NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2006 and 2007
(unaudited)

1. Description of the business and recent developments:

Description of business

Cogent Communications Group, Inc. (the Company) is a Delaware corporation and is headquartered in Washington, DC. The Company is a facilities-based provider of low-cost, high-speed Internet access and Internet Protocol (IP) communications services. The Company's network is specifically designed and optimized to transmit data using IP. The Company delivers its services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations through over 12,900 customer connections in North America and Western Europe.

The Company offers on-net Internet access services exclusively through its own facilities, which run all the way to its customers' premises. Because of its integrated network architecture, the Company is not dependent on local telephone companies to serve its on-net customers. The Company provides on-net Internet access to certain bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies and commercial content providers at speeds up to 10 Gigabits per second. These customers generally receive service in colocation facilities and the Company's data centers. The Company also offers Internet access services in multi-tenant office buildings typically serving law firms, financial services firms, advertising and marketing firms and other professional services businesses.

In addition to providing on-net services, the Company also provides Internet connectivity to customers that are not located in buildings directly connected to its network. The Company serves these off-net customers using other carriers' facilities to provide the "last mile" portion of the link from its customers' premises to the Company's network. The Company operates data centers throughout North America and Western Europe that allow customers to collocate their equipment and access the Company's network. The Company also provides certain non-core services that resulted from acquisitions. The Company continues to support but does not actively sell these non-core services.

The Company has created its network by acquiring optical fiber from underlying carriers and directly connecting Internet routers to this optical fiber. Through 2004 the Company expanded its network through several acquisitions of financially distressed companies or their assets. Since then, it has primarily focused on the growth of its on-net Internet access services.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the unaudited condensed consolidated financial statements reflect all normal recurring adjustments that the Company considers necessary for the fair presentation of its results of operations and cash flows for the interim periods covered, and of the financial position of the Company at the date of the interim condensed consolidated balance sheet. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The operating results for interim periods are not necessarily indicative of the operating results for the entire year. While the Company believes that the disclosures are adequate to not make the information misleading, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in its 2006 annual report on Form 10-K.

The accompanying unaudited consolidated financial statements include all wholly-owned subsidiaries. All inter-company accounts and activity have been eliminated.

Use of estimates

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Foreign currency translation adjustment and comprehensive loss

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

The functional currency of Cogent Canada is the Canadian dollar. The functional currency of Cogent Europe is the euro. The consolidated financial statements of Cogent Canada and Cogent Europe are translated into U.S. dollars using the period-end foreign currency exchange rates for assets and liabilities and the average foreign currency exchange rates for the period for revenues and expenses. Gains and losses on translation of the accounts of the Company's non-U.S. operations are accumulated and reported as a component of other comprehensive loss in stockholders' equity.

6

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Statement of Financial Accounting Standard (SFAS) No. 130, Reporting of Comprehensive Income requires comprehensive income and the components of other comprehensive income to be reported in the financial statements and/or notes thereto. The Company's only components of other comprehensive income are currency translation adjustments for all periods presented.

	Three months ended March 31, 2006		Three months ended March 31, 2007	
Net loss	\$ (16,441)	\$ (9,404)
Currency translation	103		194	
Comprehensive loss	\$ (16,338)	\$ (9,210)

Financial instruments

The Company was party to letters of credit totaling approximately \$1.0 million at March 31, 2007 and December 31, 2006. These letters of credit are secured by certificates of deposit of approximately \$1.1 million at March 31, 2007 and \$1.1 million at December 31, 2006 that are restricted and included in deposits and other assets.

Basic and diluted net loss per common share

The weighted-average common shares basic and diluted increased from 43.8 million for the three months ended March 31, 2006 to 48.7 million for the three months ended March 31, 2007 primarily due to the effect of the Company's public offering of 4.35 million shares of common stock which closed in June 2006.

For the three months ended March 31, 2006 and March 31, 2007, options to purchase approximately 1.2 million shares of common stock at weighted-average exercise prices of \$2.72 and \$3.96 per share, respectively, are not included in the computation of diluted earnings per share as the effect would be anti-dilutive. Additionally, for the three months ended March 31, 2006 and March 31, 2007, 0.3 million unvested restricted shares of common stock are not included in the computation of earnings per share. These shares will be included in the computation as they vest.

