ITEM 1. MANAGEMENT REPORT ON THE INTERIM
FINANCIAL RESULTS AS OF MARCH 31, 2014
(UNAUDITED)

The following should be read in connection with the disclosure contained in the consolidated financial statements as of December 31, 2013, which includes a discussion of risks and uncertainties that can influence the Group's operational results or financial position. During the first three months of 2014, there were no changes to the risks reported as of December 31, 2013.

1. OPERATING PERFORMANCE FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2014

The Group's growth in the first quarter of 2014 was significantly affected by the weakening of certain currencies in which it operates. At constant exchange rates⁽¹⁾, the Group confirmed solid growth in the main markets in which it conducts business.

Net sales decreased from Euro 1,864.1 million in the first three months of 2013 to Euro 1,842.3 million in the first three months of 2014 (-1.2 percent at current exchange rates and +4.2 percent at constant exchange rates⁽¹⁾).

Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA")⁽²⁾ in the first three months of 2014 decreased by 1.5 percent to Euro 359.9 million from Euro 365.3 million in the same period of 2013.

Operating income for the first three months of 2014 decreased by 1.7 percent to Euro 270.2 million from Euro 274.8 million during the same period of the previous year. The Group's operating margin in the first three months of 2014 was 14.7 percent in line with last year.

In the first three months of 2014 net income attributable to Luxottica Stockholders decreased by 1.2 percent to Euro 157.3 million from Euro 159.2 million in the same period of 2013. Earnings per share ("EPS") was Euro 0.33 and EPS expressed in USD was 0.45 (at an average rate of Euro/USD of 1.3696).

By carefully controlling working capital, the Group generated positive free cash flow⁽³⁾ in the first three months of 2014 equal to Euro 60 million. Net debt as of March 31, 2014 was Euro 1,429 million (Euro 1,461 million at the end of 2013), with a ratio of net debt to adjusted EBITDA⁽⁴⁾ of 1.0x (1.0x as of December 31, 2013).

2. SIGNIFICANT EVENTS DURING THE THREE MONTHS ENDED MARCH 31, 2014

January

Luxottica Group S.p.A. announced that Standard & Poor's raised its long-term credit rating to A- from BBB+. The outlook is stable. Standard & Poor's disclosed that Luxottica improved its credit metrics since its long-term rating outlook was increased to positive on March 27, 2013.

(1) We calculate constant exchange rates by applying to the current period the average exchange rates between the Euro and the relevant currencies of the various markets in which we operated during the three-month period ended March 31, 2013. Please refer to Attachment 1 for further details on exchange rates.

(2) For a further discussion of EBITDA and adjusted EBITDA, see page 9 "Non-IFRS Measures."

On January 31, 2014 the Group closed the acquisition of glasses.com from WellPoint Inc. The transaction was previously announced on January 7, 2014.

March

On March 24, 2014, the Group and Google Inc. announced they are joining forces to design, develop and distribute a new breed of eyewear for Glass products. Luxottica's two major proprietary brands, Ray-Ban and Oakley, will be a part of the collaboration with Glass. In particular, the two companies will establish a team of experts devoted to working on the design, development, tooling and engineering of Glass products that straddle the line between high-fashion, lifestyle and innovative technology.

3. FINANCIAL RESULTS

We are a global leader in the design, manufacture and distribution of fashion, luxury and sport eyewear, with net sales reaching Euro 7.3 billion in 2013, over 73,400 employees and a strong global presence. We operate in two industry segments: (i) manufacturing and wholesale distribution; and (ii) retail distribution. See Note 5 to the Condensed Consolidated Financial Report as of March 31, 2014 (unaudited) for additional disclosures about our operating segments. Through our manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of proprietary and designer lines of mid- to premium-priced prescription frames and sunglasses. We operate our retail distribution segment principally through our retail brands, which include, among others, LensCrafters, Sunglass Hut, Pearle Vision, OPSM, Laubman & Pank, Oakley "O" Stores and Vaults, David Clulow, GMO and our Licensed Brands (Sears Optical and Target Optical).

