and affiliates of certain the underwriters, including Wells Fargo Securities, LLC, are lenders under the CP Funding Facility. Accordingly, affiliates of certain of the underwriters will receive more than 5% of the proceeds of this offering which are used to repay or repurchase outstanding indebtedness under the Revolving Credit Facility and the CP Funding Facility.

#### Notice to Prospective Investors in the EEA

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State") an offer to the public of any shares which are the subject of the offering contemplated by this prospectus (the "Shares") may not be made in that Relevant Member State, except that an offer to the public in that Relevant Member State of any Shares may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

- (a)
   to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;
- (c) by the underwriters to fewer than 100 natural or legal persons (other than "qualified investors" as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or
- (d) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Shares shall result in a requirement for the publication by us or any representative of a prospectus pursuant to Article 3 of the Prospectus Directive.

Any person making or intending to make any offer of shares within the EEA should only do so in circumstances in which no obligation arises for us or any of the underwriters to produce a prospectus for such offer. Neither we nor the underwriters have authorized, nor do they authorize, the making of any offer of shares through any financial intermediary, other than offers made by the underwriters which constitute the final offering of shares contemplated in this prospectus.

For the purposes of this provision, and your representation below, the expression an "offer to the public" in relation to any Shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any Shares to be offered

#### **Table of Contents**

so as to enable an investor to decide to purchase any Shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each person in a Relevant Member State who receives any communication in respect of, or who acquires any shares under, the offer of shares contemplated by this prospectus will be deemed to have represented, warranted and agreed to and with us and each underwriter that:

- (A)

  it is a "qualified investor" within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive; and
- in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, (i) the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than "qualified investors" (as defined in the Prospectus Directive), or in circumstances in which the prior consent of the representatives has been given to the offer or resale; or (ii) where shares have been acquired by it on behalf of persons in any Relevant Member State other than qualified investors, the offer of those shares to it is not treated under the Prospectus Directive as having been made to such persons.

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are "qualified investors" (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order") and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

#### Notice to Prospective Investors in Switzerland

The Shares may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange ("SIX") or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the Shares or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, Ares Capital Corporation or the Shares have been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of Shares will not be supervised by, the Swiss Financial Market Supervisory Authority FINMA (FINMA), and the offer of Shares has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes ("CISA"). The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of Shares.

In general, under the Investment Company Act, we would "Control" a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments are subject to legal restrictions on sales which as of September 30, 2010 represented 149% of the Company's net assets.
- (2)
  These assets are owned by the Company's wholly owned subsidiary Ares Capital CP, are pledged as collateral for the CP Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP's obligations under the CP Funding Facility (see Note 7 to the consolidated financial statements).
- (3) Pledged as collateral for the ARCC CLO.
- (4) Has a payment-in-kind interest feature (see Note 2 to the consolidated financial statements).
- (5) Investments without an interest rate are non-income producing at September 30, 2010.

Together with GE Commercial Finance Investment Advisory Services LLC ("GE"), we serve as co-managers of the Senior Secured Loan Fund LLC. Investments made by the program (and most decisions made in respect of program borrowers and the program itself) must be approved by both the Company and GE; therefore, although the Company owns more than 25% of the voting securities of the LLC, the Company does not believe that it has control over the Senior Secured Loan Fund (for purposes of the Investment Company Act of 1940 or otherwise).

Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

Non-registered investment company.

- A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either Libor or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect at September 30, 2010.
- (11)

  In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 5% on \$40 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.
- In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$25.0 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.
- (13) Loan was on non-accrual status as of September 30, 2010.
- (14) Loan includes interest rate floor feature.
- In addition to the interest earned based on the stated interest rate of this security, the notes entitle us to receive a portion of the excess cash flow from the Senior Secured Loan Fund's loan portfolio, which may result in a return greater than the contractual rate.
- (16) Pledge as collateral for the Revolving Credit Facility.
- (17) Public company.

See accompanying notes to consolidated financial statements.

- Other than our investments in HCP Acquisition Holdings, LLC, Ivy Hill Asset Management, L.P., Ivy Hill Middle Market Credit Fund, Ltd., LVCG Holdings, LLC, Making Memories Wholesale, Inc., Reflexite Corporation, Senior Secured Loan Fund LLC and The Thymes, LLC, we do not "Control" any of our portfolio companies, as defined in the Investment Company Act. In general, under the Investment Company Act, we would "Control" a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments are subject to legal restrictions on sales which as of December 31, 2009 represented 173% of the Company's net assets.
- These assets are owned by the Company's wholly owned subsidiary Ares Capital CP, are pledged as collateral for the CP Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP's obligations under the CP Funding Facility (see Note 7 to the consolidated financial statements). Unless otherwise noted, as of December 31, 2009, all other investments were pledged as collateral for the Revolving Credit Facility (see Note 7 to the consolidated financial statements).
- (3)
  Pledged as collateral for the ARCC CLO. Unless otherwise noted, as of December 31, 2009, all other investments were pledged as collateral for the Revolving Credit Facility (see Note 7 to the consolidated financial statements).
- (4) Has a payment-in-kind interest feature (see Note 2 to the consolidated financial statements).
- (5) Investments without an interest rate are non-income producing at December 31, 2009.
- As defined in the Investment Company Act, we are an "Affiliated Person" of this portfolio company because we own 5% or more of the portfolio company's outstanding voting securities or we have the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions during the period for the year ended December 31, 2009 in which the issuer was an Affiliated company (but not a portfolio company that we "Control") are as follows (in thousands):

Together with GE Commercial Finance Investment Advisory Services LLC ("GE"), we serve as co-managers of the Senior Secured Loan Fund LLC. Investments made by the program (and most decisions made in respect of program borrowers and the program itself) must be approved by both the Company and GE; therefore, although the Company owns more than 25% of the voting securities of the LLC, the Company does not believe that it has control over the Senior Secured Loan Fund (for purposes of the Investment Company Act of 1940 or otherwise).

- Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (9) Non-registered investment company.
- A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either Libor or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect at December 31, 2009.
- In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$18.4 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.
- (12) Principal amount denominated in Canadian dollars has been translated into U.S. dollars (see Note 2 to the consolidated financial statements).
- In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$25.0 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.
- (14) Loan was on non-accrual status as of December 31, 2009.
- (15) Loan includes interest rate floor feature.
- In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.98% on \$15.0 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.
- In addition to the interest earned based on the stated interest rate of this security, the notes entitle us to receive a portion of the excess cash flow from the Senior Secured Loan Fund's loan portfolio, which may result in a return greater than the contractual rate.

See accompanying notes to consolidated financial statements.

# ARES CAPITAL CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of September 30, 2010 (unaudited)

(dollar amounts in thousands, except per share data and as otherwise indicated)

#### 1. ORGANIZATION

Ares Capital Corporation (the "Company" or "ARCC" or "we") is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940 (the "Investment Company Act"). We were incorporated on April 16, 2004 and were initially funded on June 23, 2004. On October 8, 2004, we completed our initial public offering (the "IPO"). On the same date, we commenced substantial investment operations.

On April 1, 2010, we consummated our acquisition (the "Allied Acquisition") of Allied Capital Corporation ("Allied Capital"), in an all stock merger where each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock. The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital's then-existing stockholders, thereby resulting in our then-existing stockholders owning approximately 69% of the combined company and then-existing Allied Capital stockholders owning approximately 31% of the combined company (see Note 15).

The Company has elected to be treated as a regulated investment company (a "RIC") under subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), and operates in a manner so as to qualify for the tax treatment applicable to RICs. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments. Also, as a result of the Allied Acquisition, Allied Capital's equity investments, including equity investments larger than those we have traditionally made and equity investments pursuant to which Allied Capital controlled a particular company, became part of our portfolio.

We are externally managed by Ares Capital Management LLC ("Ares Capital Management" or the "investment adviser"), an affiliate of Ares Management LLC ("Ares Management"), a global alternative asset manager and a Securities and Exchange Commission ("SEC") registered investment adviser. Ares Operations LLC ("Ares Operations" or the "administrator"), an affiliate of Ares Management, provides the administrative services necessary for us to operate.

Interim financial statements are prepared in accordance with generally accepted accounting principles in the United States ("GAAP") for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period, have been included. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2010.

### 2. SIGNIFICANT ACCOUNTING POLICIES

## Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications

#### Table of Contents

which, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

#### Cash and Cash Equivalents

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

#### Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

#### Investments

Investment transactions are recorded on the trade date. Realized gains or losses are computed using the specific identification method. Unrealized gains or losses reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period, and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value are subject to review by an independent valuation firm each quarter.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have recorded it.

#### Table of Contents

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses that would be realized based on the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.

Preliminary valuations are reviewed and discussed with the investment adviser's management and investment professionals, and then valuation recommendations are presented to the board of directors.

The audit committee of our board of directors reviews these valuations, as well as the input of independent third-party valuation firms with respect to the valuations of a minimum of 50% of our portfolio at fair value.

The board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

Effective January 1, 2008, the Company adopted Accounting Standards Codification ("ASC") 820-10 (previously Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("SFAS 157")), which expands the application of fair value accounting for investments (see Note 8). Investments acquired as part of the Allied Acquisition were accounted for in accordance with ASC 805-10 (previously SFAS No. 141(R)), *Business Combinations*, which requires that all assets be recorded at fair value. As a result, the initial amortized cost basis and fair value for the acquired investments were the same at April 1, 2010 (see Note 15).

#### Interest Income Recognition

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis. Discounts and premiums from par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection. As of September 30, 2010, 7.5% of total investments at amortized cost (or 5.2% of total investments at fair value) were on non-accrual status, including 5.3% of total investments at amortized cost (or 5.0% of total investments at fair value) of investments acquired as part of the Allied Acquisition. As of December 31, 2009, 2.5% of total investments at amortized cost (or 0.5% at fair value) were on non-accrual status.

#### **Table of Contents**

#### Payment-in-Kind Interest

The Company has loans in its portfolio that contain payment-in-kind ("PIK") provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash. For the three and nine months ended September 30, 2010, \$13,345 and \$34,117, respectively, in PIK income was recorded. Of the PIK income recorded for the three and nine months ended September 30, 2010, \$3,255 and \$8,992, respectively, was PIK income from investments acquired as part of the Allied Acquisition. For the three and nine months ended September 30, 2009, \$10,825 and \$33,021, respectively, in PIK income were recorded.

#### Capital Structuring Service Fees and Other Income

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally consist of reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

## Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.
- (2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

#### **Table of Contents**

#### Accounting for Derivative Instruments

The Company does not utilize hedge accounting and marks its derivatives to market through operations.

#### Offering Expenses

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received. For the nine months ended September 30, 2010 and 2009, the Company incurred approximately \$1,035 and \$806, respectively, of offering costs.

#### **Debt Issuance Costs**

Debt issuance costs are being amortized over the life of the related credit facility using the straight line method, which closely approximates the effective yield method.

#### U.S. Federal Income Taxes

The Company has elected to be treated as a RIC under subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC, among other things, the Company is required to timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and nine months ended September 30, 2010, no amounts were recorded for U.S. Federal excise tax. For the three months ended September 30, 2009, no amount was recorded for U.S. federal excise tax.

Certain of our wholly owned subsidiaries are subject to U.S. Federal and state income taxes. For the three and nine months ended September 30, 2010, we recorded a tax (benefit)/expense of approximately \$(164) and \$360, respectively, for these subsidiaries. For the three and nine months ended September 30, 2009, we recorded a tax expense of approximately \$454 and \$593, respectively, for these subsidiaries.

Income taxes for certain of our subsidiaries are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

#### Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for investment.

#### **Table of Contents**

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not "opted out" of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. While we generally use primarily newly issued shares to implement the plan (especially if our shares are trading at a premium to net asset value), we may purchase shares in the open market in connection with our obligations under the plan. In particular, if our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan.

#### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

## New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update 2010-06, Fair Value Measurements and Disclosures (Topic 820), Improving Disclosures About Fair Value Measurements ("ASU 2010-06"). ASU 2010-06 adds new requirements for disclosures about transfers into and out of Level 1 and 2 inputs and separate disclosures about fair value measurements (see Note 8), particularly with respect to purchases, sales, issuances and settlements relating to Level 3 inputs. It also clarifies existing fair value disclosures about the level of disaggregation, will require that entities provide fair value measurement disclosures for each class of assets and liabilities, and adds requirements relating to inputs and valuation techniques used to measure fair value. Generally, ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, however, the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 inputs will not be required until fiscal years beginning after December 15, 2010. The adoption of ASU 2010-06 did not have a significant impact on the Company's financial condition and results of operations.

#### 3. AGREEMENTS

## Investment Advisory and Management Agreement

The Company is party to an investment advisory and management agreement (the "investment advisory and management agreement") with Ares Capital Management. Subject to the overall supervision of our board of directors, Ares Capital Management provides investment advisory services to the Company. For providing these services, Ares Capital Management receives a fee from us, consisting of two components a base management fee and an incentive fee. Ares Capital Management has committed to defer up to \$15,000 in base management and incentive fees for each of the first two fiscal years following the Allied Acquisition if certain earnings targets are not met.

The base management fee is calculated at an annual rate of 1.5% based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters. The base management fee is payable quarterly in arrears.

#### **Table of Contents**

The incentive fee has two parts. One part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that we have not yet received in cash. The investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued interest that we never actually receive.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the incentive fee, it is possible that we may pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate (as defined below) for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized and unrealized capital losses.

Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed "hurdle rate" of 2% per quarter. If market interest rates rise, we may be able to invest our funds in debt instruments that provide for a higher return, which would increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income. Our pre-incentive fee net investment income used to calculate this part of the incentive fee is also included in the amount of our total assets (other than cash and cash equivalents but including assets purchased with borrowed funds) used to calculate the 1.5% base management fee.

