Precision Auto Care, Inc. and Subsidiaries
Notes to Consolidated Financial Statements

Note 1 - Interim Financial Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) for interim financial information. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments consisting primarily of recurring accruals considered necessary for a fair presentation have been included. Operating results for such interim periods are not necessarily indicative of the results, which may be expected for a full fiscal year. For further information, refer to the consolidated financial statements and footnotes included in Precision Auto Care Inc. s (the Company) annual report on Form 10-KSB for the year ended June 30, 2003.

Unless the context requires otherwise, all references to the Company herein mean Precision Auto Care, Inc. and those entities owned or controlled by Precision Auto Care, Inc. Significant intercompany accounts and transactions have been eliminated in consolidation.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 Accounting Policy

Goodwill and Intangible Assets

In June 2001, the FASB issued SFAS No. 142, *Goodwill and Intangible Assets*, which supercedes Accounting Principles Board (APB) Opinion No. 17, *Intangible Assets*. This statement addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. Goodwill will cease to be amortized upon the implementation of the statement and companies must test goodwill at least annually for impairment. The Company adopted SFAS No. 142 effective July 1, 2002 and ceased amortizing goodwill of \$8.7 million.

This statement requires that goodwill be tested for impairment annually unless the underlying reporting unit has not changed significantly, the most recent valuation substantially exceeded the carrying value of goodwill, and events or circumstances have not occurred such that the likelihood of impairment is remote. In June 2002, the Company had a business enterprise valuation conducted of its automotive care franchising reporting unit. This reporting unit, which is primarily comprised of Precision Tune Auto Care®, provides automotive services primarily through franchised operations located in the United States and in certain foreign countries. This income approach based valuation considered the nature of the reporting unit s business, the economic outlook of its industry, underlying assets, financial condition, and future earning capacity. During the six months ended December 31, 2003, management determined that goodwill was not impaired based upon the absence of a significant change in the assets

and liabilities that make up the reporting unit since the date of the last valuation, its fair value of approximately \$9.5 million was in excess of its carrying value of approximately \$8.8 million, the likelihood that a current fair value determination would be less than the current carrying amount of the reporting unit was remote, and there were no significant changes in the business of the reporting unit since the date of the last valuation that would likely reduce the fair value of the reporting unit below its carrying amount.

Stock Options

The Company applies Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations in accounting for stock based compensation and presents pro forma net income and earnings per share data as if the accounting prescribed by Statement of Financial Accounting Standards No. 123, *Accounting for Stock Based Compensation* had been applied.

Historically, no stock-based compensation was reflected in net income, as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. However, the Company issued 65,000 options in the six months ended December 31, 2003 which had an exercise price below the market value of the underlying common stock on the date of grant. As a result, approximately \$15,000 of compensation expense will be recognized over the vesting period of these options. The Company also repurchased certain options from employees and issued new options exercisable at an exercise price of \$0.44 in fiscal year 2003, resulting in the newly issued options being treated as a repricing under FIN 44, *Accounting for Certain Transactions Involving Stock Compensation*, which triggers variable accounting. As a result, the Company recorded compensation expense of

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

approximately \$50,000 and \$0 associated with these options during the six months ended December 31, 2003 and 2002, respectively. Had compensation expense for all options been determined based on the fair value at the grant dates during the six months ending December 31, 2003 and 2002 under the plan consistent with the method of SFAS No. 123, the pro forma net income and income per share would have been as follows:

	Six Months Ended December 31,

Net income applicable to common shareholders	\$ 557,411	\$ 6,187,816

* All awards refers to awards granted, modified, or settled in fiscal periods beginning after December 15, 1994 awards for which the fair value was required to be measured under Statement 123.

Reclassifications

Certain amounts on the prior period financial statements have been reclassified to be in conformity with the current period financial statements.

Note 3 - New Accounting Pronouncements

In May 2003, the Financial Accounting Standards Board (FASB) issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. SFAS No. 150 establishes standards for issuer classification and measurement of certain financial instruments with characteristics of both liabilities and equity. Instruments that fall within the scope of SFAS No. 150 must be classified as a liability. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003. For financial instruments issued on or before May 31, 2003, SFAS No. 150 became effective for the Company in the first quarter of fiscal year 2004. Upon adoption, the Company's redeemable preferred stock was no longer required to be presented in the mezzanine section of the balance sheet, and is now appropriately classified as equity.

