NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of March 31, 2007 (unaudited)

1. ORGANIZATION

Ares Capital Corporation (the Company or ARCC or we) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland that is regulated as a business development company under the Investment Company Act of 1940 (1940 Act). We were incorporated on April 16, 2004 and initially funded on June 23, 2004. On October 8, 2004, we completed our initial public offering (the IPO). On the same date, we commenced substantial investment operations.

The Company has qualified and has elected to be treated for tax purposes as a regulated investment company, or a RIC , under the Internal Revenue Code of 1986, as amended (the Code). The Company expects to continue to qualify and to elect to be treated for tax purposes as a RIC. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments in private U.S. middle market companies.

We are externally managed by Ares Capital Management LLC (the Investment Adviser), an affiliate of Ares Management LLC (Ares Management), an independent Los Angeles based firm that manages investment funds. Ares Technical Administration LLC, an affiliate of Ares Management, initially provided the administrative services necessary for us to operate pursuant to an administration agreement. As of April 30, 2007, Ares Operations LLC, another affiliate of Ares Management (Ares Administration), succeeded to the rights and obligations of Ares Technical Administration LLC under the administration agreement and since such date has been providing the administrative services necessary for us to operate.

Interim financial statements are prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain disclosures accompanying financial statements prepared in accordance with GAAP are omitted. In the opinion of management, all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of financial statements for the interim period, have been included. The current period s results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2007.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are computed using the specific identification method. Investments for which market quotations are readily available are valued at such market quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors based on the input of our management and audit committee. In addition, the board of directors currently receives input from independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio security at least once during a trailing 12 month period. The valuation process is conducted at the end of each fiscal quarter, with approximately a quarter of our valuations of portfolio companies without market quotations subject to review by an independent valuation firm each quarter. The types of factors that the board may take into account in fair value pricing of our investments include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our private equity valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment.
- Preliminary valuation conclusions are then documented and discussed with our management.
- The audit committee of our board of directors reviews these preliminary valuations, as well as the input of an independent valuation firm with respect to the valuations of approximately a quarter of our portfolio companies.
- The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our management and audit committee and independent valuation firms.

Interest Income Recognition

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis to the extent that such amounts are expected to be collected. The Company stops accruing interest on its investments when it is determined that interest is no longer collectible. If any cash is received after it is determined that interest is no longer collectible, we will treat the cash as payment on the principal balance until the entire principal balance has been repaid, before any interest income is recognized. Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortizations of premium on bonds.

Payment in Kind Interest

The Company has loans in its portfolio that contain a payment-in-kind (PIK) provision. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash. For the three months ended March 31, 2007, \$2,087,360 in PIK income was recorded. For the three months ended March 31, 2006, \$945,454 in PIK income was recorded.

Capital Structuring Service Fees

The Company's Investment Adviser seeks to provide assistance to the portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's Investment Adviser provides vary by investment, but generally consist of reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the loan. The Company's Investment Adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.
- (2) Purchases and sales of investment securities (and related income and expenses) at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the fair values are presented at the foreign exchange rates at the end of the day, the Company does not isolate the portion of the results of the operations resulting from changes in foreign exchange rates from the fluctuations arising from changes in fair value of investments. Such fluctuations are included with the net realized and unrealized gains or losses from investments. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include but are not limited to revaluation of currencies and future adverse political and economic developments which could cause investments in their markets to be less liquid and prices more volatile than those of comparable U.S. companies.

Offering Expenses

The Company's offering costs were charged against the proceeds from the February Add-on Offering (as defined in Note 10) when received. For the three months ended March 31, 2007, the Company incurred approximately \$58,000 of such costs.

Debt Issuance Costs

Debt issuance costs are being amortized over the life of the debt obligation using the straight line method, which closely approximates the effective yield method.

Federal Income Taxes

The Company has qualified and elected, and intends to continue to qualify, for the tax treatment applicable to regulated investment companies under Subchapter M of the Code and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from federal income taxes. In order to qualify as a RIC, among other factors, the Company is required to timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended March 31, 2007, the Company recognized a \$64,000 benefit for federal excise tax to reverse an over-accrual of estimated excise tax at December 31, 2006.

