Investment Objective and Policy

MassMutual Participation Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange under the trading symbol section of most newspapers as "MassPrt" or "MassMuPrt" under either the New York Stock Exchange listings or Closed-End Fund Listings.

The Trust's investment objective is to maximize total return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. At least half of these investments normally include equity features such as common stock, warrants, conversion rights, or other equity features that provide the Trust with the opportunity to realize capital gains. The Trust will also invest in publicly traded debt securities (including high yield securities), again with an emphasis on those with equity features, and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal. In addition, the Trust may temporarily invest in high quality, readily

marketable securities.

Babson Capital Management LLC ("Babson Capital") manages the Trust on a total return basis. The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders in January, May, August, and November. All registered shareholders are automatically enrolled in the Dividend Reinvestment and Cash Purchase Plan unless cash distributions are requested.

TO OUR SHAREHOLDERS

MassMutual Participation Investors

October 31, 2011

We are pleased to present the September 30, 2011 Quarterly Report of MassMutual Participation Investors (the "Trust").

The Board of Trustees declared a quarterly dividend of 27 cents per share, payable on November 10, 2011 to shareholders of record on October 31, 2011. The Trust paid a 27 cent per share dividend for the preceding quarter. The Trust earned 28 cents per share of net investment income for the third quarter of 2011, compared to 34 cents per share in the previous quarter. The previous quarter's earnings included approximately 7 cents per share of income due to nonrecurring items.

During the third quarter, the net assets of the Trust decreased to \$126,154,855 or \$12.49 per share compared to \$126,256,640 or \$12.52 per share on June 30, 2011. This translates into a 1.9% total return for the quarter, based on the change in the Trust's net assets assuming the reinvestment of all dividends. Longer term, the Trust returned 13.3%, 9.8%, 8.3%, and 13.5% for the 1-, 3-, 5-, and 10-year time periods, respectively, based on the change in the Trust's net assets assuming the reinvestment of all dividends.

The Trust's share price increased 1.2% during the quarter, from \$14.94 per share as of June 30, 2011 to \$15.12 per share as of September 30, 2011. The Trust's market price of \$15.12 per share equates to a 21.1% premium over the September 30, 2011 net asset value per share of \$12.49. The Trust's average quarter-end premium for the 3, 5 and 10-year periods was 6.2%, 7.7% and 8.8%, respectively. U.S. equity markets, as approximated by the Russell 2000 Index, decreased 21.8% for the quarter. U.S. fixed income markets, as approximated by the Barclays Capital U.S. Corporate High Yield Index, decreased 6.1% for the quarter.

The Trust closed four new private placement investments during the third quarter. The four new investments were in LPC Holding Company, Marshall Physician Services LLC, Merex Holding Corporation and Strata/WLA Holding Corporation. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these four transactions was \$3,000,000.

Last quarter, I characterized middle market buyout activity as lackluster. Activity in the third quarter and thus far in the fourth quarter presents quite a contrast as our deal flow has been robust. Deal flow often fluctuates from quarter to quarter and it is usually hard to pinpoint the exact reasons why. That is certainly the case today. It does appear, though, that the deal supply/capital availability imbalance that I mentioned in prior quarters has come into better balance. After closing only two new platform investments in the first half of the year, it was a welcome change to close four new attractive platform investments this quarter. Subsequent to quarter-end, we have already closed two additional platform investments, and we have several more transactions in process. It looks like it will be a busy fourth quarter. Be assured, however, that despite the pickup in deal flow, we will continue to maintain the same investment discipline and philosophy that has served us well for many years.

(Continued)

Most of our portfolio companies once again reported improved operating results in the third quarter of 2011. Several more of our companies were also able to resume paying cash interest on their debt obligations due to their improved financial results and liquidity positions. We are pleased with the continued improving quality of the portfolio. Realization activity in the third quarter was limited, with just one portfolio company, Momentum Holding Company, sold. However, one additional company, Nesco Holding Corporation, was sold for a nice gain in the middle of October. We also continue to have a healthy backlog of companies that are in various stages of a sale process, so we expect realization activity to be strong for the next few quarters at least.

Thank you for your continued interest	t in and support of MassMutual	Participation Investors.
---------------------------------------	--------------------------------	--------------------------

Sincerely,

Michael L. Klofas

President

(a) Calculated using average shares.

(b) Rounds to less than \$0.01 per share.

- (c) Net asset value return represents portfolio returns based on change in the Trust's net asset value assuming the reinvestment of all dividends and distributions which differs from the total investment return based on the Trust's market value due to the difference between the Trust's net asset value and the market value of its shares outstanding; past performance is no guarantee of future results.
- (d) As additional information, this ratio is included to reflect the taxes paid on retained long-term gains. These taxes paid are netted against realized capital gains in the Statement of Operations. The taxes paid are treated as deemed distributions and a credit for the taxes paid is passed on to shareholders.
