PROXY STATEMENT

SOLICITATION AND REVOCABILITY OF PROXIES

The Board of Directors of the Company (the Board of Directors) requests your proxy for use at the Annual Meeting of Stockholders to be held on May 18, 2005, at **1:00 p.m.**, local time, at **the Dallas Museum of Art, 1717 Harwood Street, Dallas, Texas 75201**, and at any adjournments or postponements thereof. By signing and returning the enclosed Proxy, or granting your proxy by telephone or over the internet, you authorize the persons named on the Proxy to represent you and to vote your shares at the Annual Meeting. This Proxy Statement and the form of Proxy were first mailed to stockholders of the Company on or about April 15, 2005.

This solicitation of proxies is made by the Board of Directors of the Company and will be conducted primarily by mail. Officers, directors and employees of the Company may solicit proxies personally or by telephone, electronic mail, telegram or other forms of wire or facsimile communication. The Company may also request banking institutions, brokerage firms, custodians, nominees and fiduciaries to forward solicitation material to the beneficial owners of Common Stock that those persons hold of record. The costs of the solicitation, including reimbursement of such forwarding expenses, will be paid by the Company.

If you attend the Annual Meeting, you may vote in person. If you are not present at the Annual Meeting, your shares can be voted only if you have returned a properly signed Proxy, are represented by another proxy, or have granted your proxy by telephone or over the internet. You may revoke your proxy, whether granted by telephone, over the internet or by returning the enclosed Proxy, at any time before it is exercised at the Annual Meeting by (a) signing and submitting a later-dated proxy to the Secretary of the Company, (b) delivering written notice of revocation of the proxy to the Secretary of the Company, or (c) voting in person at the Annual Meeting. In addition, if you granted your proxy by telephone or over the internet, you may revoke such grant by resubmitting your proxy by telephone or over the internet at any time prior to 11:59 p.m., Eastern daylight time, on May 17, 2005. In the absence of any such revocation, shares represented by the persons named on the Proxies will be voted at the Annual Meeting.

VOTING AND QUORUM

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The only outstanding voting securities of the Company are shares of Common Stock. As of the close of business on the Record Date, there were 35,264,347 shares of Common Stock outstanding and entitled to be voted at the Annual Meeting.

Each outstanding share of Common Stock is entitled to one vote. The presence, in person or by proxy, of a majority of the shares of Common Stock issued and outstanding and entitled to vote as of the Record Date shall constitute a quorum at the Annual Meeting. The chairman of the meeting or the holders of a majority of the Common Stock entitled to vote who are present or represented by proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time without notice, other than an announcement at the Annual Meeting of the time and place of the holding of the adjourned

meeting, until a quorum is present. At any such adjourned meeting at which a quorum is present, any business may be transacted that may have been transacted at the Annual Meeting had a quorum originally been present; provided, that if the adjournment is for more than 30 days or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the adjourned meeting. Proxies solicited by this Proxy Statement may be used to vote in favor of any motion to adjourn the Annual Meeting. The persons named on the Proxies intend to vote in favor of any motion to adjourn the Annual Meeting to a subsequent day if, prior to the Annual Meeting, such persons have not received sufficient proxies to approve the proposals described in this Proxy Statement. If such a motion is approved but sufficient proxies are not received by the time set for the resumption of the Annual Meeting, this process will be repeated until sufficient proxies to vote in favor of the proposals described in this Proxy Statement have been received or it appears to the persons named on the Proxies that sufficient proxies will not be received. Abstentions and broker non-votes will count in determining if a quorum is present at the Annual Meeting. A broker non-vote occurs if a broker or other nominee attending the meeting in person or submitting a proxy does not have discretionary authority to vote on a particular item and has not received voting instructions with respect to that item from a beneficial owner for which it holds shares in street name.

PROPOSAL ONE ELECTION OF CLASS II DIRECTORS

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Board of Directors has designated James R. Erwin, Jeffrey M. Heller and Michael A. Moses as nominees for election as Class II directors of the Company at the Annual Meeting (each, a Nominee). Messrs. Erwin and Heller and Dr. Moses currently serve as Class II directors. If elected, each Nominee will serve until the expiration of his term at the Annual Meeting of the Company's Stockholders in 2008 and until his successor is duly elected and qualified or until his earlier death, resignation or removal from office. For information about each Nominee, see Directors.

The Board of Directors has no reason to believe that any of the Nominees will be unable or unwilling to serve if elected. If a Nominee becomes unable or unwilling to serve prior to the election, your proxy will be voted for the election of a substitute nominee recommended by the current Board of Directors, or the number of the Company's directors will be reduced.

Required Vote and Recommendation

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The election of directors requires the affirmative vote of a plurality of the shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting. Accordingly, abstentions and broker non-votes will not have any effect on the election of a particular director. Unless otherwise instructed on the Proxy or unless authority to vote is withheld, the enclosed Proxy will be voted for the election of each of the Nominees.

The Board of Directors recommends that the stockholders vote FOR the election of each of the Nominees.

PROPOSAL TWO AMENDMENT TO EMPLOYEE STOCK PURCHASE PLAN

General

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

A summary description of the Trammell Crow Company Employee Stock Purchase Plan (the "Stock Purchase Plan"), as proposed to be modified by the amendment described below, is set forth in Appendix A. Currently, the maximum number of shares of Common Stock that may be issued under the Stock Purchase Plan ("Plan Shares") is 2,000,000. As of March 31, 2005, 1,987,463 Plan Shares had been issued and 12,537 were available for future awards under the Stock Purchase Plan.

Description of the Proposed Amendment

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Board of Directors has determined that, in order to continue to encourage all Company employees to acquire and hold the Company's Common Stock, the number of Plan Shares should be increased by 1,000,000, and is proposing an amendment to the Stock Purchase Plan to effect such increase. In determining the number of additional Plan Shares that should be authorized, the Board of Directors examined the potential dilutive effect of the additional Plan Shares in light of historical levels of employee participation in the Stock Purchase Plan and the Company's other compensatory stock plans, and in light of recent amendments to the Stock Purchase Plan that reduced the maximum number of shares that could be purchased by any employee during an option period. While the Board of Directors is cognizant of the potential dilutive effect of the issuance of additional shares under the Stock Purchase Plan, it also recognizes the significant motivational and performance benefits that are achieved from employee ownership of the Company's Common Stock, especially by employees to whom awards are not typically granted under the Company's other compensatory stock plans and who are not highly compensated and therefore might not otherwise have favorable opportunities to accumulate and hold Common Stock.

