NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

The unaudited Condensed Consolidated Financial Statements of TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP") and the instructions to Form 10-Q under the Securities Exchange Act of 1934, as amended. In management's opinion, the unaudited Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire fiscal year or any subsequent interim period.

The year-end balance sheet data was derived from audited financial statements, but does not include all of the information and disclosures required by GAAP. These financial statements should be read in conjunction with our audited Consolidated Financial Statements contained in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015.

Unless otherwise indicated, references in the Condensed Consolidated Financial Statements to fiscal 2016 and fiscal 2015 are to our fiscal years ending September 30, 2016 and September 25, 2015, respectively.

2. Accounting Pronouncements

Recently Issued Accounting Pronouncement

In March 2016, the Financial Accounting Standards Board ("FASB") issued an update to Accounting Standards Codification ("ASC") 718, *Compensation Stock Compensation*, to simplify various aspects of accounting for share-based payments to employees. This update is effective for us in the first quarter of fiscal 2018. We are currently assessing the impact that adoption will have on our Condensed Consolidated Financial Statements.

In February 2016, the FASB issued ASC 842, *Leases*, requiring lessees to recognize a lease liability and a right-of-use asset for most leases. This guidance will be effective for us in the first quarter of fiscal 2020. The new standard is required to be applied using a modified retrospective transition approach which requires application of the new guidance for all periods presented. We are currently assessing the impact that adoption will have on our financial position.

Recently Adopted Accounting Pronouncements

In November 2015, the FASB issued an update to ASC 740, *Income Taxes*, requiring that deferred tax assets and liabilities be classified as non-current in a classified statement of financial position. This update is effective for us in the first quarter of fiscal 2018; however, we elected to early adopt this update on a prospective basis during the first quarter of fiscal 2016. Prior period amounts were not retrospectively adjusted. The impact of adoption was a \$345 million decrease in deferred income taxes (current asset), a \$313 million increase in deferred income taxes (non-current asset), a \$33 million decrease in accrued and other current liabilities, and a \$1 million increase in deferred income taxes (non-current liability) on the Condensed Consolidated Balance Sheet at December 25, 2015.

In April 2015, the FASB issued an update to ASC 835, *Interest*, requiring that debt issuance costs related to a recognized debt liability be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. This update is required to be applied on a retrospective basis and is effective for us in the first quarter of fiscal 2017. We elected to

early adopt this update during the first quarter of fiscal 2016. Adoption did not have a material impact on the Condensed Consolidated Financial Statements.

Fiscal 2016 Actions

During fiscal 2016, we initiated a restructuring program associated with headcount reductions impacting all segments and product line closures in the Communications Solutions segment. In connection with this program, during the six months ended March 25, 2016, we recorded restructuring charges of \$60 million. We expect to complete all restructuring actions commenced in the six months ended March 25, 2016 by the end of fiscal 2019 and to incur total charges of approximately \$93 million with remaining charges related primarily to employee severance.

The following table summarizes expected, incurred, and remaining charges for the fiscal 2016 program by segment:

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****3. Restructuring and Other Charges (Credits), Net (Continued)***Fiscal 2015 Actions*

During fiscal 2015, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions and Industrial Solutions segments. In connection with this program, during the six months ended March 25, 2016 and March 27, 2015, we recorded restructuring charges of \$3 million and \$60 million, respectively. We do not expect to incur any additional charges related to fiscal 2015 actions.

Pre-Fiscal 2015 Actions

During fiscal 2014, we initiated a restructuring program associated primarily with headcount reductions and manufacturing site and product line closures in the Communications Solutions segment. During fiscal 2013, we initiated a restructuring program associated with headcount reductions and manufacturing site closures impacting all segments. During the six months ended March 25, 2016 and March 27, 2015, we recorded restructuring credits of \$2 million and charges of \$1 million, respectively, related to pre-fiscal 2015 actions. We do not expect to incur any additional charges related to pre-fiscal 2015 actions.

Total Restructuring Reserves

Restructuring reserves included on the Condensed Consolidated Balance Sheets were as follows:

	March 25, 2016	September 25, 2015
	(in millions)	
Accrued and other current liabilities	\$ 67	\$ 60
Other liabilities	27	24
Restructuring reserves	\$ 94	\$ 84

Gain on Divestiture

During the second quarter of fiscal 2016, we sold our Circuit Protection Devices ("CPD") business for \$350 million, subject to working capital adjustments, of which we received \$261 million during the quarter ended March 25, 2016. We recognized a pre-tax gain of \$146 million on the transaction. The CPD business was reported in our Communications Solutions segment.

Other Charges, Net

During the six months ended March 25, 2016, we incurred charges of \$15 million related to the write-off of certain investments and costs of \$11 million associated with the divestiture of certain businesses.

4. Discontinued Operations

During the fourth quarter of fiscal 2015, we sold our Broadband Network Solutions ("BNS") business for \$3.0 billion in cash and recognized a pre-tax gain of \$1.1 billion on the transaction. During the six months ended March 25, 2016, we recognized an additional pre-tax gain of \$20 million on the

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****4. Discontinued Operations (Continued)**

divestiture, related primarily to pension and net working capital adjustments. The BNS business met the discontinued operations criteria and was reported as such in all periods presented on the Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS business was included in the former Network Solutions segment.

The following table presents certain components of income (loss) from discontinued operations related to BNS and prior divestitures:

	For the Quarters Ended		For the Six Months Ended	
	March 25, 2016	March 27, 2015	March 25, 2016	March 27, 2015
	(in millions)			
Net sales from discontinued operations	\$	\$	425	\$ 842
Pre-tax income (loss) from discontinued operations	\$	\$	55	(2) \$ 106
Pre-tax gain (loss) on sale of discontinued operations		(18)		20
Income tax benefit		9	228	2 214
Income (loss) from discontinued operations, net of income taxes	\$	(9) \$	283	\$ 20 \$ 320

The income tax benefit from discontinued operations for the quarter ended March 27, 2015 primarily reflects an income tax benefit related to the recognition of certain deferred tax assets that were expected to be realized upon the sale of the BNS business, partially offset by income tax expense related to the impacts of legal entity restructurings made in connection with the anticipated sale of the BNS business.

5. Acquisition

On October 9, 2014, we acquired 100% of the outstanding shares of Measurement Specialties, Inc. ("Measurement Specialties"). The following unaudited pro forma financial information reflects our consolidated results of operations had the Measurement Specialties acquisition occurred at the beginning of fiscal 2014:

	Pro Forma for the Quarter Ended March 27, 2015	Pro Forma for the Six Months Ended March 27, 2015
	(in millions, except per share data)	
Net sales	\$ 3,082	\$ 6,150
Net income.	602	1,095
Diluted earnings per share	\$ 1.46	\$ 2.65

The pro forma financial information is based on our final allocation of the purchase price. The significant pro forma adjustments, which are described below, are net of income tax expense (benefit) at the statutory rate.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****5. Acquisition (Continued)**

Pro forma results for the quarter ended March 27, 2015 were adjusted to exclude \$2 million of charges related to acquired customer order backlog and include \$1 million of interest expense based on pro forma changes in our capital structure.

Pro forma results for the six months ended March 27, 2015 were adjusted to exclude \$16 million of acquisition costs, \$15 million of share-based compensation expense incurred by Measurement Specialties as a result of the change in control of Measurement Specialties, \$11 million of charges related to the fair value adjustment to acquisition-date inventories, \$8 million of income tax expense based on the estimated impact of combining Measurement Specialties into our global tax position, and \$7 million of charges related to acquired customer order backlog. In addition, pro forma results for the six months ended March 27, 2015 were adjusted to include \$2 million of interest expense based on pro forma changes in our capital structure

Pro forma results do not include any anticipated synergies or other anticipated benefits of the acquisition. Accordingly, the unaudited pro forma financial information is not necessarily indicative of either future results of operations or results that might have been achieved had the Measurement Specialties acquisition occurred at the beginning of fiscal 2014.

