LINCOLN ELECTRIC HOLDINGS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except per share amounts

NOTE 1 BASIS OF PRESENTATION

As used in this report, the term "Company," except as otherwise indicated by the context, means Lincoln Electric Holdings, Inc. and its wholly-owned and majority-owned subsidiaries for which it has a controlling interest. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these unaudited consolidated financial statements do not include all of the information and notes required by GAAP for complete financial statements. However, in the opinion of management, these unaudited consolidated financial statements contain all the adjustments (consisting of normal recurring accruals) considered necessary to present fairly the financial position, results of operations and cash flows for the interim periods. Operating results for the six months ended June 30, 2011 are not necessarily indicative of the results to be expected for the year ending December 31, 2011.

The accompanying Consolidated Balance Sheet at December 31, 2010 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

On April 29, 2011, the Company announced a two-for-one stock split of the Company's common shares effective in the form of a 100% stock dividend. The record date for the stock split was May 16, 2011 and the additional shares were distributed on May 31, 2011. Accordingly, all per share amounts, average shares outstanding, shares outstanding, shares repurchased and equity based compensation presented in this Form 10-Q have been retroactively adjusted to reflect the stock split. Shareholders' equity has been retroactively adjusted to give effect to the stock split for all periods presented by reclassifying the stated value of the additional shares issued in connection with the stock split to Common shares from Additional paid-in capital.

Certain reclassifications have been made to the prior year financial statements to conform to current year classifications.

Venezuela Foreign Currency

Effective January 1, 2010, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency (U.S. dollar). A currency control board exists in Venezuela that is responsible for foreign exchange procedures, including approval of requests for exchanges of the Venezuelan currency (the "bolivar") for U.S. dollars at the official (government established) exchange rates. An unregulated parallel market that existed for exchanging bolivars for U.S. dollars through securities transactions was terminated by the Venezuelan government on May 17, 2010 and subsequently established as a regulated market on June 9, 2010.

The official exchange rate in Venezuela had been fixed at 2.15 bolivars to 1 U.S. dollar for several years. On January 8, 2010, the Venezuelan government announced the devaluation of its currency relative to the U.S. dollar. The official exchange rate for imported goods classified as essential changed from 2.15 to 2.60 (the Essential Rate), while the official exchange rate for other non-essential goods moved to an exchange rate of 4.30 (the Non-Essential Rate). In remeasuring the financial statements the Non-Essential Rate is used as this is the rate expected to be applicable to dividend repatriations.

In December 2010, the Venezuelan government announced the elimination of the Essential Rate effective as of January 1, 2011. The impact of the elimination of the Essential Rate did not have a significant impact on the Company's consolidated financial statements.

Venezuela Highly Inflationary Economy

Venezuela is a highly inflationary economy under GAAP. As a result, the financial statements of the Company's Venezuelan operation are reported under highly inflationary accounting rules as of January 1, 2010. Under highly inflationary accounting, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency and exchange gains and losses from the remeasurement of monetary assets and liabilities are reflected in current earnings.

Future impacts to earnings of applying highly inflationary accounting for Venezuela on the Company's consolidated financial statements will be dependent upon movements in the applicable exchange rates between the bolivar and the U.S. dollar and the

amount of monetary assets and liabilities included in the Company's Venezuelan operation's balance sheet. The bolivar-denominated monetary net asset position was \$601 at June 30, 2011 and net liability position was \$4,715 at December 31, 2010.

The devaluation of the bolivar and the change to the U.S. dollar as the functional currency for the six months ended June 30, 2010 resulted in a foreign currency transaction gain of \$2,632 in Selling, general & administrative expenses and higher Cost of goods sold of \$4,940 due to the liquidation of inventory valued at the historical exchange rate.

NOTE 2 NEW ACCOUNTING PRONOUNCEMENTS

New Accounting Standards Adopted:

In December 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-29, *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations a consensus of the FASB Emerging Issues Task Force*. The objective of ASU 2010-29 is to address diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. This standard is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. ASU 2010-29 was adopted by the Company on January 1, 2011 and did not have an impact on the Company's financial statements.