Recent accounting pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. (FIN) 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109. FIN No. 48 requires that management determine whether a tax position is more likely than not to be sustained upon examination based on the technical merits of the position. Once it is determined that a position meets this recognition threshold, the position is measured to determine the amount of benefit to be recognized in the financial statements. The Company adopted the provisions of FIN No. 48 on January 1, 2007. The adoption of FIN No. 48 did not have a material effect on the Company's results of operations or financial position.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The Company is subject to U.S. federal tax and state tax examinations for years from 2003 to 2006. Management does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN No. 48, the Company did not have any accrued interest or penalties associated with any unrecognized tax positions, and there was no interest expense or expense associated with penalties recognized during the three months ended March 31, 2007.

2. Equity-based compensation:

The Company determines the fair value of grants of its restricted common stock by the closing trading price of its common stock on the grant date. The following weighted-average assumptions were used for determining the grant-date fair value of options granted in the three months ended March 31, 2006 and March 31, 2007:

	Three months Ended March 31, 2006		Three Months Ended March 31, 2007	
Dividend yield	0.0		% 0.0	%
Expected volatility	61.8		% 54.4	%
Risk-free interest rate	4.6		% 4.7	%
Expected life of the option term (in years)	5.0		6.1	

Incentive award plan

In April 2007, the Company's board of directors and stockholders approved an increase in the number of shares available for grant under the Incentive Award Plan (the Award Plan) of 2.0 million shares of common stock to a total of 5.8 million available shares. As of March 31, 2007, there were a total of approximately 17,000 shares available for grant under the Award Plan.

Compensation expense related to stock options and restricted stock was approximately \$3.5 million for the three months ended March 31, 2006 and \$1.6 million for the three months ended March 31, 2007. As of March 31, 2007 there was approximately \$5.9 million of total unrecognized compensation cost related to nonvested share-based compensation awards. That cost is expected to be recognized over a weighted average period of approximately 28 months.

In January 2007, the Company issued 51,250 common shares to its non-management directors. These grants were valued at the Company's closing price on the date of grant, were fully vested upon grant, and resulted in approximately \$0.9 million of compensation expense during the quarter ended March 31, 2007.

Cash received from option exercises was approximately \$0.2 million for the three months ended March 31, 2007. There was no cash received from option exercises for the three months ended March 31, 2006. The total intrinsic value of stock options exercised was \$0.1 million during the three-month period ended March 31, 2006 and \$0.8 million during the three-month period ended March 31, 2007. The weighted-average grant-date fair value of stock options granted was \$3.79 per share during the three months ended March 31, 2006 and \$10.02 per share during the three months ended March 31, 2007. Stock option activity during the period from December 31, 2006 to March 31, 2007, was as follows:

	Number of Options	Weighted-Average Exercise Price
Outstanding at December 31, 2006	1,152,976	\$ 2.73
Granted at market value	112,792	\$ 17.70
Exercises	(47,209)	\$ 4.04
Cancellations	(21,037)	\$ 10.29
Outstanding at March 31, 2007 \$23.6 million intrinsic value and 7.8 years weighted average remaining contractual term	1,197,522	\$ 3.96
Exercisable at March 31, 2007 \$17.8 million intrinsic value and 7.5 years weighted average remaining contractual term	802,043	\$ 1.47
Expected to vest \$21.9 million intrinsic value and 7.7 years weighted average remaining contractual term	1,084,721	\$ 3.43

A summary of the status of the Company's nonvested restricted stock awards as of December 31, 2006 and the changes during the three months ended March 31, 2007 are as follows:

Nonvested awards	Shares	Weighted-Average Grant Date Fair Value
Nonvested at December 31, 2006	370,480	\$ 17.66
Granted	51,250	\$ 17.81
Vested	(84,120)	\$ 14.74
Forfeited		\$
Nonvested at March 31, 2007	337,610	\$ 17.21

On April 30, 2007, the Company issued 0.9 million shares of restricted stock to most of its employees. These grants will be valued at the Company's closing price on the date of grant and will vest on April 30, 2009. These grants will result in approximately \$23.4 million of compensation expense to be recorded ratably over the two year vesting period.

