NOTE A – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] BASIS OF PRESENTATION:

The accompanying condensed financial statements as of June 30, 2014 and for the three and six month periods ended June 30, 2014 and June 30, 2013 are unaudited, but, in the opinion of the management of Network-1 Technologies, Inc. (the "Company"), contain all adjustments consisting only of normal recurring items which the Company considers necessary for the fair presentation of the Company's financial position as of June 30, 2014, and the results of its operations and comprehensive income and its cash flows for the three and six month periods ended June 30, 2014 and June 30, 2013. The condensed financial statements included herein have been prepared in accordance with the accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-Q. Accordingly, certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2013 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission. The results of operations for the three and six months ended June 30, 2014 are not necessarily indicative of the results of operations to be expected for the full year.

[2] BUSINESS:

(a) The Company is engaged in the development, licensing and protection of its intellectual property assets. The Company presently owns twenty-two (22) patents that relate to various technologies including patents covering (i) the delivery of power over Ethernet (PoE) cables for the purpose of remotely powering network devices, such as wireless access ports, IP phones and network based cameras; (ii) foundational technologies that enable unified search and indexing, displaying and archiving of documents in a computer system; (iii) enabling technology for identifying media content on the Internet and taking further action to be performed based on such identification including, among others, the insertion of advertising and the facilitation of the purchase of goods and services related to such content; and (iv) systems and methods for the transmission of audio, video and data over computer and telephony networks in order to achieve high quality of service (QoS). The Company has been actively engaged in licensing its remote power patent (U.S. Patent No. 6,218,930) covering the control of power delivery over Ethernet cables (the "Remote Power Patent"). The Company has entered into sixteen (16) license agreements with respect to its Remote Power Patent. The Company's current strategy includes continuing to pursue licensing opportunities for its Remote Power Patent and its efforts to monetize two patent portfolios (the Cox and Mirror Worlds patent portfolios) acquired by the Company in 2013 (see Note B[2] hereof). The Company's acquisition strategy is to focus on acquiring high quality patents which management believes have the potential to generate significant licensing opportunities as the Company has achieved with respect to its Remote Power Patent. The Company's Remote Power Patent has generated licensing revenue in excess of \$65,000,000 from May 2007 through June 30, 2014. The Company continually reviews opportunities to acquire or license additional intellectual property. In addition, the Company may enter into strategic relationships with third parties to develop, commercialize, license or otherwise monetize their intellectual property.

NOTE A – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accompanying financial statements include the accounts of the Company and its wholly-owned subsidiary, Mirror Worlds Technologies, LLC (a single member LLC).

(b) As reflected in the accompanying financial statements, the Company had revenue of \$5,166,000 and \$1,907,000 for the three month period ended June 30, 2014 and June 30, 2013, respectively, and revenue of \$9,657,000 and \$5,971,000 for the six month period ended June 30, 2014 and June 30, 2013, respectively. Revenue for the three and six month periods ended June 30, 2014 includes \$3,281,000 of revenue as a result of the Cisco audit (see Note F hereof). The Company has been dependent upon royalty revenue from license of its Remote Power Patent to fund its operations. The Company had cash and cash equivalents of \$16,579,000 as of June 30, 2014.

[3] STOCK-BASED COMPENSATION:

On April 9, 2014, the Company issued 5-year stock options to (i) each of its Chief Financial Officer and Executive Vice President to purchase 50,000 shares of common stock, at an exercise price of \$1.65 per share, which options vest 25,000 shares on December 31, 2014 and 25,000 shares on December 31, 2015 and (ii) a consultant to the Company to purchase 75,000 shares of common stock at an exercise price of \$1.65 per share, which option vests 37,500 shares on December 31, 2014 and 37,500 shares on December 31, 2015.

On June 19, 2013, the Company issued to a director a 5-year option to purchase 300,000 shares of its common stock, at an exercise price of \$1.88 per share, for service as the sole member of the Company's Strategic Development Committee. The shares underlying such option vested 100,000 shares on the date of grant, 100,000 shares on June 19, 2014 and 100,000 shares will vest on June 19, 2015. The Company recorded \$75,000 in non-cash compensation in connection with the vested portion of the option for the six month period ended June 30, 2014 and June 30, 2013.

During the six month period ended June 30, 2013, the Company issued stock options to each of its four (4) non-management directors to purchase 25,000 shares of common stock at an exercise price of \$1.19 per share. Such options vest over a one year period in equal quarterly amounts, subject to continued service on the Board. Risk-free interest rates	1.65%	0.78-1.24%

NOTE A – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

[4] REVENUE RECOGNITION:

The Company recognizes revenue received from the licensing of its intellectual property in accordance with Staff Accounting Bulletin No. 104, "Revenue Recognition" ("SAB No. 104") and related authoritative pronouncements. Revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) all obligations have been performed pursuant to the terms of the license agreement, (iii) amounts are fixed or determinable, and (iv) collectibility of amounts is reasonably assured. One licensee (Cisco Systems) constituted approximately 92% and 84% of the Company's revenue, respectively, for the six month periods ended June 30, 2014 and June 30, 2013.

[5] INCOME TAXES:

At June 30, 2014, the Company had net operating loss carryforwards (NOLs) totaling approximately \$22,855,000 expiring through 2029, with a future tax benefit of approximately \$7,771,000. At June 30, 2014 and June 30, 2013, \$4,093,000 and \$5,878,000, respectively, were recorded as a deferred tax asset on the Company's balance sheet. During the six month period ended June 30, 2014 as a result of income (before taxes) for the period of \$4,665,000, \$1,668,000 was recorded as income tax expense and the deferred tax asset was reduced by \$1,566,000 to \$4,093,000. To the extent that the Company earns income in the future, it will report income tax expense and such expense attributable to federal income taxes will reduce the recorded income tax benefit asset reflected on the balance sheet. Management will continue to evaluate the recoverability of the NOL and adjust the deferred tax asset appropriately. Utilization of NOL credit carryforwards can be subject to a substantial annual limitation due to ownership change limitations that could occur in the future, as required by Section 382 of the Internal Revenue Code of 1986, as amended, as well as similar state provisions.

NOTE A – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

[6] EARNINGS (LOSS) PER SHARE:

Basic Earnings (loss) per share is calculated by dividing the net income (loss) by the weighted average number of outstanding common shares during the period. Diluted per share data includes the dilutive effects of options, warrants and convertible securities. Potential shares of 3,720,000 and 7,587,000 at June 30, 2014 and 2013, respectively, consisted of options and warrants. Computations of basic and diluted weighted average common shares outstanding are as follows:

	Six Months Ended June 30,		Three Months Ended June 30,	
	2014	2013	2014	2013
Weighted-average common shares outstanding – basic	25,629,473	25,098,074	25,484,978	25,181,736
Dilutive effect of options and warrants	2,059,677	2,298,340	2,011,254	1,905,325
Weighted-average common shares outstanding – diluted	27,689,150	27,396,414	27,496,232	27,087,061
Options and Warrants excluded from the computation of diluted income (loss) per share because the effect of inclusion would have been anti-dilutive	1,660,323	5,289,160	1,708,746	5,682,175

[7] CASH EQUIVALENTS:

The Company places cash investments in high quality financial institutions insured by the Federal Deposit Insurance Corporation ("FDIC"). At June 30, 2014, the Company maintained cash balance of \$16,329,000 in excess of FDIC limits.

The Company considers all highly liquid short-term investments purchased with an original maturity of three months or less to be cash equivalents.