We pay the investment adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

no incentive fee in any calendar quarter in which the pre-incentive fee net investment income does not exceed the hurdle rate;

100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.5% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.5%) as the "catch-up" provision. The "catch-up" is meant to provide our investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeds 2.5% in any calendar quarter; and

20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.5% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee (the "Capital Gains Fee"), is determined and payable in arrears as of the end of each calendar year (or, upon termination of the investment advisory and management agreement, as of the termination date) and is calculated at the end of each applicable year by subtracting (a) the sum of our cumulative aggregate realized capital losses and aggregate

#### Table of Contents

unrealized capital depreciation from (b) our cumulative aggregate realized capital gains, in each case calculated from October 8, 2004. If such amount is positive at the end of such year, then the Capital Gains Fee for such year is equal to 20% of such amount, less the aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee for such year.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in our portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in our portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in our portfolio as of the applicable Capital Gains Fee calculation date and (b) the accreted or amortized cost basis of such investment.

We defer cash payment of any incentive fee otherwise earned by the investment adviser if during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to our stockholders and (b) the change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 8.0% of our net assets at the beginning of such period.

For the three and nine months ended September 30, 2010, we incurred \$15,436 and \$35,574, respectively, in base management fees and \$17,805 and \$40,922, respectively, in incentive management fees related to pre-incentive fee net investment income. For the three and nine months ended September 30, 2010, we accrued no incentive management fees related to net realized capital gains. As of September 30, 2010, \$33,241 was unpaid and included in "management and incentive fees payable" in the accompanying consolidated balance sheet.

For the three and nine months ended September 30, 2009, we incurred \$7,508 and \$22,502, respectively, in base management fees and \$8,227 and \$23,764, respectively, in incentive management fees related to pre-incentive fee net investment income. For the three and nine months ended September 30, 2009, we accrued no incentive management fees related to realized capital gains.

#### **Administration Agreement**

We are party to a separate administration agreement, referred to herein as the "administration agreement," with our administrator, Ares Operations. Pursuant to the administration agreement, Ares Operations furnishes us with office equipment and clerical, bookkeeping and record keeping services. Under the administration agreement, Ares Operations also performs, or oversees the performance of, our required administrative services, which include, among other things, being responsible for the financial records that we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Operations assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under the administration agreement are equal to an amount based upon our allocable portion of Ares Operations' overhead in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. The administration agreement may be terminated by either party without penalty upon 60-days' written notice to the other party.

#### **Table of Contents**

For the three and nine months ended September 30, 2010, we incurred \$2,642 and \$6,251, respectively, in administrative fees. As of September 30, 2010, \$2,642 was unpaid and included in "accounts payable and accrued expenses" in the accompanying consolidated balance sheet.

For the three and nine months ended September 30, 2009, we incurred \$809 and \$2,905, respectively, in administrative fees.

#### 4. EARNINGS PER SHARE

The following information sets forth the computations of basic and diluted net increase in stockholders' equity per share resulting from operations for the three and nine months ended September 30, 2010:

	Three months ended September 30, 2010			ne months ended otember 30, 2010
Numerator for basic and diluted net increase in stockholders' equity resulting from operations	•	,	•	·
per share:	\$	128,377	\$	534,946
Denominator for basic and diluted net increase in stockholders' equity resulting from				
operations per share:		192,167,337		169,499,905
Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$	0.67	\$	3.16

The following information sets forth the computations of basic and diluted net increase in stockholders' equity per share resulting from the operations for the three and nine months ended September 30, 2009:

	Three months ended September 30, 2009		ne months ended ptember 30, 2009

operations per share:		102,831,909	99,066,652
Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$	0.62	\$ 1.34

#### 5. INVESTMENTS

Under the Investment Company Act, we are required to separately identify non-controlled investments where we own more than 5% of a portfolio company's outstanding voting securities as "affiliated companies." In addition, under the Investment

Company Act, we are required to separately identify investments where we own more than 25% of a portfolio company's outstanding voting securities as "control affiliated companies."

For the three months ended September 30, 2010, the Company funded investments totaling \$509 million including \$236 million aggregate principal amount of senior subordinated debt, \$210 million for investments in the Senior Secured Loan Fund LLC (the "Senior Secured Loan Program") (see Note 10), and \$23 million of investments in equity securities.

## Table of Contents

In addition, for the three months ended September 30, 2010, \$231 million of investments were sold or redeemed including \$165 million aggregate principal amount of senior term debt, \$62 million of senior subordinated debt, \$3 million of investments in collateralized loan obligations and \$1 million of investments in equity securities. Within the total investments sold or redeemed for the three months ended September 30, 2010, approximately \$99 million were originally acquired as part of the Allied Acquisition with a net realized gain of approximately \$1.8 million recognized in these transactions.

As of September 30, 2010, investments and cash and cash equivalents consisted of the following:

	<b>Amortized Cost</b>		I	Fair Value
Cash and cash				
equivalents	\$	134,362	\$	134,362
Senior term debt		1,594,972		1,550,673
Senior subordinated				
debt		1,252,715		1,212,003
Equity securities		664,425		684,744
Collateralized loan				
obligations		220,369		238,317

Senior Secured Loan Program. In October 2009, the Company completed its acquisition from Allied Capital of subordinated notes issued by the Senior Secured Loan Program (the "SSLP Notes"). The Senior Secured Loan Program was formed in December 2007 to invest in "unitranche" loans (loans that combine both senior and subordinated debt, generally in a first lien position) of middle-market companies. The cost and fair value of the SSLP Notes was \$400.5 million and \$425.5 million, respectively, at September 30, 2010, and \$165.0 million and \$165.0 million, respectively, at December 31, 2009. The SSLP Notes pay a coupon of LIBOR plus 8.0% and also entitle the Company to receive a portion of the excess cash flow from the loan portfolio, which may result in a return greater than the contractual coupon. The Company is also entitled to certain other sourcing and

#### **Table of Contents**

management fees related to this investment. The Company's yield on its investment in the Senior Secured Loan Program at fair value was 16.52% and 17.00% at September 30, 2010 and December 31, 2009, respectively. For the three and nine months ended September 30, 2010, the Company earned interest income of \$12,987 and \$30,242, respectively, on the SSLP Notes.

As of September 30, 2010 and December 31, 2009, the Senior Secured Loan Program had total assets of \$2.0 billion and \$0.9 billion, respectively, in aggregate principal amount. The senior debt obligations of the Senior Secured Loan Program were \$1.5 billion and \$0.7 billion in aggregate principal amount at September 30, 2010 and December 31, 2009, respectively. The SSLP Notes owned by the Company are junior to the senior debt obligations of the fund and the Company owns 87.5% of the outstanding class of such notes.

The Senior Secured Loan Program's portfolio consisted of 17 and 11 different issuers as of September 30, 2010 and December 31, 2009, respectively. At September 30, 2010 and December 31, 2009, the portfolio was comprised of all first lien senior secured debt issued by U.S. middle-market companies and none of the loans were on non-accrual status. At September 30, 2010 and December 31, 2009, the single largest issuer in the Senior Secured Loan Program's portfolio in aggregate principal amount was \$254.4 million and \$179.9 million, respectively, and the top five issuers totaled \$1,053.9 million and \$535.3 million, respectively. The portfolio companies in the Senior Secured Loan Program are in similar industries as the companies in Ares Capital's portfolio.

#### 6. COMMITMENTS AND CONTINGENCIES

As of September 30, 2010 and December 31, 2009, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans to its portfolio companies:

	Septer	mber 30, 2010	December 31, 2009
Total revolving and delayed draw commitments	\$	633,400	\$ 136,800
Less: funded commitments		(382,600)	(37,200)
Total unfunded commitments		250,800	99,600
Less: commitments substantially at discretion of the Company		(63,400)	(4,000)
Less: unavailable commitments due to borrowing base or other covenant restrictions		(16,100)	(16,200)
Total net adjusted unfunded commitments	\$	171,300	\$ 79,400

Of the total net adjusted unfunded commitments as of September 30, 2010, \$78,100 are from commitments for investments acquired as part of the Allied Acquisition. Also, of the total commitments as of September 30, 2010, \$176,600 extend beyond the maturity date for our Revolving Credit Facility (as defined in Note 7). Included within the total commitments as of September 30, 2010 are commitments to issue up to \$21,700 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of September 30, 2010, the Company had \$18,700 in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability on the balance sheet as they are considered in the valuation of the investments in the portfolio company. Of these letters of credit, \$300 expire in December 2010, \$800 expire in January 2011, \$8,200 expire in February 2011, \$2,000 expire in March 2011, \$2,300 expire in September 2011, and \$5,100 expire in December 2012.

#### **Table of Contents**

As of September 30, 2010 and December 31, 2009, the Company was subject to subscription agreements to fund equity investments in private equity and other investment partnerships as follows:

	Septen	nber 30, 2010	December 31, 2009		
Total private equity commitments	\$	567,600	\$	428,300	
Total unfunded private equity commitments	\$	442,500	\$	415,400	

Of the total unfunded private equity commitments as of September 30, 2010, \$400,500 are substantially at the discretion of the Company. Additionally, of the total unfunded private equity commitments as of September 30, 2010, \$28,100 are for investments acquired as part of the Allied Acquisition.

See Note 10 for more information on the Company's commitment to the Senior Secured Loan Program.

In the ordinary course of business, Allied Capital had issued guarantees on behalf of certain portfolio companies. Under these arrangements, payments would be required to be made to third parties if the portfolio companies were to default on their related payment. As part of the Allied Acquisition, the Company assumed such outstanding guarantees or similar obligations. As a result, as of September 30, 2010, the Company had outstanding guarantees or similar obligations totaling \$0.8 million and an outstanding servicer performance guaranty. The servicer performance guaranty relates to one portfolio company's servicing of loans held in a loan warehouse facility, and as of September 30, 2010, there were no known issues or claims with respect to such performance guaranty.

#### 7. BORROWINGS

In accordance with the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of September 30, 2010, our asset coverage for borrowed amounts was 282%.

Our debt obligations consisted of the following as of September 30, 2010 and December 31, 2009:

	<b>September 30, 2010</b>					, 2009		
		Carrying		Total		Carrying		Total
		Value(1)		Available(2)		Value(1)		Available(2)
CP Funding Facility	\$	283,374	\$	400,000	\$	221,569	\$	221,569
Revolving Credit Facility		431,000		810,000		474,144		525,000
CP Funding II Facility(3)								200,000
Debt Securitization		177,163		200,134		273,752		274,981
2011 Notes (principal amount outstanding								
of \$300,584)		294,333(4	)	300,584				
2012 Notes (principal amount outstanding								
of \$161,210)		157,523(4	)	161,210				
2047 Notes (principal amount outstanding								
of \$230,000)		180,750(4	)	230,000				
	\$	1,524,143(5	\$ (	2,101,928	\$	969,465	\$	1,221,550

(2) Subject to borrowing base and leverage restrictions.

<sup>(1)</sup> Except for the Unsecured Notes, all carrying values are the same as the principal amounts outstanding.

#### **Table of Contents**

#### 7. BORROWINGS (Continued)

- (3)
  The CP Funding II Facility was combined with the CP Funding Facility on January 22, 2010. In connection therewith, the CP Funding II Facility was terminated.
- (4)

  Represents the aggregate principal amount of the applicable series of notes less the unaccreted discount initially recorded as a part of the Allied Acquisition.
- (5) Total principal amount of debt outstanding totals \$1,583,331.

The weighted average interest rate of all our debt obligations, at principal amount, as of September 30, 2010 and December 31, 2009 was 4.63% and 2.05%, respectively.

#### **CP Funding Facility**

In October 2004, we formed Ares Capital CP Funding LLC ("Ares Capital CP"), a wholly owned subsidiary of the Company, through which we established a revolving facility (as amended, the "CP Funding Facility") that, as amended, allowed Ares Capital CP to issue up to \$350,000 of variable funding certificates. On May 7, 2009, the Company and Ares Capital CP entered into an amendment that, among other things, converted the CP Funding Facility from a revolving facility to an amortizing facility, extended the maturity from July 21, 2009 to May 7, 2012 and reduced the availability from \$350,000 to \$225,000.

On July 21, 2009, we entered into an agreement with Wachovia Bank N.A. ("Wachovia") to establish a new revolving facility (the "CP Funding II Facility") whereby Wachovia agreed to extend credit to us in an aggregate principal amount not exceeding \$200,000 at any one time outstanding. The CP Funding II Facility was scheduled to expire on July 21, 2012.

On January 22, 2010, we combined the CP Funding Facility with the CP Funding II Facility into a single \$400,000 revolving securitized facility (the "combined CP Funding Facility"). In connection with the combination, we terminated the CP Funding II Facility and entered into an Amended and Restated Purchase and Sale Agreement with Ares Capital CP Funding Holdings LLC, our wholly owned subsidiary ("CP Holdings"), pursuant to which we may sell to CP Holdings certain loans that we have originated or acquired, or will originate or acquire (the "Loans") from time to time, which CP Holdings will subsequently sell to Ares Capital CP, which is a wholly owned subsidiary of CP Holdings. The combined CP Funding Facility is secured by all of the assets held by, and the membership interest in, Ares Capital CP. The combined CP Funding Facility, among other things, extended the maturity date of the facility to January 22, 2013 (with two one-year extension options, subject to mutual consent). Prior to January 22, 2010, the interest rate charged on the CP Funding Facility was the commercial paper rate plus 3.50%. After January 22, 2010, subject to certain exceptions, the interest charged on the combined CP Funding Facility is based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a "base rate" (which is the higher of a prime rate, or the federal funds rate plus 0.50%) plus an applicable spread of between 1.25% to 2.75%, in each case, based on a pricing grid depending upon our credit rating. As of and for the three months ended September 30, 2010, the effective LIBOR spread under the combined CP Funding Facility was 2.75%.