Required Vote and Recommendation

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

Approval of the proposed amendment to the Stock Purchase Plan requires the affirmative vote of a majority of the votes cast, provided that the total votes cast represent over 50% in interest of all shares entitled to vote. Under the listing standards of the New York Stock Exchange, (1) an abstention will be included in the number of votes cast and therefore will count towards the 50% threshold and have the same legal effect as a vote against the proposal, and (2) a broker non-vote will not be included in the number of votes cast, and therefore will not count towards the 50% threshold but will have no effect on the outcome of the vote if there are otherwise a sufficient number of shares voting. Unless otherwise instructed on the Proxy or unless authority to vote is withheld, the enclosed Proxy will be voted for the approval of the proposed amendment to the Stock Purchase Plan.

The Board of Directors recommends that the stockholders vote FOR the approval of the proposed amendment to the Stock Purchase Plan. Because the proposed amendment to the Stock Purchase Plan will increase the number of shares of Common Stock that may be issued to all executive officers of the Company, each of the executive officers of the Company has an interest in, and may benefit from, the adoption of the proposed amendment to the Stock Purchase Plan as it relates to such increase.

PROPOSAL THREE RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

On March 7, 2005, the Audit Committee of the Board of Directors selected Ernst & Young LLP (Ernst & Young) as the Company s independent registered public accounting firm for the year ending December 31, 2005. The Company expects that representatives of Ernst & Young will be present at the Annual Meeting to respond to appropriate questions and will have an opportunity to make a statement if they desire to do so.

The Audit Committee has the responsibility for selecting the Company s independent registered public accounting firm, and stockholder ratification is not required. However, the selection is being submitted for ratification at the Annual Meeting with a view towards soliciting the opinion of the stockholders, which the Audit Committee will take into consideration in future deliberations. If the selection of Ernst & Young as the Company s independent registered public accounting firm is not ratified at the Annual Meeting, the Audit Committee of the Board of Directors will consider the engagement of another independent registered public accounting firm, but will not be obligated to do so. The Audit Committee may terminate the engagement of Ernst & Young as the Company s independent

registered public accounting firm without the approval of the Company's stockholders whenever the Audit Committee deems termination necessary or appropriate.

Required Vote and Recommendation

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

Ratification of Ernst & Young as the Company's independent registered public accounting firm for the year ending December 31, 2005, requires the affirmative vote of a majority of the shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting. Accordingly, an abstention will be included in the number of shares voting and therefore will have the same legal effect as a vote against the proposal, and a broker non-vote will not be included in the number of shares voting and therefore will have no effect on the outcome of the vote. Unless otherwise instructed on the Proxy or unless authority to vote is withheld, the enclosed Proxy will be voted for the ratification of Ernst & Young as the Company's independent registered public accounting firm for the year ending December 31, 2005.

The Board of Directors recommends that stockholders vote FOR the ratification of the selection of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ending December 31, 2005.

(1) Based on a value per share of Common Stock equal to **\$18.11**, the price per share of Common Stock for the last trade reported by the New York Stock Exchange on December 31, 2004.

Long-Term Incentive Plan

The Company's Long-Term Incentive Plan offers certain employees and directors of the Company an ownership interest in the Company through awards that include incentive stock options qualified as such under U.S. federal income tax laws, stock options that do not qualify as incentive stock options, stock appreciation rights, restricted stock awards, and performance units. The maximum aggregate number of shares of Common Stock that may be subject to awards under the Long-Term Incentive Plan is 8,634,878. Through March 31, 2005, the Company had issued 2,181,138 shares of restricted stock (net of forfeitures) under the Long-Term Incentive Plan, 596,330 of which had become unrestricted, and 1,584,808 of which were still restricted. As of March 31, 2005, there were outstanding options to acquire an aggregate of 5,020,578 shares of Common Stock under the Long-Term Incentive Plan. The exercise prices for such stock options range from \$9.74 to \$36.00. As of March 31, 2005, the Company had outstanding performance units representing the right to receive, at the election of the grantee, an aggregate of up to 28,065 shares of the Company's common stock or cash in an amount equal to the fair market value of such shares of common stock on the distribution date or dates. At March 31, 2005, the Company had previously issued 278,785 shares of Common Stock upon the exercise of non-qualified stock options under the Long-Term Incentive Plan. Accounting for such previous exercises and the outstanding awards described in this paragraph, at March 31, 2005, the maximum number of shares that may be subject to future awards under the Long-Term Incentive Plan is 1,126,312. If any currently outstanding awards are forfeited in the future, the shares underlying such forfeited awards will become eligible for reissuance under the Long-Term Incentive Plan.

Upon a change in control of the Company, if approved by the Compensation Committee of the Board of Directors, (a) all outstanding stock options and stock appreciation rights will immediately vest and become exercisable by the holder, (b) the restriction period on all awards of restricted stock will immediately be accelerated and the restrictions will expire, (c) the target payout opportunity attainable under all performance units will be deemed to be fully earned for all performance periods and the holder will be paid (in cash within 30 days after the change in control for cash-based performance units and in stock upon the change in control for stock-based performance units) a pro rata portion of all associated targeted payout opportunities based on the number of complete and partial calendar months elapsed as of the date of the change in control. In the event that a change in control involves a merger or consolidation in which the Company is not the surviving entity or in which all of the outstanding shares of capital stock of the Company are exchanged for shares of capital stock in another entity, or in the event a change in

control involves a sale of substantially all of the assets of the Company, and in connection with the change in control securities, cash or property are issuable or deliverable in exchange for capital stock of the Company, then the holders of awards granted under the Long-Term Incentive Plan will be entitled to receive (in a form appropriate for each particular form of award) the amount of securities, cash or property to which they would be entitled as if their particular award were in the form of capital stock of the Company. In addition, under employment agreements with Messrs. Sulentic, Concannon, Groch, McClain, Stirek, Roth, Lafitte, Khourie and Paddison, the Company has agreed that all awards held by these executive officers will automatically vest in full upon the occurrence of a change in control.