Note 4 Discontinued Operations

The Company disposed of its manufacturing and distribution operating segment as a result of the sale of substantially all of the assets of Worldwide Drying Systems (Worldwide) and Hydro Spray Car Wash Equipment Co. (Hydro Spray) in March 2003 and April 2003, respectively.

As a result of the sale of Hydro Spray and Worldwide, the Company retained the following assets and liabilities. These assets and liabilities are included in the assets and liabilities from discontinued operations at December 31, 2003:

	December 31, 2003	
Assets of discontinued operations:		
Accounts receivable, net	\$	5,945

Other (income) expense	(24,998)	19,082
Income (loss) from discontinued operations	\$ 23,926	\$ (182,572)

Note 5 Net Income (Loss) Per Share

The Company reports earnings per share (EPS) in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share which specifies the methods of computation, presentation, and disclosure. SFAS No. 128 requires the presentation of basic EPS and diluted EPS. Basic EPS is calculated by dividing net income (loss) available to common shareholders by the weighted average number of shares outstanding during the period. Diluted EPS is calculated by dividing net income (loss) available to common shareholders by the weighted average number of shares outstanding during the period plus the dilutive effect of common stock equivalents. The weighted average number of shares outstanding related to stock options at December 31, 2003 and 2002 was 1,928,899 and 1,669,200, respectively. Only stock options with exercise prices lower than the average market price of the common shares were included in the diluted EPS calculation.

The following table sets forth the computation of basic and diluted net loss per share.

Note 6 - Debt

Debt Restructuring

In October 1998, a subordinated debenture in the amount of \$2.0 million was executed with an LLC composed of certain members of the Company's board of directors (Board LLC). On July 17, 2003, the Company reached an agreement to restructure the remaining \$633,000 due to the Board LLC. The terms of the agreement called for the following:

Payment of \$200,000 within 3 days of receipt of approval by the Company's Board of Directors.

Issuance of a non-interest bearing note payable in the amount of \$50,000, payable in ten monthly installments of \$5,000 each, commencing one month after the date of approval by the Company's Board of Directors.

Issuance of warrants to purchase 400,000 shares of the Company's common stock with an exercise price of \$0.44 per share having a fair value of approximately \$222,000.

The Company recognized a gain of approximately \$160,000 from this debt restructuring in the first quarter of fiscal year 2004.

In December 2003, the Company paid approximately \$169,000 in full satisfaction of the \$201,000 of debt owed to Radiant Systems, Inc. The Company recognized a gain of approximately \$32,000 from this transaction in the second quarter of fiscal year 2004.

In January 2004, 2,469,600 warrants were exercised pursuant to an agreement the Company reached with Precision Franchising, L.L.C. and a former board member in October 2002. Upon the exercise of these warrants at the previously agreed to exercise price of \$0.44 per share, the holder purchased 2,469,600 restricted shares of common stock in exchange for surrendering 104,885 shares of Series A Preferred Stock to the Company, therefore, there were no cash proceeds received by the Company from this transaction.

Note 7 Contingencies

The Company is subject to litigation that could have a material adverse impact on its liquidity as follows:

Previously Reported Cases:

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

Gulshan Hirji v. Precision Auto Care, Inc., Los Angeles Superior Court, State of California, Case No. BC279492, Filed August 12, 2002

On November 6, 2003, the parties agreed to settle all claims and counterclaims in this previously reported lawsuit with PACI agreeing to pay \$72,800 to Hirji. An accrual has been established for the settlement of this matter as of December 31, 2003.

Luminivision, S.A. de C.V. v. Praxis Afinaciones, S.A. de C.V., Third Civil Court, First Judicial District, Monterrey, Nuevo Laredo, Mexico.

Luminivision filed suit in 2002 against Praxis Afinaciones, an indirect wholly owned subsidiary of PACI, seeking payment of 766,000 Mexican Pesos, plus interest at the rate of 5% per month, for services under a contract. Praxis Afinaciones denies the allegations and is defending the allegations in the lawsuit. Management believes this suit will not have a material impact on the Company's consolidated results of operations.