As of September 30, 2010, there was \$283,374 outstanding under the combined CP Funding Facility and the Company continues to be in material compliance with all of the limitations and requirements of the combined CP Funding Facility. As of December 31, 2009, there was \$221,569 outstanding under the CP Funding Facility. The combined CP Funding Facility is secured by all of the assets held by and the membership interest in Ares Capital CP, which as of September 30, 2010 consisted of 34 investments. As of September 30, 2010, the base rate in effect was one month LIBOR, which was 0.26%. For the three and nine months ended September 30, 2010, the average interest rates (i.e. rate in effect plus the spread) on the combined CP Funding Facility and the CP Funding Facility

#### **Table of Contents**

#### 7. BORROWINGS (Continued)

were 3.11% and 2.99%, respectively. For the three and nine months ended September 30, 2010, the average outstanding balances on the combined CP Funding Facility and the CP Funding Facility were \$272,558 and \$227,838, respectively. For the three and nine months ended September 30, 2010, the interest expense incurred on the combined CP Funding Facility and the CP Funding Facility was \$2,404 and \$6,185, respectively. Cash paid for interest expense on the combined CP Funding Facility during the nine months ended September 30, 2010 was \$5,106.

For the three and nine months ended September 30, 2009, the average interest rates (i.e., rate in effect plus the spread) for the CP Funding Facility were 3.77% and 3.62%, respectively. For the three and nine months ended September 30, 2009, the average outstanding balances on the CP Funding Facility were \$223,345 and \$165,172, respectively. For the three and nine months ended September 30, 2009, the interest expense incurred on the CP Funding Facility was \$2,151 and \$4,632, respectively. Cash paid for interest expense on the CP Funding Facility during the nine months ended September 30, 2009 was \$4,349.

We are required to pay a commitment fee of between 0.50% and 2.00% depending on the usage level on any unused portion of the combined CP Funding Facility. Prior to May 7, 2009, we were required to pay a commitment fee for any unused portion of the CP Funding Facility equal to 0.50% per annum for any unused portion of the CP Funding Facility. Prior to January 22, 2010, we were also required to pay a commitment fee on any unused portion of the CP Funding II Facility of between 0.50% and 2.00% depending on the usage level. For the three and nine months ended September 30, 2010, we incurred commitment fees on the CP Funding Facility together with the CP Funding II Facility of \$285 and \$1,319, respectively. For the three and nine months ended September 30, 2009, we incurred commitment fees on the CP Funding Facility together with the CP Funding II Facility of \$260 and \$351, respectively.

#### Revolving Credit Facility

In December 2005, we entered into a senior secured revolving credit facility (as amended and restated, the "Revolving Credit Facility"), under which, as amended, the lenders agreed to extend credit to the Company. On January 22, 2010, we entered into an agreement to amend and restate the Revolving Credit Facility. The amendment and restatement of the Revolving Credit Facility, among other things, increased the size of the facility from \$525,000 to \$690,000 (comprised of \$615,000 in commitments on a stand-alone basis and an additional \$75,000 in commitments contingent upon the closing of the Allied Acquisition), extended the maturity date from December 28, 2010 to January 22, 2013 and modified pricing. The Revolving Credit Facility also includes an "accordion" feature that allows, under certain circumstances, to increase the size of the facility to a maximum of \$1,050,000. During the nine months ended September 30, 2010, we exercised this "accordion" feature and increased the size of the facility by \$120,000 to bring the total facility size to \$810,000. As of September 30, 2010, there was \$431,000 outstanding under the Revolving Credit Facility and the Company continues to be in material compliance with all of the limitations and requirements of the Revolving Credit Facility. As of December 31, 2009, there was \$474,144 outstanding under the Revolving Credit Facility.

Prior to January 22, 2010, subject to certain exceptions, pricing on the Revolving Credit Facility was based on LIBOR plus 1.00% or on an "alternate base rate" (which was the highest of a prime rate, the federal funds rate plus 0.50%, or one month LIBOR plus 1.00%). After January 22, 2010, subject to certain exceptions, pricing under the Revolving Credit Facility is based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on the "alternate base rate" plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending upon our credit

#### **Table of Contents**

#### 7. BORROWINGS (Continued)

rating. As of and for the three months ended September 30, 2010, the effective LIBOR spread under the Revolving Credit Facility was 3.00%. As of September 30, 2010, the one, two, three and six month LIBOR was 0.26%, 0.27%, 0.29% and 0.46%, respectively. As of December 31, 2009, the one, two, three and six month LIBOR was 0.23%, 0.24%, 0.25% and 0.43%, respectively. For the three and nine months ended September 30, 2010, the average interest rate was 4.66% and 4.09%, respectively, the average outstanding balance was \$194,570 and \$271,637, respectively, and the interest expense incurred was \$2,972 and \$10,526, respectively. For the three and nine months ended September 30, 2009, the average interest rate was 1.95% and 2.13%, respectively, the average outstanding balance was \$328,600 and \$414,121, respectively, and the interest expense incurred was \$1,605 and \$6,617, respectively. Cash paid for interest expense in respect of the revolving credit facility during the nine months ended September 30, 2010 and 2009 was \$7,796 and \$7,944, respectively.

Additionally, we are required to pay a commitment fee of 0.50% on any unused portion of the Revolving Credit Facility. For the three and nine months ended September 30, 2010, the commitment fees incurred were \$513 and \$1,408, respectively. For the three and nine months ended September 30, 2009, the commitment fees incurred was \$90 and \$133, respectively.

In connection with the expansion and extension of the Revolving Credit Facility, we paid arrangement fees totaling \$15.6 million. With certain exceptions, the Revolving Credit Facility is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the combined CP Funding Facility, those held as a part of the Debt Securitization, discussed below and retain other investments). As of September 30, 2010, the Revolving Credit Facility was secured by 300 investments.

The amount available for borrowing under the Revolving Credit Facility is reduced by any standby letters of credit issued through the Revolving Credit Facility. As of September 30, 2010, the Company had \$23,108 in standby letters of credit issued through the Revolving Credit Facility. As of December 31, 2009, the Company had \$24,000 in standby letters of credit issued through the Revolving Credit Facility.

#### **Debt Securitization**

In July 2006, through ARCC Commercial Loan Trust 2006, a vehicle serviced by our wholly owned subsidiary, ARCC CLO 2006 LLC ("ARCC CLO"), we completed a \$400,000 debt securitization (the "Debt Securitization") and issued approximately \$314,000 principal amount of asset-backed notes (including an aggregate amount of up to \$50,000 of revolving notes, \$27,029 of which was drawn down as of September 30, 2010) (the "CLO Notes") to third parties that are secured by a pool of middle market loans that were purchased or originated by the Company. The CLO Notes are included in our September 30, 2010 consolidated balance sheet. We retained approximately \$86,000 of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization at the time of issuance.

During the nine months ended September 30, 2010, we repaid \$32,613, \$21,742 and \$42,234 of the Class A-1-A, Class A-1A VFN and Class A-2A Notes, respectively. During the nine months ended September 30, 2009, we repurchased, in several open market transactions, \$34,790 of CLO Notes consisting of \$14,000 of Class B Notes and \$20,790 of Class C Notes for a total purchase price of \$8,247. As a result of these purchases, we recognized a \$26,543 gain on the extinguishment of debt for the nine months ended September 30, 2009. As of September 30, 2010, we held an aggregate principal amount of \$120,790 of CLO Notes (the "Retained Notes"), in total. The CLO Notes mature on December 20, 2019, and, as of September 30, 2010, there was \$177,163 outstanding under the Debt

#### **Table of Contents**

#### 7. BORROWINGS (Continued)

Securitization (excluding the Retained Notes). The blended pricing of the CLO Notes, excluding fees, is approximately 3-month LIBOR plus 35 basis points.

The classes, amounts, and interest rates (expressed as a spread to LIBOR) of the CLO Notes are as follows:

Class	Amount	(basis points)
A-1A	\$ 40,544	25
A-1A VFN	27,029(1)	28
A-1B	14,000	37
A-2A	30,380	22
A-2B	33,000	35
В	9,000	43
С	23,210	70
Total	\$ 177,163	

(1) Revolving Notes, in an aggregate amount of up to \$50,000.

As of September 30, 2010, there were 44 investments securing the notes. The interest charged under the Debt Securitization is based on 3-month LIBOR, which as of September 30, 2010 was 0.29% and as of December 31, 2009 was 0.25%. For the three and nine months ended September 30, 2010, the effective average interest rates were 0.91% and 0.68%, respectively, the average outstanding balance was \$209,996 and \$246,364, respectively, and the interest expense incurred was \$476 and \$1,259, respectively. For the three and nine months ended September 30, 2009, the effective average interest rate was 1.04% and 1.44%, respectively, the average outstanding balance was \$278,617 and \$285,924, respectively, and the interest expense incurred was \$726 and \$3,082, respectively.

For the nine months ended September 30, 2010 and 2009, the cash paid for interest was \$1,250 and \$3,210, respectively. The Company is also required to pay a commitment fee of 0.175% for any unused portion of the Class A-1A VFN Notes. For the three and nine months ended September 30, 2010, we incurred \$7 and \$11, respectively, in commitment fees on these notes. There were no commitment fees incurred for the three and nine months ended September 30, 2009 on these notes.

#### Publicly Issued Unsecured Notes Payable

As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including Allied Capital's publicly issued unsecured notes which consisted of 6.625% Notes due on July 15, 2011 (the "2011 Notes"), 6.000% Notes due on April 1, 2012 (the "2012 Notes") and 6.875% Notes due on April 15, 2047 (the "2047 Notes" and, together with the 2011 Notes and the 2012 Notes, the "Unsecured Notes").

#### **Table of Contents**

#### 7. BORROWINGS (Continued)

As of September 30, 2010, the Company had the following outstanding publicly issued Unsecured Notes (see Note 17):

	Outstanding Principal			Carrying Value(1)
2011 Notes	\$	300,584	\$	294,333
2012 Notes		161,210		157,523
2047 Notes		230,000		180,750
Total	\$	691,794	\$	632,606

(1)

Represents the principal amount of the notes less the unaccreted discount initially recorded as a part of the Allied Acquisition

The 2011 Notes and 2012 Notes require payment of interest semi-annually, and all principal is due upon maturity. The Company has the option to redeem these notes in whole or in part, together with a redemption premium, as stipulated in the notes.

The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time on or after April 15, 2012, at par and upon the occurrence of certain tax events as stipulated in the notes.

For the three and nine months ended September 30, 2010, we incurred \$11,838 and \$23,964 of interest expense in connection with the Unsecured Notes, respectively, and for the nine months ended September 30, 2010, the cash paid for interest on the Unsecured Notes was \$25,266.

The Company may purchase the Unsecured Notes in the market to the extent permitted by the Investment Company Act. During the three months ended September 30, 2010, the Company purchased \$14,350 principal amount of the 2011 Notes and \$29,400 principal amount of the 2012 Notes. As a result of these transactions, we recognized a realized loss of \$1,578 during the three months ended September 30, 2010. During the nine months ended September 30, 2010, the Company purchased \$19,350 principal amount of the 2011 Notes and \$34,400 principal amount of the 2012 Notes. As a result of these transactions, we recognized a realized loss of \$1,961 during the nine months ended September 30, 2010.

In accordance with ASC 805-10, the initial carrying value of the Unsecured Notes was equal to the fair value as of April 1, 2010 resulting in an initial unaccreted discount from the principal value of the Unsecured Notes of approximately \$65.8 million. For the three and nine months ended September 30, 2010, we recorded \$2,968 and \$5,644 of accretion expense, respectively, related to this discount which was included in "interest and credit facility fees" in the accompanying statement of operations.

#### 8. FAIR VALUE OF FINANCIAL INSTRUMENTS

Effective January 1, 2008, the Company adopted ASC 825-10 (previously SFAS No. 159, the Fair Value Option for Financial Assets and Liabilities), which provides companies the option to report selected financial assets and liabilities at fair value. ASC 825-10 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. The Company has not elected the ASC 8 25-10 option to report selected financial assets and liabilities at

#### Table of Contents

#### 8. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

fair value. As a result, with the exception of the line items entitled "other assets" and "debt," which are reported at cost, all assets and liabilities approximate fair value on the balance sheet. The carrying value of the line items entitled "interest receivable," "receivable for open trades," "payable for open trades," "accounts payable and accrued expenses," "management and incentive fees payable" and "interest and facility fees payable" approximate fair value due to their short maturity.

Effective January 1, 2008, the Company adopted ASC 820-10 (previously SFAS No. 157, *Fair Value Measurements*), which expands the application of fair value accounting. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Company to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Company has considered its principal market as the market in which the Company exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the net asset valuation policy approved by our board of directors that is consistent with ASC 820-10 (see Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. Our valuation policy considers the fact that because there is not a readily available market value for most of the investments in our portfolio, the fair value of the investments must typically be determined using unobservable inputs.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses that would be realized based on the valuations currently assigned.

## Table of Contents

## 8. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The following table presents fair value measurements of cash and cash equivalents and investments as of September 30, 2010:

#### Fair Value Measurements Using

	Total	Level 1	L	evel 2	Level 3	
Cash and cash equivalents	\$ 134,362	\$ 134,362	\$		\$	
Investments	\$ 4.149.790	\$	\$	4.586	\$ 4 145 204	

The following tables present changes in investments that use Level 3 inputs for the three and nine months ended September 30, 2010:

	For the three months ended September 30, 2010			
Balance as of June 30, 2010	\$	3,790,038		
Net realized and unrealized gains (losses)		58,131		
Net purchases, sales or redemptions	297,035			
Net transfers in and/or out of Level 3				
Balance as of September 30, 2010	\$	4,145,204		

	For the nine months ended September 30, 2010		
Balance as of December 31, 2009	\$	2,166,687	
Net realized and unrealized gains (losses)		186,029	
Net purchases, sales or redemptions (including investments acquired as part of the Allied Acquisition)		1,792,488	
Net transfers in and/or out of Level 3			
Balance as of September 30, 2010	\$	4,145,204	

As of September 30, 2010, the net unrealized loss on the investments that use Level 3 inputs was \$19,900.

