Item 8.01. Other Events

(a) As described in Item 2 under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations Business Environment Regulation Maryland in the Quarterly Report on Form 10-Q of Constellation Energy Group, Inc. (Constellation) and Baltimore Gas and Electric Company (BGE) for the period ended September 30, 2010, in May 2010, BGE filed an application for an increase in its electric and gas distribution rates with the Maryland Public Service Commission (PSC). In its application, BGE requested an increase of \$47.2 million and \$30.4 million in its electric and gas distribution rates, respectively. The request was based upon an 8.99% rate of return with an 11.65% return on equity and a 52% equity ratio. While BGE demonstrated the need for a \$92.3 million increase in electric distribution rates, distribution revenues awarded to BGE in the case are subject to a 5% cap pursuant to the terms of the 2008 settlement agreement with the State of Maryland as well as the Maryland PSC's order in October 2009 approving the nuclear joint venture between Constellation and Electricite de France SA.

On December 6, 2010, the PSC issued an abbreviated order authorizing BGE to increase electric distribution rates by no more than \$30.98 million and increase gas distribution rates by no more than \$9.753 million for service rendered on or after December 4, 2010. The electric distribution rate increase was based upon a 8.06% rate of return with a 9.86% return on equity and a 52% equity ratio. The gas distribution rate increase was based upon a 7.9% rate of return with a 9.56% return on equity and a 52% equity ratio. BGE is evaluating the abbreviated order, and will evaluate the comprehensive rate order the PSC will issue in the near future, and will assess its alternatives, and BGE cannot predict the outcome of such assessment.