9. Debt

During January 2016, Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, issued \$350 million aggregate principal amount of 3.700% senior notes due February 15, 2026. The notes are TEGSA's unsecured senior obligations and rank equally in right of payment with all existing and any future senior indebtedness of TEGSA and senior to any subordinated indebtedness that TEGSA may incur. The notes are fully and unconditionally guaranteed as to payment on an unsecured basis by TE Connectivity Ltd.

During January 2016, TEGSA repaid, at maturity, \$500 million senior floating rate notes due 2016.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

TEGSA has a five-year unsecured senior revolving credit facility ("Credit Facility") with total commitments of \$1,500 million. The Credit Facility was amended in December 2015 primarily to extend

the maturity date from August 2018 to December 2020. TEGSA had no borrowings under the Credit Facility at March 25, 2016 and September 25, 2015.

Borrowings under the Credit Facility bear interest at a rate per annum equal to, at the option of TEGSA, (1) London interbank offered rate ("LIBOR") plus an applicable margin based upon the senior, unsecured, long-term debt rating of TEGSA, or (2) an alternate base rate equal to the highest of (i) Bank of America, N.A.'s base rate, (ii) the federal funds effective rate plus $\frac{1}{2}$ of 1%, and (iii) one-month LIBOR plus 1%, plus, in each case, an applicable margin based upon the senior, unsecured, long-term debt rating of TEGSA. TEGSA is required to pay an annual facility fee ranging from 5.0 to 12.5 basis points based upon the amount of the lenders' commitments under the Credit Facility and the applicable credit ratings of TEGSA.

As of March 25, 2016, TEGSA had \$150 million of commercial paper outstanding at a weighted-average interest rate of 0.71%. TEGSA had no commercial paper outstanding at September 25, 2015.

The fair value of our debt, based on indicative valuations, was approximately \$4,115 million at March 25, 2016 and September 25, 2015.

10. Guarantees

Tax Sharing Agreement

Effective June 29, 2007, we became the parent company of the former electronics businesses of Tyco International plc ("Tyco International"). On June 29, 2007, Tyco International distributed all of our shares, as well as its shares of its former healthcare businesses ("Covidien"), to its common shareholders (the "separation"). Covidien was subsequently acquired and currently operates as a subsidiary of Medtronic plc.

Upon separation, we entered into a Tax Sharing Agreement, under which we share responsibility for certain of our, Tyco International's, and Covidien's income tax liabilities based on a sharing formula for periods prior to and including June 29, 2007. We, Tyco International, and Covidien share 31%, 27%, and 42%, respectively, of U.S. income tax liabilities that arise from adjustments made by tax authorities to our, Tyco International's, and Covidien's U.S. income tax returns. The effect of the Tax Sharing Agreement is to indemnify us for 69% of certain liabilities settled in cash by us with respect to unresolved pre-separation tax matters. Pursuant to that indemnification, we have made similar indemnifications to Tyco International and Covidien with respect to 31% of certain liabilities settled in cash by the companies relating to unresolved pre-separation tax matters. If any of the companies responsible for all or a portion of such liabilities were to default in its payment of costs or expenses related to any such liability, we would be responsible for a portion of the defaulting party or parties' obligation. Our indemnification created under the Tax Sharing Agreement qualifies as a guarantee of a third party entity's debt under ASC 460, *Guarantees*. See Note 11 for additional information regarding pre-separation tax matters.

Other Matters

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at

waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At March 25, 2016, we had outstanding letters of credit, letters of guarantee, and surety and appeal bonds of \$506 million.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not significantly affect our results of operations, financial position, or cash flows.

We generally record estimated product warranty costs when contract revenues are recognized under the percentage-of-completion method for construction related contracts; other warranty reserves are not significant. The estimation is based primarily on historical experience and actual warranty claims. Amounts accrued for warranty claims were \$41 million and \$35 million at March 25, 2016 and September 25, 2015, respectively.

11. Commitments and Contingencies

Legal Proceedings

In the normal course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows. However, the proceedings discussed below in "Income Tax Matters" could have a material effect on our results of operations, financial position, or cash flows.

As previously reported, we had a contingent purchase price commitment of \$80 million related to our fiscal 2001 acquisition of Com-Net. This represented the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system was completed for and approved by the State of Florida in accordance with guidelines set forth in the contract. Under the terms of the purchase and sale agreement, we did not believe we had any obligation to the sellers. However, the sellers contested our position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania. Trial began in March 2015 and culminated in the entry of final judgment on October 8, 2015, in favor of the sellers and against us for \$127 million plus costs. The judgment represents the \$80 million contingent purchase price plus pre-judgment interest, which will continue to accrue until the judgment is paid in full. We are appropriately reserved for this matter and are proceeding with an appeal.

Income Tax Matters

The Tax Sharing Agreement generally governs our, Tyco International's, and Covidien's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and

indemnifications with Tyco International and Covidien. See Note 10 for additional information regarding the Tax Sharing Agreement.

In October 2012, the Internal Revenue Service ("IRS") issued special agreement Forms 870-AD, effectively settling its audit of all tax matters for the years 1997 through 2000, excluding one issue involving the tax treatment of certain intercompany debt transactions. The IRS field examination asserted that certain intercompany loans originated during the years 1997 through 2000 did not constitute debt for U.S. federal income tax purposes and disallowed approximately \$2.7 billion of related interest deductions recognized during the period on Tyco International's U.S. income tax returns. In addition, if the IRS is ultimately successful in asserting its claim, it is likely to disallow an additional \$6.6 billion of interest deductions reflected on U.S. income tax returns in years subsequent to fiscal 2000. Tyco International contends that the intercompany financing qualified as debt for U.S. income tax purposes and that the interest deductions reflected on the income tax returns were appropriate. The IRS and Tyco International were unable to resolve this matter through the IRS appeals process. On June 20, 2013, Tyco International advised us that it had received Notices of Deficiency from the IRS for certain former U.S. subsidiaries of Tyco International increasing taxable income by approximately \$2.9 billion in connection with the audit of Tyco International's fiscal years 1997 through 2000. The Notices of Deficiency asserted that Tyco International owes additional taxes totaling \$778 million, associated penalties of \$154 million, and withholding taxes of \$105 million. In addition, Tyco International received Final Partnership Administrative Adjustments for certain U.S. partnerships owned by former U.S. subsidiaries with respect to which Tyco International estimates an additional tax deficiency of approximately \$30 million will be asserted. The amounts asserted by the IRS exclude any applicable deficiency interest, and do not reflect any impact to subsequent period tax liabilities in the event that the IRS prevails on some or all of its assertions. We understand that Tyco International strongly disagrees with the IRS position and has filed petitions in the U.S. Tax Court contesting the IRS's proposed adjustments. Tyco International has advised us that it believes there are meritorious defenses for the tax filings in question and that the IRS position with regard to this matter is inconsistent with the applicable tax laws and existing U.S. Treasury regulations. If the IRS were to prevail on its assertions, our share of the assessed tax, deficiency interest, and applicable withholding taxes and penalties could have a material adverse impact on our results of operations, financial position, and cash flows. We have reviewed the Notices of Deficiency, the relevant facts surrounding the intercompany debt transactions, relevant tax regulations, and applicable case law, and we continue to believe that we are adequately reserved for this matter.

