**Management comments**

Commenting on the Q4 2005 performance, **Mr. Narendra K Patni, Chairman and CEO, Patni Computer Systems Ltd.**, said, *Our performance in CY 2005 once again underscores Patni's ability to deliver sustained growth by leveraging the advantages of its unique and highly scalable business model. During the year being reviewed, we successfully integrated the operations of Cymbal, which showed significant growth as Patni's telecom vertical; we consolidated our existing verticals while creating growth opportunities in several emerging areas; we reduced our revenue contribution from both the U.S. region and our largest client GE; we increased our offshore contribution ratio further; and at the same time we continued to invest in our market facing resources and delivery infrastructure.*

*The successful completion of our ADS offering provides further impetus to our organizational initiatives, both in terms of augmenting our capital resources and improving our visibility in the largest market for our services.*

*Moving into CY 2006, we continue to explore and drive further growth opportunities and expect to continue with our strong track record.*

Speaking on the occasion, Mr. Deepak Sogani, Chief Financial Officer, Patni, added: *In CY 2005, we have made significant progress towards our objective of creating sustainable growth opportunities through the delivery of a comprehensive basket of high quality IT services. During the year under review, we have expanded our existing offerings and invested in the right areas to expand the further potential for growth.*

*Patni's operations grew in line with our expectations and the guidance shared with investors. However, we have re-assessed payroll and related taxes in regard to our international operations and some provision for the entire year has been made in Q4 2005.*

*Subsequent to our ADS offering, we now have a much larger cash reserve of US\$ 290 million that will be actively invested in augmenting growth. We now enter the next fiscal year with a much stronger run rate of business and we are confident that we will maintain our growth trend from a growing number of clients, services and geographies and an overall improvement in our business metrics.*

**Corporate developments in CY 2005**

## Management Discussion & Analysis of Performance

### Restatement of accounts - current quarter

For the purposes of accounting for payroll and other related taxes for its international operations, the Company has reassessed the amounts provided in its books. Accordingly, the Company has restated the financial statements for fiscal years 2001, 2002, 2003, 2004 and 2005 with a cumulative charge of approx. US\$ 11.4 million, including a charge of approx. US\$ 1.4 million in CY 2005.

### Revenues

In CY 2005, Patni's revenues were higher by 37.9% at US\$ 450.33 million (Rs. 20,242.42 million) compared to US\$ 326.58 million (Rs. 14,131.19 million) achieved in CY 2004. During the year, revenue growth achieved in the ongoing, established business streams was augmented by a number of distinctive vertical and technology practices. The year also saw Patni drive significant growth from several new regions and clients, leading to a reduction in business concentration. Overall, the growth in Patni's business was driven by higher delivery volumes, some shift towards offshore contribution and marginally higher realized rates.

Patni's Q4 2005 revenues were higher by 4.8% sequentially to US\$ 123.90 million (Rs. 5,569.37 million) from US\$ 118.28 million (Rs. 5,197.09 million) in the preceding quarter. Growth achieved this quarter was in line with both the management's expectations. Key highlights for the quarter were continued offshore growth; reduction in client concentration; and robust performance delivered by the telecom and product engineering practices.

Q4 2005 revenues improved by 33.6% compared to the corresponding quarter last year.

### Cost of revenues

In CY 2005, Patni's cost of revenues increased to US\$ 278.07 million (Rs. 12,499.15 million), up 43.8% from US\$ 193.44 million (Rs. 8,370.08 million) last year. During the year, Patni expanded the number of its client-facing strategic business units; enhanced its vertical focus; commissioned new facilities and expanded existing facilities; committed more sales and marketing resources; and increased its employee strength by over 2,000 people. Cost of revenues also increased due to salary revisions and higher sub-contractor costs.

Cost of revenues during Q4 2005 was up 2.4% at US\$ 76.55 million (Rs. 3,440.81 million), as compared to US\$ 74.75 million (Rs. 3,284.55 million) in Q3 2005.

## Edgar Filing: Patni Computer Systems LTD - Form 6-K

On a corresponding quarter comparison basis, cost of revenues expanded by 36.5%, primarily due to the business growth related expansion of corporate resources and physical infrastructure.