In October 2009, the FASB issued ASU No. 2009-13, *Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements a consensus of the FASB Emerging Issues Task Force*. This update provides amendments to the criteria in Accounting Standards Codification (ASC) Subtopic 605-25. ASU 2009-13 provides principles for allocating consideration among multiple-elements and accounting for separate deliverables under an arrangement. ASC 605-25, as amended, introduces an estimated selling price method for valuing the elements of a bundled arrangement if vendor-specific objective evidence or third-party evidence of selling price is not available and significantly expands related disclosure requirements. This standard is effective on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Alternatively, adoption may be on a retrospective basis. ASU 2009-13 was adopted by the Company on January 1, 2011 and did not have a significant impact on the Company's financial statements.

New Accounting Standards to be Adopted:

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. This update provides amendments to ASC Topic 220, Comprehensive Income. ASU 2011-05 provides an entity the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Under both options, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income and a total amount for comprehensive income. Further, the entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. The amendments should be applied retrospectively and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. The Company does not expect adoption of this standard to have a significant impact on the Company's financial statements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amends ASC Topic 820, resulting in common fair value measurement and disclosure requirements in GAAP and International Financial Reporting Standards (IFRS). Consequently, the amendments change the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. These amendments are to be applied prospectively and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early application is not permitted. The Company is currently evaluating the impact of the adoption of ASU 2011-04 on the Company's financial statements.

NOTE 3 ACQUISITIONS

On July 29, 2011, the Company acquired substantially all of the assets of Techalloy Company, Inc. and certain assets of its parent company, Central Wire Industries Ltd. (collectively, Techalloy) for approximately \$38,700 in cash and assumed debt. Techalloy, based in Baltimore, Maryland, was a privately-held manufacturer of nickel alloy and stainless steel welding consumables. The acquisition will add to the Company's consumables portfolio. Annual sales for Techalloy at the date of acquisition were approximately \$70,000.

On July 29, 2011, the Company acquired substantially all of the assets of Applied Robotics, Inc. (d/b/a Torchmate) (Torchmate) for approximately \$9,000 in cash. Torchmate, based in Reno, Nevada, provides a wide selection of computer numeric controlled plasma cutter and oxy-fuel cutting systems. The acquisition will add to the Company's product offering. Annual sales for Torchmate at the date of acquisition were approximately \$13,000.

On March 11, 2011, the Company completed the acquisition of OOO Severstal-metiz: welding consumables (Severstal) for approximately \$16,861 in cash and assumed debt. The preliminary fair value of the assets acquired were \$8,322, resulting in goodwill of \$8,539. Severstal is a leading manufacturer of welding consumables in Russia and was a subsidiary of OAO Severstal, one of the world's leading vertically integrated steel and mining companies. This acquisition expanded the Company's capacity and distribution channels in Russia and the Commonwealth of Independent States (CIS). Sales for Severstal during 2010 were approximately \$40,000.

On January 31, 2011, the Company acquired substantially all of the assets of SSCO Manufacturing, Inc. (d/b/a Arc Products) (Arc Products) for approximately \$3,280 in cash and a contingent consideration liability fair valued at \$3,806. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The preliminary fair value of the assets acquired were \$3,613, resulting in goodwill of \$3,473. Arc Products was a privately-held manufacturer of orbital welding systems and welding automation components based in Southern California. Orbital welding systems are designed to automatically weld pipe and tube in difficult to access locations and for mission-critical applications requiring high weld integrity and sophisticated quality monitoring capabilities. The acquisition will complement the Company's ability to serve global customers in the nuclear, power generation and process industries worldwide. Sales for Arc Products during 2010 were not significant.

Pro forma information related to these acquisitions has not been presented because the impact on the Company's Consolidated Statements of Income is not material.