Certain of our wholly owned subsidiaries are subject to federal and state income taxes. For the three months ended March 31, 2007, we recorded a tax provision of approximately \$74,000 for these subsidiaries.

Dividends

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for re-investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividends.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments approximate fair value. The carrying value of interest and open trade receivables, accounts payable and accrued expenses, as well as the credit facilities payable approximate fair value due to their short maturity. The fair value of the CLO Notes (as defined in Note 7) approximates the carrying value as the variable interest rates are considered to be at market.

3. AGREEMENTS

The Company has entered into an investment advisory agreement (the *Advisory Agreement*) with the Investment Adviser under which the Investment Adviser, subject to the overall supervision of our board of directors, provides investment advisory services to ARCC. For providing these services, the Investment Adviser receives a fee from us, consisting of two components—a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 1.5% of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds). The base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our total assets (other than

cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters.

The incentive fee has two parts. One part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with payment-in-kind interest, preferred stock with payment-in-kind dividends and zero coupon securities, accrued income that we have not yet received in cash. The Investment Adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never received as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a fixed hurdle rate of 2.00% per quarter.

We pay the Investment Adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

- no incentive fee in any calendar quarter in which the pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.50%) as the catch-up provision. The catch-up is meant to provide our Investment Adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeds 2.50% in any calendar quarter; and
- 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.50% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Advisory Agreement, as of the termination date), commencing with the calendar year ending on December 31, 2004, and equals 20% of our realized capital gains for the calendar year, if any, computed net of all realized capital losses and unrealized capital depreciation for such year.

We defer cash payment of any incentive fee otherwise earned by the Investment Adviser if during the most recent four full calendar quarter periods ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to the stockholders and (b) the change in net assets (defined as total assets less indebtedness) is less than 8.0% of our net assets at the beginning of such period. These calculations were appropriately pro rated during the first three calendar quarters following October 8, 2004 and are adjusted for any share issuances or repurchases.

For the three months ended March 31, 2007, we incurred \$5,089,497, in base management fees and \$4,754,664 in incentive management fees related to pre-incentive fee net investment income. For the three months ended March 31, 2007, we accrued no incentive management fees related to net realized capital gains. As of March 31, 2007, \$9,844,161 was unpaid and included in management and incentive fees payable in the accompanying consolidated balance sheet.

For the three months ended March 31, 2006, we incurred \$2,543,659 in base management fees, \$2,922,884 in incentive management fees related to pre-incentive fee net investment income and accrued no incentive management fees related to realized capital gains.

We also entered into a separate administration agreement (the Administration Agreement) with Ares Administration under which Ares Administration furnishes us with office, equipment and clerical, bookkeeping and record keeping services at our office facilities. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of Ares Administration's overhead and other expenses incurred in performing its obligations under the Administration Agreement, including our allocable portion of the cost of certain of our officers and their respective staffs. Under the Administration Agreement, Ares Administration also performs or oversees the performance of our required administrative services, which include, among other things, being responsible for the financial records which we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Administration assists us in determining and publishing the net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Under the Administration Agreement, Ares Administration also provides on our behalf, managerial assistance to those portfolio companies to which we are required to provide such assistance. The Administration Agreement may be terminated by either party without penalty upon 60-days written notice to the other party.

For the three months ended March 31, 2007, we incurred \$210,357, in administrative fees. As of March 31, 2007, \$210,357 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

These letters of credit may be extended under substantially similar terms for additional one-year terms at the Company's option until the revolving line of credit, under which the letters of credit were issued, matures on September 30, 2011.

