#### Table of Contents

#### NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the Three and Nine Months Ended September 30, 2012 and 2011

#### 1. GENERAL

Everest Re Group, Ltd. ("Group"), a Bermuda company, through its subsidiaries, principally provides reinsurance and insurance in the U.S., Bermuda and international markets. As used in this document, "Company" means Group and its subsidiaries.

#### 2. BASIS OF PRESENTATION

The unaudited consolidated financial statements of the Company for the three and nine months ended September 30, 2012 and 2011 include all adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for a fair statement of the results on an interim basis. Certain financial information, which is normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), has been omitted since it is not required for interim reporting purposes. The December 31, 2011 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. The results for the three and nine months ended September 30, 2012 and 2011 are not necessarily indicative of the results for a full year. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the years ended December 31, 2011, 2010 and 2009 included in the Company's most recent Form 10-K filing.

All intercompany accounts and transactions have been eliminated.

Certain reclassifications and format changes have been made to prior period amounts to conform to the current period presentation.

Application of Recently Issued Accounting Standard Changes.

Intangibles-Goodwill or Other. In September 2011, the Financial Accounting Standards Board ("FASB") amended the authoritative guidance for disclosures on Goodwill Impairment. The amendment allows an entity first to assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis in determining whether it is necessary to perform the two-step goodwill impairment test. This guidance is effective for periods beginning after December 15, 2011. The Company implemented this guidance as of January 1, 2012.

Presentation of Comprehensive Income. In June 2011, FASB issued amendments to existing guidance to provide two alternatives for the presentation of comprehensive income. Components of net income and comprehensive income can either be presented within a single, continuous financial statement or be presented in two separate but consecutive financial statements. The Company has chosen to present the components of net income and comprehensive income in a single, continuous financial statement. The guidance is effective for reporting periods beginning after December 15, 2011. The Company implemented this guidance as of January 1, 2012.

Common Fair Value Measurement. In May 2011, FASB issued amendments to existing guidance to achieve common fair value measurement and disclosure requirements between GAAP and International Financial Reporting Standards. The amendments change wording used to describe many GAAP fair value measurement requirements and disclosures. FASB does not intend for the amendments to cause a change in application of fair value accounting guidance. The guidance is effective for reporting periods beginning after December 15, 2011. The Company implemented this

guidance prospectively as of January 1, 2012.

#### Table of Contents

Treatment of Insurance Contract Acquisition Costs. In October 2010, the FASB issued authoritative guidance for the accounting for costs associated with acquiring or renewing insurance contracts. The guidance identifies the incremental direct costs of contract acquisition and costs directly related to acquisition activities that should be capitalized. This guidance is effective for reporting periods beginning after December 15, 2011. The Company implemented this guidance as of January 1, 2012 and determined that \$13,492 thousand of previously deferrable acquisition costs will be expensed during 2012 and the first quarter of 2013, including \$2,549 thousand and \$8,790 thousand of previously deferrable acquisition costs expensed in the three and nine months ended September 30, 2012, respectively. If the guidance had been applicable for the prior periods, the Company would have expensed \$4,958 thousand and \$11,405 thousand of deferrable acquisition costs during the three and nine months ended September 30, 2011, respectively.

Improving Disclosures About Fair Value Measurements. In January 2010, the FASB amended the authoritative guidance for disclosures on fair value measurements. Effective for interim and annual reporting periods beginning after December 15, 2009, the guidance requires a new separate disclosure for: significant transfers in and out of Level 1 and 2 and the reasons for the transfers; and provided clarification on existing disclosures to include: fair value measurement disclosures by class of assets and liabilities and disclosure on valuation techniques and inputs used to measure fair value that fall in either Level 2 or Level 3. The Company implemented this guidance effective January 1, 2010. Effective for interim and annual reporting periods beginning after December 15, 2010, the guidance requires another new separate disclosure in regards to Level 3 fair value measurements in that, the period activity will present separately information about purchases, sales, issuances and settlements. Comparative disclosures shall be required only for periods ending after initial adoption. The Company implemented this guidance beginning with the third quarter of 2010.