United Bank, NA v. C. Eugene Deal, Miracle Partners, Inc., Star Auto Center, Inc., Common Pleas Court of Cuyahoga County, Ohio, Case No. 01-CV0019, Filed January 11, 2001

Miracle Partners, Inc., a wholly-owned subsidiary of the Company, was party to a confessed judgment of approximately \$1.3 million. The subsidiary is currently inactive and has no assets. As such, management believes this judgment will have no material impact on the Company's consolidated results of operations. Furthermore, the Company believes that it has a meritorious claim against Mr. Deal for misrepresentations made in connection with PACI's acquisition of Miracle Partners, Inc. in 1997 for all amounts covered by the judgment.

Threatened Litigation:

Puyallup Auto Stop Associates, Inc. v. PTW, Inc.

By letter dated July 1, 2003, a landlord has asserted a claim against PTW, Inc. for reimbursement of the costs of remediating environmental contamination to the leased premises during the term of the lease, which costs are alleged to exceed \$250,000. Investigation into the Company's liability is ongoing. The outcome of this matter cannot be determined at this time.

The Company and its subsidiaries are subject to other litigation in the ordinary course of business, including contract, franchisee and employment-related litigation. In the course of enforcing its rights under existing and former franchisee agreements, the Company is subject to complaints and letters threatening litigation concerning the interpretation and applicability of these agreements, particularly in cases involving defaults and terminations of franchises.

The Company does not believe that any of the above proceedings will result in material judgments against the Company. There can be no assurance, however, that these suits will ultimately be decided in its favor. Any one of these suits may result in a material judgment against the Company, which could cause material adverse consequences to its operations.

Note 8 Subsequent Event

In January 2004, 2,469,600 warrants were exercised pursuant to an agreement the Company reached with Precision Franchising, L.L.C. and a former board member in October 2002. Upon the exercise of these warrants at the previously agreed to exercise price of \$0.44 per share, the holder purchased 2,469,600 restricted shares of common stock in exchange for surrendering 104,885 shares of Series A Preferred Stock to the Company, therefore, there were no cash proceeds received by the Company from this transaction.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Introduction

The following discussion and analysis or plan of operation of Precision Auto Care, Inc. (the Company) should be read in conjunction with the unaudited interim consolidated financial statements and notes thereto included in Item 1. - Financial Statements of this quarterly report and the audited consolidated financial statements and notes thereto and the section titled Item 7. - Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's annual report on Form 10-KSB for the fiscal year ended June 30, 2003 filed with the Securities and Exchange Commission on September 29, 2003. Historical results and percentage relationships set forth herein are not necessarily indicative of future operations.

Critical Accounting Policies

Revenue Recognition

The Company's royalty revenue is recognized as earned in accordance with the specific terms of each agreement and to the extent no issues involving collection exist.

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

Revenue from the sale of a franchise is recognized upon the opening of the franchised center.

The Company enters into domestic Area Development agreements and international Master License agreements (Agreements) which grant the area developer and master licensor, respectively, the right to sell, on the Company's behalf, Precision Tune Auto Care franchises and Precision Lube Express franchises within a specific geographic region. Revenue from the sale of Area Development agreements is recognized as all material services or conditions related to the sales are satisfied. Revenue from the sale of master licenses is recognized upon signing the Agreement since the Company is not required to support the international franchises as there is no contractual agreement between the Company and the international franchisees.

Management reviews royalty receivables on a regular basis and establishes reserves as necessary based upon historical payment history and overall operating performance of the franchisee.

Deferred Tax Valuation Allowance

Given the Company's history of losses from fiscal years 1999, 2000, 2001 and 2002, management has established a valuation allowance against the entire deferred tax asset.

Revenue. Total revenues for the three months ended December 31, 2003 was approximately \$2.8 million, an increase of approximately \$128,000, or 5%, compared with total revenues of approximately \$2.7 million for the three months ended December 31, 2002.

