Delivery of Shareholder Documents. The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. The Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Fund or Portfolio voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

The Fund

Performance

Based on net asset value (NAV) per share for the period from inception on February 28, 2005 through October 31, 2005, the Fund had a total return of 1.71%. This return resulted from a decrease in NAV per share from \$19.10 (offering price, less all commissions) on February 28, 2005 to \$18.57 on October 31, 2005, and the reinvestment of \$0.780 in monthly distributions.(1)

Based on share price (traded on the New York Stock Exchange), the Fund had a total return of -11.98% during the period from inception on February 28, 2005 through October 31, 2005. That return was the result of a decrease in share price from \$19.10 (offering price, less all commissions) on February 28, 2005 to \$16.07 on October 31, 2005 and the reinvestment of \$0.780 in monthly distributions.(1)

The Fund s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund s shares, or changes in Fund distributions.

Management Discussion

In pursuing the Fund s objective, the Fund s investments have been allocated primarily to seasoned mortgagebacked securities (MBS), senior secured loans, instruments tied to foreign exchange, and short-term holdings of cash and Treasuries.

During the period, the Federal Reserve raised shortterm interest rates several times. As a result, two-year Treasury yields increased by 80 basis points (0.8 percentage points) and five-year Treasury yields moved up 40 basis

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-CSR

points. These increases detracted from the returns of fixed-rate bonds of similar maturity, since bond prices move in the opposite direction of interest rates. In contrast, the Fund s bank loan holdings generally performed well. The rise in rates caused the interest rates on the Fund s loans, which are reset periodically, to also increase. Due to relatively stable credit conditions and continued tight demand/supply factors, prices for bank loans were relatively stable.

Within the MBS segment, the Fund s investments remained focused on seasoned MBS, which are mortgages that have older origination dates than the average for the overall MBS market. These securities typically have more predictable prepayment rates, which can enable them to produce more stable returns. The Fund s seasoned MBS holdingsgenerally performed well relative to the overall MBS market, but the rise in interest rates still detracted from their absolute returns. Mortgage prepayment rates fell to approximately 25% by October 31, 2005, well below their peak of approximately 50% in December 2003, contributing to positive MBS returns during the period.

In the foreign obligations portion of the Fund, the Euro, Yen, and currencies tied to them declined by roughly 10% relative to the U.S. Dollar. While the U.S. Federal Reserve Board raised short-term interest rates from 2.5% to 3.75%, European and Japanese central banks left their rates unchanged at 2% and 0%, respectively. The Fund held positions in the currencies of several countries in Europe, Asia, and Latin America. These positions often took the form of long and short forward currency contracts, where the short contract would be designed to reduce the exposure to moves in the U.S. Dollar created by the long contract. This hedging strategy successfully protected the Fund from advances in the Dollar, versus reference currencies that otherwise could have hurt the Fund s performance. On a regional basis, Latin America was the stand-out performer due to an increase in global liquidity and high commodity prices. Eastern Europe, on the other hand, experienced a setback on the road to convergence when France rejected the European constitution.

Shares of the Fund are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

The views expressed in this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund.

⁽¹⁾ Share price and net asset value on 2/28/05 are calculated assuming an offering price of \$20.00, less the sales load of \$0.90 per share paid by the shareholder.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return.