On October 29, 2010, the Company acquired all of the outstanding stock of Mezghosmetiz-Mtsensk OAO (MGM), a privately-held welding wire manufacturer based in the Orel region of Russia, for approximately \$28,500 in cash and assumed debt. This acquisition represented the Company's first manufacturing operation in Russia as well as established distribution channels to serve the growing Russian and CIS welding

markets. Annual sales at the date of acquisition were approximately \$30,000.

Acquired companies are included in the Company's consolidated financial statements as of the date of acquisition.

NOTE 4 SEGMENT INFORMATION

The Company's primary business is the design and manufacture of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. The Company also has a leading global position in the brazing and soldering alloys market. The Company has aligned its business units into five operating segments to enhance the utilization of the Company's worldwide resources and global sourcing initiatives. The operating segments consist of North America Welding, Europe Welding, Asia Pacific Welding, South America Welding and The Harris Products Group. The North America Welding segment includes welding operations in the United States, Canada and Mexico. The Europe Welding segment includes welding operations in Europe, Russia and Africa. The other two welding segments include welding operations in Asia Pacific and South America, respectively. The fifth segment, The Harris Products Group, includes the Company's global cutting, soldering and brazing businesses as well as the retail business in the United States.

Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being earnings before interest and income taxes (EBIT), as adjusted. Segment EBIT is adjusted for special items as determined by management such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

NOTE 5 RATIONALIZATION AND ASSET IMPAIRMENTS

During 2009, the Company initiated rationalization actions including the consolidation of certain manufacturing operations in the Europe Welding, Asia Pacific Welding and The Harris Products Group segments. The Company recognized a net charge of \$282 for the six months ended June 30, 2011, composed of a charge of \$259 related to activities for employee severance and other related charges and a net charge of \$23 related to asset impairments. At June 30, 2011, a liability relating to these actions of \$1,368 was recognized in Other current liabilities. The Company does not expect any further material costs associated with these actions in 2011 as they were substantially completed in 2010 and are expected to be substantially paid by the end of 2011.

The following table summarizes the activity related to the rationalization liabilities by segment:

	Europe Welding		Asia Pacific Welding		The Harris Products Group		Consolidated

NOTE 6 STOCK-BASED COMPENSATION

The Company issued 327,624 and 74,842 shares of common stock from treasury upon exercise of stock options during the six months ended June 30, 2011 and 2010, respectively, and 2,138 and 392 shares of common stock from treasury for dividends earned on the vesting of restricted shares during the six months ended June 30, 2011 and 2010, respectively. The Company granted 3,900 and 1,600 stock options during the six months ended June 30, 2011 and 2010, respectively and 2,672 restricted shares during the six months ended June 30, 2010. The restricted shares granted during the six months ended June 30, 2010 were issued from treasury.

For the three months ended June 30, 2011 and 2010, common shares subject to equity-based awards of 486,310 and 1,393,116, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive. For the six months ended June 30, 2011 and 2010, common shares subject to equity-based awards of 486,260

NOTE 7 COMMON SHARE REPURCHASE PROGRAM

The Company has a share repurchase program for up to 30 million shares of the Company's common stock. At management's discretion, the Company repurchases its common stock from time to time in the open market, depending on market conditions, stock price and other factors. During the three and six month periods ended June 30, 2011, the Company purchased an aggregate of 340,000 shares in the open market under this plan. As of June 30, 2011, there remained 5,822,986 shares available for repurchase under the stock repurchase program. The treasury shares have not been retired.

NOTE 10 INVENTORY VALUATION

Inventories are valued at the lower of cost or market. Fixed manufacturing overhead costs are allocated to inventory based on normal production capacity and abnormal manufacturing costs are recognized as period costs. For most domestic inventories, cost is determined principally by the last-in, first-out (LIFO) method, and for non-U.S. inventories, cost is determined by the first-in, first-out (FIFO) method. The valuation of LIFO inventories is made at the end of each year based on inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Actual year-end costs and inventory levels may differ from interim LIFO inventory valuations. The excess of current cost over LIFO cost was \$77,034 and \$70,906 at June 30, 2011 and December 31, 2010, respectively.