#### 3. INVESTMENTS

The amortized cost, market value and gross unrealized appreciation and depreciation of available for sale, fixed maturity and equity security investments, carried at market value, are as follows for the periods indicated:

The \$1,876,573 thousand of foreign government securities at September 30, 2012 included \$838,200 thousand of European sovereign securities. Approximately 54.0%, 18.9%, 6.9% and 5.2% of European sovereign securities represented securities held in the governments of the United Kingdom, France, Austria and the Netherlands, respectively. No other countries represented more than 5% of the European sovereign securities. The Company held no sovereign securities of Portugal, Italy, Ireland, Greece or Spain at September 30, 2012.

In accordance with FASB guidance, the Company reclassified the non-credit portion of other-than-temporary impairments from retained earnings into accumulated other comprehensive income (loss), on April 1, 2009. The table below presents the pre-tax cumulative unrealized appreciation (depreciation) on those corporate securities, for the periods indicated:

	At	September 30,	At	December 31,
(Dollars in thousands)		2012		2011
Pre-tax cumulative unrealized appreciation (depreciation)	\$	4,992	\$	2,567

The amortized cost and market value of fixed maturity securities are shown in the following table by contractual maturity. Mortgage-backed securities are generally more likely to be prepaid than other fixed maturity securities. As the stated maturity of such securities may not be indicative of actual maturities, the totals for mortgage-backed and asset-backed securities are shown separately.

	At Septem	ber 30, 2012	At Decem	per 31, 2011

The Company frequently reviews all of its fixed maturity, available for sale securities for declines in market value and focuses its attention on securities whose fair value has fallen below 80% of their amortized cost at the time of review. The Company then assesses whether the decline in value is temporary or other-than-temporary. In making its assessment, the Company evaluates the current market and interest rate environment as well as specific issuer information. Generally, a change in a security's value caused by a change in the market, interest rate or foreign exchange environment does not constitute an other-than-temporary impairment, but rather a temporary decline in market value. Temporary declines in market value are recorded as unrealized losses in accumulated other comprehensive income (loss). If the Company determines that the decline is other-than-temporary and the Company does not have the intent to sell the security; and it is more likely than not that the Company will not have to sell the security before recovery of its cost basis, the carrying value of the investment is written down to fair value. The fair value adjustment that is credit or foreign exchange related is recorded in net realized capital gains (losses) in the Company's consolidated statements of operations and comprehensive income (loss). The fair value adjustment that is non-credit related is recorded as a component of other comprehensive income (loss), net of tax, and is included in accumulated other comprehensive income (loss) in the Company's consolidated balance sheets. The Company's assessments are based on the issuers current and expected future financial position, timeliness with respect to interest and/or principal payments, speed of repayments and any applicable credit enhancements or breakeven constant default rates on mortgage-backed and asset-backed securities, as well as relevant information provided by rating agencies, investment advisors and analysts.

The majority of the Company's equity securities available for sale at market value are primarily comprised of mutual fund investments whose underlying securities consist of fixed maturity securities. When a fund's value reflects an unrealized loss, the Company assesses whether the decline in value is temporary or other-than-temporary. In making its assessment, the Company considers the composition of its portfolios and their related markets, reports received from the portfolio managers and discussions with portfolio managers. If the Company determines that the declines are temporary and it has the ability and intent to continue to hold the investments, then the declines are recorded as unrealized losses in accumulated other comprehensive income (loss). If declines are deemed to be other-than-temporary, then the carrying value of the investment is written down to fair value and recorded in net realized capital gains (losses) in the Company's consolidated statements of operations and comprehensive income (loss).

Retrospective adjustments are employed to recalculate the values of asset-backed securities. All of the Company's asset-backed and mortgage-backed securities have a pass-through structure. Each acquisition lot is reviewed to recalculate the effective yield. The recalculated effective yield is used to derive a book value as if the new yield were applied at the time of acquisition. Outstanding principal factors from the time of acquisition to the adjustment date are used to calculate the prepayment history for all applicable securities. Conditional prepayment rates, computed with life to date factor histories and weighted average maturities, are used in the calculation of projected prepayments for pass-through security types.