As a result of our numerous acquisitions and the subsequent expansion of our business activities in the United States through various acquisitions, our results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated to an average exchange rate of Euro 1.00 = U.S. \$1.3696 in the first three months of 2014 from Euro 1.00 = U.S. \$1.3200 in the same period of 2013. With the acquisition of OPSM, our results of operations have also been rendered susceptible to currency fluctuations between the Euro and the Australian dollar. Additionally, we incur part of our manufacturing costs in Chinese Yuan; therefore, the fluctuation of the Chinese Yuan relative to other currencies in which we receive revenues could impact the demand of our products or our consolidated profitability. Although we engage in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted our reported revenues and expenses during the periods discussed herein. This discussion should be read in conjunction with the risk factor discussion in Section 8 of the Management Report included with the 2013 Consolidated Financial Statements.

Net Sales. Net sales decreased by Euro 21.8 million, or 1.2% percent, to Euro 1,842.3 million in the first three months of 2014 from Euro 1,864.1 million in the same period of 2013. This decrease was attributable to the fluctuation of various currencies in which we conduct business. Net sales in the manufacturing and wholesale distribution segment in the first three months of 2014 as compared to the same period in 2013 increased by Euro 23.6 million, whereas net sales in the retail distribution segment decreased by Euro 45.4 million for the same period.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Net sales for the retail distribution segment decreased by Euro 45.4 million, or 4.2 percent, to Euro 1,037.7 million in the first three months of 2014 from Euro 1,083.1 million in the same period in 2013. Although there was an overall decrease, the retail segment recorded a 1.9 percent improvement in comparable store sales⁽⁵⁾. In particular, comparable store sales for the North American retail operations increased slightly in the first three months of 2014 as compared to the same period of last year (+0.1 percent). During the same periods the Australian/New Zealand retail operations increased 3.6 percent. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the weakening of the U.S. dollar and Australian dollar compared to the Euro, decreased net sales in the retail distribution segment by Euro 62.4 million during the period.

(5) Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Table of Contents

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 23.6 million, or 3.0 percent, to Euro 804.6 million in the first three months of 2014 from Euro 781.0 million in the same period in 2013. This growth was mainly attributable to increased sales of most of our proprietary brands, in particular Ray-Ban, and of certain licensed brands such as Armani and Tiffany. Almost all of the primary geographic markets in which the Group operates recorded an increase in net sales. These positive effects were partially offset by negative currency fluctuations, in particular the weakening of the U.S. Dollar and the Brazilian Real, which decreased net sales to third parties in the manufacturing and wholesale distribution segment by Euro 38.2 million.

In the first three months of 2014, net sales in the retail distribution segment accounted for approximately 56.3 percent of total net sales, as compared to approximately 58.1 percent of total net sales for the same period in 2013.

In the first three months of 2014, net sales in our retail distribution segment in the United States and Canada comprised 77.8 percent of our total net sales in this segment as compared to 78.1 percent of our total net sales in the same period of 2013. In U.S. dollars, retail net sales in the United States and Canada slightly decreased by 1.0 percent to USD 1,106.1 million in the first three months of 2014 from USD 1,116.9 million for the same period in 2013. This slight decrease was mainly caused by bad weather conditions occurring in this geographic region during the period. During the first three months of 2014, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 22.2 percent of our total net sales in the retail distribution segment and decreased by 2.9 percent to Euro 230.1 million in the first three months of 2014 from Euro 236.9 million, or 21.9 percent of our total net sales in the retail distribution segment for the same period in 2012. This decrease was primarily due to the negative effect from the fluctuation of certain currencies in which we operate.