3. Property and equipment:

Depreciation and amortization expense related to property and equipment and capital leases was \$13.8 million and \$15.6 million for the three months ended March 31, 2006 and 2007, respectively.

Capitalized network construction labor and related costs

For the three months ended March 31, 2006 and 2007, the Company capitalized salaries and related benefits of employees working directly on the construction and build-out of its network of \$0.6 million and \$0.6 million, respectively.

4. Accrued liabilities:*Paris office lease restructuring charges*

In 2004, the French subsidiary of Cogent Europe re-located its Paris headquarters. A reconciliation of the amounts related to these contract termination costs is as follows (in thousands):

Restructuring accrual

Balance December 31, 2006	\$ 393
Amortization of discount	7
Amounts paid	(400)
Balance March 31, 2007	\$

Acquired lease obligations

In December 2004, the Company accrued for the net present value of estimated cash flows for amounts related to leases of abandoned facilities acquired in its Verio acquisition. A reconciliation of the amounts related to these contract termination costs is as follows (in thousands):

Lease accrual

Assumed obligation balance December 31, 2006	\$ 1,754
Amortization of discount	29
Amounts paid	(151)
Balance March 31, 2007	1,632
Current portion (included in accrued liabilities)	(525)
Long term portion (included in other long term liabilities)	\$ 1,107

5. Long-term debt and credit facility:*Credit facility*

On March 9, 2005, the Company entered into a \$10.0 million credit facility with a commercial bank. The credit facility was secured by accounts receivable and our other assets. In December 2005, the credit facility was modified, which increased the available borrowings to up to \$20.0 million. As of March 31, 2007, and since June 2005 there were no amounts outstanding under the credit facility. The credit facility expired on April 1, 2007.

6. Contingencies:*Current and potential litigation*

The Company is involved in disputes with certain telephone companies that provide it local circuits or leased optical fibers. The total amount claimed by these vendors is \$3.0 million. The Company does not believe any of these amounts are owed to these providers and intends to vigorously defend its position and believes that it has adequately reserved for any potential liability.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

The Company has been made aware of several other companies in its own and in other industries that use the word Cogent in their corporate names. One company has informed the Company that it believes the Company's use of the name Cogent infringes on its intellectual property rights in that name. If such a challenge is successful, the Company could be required to change its name and lose the value associated with the Cogent name in its markets. Management does not believe such a challenge, if successful, would have a material impact on the Company's business, financial condition or results of operations.

9

In December 2003, several former employees of Cogent Spain filed claims related to their termination of employment. One case has been resolved and the others are in various stages of appeal. The Company intends to continue to vigorously defend its position related to these charges and feels that it has adequately reserved for any potential liability.

In the normal course of business the Company is involved in other legal activities and claims. Because such matters are subject to many uncertainties and the outcomes are not predictable with assurance, the liability related to these legal actions and claims cannot be determined with certainty. Management does not believe that such claims and actions will have a material impact on the Company's financial condition or results of operations.

7. Related party transactions:

Office lease

The Company's headquarters is located in an office building owned by an entity controlled by the Company's Chief Executive Officer. The Company paid \$92,000 in the three months ended March 31, 2006 and \$109,000 in the three months ended March 31, 2007 in rent and related costs to this entity. The lease expires in August 2010.

8. Segment information:

The Company operates as one operating segment. Below are the Company's net service revenues and long lived assets by geographic region (in thousands):

	Three Months Ended March 31, 2006	Three Months Ended March 31, 2007
<u>Net service revenue</u>		
North America	\$ 27,135	\$ 34,019
Europe	7,312	9,602
Total	\$ 34,447	\$ 43,621

	December 31, 2006	March 31, 2007
<u>Long lived assets, net</u>		
North America	\$ 221,942	\$ 215,629
Europe	42,476	41,491
Total	\$ 264,418	\$ 257,120

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our consolidated condensed financial statements and related notes included in this report. The discussion in this report contains forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this report. Our actual results could differ materially from those discussed here. Factors that could cause or contribute to these differences include those discussed in Item 1A Risk Factors in our annual report on Form 10-K for the fiscal year ended December 31, 2006.