Assumed Option Plan

In connection with the formation of the Company in 1997 as the successor to Trammell Crow Company, a Texas close corporation (the Predecessor Company), the Company agreed to assume the Trammell Crow Company 1997 Stock Option Plan (the Assumed Option Plan), which had been adopted by the Predecessor Company. On August 1, 1997, the Predecessor Company granted to certain of its employees nonqualified stock options to acquire an aggregate of 1,626 shares of its common stock, which constitutes all shares authorized under the Assumed Option Plan. In connection with the formation of the Company, the Company assumed the Predecessor Company's obligations with respect to all such options, and the Company became obligated to issue up to an aggregate of 2,423,769 shares of Common Stock at a purchase price of \$3.85 per share upon the exercise of such options. All of such options vested upon the closing of the Company's initial public offering in November 1997 and became exercisable 30 days thereafter. The options expire on August 1, 2007, and are not contingent on continued employment with the Company. As of March 31, 2005, 1,668,923 shares of Common Stock had been issued upon the exercise of options pursuant to the Assumed Option Plan and 713,106 shares were the subject of outstanding awards under the Assumed Option Plan. No additional options will be granted under the Assumed Option Plan.

Purchases of stock under the Stock Purchase Plan are intended to qualify under the provisions of Sections 421 and 423 of the Internal Revenue Code of 1986 (as amended, the Code). A summary description of the Stock Purchase Plan, as proposed to be modified by the amendment described in this Proxy Statement, is set forth in [Appendix A](#). All regular full-time or part-time employees of the Company or any of its parent or subsidiary corporations (other than certain international employees) who are customarily employed at least 20 hours per week and at least 5 months per year are eligible to participate in the Stock Purchase Plan in an amount up to 10% of their annual compensation not to exceed 250 shares of common stock in any option period (which occur twice in each calendar year) or \$25,000 worth of common stock in any calendar year, subject to other limitations imposed by Section 423(b) of the Code. Additionally, no employee may purchase stock pursuant to the Stock Purchase Plan if after the purchase the employee would own 5% or more of the voting power or value of all classes of stock of the Company or its subsidiaries. The purchase price per share at which shares of Common Stock are sold under the Stock Purchase Plan is an amount equal to 85% of the fair market value of Common Stock on the date of exercise. Employees may not sell stock purchased through the Stock Purchase Plan for a period of twelve months from the date of purchase. At March 31, 2005, approximately 6,188 employees of the Company and its subsidiaries were eligible to participate in the Stock Purchase Plan. A total of 2,000,000 shares of Common Stock are reserved for issuance and may be subject to outstanding awards under the Stock Purchase Plan. Through March 31, 2005, 1,070 eligible employees of the Company and its subsidiaries had elected to participate in the Stock

Purchase Plan. Through March 31, 2005, participants had purchased an aggregate of 1,987,463 shares of Common Stock under the Stock Purchase Plan at a weighted average purchase price of \$11.31 per share, and 12,537 shares were available for future awards under the Stock Purchase Plan.

401(k) Plan

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Company sponsors a retirement plan called the Trammell Crow Company Retirement Savings Plan (the 401(k) Plan). As of December 31, 2004, the total assets held by the 401(k) Plan were valued at approximately \$194,000,000. Prudential Bank and Trust FSB is the trustee for the assets held under the Company's 401(k) Plan (other than certain life insurance policies held under a trust for which Robert A. James and Derek R. McClain are the trustees). Employees (including members of management) are eligible to make voluntary contributions under the 401(k) Plan which in some instances may range up to 100% of their annual compensation, subject to the applicable limitations in the Code. The Company is permitted to make a discretionary contribution to the 401(k) Plan each fiscal quarter which is allocated among participants as a matching contribution based on their contributions under the 401(k) Plan. The Company's current policy is to match up to the lesser of (i) 50% of all contributions up to 6% of an employee's compensation and (ii) \$7,000 per year. The 401(k) Plan permits employees to direct investments of their accounts in Common Stock and among a selection of mutual funds. At December 31, 2004, approximately 1.9% of the 401(k) Plan assets consisted of Common Stock. The 401(k) Plan is intended to qualify as a profit sharing plan under Sections 401(a) and 401(k) of the Code.

Upon a change in control, all awards held by Mr. Sulentic pursuant to our equity incentive plans will automatically vest and become exercisable. The employment agreement provides that Mr. Sulentic may not compete with us or solicit our employees, or interfere with certain of our business relationships, during his employment with us and for 15 months after termination in the event the termination is by us for cause, by Mr. Sulentic without good reason, or due to a non-renewal election by Mr. Sulentic within two years after a change in control.

T. Christopher Roth. Mr. Roth's employment agreement became effective April 6, 2004, with an initial term ending on December 31, 2006, and automatically renews for additional one-year terms each December 31 unless either we or Mr. Roth provides a notice of termination. Mr. Roth is eligible to receive annual bonus payments as the Board of Directors or the Compensation Committee of the Board of Directors may specify in its sole discretion, and is entitled to participate in our compensation, retirement, health and welfare benefit plans applicable to our executive officers. Mr. Roth is entitled to certain termination payments in the event that, prior to a change in control, he is terminated by us without cause or he terminates his employment with good reason. If we experience a change in control and Mr. Roth's employment is terminated on or within two years thereafter by us without cause, by Mr. Roth for good reason or upon our election not to renew Mr. Roth's employment, Mr. Roth is entitled to receive the following compensation in addition to awarded but unpaid bonuses and accrued base salary, benefits and investment plan participation amounts: (i) cash payments in the amounts of two and one-half times (a) Mr. Roth's highest annual base salary for the preceding 12 months, and (b) one-half of Mr. Roth's mean annual bonus for the preceding three years plus one-half of Mr. Roth's current annual bonus target; (ii) cash payments in the amounts of (a) the unvested portion of any matching contribution account under our 401(k) Plan, and (b) two and one-half times our matching contribution under our 401(k) Plan for the calendar year prior to the year in which the termination occurs; (iii) continuing coverage under our health plan for two and one-half years, with the active employee cost to be paid by Mr. Roth; (iv) a pro rated bonus payment based on the average percentage of annual cash incentive bonuses paid to our other senior executives, payable when such incentive bonuses are paid to other senior executives; (v) expenses for enrollment in an outplacement program for up to 12 months; and (vi) continued vesting of all awards granted after a change in control under our Long Term Incentive Plan for a period of 18 months. Upon a change in control, all awards held by Mr. Roth pursuant to our equity incentive plans will automatically vest and become exercisable.