In the first three months of 2014, net sales to third parties in our manufacturing and wholesale distribution segment in Europe increased by Euro 19.2 million to Euro 353.8 million, comprising 44.0 percent of our total net sales in this segment, compared to Euro 334.6 million, or 42.8 percent of total net sales in the segment, for the same period in 2013. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were USD 285.8 million and comprised 25.9 percent of our total net sales in this segment for the first three months of 2014, compared to USD 270.1 million, or 26.2 percent of total net sales in the segment, for the same period of 2013. The increase in net sales in the United States and Canada was primarily due to a general increase in consumer demand. In the first three months of 2014, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world slightly increased by Euro 0.3 million or 0.1 percent to Euro 242.1 million, comprising 30.1 percent of our total net sales in this segment, compared to Euro 241.8 million, or 31.0 percent of our net sales in this segment, in the same period of 2013.

Cost of Sales. Cost of sales increased by Euro 3.5 million, or 0.5 percent, to Euro 664.1 million in the first three months of 2014 from Euro 660.6 million in the same period of 2013. As a percentage of net sales, cost of sales increased to 36.0 percent in the first three months of 2014 as compared to 35.4 percent in the same period of 2013. In the first three months of 2014, the average number of frames produced daily in our facilities was approximately 290,900 as compared to approximately 302,700 in the same period of 2013.

Gross Profit. Our gross profit decreased by Euro 25.3 million, or 2.1 percent, to Euro 1,178.2 million in the first three months of 2014 from Euro 1,203.5 million for the same period of 2013. As a percentage of net sales, gross profit decreased to 64.0 percent in the first three months of 2014 as compared to 64.6 percent for the same period of 2013, due to the factors noted above.

Operating Expenses. Total operating expenses decreased by Euro 20.7 million, or 2.2 percent, to Euro 908.0 million in the first three months of 2014 from Euro 928.7 million in the same period of 2013. As a percentage of net sales, operating expenses decreased to 49.3 percent in the first three months of 2014, from 49.8 percent in the same period of 2013.

TOTAL LIABILITIES AND STOCKHOLDERS' EQUITY	8,813,454	8,082,905

As of March 31, 2014, total assets increased by Euro 730.6 million to Euro 8,813.5 million, compared to Euro 8,082.9 million as of December 31, 2013.

In the first three months of 2014, non-current assets increased by Euro 27.8 million, due to increases in intangible assets (including goodwill) of Euro 25.4 million and deferred tax assets of Euro 7.6 million,

partially offset by decreases in other assets of Euro 4.0 million and in property, plant and equipment of Euro 1.3 million.

The increase in intangible assets was due to capitalized software and other intangible asset additions of Euro 30.9 million, acquisitions that occurred in the first three months of 2014 of Euro 22.3 million, effects of foreign currency fluctuations from December 2013 to March 2014 of Euro 9.1 million, all of which were partially offset by amortization of assets in the period of Euro 36.9 million.

The decrease in property, plant and equipment was due to the depreciation for the period of Euro 52.7 million, to the negative impact of foreign currency fluctuations from December 2013 to March 2014 of Euro 1.5 million, to the disposals for the period of Euro 2.0 million all of which were partially offset by capital additions in the period of Euro 50.2 million.

As of March 31, 2014 as compared to December 31, 2013:

Accounts receivable increased by Euro 163.9 million, primarily due to the increase in net sales during the first three months of 2014 in line with the seasonality of the Group's business which is generally characterized by higher sales in the first half of the year and collection of the related receivables in the second half of the year;

Inventories decreased by 17.7 million. The reduction is mainly due to improved inventory turns in the first three months of 2014 as compared to December 31, 2013;

Other current assets increased by Euro 25.1 million which was mainly due to advance payments made for future contracted royalties;

Accounts payable decreased by Euro 63.6 million, primarily due to payments made in the first three months of 2014;

Current taxes payable increased by Euro 92.5 million due to the timing of tax payments made by the Group in various jurisdictions;

Employee benefits increased by Euro 23.8 million which was primarily due to a reduction in the discount rate used to determine employee benefit liabilities.