Cash and cash equivalents as of June 30, 2014 and December 31, 2013 are composed of:

	June 30, 2014	December 31, 2013
Cash	\$ 2,662,000	\$ 1,903,000
Money market fund	13,917,000	17,035,000
Total	\$ 16,579,000	\$ 18,938,000

[8] MARKETABLE SECURITIES

Marketable securities are classified as available-for-sale and are recorded as fair market value. Unrealized gain and losses are reported as other comprehensive income. Realized gains and losses are included in income in the period

they are realized. The Company's marketable securities consist of a corporate bond (face value \$500,000) with a 5% coupon and a maturity date of June 2015.

NOTE A – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

[9] INVESTMENT IN LIFESTREAMS

In May 2013, as part of the acquisition of the Mirror Worlds portfolio (see Note B[2] hereof), the Company acquired from Mirror Worlds, LLC 250,000 shares of common stock of Lifestreams Technologies Corporation (“Lifestreams”), a company engaged in the development of next generation applications and methodologies designed to organize and display digital data. In addition, in July 2013 the Company made an additional investment of \$50,000 in Lifestreams as part of a financing and received 123,456 shares of Series A preferred stock and, as part of an amended license agreement between the Company’s subsidiary and Lifestreams, the Company received a warrant to purchase 7.5% of the then outstanding shares of common stock of Lifestreams on a fully diluted basis (post-financing). The warrant is valued at \$70,000 based on the Black-Scholes option model and recorded as non-cash royalty income. In March 2014, the Company made an additional investment of \$95,000 in Lifestreams in the form of a convertible note as part of the first tranche of an aggregate investment of \$380,200 of convertible notes. In May 2014, the Company made an additional investment of \$95,000 as part of the second tranche. The convertible notes are due March 31, 2015 and shall automatically convert into shares of preferred stock upon a Lifestreams “qualified” equity financing (at least \$3.0 million). Since the investment in Lifestreams does not have a readily determinable fair value and is less than 20% equity ownership at June 30, 2014, such investment was recorded utilizing the cost-method. At June 30, 2014, the Company’s investment in Lifestream consists of the following:

	Number of Shares	Value
Common Stock	250,000	\$ 76,000
Series A Preferred Stock	123,456	50,000
Warrants	1,305,000	70,000
Convertible Notes	—	190,000
		\$ 386,000

NOTE B – COMMITMENTS AND CONTINGENCIES

[1] Legal Fees:

Russ, August & Kabat provides legal services to the Company with respect to its pending patent litigation filed in April 2014 against Google and YouTube in the United States District Court for the Southern District of New York relating to certain patents within the Company’s Cox Patent Portfolio (as defined in Note B[2] hereof). The terms of the Company’s agreement with Russ, August & Kabat provides for legal fees on a full contingency basis ranging from 15% to 30% of the net recovery (after deduction of expenses) depending on the stage of the proceeding in which the result (settlement or judgment) is achieved. The Company is responsible for all of the expenses incurred with respect to this litigation.

NOTE B - COMMITMENTS AND CONTINGENCIES (continued)

Dovel & Luner, LLP provides legal services to the Company with respect to its patent litigation commenced in May 2013 against Apple, Inc., Microsoft, Inc. and other major vendors of document system software and computer systems in the United States District Court of Texas, Tyler Division for infringement of U.S. Patent No. 6,006,227 (see Note D[1] hereof). The terms of the Company's agreement with Dovel & Luner LLP provide for legal fees on a contingency basis ranging from 25% to 40% of the net recovery (after deduction of expenses) depending upon the stage of proceeding in which a result (settlement or judgment) is achieved, subject to certain agreed upon contingency fee caps depending upon the amount of the net recovery. The Company is responsible for a certain portion of the expenses incurred with respect to the litigation.

Dovel & Luner, LLP provides legal services to the Company with respect to the Company's pending patent litigation filed in September 2011 against eleven (11) data networking equipment manufacturers in the United States District Court for the Eastern District of Texas, Tyler (see Note D[3]). The terms of the Company's agreement with Dovel & Luner LLP essentially provides for legal fees on a full contingency basis ranging from 12.5% to 35% (with certain exceptions) of the net recovery (after deduction for expenses) depending on the stage of the preceding in which a result (settlement or judgment) is achieved. For the six month period ended June 30, 2014 and June 30, 2013, the Company accrued aggregate legal fees with respect to the litigation of \$62,000 and \$155,000, respectively, to Dovel & Luner. The Company is responsible for a certain portion of the expenses incurred with respect to the litigation.

Dovel & Luner, LLP provided legal services to the Company with respect to the litigation settled in July 2010 against several major data networking equipment manufacturers (see Note D[2]). The terms of the Company's agreement with Dovel & Luner, LLP with respect to this litigation provided for legal fees of a maximum aggregate cash payment of \$1.5 million plus a contingency fee of 24% (based on the settlement being achieved at the trial stage). Because of the royalty payments payable quarterly by Cisco in accordance with the Company's settlement and license agreement with Cisco (see Note D[4]), the Company has an obligation to pay Dovel & Luner 24% of such royalties received. During the six months ended June 30, 2014 and 2013, the Company incurred aggregate legal fees to Dovel & Luner, LLP of approximately \$2,192,000 and \$1,264,000, respectively, with respect to the aforementioned litigation.

With respect to the Company's litigation against D-Link, which was settled in May 2007, the Company utilized the services of Blank Rome, LLP on a full contingency basis. In accordance with the Company's contingency fee agreement with Blank Rome LLP, once the Company recovers its expenses related to the litigation (which were recovered in the first quarter of 2013), the Company is obligated to pay legal fees to Blank Rome LLP equal to 25% of the royalty revenue received by the Company from its license agreement with D-Link. During the six month period ended June 30, 2014 and June 30, 2013, the Company accrued legal fees to Blank Rome LLP of \$28,000 and \$6,000, respectively.

[2] Patent Acquisitions:

On February 28, 2013, the Company completed the acquisition of four (4) patents (as well as a pending patent application) from Dr. Ingemar Cox, a technology leader in digital watermarking content identification, digital rights management and related technologies (the "Cox Patent Portfolio"), for a purchase price of \$1,000,000 in cash and 403,226 shares of the Company's common stock. In addition, the Company is obligated to pay Dr. Cox 12.5% of the net proceeds (after deduction of expenses) generated by the Company from licensing, sale or enforcement of the patents. In 2014, the Company was issued three additional patents by the United States Patent and Trademark Office related to the Cox Patent Portfolio.

On May 21, 2013, the Company's wholly-owned subsidiary, Mirror Worlds Technologies, LLC, acquired all of the patents previously owned by Mirror Worlds, LLC (which subsequently changed its name to Looking Glass LLC), consisting of nine (9) issued United States patents and five (5) pending applications covering foundational technologies that enable unified search and indexing, displaying and archiving of documents in a computer system. As consideration for the patent acquisition, the Company paid Looking Glass LLC \$3,000,000 in cash, and issued 5-year warrants to purchase an aggregate of 1,750,000 shares of the Company's common stock (875,000 shares of common stock at an exercise price of \$1.40 per share and 875,000 shares of the Company's common stock at an exercise price of \$2.10 per share) (the "Looking Glass Warrants"). Professional fees and filing fees of \$409,000 were capitalized as part of the patent acquisition. As part of the acquisition, the Company also entered into an agreement with Recognition Interface, LLC ("Recognition"), an entity that financed the commercialization of the patent portfolio prior to its sale to Mirror Worlds, LLC and also retained an interest in the licensing proceeds of the patent portfolio held by Mirror Worlds, LLC. Pursuant to the terms of the Company's agreement with Recognition, Recognition received (i) 5-year warrants to purchase 250,000 shares of the Company's common stock at \$1.40 per share, and (ii) 5-year warrants to purchase 250,000 shares of common stock at \$2.10 per share. Recognition also received from the Company an interest in the net proceeds realized from the monetization of the patent portfolio as follows: (i) 10% of the first \$125 million of net proceeds, (ii) 15% of the next \$125 million of net proceeds, (iii) and 20% of any portion of the net proceeds in excess of \$250 million. In addition, Abacus and Associates, Inc. ("Abacus"), an investment entity affiliated with Recognition, received a 60-day warrant to purchase 500,000 shares of the Company's common stock at \$2.05 per share. In accordance with the Company's agreement with Recognition, as a result of the exercise of the 60-day warrant by Abacus in July 2013, additional 5-year warrants to purchase an aggregate of 250,000 shares (125,000 shares at an exercise price of \$2.10 per share and 125,000 shares at an exercise price of \$1.40 per share) of the Company's common stock were issued to Recognition. On June 3, 2014, the Company repurchased the Looking Glass Warrants from Looking Glass for \$505,000.