7. BORROWINGS

In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. On October 29, 2004, we formed Ares Capital CP Funding LLC (Ares Capital CP), a wholly owned subsidiary of the Company, through which we established a revolving credit facility (the CP Funding Facility). On November 3, 2004, we entered into the CP Funding Facility that, as amended, allows Ares Capital CP to issue up to \$350.0 million of variable funding certificates (VFC). As part of the CP Funding Facility, we are subject to limitations as to how borrowed funds may be used including restrictions on geographic concentrations, sector concentrations, loan size, payment frequency and status, average life, collateral interests and investment ratings as well as regulatory restrictions on leverage which may affect the amount of VFC that we may issue from time to time. There are also certain requirements relating to portfolio performance, including required minimum portfolio yield and limitations on delinquencies and charge-offs, violation of which could result in the early amortization of the CP Funding Facility and limit further advances under the CP Funding Facility and in some cases could be an event of default. Such limitations, requirements, and associated defined terms are as provided for in the documents governing the CP Funding Facility. As of March 31, 2007, there was \$171.0 million outstanding under the CP Funding Facility and the Company continues to be in compliance with all of the limitations and requirements of the CP Funding Facility. As of December 31, 2006 there was \$15.0 million outstanding under the CP Funding Facility.

The CP Funding Facility is scheduled to expire on October 31, 2007 (unless extended prior to such date with the consent of the lenders) and is secured by all of the assets held by Ares Capital CP, which as of March 31, 2007 consisted of 22 investments. At expiration, at our election, any principal amounts then outstanding will be amortized over a 24-month period from the termination date. Under the terms of the CP Funding Facility, we are required to pay a renewal fee of 0.375% of the total amount available for borrowing on or around each November 3rd.

The interest charged on the VFC is based on the commercial paper rate plus 0.70%. The interest charged on the VFC is payable quarterly. As of March 31, 2007, the commercial paper rate was 5.3462% and as of December 31, 2006 the commercial paper rate was 5.3481%. For the three months ended March 31, 2007, and March 31, 2006, the average interest rate (i.e. commercial paper rate plus the spread) was 6.04% and 5.28%, respectively. For the three months ended March 31, 2007, and March 31, 2006, the average outstanding balance was \$51,122,222 and \$69,448,889, respectively. For the three months ended March 31, 2007 and March 31, 2006, the interest expense incurred was \$797,877 and \$925,837, respectively. Cash paid for interest expense during the three months ended March 31, 2007 and March 31, 2006 was \$232,321 and \$221,634, respectively.

The Company is also required to pay a commitment fee for any unused portion of the CP Funding Facility. Initially, the commitment fee was 0.175% per annum. On April 8, 2005, the CP Funding Facility was amended pursuant to which among other things, the commitment fee was temporarily reduced to 0.11% per annum until the earlier of (a) the date the total borrowings outstanding exceed \$150.0 million or (b) October 3, 2005, after which the commitment fee was 0.175% per annum. On November 14, 2005, the CP Funding Facility was further amended pursuant to which among other things, the commitment fee was reduced to 0.10% per annum prior to the first time that the borrowings outstanding under the CP Funding Facility equal or exceed \$200.0 million and 0.125% per annum on and after the first time that the borrowings outstanding under the CP Funding Facility exceed \$200.0 million. On July 13, 2006, the CP Funding Facility was further amended pursuant to which among other things, the commitment fee was increased to 0.125% per annum calculated based on an amount equal to \$200.0 million less the borrowings outstanding under the CP Funding Facility. As soon as the borrowings outstanding under the CP Funding Facility equal or exceed \$200.0 million, the fee is calculated based on an amount equal to \$350.0 million less the borrowings outstanding under the CP Funding Facility. For the three months ended March 31, 2007 and March 31, 2006, the commitment fee incurred was \$45,983 and \$70,138, respectively.