In the first quarter of fiscal 2015, the IRS issued general agreement Forms 870, effectively settling its audits of tax matters for the years 2001 through 2007, excluding the disputed issue discussed above. As a result of these developments, in the first six months of fiscal 2015, we recognized an income tax benefit of \$202 million, representing a reduction in tax reserves for the matters that were effectively settled, and other expense of \$94 million, representing a reduction of associated indemnification receivables, pursuant to the Tax Sharing Agreement with Tyco International and Covidien.

Also during fiscal 2015, the IRS issued general agreement Forms 870, effectively settling its audits of tax matters for the years 2008 through 2010, excluding the disputed issue discussed above.

On January 15, 2016, Tyco International entered into Stipulations of Settled Issues (the "Stipulations") with the IRS intended to resolve all disputes related to the intercompany debt matter

Table of Contents

TE CONNECTIVITY LTD.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

11. Commitments and Contingencies (Continued)

discussed above. The Stipulations are contingent upon the IRS Appeals Division applying the same settlement or framework to all intercompany debt issues on appeal for subsequent audit cycles (years 2001 through 2007) and, if applicable, the review by the U.S. Congress Joint Committee on Taxation.

If finalized, this would resolve all aspects of the intercompany debt dispute relating to the 1997 through 2000 audit cycle before the U.S. Tax Court and subsequent audit cycles (years 2001 through 2007) before the Appeals Division of the IRS. In addition, we expect the terms of the resolution will be consistently applied by the IRS to all of our U.S. income tax returns filed subsequent to fiscal 2007. In accordance with the Tax Sharing Agreement, we, Tyco International, and Covidien share 31%, 27%, and 42%, respectively, of any payments made in connection with this matter. During the second quarter of fiscal 2016, we made a pre-payment to the IRS of \$443 million, for deficiencies for which we are the primary obligor, to stop the accretion of deficiency interest. Concurrent with remitting this payment, we were reimbursed \$305 million by Tyco International and Covidien pursuant to their indemnifications for pre-separation tax matters. In addition, we paid \$2 million to Covidien for our share of deficiencies for which Covidien was the primary obligor. As a result, our net cash payment was \$140 million during the second quarter of fiscal 2016.

We do not expect to recognize any additional charges if the settlement becomes effective, as we previously recorded sufficient reserves with respect to this dispute and our obligations under the Tax Sharing Agreement.

In the event that the case were to proceed to trial, it is our understanding that the U.S. Tax Court trial date currently scheduled to commence during October 2016 would likely be delayed to the second half of fiscal 2017.

At March 25, 2016 and September 25, 2015, we have reflected \$17 million of income tax liabilities related to the audits of Tyco International's and our income tax returns in accrued and other current liabilities as certain of these matters could be resolved within the next twelve months.

Environmental Matters

We are involved in various stages of investigation and cleanup related to environmental remediation matters at a number of sites. The ultimate cost of site cleanup is difficult to predict given the uncertainties regarding the extent of the required cleanup, the interpretation of applicable laws and regulations, and alternative cleanup methods. As of March 25, 2016, we concluded that it was probable that we would incur remedial costs in the range of \$16 million to \$43 million, and that the best estimate within this range was \$19 million. We believe that any potential payment of such estimated amounts will not have a material adverse effect on our results of operations, financial position, or cash flows.

12. Financial Instruments

We hedge our net investment in certain foreign operations using intercompany non-derivative financial instruments denominated in the same currencies. The aggregate notional value of these hedges was \$3,704 million and \$3,880 million at March 25, 2016 and September 25, 2015, respectively. We recorded foreign exchange losses of \$54 million and foreign exchange gains of \$282 million in the quarters ended March 25, 2016 and March 27, 2015, respectively, and foreign exchange gains of

\$1 million and \$412 million in the six months ended March 25, 2016 and March 27, 2015, respectively. These foreign exchange gains and losses were recorded as currency translation, a component of accumulated other comprehensive loss, offsetting foreign exchange gains or losses attributable to the translation of the net investment.

13. Retirement Plans

The net periodic pension benefit cost for all U.S. and non-U.S. defined benefit pension plans was as follows:

	U.S. Plans For the Quarters Ended		Non-U.S. Plans For the Quarters Ended

During the six months ended March 25, 2016, we contributed \$40 million to our non-U.S. pension plans.

14. Income Taxes

We recorded income tax expense of \$130 million and \$94 million for the quarters ended March 25, 2016 and March 27, 2015, respectively. The tax expense for the quarter ended March 27, 2015 included an income tax charge for the estimated tax impacts of certain intercompany dividends related to the restructuring and anticipated sale of the BNS business, partially offset by an income tax benefit related to the effective

settlement of undisputed tax matters for the years 2001 through 2007.

14. Income Taxes (Continued)

We recorded income tax expense of \$188 million and an income tax benefit of \$15 million for the six months ended March 25, 2016 and March 27, 2015, respectively. The tax expense for the six months ended March 25, 2016 included a \$25 million income tax benefit related primarily to deferred tax assets recognized in connection with the sale of our CPD business. The tax benefit for the six months ended March 27, 2015 included a \$202 million income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007. The tax benefit for the six months ended March 27, 2015 also included an income tax benefit related to the impacts of certain non-U.S. tax law changes and the associated reduction in the valuation allowance for tax loss carryforwards, partially offset by an income tax charge for the estimated tax impacts of certain intercompany dividends related to the restructuring and anticipated sale of the BNS business.

We record accrued interest as well as penalties related to uncertain tax positions as part of income tax expense (benefit). As of March 25, 2016 and September 25, 2015, we had recorded \$871 million and \$1,076 million, respectively, of accrued interest and penalties related to uncertain tax positions on the Condensed Consolidated Balance Sheets, recorded primarily in income taxes. During the six months ended March 25, 2016, we recognized \$39 million of income tax expense related to interest and penalties on the Condensed Consolidated Statement of Operations.

Although it is difficult to predict the timing or results of our worldwide examinations, we estimate that up to approximately \$65 million of unrecognized income tax benefits, excluding the impact relating to accrued interest and penalties, could be resolved within the next twelve months. Subsequent to March 25, 2016, approximately \$50 million of these unrecognized income tax benefits have been resolved in connection with the effective settlement of an audit in a non-U.S. jurisdiction.

On January 15, 2016, Tyco International entered into Stipulations of Settled Issues with the IRS intended to resolve all disputes related to the intercompany debt matters for the 1997 through 2000 audit cycle. It is uncertain if this settlement will be finalized. If finalized, unrecognized income tax benefits, in addition to the \$65 million discussed above, could be resolved within the next twelve months. See Note 11 for additional information regarding the status of IRS examinations and the Stipulations.

We are not aware of any other matters that would result in significant changes to the amount of unrecognized income tax benefits reflected on the Condensed Consolidated Balance Sheet as of March 25, 2016.

15. Other Income (Expense), Net

During the quarters ended March 25, 2016 and March 27, 2015, we recorded net other income of \$12 million and net other expense of \$5 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. See Note 10 for further information regarding the Tax Sharing Agreement.

During the six months ended March 25, 2016 and March 27, 2015, we recorded net other income of \$20 million and net other expense of \$75 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. The net other expense for the six months ended March 27, 2015 included \$94 million related to the effective settlement of undisputed tax matters for the years 2001 through 2007. See Note 11 for additional information.

17. Equity*Common Shares*

In March 2016, our shareholders approved our board of directors' authorization to issue additional new shares, subject to certain conditions specified in the articles of association, in aggregate not exceeding 50% of the amount of our authorized shares. The authorization will remain in effect for a period of two years ending on March 2, 2018.