The employment agreement provides that Mr. Roth may not compete with us or solicit our employees, or interfere with certain of our business relationships, during his employment with us and for 12 months after termination in the event the termination is by us for cause, by Mr. Roth without good reason, or due to a non-renewal election by Mr. Roth within two years after a change in control.

John A. Stirek. Mr. Stirek's employment agreement became effective March 2, 2004, with an initial term ending on December 31, 2006, and has terms substantially similar to the employment agreement between us and Mr. Roth described above.

AUDIT COMMITTEE REPORT

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Audit Committee of the Board of Directors is currently composed of James R. Erwin, Jeffrey M. Heller and Michael A. Moses. As set forth in the Audit Committee Charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The Registered Independent Public Accounting Firm is responsible for auditing the Company's financial statements in accordance with auditing standards of the Public Company Accounting Oversight Board

(United States) and expressing an opinion as to their conformity with United States generally accepted accounting principles. In the performance of its oversight function, the Audit Committee has reviewed and discussed with the Company's management and the Company's Registered Independent Public Accounting Firm the Company's audited financial statements for the year ended December 31, 2004. The Audit Committee has also discussed with the Company's Registered Independent Public Accounting Firm the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees) as currently in effect. In addition, the Audit Committee has received the written disclosures and the letter from the Company's Registered Independent Public Accounting Firm required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) as currently in effect. The Audit Committee has also considered whether the Registered Independent Public Accounting Firm's provision of non-audit services to the Company is compatible with maintaining their independence and discussed with them their independence from the Company and its management.

Although the members of the Audit Committee meet the applicable membership requirements of the New York Stock Exchange, they are not professionally engaged in the practice of accounting or auditing. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the Registered Independent Public Accounting Firm. Accordingly, the Audit Committee's oversight does not provide an independent basis by which to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with auditing standards of the Public Company Accounting Oversight Board (United States), that the financial statements are presented in accordance with United States generally accepted accounting principles or that the Company's Registered Independent Public Accounting Firm is in fact independent.

Based upon the reports and the Audit Committee's discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Audit Committee Charter, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

During 2004, the Audit Committee pre-approved all of the services described above. AUDIT COMMITTEE POLICIES AND PROCEDURES FOR PRE-APPROVAL OF AUDIT AND NON-AUDIT SERVICES

The Audit Committee is responsible for pre-approving audit and non-audit services performed by the independent auditor in order to assure that the provision of those services does not impair the auditor's independence. Unless a service to be provided by the independent auditor has been pre-approved by the Audit Committee under an annual pre-approval policy framework adopted by the Audit Committee, it will require specific pre-approval of the engagement terms by the Audit Committee. The Audit Committee's pre-approval policy contemplates that each year the Audit Committee will designate detailed categories of recurring or foreseeable specified audit services, audit-related services, tax services and other services that may be performed without further specific engagement pre-approval. The Audit Committee may delegate pre-approval authority to one or more of its members, including to a subcommittee of the Audit Committee. As contemplated by these procedures, the Audit Committee has adopted a pre-approval policy framework listing specified audit and non-audit services and determining that the types of non-audit services proposed to be performed by the independent auditor will not affect its independence.

The Audit Committee receives regular reports informing it of the status of each service being performed pursuant to its pre-approval policy. The Audit Committee may adjust, supplement or revise its policy for pre-approval of services as it deems necessary or appropriate. Pre-approval requirements extend not only to audit and non-audit services performed for the Company, but also to those performed for the Company's subsidiaries.

**COMPENSATION COMMITTEE REPORT
ON EXECUTIVE COMPENSATION**

Role of the Compensation Committee

The Compensation Committee of the Board of Directors (the Committee) is comprised of Mr. Feeny (the Committee Chairman), Mr. Erwin and Dr. Moriarty. Each of Mr. Feeny, Mr. Erwin and Dr. Moriarty is a non-employee director of the Company and has been found by the Board of Directors to be independent.

The Committee serves the purposes and carries out the duties established for it in the Compensation Committee Charter adopted by the Board of Directors. These purposes and duties include approving the compensation for the non-employee members of the Board of Directors and the annual salaries, bonuses and long-term incentive awards for the Company's executive officers, including the Chief Executive Officer. The Committee also administers the Long-Term Incentive Plan and, subject to the provisions of such plan, determines grants under such plan for all consultants, directors and employees, including executive officers. It has been the Committee's regular practice to engage an outside compensation consultant to advise it with respect to a variety of matters considered by the Committee. Certain matters considered by the Committee are resolved subject to review and approval by the full Board of Directors.

The Committee held five meetings during the Company's fiscal year ended December 31, 2004. At those meetings the Committee (i) reviewed the Company's compensation practices for directors and employees, (ii) established compensation levels for the Company's senior executives, (iii) granted performance unit awards and restricted stock to non-employee directors, certain senior executives and other key employees of the Company and its subsidiaries, (iv) considered and approved the terms of employment agreements for certain of the Company's senior executives, (v) reviewed the performance of the Company's senior executives in light of their established individual performance criteria, (vi) evaluated and updated the Committee's charter and regular business work plan, (vii) evaluated the Committee's performance and its work processes, (viii) considered other matters related to the role that compensation and related topics play in pursuing the strategic objectives established by the Board of Directors, and (ix) conducted regular sessions without management present.