Our net financial position as of March 31, 2014 and December 31, 2013 was as follows:

(Amounts in thousands of Euro)	March 31, 2014 (unaudited)	December 31, 2013 (audited)
Cash and cash equivalents	1,149,393	617,995

Long-term debt	(2,201,206)	(1,716,410)
Total	(1,429,215)	(1,461,435)

Bank overdrafts consist of the utilized portion of short-term uncommitted revolving credit lines borrowed by various subsidiaries of the Group.

As of March 31, 2014, Luxottica together with our wholly-owned Italian subsidiaries, had credit lines aggregating Euro 797.9 million. The interest rate is a floating rate of EURIBOR plus a margin on average of approximately 0.9 percent. At March 31, 2014, Euro 59.7 million was

utilized under these credit lines.

The interest is at a floating rate of approximately LIBOR plus 50 basis points. At March 31, 2014, Euro 4.7 million was utilized under these credit lines.

NON-IFRS MEASURES

Adjusted measures

In this Management Report we refer to certain performance measures that are not in accordance with IFRS. Such non-IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IFRS measures are explained in detail and reconciled to their most comparable IFRS measures below.

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events.

In 2013, we made such adjustments to the following measures: operating income, operating margin, EBITDA and EBITDA margin. We have also adjusted net income, earnings per share, operating expenses, selling expenses and general and administrative expenses. We adjusted the above items by excluding non-recurring costs related to (i) the reorganization of the acquired Alain Mikli business for Euro 9.0 million (Euro 5.9 million net of the tax effect), (ii) the tax audit of Luxottica S.r.l. (fiscal year 2007) for Euro 26.7 million and (iii) the tax audit of Luxottica S.r.l. (fiscal years subsequent to 2007) for Euro 40.0 million.

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board and endorsed by the European Union. The Group believes that these adjusted measures are useful to both management and investors in evaluating the Group's operating performance compared with that of other companies in its industry in order to provide a supplemental view of operations that exclude items that are unusual, infrequent or unrelated to our ongoing operations.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

Non-IFRS measures such as EBITDA, EBITDA margin, free cash flows and the ratio of net debt to EBITDA are included in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Group's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Group's cost of debt;

ensure that these measures are fully understood in light of how the Group evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before non-controlling interest, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared to that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. For additional information on Group's non-IFRS measures used in this report, see "NON-IFRS MEASURES *Adjusted Measures*" set forth above.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and amortization expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

Table of Contents

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage. The following table provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure, as well as the calculation of EBITDA margin on net sales:

Free Cash Flow

Free cash flow represents EBITDA, as defined above, plus or minus the decrease/(increase) in working capital over the period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. Our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities. Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, this non-IFRS measure should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group. For additional information on Group's non-IFRS measures used in this report, see "NON-IFRS MEASURES *Adjusted Measures*" set forth above.

The Group cautions that this measure is not a defined term under IFRS and its definition should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;

Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and

Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure:

Net debt to EBITDA ratio

Net debt represents the sum of bank overdrafts, the current portion of long-term debt and long-term debt, less cash. The ratio of net debt to EBITDA is a measure used by management to assess the Group's

12

Table of Contents

level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA, as defined above, and the ratio of net debt to EBITDA are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group. For additional information on Group's non-IFRS measures used in this report, see "NON-IFRS MEASURES *Adjusted Measures*" set forth above.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Group recognizes that the usefulness the ratio of net debt to EBITDA as evaluative tool may have certain limitations, including that the ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. For a reconciliation of EBITDA to its most directly comparable IFRS measure, see the table on the earlier page.

1. BACKGROUND

Luxottica Group S.p.A. (hereinafter the "Company" or together with its consolidated subsidiaries, the "Group") is a company listed on Borsa Italiana and the New York Stock Exchange with its registered office located at Via C. Cantù 2, Milan (Italy), organized under the laws of the Republic of Italy.

The Company is controlled by Delfin S.à r.l., based in Luxembourg. The chairman of the Board of Directors of the Company, Leonardo Del Vecchio, controls Delfin S.à r.l.

The Company's Board of Directors, at its meeting on April 29, 2014, approved the Group's interim condensed consolidated financial statements as of March 31, 2014 (hereinafter referred to as the "Financial Report") for publication.