In December 2005, we entered into a senior secured revolving credit facility (the Revolving Credit Facility) under which the lenders agreed to extend credit to the Company in an initial aggregate principal amount not exceeding \$250 million at any one time outstanding. The Revolving Credit Facility also includes an accordion feature that allows us to increase the size of the Revolving Credit Facility to a maximum of \$500 million under certain circumstances. On March 1, 2007, in accordance with this accordion feature of the Revolving Credit Facility, we increased the aggregate principal amount of the Revolving Credit Facility by \$100.0 million to a total of \$350.0 million. The Revolving Credit Facility expires on December 28, 2010 and with certain exceptions is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the CP Funding Facility and those held as a part of the Debt Securitization, discussed below) which as of March 31, 2007 consisted of 120 investments. Under the Revolving Credit Facility, we have made certain representations and warranties and are required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) maintaining a certain minimum stockholders equity, (e) maintaining a ratio of total assets (less total liabilities) to total indebtedness, of the Company and its subsidiaries, of not less than 2.0:1.0, (f) maintaining minimum liquidity, and (g) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and its subsidiaries.

In addition to the asset coverage ratio described above, borrowings under the Revolving Credit Facility (and the incurrence of certain other permitted debt) will be subject to compliance with a borrowing base that will apply different advance rates to different types of assets in our portfolio. The Revolving Credit Facility also includes usual and customary events of default for senior secured revolving credit facilities of this nature. As of March 31, 2007, there was \$210.0 million outstanding under the Revolving Credit Facility and the Company continues to be in compliance with all of the limitations and requirements of the Revolving Credit Facility. As of December 31, 2006, there was \$193.0 million outstanding under the Revolving Credit Facility.

The interest charged under the Revolving Credit Facility is generally based on LIBOR (one, two, three or six month) plus 1.00%. As of March 31, 2007, the one, two, three and six month LIBOR were 5.32%, 5.34%, 5.35% and 5.33%, respectively. For the three months ended March 31, 2007 and March 31, 2006, the average interest rate was 6.47% and 6.15%, respectively. For the three months ended March 31, 2007 and March 31, 2006, the average outstanding balance was \$202,011,111 and \$13,466,667, respectively. For the three months ended March 31, 2007 and March 31, 2006, the interest expense incurred was \$3,221,247 and \$204,261, respectively. Cash paid for interest expense during the three months ended March 31, 2007 and March 31, 2006 was \$2,985,951 and \$86,404, respectively. As of December 31, 2006, the one, two, three and six month LIBOR were 5.32%, 5.35%, 5.36% and 5.37%, respectively. The Company is also required to pay a commitment fee of 0.20% for any unused portion of the Revolving Credit Facility. For the three months ended March 31, 2007 and March 31, 2006, the commitment fee incurred was \$38,690 and \$114,578, respectively.

As of March 31, 2007, the Company had \$11.1 million in standby letters of credit issued through the Revolving Credit Facility. As of December 31, 2006, the Company had \$3.7 million in standby letters of credit issued through the Revolving Credit Facility.

On July 7, 2006, through our wholly owned subsidiary, ARCC CLO 2006 LLC (ARCC CLO), we completed a \$400.0 million debt securitization (the Debt Securitization) and issued approximately \$314.0 million principal amount of asset-backed notes (including a \$50.0 million revolver of which \$25.0 million was drawn as of March 31, 2007) (the CLO Notes) to third parties that were secured by a pool of middle market loans that have been purchased or originated by the Company. The CLO Notes are included in the March 31, 2007 consolidated balance sheet. We retained approximately \$86.0 million of certain BBB and non-rated securities in the Debt Securitization. The CLO Notes mature on December 20, 2019, and, as of March 31, 2007, there

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

was \$289.0 million aggregate principal amount of CLO Notes outstanding. The blended pricing of the CLO Notes, excluding fees, is approximately 3-month LIBOR plus 34 basis points.

The classes, amounts, ratings and interest rates (expressed as a spread to LIBOR) of the CLO Notes are:

| Class | Amount (millions) | Rating (S&P/Moody s) | LIBOR Spread (basis points) |
|----------|----------------------|-------------------------|--------------------------------|
| A-1A | \$ 75 | AAA/Aaa | 25 |
| A-1A VFN | 50 | (1) AAA/Aaa | 28 |
| A-1B | 14 | AAA/Aaa | 37 |
| A-2A | 75 | AAA/Aaa | 22 |
| A-2B | 33 | AAA/Aaa | 35 |
| B | 23 | AA/Aa2 | 43 |
| C | 44 | A/A2 | 70 |
| Total | \$ 314 | | |

(1) Revolving class, \$25.0 million of which was drawn as of March 31, 2007.