Principles of Executive Compensation

The Company's executive compensation philosophy is designed to (a) establish competitive levels of compensation driven by individual performance criteria that support the Company's annual and long-term performance goals, (b) reward above-average performance, (c) recognize individual initiative and achievement, (d) assist the Company in attracting and retaining talented executives, and (e) align the interests of executives with the long-term interests of the Company's stockholders. The Company believes that furtherance of these objectives is best accomplished by providing senior executives with compensation packages that consist of a combination of base salary, annual incentive bonus and grants of equity awards under the Company's Long-Term Incentive Plan. The Company's base salary component is designed to be comparable to median base salaries paid by other real estate companies, other service companies comparable in size to the Company and other organizations with whom the Company competes for the services of the professionals that execute the Company's business. The Company emphasizes performance-related incentive compensation (such as cash bonuses and equity grants) to reward executives for favorable individual performance, favorable Company performance (including financial performance) and the creation of stockholder value. This balance is intended to reflect each executive's position, experience and ability to affect the Company's performance, and to provide the executive with strong financial incentives to achieve key business and individual performance objectives.

The Committee takes into account various quantitative indicators of corporate and individual performance in determining the level of compensation for each senior executive (such as growth in earnings and the achievement of personal or business unit objectives). These quantitative measures may vary from employee to employee and from year to year depending on the strategic objectives the Company wishes to emphasize at the time the measures are established. For instance, while Company earnings are generally a primary driver of executive compensation, the Committee may establish performance objectives that focus on other quantitative criteria intended to assure that the Company is positioned to grow and perform in the longer run, although the costs of pursuing these objectives may have a negative impact on the Company's short term financial performance. The Committee also recognizes the importance of individual achievements that may be difficult to quantify, and accordingly recognizes qualitative factors, such as demonstrated leadership and overall contributions to the Company.

From time to time the Company determines competitive levels of compensation for executive positions based on information drawn from compensation surveys, proxy statements for comparable organizations and other information provided by the Committee's compensation consultants. The compensation surveys, proxy statements and other information used are for other real estate companies, other service companies comparable in size to the Company and other organizations with whom the Company competes for the services of the professionals that execute the Company's business.

It should be noted that the value of any individual executive's compensation package will vary significantly based on performance. While the expected value of an executive's compensation package may be competitive, actual payments made to executives in a given year may be higher or lower than competitive market rates because of performance.

Description of the Executive Compensation Program

The compensation of executive officers is periodically reviewed to ensure an appropriate mix of base salary, annual incentive and long-term incentive to provide competitive total direct compensation opportunities consistent with the pay philosophy articulated above. A description of each of the principal elements of the Company's 2004 executive compensation program follows.

Base Salary

The Company believes that it is crucial to provide competitive salaries in order to attract and retain talented executive officers. The objective of the Company's base salary program is to provide executive officers with salaries that are comparable to the market median. Given that the Company competes with other organizations that have different management structures and different business mixes, establishing the appropriate market median is a complex and inherently imprecise undertaking. Base salaries for individual executives are set at levels considered appropriate in light of their position, level of responsibility within the Company, tenure and performance. Base salaries are reviewed annually by the Committee and are subject to adjustment based on evaluations of an executive's past and expected future contributions to the Company, changes in competitive pay levels and profitability of the Company.

Annual Cash Bonus

The Company's annual cash bonus program assists the Company in rewarding and motivating key employees. Cash bonus awards for the Company's senior executives are targeted at levels which, when combined with the executive's base salary, provide the executive with annual

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

cash compensation that is consistent with market rates. The Company's Chief Executive Officer was assigned a 2004 bonus target of 200% of his annual salary. As a percentage of salary, 2004 bonus targets for other senior executives ranged from 125% to 175%. While these amounts are established as bonus targets, the Committee has discretion to award senior executives bonus amounts that are less than or in excess of the

bonus targets, depending on an assessment of the executive's performance and the overall performance and profitability of the Company.

With respect to each fiscal year, each senior executive is assigned performance objectives that are consistent with the Company's strategic objectives established by the Board of Directors. These objectives may relate to the executive's personal performance or performance of the executive's business unit or the Company as a whole. Following the end of the fiscal year, the executive's actual performance is measured against the performance objectives established for that year. Under the Company's current annual cash bonus program, the aggregate amount available for bonus payments to all senior executives is determined by the level of the Company's pre-tax earnings. The amount paid to each individual executive depends upon the extent to which his or her performance objectives are achieved for the relevant performance period, and how that executive's performance compares to the performance of his or her peers at the Company.

The Committee reviews the specific objectives and standards under the Company's cash bonus program annually in order to ensure consistency with the Company's business strategy.

Equity Incentive Compensation

The Company believes that certain of its senior executives should have an ongoing stake in the long-term success of the Company's business. The Company also believes that these senior executives should have a sizeable portion of their total potential compensation based upon the value of the Company's stock, since stock-related compensation aligns the executive's economic interests with that of the Company's stockholders. The Committee periodically reviews the Company's practices with respect to equity-based compensation, and has revised those practices from time to time as it deems appropriate to aid the Company in the pursuit of its strategic objectives.

The Long-Term Incentive Plan authorizes the granting of incentive and nonqualified stock options, stock appreciation rights and restricted stock awards to directors, executives and other key employees and consultants of the Company and its subsidiaries. To align the interests of senior officers with the interests of stockholders, the Committee's policy regarding such awards from and after 2003 has been to make restricted stock grants. Under this program, the Committee determines the number of shares of restricted stock to be granted to each of its executives based upon such executive's position, ability to affect Company performance, tenure and the achievement of performance objectives established for the executive and/or the executive's business unit. The Committee also considers the extent to which the executive has received equity grants in the recent past. To encourage retention, shares granted to executives under this plan are subject to vesting restrictions.

In 2004, the Committee awarded a total of 570,000 shares of restricted stock to senior officers as part of its annual incentive plan. Mr. Sulentic received a grant of 150,000 shares. All such shares vest over a period of five years, with 40% vesting on the second anniversary of the date of grant and 20% vesting on each of the third, fourth and fifth anniversaries of the date of grant.

The Committee will review annually the size and form of equity incentives for senior executives to ensure that its equity incentive compensation program is consistent with the Company's business strategy and prevailing market conditions.