The tables below display the aggregate market value and gross unrealized depreciation of fixed maturity and equity securities, by security type and contractual maturity, in each case subdivided according to length of time that individual securities had been in a continuous unrealized loss position for the periods indicated:

Total fixed maturity securities	\$538,208	\$ (6,673 )	\$424,935	\$ (27,965)	\$963,143	\$ (34,638)

The aggregate market value and gross unrealized losses related to investments in an unrealized loss position at September 30, 2012 were \$963,156 thousand and \$34,640 thousand, respectively. There were no unrealized losses on a single issuer that exceeded 0.02% of the market value of the fixed maturity securities at September 30, 2012. In addition, as indicated on the above table, there was no significant concentration of unrealized losses in any one market

sector. The \$6,673 thousand of unrealized losses related to fixed maturity securities that have been in an unrealized loss position for less than one year were generally comprised of domestic and foreign corporate securities, agency residential mortgage-backed securities and foreign government securities. Of these unrealized losses, \$5,699 thousand were related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The \$27,965 thousand of unrealized losses related to fixed maturity securities in an unrealized loss position for more than one year related primarily to domestic and foreign corporate securities, foreign government securities and commercial mortgage-backed securities. Of these unrealized losses, \$22,490 thousand related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The non-investment grade by at least one nationally recognized statistical rating organization. The non-investment grade securities with unrealized losses were mainly comprised of corporate and commercial mortgage-backed securities. The gross unrealized depreciation for mortgage-backed securities included \$241 thousand related to sub-prime and alt-A loans. In all instances, there were no projected cash flow shortfalls to recover the full book value of the investments and the related interest obligations. The mortgage-backed securities still have excess credit coverage and are current on interest and principal payments.

The Company, given the size of its investment portfolio and capital position, does not have the intent to sell these securities; and it is more likely than not that the Company will not have to sell the security before recovery of its cost basis. In addition, all securities currently in an unrealized loss position are current with respect to principal and interest payments.

The tables below display the aggregate market value and gross unrealized depreciation of fixed maturity and equity securities, by security type and contractual maturity, in each case subdivided according to length of time that individual securities had been in a continuous unrealized loss position for the periods indicated:

The aggregate market value and gross unrealized losses related to investments in an unrealized loss position at December 31, 2011 were \$2,090,402 thousand and \$101,487 thousand, respectively. There were no unrealized losses on a single issuer that exceeded 0.04% of the market value of the fixed maturity securities at December 31, 2011. In addition, as indicated on the above table, there was no significant concentration of unrealized losses in any one market sector. The \$32,433 thousand of unrealized losses related to fixed maturity securities that have been in an unrealized loss position for less than one year were generally comprised of domestic and foreign corporate securities. Of these unrealized losses, \$17,207 thousand were related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The \$50,304 thousand of unrealized losses related to fixed maturity securities. Of these unrealized losses, \$34,840 thousand related to securities that were rated investment grade by at least one nationally recognization. All of the unrealized losses related to foreign corporate and foreign government securities that were rated investment grade by at least one nationally recognized to securities that were rated investment grade by at least one government securities and commercial mortgage-backed securities. Of these unrealized losses, \$34,840 thousand related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. All of the unrealized losses related to foreign corporate and foreign government securities are due to temporary currency exchange rate movements as opposed to market value movements. The non-investment grade securities with unrealized losses were mainly comprised of corporate

and commercial mortgage-backed securities. The gross unrealized depreciation for mortgage-backed securities included \$322 thousand related to sub-prime and alt-A loans. In all instances, there were no projected cash flow shortfalls to recover the full book value of the investments and the related interest obligations. The mortgage-backed securities still have excess credit coverage and are current on interest and principal payments. The unrealized losses related to equity securities represent temporary declines in value of mutual fund investments where the underlying investments are comprised of emerging market debt fixed maturities.

The components of net investment income are presented in the table below for the periods indicated:

	Three Months Ended September 30,		Nine Mon Septem	
(Dollars in thousands)	2012	2011	2012	2011

Total net investment income	\$152,024	\$156,465	\$453,791	\$493,788

The Company records results from limited partnership investments on the equity method of accounting with changes in value reported through net investment income. Due to the timing of receiving financial information from these partnerships, the results are generally reported on a one month or quarter lag. If the Company determines there has been a significant decline in value of a limited partnership during this lag period, a loss will be recorded in the period in which the Company indentifies the decline.

The Company had contractual commitments to invest up to an additional \$111,715 thousand in limited partnerships at September 30, 2012. These commitments will be funded when called in accordance with the partnership agreements, which have investment periods that expire, unless extended, through 2016.