General Overview

We are a leading facilities-based provider of low-cost, high-speed Internet access and IP communications services. Our network is specifically designed and optimized to transmit data using IP. IP networks are significantly less expensive to operate and are able to achieve higher performance levels than the traditional circuit-switched networks used by our competitors, thus giving us cost and performance advantages in our industry. We deliver our services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations through over 12,900 customer connections in North America and Western Europe. Our primary on-net service is Internet access at a speed of 100 Megabits per second and greater. We offer this on-net service exclusively through our own facilities, which run all the way to our customers' premises.

Our network is comprised of in-building riser facilities, metropolitan optical fiber networks, metropolitan traffic aggregation points and inter-city transport facilities. The network is physically connected entirely through our facilities to over 1,125 buildings in which we provide our on-net services, including over 875 multi-tenant office buildings. We also provide on-net services in carrier-neutral colocation facilities, data centers and single-tenant office buildings. Because of our integrated network architecture, we are not dependent on local telephone companies to serve our on-net customers. We emphasize the sale of on-net services because we believe we have a competitive advantage in providing these services and our sales of these services generate higher gross profit margins.

We also provide Internet connectivity to customers that are not located in buildings directly connected to our network. We serve these off-net customers using other carriers' facilities to provide the last mile portion of the link from our customers' premises to our network. We also provide certain non-core services which are legacy services which we acquired and continue to support but do not actively sell.

We believe our key opportunity is provided by our high-capacity network, which provides us with the ability to add a significant number of customers to our network with minimal incremental costs. Our focus is to add customers to our network in a way that maximizes its use and at the same time provides us with a customer mix that produces strong profit margins. We are responding to this opportunity by increasing our sales and marketing efforts including increasing our number of sales representatives. In addition, we may add customers to our network through strategic acquisitions.

We plan to expand our network to locations that can be economically integrated and represent significant concentrations of Internet traffic. One of our keys to developing a profitable business will be to carefully match the expense of extending our network to reach new customers with the revenue generated by those customers.

We believe the two most important trends in our industry are the continued growth in Internet traffic and a decline in Internet access prices. As Internet traffic continues to grow and prices per unit of traffic continue to decline, we believe our ability to load our network and gain market share from less efficient network operators will expand. However, continued erosion in Internet access prices will likely have a negative impact on the rate at which we can increase our revenues and our profit margins.

Our on-net service consists of high-speed Internet access and IP connectivity ranging from 0.5 Megabits per second to 10 Gigabits per second of bandwidth. We offer our on-net services to customers located in buildings that are physically connected to our network. Off-net services are sold to businesses that are connected to our network primarily by means of T1, T3, E1 and E3 lines obtained from other carriers. Our non-core services, which consist of legacy services of companies whose assets or businesses we have acquired, include managed modem services, email, retail dial-up Internet access, shared web hosting, managed web hosting, managed security, voice services (only provided in Toronto, Canada) and point to point private line services. We do not actively market these non-core services and expect the net service revenue associated with them to continue to decline.

Net service revenue was \$34.4 million for the three months ended March 31, 2006 and \$43.6 million for the three months ended March 31, 2007.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Our on-net, off-net and non-core services comprised 65.9%, 26.5% and 7.6% of our net service revenue, respectively, for the three months ended March 31, 2006 and 76.0%, 19.4% and 4.6% for the three months ended March 31, 2007. While we target our sales and marketing efforts at increasing on-net customers, customers we added through acquisitions have affected the mix of on-net and off-net revenues. We expect the percentage of on-net revenues to continue to increase as a percentage of total revenues in 2007.

11

We have grown our gross profit from \$14.1 million for the three months ended March 31, 2006 to \$22.6 million for the three months ended March 31, 2007. Our gross profit margin has expanded from 41.0% for the three months ended March 31, 2006 to 51.8% for the three months ended March 31, 2007. We determine gross profit by subtracting network operations expenses (excluding equity-based compensation expense) from our net service revenue. We have not allocated depreciation and amortization expense to our network operations expense. We believe that our gross profit will continue to expand as we are allocating the majority of our sales and marketing resources toward obtaining additional on-net customers as sales of these services generate higher gross profit margins than our off-net and non-core services. We believe that as we add on-net customers we incur minimal incremental network operation expenses.