Common Shares Held in Treasury

In March 2016, our shareholders approved the cancellation of 31 million shares purchased under our share repurchase program during the period from December 27, 2014 to December 10, 2015. The capital reduction by cancellation of these shares is subject to a notice period and filing with the commercial register in Switzerland and is not yet reflected on the Condensed Consolidated Balance Sheet.

Dividends

In March 2016, our shareholders approved a dividend payment to shareholders of \$1.48 (equivalent to CHF 1.48) per share out of contributed surplus, payable in four equal quarterly installments of \$0.37 per share beginning in the third quarter of fiscal 2016 through the second quarter of fiscal 2017.

- (1) Includes pre-tax gain of \$146 million on the sale of our CPD business during the second quarter of fiscal 2016.

20. Subsequent Event

On April 4, 2016, we acquired the Creganna Medical group, a global leader in the design and manufacture of minimally invasive delivery and access medical devices, for a cash purchase price of approximately \$900 million, net of cash acquired. The transaction is subject to a final working capital adjustment. This business will be reported as part of our Industrial Solutions segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Condensed Consolidated Financial Statements and the accompanying notes included elsewhere in this Quarterly Report. The following discussion may contain forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in these forward-looking statements as a result of many factors, including but not limited to those under the heading "Forward-Looking Information" and "Part II. Item 1A. Risk Factors."

Our Condensed Consolidated Financial Statements have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP").

The following discussion includes organic net sales growth and free cash flow which are non-GAAP financial measures. We believe these non-GAAP financial measures, together with GAAP financial measures, provide useful information to investors because they reflect the financial measures that management uses in evaluating the underlying results of our operations. See "Non-GAAP Financial Measures" for more information about these non-GAAP financial measures, including our reasons for including the measures and material limitations with respect to the usefulness of the measures.

Overview

TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") is a global technology leader. We design and manufacture connectivity and sensor solutions that are essential in today's increasingly connected world. We help our customers solve the need for intelligent, efficient, and high-performing products and solutions.

Highlights for the second quarter and first six months of fiscal 2016 include the following:

Our net sales decreased 4.2% in the second quarter of fiscal 2016 as compared to the same period of fiscal 2015 due primarily to declines in the Industrial Solutions and Communications Solutions segments. In the first six months of fiscal 2016, our net sales decreased 5.6% as compared to the first six months of fiscal 2015 with declines in all segments. Foreign currency exchange rates negatively impacted net sales by \$75 million and \$257 million in the second quarter and first six months of fiscal 2016, respectively.

On an organic basis, net sales decreased 2.0% and 1.6% in the second quarter and first six months of fiscal 2016, respectively, as compared to the same periods of fiscal 2015. Our organic net sales by segment were as follows:

Transportation Solutions Our organic net sales increased 3.2% and 2.1% in the second quarter and first six months of fiscal 2016, respectively, due primarily to increased sales in our automotive and sensors end markets.

Industrial Solutions Our organic net sales decreased 7.4% and 6.9% during the second quarter and first six months of fiscal 2016, respectively, due primarily to decreased sales in the aerospace, defense, oil, and gas, and industrial equipment end markets.

Communications Solutions Our organic net sales decreased 8.3% and 4.4% in the second quarter and first six months of fiscal 2016, respectively, with sales declines in the data and devices, and appliances end markets, partially offset by sales increases in the subsea communications end market.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Table of Contents

Net cash provided by continuing operating activities decreased \$33 million to \$522 million in the first six months of fiscal 2016 from \$555 million in the same period of fiscal 2015. Free cash flow increased to \$402 million in the first six months of fiscal 2016 as compared to \$296 million in the same period of fiscal 2015.

During the second quarter of fiscal 2016, we completed the sale of our Circuit Protection Devices ("CPD") business. We acquired the Creganna Medical group ("Creganna") subsequent to the end of the second quarter of fiscal 2016.

Outlook

In the third quarter of fiscal 2016, we expect net sales to be between \$3.0 billion and \$3.2 billion. This reflects sales growth in the Industrial Solutions and Transportation Solutions segments, offset by sales declines in the Communications Solutions segment in the third quarter of fiscal 2016 relative to the third quarter of fiscal 2015. Additional information regarding expectations for our reportable segments for the third quarter of fiscal 2016 is as follows:

Transportation Solutions We expect our sales to increase in the automotive and, to a lesser degree, commercial transportation end markets during the third quarter of fiscal 2016 as compared to the same period of fiscal 2015.

Industrial Solutions We expect our sales to increase during the third quarter of fiscal 2016 as compared to the third quarter of fiscal 2015 due primarily to the acquisition of Creganna which is expected to contribute sales of approximately \$60 million in the third quarter of fiscal 2016. This increase is expected to be partially offset by continued weakness in the oil and gas market.

Communications Solutions We expect our sales to decline in the data and devices end market in the third quarter of fiscal 2016 as compared to the third quarter of fiscal 2015 due to the divestiture of the CPD business and the strategic exit of certain product lines. This decline is expected to be partially offset by sales growth in the subsea communications end market.

We expect diluted earnings per share to be in the range of \$0.90 to \$0.96 per share in the third quarter of fiscal 2016. This outlook reflects the negative impact of foreign currency exchange rates on net sales and earnings per share of approximately \$23 million and \$0.01 per share, respectively, in the third quarter of fiscal 2016 as compared to the third quarter of fiscal 2015.

For fiscal 2016, which will be 53 weeks in length, we expect net sales to be between \$12.1 billion and \$12.5 billion, reflecting sales increases in the Transportation Solutions and Industrial Solutions segments, offset by sales declines in the Communications Solutions segment from fiscal 2015 levels. Additional information regarding expectations for our reportable segments for fiscal 2016 is as follows:

Transportation Solutions During fiscal 2016, we expect our sales growth in the automotive end market to exceed an anticipated 2% to 2.5% growth in global automotive production as compared to fiscal 2015.

Industrial Solutions We expect our sales increase attributable to the acquisition of Creganna to be partially offset by sales declines in China and continued weakness in the oil and gas market in fiscal 2016 as compared to fiscal 2015.

Communications Solutions We expect our sales to decline in the data and devices end market during fiscal 2016 as compared to fiscal 2015 as a result of the divestiture of the CPD business and the exit of certain product lines. This decline is expected to be partially offset by sales growth in the subsea communications end market.

We expect diluted earnings per share to be in the range of \$3.92 to \$4.12 per share in fiscal 2016. This outlook includes approximately \$200 million in net sales and \$0.10 earnings per share resulting from an

additional week in fiscal 2016. Also, this outlook reflects the negative impact of foreign currency exchange rates on net sales and earnings per share of approximately \$284 million and \$0.10 per share, respectively, in fiscal 2016 as compared to fiscal 2015.

The above outlook is based on foreign exchange rates and commodity prices that are consistent with current levels.

We are monitoring the current macroeconomic environment, including the uncertain market conditions in China, and its potential effects on our customers and the end markets we serve. We continue to closely manage our costs in line with economic conditions. Additionally, we are managing our capital resources and monitoring capital availability to ensure that we have sufficient resources to fund future capital needs. See further discussion in "Liquidity and Capital Resources."

Acquisition

On April 4, 2016, we acquired Creganna, a global leader in the design and manufacture of minimally invasive delivery and access medical devices, for a cash purchase price of approximately \$900 million, net of cash acquired. The transaction is subject to a final working capital adjustment. This business will be reported as part of the Industrial Equipment business within our Industrial Solutions segment.

Divestiture

During the second quarter of fiscal 2016, we sold our CPD business for \$350 million, subject to working capital adjustments, of which we received \$261 million during the quarter ended March 25, 2016. We recognized a pre-tax gain of \$146 million on the transaction. The CPD business was reported as part of the Data and Devices business within our Communications Solutions segment.