The components of net realized capital gains (losses) are presented in the table below for the periods indicated:

		nths Ended nber 30,	Nine Months Ende September 30,	
(Dollars in thousands)	2012	2011	2012	2011
Fixed maturity securities, market value:				
Other-than-temporary impairments	\$(3,548)	\$(1,050)	\$(9,902)	\$(15,817)
Gains (losses) from sales	3,334	23,439	9,469	7,821
Fixed maturity securities, fair value:				
Gains (losses) from sales	512	(16)	5,539	(966)
Gains (losses) from fair value adjustments	298	(5,013)	1,623	(8,537)

Gains (losses) from sales	3,142	637	23,241	2,335
Gains (losses) from fair value adjustments	60,469	(155,669)	109,557	(115,235)
Short-term investments gain (loss)	(16)	1	(17)	1

Total net realized capital gains (losses)

\$62,743 \$(137,671) \$144,882 \$(130,360)

11

The Company recorded as net realized capital gains (losses) in the consolidated statements of operations and comprehensive income (loss) both fair value re-measurements and write-downs in the value of securities deemed to be impaired on an other-than-temporary basis as displayed in the table above. The Company had no other-than-temporary impaired securities where the impairment had both a credit and non-credit component.

The proceeds and split between gross gains and losses, from sales of fixed maturity and equity securities, are presented in the table below for the periods indicated:

	Three Months Ended			nths Ended
	Septem	ıber 30,	September 30,	
(Dollars in thousands)	2012	2011	2012	2011
Proceeds from sales of fixed maturity securities	\$229,766	\$500,485	\$712,227	\$1,418,285
Gross gains from sales	7,568	36,850	28,050	61,365
Gross losses from sales	(3,722)	(13,427)	(13,042)	(54,510)
Proceeds from sales of equity securities	\$165,311	\$61,081	\$517,709	\$181,954
Gross gains from sales	5,288	6,022	40,463	9,229
Gross losses from sales	(3,594)	(5,385)	(11,850)	(6,856)

During the second quarter of 2012, the Company redeemed one of its mutual fund investments reflected on the balance sheet as an equity security – available for sale, at market value. As part of the redemption settlement, the Company received its proportionate share of the fund's fixed maturities and related accrued interest in the amount of \$92,981 thousand. The Company has categorized the fixed maturities as available for sale, at market value.

#### 4. DERIVATIVES

The Company sold seven equity index put option contracts, based on two indices, in 2001 and 2005, which remain outstanding. The Company sold these equity index put options as insurance products with the intent of achieving a profit. These equity index put option contracts meet the definition of a derivative under FASB guidance and the Company's position in these equity index put option contracts is unhedged. Accordingly, these equity index put option contracts are carried at fair value in the consolidated balance sheets with changes in fair value recorded in the consolidated statements of operations and comprehensive income (loss).

The Company sold six equity index put option contracts, based on the Standard & Poor's 500 ("S&P 500") index, for total consideration, net of commissions, of \$22,530 thousand. At September 30, 2012, fair value for these equity index put option contracts was \$69,120 thousand. These equity index put option contracts each have a single exercise date, with maturities ranging from 12 to 30 years and strike prices ranging from \$1,141.21 to \$1,540.63. No amounts will be payable under these equity index put option contracts if the S&P 500 index is at, or above, the strike prices on the exercise dates, which fall between June 2017 and March 2031. If the S&P 500 index is lower than the strike price on the applicable exercise date, the amount due would vary proportionately with the percentage by which the index is below the strike price. Based on historical index volatilities and trends and the September 30, 2012 S&P 500 index falling below the strike price on the exercise date to be less than 42%. The theoretical maximum payouts under the equity index put option contracts would occur if on each of the exercise dates the S&P 500 index value were zero. At September 30, 2012, the present value of these theoretical maximum payouts using a 6% discount factor was \$298,150 thousand.

The Company sold one equity index put option contract based on the FTSE 100 index for total consideration, net of commissions, of \$6,706 thousand. At September 30, 2012, fair value for this equity index put option contract was \$10,028 thousand. This equity index put option contract has an exercise date of July 2020 and a strike price of

5,989.75. No amount will be payable under this equity index put option contract if the FTSE 100 index is at, or above, the strike price on the exercise date. If the FTSE 100 index is lower than the strike price on the exercise date, the amount due will vary proportionately with the percentage by which the index is below the strike price. Based on historical index volatilities and trends and the September 30, 2012 FTSE 100 index value, the Company estimates the probability that the equity index put option contract of the FTSE 100 index will fall below the strike price on the exercise date to be less than 50%. The theoretical maximum payout under the equity index put option contract would occur if on the exercise date the FTSE 100 index value was zero. At September 30, 2012, the present value of the theoretical maximum payout using a 6% discount factor and current exchange rate was \$33,819 thousand.