[3] Amended Patent Purchase Agreement:

On January 18, 2005, the Company and Merlot Communications, Inc., the successor of which is BAXL Technologies, Inc. (the "Seller"), amended the Patent Purchase Agreement originally entered into in November 2003 (the "Amendment") pursuant to which the Company paid an additional purchase price of \$500,000 to Seller for the restructuring of future contingent payments to Seller from the licensing or sale of the patents (including the Remote Power Patent

NOTE B - COMMITMENTS AND CONTINGENCIES (continued)

and the QoS family of patents). The Amendment provided for future contingent payments by the Company to Seller of \$1.0 million upon achievement of \$25 million of Net Royalties (as defined) which payment was accrued in 2011 and subsequently paid, an additional \$1.0 million contingent upon achievement of \$50 million of Net Royalties and an additional \$500,000 contingent upon achievement of \$62.5 million of Net Royalties from the licensing or sale of the patents acquired from Seller.

[4] Services Agreement:

Pursuant to an agreement, dated November 30, 2004, between the Company and ThinkFire Services USA, Ltd. ("ThinkFire"), the Company is obligated to pay ThinkFire fees from royalty payments received from certain licensees in consideration for services performed on behalf of the Company. During the six month periods ended June 30, 2014 and 2013, the Company accrued fees of approximately \$55,000 and \$50,000, respectively, with respect to its obligation to ThinkFire.

[5] Lease Agreement:

The Company currently leases office space in New York City at a cost of \$3,600 per month which lease expires on November 30, 2014.

On June 16, 2011, the Company entered into a four-year lease agreement commencing July 18, 2011 to rent office space, consisting of approximately 2,400 square feet, for offices in New Canaan, Connecticut. In accordance with the lease, the Company pays a base rent of \$6,400 per month for the first two years, \$6,800 per month for the third year and \$7,000 per month for the fourth year. The base rent is subject to annual adjustments to reflect increases in real estate taxes and operating expenses.

On May 15, 2013, Mirror Worlds Technologies, LLC, the Company's wholly-owned subsidiary, entered into a one year lease, at a base rent of \$620 per month, to rent office space consisting of approximately 420 square feet in Tyler, Texas. On January 7, 2014, the lease was renewed for a fifteen (15) month period expiring on April 30, 2015.

NOTE C - EMPLOYMENT ARRANGEMENTS AND OTHER AGREEMENTS

[1] On November 1, 2012, the Company entered into an employment agreement (the "Agreement") with its Chairman and Chief Executive Officer for a one year term (which shall automatically be extended for two successive one year periods unless terminated by the Company) at an annual base salary of \$415,000. The Agreement established an annual target bonus of \$150,000 for the Chairman and Chief Executive Officer based on performance criteria to be established on an annual basis by the Board of Directors (or compensation committee). For the year ended December 31, 2013, the Chairman and Chief Executive Officer received an annual cash bonus of \$175,000. In connection with the Agreement, the Chairman and Chief Executive Officer was issued a ten year option to purchase 500,000 shares of the Company's common stock at an exercise price of \$1.19 per share, which vests in equal quarterly amounts of 41,667 shares beginning November 1, 2012 through August 31, 2015, subject to acceleration upon a change of control. The Chairman and Chief Executive Officer shall forfeit the balance of

NOTE C - EMPLOYMENT ARRANGEMENTS AND OTHER AGREEMENTS (continued)

unvested shares if his employment has been terminated "For Cause" (as defined) by the Company or by him without "Good Reason" (as defined). Under the terms of the Agreement, the Chairman and Chief Executive Officer also receives incentive compensation in an amount equal to 5% of the Company's gross royalties or other payments or proceeds (without deduction of legal fees or any other expenses) with respect to its Remote Power Patent and a 10% net interest (gross royalties and other payments or proceeds after deduction of all legal fees and litigation expenses related to licensing, enforcement and sale activities, but in no event shall he receive less than 6.25% of the gross recovery) of the Company's royalties and other payments with respect to its other patents besides the Remote Power Patent (the "Additional Patents") (the "Incentive Compensation"). During the six months ended June 30, 2014 and June 30, 2013 the Chairman and Chief Executive Officer earned Incentive Compensation of \$481,000 and \$299,000, respectively. The Incentive Compensation shall continue to be paid to the Chairman and Chief Executive Officer for the life of each of the Company's patents with respect to licenses entered into with third parties during the term of his employment or at anytime thereafter, whether he is employed by the Company or not; provided, that, the Chairman and Chief Executive Officer's employment has not been terminated by the Company "For Cause" (as defined) or terminated by him without "Good Reason" (as defined). In the event of a merger or sale of substantially all of the assets of the Company, the Company has the option to extinguish the right of the Chairman and Chief Executive Officer to receive future Incentive Compensation by payment to him of a lump sum payment, in an amount equal to the fair market value of such future interest as determined by an independent third party expert if the parties do not reach agreement as to such value. In the event that the Chairman and Chief Executive Officer's employment is terminated by the Company "Other Than For Cause" (as defined) or by him for "Good Reason" (as defined), the Chairman and Chief Executive Officer shall also be entitled to (i) a lump sum severance payment of 12 months base salary, (ii) a pro-rated portion of the \$150,000 target bonus provided bonus criteria have been satisfied on a pro-rated basis through the calendar quarter in which the termination occurs and (iii) accelerated vesting of all unvested options and warrants.

In connection with the Agreement, the Chairman and Chief Executive Officer has also agreed not to compete with the Company as follows: (i) during the term of the Agreement and for a period of 12 months thereafter if his employment is terminated "Other Than For Cause" (as defined) provided he is paid his 12 month base salary severance amount and (ii) for a period of two years from the termination date, if terminated "For Cause" by the Company or "Without Good Reason" by the Chairman and Chief Executive Officer.

[2] On April 12, 2012, the Company entered into an agreement with its Chief Financial Officer which amended the agreement, dated February 3, 2011, pursuant to which he continued to serve the Company. The amendment (the "Amendment") provided as follows: (i) the term of service of the Chief Financial Officer shall be extended until December 31, 2013; (ii) monthly compensation shall be increased to \$11,000 per month; and (iii) the Chief Financial Officer was granted a five year option to purchase 75,000 shares of the Company's common stock at an exercise price of \$1.40 per share, which option vested over a one year period in equal quarterly amounts of 18,750 shares.

[3] On April 9, 2014, the Company's Chief Financial Officer entered into an offer letter with the Company pursuant to which he continues to serve as Chief Financial Officer, on an at-will basis,

NOTE C - EMPLOYMENT ARRANGEMENTS AND OTHER AGREEMENTS (continued)

at an annual base salary of \$157,500. The Chief Financial Officer is eligible to receive incentive or bonus compensation on an annual basis in the discretion of the Company's Compensation Committee. In connection with the offer letter, the Chief Financial Officer was issued under the Company's 2013 Stock Incentive Plan a 5-year stock option to purchase 50,000 shares of the Company's common stock, at an exercise price of \$1.65 per share, which option vests in two equal amounts (25,000 shares each) on each of December 31, 2014 and December 31, 2015. In addition, in the event the Chief Financial Officer's employment is terminated without "Good Cause" (as defined), he shall receive (i) (a) 6 months base salary or (b) 12 months base salary in the event of a termination without "Good Cause" within 6 months following a "Change of Control" of the Company (as defined) and (ii) accelerated vesting of all remaining unvested shares underlying his options or any other awards he may receive in the future.