Automotive care franchising revenue for the three months ended December 31, 2003 was \$2.6 million, an increase of approximately \$123,000, or 5%, compared with automotive care revenues of \$2.5 million for the three months ended December 31, 2002. This increase was primarily the result of an increase in franchise development revenues of \$90,000. The Company sold two new domestic franchise licenses, one international master franchise license, and a domestic area development license during the three months ended December 31, 2003. There were no comparable sales during the three months ended December 31, 2002.

Direct Cost. Total direct costs for the three months ended December 31, 2003 totaled \$1.8 million, an increase of \$132,000 or 8%, compared with \$1.6 million for the three months ended December 31, 2002. This increase is consistent with higher automotive care franchising revenues.

General and Administrative Expense. General and administrative expense was \$723,000 for the three months ended December 31, 2003, a decrease of \$320,000 or 31%, compared with \$1.0 million for the three months ended December 31, 2002. This decrease was primarily the result of management's cost reduction initiatives in general and administrative costs for the three months ended December 31, 2003.

Operating Income (Loss) From Continuing Operations. The Company recorded operating income for the three months ended December 31, 2003 of approximately \$228,000 compared with operating loss of \$113,000 for the three months ended December 31, 2002.

Other Income (Expense). The Company recorded a gain in Other Income (Expense) of \$61,000 for the three months ended December 31, 2003, which represents a decrease in Other Income (Expense) of approximately \$6.7 million or 99% compared to the \$6.8 million gain in Other Income (Expense) for the three months ended December 31, 2002. This decrease was primarily attributed to the \$6.9 million gain on debt extinguishment as a result of the Company's debt restructuring in fiscal year 2003. This decrease was partially offset by the Company's payment of approximately \$169,000 in full satisfaction of a \$201,000 debt in the three months ended December 31, 2003. The Company recognized a gain of approximately \$32,000 from this transaction in December 2003 (see Item 1- Note 6). This decrease in Other Income (Expense) was further offset by a \$174,000 reduction in interest expense for the three months ended December 31, 2003 compared to the three months ended December 31, 2002.

Gain (Loss) From Discontinued Operations. The Company recorded a gain from discontinued operations for the three months ended December 31, 2003 of \$3,000 compared with a loss from discontinued operations of \$33,000 for the three months ended December 31, 2002 relating to the disposal of its manufacturing operations (see Item 1- Note 4).

Net Income Applicable to Common Shareholders and Earnings Per Share. The Company recorded Net Income Applicable to Common Shareholders of \$266,000, or \$0.02 per share, for the three months ended December 31, 2003 compared to the Net Income Applicable to Common Shareholders of \$6.6 million, or \$0.44 per share, for the three months ended December 31, 2002.

Revenue. Total revenues for the six months ended December 31, 2003 was approximately \$6.0 million, a decrease of approximately \$104,000, or 2%, compared with total revenues of approximately \$6.1 million for the six months ended December 31, 2002.

Automotive care franchising revenue for the six months ended December 31, 2003 was approximately \$5.6 million, a decrease of approximately \$72,000, or 1%, compared with automotive care revenues of approximately \$5.7 million for the six months ended December 31, 2002. This decrease was the result of system wide store sales for the six months ended December 31, 2003 being slightly lower than sales for the six months ended December 31, 2002. This decrease was partially offset by increases in franchise development revenues, in distribution revenue related to franchise operations, and in same store sales.

Other revenue for the six months ended December 31, 2003 was \$316,000, a decrease of approximately \$32,000, or 9%, compared to \$348,000 for the six months ended December 31, 2002. This decrease was due primarily to the sale of its company operated stores in Mexico during the quarter ended December 31, 2002 and the resulting reduction in revenue from those stores.

Direct Cost. Total direct costs for the six months ended December 31, 2003 totaled approximately \$3.7 million, a decrease of \$22,000 or 1%, compared with approximately \$3.7 million for the six months ended December 31, 2002.

General and Administrative Expense. General and administrative expense was approximately \$1.8 million for the six months ended December 31, 2003, a decrease of \$273,000 or 13%, compared with approximately \$2.1 million for the six months ended December 31, 2002. This decrease was primarily the result of management's cost reduction initiatives in general and administrative costs for the three months ended December 31, 2003. Specifically, legal and personnel costs were reduced.