During the first five years from the closing date, principal collections received on the underlying collateral may be used to purchase new collateral, allowing us to maintain the initial leverage in the securitization for the entire five-year period. Under the terms of the securitization, up to 15% of the collateral may be subordinated loans that are neither first nor second lien loans.

The Class A-1A VFN Notes are a revolving class of secured notes and allow us to borrow and repay AAA/Aaa financing over the initial five-year period thereby providing more efficiency in funding costs. All of the notes are secured by the assets of ARCC Commercial Loan Trust 2006, including commercial loans totaling \$308.1 million as of the closing date, which were sold to the trust by the Company, the originator and servicer of the assets. As of March 31, 2007, there were 64 investments securing the notes. Additional commercial loans will be purchased by the trust from the Company primarily using the proceeds from the Class A-1A VFN Notes. The pool of commercial loans in the trust must meet certain requirements, including, but not limited to, asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements.

The interest charged under the ARCC CLO debt securitization is based on 3-month LIBOR which as of March 31, 2007 was 5.35%. For the three months ended March 31, 2007, the effective average interest rate was 5.79%. For the three months ended March 31, 2007, we incurred \$3,949,116 of interest expense. The Company is also required to pay a commitment fee of 0.175% for any unused portion of the Class A-1A VFN Notes. For the three months ended March 31, 2007, the commitment fee incurred was \$16,243 on these notes.

8. DERIVATIVE INSTRUMENTS

In 2005, we entered into a costless collar agreement in order to manage the exposure to changing interest rates related to the Company's fixed rate investments. The costless collar agreement is for a notional amount of \$20 million, has a cap of 6.5%, a floor of 2.72% and matures in 2008. The costless collar agreement allows us to receive an interest payment for any quarterly period when the 3-month LIBOR exceeds 6.5%, and requires us to pay an interest payment for any quarterly period when the 3-month LIBOR is less than 2.72%. The costless collar resets quarterly based on the 3-month LIBOR. As of March 31, 2007, the 3-month LIBOR was 5.35%. As of March 31, 2007, this agreement had no fair value.

9. RELATED PARTY TRANSACTIONS

The underwriting costs related to our IPO were \$7,425,000, or \$0.675 per share. As a part of the IPO, the Investment Adviser, on our behalf, agreed to pay the underwriters \$0.225 of the \$0.675 per share in underwriting discount and commissions for a total of approximately \$2.5 million. We were obligated to repay this amount, together with accrued interest (charged at the 3-month LIBOR plus 2% starting on October 8, 2004) (a) if during any four calendar quarter period ending on or after October 8, 2005 the sum of (i) the aggregate distributions, including return of capital, if any, to the stockholders and (ii) the change in net assets (defined as total assets less indebtedness) equals or exceeds 7.0% of the net assets at the beginning of such period (as adjusted for any share issuances or repurchases) or (b) upon the Company's liquidation. On March 8, 2005, the Company's board of directors approved entering into an amended and restated agreement with the Investment Adviser whereby the Company would be obligated to repay the Investment Adviser for the approximate \$2.5 million only if the conditions for repayment referred to above were met before the third anniversary of the IPO. If one or more such events did not occur on or before October 8, 2007, we would not be obligated to repay this amount to the Investment Adviser. For the year ended December 31, 2005, the sum of our aggregate distributions to our stockholders and our change in net assets exceeded 7.0% of net assets as of December 31, 2004 (as adjusted for any share issuances). As a result, in February 2006 we repaid this amount together with accrued interest.

In accordance with the Advisory Agreement, we bear all costs and expenses of the operation of the Company and reimburse the Investment Adviser for all such costs and expenses incurred in the operation of the Company. For the three months ended March 31, 2007 and March 31, 2006, the Investment Adviser incurred such expenses totaling \$557,556 and \$130,135, respectively. As of March 31, 2007, \$327,907 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

During 2006, we entered into a sublease agreement with Ares Management, whereby Ares Management subleases approximately 25% of the office facilities that we lease, for a fixed rent equal to 25% of the basic annual rent payable by us under our lease, plus certain additional costs and expenses. For the three months ended March 31, 2007, such amounts payable to the Company totaled \$41,920. As of March 31, 2007, the entire amount was unpaid and included as a receivable in other assets in the accompanying consolidated balance sheet.