The financial statements included in this Financial Report are unaudited.

2. BASIS OF PREPARATION

This Financial Report has been prepared in accordance with article 154-ter of the Legislative Decree No. 58 of February 24, 1998 and subsequent modifications and in accordance with the CONSOB Issuers Regulation in compliance with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union in accordance with the regulation (CE) n. 1606/2002 of the European Parliament and of the Council of July 19, 2002. Furthermore, this financial report has been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*, and of the provisions which implement Article 9 of Legislative Decree no. 38/2005.

IFRS are all the international accounting standards ("IAS") and all the interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), previously named "Standing Interpretation Committee" (SIC).

This unaudited Financial Report should be read in connection with the consolidated financial statements as of December 31, 2013, which were prepared in accordance with IFRS, as endorsed by the European Union.

In accordance with IAS 34, the Group has chosen to publish a set of condensed financial statements in its financial report as of March 31, 2014.

The principles and standards used in the preparation of this unaudited Financial Report are consistent with those used in preparing the audited consolidated financial statements as of December 31, 2013, except as described in Note 3 "New Accounting Principles," and taxes on income which are accrued using the tax rate that would be applicable to projected total annual profit.

This Financial Report has been prepared on a going concern basis. Management believes that there are no indicators that may cast significant doubt upon the Group's ability to continue as a going concern, in particular, over the next twelve months.

2. BASIS OF PREPARATION (Continued)

This Financial Report is composed of the consolidated statements of financial position, the consolidated statements of income, the consolidated statements of comprehensive income, the consolidated statements of changes in equity, the consolidated statements of cash flows and Notes to the Condensed Consolidated Financial Statements as of March 31, 2014.

The financial statements were prepared using the historical cost convention, with the exception of certain financial assets and liabilities for which measurement at fair value is required.

The Group also applied the CONSOB resolution n. 15519 of July 27, 2006 and the CONSOB communication n. 6064293 of July 28, 2006.

The preparation of this report required management to use estimates and assumptions that affected the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, and the actuarial calculations necessary to calculate certain employee benefits liabilities, are generally carried out only when the audited consolidated financial statements for the fiscal year are prepared, unless there are indicators which require updates to estimates.

3. NEW ACCOUNTING PRINCIPLES

There are no new accounting principles issued or modified during the first three months of 2014. For the new accounting principles applicable starting from January 1, 2014, please refer to Note 2 of Notes to the Audited Consolidated Financial Statements as of December 31, 2013.

4. BUSINESS COMBINATIONS

On January 31, 2014, the Company completed the acquisition of glasses.com. The consideration for the acquisition was USD 40 million (approximately Euro 29 million). The difference between the consideration paid and the net assets acquired was provisionally recorded as goodwill and intangible assets. In accordance with IFRS 3 Business combinations, the value of assets acquired and liabilities assumed will be definitively determined within 12 months after the acquisition date.

5. SEGMENT REPORTING

In accordance with IFRS 8 *Operating segments*, the Group operates in two industry segments: (1) Manufacturing and Wholesale Distribution and (2) Retail Distribution.

The criteria applied to identify the reporting segments are consistent with the way the Group is managed. In particular, the disclosures are consistent with the information periodically analyzed by the Group's Chief Executive Officer, in his role as Chief Operating Decision Maker, to make decisions about resources to be allocated to the segments and assess their performance. (a) Net sales of both the Manufacturing and Wholesale Distribution segment and the Retail Distribution segment include sales to third-party customers only.

(b) Income from operations of the Manufacturing and Wholesale Distribution segment is related to net sales to third-party customers only, excluding the "manufacturing profit" generated on the inter-company sales to the Retail Distribution segment. Income from operations of the Retail Distribution segment is related to retail sales, considering the cost of goods acquired from the Manufacturing and Wholesale Distribution segment at manufacturing cost, thus including the relevant "manufacturing profit" attributable to those sales.