NOTE D - LITIGATION

[1] On April 4, 2014, the Company initiated litigation against Google and YouTube in the United States District Court for the Southern District of New York for infringement of several of our patents within the Company's Cox Patent Portfolio which relate to the identification of media content on the Internet. The lawsuit alleges that Google and YouTube have infringed and continue to infringe certain of the Company's patents by making, using, selling and offering to sell unlicensed systems and related products and services, which include YouTube's Content ID system.

[2] On May 23, 2013, through the Company's wholly-owned subsidiary Mirror Worlds Technologies, LLC, the Company initiated patent litigation in the United States District Court for the Eastern District of Texas, Tyler Division, against Apple, Inc., Microsoft, Inc., Hewlett-Packard Company, Lenovo Group Ltd., Lenovo (United States), Inc., Dell, Inc., Best Buy Co., Inc., Samsung Electronics America, Inc. and Samsung Telecommunications America L.L.C., for infringement of the U.S. Patent No. 6,006,227 (the "227 Patent") (one of the patents the Company acquired as part of the acquisition of the Mirror Worlds patent portfolio). The Company seeks, among other things, monetary damages based upon reasonable royalties. The lawsuit alleges that the defendants have infringed and continue to infringe the claims of the '227 Patent by making, selling, offering to sell and using infringing products including Mac OS and Windows operating systems and personal computers and tablets that include versions of those operating systems, and by encouraging others to make, sell, and use these products. In September 2013 and October 2013, the defendants filed their answers to the Company's complaint. Defendants Apple and Microsoft, Inc. also filed counterclaims for a declaratory judgment of non infringement of the Company's '227 Patent and invalidity of its '227 Patent. In December 2013, the litigation was severed into two consolidated actions, Mirror Worlds v. Apple, et. al. and Mirror Worlds v. Microsoft, et. al. In September 2013, certain defendants filed a motion to transfer the litigation to the Western District of Washington. The Court has not yet ruled on this motion.

[3] In September 2011, the Company initiated patent litigation against 16 data networking equipment manufacturers in the United States District Court for the Eastern District of Texas, Tyler Division, for infringement of its Remote Power Patent. Named as defendants in the lawsuit, excluding related parties, were Alcatel-Lucent USA, Inc., Allied Telesis, Inc., Avaya Inc., AXIS Communications Inc., Dell, Inc., GarrettCom, Inc., Hewlett-Packard Company,

NOTE D - LITIGATION (continued)

Huawei Technologies USA, Juniper Networks, Inc., Motorola Solutions, Inc., NEC Corporation, Polycom Inc., Samsung Electronics Co., Ltd., ShoreTel, Inc., Sony Electronics, Inc., and Transitions Networks, Inc. Network-1 seeks monetary damages based upon reasonable royalties. During the year ended December 31, 2012, the Company reached settlement agreements with defendants Motorola Solutions, Inc. ("Motorola"), Transition Networks, Inc. ("Transition Networks") and GarretCom, Inc. ("GarretCom"). In February 2013, the Company reached settlement agreements with Allied Telesis, Inc. ("Allied Telesis") and NEC Corporation ("NEC"). As part of the settlements, Motorola, Transition Networks, GarretCom, Allied Telesis and NEC each entered into a non-exclusive license agreement for the Company's Remote Power Patent pursuant to which each such defendant agreed to license the Remote Power Patent for its full term (which expires in March 2020) and pay a license initiation fee and quarterly or annual royalties based on their sales of PoE products. On March 5, 2013, the Court granted the motion of certain of the defendants to stay the litigation until application of a party following completion of the Inter Partes Review proceeding described in Note D[6] below.

[4] In July 2010, the Company settled its patent litigation pending in the United States District Court for the Eastern District of Texas, Tyler Division, against Adtran, Inc, Cisco Systems, Inc. and Cisco-Linksys, LLC, (collectively, "Cisco"), Enterasys Networks, Inc., Extreme Networks, Inc., Foundry Networks, Inc., and 3Com Corporation, Inc. As part of the settlement, Adtran, Cisco, Enterasys, Extreme Networks and Foundry Networks each entered into a settlement agreement with the Company and entered into non-exclusive licenses for the Company's Remote Power Patent (the "Licensed Defendants"). Under the terms of the licenses, the Licensed Defendants paid the Company aggregate upfront payments of approximately \$32 million and also agreed to license the Remote Power Patent for its full term, which expires in March 2020. In accordance with the Settlement and License Agreement, dated May 25, 2011, which expanded upon the July 2010 agreement, Cisco is obliged to pay the Company royalties (which began in the first quarter of 2011) based on its sales of PoE products up to maximum royalty payments per year of \$8 million through 2015 and \$9 million per year thereafter for the remaining term of the patent. The royalty payments are subject to certain conditions including the continued validity of the Company's Remote Power Patent, and the actual royalty amounts received may be less than the caps stated above, as was the case in 2013 and 2012. Under the terms of the Agreement, if the Company grants other licenses with lower royalty rates to third parties (as defined in the Agreement), Cisco shall be entitled to the benefit of the lower royalty rates provided it agrees to the material terms of such other license. Under the terms of the Agreement, the Company has certain obligations to Cisco and if it materially breaches such terms, Cisco will be entitled to stop paying royalties to the Company. This would have a material adverse effect on the Company's business, financial condition and results of operations.

In May 2009, the Company achieved a settlement with Netgear, Inc. ("Netgear"), also a defendant in the above referenced litigation in Tyler, Texas which was settled with the other defendants in July 2010 as referenced above. As part of the settlement Netgear entered into a license agreement with the Company for the Remote Power Patent, pursuant to which Netgear pays the Company royalty rates of 1.7% of the sales price of Power Sourcing Equipment, which includes Ethernet switches, and 2% of the sales price of Powered Devices, which includes wireless access points. The royalty rates are subject to adjustment, under certain circumstances, if the Company grants a license to other licensees with lower royalty rates and Netgear is able to and agrees to assume all material terms and conditions of such other license. In addition, Netgear made a payment of \$350,000 to the Company with respect to the settlement.

NOTE D - LITIGATION (continued)

[5] On July 20, 2012, an unknown third party filed with the United States Patent and Trademark Office (USPTO) a request for an Ex Parte Reexamination, requesting that the Company's Remote Power Patent be reexamined by the USPTO. The reexamination was stayed beginning in December 2012 until May 2014 (the completion of the Inter Partes review proceeding as described in Note D[6] below).

[6] Avaya Inc., Dell Inc., Sony Corporation of America and Hewlett Packard Co. were petitioners in Inter Partes Review proceedings (which have been joined together) (the "IPR Proceeding") at the United States Patent and Trademark Office before the Patent Trial and Appeal Board (the "Patent Board") involving the Company's Remote Power Patent. Petitioners in the IPR Proceeding sought to cancel certain claims of the Company's Remote Power as unpatentable. A hearing on the merits of the IPR Proceeding was held on January 9, 2014. On May 22, 2014 the Patent Board issued its decision in favor of the Company rejecting a challenge to the patentability of the Company's Remote Power Patent. On July 24, 2014, the Petitioners in the IPR Proceeding each filed a Notice of Appeal of the Patent Board's decision to the United States Court of Appeals for the Federal Circuit.