Chief Executive Officer Pay

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Committee reviews the compensation of the Chief Executive Officer, who is responsible for the strategic and financial performance of the Company, and the Committee's recommendation with respect to the Chief Executive Officer's compensation is subject to approval by the Board of Directors. Based on information available to the Committee, the Committee believes that the base salary and other

compensation paid to Mr. Sulentic for his service as the Company's Chief Executive Officer in 2004 was reasonable and consistent with compensation being paid to other chief executive officers of comparable companies. As noted before, Mr. Sulentic was assigned a 2004 bonus target of \$800,000 (200% of his 2004 annual salary). Given the level of the Company's 2004 earnings, the aggregate amount available for bonus payments to all senior executives, including the Chief Executive Officer, was sufficient to generally allow payment of bonuses that exceeded full bonus targets if performance warranted it. After considering Mr. Sulentic's performance in 2004, which the Board of Directors assessed to be very favorable, the Committee awarded Mr. Sulentic a cash bonus of **\$960,000**. In establishing this bonus amount, the Committee did not apply a strictly quantitative analysis against a set of quantitative objectives. Rather, the Committee considered a variety of quantitative and qualitative factors to measure Mr. Sulentic's performance as the Company's Chief Executive Officer. The objective matters considered by the Committee included (i) the Company's 2004 earnings and share price performance, (ii) the Company's continued success on customer service and customer satisfaction initiatives, (iii) the growth and retention of the Company's professional ranks in a manner that supports the Company's strategic objectives, (iv) progress on the establishment of certain investment funds sponsored by the Company, (v) the Company's growth in certain identified markets, and (vi) the Company's continued progress on other operational and strategic initiatives throughout 2004. The qualitative matters considered by the Committee included the example Mr. Sulentic provides to his leadership team and the rest of the Company's employees, as well as his business ethics and integrity.

\$1 Million Pay Deductibility Cap

Section 162(m) of the Code generally imposes a \$1 million per person annual limit on the amount the Company may deduct as compensation expense for its Chief Executive Officer and its four other highest paid officers. To the extent readily determinable, and as one of the factors in considering compensation matters, the Committee considers the anticipated tax treatment to the Company and to its executives of various payments and benefits. Some types of compensation payments and their deductibility (e.g., the spread on exercise of non-qualified options) depend upon the timing of an executive's vesting or exercise of previously granted rights. Further, interpretations of and changes in the tax laws and other factors beyond the Committee's control also affect the deductibility of compensation. For these and other reasons, the Committee will not necessarily limit executive compensation to that deductible under Section 162(m) of the Code. Therefore the Committee, subject to the factors provided above, has the discretion to grant awards which result in non-deductible compensation.

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

Beginning in February 2001, the Company and certain independent investors collectively invested in Trammell Crow Investment Fund IV, L.P. (Fund IV), which invested in various real estate projects and investments owned, developed and/or managed by entities affiliated with the Company. Also in 2001, Mr. Stirek's father purchased for \$1,600,000 a 44% ownership interest in TC Meridian Tower L.P. (TC Meridian), a real estate project in Tulsa, Oklahoma, in which Fund IV has invested. Mr. Stirek's father subsequently contributed his interest in TC Meridian to LTJ Tulsa LLC (LTJ Tulsa), an entity in which Mr. Stirek and his two sisters own equal one-third ownership interests. Through December 31, 2004, Fund IV had contributed a total of \$1,996,400 to TC Meridian Tower and Mr. Stirek's father and LTJ Tulsa had contributed a total of \$1,600,000. Through December 31, 2004, Fund IV and LTJ Tulsa had received distributions from TC Meridian Tower of \$707,064 and \$566,661, respectively. In 2004, Fund IV and LTJ Tulsa made no contributions and received distributions of \$83,184 and \$66,666, respectively.

During January 2004, the Company, certain independent investors and certain senior employees of the Company formed Trammell Crow Investment Fund V, L.P. (Fund V), which was established to invest in various real estate projects and investments owned, developed and/or managed by entities affiliated with the Company. Fund V investors have made capital commitments of \$50,175,000 in the aggregate, of which \$10,000,000 was committed by the Company, \$1,925,000 was committed by the senior employees and \$38,250,000 was committed by other investors.

At the time Fund V was established, the Board of Directors and its Audit Committee considered the benefits and risks of allowing senior employees to invest in the fund. The benefits include the following: (i) it serves as an alternative to the Company's employees who wish to invest in real estate but are otherwise constrained from doing so by the Company's policies regarding commercial real estate ownership and conflicts of interest, (ii) it aids the Company in recruiting and retaining quality senior employees, especially development and investment personnel, (iii) the fund's third party investors favor employee investment and Company investment because it creates alignment between the Company, the employees and the outside investors, and (iv) employee investment would serve as a tangible connection between the Company's Global Services and Development and Investment personnel that invest in the fund. The Board of Directors and its Audit Committee considered the following matters in determining how the potential conflict of interest issues between investing employees and the Company might be managed:

Fund V was established as a blind pool investment fund, with each limited partner required to invest their pro rata share of any investment the general partner chooses for the fund. Therefore, the employee investors would not be able to pick and choose the projects they wanted to invest in, and therefore could not concentrate their investments in transactions they believed they could influence.

The Company's executive officers at the time the fund was formed and members of the Company's capital markets group would not be allowed to invest in Fund V because these individuals may be in a position to influence investment decisions by the fund. Therefore, none of the Named Executive Officers are investors in Fund V. However, Ms. Paddison and Mr. Khourie became investors in Fund V prior to being named executive officers by the Board of Directors. They will maintain their interests in Fund V and will continue to be subject to their respective \$50,000 investment commitments.

Given that each individual's investment could be no more than \$250,000, any individual's expected investment return would be greatly exceeded by the expected levels of

compensation for those individuals, and would not be material compared to the overall size of the fund.

After careful deliberation, the Board of Directors and its Audit Committee determined that permitting investment in Fund V by certain senior employees was in the Company's best interest.

The management, accounting and other day-to-day operational functions of Fund V are performed by the Company or one of its subsidiaries. Fund V reimburses the Company for a portion of the management services so provided. Fund V reimburses the Company for all other direct and indirect costs of operating Fund V. Subsidiaries of Fund V may enter into agreements with the Company or its affiliates for the performance of development and/or asset management services for Fund V and its real estate projects and investments, or property management and leasing functions for Fund V's real estate projects and investments. Through December 31, 2004, the Company had made total contributions to Fund V of \$4,119,095, Ms. Paddison had made total contributions to Fund V of \$20,595, Mr. Khourie had made total contributions to Fund V of \$20,595, and none had received any distributions.