The fair value of the equity index put options can be found in the Company's consolidated balance sheets as follows:

(Dollars in thousands)					
Derivatives not designated as	Location of fair value		At		At
hedging instruments	in balance sheets	Se	ptember 30, 2012	De	ecember 31, 2011
Equity index put option contracts	Equity index put option liability	\$	79,148	\$	69,729
Total		\$	79,148	\$	69,729

The change in fair value of the equity index put option contracts can be found in the Company's statement of operations and comprehensive income (loss) as follows:

(Dollars in thousands)			nree Months		ne Months ded
Derivatives not designated as	Location of gain (loss) in statements of operations and comprehensive		nber 30,	Septem	ıber 30,
hedging instruments	income (loss)	2012	2011	2012	2011
Equity index put option contracts Total	Net derivative gain (loss)	\$ 703 \$ 703	\$ (23,427) \$ (23,427)	) \$ (9,420) ) \$ (9,420)	\$ (19,273) \$ (19,273)

The Company's equity index put option contracts contain provisions that require collateralization of the fair value, as calculated by the counterparty, above a specified threshold, which is based on the Company's financial strength ratings (Moody's Investors Service, Inc.) and/or debt ratings (Standard & Poor's Ratings Services). The aggregate fair value of all derivative instruments with credit-risk-related contingent features that were in a liability position on September 30, 2012, was \$79,148 thousand for which the Company had posted collateral with a market value of \$48,520 thousand. If on September 30, 2012, the Company's ratings were such that the collateral threshold was zero, the Company's collateral requirement would increase by \$55,000 thousand.

#### 5. FAIR VALUE

The Company's fixed maturity and equity securities are primarily managed by third party investment asset managers. The investment asset managers obtain prices from nationally recognized pricing services. These services

seek to utilize market data and observations in their evaluation process. They use pricing applications that vary by asset class and incorporate available market information and when fixed maturity securities do not trade on a daily basis the services will apply available information through processes such as benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. In addition, they use model processes, such as the Option Adjusted Spread model to develop prepayment and interest rate scenarios for securities that have prepayment features.

In limited instances where prices are not provided by pricing services or in rare instances when a manager may not agree with the pricing service, price quotes on a non-binding basis are obtained from investment brokers. The investment asset managers do not make any changes to prices received from either the pricing services or the investment brokers. In addition, the investment asset managers have procedures in place to review the reasonableness of the prices from the service providers and may request verification of the prices. In addition, the Company continually performs analytical reviews of price changes and tests the prices on a random basis to an independent pricing source. No material variances were noted during these price validation procedures. In limited situations, where financial markets are inactive or illiquid, the Company may use its own assumptions about future cash flows and risk-adjusted discount rates to determine fair value. The Company made no such adjustments at September 30, 2012 and December 31, 2011.

The Company internally manages a small public equity portfolio which had a fair value at September 30, 2012 of \$106,086 thousand and all prices were obtained from publically published sources.

Equity securities in U.S. denominated currency are categorized as Level 1, Quoted Prices in Active Markets for Identical Assets, since the securities are actively traded on an exchange and prices are based on quoted prices from the exchange. Equity securities traded on foreign exchanges are categorized as Level 2 due to potential foreign exchange adjustments to fair or market value.

Fixed maturity securities are generally categorized as Level 2, Significant Other Observable Inputs, since a particular security may not have traded but the pricing services are able to use valuation models with observable market inputs such as interest rate yield curves and prices for similar fixed maturity securities in terms of issuer, maturity and seniority. Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk) are categorized as Level 3, Significant Unobservable Inputs. These securities include broker priced securities and the Company's equity index put option contracts.

As of September 30, 2012 and December 31, 2011, all Level 3 fixed maturity securities, were priced using single non-binding broker quotes since prices for these securities were not provided by normal pricing service companies. The single broker quotes are provided by market makers or broker-dealers who are recognized as market participants in the markets in which they are providing the quotes. The prices received from brokers are reviewed for reasonableness by our asset managers and management.