Table of Contents

Net sales decreased \$130 million, or 4.2%, in the second quarter of fiscal 2016 as compared to the second quarter of fiscal 2015. The decrease resulted primarily from the negative impact of foreign currency translation of 2.3% and organic net sales declines of 2.0%. Organic net sales were adversely affected by price erosion of \$50 million, due primarily to contractual foreign currency price adjustments.

In the first six months of fiscal 2016, net sales decreased \$346 million, or 5.6%, as compared to the first six months of fiscal 2015 due primarily to the negative impact of foreign currency translation of 4.1% and organic net sales declines of 1.6%. Organic net sales were adversely affected by price erosion of \$103 million, driven by contractual foreign currency price adjustments.

See further discussion of net sales below under "Segment Results."

Net Sales by Geographic Region. Our results of operations are influenced by changes in foreign currency exchange rates. Increases or decreases in the value of the U.S. dollar, compared to other currencies, will directly affect our reported results as we translate those currencies into U.S. dollars at the end of each fiscal period.

Approximately 53% of our net sales were invoiced in currencies other than the U.S. dollar in the first six months of fiscal 2016.

The following table sets forth our net sales and the percentage of total net sales by geographic region⁽¹⁾:

Table of Contents**Cost of Sales and Gross Margin**

The following table presents cost of sales and gross margin in dollars and as a percentage of net sales, as well as the changes from the same periods of fiscal 2015:

	For the Quarters Ended			For the Six Months Ended		
	March 25, 2016	March 27, 2015	Increase (Decrease)	March 25, 2016	March 27, 2015	Increase (Decrease)

As a percentage of net sales	32.6%	34.1%	(1.5)%	33.0%	33.8%	(0.8)%

Gross margin decreased \$89 million in the second quarter of fiscal 2016 as compared to the second quarter of fiscal 2015 due primarily to price erosion and the negative impact of changes in foreign currency exchange rates, partially offset by lower material costs.

Gross margin decreased \$164 million in the first six months of fiscal 2016 as compared to the same period of fiscal 2015. In the first six months of fiscal 2015, gross margin included charges of \$33 million from the amortization of acquisition-related fair value adjustments to acquired inventories and customer order backlog associated primarily with Measurement Specialties, Inc. ("Measurement Specialties"). Excluding this item, gross margin decreased due primarily to price erosion and the negative impact of changes in foreign currency exchange rates, partially offset by lower material costs.

Cost of sales and gross margin are subject to variability in raw material prices, and the price of many of our raw materials continues to fluctuate. We expect to purchase approximately 159 million pounds of copper, 110,000 troy ounces of gold, and 2.5 million troy ounces of silver in fiscal 2016. The following table sets forth the average prices incurred related to copper, gold, and silver:

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses decreased \$24 million in the second quarter of fiscal 2016 from the second quarter of fiscal 2015. Selling, general, and administrative expenses decreased \$70 million in the first six months of fiscal 2016 from the same period of fiscal 2015. The decreases resulted primarily from cost control measures and savings attributable to restructuring actions.

Acquisition and Integration Costs. In the second quarter and first six months of fiscal 2016, we incurred acquisition and integration costs of \$3 million and \$8 million, respectively, related primarily to the acquisitions of Measurement Specialties and Creganna. During the second quarter and first six months of fiscal 2015, we incurred acquisition and integration costs of \$14 million and \$38 million, respectively, related primarily to the acquisitions of Measurement Specialties and the SEACON Group.

Restructuring and Other Charges (Credits), Net. We are committed to continuous productivity improvements and consistently evaluate opportunities to simplify our global manufacturing footprint, migrate facilities to lower-cost regions, reduce fixed costs, and eliminate excess capacity. These initiatives are designed to help us maintain our competitiveness in the industry, improve our operating leverage, and position us for future growth. During fiscal 2016, we initiated a restructuring program associated with headcount reductions impacting all segments and product line closures in the Communications Solutions segment. During fiscal 2015, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions and Industrial Solutions segments.

We incurred restructuring charges of \$61 million during the first six months of fiscal 2016. We expect to incur net restructuring charges of approximately \$100 million during fiscal 2016. Cash spending related to restructuring was \$43 million during the first six months of fiscal 2016, and we expect total spending, which will be funded with cash from operations, to be approximately \$105 million in fiscal 2016. Annualized cost savings related to these actions are expected to be approximately \$65 million and are expected to be realized by the end of fiscal 2017. Cost savings will be reflected primarily in cost of sales and selling, general, and administrative expenses

During the second quarter of fiscal 2016, we recognized a pre-tax gain of \$146 million on the sale of our CPD business.

See Note 3 to the Condensed Consolidated Financial Statements for additional information regarding net restructuring and other charges (credits).

Other Income (Expense), Net. During the quarters ended March 25, 2016 and March 27, 2015, we recorded net other income of \$12 million and net other expense of \$5 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International plc ("Tyco International") and Covidien plc ("Covidien"). See Note 10 to the Condensed Consolidated Financial Statements for further information regarding the Tax Sharing Agreement.

During the six months ended March 25, 2016 and March 27, 2015, we recorded net other income of \$20 million and net other expense of \$75 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. The net other expense for the six months ended March 27, 2015 included \$94 million related to the effective settlement of undisputed tax matters for the years 2001 through 2007. See Note 11 to the Condensed Consolidated Financial Statements for additional information.

Income Taxes. We recorded income tax expense of \$130 million and \$94 million for the quarters ended March 25, 2016 and March 27, 2015, respectively. The tax expense for the quarter ended March 27, 2015 included an income tax charge for the estimated tax impacts of certain intercompany dividends related to the restructuring and anticipated sale of the Broadband Network Solutions ("BNS") business, partially offset by an income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Table of Contents

We recorded income tax expense of \$188 million and an income tax benefit of \$15 million for the six months ended March 25, 2016 and March 27, 2015, respectively. The tax expense for the six months ended March 25, 2016 included a \$25 million income tax benefit related primarily to deferred tax assets recognized in connection with the sale of our CPD business. The tax benefit for the six months ended March 27, 2015 included a \$202 million income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007. The tax benefit for the six months ended March 27, 2015 also included an income tax benefit related to the impacts of certain non-U.S. tax law changes and the associated reduction in the valuation allowance for tax loss carryforwards, partially offset by an income tax charge for the estimated tax impacts of certain intercompany dividends related to the restructuring and anticipated sale of the BNS business.

Discontinued Operations. During the fourth quarter of fiscal 2015, we sold our BNS business for \$3.0 billion in cash and recognized a pre-tax gain of \$1.1 billion on the transaction. During the six months ended March 25, 2016, we recognized an additional pre-tax gain of \$20 million on the divestiture, related primarily to pension and net working capital adjustments. The BNS business met the discontinued operations criteria and was reported as such in all periods presented on the Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS business was included in the former Network Solutions segment. See Note 4 to the Condensed Consolidated Financial Statements for additional information regarding discontinued operations.

3.3% was largely offset by organic sales growth of 3.2%. Our organic net sales by primary industry end market were as follows:

Automotive Our organic net sales increased 3.9% in the second quarter of fiscal 2016 with growth of 8.0% in the Asia Pacific region and 4.0% in the EMEA region, partially offset by a 4.5% decrease in the Americas region. Our growth in the Asia Pacific region was driven by increased market share and demand in China, and market improvement in Korea and Japan. In the EMEA region, our organic net sales increase outpaced growth in automotive production due to increased electrification and new model launches. The Americas region was negatively impacted by market weakness in North America and macroeconomic conditions in Brazil.