SUMMARY DESCRIPTION OF THE EMPLOYEE STOCK PURCHASE PLAN

General

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Stock Purchase Plan was adopted by the Company's Board of Directors on December 27, 1997, was approved by the stockholders of the Company on May 21, 1998 and became effective as of March 1, 1998.

The purpose of the Stock Purchase Plan is to provide eligible employees of the Company, and of certain foreign subsidiaries of the Company as determined by the Company's Board of Directors or a duly authorized agent thereof, with an opportunity to purchase stock of the Company at a favorable price through payroll deductions. The Company's Board of Directors may, in its discretion, terminate the Stock Purchase Plan at any time with respect to any shares for which options have not theretofore been granted, and the Stock Purchase Plan will terminate and no further options will be granted after such time. The Stock Purchase Plan, and the right of participants to make purchases thereunder, is intended to qualify under the provisions of Section 423 of the Internal Revenue Code of 1986, as amended (the Code).

Administration of the Stock Purchase Plan

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The Stock Purchase Plan is administered by a committee of the Company's officers appointed by the Board of Directors to serve for such terms as are specified by the Board of Directors. The Board of Directors has appointed the Company's Benefits Committee (the Committee) to administer the Stock Purchase Plan. All questions of interpretation of the Stock Purchase Plan will be determined by the Committee, whose decisions will be final and binding upon all participants.

Employees Who May Participate in the Stock Purchase Plan

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

Any employees of the Company who customarily are employed for at least 20 hours per week and at least five (5) months per calendar year will be eligible to participate in the Stock Purchase Plan, subject to certain limitations imposed by Section 423(b) of the Code (Eligible Employees). At March 31, 2005, approximately 6,188 employees of the Company and its subsidiaries were eligible to participate in the Stock Purchase Plan. If a participant takes an unpaid leave of absence, then such participant may not make additional contributions under the Stock Purchase Plan while on unpaid leave of absence, and the participant's payroll deductions for the applicable option period shall remain subject to the Stock Purchase Plan and used to exercise options on the next following date of exercise. Eligible Employees may become participants in the Stock Purchase Plan by delivering to the Company an agreement authorizing payroll deductions before the applicable offering date.

A participant may withdraw from the Stock Purchase Plan in whole, but not in part, by signing and delivering to the Company a notice of withdrawal from the Stock Purchase Plan. A participant may elect to withdraw from the Stock Purchase Plan at any time prior to thirty (30) days before the exercise date relating to a particular option period. A participant who withdraws from the Stock Purchase Plan shall not be eligible to participate in the Stock Purchase Plan during the then current option period, but shall be eligible to participate again in the Stock Purchase Plan in a subsequent option period (provided that the participant is otherwise eligible to participate in the Stock Purchase Plan at the time and complies with the enrollment procedures). If a participant's employment terminates within the last two weeks of an option period, the participant's participation in the Stock Purchase Plan will not automatically terminate. Rather, such participant shall be deemed to have exercised his options at the end of the offering period, unless the participant elects to withdraw in whole from the Stock Purchase Plan, in which case participation will terminate automatically as of the date of termination, the Company shall refund to

participant the cash balance of the participant's account under the Stock Purchase Plan and the participant's unexercised options under the Stock Purchase Plan will terminate.

Offering Dates

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

Except as otherwise determined by the Committee, the Stock Purchase Plan will be implemented by two (2) six-month offerings during each calendar year. Offerings under the Stock Purchase Plan will commence on the first day of January and July of each year. The term of each offering shall be for a period of six (6) months, ending on June 30 or December 31, as the case may be. Each such six (6)-month period is referred to in this summary as an option period.

Securities to be Offered

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The total number of shares of Common Stock which may be sold pursuant to options granted under the Stock Purchase Plan is 3,000,000 shares; provided, however, that the grant of 1,000,000 of such shares is subject to approval by the stockholders of the Company at the Annual Meeting. The Common Stock sold pursuant to the Stock Purchase Plan may be shares originally issued by the Company, shares held by the Company in treasury, shares which have been reacquired by the Company or shares which have been bought on the market for the purposes of the Stock Purchase Plan. There are no fees, commissions or other charges applicable to a purchase of Common Stock under the Stock Purchase Plan.

The maximum number of shares placed under option to a participant under the Stock Purchase Plan in any option period, except as described below, will be the lesser of (1) two hundred fifty (250) or (2) that number of whole and fractional shares determined by dividing the amount of the participant's total payroll deductions during the offering period by the purchase price per share under the Stock Purchase Plan. If the number of shares remaining for issuance pursuant to the Stock Purchase Plan, for any offering period, is less than the total number of shares that could otherwise be purchased during such offering period if not restricted by the Stock Purchase Plan's overall share limitation, the number of shares that each participant may purchase at the end of the applicable option period will be reduced proportionately as necessary to abide by the Stock Purchase Plan's overall share limitation.

Unless a participant withdraws from the Stock Purchase Plan, the participant's option for the purchase of shares will be exercised automatically at the end of each option period for the applicable number of whole and fractional shares at the applicable price. The Company will keep accurate records of the beneficial interest of each participant, and each participant will be provided with periodic statements reflecting his account under the Stock Purchase Plan. At the end of the holding period described below, a participant may request the Company to deliver to such participant a certificate issued in his name representing all or a part of the aggregate whole number of shares of stock then held by the Company on his behalf under the Stock Purchase Plan.

Notwithstanding the foregoing, no employee of the Company will be permitted to subscribe for shares of Common Stock under the Stock Purchase Plan if, immediately after the grant of the option, the employee would own five percent or more of the voting power or value of all classes of stock of the Company or its subsidiaries (including stock which may be purchased under the Stock Purchase Plan or pursuant to any other options), nor will any employee be granted an option which would permit the employee to buy pursuant to the Stock Purchase Plan and under all other employee stock purchase plans of the Company more than \$25,000 worth of stock (determined at the fair market value of the shares at the time the option is granted) in any calendar year.

Purchase of Securities

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

The purchase price per share at which Common Stock will be sold under the Stock Purchase Plan will be 85% of the fair market value of the Common Stock on the last day of each option period. The fair

A-2

market value of the Common Stock on a given date will be the closing sales price of the Common Stock on The New York Stock Exchange, Inc. on that date.