NOTE 11 ACCRUED EMPLOYEE BONUS

Other current liabilities at June 30, 2011 and 2010 include accruals for year-end bonuses and related payroll taxes of \$58,019 and \$36,961, respectively, related to the Company's employees worldwide. The payment of bonuses is discretionary and subject to approval by the Board of Directors. A majority of annual bonuses are paid in December resulting in an increasing bonus accrual during the Company's fiscal year. The increase in the accrual from June 30, 2010 to June 30, 2011 is due to the increase in profitability of the Company.

NOTE 12 CONTINGENCIES

The Company, like other manufacturers, is subject from time to time to a variety of civil and administrative proceedings arising in the ordinary course of business. Such claims and litigation include, without limitation, product liability claims and health, safety and environmental claims, some of which relate to cases alleging asbestos and manganese induced illnesses. The claimants in the asbestos and manganese cases seek compensatory and punitive damages, in most cases for unspecified amounts. The Company believes it has meritorious defenses to these claims and intends to contest such suits vigorously.

The Company's accrual for contingent liabilities, primarily for product liability claims, was \$5,844 as of June 30, 2011 and \$5,711 as of December 31, 2010. The accrual is included in Other current liabilities. The Company also recognized an asset for recoveries from insurance carriers related to the insured claims outstanding of \$1,615 as of June 30, 2011 and \$1,616 as of December 31, 2010. The asset is included in Other current assets.

Based on the Company's historical experience in litigating product liability claims, including a significant number of dismissals, summary judgments and defense verdicts in many cases and immaterial settlement amounts, as well as the Company's current assessment of the underlying merits of the claims and applicable insurance, the Company believes resolution of these claims and proceedings, individually or in the aggregate (exclusive of defense costs), will not have a material effect on the Company's consolidated financial statements.

Table of Contents**LINCOLN ELECTRIC HOLDINGS, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Dollars in thousands, except per share amounts****NOTE 13 PRODUCT WARRANTY COSTS**

The Company accrues for product warranty claims based on historical experience and the expected material and labor costs to provide warranty service. Warranty services are generally provided for periods up to three years from the date of sale. The accrual for product warranty claims is included in Other current liabilities.

The changes in the carrying amount of product warranty accruals for the six months ended June 30, 2011 and 2010 are as follows:

	Six Months Ended June 30,			
	2011		2010	
Balance at beginning of period	\$	16,879	\$	16,768
Charged to expense		4,978		5,181
Deductions		(5,259)		(5,195)
Foreign currency translation		394		(683)
Balance at end of period	\$	16,992	\$	16,071

Warranty expense was 0.4% and 0.5% of sales for the six months ended June 30, 2011 and 2010, respectively.

NOTE 14 DEBT

The Company's \$80,000 Series C Note (the Note) is due in March 2011. The Company has a line of credit totaling \$150,000 through the Amended and Restated Credit Agreement (the Credit Agreement) which was entered into on November 18, 2009. As of June 30, 2011, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement, but had letters of credit outstanding totaling \$60, which reduced the availability under the Credit Agreement to \$149,940. The Credit Agreement has a three-year term and may be increased, subject to certain conditions, by an additional amount up to \$75,000 at any time not later than 180 days prior to the last day of the term.

The Company historically utilized interest rate swaps to manage interest rate risks. The Company terminated its remaining interest rate swaps in 2009 and had no interest rate swaps outstanding as of June 30, 2011. The termination of interest rate swaps in 2009 resulted in a realized gain of \$5,079. This gain was deferred and is being amortized over the remaining life of the Note. The amortization of this gain reduced Interest expense by \$824 in the six month periods ended June 30, 2011 and 2010 and is expected to reduce annual interest expense by \$1,661 during

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

2011. At June 30, 2011, \$1,165 remains to be amortized and is recognized in Long-term debt, current portion. The weighted average effective interest rate on the Note, net of the impact of swaps, was 4.0 % for the six months ended June 30, 2011.