Following are the carrying and fair values of our debt instruments as of September 30, 2010 and December 31, 2009. For the CP Funding Facility, Revolving Credit Facility and the Debt Securitization, fair value is estimated by discounting remaining payments using applicable current

2047 Notes (principal amount outstanding of \$230,000)		180,750		205,778										
	\$	1,524,143	\$	1,525,503	\$	969,465	\$	890,000						

#### 9. RELATED PARTY TRANSACTIONS

In accordance with the investment advisory and management agreement, we bear all costs and expenses of the operation of the Company and reimburse the investment adviser for certain of such costs and expenses incurred in the operation of the Company. For the three and nine months ended September 30, 2010, the investment adviser incurred such expenses totaling \$721 and \$2,253, respectively. For the three and nine months ended September 30, 2009, the investment adviser incurred such expenses totaling \$456 and \$1,400, respectively. As of September 30, 2010, there were no unpaid expenses.

We rent office space directly from a third party pursuant to a lease that expires on February 27, 2011. In addition, we have entered into a sublease agreement with Ares Management whereby Ares Management subleases approximately 25% of our office space for a fixed rent equal to 25% of the basic annual rent payable by us under this lease, plus certain additional costs and expenses. For the three and nine months ended September 30, 2010, such amounts payable to the Company totaled \$1,231 and \$1,917, respectively. For the three and nine months ended September 30, 2009, such amounts payable to the Company totaled \$67 and \$201, respectively. As of September 30, 2010, there were no unpaid amounts.

We recently entered into a new long-term office lease pursuant to which we will lease new office facilities from a third party, and start to pay rent on the new office space in the first quarter of 2011. We also entered into separate subleases with Ares Management and IHAM (as defined in Note 10), pursuant to which Ares Management and IHAM will sublease approximately 15% and 20%, respectively, of the new office space for a fixed rent equal to 15% and 20%, respectively, of the base annual rent payable by us under the new office lease, plus certain additional costs and expenses.

As of September 30, 2010, Ares Investments LLC, an affiliate of Ares Management (the sole member of our investment adviser) owned 2,859,882 shares of the Company's common stock, representing approximately 1.5% of the total shares outstanding as of September 30, 2010.

See Notes 3 and 10 for descriptions of other related party transactions.

#### **Table of Contents**

#### 10. IVY HILL ASSET MANAGEMENT, L.P. AND OTHER MANAGED FUNDS

In November 2007, we established Ivy Hill Asset Management, L.P. ("IHAM") to serve as a manager for Ivy Hill Middle Market Credit Fund, Ltd. ("Ivy Hill I"), an unconsolidated investment vehicle focusing on investments in middle market loans. From inception until the second quarter of 2009, IHAM's financial results were consolidated with those of the Company. In June 2009, because of a shift in activity from being primarily a manager, with no dedicated employees, of funds in which the Company has invested debt and equity, to a manager with investment professionals dedicated to managing an increasing number of third party funds, we concluded that GAAP requires the financial results of IHAM to be reported as a portfolio company in our schedule of investments rather than as a consolidated subsidiary in the Company's financial results. The Company made an initial equity investment of \$3,816 into IHAM in June 2009. As of September 30, 2010, our total investment in IHAM at fair value was \$119,976, including an unrealized gain of \$23,647. For the three and nine months ended September 30, 2010, the Company received \$2,500 and \$4,296, respectively, in distributions from IHAM consisting entirely of dividend income.

IHAM receives a 0.50% management fee on the average total assets of Ivy Hill I as compensation for managing Ivy Hill I. For the three and nine months ended September 30, 2009, the Company earned \$17 and \$900, respectively, in management fees from IHAM's management of Ivy Hill I prior to IHAM's conversion to a portfolio company in June 2009. Ivy Hill I primarily invests in first and second lien bank debt of middle market companies. Ivy Hill I was initially funded with \$404,000 of capital including a \$56,000 investment by the Company, consisting of \$40,000 of Class B notes and \$16,000 of subordinated notes. For the three and nine months ended September 30, 2010, the Company earned \$1,723 and \$5,208, respectively, in interest income from its investments in Ivy Hill I. For the three and nine months ended September 30, 2009, the Company earned \$1,402 and \$4,424, respectively, in interest income from its investments in Ivy Hill I.

Ivy Hill I purchased investments from the Company of \$8,000 during the nine months ended September 30, 2010, and may from time to time purchase additional investments from the Company. Any such purchases require approval by third parties unaffiliated with the Company or IHAM. There was no gain or loss recognized by the Company on these transactions.

In November 2008, the Company established a second middle market credit fund, Ivy Hill Middle Market Credit Fund II, Ltd. ("Ivy Hill II" and, together with Ivy Hill I and Ivy Hill SDF (as defined below), the "Ivy Hill Funds"), which is also managed by IHAM. IHAM receives a 0.50% management fee on the average total assets of Ivy Hill II as compensation for managing this fund. Ivy Hill II primarily invests in second lien and subordinated bank debt of middle market companies. Ivy Hill II was established with an initial commitment of \$250,000 of subordinated notes, of which \$125,000 has been funded, and may grow over time with leverage. Ivy Hill II purchased \$86,500 of investments from the Company during the nine months ended September 30, 2010 and may from time to time purchase additional investments from the Company. Any such purchases require approval by third parties unaffiliated with the Company or IHAM. A loss of \$1,218 was recorded on these transactions. For the three and nine months ended September 30, 2009, the Company earned \$12 and \$365, respectively, in management fees from IHAM's management of Ivy Hill II prior to IHAM's conversion to a portfolio company in June 2009.

In December 2009, the Company made an incremental cash investment of approximately \$33 million in IHAM to facilitate IHAM's acquisition of Allied Capital's management rights in respect of, and interests in, the Allied Capital Senior Debt Fund, L.P. (now referred to as Ivy Hill Senior Debt Fund, L.P. or the "Ivy Hill SDF"). The Ivy Hill SDF currently has approximately \$193 million of committed capital invested primarily in first lien loans and, to a lesser extent, second lien loans of

#### **Table of Contents**

#### 10. IVY HILL ASSET MANAGEMENT, L.P. AND OTHER MANAGED FUNDS (Continued)

middle-market companies. IHAM manages the Ivy Hill SDF and receives fee income and is entitled to potential equity distributions in respect of interests that it acquired in the Ivy Hill SDF.

In March 2010, the Company made an incremental cash investment of approximately \$48 million in IHAM to facilitate IHAM's acquisition of Allied Capital's management rights in respect of, and equity interests in, the Knightsbridge CLO 2007-1, Ltd. and Knightsbridge CLO 2008-1, Ltd. (the "Knightsbridge Funds"). The Knightsbridge Funds have approximately \$644 million of committed capital invested primarily in senior debt. IHAM manages the Knightsbridge Funds and receives fee income and is entitled to potential equity distributions in respect of equity interests that it acquired in the Knightsbridge Funds.

In addition to the Ivy Hill Funds and the Knightsbridge Funds, IHAM also serves as the sub-adviser/sub-manager to four other funds: Colts 2005-1 Ltd., Colts 2005-2 Ltd., Colts 2007-1 Ltd. and Firstlight Funding I, Ltd., which is affiliated with our portfolio company, Firstlight Financial Corporation.

Beginning in November 2008, IHAM was party to a separate services agreement, referred to herein as the "services agreement," with Ares Capital Management. Pursuant to the services agreement, Ares Capital Management provided IHAM with office facilities, equipment, clerical, bookkeeping and record keeping services, services of investment professionals and others to perform investment advisory, research and related services, services of, and oversight of, custodians, depositories, accountants, attorneys, underwriters and such other persons in any other capacity deemed to be necessary. Under the services agreement, IHAM reimbursed Ares Capital Management for all of the costs associated with such services, including Ares Capital Management's allocable portion of overhead and the cost of its officers and respective staff in performing its obligations under the services agreement. The services agreement was terminated effective June 30, 2010 and replaced with a different services agreement with similar terms between IHAM and our administrator. Prior to IHAM's conversion to a portfolio company in June 2009, for the three and nine months ended September 30, 2009, IHAM incurred such expenses payable to Ares Capital Management of \$0 and \$538, respectively.

In October 2009, we completed our acquisition of Allied Capital's subordinated notes in the Senior Secured Loan Program for \$165,000. At September 30, 2010, the Company's investment in the Senior Secured Loan Program was \$425,500 at fair value, including an unrealized gain of \$25,049. The Senior Secured Loan Program was formed in December 2007 to invest in "unitranche" loans (loans that combine both senior and subordinated debt, generally in a first lien position) of middle-market companies and currently has approximately \$3.6 billion of total committed capital, approximately \$2.0 billion in aggregate principal amount of which is currently funded. At September 30, 2010, the Company's unfunded commitment to the Senior Secured Loan Program was \$98 million. The Senior Secured Loan Program is capitalized as transactions are completed. Together with GE Commercial Finance Investment Advisory Services LLC ("GE"), we serve as co-managers of the Senior Secured Loan Program and investments made by the program must be approved by both the Company and GE. Our investment entitles us to a coupon of LIBOR plus 8.0% and also entitles us to receive a portion of the excess cash flow from the loan portfolio, which may result in a return greater than the contractual coupon. The Company is also entitled to certain other sourcing and management fees related to this investment. See Note 5 for additional information on the Company's investment in the Senior Secured Loan Program.

In addition, we manage an unconsolidated fund, AGILE Fund I, LLC, and our wholly owned subsidiary A.C. Corporation manages three unconsolidated loan funds: Emporia Preferred Funding I, Ltd., Emporia Preferred Funding II, Ltd. and Emporia Preferred Funding III, Ltd. For the three and nine months ended September 30, 2010, the Company earned management fees of \$1,349

## Table of Contents

#### 10. IVY HILL ASSET MANAGEMENT, L.P. AND OTHER MANAGED FUNDS (Continued)

and \$3,014, respectively, from these funds. In August 2010, the Company made an incremental cash investment of approximately \$8 million in IHAM to facilitate IHAM's acquisition of an equity interest in Emporia Preferred Funding III, Ltd.

#### 11. DERIVATIVE INSTRUMENTS

In October 2008, we entered into an interest rate swap agreement that ends on December 20, 2010 to mitigate our exposure to adverse fluctuations in interest rates for a total notional amount of \$75 million. Under the interest rate swap agreement, we will pay a fixed interest rate of 2.985% and receive a floating rate based on the prevailing three-month LIBOR. As of September 30, 2010 and December 31, 2009, the 3-month LIBOR was 0.29% and 0.25%, respectively. For the three and nine months ended September 30, 2010, we recognized \$401 and \$1,293, respectively, in unrealized appreciation related to this swap agreement. As of September 30, 2010 and December 31, 2009, this swap agreement had a fair value of \$(448) and \$(1,741), respectively, which is included in "accounts payable and other liabilities" in the accompanying consolidated balance sheet.

## 12. STOCKHOLDERS' EQUITY

The following table summarizes the total shares issued and proceeds we received net of underwriter and offering costs for offerings closed during the nine months ended September 30, 2010 and 2009 (dollar amounts in millions, except per share data):

	Shares issued	Offerin	- ·	Proceeds net of e underwriting an offering costs			
February 2010 public offering	22,957,993	\$	12.75	\$	277.0		
1 cordary 2010 public offering	22,731,773	Ψ	12.75	Ψ	211.0		
Total for the nine months ended September 30, 2010	22,957,993			\$	277.0		
August 2009 public offering	12,439,908	\$	9.25	\$	109.1		
Total for the nine months ended September 30, 2009	12,439,908			\$	109.1		

In connection with the Allied Acquisition, on April 1, 2010, we issued 58,492,537 shares valued at approximately \$872.7 million.

## Table of Contents

## 13. DIVIDENDS

The following table summarizes our dividends declared during the nine months ended September 30, 2010 and 2009 (in millions, except per share data):

Date Declared	Record Date	Payment Date	 Amount Per Share		Fotal mount
August 5, 2010	September 15, 2010	September 30, 2010	\$ 0.35	\$	67.3
May 10, 2010	June 15, 2010	June 30, 2010	\$ 0.35	\$	67.1
February 25, 2010	March 15, 2010	March 31, 2010	\$ 0.35	\$	46.5
Total declared for the nine months ended September 30, 2010			\$ 1.05	\$	180.9
August 6, 2009	September 15, 2009	September 30, 2009	\$ 0.35	\$	38.4
May 7, 2009	June 15, 2009	June 30, 2009	\$ 0.35	\$	34.1
March 2, 2009	March 16, 2009	March 31, 2009	\$ 0.42	\$	40.8
Total declared for the nine months ended September 30, 2009			\$ 1.12	\$	113.3

During the nine months ended September 30, 2009, as part of the Company's dividend reinvestment plan (the "DRIP") for our common stockholders, we purchased 1,500,841 shares of our common stock at an average price of \$6.86 per share in the open market in order to satisfy part of the reinvestment aspect of the DRIP. There were no purchases of shares of our common stock by the Company during the nine months ended September 30, 2010.