The purchase price of the shares of Common Stock to be purchased under the Stock Purchase Plan will be accumulated by payroll deductions during each option period. Payroll deductions will commence on the first payday on or following the first day of the option period and continue at the same rate until terminated as provided in the Stock Purchase Plan. The deductions during any payroll period may not be in an amount less than \$20 and may not exceed ten percent (10%) of a participant's eligible compensation, which is defined in the Stock Purchase Plan to include all wages, salaries, commissions, overtime and bonuses received during the option period (including employee contributions to a flexible benefits plan and a 401(k) plan). An employee may withdraw from the Stock Purchase Plan at any time prior to thirty (30) days before the last day of the applicable option period, but may not otherwise increase or decrease the rate of payroll deductions at any time during the option period. Upon a withdrawal, the Company will refund to the participant the accumulated payroll deductions credited to the participant's account, and the participant's payroll deductions and interest in unexercised options under the Stock Purchase Plan will terminate.

Other Provisions

Edgar Filing: TRAMMELL CROW CO - Form DEF 14A

Merger or Recapitalization. If any change is made in the Company's capitalization by reason of a stock dividend or by reason of subdivision, stock split, reverse stock split, recapitalization, reorganization, combinations, reclassification of shares or other similar change, the Committee will take appropriate action to adjust accordingly the number of shares subject to the Stock Purchase Plan, the maximum number of shares that may be subject to any option and the number and option price of shares subject to options outstanding under the Stock Purchase Plan.

Change in Control. Upon the occurrence a Change in Control (as defined in the Stock Purchase Plan), unless a surviving corporation assumes or substitutes new options (within the meaning of Section 424(a) of the Code) for all options then outstanding or the Committee elects to continue the options then outstanding without change, the date of exercise for all options then outstanding shall be accelerated to a date fixed by the Committee prior to the effective date of such Change in Control.

Assignment. An option granted to a participant under the Stock Purchase Plan is not transferable other than by will or the laws of descent and distribution, and any participant's attempt to transfer such option may be treated by the Company as an election to withdraw from the Stock Purchase Plan. Each option shall be exercisable only by the participant to whom granted during such participant's lifetime.

Termination of Employment. If the employment of a participant terminates for any reason whatsoever (including death) such participant's participation in the Stock Purchase Plan automatically and without any act on such participant's part shall terminate as of the date of termination of such employment. The Company shall refund to such participant the amount of the cash balance in such participant's account under the Stock Purchase Plan, and thereupon such participant's interest in unexercised options under the Stock Purchase Plan will terminate. Notwithstanding the preceding provisions of this paragraph, if a participant's employment terminates within the last two weeks of an offering period, the participant's participation in the Stock Purchase Plan shall not automatically terminate; rather, such participant shall be deemed to have exercised options as provided above under Securities to be Offered, unless the participant elects to withdraw from the Stock Purchase Plan, in which case the preceding sentence shall apply.

Holding Period. For a period of 12 months following each date of exercise, a participant may not dispose of, in any manner including assignment or hypothecation, shares of Common Stock acquired on such date of exercise, regardless of whether the participant is issued the applicable share certificates or whether the Company, or its agent, retains the share certificates. Upon the expiration of the applicable

holding period, the participant may dispose of the Common Stock as long as such disposition complies with all applicable securities laws.

Amendment or Termination of the Stock Purchase Plan. The Committee may alter or amend the Stock Purchase Plan or any part thereof from time to time without the approval of the stockholders of the Company; provided that no change in any option theretofore granted may be made which would impair the rights of any participant without the written consent of such participant. In addition, no amendment may be made to the Stock Purchase Plan without prior approval of the stockholders of the Company if such amendment would increase the number of shares of Common Stock that may be issued under the Stock Purchase Plan (other than as a result of certain anti-dilution provisions), change the class of individuals eligible to receive options under the Stock Purchase Plan or cause options issued under the Stock Purchase Plan to fail to meet the requirements for employee stock purchase plans as defined in Section 423 of the Code. The Board of Directors may terminate the Stock Purchase Plan at any time with respect to any shares for which options have not theretofore been granted.

Awards

As of March 31, 2005, 1,070 eligible employees of the Company and its subsidiaries had elected to participate in the Stock Purchase Plan. As of March 31, 2005, such participants had purchased an aggregate of 1,987,463 shares of Common stock under the Stock Purchase Plan at a weighted average purchase price of \$11.31 per share.

Federal Income Tax Consequences

The following discussion is for general information only and is intended to summarize briefly the federal income tax consequences arising from participation in the Stock Purchase Plan. This description is based on current law, which is subject to change (possibly retroactively). The tax treatment of a participant in the Stock Purchase Plan may vary depending on his particular situation and may, therefore, be subject to special rules not discussed below. No attempt has been made to discuss any potential foreign, state or local tax consequences or the effect, if any, of gift, estate or inheritance taxes.

The Stock Purchase Plan, and the right of participants to make purchases thereunder, is intended to qualify under the provisions of sections 421 and 423 of the Code. Under these provisions, no income will be taxable to a participant at the time of grant of the option or purchase of the shares. Upon disposition of the shares, the participant will generally be subject to tax and the amount of the tax will depend upon the participant's holding period. If the shares have been held by the participant for more than two years after the date of the option grant, the lesser of (a) the excess of the fair market value of the shares at the time of such disposition over the purchase price or (b) the excess of the fair market value of the shares at the date of the option grant over the purchase price will be treated as ordinary income, and any further gain or loss will be treated as long-term capital gain or loss. If the shares are disposed of before the expiration of this holding period, the excess of the fair market value of the shares on the purchase date over the purchase price will be treated as ordinary income, and any further gain or loss on such disposition will be long-term or short-term capital gain or loss, depending on the holding period. The Company is not entitled to a deduction for amounts taxed as ordinary income or capital gain to a participant except to the extent of ordinary income reported by participants upon disposition of shares within two years from the date of grant.

The foregoing brief summary of the effect of federal income taxation upon the participants and the Company with respect to the purchase of shares under the Stock Purchase Plan does not purport to be complete, and reference should be made to the applicable provisions of the Code. In addition, this summary does not discuss tax consequences of a participant's death or the provisions of the income tax laws of any municipality,

state or foreign country in which the participant may reside.
