-

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off -Balance sheet Arrangement of a Registrant.

As of August 14, our outstanding borrowings under the revolving credit component of our credit facility were \$37 million. As of August 19, the outstanding amount was \$35.3 million

Based on our leverage ratio as defined in our credit facility, the interest rate on our outstanding borrowings under our credit facility increased by 75 basis points effective August 11, 2008.

Item 8.01. Other Events.

We have advised our bank lenders that we are in breach of the leverage ratio, the fixed charge coverage ratio and the tangible net worth covenants of our credit facility. We have discussed our noncompliance with our bank lenders and are working to restructure our credit facility. Our lenders have continued to honor our draws under the credit facility. Although we are waiting for credit committee approvals and documentation, which may take a week or more to resolve, we believe our lenders will increase our revolving credit line from \$40 million to \$55 million. We also believe they will want to terminate the term component of our credit facility, which we have not used. We anticipate that they will forebear from exercising any rights under our credit facility as a result of our breach for a period of 90 days from the date of the amendment, during which time they will consider a new, long-term arrangement with us.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

MGP INGREDIENTS, INC.