As of March 31, 2007, Ares Management, of which the Investment Adviser is a wholly owned subsidiary, owned 666,667 shares of the Company's common stock representing approximately 1.2% of the total shares outstanding as of March 31, 2007.

See Note 3 for a description of other related party transactions.

Total proceeds received from the sale of common stock pursuant to the over-allotment option, net of the underwriter's discount and offering costs, were approximately \$7.5 million.

On February 9, 2007, we completed a public add-on offering (the February Add-on Offering) of 1,382,078 shares of common stock (including the underwriter's over-allotment option of 180,271 shares) at \$19.95 per share, less an underwriting discount and commissions totaling \$0.25 per share. 13. IMPACT OF NEW ACCOUNTING STANDARDS

In July 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48). FIN 48 provides guidance on how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authorities. Tax positions not deemed to satisfy the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. FASB required adoption of FIN 48 for fiscal years beginning after December 15, 2006, and FIN 48 is to be applied to all open tax years as of the effective date. However, on December 22, 2006, the Securities and Exchange Commission delayed the required implementation date of FIN 48 for business development companies until March 31, 2007. As of March 31, 2007, the Company evaluated the implications of FIN 48 and determined that there is no material impact on the consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurement (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements, but does not require any new fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, the Company is evaluating the implications of SFAS No. 157, and its impact in the consolidated financial statements has not yet been determined.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159), which provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. SFAS 159 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. SFAS 159 does not eliminate disclosure requirements of other accounting standards, including fair value measurement disclosures in SFAS 157. This Statement is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. Early adoption is permitted as of the beginning of the previous fiscal year provided that the entity makes that choice in the first 120 days of that fiscal year and also elects to apply the provisions of Statement 157. At this time, the Company is evaluating the implications of SFAS No. 159, and its impact in the consolidated financial statements has not yet been determined.

14. SUBSEQUENT EVENTS

OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland that is regulated as a business development company (a BDC) under the Investment Company Act of 1940 (1940 Act). We were founded on April 16, 2004 and were initially funded on June 23, 2004 and on October 8, 2004 completed our initial public offering (the IPO).

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and long-term mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments in private U.S. middle market companies.

We are externally managed by Ares Capital Management LLC (the Investment Adviser), an affiliate of Ares Management LLC, an independent Los Angeles based firm that manages investment funds. Ares Technical Administration LLC, an affiliate of Ares Management LLC, initially provided the administrative services necessary for us to operate pursuant to an administration agreement. As of April 30, 2007, Ares Operations LLC, another affiliate of Ares Management (Ares Administration), succeeded to the rights and obligations of Ares Technical

Administration LLC under the administration agreement and since such date has been providing the administrative services necessary for us to operate.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities of private U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

We have elected to be treated as a regulated investment company, or a RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements. Pursuant to these elections, we generally will not have to pay corporate-level taxes on any income that we distribute to our stockholders.