#### **Table of Contents**

#### 14. FINANCIAL HIGHLIGHTS

The following is a schedule of financial highlights for the nine months ended September 30, 2010 and 2009:

	For the nine months ended				
Per Share Data:	-	mber 30, 2010	September 30, 2009		
Net asset value, beginning of period(1)	\$	11.44	\$ 11.27		
Issuance of common stock		1.15	(0.28)		
Effect of antidilution		(0.27)	(0.04)		
Net investment income for period(2)		0.90	0.96		
Gain on the acquisition of Allied Capital Corporation		1.16			
Net realized and unrealized gains for period(2)		1.10	0.38		
Net increase in stockholders' equity resulting from operations		3.16	1.34		
Distributions from net investment income		(1.05)	(1.00)		
Distributions from net realized capital gains on securities			(0.13)		
Total distributions to stockholders		(1.05)	(1.13)		
Net asset value at end of period(1)	\$	14.43	\$ 11.16		
Per share market value at end of period	\$	15.65	\$ 11.02		
Total return based on market value(3)		34.14%	2 -12 17-		
Total return based on net asset value(4)		24.10%			
Shares outstanding at end of period		192,566,434	109,592,728		
Ratio/Supplemental Data:	_				
Net assets at end of period	\$	,,	\$ 1,222,591		
Ratio of operating expenses to average net assets(5)(6)		10.51%	· · · · · · ·		
Ratio of net investment income to average net assets(5)(7)		9.24%			
Portfolio turnover rate(5)		48%	15%		

- (1) The net assets used equals the total stockholders' equity on the consolidated balance sheets.
- (2) Weighted average basic per share data.
- For the nine months ended September 30, 2010, the total return based on market value equals the increase of the ending market value at September 30, 2010 of \$15.65 per share over the ending market value at December 31, 2009 of \$12.45 per share, plus the declared dividend of \$1.05 per share for the nine months ended September 30, 2010, divided by the market value at December 31, 2009. For the nine months ended September 30, 2009, the total return based on market value equals the decrease of the ending market value at September 30, 2009 of \$11.02 per share over the ending market value at December 31, 2008 of \$6.33 per share, plus the declared dividend of \$1.12 per share for the nine months ended September 30, 2009, divided by the market value at December 31, 2008. Total return based on market value is not annualized. The Company's shares fluctuate in value. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.
- For the nine months ended September 30, 2010, the total return based on net asset value equals the change in net asset value during the period plus the declared dividends of \$1.05 per share for the nine months ended September 30, 2010, divided by the beginning net asset value at January 1, 2010. For the nine months ended September 30, 2009, the total return based on net asset value equals the change in net asset value during the period plus the declared dividend of \$1.12 per share for the nine months ended September 30, 2009, divided by the beginning net asset value at

#### **Table of Contents**

## 14. FINANCIAL HIGHLIGHTS (Continued)

January 1, 2009. These calculations are adjusted for shares issued in connection with the dividend reinvestment plan and the issuance of common stock in connection with any equity offerings. Total return based on net asset value is not annualized. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.

- (5) The ratios reflect an annualized amount.
- For the nine months ended September 30, 2010, the ratio of operating expenses to average net assets consisted of 2.16% of base management fees, 2.48% of incentive management fees, 3.30% of the cost of borrowing and other operating expenses of 2.57%. For the nine months ended September 30, 2009, the ratio of operating expenses to average net assets consisted of 2.72% of base management fees, 2.87% of incentive management fees, 2.25% of the cost of borrowing and other operating expenses of 1.88%. These ratios reflect annualized amounts.
- (7)

  The ratio of net investment income to average net assets excludes income taxes related to realized gains.

#### 15. ALLIED ACQUISITION

On October 26, 2009, we entered into a definitive agreement to acquire Allied Capital in an all stock transaction. On April 1, 2010, we completed the Allied Acquisition by acquiring the outstanding shares of Allied Capital in exchange for shares of our common stock in a transaction valued at approximately \$908 million as of the closing date. Concurrently with the completion of the Allied Acquisition, we assumed and then repaid in full the \$137 million of remaining amounts outstanding on Allied Capital's \$250 million senior secured term loan. We also assumed all of Allied Capital's other outstanding debt obligations, including approximately \$745 million in principal amount of Allied Capital's Unsecured Notes.

Under the terms of the transaction, each Allied Capital stockholder received 0.325 shares of our common stock for each share of Allied Capital common stock then owned by such stockholder. In connection with the Allied Acquisition, approximately 58.5 million shares of our common stock (including the effect of outstanding in-the money Allied Capital stock options) were issued to Allied Capital's then-existing stockholders, thereby resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company.

The Allied Acquisition was accounted for in accordance with the acquisition method of accounting as detailed in ASC 805-10 (previously SFAS No. 141(R)), *Business Combinations*. The acquisition method of accounting requires an acquirer to recognize the assets acquired, the liabilities assumed and any noncontrolling interest in the acquired entity based on their fair values as of the date of acquisition. As described in more detail in ASC 805-10, if the total acquisition date fair value of the identifiable net assets acquired exceeds the fair value of the consideration transferred, the excess will be recognized as a gain. Upon completion of our determination of the fair value of Allied Capital's identifiable net assets as of April 1, 2010, the fair value of such net assets exceeded the fair value of the consideration transferred, thereby, resulting in the recognition of a gain. The valuation of the investments acquired as part of the Allied Acquisition was done in accordance with Ares Capital's valuation policy (see Notes 2 and 8).

#### **Table of Contents**

## 15. ALLIED ACQUISITION (Continued)

Following is the allocation of the purchase price to the assets acquired and liabilities assumed as a result of the Allied Acquisition:

Common stock issued	\$ 872,727
Payments to holders of "in-the-money"	
Allied Capital stock options	35,011(1)
Total purchase price	\$ 907,738
Assets acquired:	
Investments	\$ 1,833,766
Cash and cash equivalents	133,548
Other assets	80,078
Total assets acquired	2,047,392
Debt and other liabilities assumed	(943,778)
Net assets acquired	1,103,614
Gain on acquisition of Allied Capital	(195,876)
	\$ 907,738
	,

(1) Represents cash payment for holders of any "in-the-money" Allied Capital stock options that elected to receive cash.

The following unaudited pro forma condensed combined financial information does not purport to be indicative of actual financial position or results of our operations had the Allied Acquisition actually been consummated at the beginning of each period presented. Certain one-time charges have been eliminated. For the three and nine months ended September 30, 2010, we recognized \$1,438 and \$17,761, respectively, in professional fees and other costs related to the Allied Acquisition. The pro forma adjustments reflecting the allocation of the purchase price of Allied Capital and the gain of \$195,876 recognized on the Allied Acquisition have been eliminated from all periods presented. The pro forma condensed combined financial information does not reflect the potential impact of possible synergies and does not reflect any impact of additional accretion which would have been recognized on the transaction, except for that which was recorded after the transaction was consummated on April 1, 2010.

	Three months ended September 30,			Nine months ended September 30,			
		2010		2009	2010		2009
Total investment income	\$	138,126	\$	145,511	\$ 380,318	\$	355,820

#### 16. LITIGATION

On July 29, 2010, the court in In re Allied Capital Corporation Shareholder Litigation, Case No. 322639V (Circuit Court for Montgomery County, Maryland) (the "Maryland action") issued an order approving the settlement and dismissing all claims against Allied Capital, the Company and the other defendants in the Maryland action. On August 3, 2010, the court in Ryan v. Walton, et al., Case No. 1:10-CV-000145-RMC (United States District Court for the District of Columbia) (the "D.C. Federal Court action") dismissed the D.C. Federal Court action. On August 10, 2010, Sandler v. Walton, et al., Case No. 2009 CA 008123 B (Superior Court for the District of Columbia), which was consolidated with Wienecki v. Allied Capital Corporation, et al., Case No. 2009 CA 008541 B (Superior Court for the District of Columbia), was dismissed. All of these actions had been filed by stockholders of Allied Capital challenging the Allied Acquisition and were dismissed in connection with settlements among the plaintiffs, Allied Capital and the Company. The settlements are not, and should not be construed as, an admission of wrongdoing or liability by any defendant. The parties considered it desirable that the actions be settled to avoid the expense, risk, inconvenience and distraction of continued litigation and to fully resolve the settled claims.

In addition, the Company is party to certain lawsuits in the normal course of business. Furthermore, third parties may try to seek to impose liability on Ares Capital in connection with the activities of its portfolio companies. While the outcome of any such open legal proceedings cannot at this time be predicted with certainty, the Company does not expect these matters will materially affect its financial condition or results of operations.

#### 17. SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of issuance of the consolidated financial statements included herein. There have been no subsequent events that occurred during such period that would require disclosure in this Form 10-Q or would be required to be recognized in the Consolidated Financial Statements as of and for the nine months ended September 30, 2010, except as disclosed below.

On October 21, 2010, we issued \$200 million of senior unsecured notes that mature on October 15, 2040 (the "2040 Notes") and may be redeemed in whole or in part at our option at any time on or after October 15, 2015 at a par redemption price of \$25 per security plus accrued and unpaid interest. The principal amount of the 2040 Notes will be payable at maturity. Ares Capital used the net proceeds of this offering to repay outstanding indebtedness under the Revolving Credit Facility. The 2040 Notes bear interest at a rate of 7.75% per year payable quarterly commencing on January 15, 2011. Total proceeds from the issuance of the 2040 Notes, net of underwriters' discount and offering costs, were approximately \$193 million.

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments.

We are externally managed by Ares Capital Management LLC, an affiliate of Ares Management LLC, a global alternative asset manager and a Securities and Exchange Commission ("SEC") registered investment adviser with approximately \$37 billion of total committed capital under management as of June 30, 2010. Ares Operations LLC, an affiliate of Ares Management LLC, provides the administrative services necessary for us to operate.

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." On September 30, 2010, the last reported sales price of our common stock on The NASDAQ Global Select Market was \$15.65 per share. The net asset value per share of our common stock at June 30, 2010 (the last date prior to the date of this prospectus on which we determined net asset value) was \$14.11.

Investing in our securities involves risks that are described in the "Risk Factors" section beginning on page 25 of this prospectus, including the risk of leverage.

We may offer, from time to time, in one or more offerings or series, up to \$1,500,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, preferred stock or debt securities, separately or as units comprised of any combination of the foregoing, which we refer to, collectively, as the "securities." The preferred stock, debt securities, subscription rights and warrants offered hereby may be convertible or exchangeable into shares of our common stock. The securities may be offered at prices and on terms to be described in one or more supplements to this prospectus. In the event we offer common stock, the offering price per share of our common stock less any underwriting commissions or discounts will generally not be less than the net asset value per share of our common stock at the time we make the offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (a) in connection with a rights offering to our existing stockholders, (b) with the prior approval of the majority of our common stockholders or (c) under such circumstances as the SEC may permit. This prospectus and the accompanying prospectus supplement concisely provide important information about us that you should know before investing in our securities. Please read this prospectus and the accompanying prospectus supplement before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at www.arescapitalcorp.com. The SEC also maintains a website at www.sec.gov that contains such information.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of securities unless accompanied by a prospectus supplement.

The date of this prospectus is October 8, 2010.

#### ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the SEC, using the "shelf" registration process. Under the shelf registration process, we may offer, from time to time, in one or more offerings or series, up to \$1,500,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock or warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, separately or as units comprised of any combination of the foregoing, on terms to be determined at the time of the offering. The securities may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the securities that we may offer. Each time we use this prospectus to offer securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and the prospectus supplement together with any exhibits and the additional information described under the headings "Available Information" and "Risk Factors" before you make an investment decision.

ii

#### Table of Contents

#### PROSPECTUS SUMMARY

This summary highlights some of the information contained elsewhere in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in this prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its consolidated subsidiaries; "Ares Capital Management" or "the investment adviser" refers to Ares Capital Management LLC; "Ares Operations" refers to Ares Operations LLC; and "Ares" refers to Ares Partners Management Company LLC ("APMC") and its affiliated companies (other than portfolio companies of its affiliated funds), including Ares Management LLC, which we refer to separately as "Ares Management."

As described in more detail below, we consummated the acquisition (the "Allied Acquisition") of Allied Capital Corporation ("Allied Capital") on April 1, 2010. Other than as set forth in the pro forma financial information or otherwise specifically set forth herein, financial information presented herein for and as of periods ending on or prior to March 31, 2010 does not include any information in respect of Allied Capital. In addition, other than as set forth in the pro forma financial information or otherwise specifically set forth herein, financial information for the six months ended June 30, 2010, including, without limitation, with respect to the Company's consolidated statements of operations, stockholders' equity and cash flows, only includes results attributable to Allied Capital for the period beginning April 1, 2010.

#### THE COMPANY

Ares Capital, a Maryland corporation, is a specialty finance company that is a closed-end, non-diversified management investment company. We have elected to be regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, or the "Investment Company Act." We were founded on April 16, 2004, were initially funded on June 23, 2004 and completed our initial public offering on October 8, 2004. We are one of the largest BDCs with approximately \$12 billion of total committed capital under management as of June 30, 2010, including available debt capacity (subject to leverage restrictions), funds co-managed by us and funds managed or sub-managed by our wholly owned portfolio company, Ivy Hill Asset Management, L.P. ("IHAM").

Ares Capital's investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive. However, we may from time to time invest in larger companies. In this prospectus, we generally use the term "middle market" to refer to companies with annual EBITDA between \$10 million and \$250 million. As used herein, EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

On April 1, 2010, we consummated the Allied Acquisition in an all stock merger whereby each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock. The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital's then-existing stockholders, thereby resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company. See "Risk Factors Risks Relating to Our Business We may be unable to realize the benefits anticipated by the Allied Acquisition, including estimated cost savings and synergies, or it may take longer than anticipated to achieve such benefits" for a description of the risks that the Company may face as a result of the Allied Acquisition.

We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. These loans also have

1

#### Table of Contents

the benefit of security interests on the assets of the portfolio company, which may rank ahead of or be junior to other security interests. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments have ranged between \$20 million and \$200 million each, although the investment sizes may be more or less than the targeted range. Our investment sizes are expected to grow with our capital availability.