NOTE 15 RETIREMENT AND POSTRETIREMENT BENEFIT PLANS

The components of total pension cost were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Service cost	\$ 4,326	\$ 3,639	\$ 8,661	\$ 7,683

Total pension cost	\$ 8,764	\$ 8,597	\$ 17,446	\$ 18,658

The Company voluntarily contributed \$16,000 to its defined benefit plans in the United States during the six months ended June 30, 2011 and expects to contribute a total of \$30,000 to its defined benefit plans in the United States during 2011.

The expected return on plan assets increased in 2011 due to higher investment balances in plan assets at December 31, 2010 than at December 31, 2009.

NOTE 16 INCOME TAXES

The Company recognized \$38,067 of tax expense on pre-tax income of \$142,031, resulting in an effective income tax rate of 26.8% for the six months ended June 30, 2011. The effective income tax rate is lower than the Company's statutory rate primarily because of income earned in lower tax rate jurisdictions and a tax benefit of \$4,844 for tax audit settlements.

The effective income tax rate of 32.7% for the six months ended June 30, 2010 was lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions and the utilization of foreign tax loss carryforwards for which valuation allowances had been previously recognized.

The anticipated effective income tax rate for 2011 depends on the amount of earnings in various tax jurisdictions and the level of related tax deductions achieved during the year.

As of June 30, 2011, the Company had \$29,990 of unrecognized tax benefits. If recognized, approximately \$19,250 would be recognized as a component of income tax expense.

The Company files income tax returns in the U.S. and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2005. The Company is currently subject to various U.S. state audits, a German tax audit for 2007-2009, a Canadian tax audit for 2005-2007 and an Indonesian tax audit for 2003-2007. The Company does not expect the results of these examinations to have a material effect on the Company's consolidated financial statements.

Unrecognized tax benefits are reviewed on an ongoing basis and are adjusted for changing facts and circumstances, including progress of tax audits and closing of statutes of limitations. Based on information currently available, management believes that additional audit activity could be completed and/or statutes of limitations may close relating to existing unrecognized tax benefits. It is reasonably possible there could be a reduction of \$6,309 in prior years' unrecognized tax benefits by the end of the second quarter 2012.

NOTE 17 DERIVATIVES

The Company uses derivatives to manage exposures to currency exchange rates, interest rates and commodity prices arising in the normal course of business. Derivative contracts to hedge currency and commodity exposures are generally written on a short-term basis but may cover exposures for up to two years while interest rate contracts may cover longer periods consistent with the terms of the underlying debt. The Company does not enter into derivatives for trading or speculative purposes.

All derivatives are recognized at fair value on the Company's Consolidated Balance Sheets. The accounting for gains and losses resulting from changes in fair value depends on the use of the derivative and whether it is designated and qualifies for hedge accounting. The Company formally documents the relationship of the hedge with the hedged item as well as the risk-management strategy for all designated hedges. Both at inception and on an ongoing basis, the hedging instrument is assessed as to its effectiveness, when applicable. If and when a derivative is determined not to be highly effective as a hedge, the underlying hedged transaction is no longer likely to occur, or the derivative is terminated, hedge accounting is discontinued. The cash flows from settled derivative contracts are recognized in operating activities in the Company's Consolidated Statements of Cash Flows. Hedge ineffectiveness was immaterial in the six months ended June 30, 2011 and 2010.

The Company is subject to the credit risk of the counterparties to derivative instruments. Counterparties include a number of major banks and financial institutions. The Company manages individual counterparty exposure by monitoring the credit rating of the counterparty and the size of financial commitments and exposures between the Company and the counterparty. None of the concentrations of risk with any individual counterparty was considered significant at June 30, 2011. The Company does not expect any counterparties to fail to meet their obligations.