PORTFOLIO AND INVESTMENT ACTIVITY

For the three months ended March 31, 2007, we issued 10 new commitments in an aggregate amount of \$364.2 million (\$314.0 million to new portfolio companies and \$50.2 million to existing portfolio companies) where the average commitment amount was approximately \$36.4 million and the weighted average commitment terms were approximately 71 months, compared to 13 new commitments in an aggregate amount of \$202.4 million (\$193.6 million to new portfolio companies and \$8.8 million to existing portfolio companies) where the average commitment amount was approximately \$15.6 million and the weighted average commitment terms were approximately 63 months for the three months ended March 31, 2006. During the three months ended March 31, 2007, we funded \$288.6 million of such commitments (\$238.4 million to new portfolio companies and \$50.2 million to existing portfolio companies) compared to \$195.4 million of commitments (\$179.4 million to new portfolio companies and \$16.0 million to existing portfolio companies) for the three months ended March 31, 2006. Also during the three months ended March 31, 2007, we had \$102.1 million in exits and repayments of commitments resulting in net commitments of \$262.1 million for the period. For the three months ended March 31, 2006, we had \$35.9 million in exits and repayments of commitments resulting in net commitments of \$166.5 million for the period. We have remaining contractual obligations for \$70.1 million with respect to commitments funded as of March 31, 2007. The weighted average yield of debt and income producing equity securities funded during the three months ended March 31, 2007 and March 31, 2006 was approximately 11.37% and 12.12%, respectively (computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt divided by (b) total debt and income producing equity securities at fair value).

For the three months ended March 31, 2007, the Company funded (A) \$257.7 million aggregate principal amount of senior term debt, (B) \$43.1 million aggregate principal amount of senior subordinated debt and (C) \$8.3 million of investments in equity securities. Additionally, (a) \$9.1 million aggregate principal amount of equity securities and (b) \$6.1 million aggregate principal amount of senior term debt was sold.

The Investment Adviser employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, we grade all loans on a scale of 1 to 4 no less frequently than quarterly. This system is intended to reflect the performance of the borrower's business, the collateral coverage of the loans and other factors considered relevant. Under this system, loans with a grade of 4 involve the least amount of risk in our portfolio. The borrower is performing above expectations and the trends and risk factors are generally favorable (including a potential exit). Loans graded 3 involve a level of risk that is similar to the risk at the time of origination. The borrower is performing as expected and the risk factors are neutral to favorable. All new loans are

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

initially graded 3. Loans graded 2 involve a borrower performing below expectations and indicates that the loan's risk has increased materially since origination. The borrower may be out of compliance with debt covenants, however, loan payments are generally not more than 120 days past due. For loans graded 2, we increase procedures to monitor the borrower and we will write down the fair value of the investment if it is deemed to be impaired. A loan grade of 1 indicates that the borrower is performing materially below expectations and that the loan risk has substantially increased since origination. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans graded 1 are not anticipated to be repaid in full and we will reduce the fair market value of the investment to the amount we anticipate will be recovered. As of March 31, 2007, the weighted average investment grade of the debt in our portfolio was 3.1. The weighted average investment grade of the debt in our portfolio as of December 31, 2006 was 3.0. The following is a distribution of the grades of our portfolio companies as of March 31, 2007 and December 31, 2006:

| | March 31, 2007 | | December 31, 2006 | |
|---------|------------------|---------------------|-------------------|---------------------|
| | Fair Value | Number of Companies | Fair Value | Number of Companies |
| Grade 1 | \$ 505,090 | 1 | \$ 504,206 | 1 |
| Grade 2 | 80,030,960 | 4 | 14,206,419 | 1 |
| Grade 3 | 1,120,944,002 | 49 | 1,189,399,643 | 56 |
| Grade 4 | 232,268,069 | 12 | 31,711,568 | 2 |
| | \$ 1,433,748,121 | 66 | \$ 1,235,821,836 | 60 |

As of March 31, 2007, the weighted average yield of the debt and income producing equity securities in our portfolio was approximately 11.71%. As of March 31, 2007, the weighted average yield on our entire portfolio was 10.61%. The weighted average yield on our senior term debt, senior subordinated debt and income producing equity securities was 11.35%, 12.91% and 10.00%, respectively. Of the senior term debt, the weighted average yield attributable to first lien senior term debt and second lien senior term debt was 11.05% and 11.90%, respectively.

As of December 31, 2006, the weighted average yield of the debt and income producing equity securities in our portfolio was approximately 11.95%. As of December 31, 2006, the weighted average yield on our entire portfolio was 10.79%. The weighted average yield on our senior term debt, senior subordinated debt and income producing equity securities was 11.52%, 13.16% and 10.00%, respectively. Of the senior term debt, the weighted average yield attributable to first lien senior term debt and second lien senior term debt was 11.22% and 11.94%, respectively.