The Company sold seven equity index put option contracts which meet the definition of a derivative. The Company's position in these contracts is unhedged. The Company records the change in fair value of equity index put option contracts in its consolidated statements of operations and comprehensive income (loss).

The fair value was calculated using an industry accepted option pricing model, Black-Scholes, which used the following assumptions:

	At September	30, 2012
		Contract
	Contracts	based on
	based on	FTSE
	based on	100
	S & P 500	Index

## 6. CAPITAL TRANSACTIONS

On October 14, 2011, the Company renewed its shelf registration statement on Form S-3ASR with the SEC, as a Well Known Seasoned Issuer. This shelf registration statement can be used by Group to register common shares, preferred shares, debt securities, warrants, share purchase contracts and share purchase units; by Holdings to register debt securities and by Everest Re Capital Trust III ("Capital Trust III") to register trust preferred securities.

## 7. EARNINGS PER COMMON SHARE

Net income (loss) per common share has been computed as per below, based upon weighted average common basic and dilutive shares outstanding.

	Three Months Ended September 30,		Nine Mon Septem	
(Dollars and shares in thousands, except per share amounts) Net income (loss) per share: Numerator	2012	2011	2012	2011
Net income (loss)	\$ 250,922	\$ 63,054	\$ 770,177	\$ (121,528)
Less: dividends declared-common shares and nonvested		·	· ·

Basic weighted-average common shares				
(1)outstanding	51,444	53,822	52,113	53,942
Basic weighted-average common shares outstanding and nonvested common				
shares expected to vest	51,823	54,191	52,549	54,288
Percentage allocated to common	- ,	- )->-	- ,	- ,
shareholders	99.3 %	99.3 %	99.2 %	99.4 %

(Some amounts may not reconcile due to rounding.)

The table below presents the options to purchase common shares that were outstanding, but were not included in the computation of earnings per diluted share as they were anti-dilutive, for the periods indicated:

	Three Mon	ths Ended	Nine Months Ended		
	Septem	ber 30,	September 30,		
	2012	2011	2012	2011	
Anti-dilutive options	355,594	2,010,550	1,203,944	1,548,390	

All outstanding options expire on or between May 22, 2013 and September 19, 2022.

## 8. CONTINGENCIES

In the ordinary course of business, the Company is involved in lawsuits, arbitrations and other formal and informal dispute resolution procedures, the outcomes of which will determine the Company's rights and obligations under insurance and reinsurance agreements. In some disputes, the Company seeks to enforce its rights under an agreement or to collect funds owing to it. In other matters, the Company is resisting attempts by others to collect funds or enforce alleged rights. These disputes arise from time to time and are ultimately resolved through both informal and formal means, including negotiated resolution, arbitration and litigation. In all such matters, the Company believes that its positions are legally and commercially reasonable. The Company considers the statuses of these proceedings when determining its reserves for unpaid loss and loss adjustment expenses.

Aside from litigation and arbitrations related to these insurance and reinsurance agreements, the Company is not a party to any other material litigation or arbitration.

In 1993 and prior, the Company had a business arrangement with The Prudential Insurance Company of America ("The Prudential") wherein, for a fee, the Company accepted settled claim payment obligations of certain property and casualty insurers, and, concurrently, became the owner of the annuity or assignee of the annuity proceeds funded by the property and casualty insurers specifically to fulfill these fully settled obligations. In these circumstances, the Company would be liable if The Prudential, which has an A+ (Superior) financial strength rating from A.M. Best Company ("A.M. Best"), was unable to make the annuity payments. The table below presents the estimated cost to replace all such annuities for which the Company was contingently liable for the periods indicated:

	At September 30	, At	December 31,
(Dollars in thousands)	2012		2011
	\$ 144,117	\$	143,447

Prior to its 1995 initial public offering, the Company purchased annuities from an unaffiliated life insurance company with an A+ (Superior) financial strength rating from A.M. Best to settle certain claim liabilities of the company. Should the life insurance company become unable to make the annuity payments, the Company would be liable for those claim liabilities. The table below presents the estimated cost to replace all such annuities for which the Company was contingently liable for the periods indicated:

## 10. CREDIT FACILITIES

The Company has three credit facilities for a total commitment of up to \$1,250,000 thousand, providing for the issuance of letters of credit and/or unsecured revolving credit lines. The following table presents the costs incurred in connection with the three credit facilities for the periods indicated:

Three Months	
Ended	Nine Months Ended
September 30,	September 30,

(Dollars in thousands)	2012	2011	2012	2011
Credit facility fees incurred	\$ 786	\$ 611	\$ 2,134	\$ 1,601

#### Table of Contents

The terms and outstanding amounts for each facility are discussed below:

## Group Credit Facility

Effective June 22, 2012, Group, Bermuda Re and Everest International entered into a four year, \$800,000 thousand senior credit facility with a syndicate of lenders, which amended and restated in its entirety the July 27, 2007, five year, \$850,000 thousand senior credit facility. Both the June 22, 2012 and July 27, 2007 senior credit facilities, which have similar terms, are referred to as the "Group Credit Facility". Wells Fargo Corporation ("Wells Fargo Bank") is the administrative agent for the Group Credit Facility, which consists of two tranches. Tranche one provides up to \$200,000 thousand of unsecured revolving credit for liquidity and general corporate purposes, and for the issuance of unsecured standby letters of credit. The interest on the revolving loans shall, at the Company's option, be either (1) the Base Rate (as defined below) or (2) an adjusted London Interbank Offered Rate ("LIBOR") plus a margin. The Base Rate plus 0.5% per annum or (c) the one month LIBOR Rate plus 1.0% per annum. The amount of margin and the fees payable for the Group Credit Facility depends on Group's senior unsecured debt rating. Tranche two exclusively provides up to \$600,000 thousand for the issuance of standby letters of credit facility depends on Group's senior unsecured debt rating. Tranche two exclusively

The Group Credit Facility requires Group to maintain a debt to capital ratio of not greater than 0.35 to 1 and to maintain a minimum net worth. Minimum net worth is an amount equal to the sum of \$4,249,963 thousand plus 25% of consolidated net income for each of Group's fiscal quarters, for which statements are available ending on or after January 1, 2012 and for which consolidated net income is positive, plus 25% of any increase in consolidated net worth during such period attributable to the issuance of ordinary and preferred shares, which at September 30, 2012, was \$4,453,180 thousand. As of September 30, 2012, the Company was in compliance with all Group Credit Facility covenants.

The following table summarizes the outstanding letters of credit and/or borrowings for the periods indicated:

Credit Facility	-	\$ 800,000	\$ 413,882	\$ 850,000	\$ 446,454	

## Holdings Credit Facility

Effective August 15, 2011, Holdings entered into a new three year, \$150,000 thousand unsecured revolving credit facility with a syndicate of lenders, replacing the August 23, 2006 five year senior revolving credit facility. Both the August 15, 2011 and August 23, 2006 revolving credit agreements, which have similar terms, are referred to as the "Holdings Credit Facility". Citibank N.A. is the administrative agent for the Holdings Credit Facility. The Holdings Credit Facility may be used for liquidity and general corporate purposes. The Holdings Credit Facility provides for the borrowing of up to \$150,000 thousand with interest at a rate selected by Holdings equal to either, (1) the Base Rate (as defined below) or (2) a periodic fixed rate equal to the Eurodollar Rate plus an applicable margin. The Base Rate means a fluctuating interest rate per annum in effect from time to time to be equal to the higher of (a) the rate of

interest publicly announced by Citibank as its base rate, (b) 0.5% per annum above the Federal Funds Rate or (c) 1% above the one month LIBOR, in each case plus the applicable margin. The amount of margin and the fees payable for the Holdings Credit Facility depends upon Holdings' senior unsecured debt rating.

The Holdings Credit Facility requires Holdings to maintain a debt to capital ratio of not greater than 0.35 to 1 and Everest Re to maintain its statutory surplus at \$1,875,000 thousand plus 25% of future aggregate net income and 25% of future aggregate capital contributions after December 31, 2010, which at September 30, 2012, was \$1,989,487 thousand. As of September 30, 2012, Holdings was in compliance with all Holdings Credit Facility covenants.