Cash Flow Hedges

Certain foreign currency forward contracts were qualified and designated as cash flow hedges. The dollar equivalent gross notional amount of these short-term contracts was \$47,669 and \$33,221 at June 30, 2011 and December 31, 2010, respectively. The effective portions of the fair value gains or losses on these cash flow hedges are recognized in Accumulated other comprehensive income (AOCI) and subsequently reclassified to Cost of goods sold or Sales for hedges of purchases and sales, respectively, as the underlying hedged transactions affect earnings.

Fair Value Hedges

The Company had no fair value hedges outstanding at June 30, 2011 or December 31, 2010.

Derivatives Not Designated as Hedging Instruments

The Company has certain foreign exchange forward contracts that are not designated as hedges. These derivatives are held as economic hedges of certain balance sheet exposures. The dollar equivalent gross notional amount of these contracts was \$179,376 and \$173,116 at June 30, 2011 and December 31, 2010, respectively. The fair value gains or losses from these contracts are recognized in Selling, general and administrative expenses, offsetting the losses or gains on the exposures being hedged.

The Company had short-term silver forward contracts with notional amounts of 415,000 troy ounces at June 30, 2011. The notional amount of short-term silver contracts was 380,000 troy ounces at December 31, 2010. Realized and unrealized gains and losses on these contracts were recognized in earnings.

The Company expects a loss of \$456 related to existing contracts to be reclassified from AOCI, net of tax, to earnings over the next 12 months as the hedged transactions are realized.

NOTE 18 - FAIR VALUE

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The following hierarchy is used to classify the inputs used to measure fair value:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 Unobservable inputs for the asset or liability.

The following table provides a summary of assets and liabilities as of June 30, 2011 measured at fair value on a recurring basis:

	Balance as of	Quoted Prices in Active Markets for Identical Assets or Liabilities	Significant Other Observable Inputs	Significant Unobservable Inputs
Assets:				
Foreign exchange contracts	\$ 780	\$	\$ 780	\$
Commodity contracts	457		457	
Total assets	\$ 1,237	\$	\$ 1,237	\$
Liabilities:

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Dollars in thousands, except per share amounts

The following table provides a summary of assets and liabilities as of December 31, 2010 measured at fair value on a recurring basis:

Description	Balance as of December 31, 2010	Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Foreign exchange contracts	\$ 633	\$	\$ 633	\$
Liabilities:				
Foreign exchange contracts	\$ 1,956	\$	\$ 1,956	\$
Commodity contracts	1,051		1,051	
Total liabilities	\$ 3,007	\$	\$ 3,007	\$

The Company's derivative contracts are valued at fair value using the market approach. The Company measures the fair value of foreign exchange contracts using Level 2 inputs based on observable spot and forward rates in active markets. The Company measures the fair value of commodity contracts using Level 2 inputs through observable market transactions in active markets provided by financial institutions. During the quarter ended June 30, 2011, there were no transfers between Levels 1, 2 or 3.

In connection with the Arc Products acquisition, the Company recorded a contingent consideration fair valued at \$3,806 at January 31, 2011 and \$4,023 at June 30, 2011, reflecting \$217 of non-cash accretion. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The fair value of the contingent consideration is considered a Level 3 valuation and is estimated using a probability weighted discounted cash flow analysis.

The fair value of Cash and cash equivalents, Accounts receivable, Amounts due banks and Trade accounts payable approximated book value due to the short-term nature of these instruments at both June 30, 2011 and December 31, 2010. The fair value of long-term debt at June 30, 2011 and December 31, 2010, including the current portion, was approximately \$86,196 and \$88,120, respectively, which was determined using available market information and methodologies requiring judgment. The carrying value of this debt at such dates was \$83,116 and \$86,422, respectively. Since considerable judgment is required in interpreting market information, the fair value of the debt is not necessarily the amount that could be realized in a current market exchange.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**
(Dollars in thousands, except per share amounts)

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read together with the Company's unaudited consolidated financial statements and other financial information included elsewhere in this Quarterly Report on Form 10-Q.