The weighted average yield on our debt and income producing equity securities was lower as of March 31, 2007 compared to the weighted average yield on our debt and income producing equity securities as of December 31, 2006 because we added a higher percentage of lower yielding first lien investments during the three months ended March 31, 2007, and the average yield on our exits and repayments was higher than the investments added during the period.

Incentive fees related to pre-incentive fee net investment income increased \$1.8 million, or 63%, to \$4.8 million for the three months ended March 31, 2007 from \$2.9 million for the comparable period in 2006, primarily due to the increase in the size of the portfolio and the related increase in net investment income. Interest expense and credit facility fees increased \$6.8 million, or 394%, to \$8.5 million for the three months ended March 31, 2007 from \$1.7 million for the comparable period in 2006, primarily due to the significant increase in the borrowings outstanding. The average outstanding borrowings during the three months ended March 31, 2007 were \$529.6 million compared to average outstanding borrowings of \$73.8 million in the comparable period in 2006.

Income Tax Expense, Including Excise Tax

The Company has qualified and elected and intends to continue to qualify for the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended March 31, 2007, the Company recognized a \$64,000 benefit for federal excise tax to reverse an over-accrual of estimated excise tax at December 31, 2006.

RECENT DEVELOPMENTS

On April 4, 2007, we completed a public add-on offering of 15,525,000 shares of common stock (including the underwriters' over-allotment option of 2,025,000 shares) at \$17.97 per share, less an underwriting discount totaling approximately \$0.72 per share. Total proceeds received from the April add-on offering, net of the underwriters' discount and offering costs, were approximately \$267.3 million.

In addition to \$143.8 million of investments that the Company has made since March 31, 2007, we have outstanding commitments to fund an aggregate of approximately \$110.0 million of investments. The Company expects to syndicate a portion of these commitments to third parties. In addition, the Company has an investment pipeline of approximately \$709.5 million. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment, the execution and delivery of satisfactory documentation and the receipt of any necessary consents. The Company cannot assure you that we will make any of these investments.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the spread between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of March 31, 2007, approximately 37% of the investments at fair value in our portfolio were at fixed rates while approximately 54% were at variable rates and 9% were non-interest earning. In addition, the Debt Securitization, the CP Funding Facility and the Revolving Credit Facility all feature variable rates.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

On January 7, 2005, we entered into a costless collar agreement in order to manage the exposure to changing interest rates related to the Company's fixed rate investments. The costless collar agreement was for a notional amount of \$20 million, has a cap of 6.5%, a floor of 2.72% and matures in 2008. The costless collar agreement allows us to receive an interest payment when the 3-month LIBOR exceeds 6.5% and obligates us to pay an interest payment when the 3-month LIBOR is less than 2.72%. The costless collar resets quarterly based on the 3-month LIBOR. As of March 31, 2007, the 3-month LIBOR was 5.35%. As of March 31, 2007, this agreement had no fair value.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Based on our March 31, 2007 balance sheet, the following table shows the impact on net income of base rate changes in interest rates assuming no changes in our investment and borrowing structure.

| Basis Point Change | Interest Income | Interest Expense | Net Income |
|-----------------------|------------------|------------------|-----------------|
| Up 300 basis points | \$ 29,042,300 | \$ 20,100,000 | \$ 8,942,300 |

Portfolio Valuation

Investments for which market quotations are readily available are valued at such market quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors based on the input of our management and audit committee. In addition, the board of directors currently receives input from independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio security at least once during a trailing 12 month period. The valuation process is conducted at the end of each fiscal quarter, with approximately a quarter of our valuations of portfolio companies subject to review by an independent valuation firm each quarter. The types of factors that the board may take into account in fair value pricing of our investments include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our private equity valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment.
- Preliminary valuation conclusions are then documented and discussed with our management.
- The audit committee of our board of directors reviews these preliminary valuations, as well as the input of an independent valuation firm with respect to the valuations of approximately a quarter of our portfolio companies.
- The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our management and audit committee and independent valuation firms.