To a lesser extent, we also make equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent loan investment). However, we may increase the size or nature of these investments. Also, as a result of the Allied Acquisition, Allied Capital's equity investments, including equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to actively seek opportunities over time to dispose of certain of these investments and rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. However, there can be no assurance that this strategy will be successful. For risks relating to these investments, see "Risk Factors Risks Relating to Our Investments in equity securities involve a substantial degree of risk."

The proportion of these investments will change over time given our views on, among other things, the economic and credit environment we are operating in. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In such situations, while we may initially agree to fund up to a certain dollar amount of an investment, we may syndicate a portion of such amount to third parties, such that we make a smaller investment than what was reflected in our original commitment.

The first and second lien senior loans generally have stated terms of three to 10 years and the mezzanine debt investments generally have stated terms of up to 10 years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, we may invest in securities with any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage Ares' current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investments. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares has been in existence for more than 12 years and its senior principals have an average of over 20 years experience investing in senior loans, high yield bonds, mezzanine debt and private equity securities. The Company has access to the Ares staff of approximately 140 investment professionals and approximately 190 administrative professionals employed by Ares who provide assistance in accounting, legal, compliance, operations, technology and investor relations.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies, we also may invest up to 30% of our portfolio in opportunistic investments of non-eligible portfolio companies. Specifically, as part of this 30% basket, we may invest in debt of middle market companies located outside of the United States, in investment funds that are operating pursuant to certain exceptions to the Investment Company Act, in advisers to similar investment funds and in debt and equity of public companies that do not meet the definition of

### Table of Contents

eligible portfolio companies because their market capitalization of publicly traded equity securities exceeds the levels provided for in the Investment Company Act. We expect that these public companies generally will have debt that may be non-investment grade. From time to time we may also invest in high yield bonds, which, depending on the issuer, may or may not be included in this 30% basket.

We and GE Commercial Finance Investment Advisory Services LLC also co-manage an unconsolidated senior debt fund: the Senior Secured Loan Fund LLC (formerly known as the Unitranche Fund LLC), or the "Senior Secured Loan Fund."

We also manage an unconsolidated fund, AGILE Fund I, LLC (the "AGILE Fund"), and our wholly owned subsidiary A.C. Corporation manages three unconsolidated loan funds: Emporia Preferred Funding I, Ltd., Emporia Preferred Funding II, Ltd. and Emporia Preferred Funding III, Ltd. (collectively, the "Emporia Funds").

In addition, we have made investments in our portfolio company, IHAM, which manages five unconsolidated senior debt funds, Ivy Hill Middle Market Credit Fund, Ltd. ("Ivy Hill I"), Ivy Hill Middle Market Credit Fund II, Ltd. ("Ivy Hill II"), Ivy Hill Senior Debt Fund, L.P. and related vehicles ("Ivy Hill SDF" and, together with Ivy Hill I and Ivy Hill II, the "Ivy Hill Funds"), and Knightsbridge CLO 2007-1, Ltd. and Knightsbridge CLO 2008-1, Ltd. (the "Knightsbridge Funds"), and serves as the sub-adviser/sub-manager for four others: CoLTS 2005-1 Ltd., CoLTS 2005-2 Ltd. and CoLTS 2007-1 Ltd., or collectively, the "CoLTS Funds," and FirstLight Funding I, Ltd., or "FirstLight." As of June 30, 2010, IHAM had total committed capital under management of over \$2.9 billion, which includes approximately \$0.3 billion of capital committed by Ares Capital.

### **About Ares**

Founded in 1997, Ares is a global alternative asset manager and SEC registered investment adviser with approximately \$37 billion of total committed capital under management and over 330 employees as of June 30, 2010.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the origination, acquisition and management of senior loans, high yield bonds, mezzanine debt and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle market companies. Ares has the ability to invest across a capital structure, from senior floating rate debt to common equity. This flexibility, combined with Ares' "buy and hold" philosophy, enables Ares to structure an investment to meet the specific needs of a company rather than the less flexible demands of the public markets.

Ares is comprised of the following groups:

**Private Debt Group.** The Ares Private Debt Group manages the assets of Ares Capital, Ares Credit Strategies Fund II, L.P. and Ares' private debt middle market financing business in Europe, Ares Capital Europe ("ACE"), which together had approximately \$13 billion of committed capital under management as of June 30, 2010. The Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt, which in some cases may include an equity component. The Private Debt Group also makes equity investments in private middle market companies, usually in conjunction with loans.

**Capital Markets Group.** The Ares Capital Markets Group manages approximately \$18 billion of committed capital as of June 30, 2010 through a variety of funds and investment vehicles, focusing primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

### Table of Contents

**Private Equity Group.** The Ares Private Equity Group manages approximately \$6 billion of committed capital as of June 30, 2010, primarily through Ares Corporate Opportunities Fund L.P., Ares Corporate Opportunities Fund II, L.P. and Ares Corporate Opportunities Fund III, L.P. (collectively referred to as "ACOF"). ACOF generally makes private equity investments in amounts substantially larger than the private equity investments anticipated to be made by the Company. In particular, the Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior principals have been working together as a group for many years and have an average of over 20 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a large team of highly disciplined professionals. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and high net worth individuals investing in Ares' funds.

## **Ares Capital Management**

Ares Capital Management, our investment adviser, is served by a dedicated origination and transaction development team of approximately 65 investment professionals led by the senior partners of Ares Capital Management: Michael Arougheti, Eric Beckman, Kipp deVeer, Mitchell Goldstein and Michael Smith. Ares Capital Management leverages off of Ares' entire investment platform and benefits from the significant capital markets, trading and research expertise of Ares' investment professionals. Ares funds currently hold over 1,000 investments in over 30 different industries. Ares Capital Management's investment committee has nine members, including the senior partners of Ares Capital Management and certain Senior Partners of Ares' Capital Markets Group, Private Equity Group and the Managing Director of ACE

### MARKET OPPORTUNITY

We believe there are opportunities for us to invest in middle market companies for the following reasons:

We believe that the dislocation in the credit markets in recent years has resulted in reduced competition, a widening of interest spreads, increased fees and generally more conservative capital structures and deal terms. Although secondary loan prices have rebounded from historic lows, attractive opportunities to purchase debt in the secondary market continue to exist in certain situations.

We believe that many senior lenders have, in recent years, de-emphasized their service and product offerings to middle market businesses in favor of lending to large corporate clients and managing capital markets transactions. In addition, commercial and investment banks are severely limited in their ability to underwrite new financings as they seek to replenish their capital bases and reduce leverage, resulting in opportunities for alternative funding sources.

We believe there is increased demand among private middle market companies for primary capital. Many middle market firms have faced increased difficulty raising debt in the capital markets, as commercial and investment banks are capital-constrained and largely unable to underwrite and syndicate bank loans and high yield securities, particularly for middle market issuers.

### Table of Contents

We believe there is a large pool of uninvested private equity capital for middle market companies. We expect private equity firms will seek to leverage their investments by combining equity capital with senior secured loans and mezzanine debt from other sources.

We believe that as of the date of this prospectus, the recent economic downturn has resulted (and will continue to result) in defaults and covenant breaches by middle market companies, which will require new junior capital to shore up liquidity or provide new capital through restructuring.

A high volume of senior secured and high yield debt was originated in the calendar years 2004 through 2007 and will come due in the near term and, accordingly, we believe that new financing opportunities will increase as many leveraged companies seek to refinance in the near term.

#### COMPETITIVE ADVANTAGES

We believe that we have the following competitive advantages over other capital providers to middle market companies:

#### **Existing Investment Platform**

As of June 30, 2010, Ares managed approximately \$37 billion of total committed capital under management in the related asset classes of non-syndicated first and second lien senior loans, syndicated loans, high yield bonds, mezzanine debt and private equity. We believe Ares' current investment platform provides a competitive advantage in terms of access to origination and marketing activities and diligence for Ares Capital. Specifically, the Ares platform provides the Company an advantage through its deal flow generation and investment evaluation process. Ares' asset management platform also provides additional market information, company knowledge and industry insight that benefit the investment and due diligence process. Ares' professionals maintain extensive financial sponsor and intermediary relationships, which provide valuable insight and access to transactions and information.

## **Seasoned Management Team**

Ares' senior professionals have an average of over 20 years of experience in leveraged finance, including substantial experience in investing in leveraged loans, high yield bonds, mezzanine debt, distressed debt and private equity securities. Ares Capital Management's investment professionals and members of its investment committee also have significant experience investing across market cycles. As a result of Ares' extensive investment experience and the history of its seasoned management team, Ares has developed a strong reputation across U.S. and European capital markets. We believe that Ares' long history in the leveraged loan market and the extensive experience of the principals investing across market cycles provides Ares Capital Management with a competitive advantage in identifying, investing in, and managing a portfolio of investments in middle market companies.

## **Experience and Focus on Middle Market Companies**

Ares has historically focused on investments in middle market companies and we benefit from this experience. In sourcing and analyzing deals, our investment adviser uses Ares' extensive network of relationships with intermediaries focused on middle market companies, including management teams, members of the investment banking community, private equity groups and other investment firms with whom Ares has long relationships. We believe this network enables us to attract well-positioned prospective portfolio company investments. Our investment adviser works closely with the Ares investment professionals, who oversee a portfolio of investments in over 1,000 companies and provide access to an extensive network of relationships and insights into industry trends and the state of the capital markets.

### Table of Contents

## **Disciplined Investment Philosophy**

In making its investment decisions, our investment adviser has adopted Ares' long-standing, consistent credit-based investment approach that was developed over 19 years ago by its founders. Specifically, Ares Capital Management's investment philosophy, portfolio construction and portfolio management involve an assessment of the overall macroeconomic environment, financial markets and company-specific research and analysis. Its investment approach emphasizes capital preservation, low volatility and minimization of downside risk. In addition to engaging in extensive due diligence from the perspective of a long-term investor, Ares Capital Management's approach seeks to reduce risk in investments by focusing on:

businesses with strong franchises and sustainable competitive advantages;
industries with positive long-term dynamics;
cash flows that are dependable and predictable;
management teams with demonstrated track records and economic incentives;
rates of return commensurate with the perceived risks; and
securities or investments that are structured with protective terms and covenants.

## **Extensive Industry Focus**

We concentrate our investing activities in industries with a history of predictable and dependable cash flows and in which the Ares investment professionals have had extensive investment experience. Since its inception in 1997, Ares investment professionals have invested in over 30 different industries. Ares investment professionals have developed long-term relationships with management teams and management consultants in these industries and have accumulated substantial information and identified potential trends within these industries. The experience of Ares' investment professionals investing across these industries throughout various stages of the economic cycle provides our investment adviser with access to market insights and investment opportunities.

## Flexible Transaction Structuring

We are flexible in structuring investments, including the types of securities in which we invest and the terms associated with such investments. Our investment adviser and its affiliates have extensive experience investing in a wide variety of securities for leveraged companies with a diverse set of terms and conditions. We believe this approach and experience enables our investment adviser to identify attractive investment opportunities throughout economic cycles and across a company's capital structure so we can make investments consistent with our stated investment objective and preserve principal while seeking appropriate risk adjusted returns. In addition, we have the ability to provide "one stop" financing with the ability to invest capital across the balance sheet and hold and syndicate larger investments than many of our competitors. The ability to underwrite, syndicate and hold larger investments benefits our stockholders by (a) potentially increasing net income and earnings through syndication, (b) increasing originated deal flow flexibility, (c) broadening market relationships and deal flow, (d) allowing us to optimize our portfolio composition and (e) allowing us to provide capital to middle market companies, which we believe currently have limited access to capital from traditional lending sources. We believe that the ability to provide capital at every level provides a strong value proposition to middle market borrowers and our senior debt capabilities provide superior deal origination and relative value analysis capabilities compared to traditional "mezzanine only" lenders.

### Table of Contents

## **Broad Origination Strategy**

Our investment adviser focuses on self-originating most of our investments by identifying a broad array of investment opportunities across multiple channels. It also leverages off of the extensive relationships of the broader Ares platform, including relationships with the companies in the funds managed by IHAM, to identify investment opportunities. We believe that this allows for asset selectivity and that there is a significant relationship between proprietary deal origination and credit performance. We believe that our focus on generating proprietary deal flow and lead investing also gives us greater control over capital structure, deal terms, pricing and documentation and provides us with the ability to actively manage our investments. Moreover, by leading the investment process, our investment adviser is often able to secure controlling positions in credit tranches, thereby providing additional control in investment outcomes. Our investment adviser also has originated substantial proprietary deal flow from middle market intermediaries, which often allows us to act as the sole or principal source of institutional capital to the borrower.

#### OPERATING AND REGULATORY STRUCTURE

Our investment activities are managed by Ares Capital Management and supervised by our board of directors, a majority of whom are independent of Ares and its affiliates. Ares Capital Management is an investment adviser that is registered under the Investment Advisers Act of 1940, or the "Advisers Act." Under our amended and restated investment advisory and management agreement, referred to herein as our "investment advisory and management agreement," we have agreed to pay Ares Capital Management an annual base management fee based on our total assets, as defined under the Investment Company Act (other than cash and cash equivalents but including assets purchased with borrowed funds), and an incentive fee based on our performance. See "Management Investment Advisory and Management Agreement."

As a BDC, we are required to comply with certain regulatory requirements. While we are permitted to finance investments using debt, our ability to use debt is limited in certain significant respects. See "Regulation." We have elected to be treated for U.S. federal income tax purposes as a regulated investment company, or a "RIC," under Subchapter M of the Internal Revenue Code of 1986, or the "Code." See "Certain Material U.S. Federal Income Tax Considerations."