Due to our strategic acquisitions of network assets and equipment, we believe we are positioned to grow our revenue base and profitability without significant additional capital investments. We continue to deploy network equipment to parts of our network to maximize the utilization of our assets. Our future capital expenditures will be based primarily on our planned expansion of on-net buildings and the concentration and growth of our customer base. We expect our 2007 capital expenditures to be approximately \$28.0 million. We plan to increase our number of on-net buildings by approximately 100 buildings by December 31, 2007 from 1,107 buildings at December 31, 2006.

Historically, our operating expenses have exceeded our net service revenue resulting in operating losses. Our operating expenses consist primarily of the following:

- Network operations expenses, which consist primarily of the cost of leased circuits, sites and facilities; telecommunications license agreements, maintenance expenses, and salaries of, and expenses related to, employees who are directly involved with maintenance and operation of our network.
- Selling, general and administrative expenses, which consist primarily of salaries, commissions and related benefits paid to our employees and related selling and administrative costs including professional fees and bad debt expenses.
- Depreciation and amortization expenses, which result from the depreciation of our property and equipment, including the assets associated with our network and the amortization of our intangible assets.
- Equity-based compensation expenses that results from the grants of stock options and restricted stock.

Results of Operations

Our management reviews and analyzes several key performance indicators in order to manage our business. These key performance indicators include:

- net service revenues, which are an indicator of our overall business growth and the success of our sales and marketing efforts and sales representative productivity;
- gross profit, which is an indicator of our service offering mix, competitive pricing pressures and the cost of our network operations;
- growth in our on-net customer base and revenues, which is an indicator of the success of our on-net focused sales efforts and sales representative productivity;
- growth in the number of on-net buildings; and
- the distribution of revenue across our service offerings.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Three Months Ended March 31, 2006 Compared to the Three Months Ended March 31, 2007

The following summary table presents a comparison of our results of operations for the three months ended March 31, 2006 and 2007 with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

	Three months ended March 31,		Percent Change	
	2006 (in thousands)	2007		
Net service revenue	\$ 34,447	\$ 43,621	26.6	%
Network operations expenses (1)	20,337	21,015	3.3	%
Gross profit (2)	14,110	22,606	60.2	%
Selling, general, and administrative expenses (3)	10,785	12,562	16.5	%
Equity based compensation expense	3,499	1,619	(53.7))%
Depreciation and amortization expenses	14,144	15,907	12.5	%
Net loss	(16,441)	(9,404)	42.8	%

(1) Excludes equity-based compensation expenses of \$105 and \$49 in the three months ended March 31, 2006 and 2007, respectively, which, if included would have resulted in a period-to-period change of 3.0%.

(2) Excludes equity-based compensation expenses of \$105 and \$49 in the three months ended March 31, 2006 and 2007, respectively, which if included would have resulted in a period-to-period change of 61.1%.

(3) Excludes equity-based compensation expenses of \$3,394 and \$1,570 in the three months ended March 31, 2006 and 2007, respectively, which, if included would have resulted in a period-to-period change of (0.3)%.

Net Service Revenue. Our net service revenue increased 26.6% from \$34.4 million for the three months ended March 31, 2006 to \$43.6 million for the three months ended March 31, 2007. The impact of exchange rates added approximately \$0.8 million to this increase in revenues. For the three months ended March 31, 2006 and 2007, on-net, off-net and non-core revenues represented 65.9%, 26.5% and 7.6% and 76.0%, 19.4% and 4.6% of our net service revenues, respectively.