NOTE E – STOCK REPURCHASE

On August 22, 2011, the Company announced that its Board of Directors approved a share repurchase program to repurchase up to \$2,000,000 of shares of its common stock over the next 12 months ("Share Repurchase Program"). On June 3, 2014, the Board of Directors authorized its fourth increase to the Company's Share Repurchase Program authorizing the repurchase of up to an additional \$5.0 million of shares of common stock over the subsequent twelve month period (for a total of up to \$12 million since inception of the program in August 2011). The common stock may be repurchased from time to time in open market transactions or privately negotiated transactions in the Company's discretion. The timing and amount of the shares repurchased is determined by management based on its evaluation of market conditions and other factors. The Share Repurchase Program may be increased, suspended or discontinued at any time. During the three month period ended June 30, 2014, the Company repurchased 1,480,239 shares of its common stock at an average price per share of \$1.80 or an aggregate cost of \$2,657,467. All such repurchased shares have been cancelled.

NOTE F – CISCO AUDIT

In late December 2013, the Company exercised its right to audit the royalties paid to it by Cisco for the years 2012 and 2013 (the "Audit Period") in accordance with its May 2011 license agreement with Cisco. As a result of the audit, Cisco agreed to pay the Company additional royalty payments pursuant to the May 2011 license agreement of \$3,281,000 for the Audit Period and other periods covered by the license agreement. These additional aggregate royalty payments of \$3,281,000 were all recorded as royalty revenue in the three month period ended June 30, 2014, at the time the Company completed its audit.

NOTE G – RECENTLY ISSUED ACCOUNTING STANDARD

In June 2014, FASB issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers”. The update gives entities a single comprehensive model to use in reporting information about the amount and timing of revenue resulting from contracts to provide goods or services to customers. The ASU, which would apply to any entity that enters into contracts to provide goods or services, would supersede the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance throughout the Industry Topics of the Codification. Additionally, the update would supersede some cost guidance included in Subtopic 605-35, Revenue Recognition – Construction-Type and Production-Type Contracts. The update removes inconsistencies and weaknesses in revenue requirements and provides a more robust framework for addressing revenue issues and more useful information to users of financial statements through improved disclosure requirements. In addition, the update improves comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets and simplifies the preparation of financial statements by reducing the number of requirements to which an entity must refer. The update is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently reviewing the provisions of this ASU to determine if there will be any impact on its results of operations, cash flows or financial condition.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

THIS QUARTERLY REPORT ON FORM 10-Q CONTAINS FORWARD-LOOKING STATEMENTS WHICH ARE STATEMENTS THAT INCLUDE INFORMATION BASED UPON BELIEF OF OUR MANAGEMENT, AS WELL AS ASSUMPTIONS MADE BY AND INFORMATION AVAILABLE TO MANAGEMENT. STATEMENTS CONTAINING TERMS SUCH AS "BELIEVES", "EXPECTS", "ANTICIPATES", "INTENDS" OR SIMILAR WORDS ARE INTENDED TO IDENTIFY FORWARD LOOKING STATEMENTS. ACTUAL RESULTS, EVENTS AND CIRCUMSTANCES (INCLUDING FUTURE PERFORMANCE, RESULTS AND TRENDS) COULD DIFFER MATERIALLY FROM THOSE SET FORTH IN SUCH STATEMENTS DUE TO VARIOUS RISKS AND UNCERTAINTIES, INCLUDING, BUT NOT LIMITED TO, THOSE DISCUSSED BEGINNING ON PAGES 13-24 OF OUR ANNUAL REPORT ON FORM 10-K FOR THE YEAR 2013 AND PAGE 29 OF OUR QUARTERLY REPORT ON FORM 10-Q FOR THE QUARTER ENDED MARCH 31, 2014.

OVERVIEW

Our principal business is the development, licensing and protection of our intellectual property assets. We presently own twenty-one (22) patents that relate to various technologies including patents covering (i) the delivery of power over Ethernet cables for the purpose of remotely powering network devices, such as wireless access ports, IP phones and network based cameras; (ii) foundational technologies that enable unified search and indexing, displaying and archiving of documents in a computer system; (iii) enabling technology for identifying media content on the Internet and taking further action to be performed based on such identification including, among others, the insertion of advertising and the facilitation of the purchase of goods and services related to such content; and (iv) systems and methods for the transmission of audio, video and data in order to achieve high quality of service (QoS) over computer and telephony networks. In addition, we continually review opportunities to acquire or license additional intellectual property.

We have been actively engaged in the licensing of our patent (U.S. Patent No. 6,218,930) covering delivery of power over Ethernet cables (the "Remote Power Patent"). As of June 30, 2014, we had entered into sixteen (16) license agreements with respect to our Remote Power Patent which, among others, include license agreements with Cisco Systems, Inc. and Cisco Linksys, LLC, Extreme Networks, Inc., Netgear, Inc., Microsemi Corporation, Motorola Solutions, Inc. and NEC Corporation and several other major data networking equipment manufacturers (see Note D to our financial statements included in this quarterly report). Our current strategy includes continuing our licensing efforts with respect to our Remote Power Patent and our efforts to monetize the two patent portfolios (the Cox Patent Portfolio and the Mirror Worlds Patent Portfolio) we acquired in 2013. In addition, we continue to seek to acquire additional intellectual property assets to develop, commercialize, license or otherwise monetize such intellectual property. Our strategy includes working with inventors and patent owners to assist in the development and monetization of their patented technologies. We may also enter into strategic relationships with third parties to develop, commercialize, license or otherwise monetize their intellectual property. Our acquisition strategy is to focus on acquiring high quality patents which management believes have the potential to generate significant licensing opportunities as we have achieved with respect to our Remote Power Patent. Our Remote Power Patent has generated licensing revenue in excess of \$65,000,000 from May 2007 through June 30, 2014.

On February 28, 2013, as part of our acquisition strategy, we acquired from Dr. Ingemar Cox, a technology leader in digital watermarking content identification, digital rights management and related technologies, four (4) patents (as well as a pending patent application) (the “Cox Patent Portfolio”) for a purchase price of \$1,000,000 in cash and 403,226 shares of our common stock. In addition, we are obligated to pay Dr. Cox 12.5% of the net proceeds generated by us from licensing, sale or enforcement of the patents (see Note B[2] to our financial statements included in this quarterly report). In 2014, we were issued three additional patents (U.S. Patent No. 8,640,179, U.S. Patent No. 8,656,441 and U.S. Patent No. 8,782,726) by the United States Patent and Trademark Office related to the Cox Patent Portfolio.