Commercial transportation Our organic net sales increased 0.7% in the second quarter of fiscal 2016 due primarily to growth in the heavy truck market in the EMEA region and China, partially offset by decreased demand in North America.

Sensors Our organic net sales increased 1.9% in the second quarter of fiscal 2016 due to strength in the data and devices, and automotive markets, partially offset by weakness in the industrial equipment market.

Net sales in the Transportation Solutions segment decreased \$107 million, or 3.3%, in the first six months of fiscal 2016 as compared to the same period of fiscal 2015 due to the negative impact of foreign currency translation of 5.4%, partially offset by organic net sales growth of 2.1%. Our organic net sales by primary industry end market were as follows:

Automotive Our organic net sales increased 2.4% in the first six months of fiscal 2016. The increase was due to growth of 5.1% in the EMEA region and 1.5% in the Asia Pacific region, partially offset by a decrease of 1.3% in the Americas region. In the EMEA region, our organic net sales increase exceeded growth in automotive production due to electrification and new model launches. Our growth in the Asia Pacific region resulted from market improvement in Japan and Korea. The Americas region was adversely impacted by market weakness in North America and macroeconomic conditions in Brazil.

Commercial transportation Our organic net sales decreased 2.1% in the first six months of fiscal 2016 due primarily to declines in the heavy truck market, with decreased demand in North America partially offset by growth in the EMEA region and China. In addition, there was continued weakness in the construction and agriculture markets with declines in all regions.

Sensors Our organic net sales increased 5.3% in the first six months of fiscal 2016 due to increased sales in the data and devices, commercial transportation, medical, and aerospace and defense markets.

In the second quarter of fiscal 2016, operating income in the Transportation Solutions segment decreased \$34 million as compared to the second quarter of fiscal 2015. Operating income in the Transportation Solutions segment decreased \$68 million in the first six months of fiscal 2016 from the same period of fiscal 2015. Excluding the special items presented in the table above, operating income decreased in the second quarter and first six months of fiscal 2016 primarily as a result of the negative impact of price erosion and changes in foreign currency exchange rates, partially offset by lower material costs.

Table of Contents

Net sales in the Industrial Solutions segment decreased \$59 million, or 7.4%, in the second quarter of fiscal 2016 from the second quarter of fiscal 2015 as a result of organic net sales declines of 7.4% and the negative impact of foreign currency translation of 2.0%, partially offset by sales contributions from acquisitions of 2.0%. Our organic net sales by primary industry end market were as follows:

Industrial equipment Our organic net sales decreased 7.9% in the second quarter of fiscal 2016 due primarily to market weakness in the Americas and Asia Pacific regions.

Aerospace, defense, oil, and gas Our organic net sales decreased 9.6% in the second quarter of fiscal 2016 with declines in both the oil and gas market and the aerospace and defense market. In the oil and gas market, our organic net sales decrease was due primarily to continuing market weakness resulting from declines in oil prices. Our organic net sales increase in the aerospace market was more than offset by declines in the defense market resulting from weakness across our distribution channel.

Energy Our organic net sales decreased 2.4% in the second quarter of fiscal 2016 as a result of market weakness in the Asia Pacific and EMEA regions, partially offset by growth in the Americas region.

In the first six months of fiscal 2016, net sales in the Industrial Solutions segment decreased \$134 million, or 8.5%, from the same period of fiscal 2015 due to organic net sales declines of 6.9% and the negative impact of foreign currency translation of 3.9%, partially offset by sales contributions from acquisitions of 2.3%. Our organic net sales by primary industry end market were as follows:

Industrial equipment Our organic net sales decreased 7.6% in the first six months of fiscal 2016 due to continuing market weakness in the Americas and Asia Pacific regions, partially offset by growth in the EMEA region.

Aerospace, defense, oil, and gas Our organic net sales decreased 10.3% in the first six months of fiscal 2016 with declines in both the oil and gas market and the aerospace and defense market. In the oil and gas market, our organic net sales decrease was due primarily to continuing market weakness resulting from declines in oil prices. Weakness across our distribution channel negatively impacted our organic net sales in the defense market.

Energy Our organic net sales increased 0.5% in the first six months of fiscal 2016 as a result of growth in the Americas and EMEA regions, partially offset by market weakness in the Asia Pacific region.

Operating income in the Industrial Solutions segment decreased \$21 million in the second quarter of fiscal 2016 as compared to the second quarter of fiscal 2015. In the first six months of fiscal 2016, operating income in the Industrial Solutions segment decreased \$41 million from the same period of fiscal 2015. Excluding the special items presented in the table above, operating income decreased in the second quarter and first six months of fiscal 2016 due primarily to lower volume, partially offset by lower material costs.

of 8.3% and sales declines resulting from a divestiture of 1.8%. Our organic net sales by primary industry end market were as follows:

Data and devices Our organic net sales decreased 24.2% in the second quarter of fiscal 2016 due to the strategic exit of certain low margin product lines, market weakness in the Asia Pacific and Americas regions, and reduced demand resulting from high inventory levels at distributors.

Subsea communications Our organic net sales increased 17.6% in the second quarter of fiscal 2016 as a result of increased levels of project activity.

Appliances Our organic net sales decreased 6.4% in the second quarter of fiscal 2016 as a result of weak demand attributable to high inventory levels at distributors in the Asia Pacific and Americas regions, partially offset by an increase in direct sales in the EMEA region.

Net sales in the Communications Solutions segment decreased \$105 million, or 7.9%, in the first six months of fiscal 2016 as compared to the same period of fiscal 2015 due to organic net sales declines of 4.4%, sales declines resulting from a divestiture of 2.3%, and the negative impact of foreign currency translation of 1.2%. Our organic net sales by primary industry end market were as follows:

Data and devices Our organic net sales decreased 23.8% in the first six months of fiscal 2016 due to the strategic exit of certain low margin product lines, market weakness in the Asia Pacific and Americas regions, and high inventory levels at distributors.

Subsea communications Our organic net sales increased 39.1% in the first six months of fiscal 2016 as a result of increased levels of project activity.

Appliances Our organic net sales decreased 9.8% in the first six months of fiscal 2016 due primarily to high inventory levels at distributors in the Asia Pacific and Americas regions, partially offset by an increase in direct sales in the EMEA region.

(1) Includes pre-tax gain of \$146 million on the sale of our CPD business during the second quarter of fiscal 2016.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Operating income in the Communications Solutions segment increased \$142 million in the second quarter of fiscal 2016 as compared to the second quarter of fiscal 2015, due primarily to the divestiture of the CPD business. Excluding the special items presented in the table above, operating income decreased in the second quarter of fiscal 2016, resulting primarily from lower volume, partially offset by lower material costs.

Table of Contents

In the first six months of fiscal 2016, operating income in the Communications Solutions segment increased \$169 million as compared to the same period of fiscal 2015, primarily as a result of the divestiture of the CPD business. Excluding the special items presented in the table above, operating income increased in the first six months of fiscal 2016, due primarily to lower material costs and savings attributable to restructuring actions, partially offset by lower volume.