Our on-net revenues increased 46.1% from \$22.7 million for the three months ended March 31, 2006 to \$33.2 million for the three months ended March 31, 2007. Our on-net revenues increased as we increased the number of our on-net customer connections by 62.6% from approximately 5,300 at March 31, 2006 to approximately 8,600 at March 31, 2007. On-net customer connections increased at a greater rate than on-net revenues due to a decline in the revenue per on-net customer connection, which we expect to continue. This decline is partly attributed to a shift in the customer connection mix. Due to the increase in the size of our sales force, we are now able to focus not only on customers who purchase high-bandwidth connections, as we have done historically, but also on customers who purchase lower-bandwidth connections. We expect to continue to focus our sales efforts on a broad mix of customers. Additionally, on-net customers who cancel their service from our installed base of customers, in general, have greater revenue per connection than new customers. These trends result in lower revenue per on-net connection. We believe that our on-net revenues as a percentage of total revenues will continue to increase as we are allocating the majority of our sales and marketing resources toward obtaining additional on-net customers. Our off-net revenues decreased 7.2% from \$9.1 million for the three months ended March 31, 2006 to \$8.5 million for the three months ended March 31, 2007. Our off-net customer connections declined from approximately 3,600 at March 31, 2006 to approximately 3,400 at March 31, 2007. We expect that the net loss of off-net customer connections will continue. Our non-core revenues decreased 24.0% from \$2.6 million for the three months ended March 31, 2006 to \$2.0 million for the three months ending March 31, 2007. The number of our non-core customer connections declined from approximately 1,200 at March 31, 2006 to approximately 940 at March 31, 2007. We do not actively market these acquired non-core services and expect that the net service revenue associated with them will continue to decline.

Network Operations Expenses. Our network operations expenses, excluding equity-based compensation expense, increased 3.3% from \$20.3 million for the three months ended March 31, 2006 to \$21.0 million for the three months ended March 31, 2007. The increase is primarily attributable to an increase in facilities related costs including power partly offset by a decline in leased circuit costs related to the decline in off-net revenues. We provide Internet connectivity to our off-net customers using other carriers' facilities to provide the last mile portion of the link from our customers

premises to our network and incur leased circuit costs to provide these services.

Gross Profit. Our gross profit, excluding equity-based compensation expense, increased 60.2% from \$14.1 million for the three months ended March 31, 2006 to \$22.6 million for the three months ended March 31, 2007. We determine gross profit by subtracting network operation expenses from our net service revenue (excluding equity-based compensation expense) and do not allocate depreciation and amortization expense to our network operations expense. The increase is primarily attributed to the increase in higher gross margin on-net revenues as a percentage of net service revenue. Our gross profit margin expanded from 41.0% for the three months ended March 31, 2006 to 51.8% for the three months ended March 31, 2007. Our gross profit has benefited from the limited incremental expenses associated with providing service to an increasing number of on-net customers and the decline in off-net revenues which carry a lower gross margin due to the

13

associated leased circuit required to provide this service. Our gross profit margin may be impacted by the timing and amounts of disputed circuit costs. We generally record these disputed amounts when billed by the vendor and reverse these amounts when the vendor credit has been received or the dispute has been otherwise resolved. We believe that our gross profit margin will continue to increase as we are allocating the majority of our sales and marketing resources toward obtaining additional on-net customers and as sales of these services generate higher gross profit margins than our off-net and non-core services.

Selling, General, and Administrative Expenses. Our SG&A expenses, excluding equity-based compensation expense, increased 16.5% from \$10.8 million for the three months ended March 31, 2006 to \$12.6 million for the three months ended March 31, 2007. SG&A expenses increased primarily from the increase in salaries and related costs required to support our expanding sales and marketing efforts.

Equity-based Compensation Expense. Equity-based compensation expense is related to restricted stock and stock options. The total equity-based compensation expense decreased 53.7% from \$3.5 million for the three months ended March 31, 2006 to \$1.6 million for the three months ending March 31, 2007. The decrease is primarily attributed to a \$2.5 million decrease in equity-based compensation expense associated with the amortization of compensation expense for certain 2003 restricted stock grants which ended in August 2006 when these shares became fully vested. The decrease was partly offset by compensation expense from the January 2007 issuance of 51,250 common shares to our non-management directors. These grants were valued at our closing price on the date of grant, were fully vested upon grant, and resulted in approximately \$0.9 million of compensation expense during the quarter ended March 31, 2007. As of March 31, 2007, there was approximately \$5.9 million of total unrecognized compensation cost related to nonvested share-based compensation awards. That cost is expected to be recognized over a weighted average period of approximately 28 months.