On May 21, 2013, Mirror Worlds Technologies, LLC, our wholly-owned subsidiary, acquired all of the patents previously owned by Mirror Worlds, LLC (which subsequently changed its name to Looking Glass LLC) including nine (9) issued United States patents and five (5) pending applications covering foundational technologies that enable unified search and indexing, displaying and archiving of documents in a computer system (the “Mirror Worlds Patent Portfolio”). The consideration we paid for the Mirror Worlds Patent Portfolio consisted of (i) \$3,000,000 in cash, (ii) 5-year warrants to purchase 875,000 shares of our common stock at \$1.40 per share, and (iii) 5-year warrants to purchase 875,000 shares of our common stock at \$2.10 per share (the “Looking Glass Warrants”) (see Note B[2] to our financial statements included in this quarterly report). As part of the acquisition of the Mirror Worlds Patent Portfolio, we also entered into an agreement with Recognition Interface, LLC (“Recognition”), an entity that financed the commercialization of the Mirror Worlds Patent Portfolio prior to its sale to Mirror Worlds, LLC and also retained an interest in the licensing proceeds of the patent portfolio held by Mirror Worlds, LLC. Pursuant to the terms of our agreement with Recognition, Recognition received (i) 5-year warrants to purchase 250,000 shares of our common stock at \$1.40 per share, and (ii) 5-year warrants to purchase 250,000 shares of our common stock at \$2.10 per share. Recognition also received from us an interest in the net proceeds realized from the monetization of the Mirror Worlds Patent Portfolio as follows: (i) 10% of the first \$125 million of net proceeds; (ii) 15% of the next \$125 million of net proceeds; and (iii) 20% of any portion of the net proceeds in excess of \$250 million. In addition, Abacus and Associates, Inc., an entity affiliated with Recognition, received a 60-day warrant to purchase 500,000 shares of our common stock at \$2.05 per share which it exercised in full on July 22, 2013 resulting in proceeds to us of \$1,025,000. As a result of such warrant exercise and in accordance with our agreement with Recognition, we issued additional warrants to Recognition to purchase an aggregate of 250,000 shares of our common stock (125,000 shares at an exercise price of \$2.10 per share and 125,000 shares at an exercise price of \$1.40 per share). On June 3, 2014, we repurchased the Looking Glass Warrants from Looking Glass at a cost of \$505,000.

On May 22, 2013, through our wholly-owned subsidiary, Mirror Worlds Technologies, LLC, we initiated patent litigation against Apple, Inc., Microsoft, Inc., Hewlett-Packard Company, Lenovo Group Ltd., Lenovo (United States), Inc., Dell, Inc., Best Buy Co., Inc., Samsung Electronics America, Inc. and Samsung Telecommunications America L.L.C., in the United States District Court for the Eastern District of Texas, Tyler Division, for infringement of U.S. Patent No. 6,006,227 (part of the Mirror Worlds Patent Portfolio we acquired) (see “Legal Proceedings” at page 29 hereof).

On April 4, 2014, we initiated litigation against Google and YouTube in the United States District Court for the Southern District of New York for infringement of several of our patents within the Cox Patent Portfolio relating to the identification of media content on the Internet. The lawsuit alleges that Google and YouTube have infringed and continue to infringe certain of our patents by making, using, selling and offering to sell unlicensed systems and related products and services, which include YouTube’s Content ID system (see “Legal Proceedings at page 29 hereof).

In September 2011, we initiated patent litigation against sixteen (16) data networking equipment manufacturers in the United States District Court for the Eastern District of Texas, Tyler Division, for infringement of our Remote Power Patent (see “Legal Proceedings” at page 29 hereof). During the years ended December 31, 2012 and 2013 we settled the litigation against five (5) of the defendants. In March 2013 their court granted certain defendants motion and stayed the litigation until application following disposition of the Inter Partes Review proceeding involving our Remote Power Patent (see “Legal Proceedings” at page 30 hereof).

As a result of a settlement in July 2010 of patent litigation we had initiated against Cisco Systems, Inc. and Cisco-Linksys, LLC (collectively “Cisco”), we entered into non-exclusive licenses for our Remote Power Patent with Cisco and the other defendants. For the years ended December 31, 2013 and December 31, 2012, our royalty revenue from Cisco constituted 77% of our revenue. For the six month period ended June 30, 2014 and June 30, 2013, our royalty revenue from Cisco constituted 92% and 84% of our revenue, respectively. In accordance with our Settlement and License Agreement, dated May 25, 2011 (the “Agreement”), which expanded upon the July 2010 agreement, Cisco is obligated to pay us royalties (which began in the first quarter of 2011) based on its sales of PoE products up to maximum royalty payments per year of \$8 million through 2015 and \$9 million per year thereafter for the remaining term of the patent. The royalty payments are subject to certain conditions including the continued validity of our Remote Power Patent. Due to our annual royalty rate structure with Cisco which includes declining rates as the volume of PoE product sales increase during the year, royalties from Cisco are anticipated to be highest in the first quarter of the calendar year and decline for each of the remaining calendar quarters of the year. However, in 2014 we had greater royalty revenue from Cisco in the second quarter as compared to the first quarter because we recorded additional royalty revenue from Cisco in the second quarter as a result of our recently completed audit of Cisco for the years ended December 31, 2013 and December 31, 2012 (see below and Note F to our financial statements included in this quarterly report).

In late December 2013 we exercised our right to audit the royalties paid to us by Cisco for the years 2012 and 2013 in accordance with our May 2011 license agreement with Cisco. As a result of the audit, Cisco agreed to pay the Company additional royalty payments pursuant to the May 2011 license agreement of \$3,281,000 for the Audit Period and other periods covered by license agreement. These additional aggregate royalty payments of \$3,281,000 were all recorded as revenue in the three month period ended June 30, 2014, at the time the Company completed its audit.

On July 20, 2012, an unknown third party filed with the United States Patent and Trademark Office (“USPTO”) a request for ex parte reexamination of certain claims of our Remote Power Patent. On September 5, 2012, the USPTO issued an order granting the reexamination. The request for reexamination was stayed by the USPTO on December 21, 2012 pending the termination or completion of the Inter Partes Review proceedings at the USPTO involving our Remote Power Patent. Avaya Inc., Dell Inc., Sony Corporation of America and Hewlett Packard Co. were petitioners in Inter Partes Review proceedings (which were joined together) (the “IPR Proceeding”) pending at the USPTO before the Patent Trial and Appeal Board (see “Legal Proceedings” at page 30 of this quarterly report). A hearing on the merits of the IPR Proceeding was held on January 9, 2014. On May 22, 2014 the Patent Board issued its decision in favor of the Company rejecting a challenge to the patentability of the Company’s Remote Power Patent. On July 24, 2014, the Petitioners in the IPR Proceeding each filed a Notice of Appeal of the Patent Board’s decision to the United States Court of Appeals for the Federal Circuit.

At June 30, 2014, we had net operating loss carryforwards (NOLs) totaling approximately \$22,855,000 expiring through 2029, with a future tax benefit of approximately \$7,771,000. At June 30, 2014 and June 30, 2013, \$4,093,000 and \$5,878,000, respectively, was recorded as a deferred tax asset on our balance sheet. During the three months ended June 30, 2014, as a result of income (before taxes) for the quarter of \$2,513,000, \$912,000 was recorded as income tax expense and the deferred tax asset was reduced by \$855,000 to \$4,093,000. To the extent that we earn income in the future, we will report income tax expense and such expense attributable to federal income taxes will reduce the recorded income tax asset reflected on the balance sheet. Management will continue to evaluate the recoverability of the NOL and adjust the deferred tax asset appropriately. Utilization of NOL credit carryforwards can be subject to a substantial annual limitation due to ownership change limitations that could occur in the future, as required by Section 382 of the Internal Revenue Code of 1986, as amended, as well as similar state provisions.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2014 Compared To Three Months Ended June 30, 2013

Revenue. We had revenue of \$5,166,000 for the three months ended June 30, 2014 as compared to revenue of \$1,907,000 for the three months ended June 30, 2013, which was related to the receipt of royalties pursuant to license agreements for our Remote Power Patent. The increase in revenue of \$3,259,000 for the three months ended June 30, 2014 included \$3,281,000 of additional royalty payments from Cisco as a result of our audit of Cisco (see Note F to our financial statements included in this quarterly report).

Cost of Revenue. We had a cost of revenue of \$1,506,000 and \$547,000 for the three months ended June 30, 2014 and June 30, 2013, respectively. Included in the cost of revenue for the three months ended June 30, 2014 were contingent legal fees of \$1,221,000 payable to our patent litigation counsel (see Note B[1] to our financial statements included herein) and \$257,000 of incentive (royalty bonus) compensation payable to our Chairman and Chief Executive Officer pursuant to his employment agreement (see Note C[1] to our financial statements included in this quarterly report). Included in the cost of revenue for the three months ended June 30, 2013 were contingent legal fees of \$452,000 payable to our patent litigation counsel and \$95,000 of incentive (royalty bonus) compensation payable to our Chairman and Chief Executive Officer pursuant to his employment agreement.