Operating Income From Continuing Operations. The Company recorded operating income for the six months ended December 31, 2003 of approximately \$363,000 compared with operating income of \$121,000 for the six months ended December 31, 2002.

Other Income (Expense). The Company recorded a gain in Other Income (Expense) of \$222,000 for the six months ended December 31, 2003, which represents a decrease in Other Income (Expense) of approximately \$6.0 million or 96% compared to the \$6.2 million gain in Other Income (Expense) for the six months ended December 31, 2002. This decrease was primarily attributed to the \$6.9 million gain on debt extinguishment as a result of the Company's debt restructuring in fiscal year 2003. This decrease was partially offset by the Company's gains from debt restructurings totaling approximately \$193,000 experienced in the six months ended December 31, 2003 (see Item 1- Note 6). This decrease was further offset by the associated \$692,000 reduction in interest expense for the six months ended December 31, 2003 compared to the six months ended December 31, 2002.

Gain (Loss) From Discontinued Operations. The Company recorded a gain from discontinued operations for the six months ended December 31, 2003 of \$24,000 compared with a loss from discontinued operations of \$182,000 for the six months ended December 31, 2002 relating to the disposal of its manufacturing operations (see Item 1- Note 4).

Net Income Applicable to Common Shareholders and Earnings Per Share. The Company recorded Net Income Applicable to Common Shareholders of \$557,000, or \$0.03 per share, for the six months ended December 31, 2003 compared to the Net Income Applicable to Common Shareholders of \$6.2 million, or \$0.44 per share, for the six months ended December 31, 2002.

Liquidity and Capital Resources

Sources and Uses of Cash

Cash at December 31, 2003 was \$1.2 million. This represents a decrease of \$316,000 from June 30, 2003. During the period, cash provided by operations was \$314,000. The Company generated operating profit in fiscal year 2003 and the six months ending December 31, 2003 with the expectation it will continue to do so for the remainder of fiscal year 2004.

Cash used in investing activities for the six months ended December 31, 2003 was \$79,000, resulting from the purchase of property and equipment for use in the Company's franchise operations.

Cash used in financing activities for the six months ended December 31, 2003 was \$551,000. Cash used in financing activities during the period consisted primarily of repayments of the subordinated debt and other notes payable.

Debt Transactions

In October 1998, a subordinated debenture in the amount of \$2.0 million was executed with an LLC composed of certain members of the Company's board of directors (Board LLC). On July 17, 2003, the Company reached an agreement to restructure the remaining \$633,000 due to the Board LLC. The terms of the agreement called for the following:

Payment of \$200,000 within 3 days of receipt of approval by the Company's Board of Directors.

Issuance of a non-interest bearing note payable in the amount of \$50,000, payable in ten monthly installments of \$5,000 each, commencing one month after the date of approval by the Company's Board of Directors.

Issuance of warrants to purchase 400,000 shares of the Company's common stock with an exercise price of \$0.44 per share having a fair value of approximately \$222,000.

The Company recognized a gain of approximately \$160,000 from this debt restructuring in the first quarter of fiscal year 2004.

In December 2003, the Company paid approximately \$169,000 in full satisfaction of the \$201,000 of debt owed to Radiant Systems, Inc. The Company recognized a gain of approximately \$32,000 from this transaction in the second quarter of fiscal year 2004.

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

In January 2004, 2,469,600 warrants were exercised pursuant to an agreement the Company reached with Precision Franchising, L.L.C. and a former board member in October 2002. Upon the exercise of these warrants at the previously agreed to exercise price of \$0.44 per share, the holder purchased 2,469,600 restricted shares of common stock in exchange for surrendering 104,885 shares of Series A Preferred Stock to the Company, therefore, there were no cash proceeds received by the Company from this transaction.

Seasonality and Quarterly Fluctuations

Seasonal changes may impact various sectors of the Company's business differently and, accordingly, the Company's operations may be affected by seasonal trends in certain periods. In particular, severe weather in winter months can adversely affect the Company because such weather makes it difficult for consumers in affected parts of the country to travel to Precision Auto Care and Precision Lube Express centers.

ITEM 3. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-14(c) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