On April 30, 2007, we issued 0.9 million common shares to most of our employees. These grants were valued at closing price on the date of grant and will vest on April 30, 2009. These grants will result in approximately \$23.4 million of compensation expense to be recorded ratably over the two year vesting period.

Depreciation and Amortization Expenses. Our depreciation and amortization expense increased 12.5% from \$14.1 million for the three months ended March 31, 2006 to \$15.9 million for the three months ended March 31, 2007 primarily due to an increase in fixed assets.

Net Loss. Our net loss was \$16.4 million for the three months ended March 31, 2006 as compared to a net loss of \$9.4 million for the three months ended March 31, 2007. Our net loss decreased by \$7.0 million from an \$8.5 million increase in our gross margin and \$1.9 million reduction in equity based compensation expense partly offset by a \$1.8 million increase in SG&A expenses and a \$1.8 million increase in depreciation and amortization expenses.

Buildings On-net. As of March 31, 2006 and 2007 we had a total of 1,053 and 1,129 on-net buildings connected to our network, respectively.

Liquidity and Capital Resources

In assessing our liquidity, management reviews and analyzes our current cash balances on-hand, short-term investments, accounts receivable, accounts payable, capital expenditure commitments, and required capital lease and debt payments and other obligations.

Cash Flows

The following table sets forth our consolidated cash flows for the three months ended March 31, 2006 and three months ended March 31, 2007.

(in thousands)	Three months ended March 31,	
	2006	2007
Net cash (used in) provided by operating activities	\$ (1,591)	\$ 13,627
Net cash used in investing activities	(3,916)	(7,486)

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Net cash used in financing activities	(3,738)	(600)
Effect of exchange rates on cash	(27)	90
Net (decrease) increase in cash and cash equivalents during period	\$ (9,272)	\$ 5,631

Net Cash (Used In) Provided by Operating Activities. Our primary sources of operating cash are receipts from our customers who are billed on a monthly basis for our services. Our primary uses of operating cash are payments made to our vendors and employees. Net cash used in operating activities was \$1.6 million for the three months ended March 31, 2006 compared to net cash provided by operating activities of \$13.6 million for the three months ended March 31, 2007. The increase in cash provided by operating activities is due to an increase in our profitability and an improvement in the changes in operating assets and liabilities from a use of cash of \$3.3 million for the three months ended March 31, 2006 to an increase of cash of \$4.9 million for the three months ended March 31, 2007.

Net Cash Used In Investing Activities. Net cash used in investing activities was \$3.9 million for the three months ended March 31, 2006 and \$7.5 million for the three months ended March 31, 2007. Our primary use of investing cash for the three months ended March 31, 2006 was \$4.7 million for the purchases of property and equipment. Our primary sources of investing cash for the three months ended March 31, 2006 was \$0.7 million from the maturities of short-term investments. Our primary use of investing cash for the three months ended March 31, 2007 was \$7.6 million for the purchases of property and equipment. Our primary sources of investing cash for the three months ended March 31, 2007 was \$0.1 million from the maturities of short-term investments. The increase in purchases of property and equipment from the three months ended March 31, 2006 to the three months ended March 31, 2007 is primarily due to our network expansion activities.

Net Cash Used In Financing Activities. Net cash used in financing activities was \$3.7 million for the three months March 31, 2006. Net cash used in financing activities was \$0.6 million for the three months March 31, 2007. Our primary use of financing cash for the three months ended March 31, 2006 was \$3.7 million of principal payments under our capital lease obligations. Our primary use of financing cash for the three months ended March 31, 2007 was \$0.8 million of principal payments under our capital lease obligations. Our primary sources of financing cash for the three months ended March 31, 2007 was \$0.2 million from the proceeds from the exercises of stock options. In June 2007, we will repay our \$10.2 million 7.5% convertible notes, plus interest, for a total payment of \$10.6 million.

Cash Position and Indebtedness

Our total cash and cash equivalents and short-term investments were \$48.3 million at March 31, 2007. Our total indebtedness, net of discount, at March 31, 2007 was \$97.8 million. Our total indebtedness includes \$88.1 million of capital lease obligations for dark fiber primarily under 15-25 year IRUs, of which approximately \$6.5 million is considered a current liability. These capital lease obligations will be paid over a weighted average remaining term of approximately thirteen years.