### **Depreciation on direct assets**

Depreciation charged on direct assets increased by 15.4% during CY 2005 to US\$ 10.41 million (Rs. 468.06 million). In Q4 2005, depreciation on direct assets was higher by 2.8% sequentially at US\$ 2.85 million (Rs. 128.02 million) from US\$ 2.77 million (Rs. 121.76 million) in Q3 2005. On a corresponding quarter basis, it was higher by 6.5%. In the second half of last year, accelerated depreciation had been charged at the previous Chennai facility before the operations shifted to the Knowledge Park premises, increasing the base.

Several initiatives were undertaken at Patni, with the objective of creating organizational improvements to deliver the next level of growth. Their implementation resulted in an increase in expenditure in a few specific areas.

Increased salary costs following the expansion in front-end sales teams and recruitment of several experienced domain-focused sales people, as well as the front-ended costs of their recruitment.

Engagement of external consultants for enhancing organizational efficiencies, cost reduction and overall operating improvements.

In the corresponding quarter last year, Patni had made a similar credit of US\$ 0.19 million (Rs. 8.25 million) in its debtors' provisioning to balance the excess provisions in the first three quarters of the year.

### **Foreign exchange gain / loss**

The income tax provision in Q4 2005 was 101.1% higher than the corresponding quarter last year. Approx. US\$ 1.0 million of this rise is on account of the additional payroll and related tax provisions on a sequential quarter comparison basis and approx. US\$ 1.4 million when compared to the corresponding quarter last year.

### **Net income**

Net income in CY 2005 was higher by 11.3% at US\$ 60.87 million (Rs. 2,735.96 million) compared to US\$ 54.68 million (Rs. 2,366.18 million) in CY 2004.

### **Balance Sheet / Cash Flow perspective**

The days sales outstanding (DSO) levels were at 60 days in CY 2005 compared to 80 days in CY 2004 and at 60 days in Q4 2005, compared to 62 days in Q3 2005 and 71 days in Q4 2004.

Cash and cash equivalents, including short-term investments, at the end of CY 2005 were at US\$ 290.59 million (Rs. 13,062.02 million) compared to US\$ 162.77 million (Rs. 7,042.9 million) at the close of the previous year. During the year under review, Patni also used US\$ 55.78 million (Rs. 2,507.31 million) towards its ongoing capital expenditure program.

### **Revenue analysis**

#### **Top clients**

During CY 2005, Patni's client concentration reduced significantly - with its top client GE contributing 22.1% of revenues compared to 31.7% in the previous year. GE revenues during CY 2005 were marginally under US\$ 100 million compared to approx. US\$ 103.6 million in CY 2004. During the final quarter of CY 2005, Patni re-classified its revenues from Genworth, previously a GE Group company, as non-GE business following its sale by GE. Including Genworth's revenues in Q4 2005 on a pro-forma basis, GE's aggregate revenue contribution would be at the same level as in CY 2004.

Revenues from the top 10 clients (excluding GE) were higher by 37.8% during CY 2005. Revenues from clients outside the top 10 grew by 80.6% during the year.

## Edgar Filing: Patni Computer Systems LTD - Form 6-K

During Q4 2005, revenues from GE declined by 20.9% as compared to the previous sequential quarter largely on account of the re-classification of Genworth's revenues. Including Genworth revenues for Q4 2005 on a pro-forma basis, revenues from GE would be lower by approx. 5% as compared to Q3 2005. During Q3 2005, GE revenues had shown significant expansion on account of some specific project opportunities. Revenue contribution from GE was at 17.7% during Q4 2005 compared to 23.4% in Q3 2005 and 27.2% in Q3 2004. Revenue contribution from GE continues to show a downward trend as Patni expands its other engagements and adds more clients. During Q4 2005, ex-GE revenues were higher by 12.6% over Q3 2005 and by 51.0% over Q4 2004.

Revenue contribution from top 10 clients (excluding GE) was at 39.2% during Q4 2005 compared to 37.8% in Q3 2005 and 37.4% in Q4 2004.

Revenues from clients outside the top 10 showed a rise of 16.3% compared to the previous sequential quarter and increased by 63.0% compared to the corresponding quarter last year.