### MARKET CONDITIONS

Due to volatility in global markets, the availability of capital and access to capital markets has been limited over the last two years. We have responded to constraints on raising new capital by pursuing other avenues of liquidity and growth, such as adjusting the pace of our investments, becoming more selective in evaluating investment opportunities, pursuing asset sales, developing our third-party asset management capabilities and/or reinvesting the proceeds from sales of lower yielding investments into higher yielding investments. We also intend to continue pursuing opportunities to manage third-party funds. As the global liquidity situation and market conditions evolve, we will continue to monitor and adjust our approach to funding accordingly. However, given the unprecedented nature of the volatility in the global markets, there can be no assurances that these activities will be successful. While levels of market disruption and volatility have improved, there can be no assurance that they will not worsen. If they do, we could face materially higher financing costs. Consequently, our operating strategy could be materially and adversely affected.

Consistent with the volatile market conditions of the general economy, during 2008 and much of 2009, the stocks of BDCs as an industry traded at near historic lows as a result of concerns over liquidity, credit quality, leverage restrictions and distribution requirements. As a result of this market volatility, several of our peers are no longer active in the market and are winding down their investments, have defaulted on their indebtedness and/or have decreased their distributions to

#### Table of Contents

stockholders. While market conditions have improved, we cannot assure you that the market pressures we face will not have a material adverse effect on our business, financial condition and results of operations.

See "Risk Factors Risks Relating to Our Business Capital markets have recently been in a period of disruption and instability. These market conditions have materially and adversely affected debt and equity capital markets in the United States, which has had, and may in the future have, a negative impact on our business and operations."

## **ACQUISITION OPPORTUNITIES**

We believe that the dislocation in the credit markets has created compelling risk adjusted returns in both the primary and secondary markets. Further, the current dislocation and illiquidity in the credit markets has also increased the likelihood of further consolidation in our industry. To that end, over the past 12-18 months we and our portfolio company IHAM have evaluated (and expect to continue to evaluate in the future) a number of potential strategic acquisition opportunities, including acquisitions of:

asset portfolios;

contracts to manage collateralized loan obligation, or "CLO," vehicles and other investment vehicles;

other private and public finance companies or asset managers; and

selected secondary market assets.

For example, in June 2009 our portfolio company IHAM completed the acquisition of contracts to sub-manage approximately \$770 million of middle market loan assets in three CLO vehicles managed by affiliates of Wells Fargo & Company. IHAM also acquired certain equity interests in these three CLOs. On October 30, 2009, we completed our acquisition of Allied Capital's interests in the Senior Secured Loan Fund for \$165 million in cash and on December 29, 2009, we made an incremental investment in IHAM to facilitate its acquisition of Allied Capital's management rights in respect of, and interests in, Ivy Hill SDF for approximately \$33 million in cash. On March 24, 2010, we made an incremental investment in IHAM to facilitate its acquisition of Allied Capital's management rights in respect of, and a portion of its interests in, the Knightsbridge Funds. We also acquired interests in the Knightsbridge Funds. Finally, on April 1, 2010, we consummated the Allied Acquisition, becoming the largest business development company measured by market capitalization and total portfolio companies under management as of June 30, 2010. For further discussion on these transactions, see "Management's Discussion and Analysis of Financial Condition and Results of Operations Allied Acquisition" and "Business Investments."

We and our portfolio company IHAM have been and from time to time engage in discussions with counterparties in respect of various potential strategic acquisition and investment transactions, including potential acquisitions of other finance companies. Some of these transactions could be material to our business and, if consummated, could be difficult to integrate, result in increased leverage or dilution and/or subject us to unexpected liabilities. However, none of these discussions has progressed to the point where the consummation of any such transaction could be deemed to be probable or reasonably certain as of the date of this prospectus. Consummation of any such transaction will be subject to completion of due diligence, finalization of key business and financial terms (including price) and negotiation of final definitive documentation as well as a number of other factors and conditions including, without limitation, the approval of our board of directors (after having determined that such transaction is in the best interest of our stockholders), any required third party consents and, in certain cases, the approval of our stockholders. We cannot predict how quickly the terms of any such transaction could be finalized, if at all. Accordingly, there can be no assurance that

### Table of Contents

definitive documentation for any such transaction would be executed or even if executed, that any such transaction will be consummated. In connection with evaluating potential strategic acquisition and investment transactions, we have, and may in the future, incur significant expenses for the evaluation and due diligence investigation of these potential transactions.

## LIQUIDITY

We are party to a senior secured revolving credit facility (as amended and restated, the "Revolving Credit Facility") that provides for up to \$810.0 million (and, to the extent we fully exercise the "accordion" feature of this facility, \$1.05 billion) of borrowings. The Revolving Credit Facility expires on January 22, 2013.

In addition, our wholly owned subsidiary Ares Capital CP Funding LLC ("Ares Capital CP") is party to a revolving facility (as amended, the "CP Funding Facility"), which, as amended, currently provides for up to \$400.0 million of borrowings. The CP Funding Facility expires on January 22, 2013 (with two one year extension options, subject to mutual consent).

We use the term "Facilities" to refer to the Revolving Credit Facility and the CP Funding Facility.

In July 2006, through ARCC Commercial Loan Trust 2006 ("ARCC CLO"), we completed a \$400.0 million debt securitization referred to herein as the "Debt Securitization" and issued approximately \$314.0 million principal amount of asset-backed notes (including \$50.0 million revolving notes, \$27.0 million of which were drawn down as of September 30, 2010), which we refer to as the "CLO Notes," to third parties that are secured by a pool of middle market loans that were purchased or originated by the Company. We serve as the servicer to ARCC CLO. The CLO Notes mature on December 20, 2019.

On April 1, 2010, as part of the Allied Acquisition, we assumed all of Allied Capital's outstanding debt obligations, including Allied Capital's publicly issued unsecured notes: the 6.625% Notes due on July 15, 2011 (the "2011 Notes"), the 6.000% Notes due on April 1, 2012 (the "2012 Notes") and the 6.875% Notes due on April 15, 2047 (the "2047 Notes" and, together with the 2011 Notes and the 2012 Notes, the "Unsecured Notes").

As of September 30, 2010, we had \$431.0 million outstanding under the Revolving Credit Facility and \$283.4 million outstanding under the CP Funding Facility. As of September 30, 2010, we also had outstanding \$177.2 million of CLO Notes that mature on December 20, 2019 and had outstanding \$632.6 million (principal amount of \$691.8 million) of Unsecured Notes as follows: \$294.3 million (principal amount of \$300.6 million) of 2011 Notes, \$157.5 million (principal amount of \$161.2 million) of 2012 Notes and \$180.7 million (principal amount of \$230.0 million) of 2047 Notes. See "Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources."

## RISK FACTORS

Investing in Ares Capital involves risks. The following is a summary of certain risks that you should carefully consider before investing in our securities. In addition, see "Risk Factors" beginning on page 25 for a more detailed discussion of the factors you should carefully consider before deciding to invest in our securities.

## **Risks Relating to Our Business**

Capital markets have recently been in a period of disruption and instability. These market conditions have materially and adversely affected debt and equity capital markets in the

### **Table of Contents**

United States, which has had, and may in the future have, a negative impact on our business and operations.

A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility.

We are dependent upon Ares Capital Management's key personnel for our future success and upon their access to Ares' investment professionals.

Our financial condition and results of operations depend on our ability to manage future growth effectively.

We may be unable to realize the benefits anticipated by the Allied Acquisition, including estimated cost savings and synergies, or it may take longer than anticipated to achieve such benefits.

Our ability to grow depends on our ability to raise capital.

Regulations governing our operation as a BDC affect our ability to, and the way in which we, raise additional capital.

We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us.

In addition to regulatory requirements that restrict our ability to raise capital, the Facilities, the CLO Notes and the Unsecured Notes contain various covenants which, if not complied with, could accelerate repayment under the Facilities, the CLO Notes and the Unsecured Notes, thereby materially and adversely affecting our liquidity, financial condition and results of operations.

Our credit ratings may change and as a result the cost and flexibility under our debt instruments may change.

We operate in a highly competitive market for investment opportunities.

We may be subject to certain corporate-level taxes regardless of whether we continue to qualify as a RIC.

We may have difficulty paying our required distributions under applicable tax rules if we recognize income before or without receiving cash representing such income.

We may in the future determine to fund a portion of our investments with preferred stock, which would magnify the potential for gain or loss and the risks of investing in us in the same way as our borrowings.

We are exposed to risks associated with changes in interest rates.

Many of our portfolio investments are not publicly traded and, as a result, there is uncertainty as to the value of our portfolio investments.

The lack of liquidity in our investments may adversely affect our business.

We may experience fluctuations in our quarterly results.

There are significant potential conflicts of interest that could impact our investment returns.

Changes in laws or regulations governing our operations or the operations of our portfolio companies, changes in the interpretation thereof or newly enacted legislation and regulations, such as the Dodd-Frank Act, and any failure by us or our portfolio companies

10

## Table of Contents

to comply with these laws or regulations, could require changes to certain business practices of us or our portfolio companies, negatively impact the operations, cash flows or financial condition of us or our portfolio companies, impose additional costs on us or our portfolio companies or otherwise adversely affect our business or the business of our portfolio companies.

Our investment adviser's liability is limited under the investment advisory and management agreement, and we are required to indemnify our investment adviser against certain liabilities, which may lead our investment adviser to act in a riskier manner on our behalf than it would when acting for its own account.

We may be obligated to pay our investment adviser incentive compensation even if we incur a loss.

We may not replicate Ares' historical success and our ability to enter into transactions with Ares and our other affiliates is restricted.

## **Risks Relating to Our Investments**

Price declines and illiquidity in the corporate debt markets have adversely affected, and may in the future adversely affect, the fair value of our portfolio investments, reducing our net asset value through increased net unrealized depreciation.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

Investments in privately held middle market companies involve significant risks.

Our debt investments may be risky, and we could lose all or part of our investment.

Investments in equity securities involve a substantial degree of risk.

There may be circumstances where our debt investments could be subordinated to claims of other creditors or we could be subject to lender liability claims.

Our portfolio companies may incur debt or issue equity securities that rank equally with, or senior to, our investments in such companies.

When we are a debt or minority equity investor in a portfolio company, we may not be in a position to exert influence on the entity, and management of the company may make decisions that could decrease the value of our portfolio holdings.

Our portfolio companies may be highly leveraged.

Our investment adviser's incentive fee may induce Ares Capital Management to make certain investments, including speculative investments.

Our investments in foreign debt may involve significant risks in addition to the risks inherent in U.S. investments. We may expose ourselves to risks if we engage in hedging transactions.

We may initially invest a portion of the net proceeds of offerings pursuant to this prospectus primarily in high-quality short-term investments, which will generate lower rates of return than those expected from the interest generated on first and second lien loans and mezzanine debt.

The Allied Acquisition may have triggered certain "change of control" provisions and other restrictions in certain of our and Allied Capital's contracts and the failure to obtain any required consents or waivers could adversely impact us.

**Table of Contents** 

Risks Relating to Offerings Pursuant to this Prospectus

Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could

limit our ability to raise additional equity capital.

There is a risk that investors in our equity securities may not receive dividends or that our dividends may not grow over time

and that investors in our debt securities may not receive all of the interest income to which they are entitled.

Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have

an adverse impact on the price of our common stock.

Investing in our securities may involve an above average degree of risk.

The market price of our common stock may fluctuate significantly.

The net asset value per share of our common stock may be diluted if we sell shares of our common stock in one or more

offerings at prices below the then current net asset value per share of our common stock or securities to subscribe for or

convertible into shares of our common stock.

Your interest in us may be diluted if you do not fully exercise your subscription rights in any rights offering. In addition, if the subscription price is less than our net asset value per share, then you will experience an immediate dilution of the

aggregate net asset value of your shares.

Investors in offerings of our common stock will likely incur immediate dilution upon the closing of such offering.

Our stockholders will experience dilution in their ownership percentage if they do not participate in our dividend

reinvestment plan.

Our stockholders may receive shares of our common stock as dividends, which could result in adverse tax consequences to

stockholders.

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of

our common stock.

The trading market or market value of our publicly issued debt securities may fluctuate.

Terms relating to redemption may materially adversely affect your return on any debt securities that we may issue.

Our credit ratings may not reflect all risks of an investment in our debt securities.

**OUR CORPORATE INFORMATION** 

192

Our administrative offices are located at 2000 Avenue of the Stars, 12th Floor, Los Angeles, California 90067, telephone number (310) 201-4200, and our executive offices are located at 280 Park Avenue, 22nd Floor, Building East, New York, New York 10017, telephone number (212) 750-7300.

#### Table of Contents

#### **OFFERINGS**

We may offer, from time to time, in one or more offerings or series, up to \$1,500,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock or warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, on terms to be determined at the time of the offering. We will offer our securities at prices and on terms to be set forth in one or more supplements to this prospectus. The offering price per share of our common stock, less any underwriting commissions or discounts, generally will not be less than the net asset value per share of our common stock at the time of an offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (a) in connection with a rights offering to our existing stockholders, (b) with the prior approval of the majority of our common stockholders or (c) under such other circumstances as the SEC may permit. Any such issuance of shares of our common stock below net asset value may be dilutive to the net asset value of our common stock. See "Risk Factors Risks Relating to Offerings Pursuant to this Prospectus."

At our 2010 Annual Stockholders Meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period beginning on June 7, 2010 and expiring on the earlier of the one-year anniversary of the date of the 2010 Annual Stockholders Meeting and the date of our 2011 Annual Stockholders Meeting, which is expected to be held in May 2011.

We may offer our securities directly to one or more purchasers, including existing stockholders in a rights offering, through agents that we designate from time to time or to or through underwriters or dealers. The prospectus supplement relating to each offering will identify any agents or underwriters involved in the sale of our securities, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See "Plan of Distribution." We may not sell any of our securities through agents, underwriters or dealers without delivery of a prospectus supplement describing the method and terms of the offering of our securities.

Set forth below is additional information regarding offerings of our securities:

Use of proceeds

Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale

of our securities for general corporate purposes, which includes, among other things, (a) investing in portfolio companies in accordance with our investment objective and strategies and market conditions and (b) repaying indebtedness. Each supplement to this prospectus relating to an offering will more

fully identify the use of the proceeds from such offering. See "Use of Proceeds."