Credit Facility

On March 9, 2005, we entered into a credit facility with a commercial bank. The credit facility was secured by our accounts receivable and our other assets. As of March 31, 2007, and since June 2005 there were no amounts outstanding under the credit facility. The credit facility expired on April 1, 2007.

Convertible Subordinated Notes.

Our 7.50% convertible subordinated notes are due on June 15, 2007. The \$10.2 million of notes were recorded at their fair value of approximately \$2.9 million at the merger date in 2002. The discount is amortized to interest expense through the maturity date. Interest is payable semiannually on June 15 and December 15. These notes will be paid in June 2007.

Future Capital Requirements

We believe that our cash on hand and cash generated from our operating activities will be adequate to meet our working capital, capital expenditure, debt service and other cash requirements if we execute our business plan. Our business plan for 2007 includes increasing our number of on-net buildings by approximately 100 buildings by December 31, 2007 from 1,107 buildings at December 31, 2006 and continuing to increase our number of sales representatives and our marketing efforts. We expect our capital expenditures for 2007 to be approximately \$28.0 million.

Our business plan also assumes, among other things, the following:

- our ability to continue to increase the size of our on-net customer base;
- our ability to maintain our recent sales productivity performance and incremental sales product mix;
- our ability to locate and hire sales representatives according to our plan;

- no material changes to the conversion rate between the euro and the U.S. dollar and the Canadian dollar and the U.S. dollar;
- no material increases in our revenue churn rate;
- no material decline in our product pricing;
- no material increases in our customer bad debt;
- no material losses from contingencies; and
- our ability to add revenue generating buildings to our network.

Any future acquisitions or other significant unplanned costs or cash requirements may require that we raise additional funds through the issuance of debt or equity. We cannot assure you that such financing will be available on terms acceptable to us or our stockholders, or at all. Insufficient funds may require us to delay or scale back the number of buildings that we serve, reduce our planned increase in our sales and marketing efforts, or require us to otherwise alter our business plan or take other actions that could have a material adverse effect on our business, results of operations and financial condition. If issuing equity securities raises additional funds, substantial dilution to existing stockholders may result.

Off-Balance Sheet Arrangements

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships.

Critical Accounting Policies and Significant Estimates

Management believes that as of March 31, 2007, there have been no material changes to our critical accounting policies and significant estimates.

Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. (FIN) 48, *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109*. FIN No. 48 requires that management determine whether a tax position is more likely than not to be sustained upon examination based on the technical merits of the position. Once it is determined that a position meets this recognition threshold, the position is measured to determine the amount of benefit to be recognized in the financial statements. We adopted the provisions of FIN No. 48 beginning in the first quarter of 2007. The adoption of FIN No. 48 did not have a material effect on our results of operations or financial position.

We file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. We are subject to U.S. federal tax and state tax examinations for years from 2003 to 2006. We do not believe there will be any material changes in our unrecognized tax positions over the next 12 months.

Our policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN No. 48, we did not have any accrued interest or penalties associated with any unrecognized tax positions, and there was no interest expense or expense associated with penalties recognized during the three months ended March 31, 2007.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

For quantitative and qualitative disclosures about market risk see Item 7A Quantitative and Qualitative Disclosures About Market Risk, of our annual report on Form 10-K for the year ended December 31, 2006. Our exposures to market risk have not changed materially since December 31, 2006.

ITEM 4. CONTROLS AND PROCEDURES.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), an evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, our management, including our principal executive officer and our principal financial officer, concluded that the design and operation of these disclosure controls and procedures were effective at the reasonable assurance level.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are involved in legal proceedings in the normal course of our business that we do not expect to have a material impact on our operations or results of operations. The more significant of these proceedings are discussed in Note 6 of our interim condensed consolidated financial statements.

16

ITEM 1A. RISK FACTORS

For risk factors see Item 1A Risk Factors of our annual report on Form 10-K for the year ended December 31, 2006. Our risk factors have not materially changed since December 31, 2006.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS.

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

ITEM 6. EXHIBITS.