Liquidity and Capital Resources

The following table summarizes our cash flow from operating, investing, and financing activities, as reflected on the Condensed Consolidated Statements of Cash Flows:

	For the	
	Six Months Ended	
	March 25,	March 27,
	2016	2015

Effect of currency translation on cash	(2)	(40)
Net decrease in cash and cash equivalents	\$ (2,179)	\$ (1,760)

Our ability to fund our future capital needs will be affected by our ability to continue to generate cash from operations and may be affected by our ability to access the capital markets, money markets, or other sources of funding, as well as the capacity and terms of our financing arrangements. We believe that cash generated from operations and, to the extent necessary, these other sources of potential funding will be sufficient to meet our anticipated capital needs for the foreseeable future. We may use excess cash to purchase a portion of our common shares pursuant to our authorized share repurchase program; to acquire strategic businesses or product lines; to pay distributions or dividends on our common shares; or to reduce our outstanding debt, including through the possible repurchase of our debt in accordance with applicable law. On April 4, 2016, we acquired Creganna. See additional information in Note 20 to the Condensed Consolidated Financial Statements. The cost or availability of future funding may be impacted by financial market conditions. We will continue to monitor financial markets and respond as necessary to changing conditions.

Cash Flows from Operating Activities

In the first six months of fiscal 2016, net cash provided by continuing operating activities decreased \$33 million to \$522 million from \$555 million in the first six months of fiscal 2015. The decrease resulted primarily from net payments related to pre-separation tax matters, partially offset by the favorable effects of changes in inventory levels.

The amount of income taxes paid, net of refunds, during the first six months of fiscal 2016 and 2015 was \$635 million and \$170 million, respectively. Payments made in the first six months of fiscal 2016 and 2015 included \$443 million and \$26 million, respectively, for tax deficiencies related to pre-separation U.S. tax matters. Also during the first six months of fiscal 2016, we received net reimbursements of \$303 million from Tyco International and Covidien pursuant to indemnifications for pre-separation U.S. tax matters. See Note 11 to the Condensed Consolidated Financial Statements for additional information related to pre-separation tax matters.

Table of Contents

In addition to net cash provided by operating activities, we use free cash flow, a non-GAAP financial measure, as a useful measure of our ability to generate cash. Free cash flow was \$402 million in the first six months of fiscal 2016 as compared to \$296 million in the first six months of fiscal 2015. The increase in free cash flow was driven primarily by the favorable effects of changes in inventory levels.

The following table sets forth a reconciliation of net cash provided by continuing operating activities, the most comparable GAAP financial measure, to free cash flow.

	For the Six Months Ended	
	March 25, 2016	March 27, 2015

Payments related to pre-separation U.S. tax matters, net	140	26
Payments related to income taxes on the sale of the BNS business	9	
Free cash flow	\$ 402	\$ 296

Cash Flows from Investing Activities

Capital spending was \$270 million and \$291 million in the first six months of fiscal 2016 and 2015, respectively. We expect fiscal 2016 capital spending levels to be approximately 5% of net sales. We believe our capital funding levels are adequate to support new programs, and we continue to invest in our manufacturing infrastructure to further enhance productivity and manufacturing capabilities.

During fiscal 2016, we received net cash proceeds of \$261 million related to the sale of our CPD business. See additional information in Note 3 to the Condensed Consolidated Financial Statements.

In the first quarter of fiscal 2015, we acquired Measurement Specialties. The total value paid for the transaction was approximately \$1.7 billion, net of cash acquired, and included \$225 million for the repayment of Measurement Specialties' debt and accrued interest.

Cash Flows from Financing Activities and Capitalization

Total debt at March 25, 2016 and September 25, 2015 was \$3,884 million. See Note 9 to the Condensed Consolidated Financial Statements for additional information regarding debt.

During January 2016, Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, issued \$350 million aggregate principal amount of 3.700% senior notes due February 15, 2026. The notes are TEGSA's unsecured senior obligations and rank equally in right of payment with all existing and any future senior indebtedness of TEGSA and senior to any subordinated indebtedness that TEGSA may incur. The notes are fully and unconditionally guaranteed as to payment on an unsecured basis by TE Connectivity Ltd.

During January 2016, TEGSA repaid, at maturity, \$500 million senior floating rate notes due 2016.

TEGSA has a five-year unsecured senior revolving credit facility ("Credit Facility") with total commitments of \$1,500 million. The Credit Facility was amended in December 2015 primarily to extend the maturity date from August 2018 to December 2020. TEGSA had no borrowings under the Credit Facility at March 25, 2016 and September 25, 2015.

Table of Contents

The Credit Facility contains a financial ratio covenant providing that if, as of the last day of each fiscal quarter, our ratio of Consolidated Total Debt to Consolidated EBITDA (as defined in the Credit Facility) for the then most recently concluded period of four consecutive fiscal quarters exceeds 3.75 to 1.0, an Event of Default (as defined in the Credit Facility) is triggered. The Credit Facility and our other debt agreements contain other customary covenants. None of our covenants are presently considered restrictive to our operations. As of March 25, 2016, we were in compliance with all of our debt covenants and believe that we will continue to be in compliance with our existing covenants for the foreseeable future.

TEGSA's payment obligations under its senior notes, commercial paper, and Credit Facility are fully and unconditionally guaranteed by its parent, TE Connectivity Ltd.

Payments of common share dividends to shareholders were \$245 million and \$236 million in the first six months of fiscal 2016 and 2015, respectively.

In March 2016, our shareholders approved a dividend payment to shareholders of \$1.48 (equivalent to CHF 1.48) per share out of contributed surplus, payable in four equal quarterly installments of \$0.37 per share beginning in the third quarter of fiscal 2016 through the second quarter of fiscal 2017.

In the second quarter of fiscal 2016, our board of directors authorized an increase of \$1.0 billion in the share repurchase program. We repurchased approximately 40 million of our common shares for \$2,415 million and approximately four million of our common shares for \$284 million under our share repurchase authorization during the first six months of fiscal 2016 and 2015, respectively. At March 25, 2016, we had \$1.3 billion of availability remaining under our share repurchase authorization.

Commitments and Contingencies

Legal Proceedings

In the normal course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows. However, the proceedings discussed in "Income Tax Matters" in Note 11 to the Condensed Consolidated Financial Statements could have a material effect on our results of operations, financial position, or cash flows.

As previously reported, we had a contingent purchase price commitment of \$80 million related to our fiscal 2001 acquisition of Com-Net. This represented the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system was completed for and approved by the State of Florida in accordance with guidelines set forth in the contract. Under the terms of the purchase and sale agreement, we did not believe we had any obligation to the sellers. However, the sellers contested our position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania. Trial began in March 2015 and culminated in the entry of final judgment on October 8, 2015, in favor of the sellers and against us for \$127 million plus costs. The judgment represents the \$80 million contingent purchase price plus pre-judgment interest, which will continue to accrue until the judgment is paid in full. We are appropriately reserved for this matter and are proceeding with an appeal.

Table of Contents

Income Tax Matters

In connection with the separation from Tyco International in 2007, we entered into a Tax Sharing Agreement that generally governs our, Tyco International's, and Covidien's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. See Note 10 to the Condensed Consolidated Financial Statements for additional information regarding the Tax Sharing Agreement. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and indemnifications with Tyco International and Covidien. See "Income Tax Matters" in Note 11 to the Condensed Consolidated Financial Statements for further information regarding income tax matters, including the disputed issue related to the tax treatment of certain intercompany debt transactions.

Off-Balance Sheet Arrangements

In certain instances, we have guaranteed the performance of third parties and provided financial guarantees for uncompleted work and financial commitments. The terms of these guarantees vary with end dates ranging from fiscal 2016 through the completion of such transactions. The guarantees would be triggered in the event of nonperformance, and the potential exposure for nonperformance under the guarantees would not have a material effect on our results of operations, financial position, or cash flows.

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At March 25, 2016, we had outstanding letters of credit, letters of guarantee, and surety and appeal bonds of \$506 million.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not significantly affect our results of operations, financial position, or cash flows.

Critical Accounting Policies and Estimates

The preparation of the Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenue and expenses.