Distributions We intend to distribute quarterly dividends to our stockholders out of assets legally available for

distribution. Our quarterly dividends, if any, will be determined by our board of directors. For more

information, see "Price Range of Common Stock and Distributions."

Taxation We have elected to be treated for U.S. federal income tax purposes as a RIC. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on any income and gain that we distribute to our

stockholders as dividends on a timely basis. Among other things, in order to maintain our RIC status, we must meet specified income source and asset diversification requirements and distribute annually

generally an amount equal to at least 90% of our investment

13

### **Table of Contents**

Dividend reinvestment plan

Leverage

Management arrangements

Available information

company taxable income, out of assets legally available for distribution. See "Risk Factors Risks Relating to Our Business We may be subject to certain corporate-level taxes regardless of whether we continue to qualify as a RIC" and "Price Range of Common Stock and Distributions."

We have a dividend reinvestment plan for our stockholders. This is an "opt out" dividend reinvestment plan. As a result, if we declare a cash dividend, then stockholders' dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash. Stockholders whose cash dividends are reinvested in additional shares of our common stock will be subject to the same U.S. federal, state and local tax consequences as stockholders who elect to receive their dividends in cash. See "Dividend Reinvestment Plan."

"ARCC"

Our board of directors is divided into three classes of directors serving staggered three-year terms. This structure is intended to provide us with a greater likelihood of continuity of management, which may be necessary for us to realize the full value of our investments. A staggered board of directors also may serve to deter hostile takeovers or proxy contests, as may certain other measures adopted by us. See "Description of Our Capital Stock."

We borrow funds to make additional investments. We use this practice, which is known as "leverage," to attempt to increase returns to our common stockholders, but it involves significant risks. See "Risk Factors," "Senior Securities" and "Regulation Indebtedness and Senior Securities." With certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, equals at least 200% after such borrowing. The amount of leverage that we employ at any particular time will depend on our investment adviser's and our board of directors' assessments of market and other factors at the time of any proposed borrowing.

Ares Capital Management serves as our investment adviser. Ares Operations serves as our administrator. For a description of Ares Capital Management, Ares Operations, Ares and our contractual arrangements with these companies, see "Management Investment Advisory and Management Agreement," and " Administration Agreement."

We are required to file periodic reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at <a href="https://www.arescapitalcorp.com">www.arescapitalcorp.com</a>. The SEC also maintains a website at <a href="https://www.sec.gov">www.sec.gov</a> that contains this information.

14

### **Table of Contents**

#### FEES AND EXPENSES

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear directly or indirectly, based on the assumptions set forth below. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid or to be paid by "you," "us," "the Company" or "Ares Capital," or that "we" will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

Stockholder transaction expenses (as a percentage of offering price):		
Sales load paid by us		(1)
Offering expenses borne by us		(2)
Dividend reinvestment plan expenses	None	(3)
Total stockholder transaction expenses paid by us		(4)
Estimated annual expenses (as a percentage of consolidated net assets attributable to common stock)(5):		
Management fees	3.09%(6	5)
Incentive fees payable under investment advisory and management agreement (20% of realized capital gains and 20% of		
pre-incentive fee net investment income, subject to certain limitations)	2.36%(7	7)
Interest payments on borrowed funds	3.23%(8	3)
Other expenses	2.36%(9	€)
Acquired fund fees and expenses	0.00%(1	10)
Total annual expenses (estimated)	11.04%(1	11)

- In the event that the securities to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load (underwriting discount or commission). Purchases of shares of our common stock on the secondary market are not subject to sales charges but may be subject to brokerage commissions or other charges. The table does not include any sales load that stockholders may have paid in connection with their purchase of shares of our common stock.
- (2) The related prospectus supplement will disclose the estimated amount of offering expenses, the offering price and the offering expenses borne by us as a percentage of the offering price.
- (3) The expenses of the dividend reinvestment plan are included in "other expenses."
- (4) The related prospectus supplement will disclose the offering price and the total stockholder transaction expenses as a percentage of the offering price.
- "Consolidated net assets attributable to common stock" equals our average net assets for the six months ending June 30, 2010. Because the Allied Acquisition was consummated on April 1, 2010 and because we calculate consolidated net assets attributable to common stock as a monthly average based on the period from January 1, 2010 to June 30, 2010, the consolidated net assets attributable to common stock used to calculate the amounts shown in this table are significantly lower than our net assets as of June 30, 2010.
- Our management fee is currently 1.5% of our total assets other than cash and cash equivalents (which includes assets purchased with borrowed amounts). For the purposes of this table, we have assumed that we maintain no cash or cash equivalents. The 3.09% reflected on the table is calculated on our average net assets (rather than our total assets). See "Management Investment Advisory and Management Agreement."

## Table of Contents

(7)

This item represents our investment adviser's incentive fees based on annualizing actual amounts earned on our pre-incentive fee net income for the six months ended June 30, 2010 and assumes that the incentive fees earned at the end of the 2010 calendar year will be based on the actual realized capital gains as of June 30, 2010, computed net of realized capital losses and unrealized capital depreciation. It also assumes that this fee will remain constant although it is based on Ares Capital's performance and will not be paid unless Ares Capital achieves certain goals. We expect to invest or otherwise utilize all of the net proceeds from securities registered under the registration statement of which this prospectus is a part pursuant to a particular prospectus supplement within three months of the date of the offering pursuant to such prospectus supplement and may have capital gains and interest income that could result in the payment of an incentive fee to our investment adviser in the first year after completion of offerings pursuant to this prospectus. Since our inception, the average quarterly incentive fee payable to our investment adviser has been approximately 0.63% of our weighted net assets (2.51% on an annualized basis). For more detailed information about incentive fees previously incurred by us, please see Note 3 to our consolidated financial statements for the period ended June 30, 2010.

## The incentive fee consists of two parts:

The first, payable quarterly in arrears, equals 20% of our pre-incentive fee net investment income (including interest that is accrued but not yet received in cash), subject to a 2.00% quarterly (8% annualized) hurdle rate and a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, our investment adviser receives no incentive fee until our net investment income equals the hurdle rate of 2.00% but then receives, as a "catch-up," 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50%. The effect of this provision is that, if pre-incentive fee net investment income exceeds 2.50% in any calendar quarter, our investment adviser will receive 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply.

The second part, payable annually in arrears, equals 20% of our realized capital gains on a cumulative basis from inception through the end of the year, if any, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees.

We will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 8.0% of our net assets at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases.

See "Management Investment Advisory and Management Agreement."

(8)

"Interest payments on borrowed funds" represents an estimate of our annualized interest expense based on actual interest and credit facility expenses incurred for the six months ended June 30, 2010. During the six months ended June 30, 2010, our average borrowings were \$1,512.5 million and cash paid for interest expense was \$20.3 million. We had outstanding borrowings of \$1,307.8 million (with a carrying value of \$1,244.9 million) at June 30, 2010. This item is based on our assumption that our borrowings and interest costs after an offering will remain similar to those prior to such offering. The prospectus supplement related to the offering of any debt securities pursuant to this prospectus will calculate this item based on the effects of our borrowings and interest costs after the issuance of such debt securities. The amount of leverage that we employ at any particular time will depend on, among other things, our board of directors' and our investment adviser's assessment of market and other factors at the time of any proposed

## Table of Contents

borrowing. See "Risk Factors Risks Relating to Our Business We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us."

- Includes our overhead expenses, including payments under our administration agreement with Ares Operations based on our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement. Such expenses are estimated based on annualized "Other expenses" for the six months ended June 30, 2010 (other than \$16.3 million of professional fees and other costs related to the Allied Acquisition, which are included in "Other expenses" but not annualized). See "Management Administration Agreement." The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses.
- The Company's stockholders indirectly bear the expenses of underlying investment companies in which the Company invests. This amount includes the fees and expenses of investment companies in which the Company is invested as of June 30, 2010. Certain of these investment companies are subject to management fees, which generally range from 1% to 2.5% of total net assets, or incentive fees, which generally range between 15% to 25% of net profits. When applicable, fees and expenses are based on historic fees and expenses for the investment companies. For those investment companies with little or no operating history, fees and expenses are based on expected fees and expenses stated in the investment companies' offering memorandum, private placement memorandum or other similar communication without giving effect to any performance. Future fees and expenses for these investment companies may be substantially higher or lower because certain fees and expenses are based on the performance of the investment companies, which may fluctuate over time. The amount of the Company's average net assets used in calculating this percentage was based on average monthly net assets of \$2.0 billion for the six months ended June 30, 2010.
- "Total annual expenses" as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage and increase our total assets. The SEC requires that the "Total annual expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period), rather than the total assets, including assets that have been funded with borrowed monies.

## Example

The following example demonstrates the projected dollar amount of total cumulative expenses over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that we would have no additional leverage, that none of our assets are cash or cash equivalents, and that our annual operating expenses would remain at the levels set forth in the table above. Transaction expenses are not included in the following example. In the event that shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will restate this example to reflect the applicable sales load.

	1 y	ear	3 y	ears	5	years	10	years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual								
return(1)	\$	89	\$	257	\$	412	\$	749

The above illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation. The expenses you would pay, based on a \$1,000 investment and assuming a 5% annual return resulting entirely from net realized capital gains (and therefore subject to the capital gain incentive fee), and otherwise making the same

### **Table of Contents**

assumptions in the example above, would be: 1 year, \$99; 3 years, \$285; 5 years, \$454; and 10 years, \$816. However, cash payment of the capital incentive fee would be deferred if, during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) was less than 8.0% of our net assets at the beginning of such period (as adjusted for any share issuances or repurchases).

The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the investment advisory and management agreement, which, assuming a 5% annual return, would either not be payable or have an insignificant impact on the expense amounts shown above, is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, if our board of directors authorizes and we declare a cash dividend, participants in our dividend reinvestment plan who have not otherwise elected to receive cash will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses as actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

## Table of Contents

#### SELECTED CONDENSED CONSOLIDATED FINANCIAL DATA OF ARES CAPITAL

The following selected financial and other data for the years ended December 31, 2009, 2008, 2007, 2006 and 2005 are derived from our consolidated financial statements, which have been audited by KPMG LLP, an independent registered public accounting firm whose report thereon is included elsewhere in this prospectus. The selected financial and other data for the six months ended June 30, 2010 and other quarterly financial information are derived from our unaudited financial statements, but in the opinion of management, reflect all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results as of and for the six months ended June 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. The data should be read in conjunction with our consolidated financial statements and notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities," which are included elsewhere in this prospectus.

In accordance with Accounting Standards Codification ("ASC") 260-10 (previously Statement of Financial Accounting Standards ("SFAS") No. 128, Earnings Per Share), the weighted average shares of common stock outstanding used in computing basic and diluted earnings per common share have been adjusted retroactively by a factor of 1.02% to recognize the bonus element associated with rights to acquire shares of common stock that we issued to stockholders of record as of March 24, 2008 in connection with a rights offering.

<sup>(2)</sup> Includes commitments to portfolio companies for which funding has yet to occur.

### Table of Contents

- Total return based on market value for the six months ended June 30, 2010 equals the increase of the ending market value at June 30, 2010 of \$12.53 per share over the ending market value at December 31, 2009 of \$12.45 per share, plus the declared dividends of \$0.70 per share for the six months ended June 30, 2010, divided by the market value at December 31, 2009. Total return based on market value for the year ended December 31, 2009 equals the increase of the ending market value at December 31, 2009 of \$12.45 per share over the ending market value at December 31, 2008 of \$6.33 per share plus the declared dividends of \$1.47 per share for the year ended December 31, 2009. Total return based on market value for the year ended December 31, 2008 equals the decrease of the ending market value at December 31, 2008 of \$6.33 per share over the ending market value at December 31, 2007 of \$14.63 per share plus the declared dividends of \$1.68 per share for the year ended December 31, 2008. Total return based on market value for the year ended December 31, 2007 equals the decrease of the ending market value at December 31, 2007 of \$14.63 per share over the ending market value at December 31, 2006 of \$19.11 per share plus the declared dividends of \$1.66 per share for the year ended December 31, 2007. Total return based on market value for the year ended December 31, 2006 of \$19.11 per share over the ending market value at December 31, 2006 of \$19.11 per share over the ending market value at December 31, 2006 of \$19.11 per share over the ending market value at December 31, 2006 of \$10.07 per share plus the declared dividends of \$1.64 per share for the year ended December 31, 2006 of \$10.07 per share plus the declared dividends of \$1.64 per share for the year ended December 31, 2006 of \$10.07 per share plus the declared dividends of \$1.64 per share for the year ended December 31, 2006 of \$10.07 per share plus the declared dividends of \$1.60 per share plus the declared dividends of \$1.60 per share plus the declared dividends o
- Total return based on net asset value for the six months ended June 30, 2010 equals the change in net asset value during the period plus the declared dividends of \$0.70 per share for the six months ended June 30, 2010, divided by the beginning net asset value at January 1, 2010. Total return based on net asset value for the year ended December 31, 2009 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.47 per share for the year ended December 31, 2009, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2008 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.68 per share for the year ended December 31, 2008, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2007 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.66 per share for the year ended December 31, 2007, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2006 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.64 per share for the year ended December 31, 2006, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2005, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2005, divided by the beginning net asset value. Total return based on net asset value for the year ended December 31, 2005, divided by the beginning net asset value. Total return based on net asset value is not annualized.
- Weighted average yield on debt and income producing equity securities at fair value is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount on accruing debt divided by (b) total income producing equity securities and debt at fair value. Weighted average yield on debt and income producing equity securities at amortized cost is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount on accruing debt divided by (b) total income producing equity securities and debt at amortized cost.