Bermuda Re Letter of Credit Facility

Bermuda Re has a \$300,000 thousand letter of credit issuance facility with Citibank N.A. referred to as the "Bermuda Re Letter of Credit Facility", which commitment is reconfirmed annually. The Bermuda Re Letter of Credit Facility provides for the issuance of up to \$300,000 thousand of secured letters of credit to collateralize reinsurance obligations as a non-admitted reinsurer. The interest on drawn letters of credit shall be (A) 0.20% per annum of the principal amount of issued standard letters of credit (expiry of 15 months or less) and (B) 0.25% per annum of the principal amount of issued extended tenor letters of credit (expiry maximum of up to 60 months). The commitment fee on undrawn credit shall be 0.10% per annum.

## 11 TRUST AGREEMENTS

Certain subsidiaries of Group have established trust agreements, which effectively use the Company's investments as collateral, as security for assumed losses payable to certain non-affiliated ceding companies. At September 30, 2012, the total amount on deposit in trust accounts was \$218,070 thousand.

## 12. SENIOR NOTES

The table below displays Holdings' outstanding senior notes. Market value is based on quoted market prices, but due to limited trading activity, these senior notes are considered Level 2 in the fair value hierarchy.

				September	r 30, 2012	December 31, 2011	
				Consolidated		Consolidated	
				Balance		Balance	
(Dollars in			Principal	Sheet	Market	Sheet	Market

notes	10/12/2004	10/15/2014 \$	250,000	\$ 249,894	\$ 261,745	\$ 249,858	\$ 251,370

Interest expense incurred in connection with these senior notes is as follows for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(Dollars in thousands)	2012	2011	2012	2011
Interest expense incurred	\$ 3,387	\$ 3,386	\$10,161	\$10,159

#### 13. LONG TERM SUBORDINATED NOTES

The table below displays Holdings' outstanding fixed to floating rate long term subordinated notes. Market value is based on quoted market prices, but due to limited trading activity, these subordinated notes are considered Level 2 in the fair value hierarchy.

			Maturity Date		September 30, 2012 Consolidated		Decembe Consolidated	r 31, 2011
		Original			Balance		Balance	
(Dollars in		Principal			Sheet	Market	Sheet	Market
thousands)	Date Issued	Amount	Scheduled	Final	Amount	Value	Amount	Value
6.6% Long								
term								
subordinated								
notes	04/26/2007	\$ 400,000	05/15/2037	05/01/206	57 \$ 238,356	\$ 244,522	\$ 238,354	\$ 210,195

During the fixed rate interest period from May 3, 2007 through May 14, 2017, interest will be at the annual rate of 6.6%, payable semi-annually in arrears on November 15 and May 15 of each year, commencing on November 15, 2007, subject to Holdings' right to defer interest on one or more occasions for up to ten consecutive years. During the floating rate interest period from May 15, 2017 through maturity, interest will be based on the 3 month LIBOR plus 238.5 basis points, reset quarterly, payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year, subject to Holdings' right to defer interest on one or more occasions for up to ten consecutive years. Deferred interest will accumulate interest at the applicable rate compounded semi-annually for periods prior to May 15, 2017, and compounded quarterly for periods from and including May 15, 2017.

Holdings can redeem the long term subordinated notes prior to May 15, 2017, in whole but not in part at the applicable redemption price, which will equal the greater of (a) 100% of the principal amount being redeemed and (b) the present value of the principal payment on May 15, 2017 and scheduled payments of interest that would have accrued from the redemption date to May 15, 2017 on the long term subordinated notes being redeemed, discounted to the redemption date on a semi-annual basis at a discount rate equal to the treasury rate plus an applicable spread of either 0.25% or 0.50%, in each case plus accrued and unpaid interest. Holdings may redeem the long term subordinated notes on or after May 15, 2017, in whole or in part at 100% of the principal amount plus accrued and unpaid interest; however, redemption on or after the scheduled maturity date and prior to May 1, 2047 is subject to a replacement capital covenant. This covenant is for the benefit of certain senior note holders and it mandates that Holdings receive proceeds from the sale of another subordinated debt issue, of at least similar size, before it may redeem the subordinated notes.

On March 19, 2009, Group announced the commencement of a cash tender offer for any and all of the 6.60% fixed to floating rate long term subordinated notes. Upon expiration of the tender offer, the Company had reduced its outstanding debt by \$161,441 thousand.

Interest expense incurred in connection with these long term subordinated notes is as follows for the periods indicated:

Three Months Ended September 30,

Nine Months Ended