Gross Profit. The gross profit for the three months ended June 30, 2014 was \$3,660,000 as compared to \$1,360,000 for the three months ended June 30, 2013. The increased gross profit of \$2,300,000 or 169% for the three months ended June 30, 2014 was primarily due to increased revenue as a result of the Cisco audit (see Note F to our financial statements included in this quarterly report).

Operating Expenses. Operating expenses for the three months ended June 30, 2014 were \$1,159,000 as compared to \$911,000 for the three month period ended June 30, 2013. General and administrative expenses include overhead expenses, and finance, accounting, legal and other professional services incurred by us. General and administrative expenses increased by \$82,000 from \$533,000 for the three months ended June 30, 2013 to \$615,000 for the three months ended June 30, 2014, due primarily to increased legal expenses. Amortization of patents was \$409,000 for the three months ended June 30, 2014 as compared to \$234,000 for the three months ended June 30, 2013. The increased cost of amortization of patents for the three months ended June 30, 2014 was due to our acquisition of thirteen (13) additional patents in 2013. Non-cash compensation expense related to the issuance of stock options was \$135,000 for the three months ended June 30, 2014 as compared to \$144,000 for the three months ended June 30, 2013.

The increase in operating income of \$2,052,000 was primarily due to increased gross profit from additional revenue as a result of the Cisco audit (see Note F to our financial statements included in this quarterly report).

Income Taxes (Benefit). A provision (benefit) for federal, state and local income taxes of \$912,000 and \$(321,000) was recorded for the three months ended June 30, 2014 and June 30, 2013, respectively.

Deferred Tax Benefit/NOLs. At June 30, 2014, we had net operating loss carryforwards (NOLs) totaling approximately \$22,855,000 expiring through 2029, with a future tax benefit of approximately \$7,771,000. At June 30, 2014 and June 30, 2013, \$4,093,000 and \$5,878,000, respectively, has been recorded as a deferred tax benefit on our balance sheet. During the three month period ended June 30, 2014 as a result of income before taxes for the period of \$2,513,000, \$912,000 was recorded as income tax expense and the deferred tax asset was reduced by \$855,000 to \$4,093,000. To the extent that we earn income in the future, we will report income tax expense and such expense attributable to federal income taxes will reduce the recorded income tax asset reflected on the balance sheet. Management will continue to evaluate the recoverability of the NOL and adjust the deferred tax asset appropriately. Utilization of NOL credit carryforwards can be subject to a substantial annual limitation due to ownership change limitations that could occur in the future, as required by Section 382 of the Internal Revenue Code of 1986, as amended, as well as similar state provisions.

Net Income. As a result of the foregoing, we realized net income of \$1,601,000 or \$0.06 per share (basic) and \$0.06 per share (diluted) for the three months ended June 30, 2014 compared with net income of \$782,000 or \$0.03 per share (basic) and \$0.03 per share (diluted) for the three months ended June 30, 2013.

The increased cost of amortization of patents for the six months ended June 30, 2014 was due to our acquisition of thirteen (13) patents in 2013. Non-cash compensation expense related to the issuance of stock options was \$162,000 for the six months ended June 30, 2014 as compared to \$256,000 for the six months ended June 30, 2013.

Interest Income. Interest income for the six months ended June 30, 2014 was \$21,000 as compared to interest income of \$18,000 for the six months ended June 30, 2013.

The increase in operating income of \$2,146,000 was primarily due to revenue as a result of the Cisco audit (see Note F to our financial statements included in this quarterly report).

Income Taxes (Benefit). A provision for federal, state and local income taxes of \$1,668,000 and \$342,000 which included a \$1,566,000 and \$316,000 reduction in our deferred tax asset were recorded for the six months ended June 30, 2014 and June 30, 2013, respectively.

Deferred Tax Benefit/NOLs. At June 30, 2014, we had net operating loss carryforwards (NOLs) totaling approximately \$22,855,000 expiring through 2029, with a future tax benefit of approximately \$7,771,000. During the six month period ended June 30, 2014 as a result of income before taxes for the period of

\$4,665,000, the deferred tax asset was reduced by \$1,566,600 to \$4,093,000. To the extent that we earn income in the future, we will report income tax expense and such expense attributable to federal income taxes will reduce the recorded income tax asset reflected on the balance sheet. Management will continue to evaluate the recoverability of the NOL and adjust the deferred tax asset appropriately. Utilization of NOL credit carryforwards can be subject to a substantial annual limitation due to ownership change limitations that could occur in the future, as required by Section 382 of the Internal Revenue Code of 1986, as amended, as well as similar state provisions.

Net Income. As a result of the foregoing, we realized net income of \$2,997,000 or \$0.12 per share (basic) and \$0.11 per share (diluted) for the six months ended June 30, 2014 compared with net income of \$2,174,000 or \$0.09 per share (basic) and \$0.08 per share (diluted) for the six months ended June 30, 2013.

LIQUIDITY AND CAPITAL RESOURCES

We have financed our operations primarily from royalty revenue from licensing our Remote Power Patent. In accordance with our patent litigation settlement achieved in July 2010, we received aggregate upfront payments of approximately \$32 million (net proceeds of \$22 million after payment of legal fees and expenses and bonus compensation) and Cisco agreed to pay us quarterly royalties (which began for the first quarter of 2011). (See Note D[3] to our financial statements included in this quarterly report). At June 30, 2014 our principal sources of liquidity consisted of cash and cash equivalents of approximately \$16,579,000 and working capital of approximately \$20,651,000. We believe based on our current cash position and projected licensing revenue from our existing license agreements that we will have sufficient cash to fund our operations for the foreseeable future, although this may not be the case.

Working capital increased by \$857,000 to \$20,651,000 at June 30, 2014 as compared to working capital of \$19,794,000 at December 31, 2013. The increase in working capital was primarily due to increased revenue from the Cisco audit offset by the cost of repurchase of shares and warrants.

We maintain our cash primarily in money market accounts. We do not have any derivative financial instruments. Accordingly, we do not believe that our investments have significant exposure to interest rate risk.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements.

CONTRACTUAL OBLIGATIONS

We do not have any long-term debt, capital lease obligations, operating lease obligations, purchase obligations or other long-term liabilities except for the lease obligations set forth in Note B[5] to our financial statements included in this report.

Critical Accounting Policies:

Patents:

We own patents that relate to various technologies. We capitalize the costs associated with acquisition, registration and maintenance of the patents and amortize these assets over their remaining useful lives on a straight-line basis. Any further payments made to maintain or develop the patents would be capitalized and amortized over the balance of the useful life for the patents.

Revenue Recognition:

We recognize revenue received from the licensing of our intellectual property in accordance with Staff Accounting Bulletin No. 104, "Revenue Recognition" ("SAB No. 104") and related authoritative pronouncements. Under this guidance, revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) all obligations have been performed pursuant to the terms of the license agreement, (iii) amounts are fixed or determinable and (iv) collectability of amounts is reasonably assured.

Income Taxes:

We utilize the liability method of accounting for income taxes. Under such method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying

amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect at the balance sheet date. The resulting asset or liability is adjusted to reflect enacted changes in tax law. Deferred tax assets are reduced, if necessary, by a valuation allowance when the likelihood of realization is not assured.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ITEM 4. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures.

Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon this review, these officers concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in applicable rules and forms and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Controls

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

On April 4, 2014, we initiated litigation against Google and YouTube in the United States District Court for the Southern District of New York for infringement of several of our patents within our Cox Patent Portfolio which relate to the identification of media content on the Internet. The lawsuit alleges that Google and YouTube have infringed and continue to infringe certain of our patents by making, using, selling and offering to sell unlicensed systems and related products and services, which include YouTube's Content ID system.

On May 23, 2013, through our subsidiary Mirror Worlds Technologies, LLC, we initiated patent litigation in the United States District Court for the Eastern District of Texas, Tyler Division, against Apple, Inc., Microsoft, Inc., Hewlett-Packard Company, Lenovo Group Ltd., Lenovo (United States), Inc., Dell, Inc., Best Buy Co., Inc., Samsung Electronics America, Inc. and Samsung Telecommunications America L.L.C., for infringement of U.S. Patent No. 6,006,227 (the "'227" Patent") (one of the patents we acquired as part of the acquisition of the Mirror Worlds patent portfolio – see Note B[2] to our financial statements included in this quarterly report). We seek, among other things, monetary damages based upon reasonable royalties. The lawsuit alleges that the defendants have infringed and continue to infringe the claims of the '227 Patent by making, selling, offering to sell and using infringing products including Mac OS and Windows operating systems and personal computers and tablets that include versions of those operating systems, and by encouraging others to make, sell, and use these products. In September 2013 and October 2013, the defendants filed their answers to our complaint. Defendants Apple and Microsoft, Inc. also filed counterclaims for a declaratory judgment of non infringement of our '227 Patent and invalidity of our '227 Patent. On December 10, 2013, the litigation was severed into two consolidated actions, Mirror Worlds v. Apple, et al. (case no. 6:13-cv-419), and Mirror Worlds v. Microsoft, et al., (case no. 6:13-cv-941). On September 12, 2013, certain defendants filed a motion to transfer the litigation to the Western District of Washington. The Court has not yet ruled on this motion.

Several patents in the portfolio of patents that we acquired from Mirror Worlds, LLC (now Looking Glass LLC) on May 21, 2013 were the subject of prior litigation in Mirror Worlds, LLC v. Apple, Inc. ("Apple") (No. 6:08-cv-00088). On October 1, 2010, a jury returned a verdict in that action in favor of Mirror Worlds upholding the validity of the three patents tried in the case (U.S. Patent Nos. 6,006,227, 6,638,313, and 6,725,427), and finding that Apple had willfully infringed each of these patents. Further, the jury awarded Mirror Worlds \$208.5 million in damages for each of these patents. After the trial, the district court vacated the jury verdict on infringement, and concluded that Mirror Worlds failed to present sufficient evidence of direct or indirect infringement. While the infringement, willfulness and damages verdicts were vacated at the trial level, the jury's validity verdicts were not overturned. The validity of the '227 Patent has also been reaffirmed by the U.S. Patent and Trademark Office since the trial in reexamination proceedings initiated by Apple resulting in two re-examination certificates which further validates that patent. On appeal, a divided panel of the Federal Circuit Court of Appeals upheld the district court ruling overturning the jury verdict on direct and indirect infringement.

In September 2011, we initiated patent litigation against 16 data networking equipment manufacturers in the United States District Court for the Eastern District of Texas, Tyler Division, for infringement of our Remote Power Patent. Named as defendants in the lawsuit, excluding affiliated parties, were Alcatel-Lucent USA, Inc., Allied Telesis, Inc., Avaya Inc., AXIS Communications Inc., Dell, Inc., GarrettCom, Inc., Hewlett-Packard Company, Huawei Technologies USA, Juniper Networks, Inc., Motorola Solutions, Inc., NEC Corporation, Polycom Inc., Samsung Electronics Co., Ltd., ShoreTel, Inc., Sony Electronics, Inc., and Transition Networks, Inc. We seek monetary damages based upon reasonable royalties. In March 2012, we reached settlement agreements with defendants Motorola Solutions, Inc. ("Motorola") and Transition Networks, Inc. ("Transition Networks"). In October 2012, we reached a settlement with defendant GarretCom, Inc ("GarretCom"). In February 2013, we reached settlement agreements with Allied Telesis, Inc. ("Allied Telesis") and NEC Corporation ("NEC"). As part of the settlements, Motorola, Transition Networks, GarretCom, Allied Telesis and NEC each entered into a non-exclusive license agreement for our Remote Power Patent pursuant to which each such defendant agreed to license our Remote Power Patent for its full term (which expires in March 2020) and pay a license initiation fee and quarterly or annual royalties based on their sales of PoE products. On June 27, 2012, defendant Axis Communications made a motion to dismiss, or alternatively to sever, on the grounds of misjoinder. Several defendants joined in the motion. On July 16, 2012 we filed our opposition to the motion. On January 17, 2013, the Court granted in part defendants' motion by granting severance and consolidating all the actions for pre-trial issues, except venue. On January 25, 2013, certain defendants filed a motion to stay the litigation pending completion or termination of the Inter Partes review proceedings at the United States Patent and Trademark Office (see below and Notes D[3] and D[6] to our financial statements included in this quarterly report). On March 5, 2013, the Court granted certain defendants' motion and stayed the litigation until application by a party following the disposition of the Inter Partes Review proceeding described below.

On July 20, 2012, an unknown third party filed with the United States Patent and Trademark Office ("USPTO") a request for ex parte reexamination of certain claims of our Remote Power Patent. On September 5, 2012, the USPTO issued an order granting the reexamination. The initial grant of the reexamination by USPTO is not unusual as the majority of such applications are initially granted. The reexamination was stayed by the USPTO beginning in December 2012 until May 2014 (the completion of the Inter Partes review proceeding described below). Management believes that the reexamination proceeding will further validate and strengthen our Remote Power Patent.

Avaya Inc., Dell Inc., Sony Corporation of America and Hewlett Packard Co. were petitioners in Inter Partes Review proceedings (which have been joined together) (the "IPR Proceeding") at the United States Patent and Trademark Office before the Patent Trial and Appeal Board (the "Patent Board") involving our Remote Power Patent. Petitioners in the IPR Proceeding sought to cancel certain claims of our Remote Power as unpatentable. A hearing on the merits of the IPR Proceeding was held on January 9, 2014. On May 22, 2014, the Patent Board issued its decision in our favor rejecting a challenge to the patentability of our Remote Power Patent. On July 24, 2014, the Petitioners in the IPR Proceeding each filed a Notice of Appeal of the Patent Board's decision to the United States Court of Appeals for the Federal Circuit.

ITEM 1A. Risk Factors.

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition, results of operations and trading price of our common stock. Our Annual Report on Form 10-K for the year ended December 31, 2013 and our quarterly Report on Form 10-Q for the three months ended March 31, 2014 include a discussion of our risk factors and should be carefully considered by investors.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Recent Issuances of Unregistered Securities

There were no such issuances during the three month period ended June 30, 2014.

Stock Repurchases

On August 22, 2011, we announced that our Board of Directors approved a share repurchase program to repurchase up to \$2,000,000 of shares of our common stock over the next 12 months ("Share Repurchase Program"). On June 30, 2014, our Board of Directors authorized its fourth increase to our Share Repurchase Program authorizing the repurchase of up to an additional \$5.0 million of shares of our common stock over the subsequent 12 month period (for a total of up to \$12.0 million since inception of the program in August 2011). The common stock may be repurchased from time to time in open market transactions or privately negotiated transactions in our discretion. The timing and amount of the shares repurchased is determined by management based on its evaluation of market conditions and other factors. The Share Repurchase Program may be increased, suspended or discontinued at any time. During the three month period ended June 30, 2014, we repurchased 1,480,239 of our common stock shares at an average price per share of \$1.80 or an aggregate cost of \$2,657,467.