Our accounting policies for revenue recognition, goodwill and other intangible assets, income taxes, and pension and postretirement benefits are based on, among other things, judgments and assumptions made by management. For additional information regarding these policies and the underlying accounting assumptions and estimates used in these policies, refer to the Consolidated Financial Statements and accompanying notes contained in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015. There were no significant changes to this information during the six months ended March 25, 2016.

Accounting Pronouncements

See Note 2 to the Condensed Consolidated Financial Statements for information regarding recently issued and recently adopted accounting pronouncements.

Table of Contents

Non-GAAP Financial Measures

Organic net sales growth and free cash flow are non-GAAP measures and should not be considered replacements for results in accordance with GAAP. These non-GAAP measures may not be comparable to similarly-titled measures reported by other companies. The primary limitation of these measures is that they exclude the financial impact of items that would otherwise either increase or decrease our reported results. This limitation is best addressed by using these non-GAAP measures in combination with the most directly comparable GAAP measures in order to better understand the amounts, character, and impact of any increase or decrease in reported amounts. The following provides additional information regarding these non-GAAP measures.

Organic Net Sales Growth

Organic net sales growth is a useful measure of our underlying results and trends in the business. It is also a significant component in our incentive compensation plans. The difference between reported net sales growth (the most comparable GAAP measure) and organic net sales growth consists of the impact from foreign currency exchange rates, and acquisitions and divestitures, if any. Organic net sales growth is a useful measure of our performance because it excludes items that are not completely under management's control, such as the impact of changes in foreign currency exchange rates, and items that do not reflect the underlying growth of the company, such as acquisition and divestiture activity. Management uses organic net sales growth to monitor and evaluate performance. Also, management uses organic net sales growth together with GAAP measures such as net sales growth and operating income in its decision making processes related to the operations of our reportable segments and our overall company. We believe that investors benefit from having access to the same financial measures that management uses in evaluating operations. The tables presented in "Results of Operations" and "Segment Results" above provide reconciliations of organic net sales growth to net sales growth calculated under GAAP.

Free Cash Flow

Free cash flow is a useful measure of our ability to generate cash. The difference between net cash provided by continuing operating activities (the most comparable GAAP measure) and free cash flow consists mainly of significant cash outflows and inflows that we believe are useful to identify. We believe free cash flow provides useful information to investors as it provides insight into the primary cash flow metric used by management to monitor and evaluate cash flows generated from our operations.

Free cash flow is defined as net cash provided by continuing operating activities excluding voluntary pension contributions and the cash impact of special items, if any, minus net capital expenditures. Net capital expenditures consist of capital expenditures less proceeds from the sale of property, plant, and equipment. These items are subtracted because they represent long-term commitments. Voluntary pension contributions are excluded because this activity is driven by economic financing decisions rather than operating activity. Certain special items, including net payments related to pre-separation tax matters, are also considered by management in evaluating free cash flow. We believe investors also should consider these items in evaluating our free cash flow.

Free cash flow subtracts certain cash items that are ultimately within management's and the board of directors' discretion to direct and may imply that there is less or more cash available for our programs than the most comparable GAAP measure indicates. It should not be inferred that the entire free cash flow amount is available for future discretionary expenditures, as our definition of free cash flow does not consider certain non-discretionary expenditures, such as debt payments. In addition, we may have other discretionary expenditures, such as discretionary dividends, share repurchases, and business acquisitions, that are not considered in the calculation of free cash flow.

Table of Contents

The tables presented in "Liquidity and Capital Resources" above provide reconciliations of free cash flow to cash flows from continuing operating activities calculated under GAAP.

Forward-Looking Information

Certain statements in this Quarterly Report on Form 10-Q are "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based on our management's beliefs and assumptions and on information currently available to our management. Forward-looking statements include, among others, the information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, potential growth opportunities, potential operating performance improvements, acquisitions, divestitures, the effects of competition, the terms of our proposed settlement with the Internal Revenue Service ("IRS") relating to our intercompany debt dispute tax litigation, and the effects of future legislation or regulations. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "predict," "potential," "continue," "may," "should," or the negative of these terms or similar expressions.

Forward-looking statements involve risks, uncertainties, and assumptions. Actual results may differ materially from those expressed in these forward-looking statements. You should not put undue reliance on any forward-looking statements. We do not have any intention or obligation to update forward-looking statements after we file this report except as required by law.

The following and other risks, which are described in greater detail in "Part I. Item 1A. Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015, could cause our results to differ materially from those expressed in forward-looking statements:

conditions in the global or regional economies and global capital markets, and cyclical industry conditions;

conditions affecting demand for products in the industries we serve, particularly the automotive industry;

competition and pricing pressure;

market acceptance of new product introductions and product innovations and product life cycles;

raw material availability, quality, and cost;

fluctuations in foreign currency exchange rates;

financial condition and consolidation of customers and vendors;

reliance on third-party suppliers;

risks associated with our acquisition of Creganna;

risks associated with current and future acquisitions and divestitures;

global risks of business interruptions such as natural disasters and political, economic, and military instability;

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

risks associated with security breaches and other disruptions to our information technology infrastructure;

risks related to compliance with current and future environmental and other laws and regulations;

our ability to protect our intellectual property rights;

Table of Contents

risks of litigation;

our ability to operate within the limitations imposed by our debt instruments;

risks relating to our separation on June 29, 2007 from Tyco International;

the possible effects on us of various U.S. and non-U.S. legislative proposals and other initiatives that, if adopted, could materially increase our worldwide corporate effective tax rate and negatively impact our U.S. government contracts business;

the risk that the conditions precedent to our settlement with the IRS are never met and the intercompany debt dispute is not settled with the IRS, the risk that a party to the Tax Sharing Agreement defaults under its payment obligations pursuant to the Tax Sharing Agreement, and the risk that the IRS may not consistently apply the terms of the settlement to all of our U.S. income tax returns filed subsequent to fiscal 2000;

various risks associated with being a Swiss corporation;

the impact of fluctuations in the market price of our shares; and

the impact of certain provisions of our articles of association on unsolicited takeover proposals.

There may be other risks and uncertainties that we are unable to predict at this time or that we currently do not expect to have a material adverse effect on our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no significant changes in our exposures to market risk during the first six months of fiscal 2016. For further discussion of our exposures to market risk, refer to "Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Acting Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended), as of March 25, 2016. Based on that evaluation, our Chief Executive Officer and Acting Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 25, 2016.

Changes in Internal Control Over Financial Reporting

During the quarter ended March 25, 2016, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 1. LEGAL PROCEEDINGS

There have been material developments in our legal proceedings since we filed our Annual Report on Form 10-K for the fiscal year ended September 25, 2015 as described under "Income Tax Matters" in Note 11 to the Condensed Consolidated Financial Statements in this report. For a description of our previously reported legal proceedings, refer to "Part I. Item 3. Legal Proceedings" in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015 except as otherwise described below. The risk factors described in our Annual Report on Form 10-K, in addition to other information set forth below and in this report, could materially affect our business operations, financial condition, or liquidity. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial may also impair our business operations, financial condition, and liquidity.

The Creganna acquisition and future acquisitions may not be successful.

We recently acquired Creganna. We regularly evaluate the possible acquisitions of strategic businesses or product lines with the potential to strengthen our market position or enhance our existing product offerings. Risks associated with the acquisition of Creganna include the risk that Creganna's operations will not be integrated successfully into ours and the risk that revenue opportunities, cost savings, and other anticipated synergies from the transaction may not be fully realized or may take longer to realize than expected. We also cannot assure you that we will identify or successfully complete transactions with other suitable acquisition candidates in the future. Nor can we assure you that completed acquisitions will be successful if an acquired business fails to operate as anticipated or cannot be successfully integrated.