General

The Company is the world's largest designer and manufacturer of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. Welding products include arc welding power sources, wire feeding systems, robotic welding packages, fume extraction equipment, consumable electrodes and fluxes. The Company's product offering also includes regulators and torches used in oxy-fuel welding and cutting. In addition, the Company has a leading global position in the brazing and soldering alloys market.

The Company's products are sold in both domestic and international markets. In North America, products are sold principally through industrial distributors, retailers and also directly to users of welding products. Outside of North America, the Company has an international sales organization comprised of Company employees and agents who sell products from the Company's various manufacturing sites to distributors and product users.

On April 29, 2011, the Company announced a two-for-one stock split of the Company's common shares effective in the form of a 100% stock dividend. The record date for the stock split was May 16, 2011 and the additional shares were distributed on May 31, 2011. Accordingly, all per share amounts, average shares outstanding, shares outstanding, shares repurchased and equity based compensation presented in this Form 10-Q have been retroactively adjusted to reflect the stock split. Shareholders' equity has been retroactively adjusted to give effect to the stock split for all periods presented by reclassifying the stated value of the additional shares issued in connection with the stock split to Common shares from Additional paid-in capital.

Net sales volumes for the second quarter of 2011 increased for all operating segments as a result of improved demand levels reflective of expanding industrial economies and modest market share gains. Product pricing increased in all segments from prior year levels due to the realization of price increases implemented in response to increases in raw material costs. Product pricing in the South America Welding segment reflects a higher inflationary environment, particularly in Venezuela. Product pricing increased in The Harris Products Group segment primarily as a result of the pass-through effect of higher commodity costs, particularly silver and copper, over the prior year period. With respect to changes in Net sales due to foreign exchange, all segments increased due to a weaker U.S. dollar.

Gross Profit: Gross profit increased 31.6% to \$195,504 for the second quarter 2011 compared with \$148,583 in the second quarter 2010. As a percentage of Net sales, Gross profit decreased to 28.0% in the second quarter 2011 from 28.8% in the second quarter 2010. The decrease in this percentage was the result of rising material costs and lower margins from recent acquisitions. In the prior year period, the South America Welding segment recorded \$2,319 of charges resulting from the change in functional currency and related devaluation of the Venezuelan currency. Foreign currency exchange rates had a \$6,132 favorable translation impact in the second quarter 2011.

Selling, General & Administrative (SG&A) Expenses: SG&A expenses were higher than prior year by \$14,481, or 14.3%, in the second quarter 2011 compared with the second quarter 2010. As a percentage of Net sales, SG&A expenses were 16.5% in 2011 and 19.6% in 2010. The increase in SG&A expenses was predominantly due to higher bonus expense of \$11,034, an unfavorable impact of foreign currency translation of \$3,458 and increased selling, administrative and research and development expense of \$1,865, partially offset by a decrease in legal expenses of \$3,152.

Rationalization and Asset Impairment Charges (Gains): In the second quarter 2011, the Company recognized \$75 (\$44 after-tax) in gains primarily related to rationalization actions initiated in 2009.

Interest Income: Interest income increased to \$661 in the second quarter 2011 from \$544 in the second quarter 2010. The increase was due to the net effect of lower average Cash and cash equivalents balances earning higher interest rates in the second quarter 2011 when compared with the second quarter 2010.

Equity Earnings in Affiliates: Equity earnings in affiliates were \$1,715 in the second quarter 2011 compared with earnings of \$1,184 in the second quarter 2010. The increase was due to an increase in earnings of \$506 in Turkey and an increase of \$27 in Chile.

Interest Expense: Interest expense increased to \$1,627 in the second quarter 2011 from \$1,566 in the second quarter 2010 as a result of higher interest rates partially offset by lower levels of debt in the current period.

Income Taxes: The Company recognized \$24,472 of tax expense on pre-tax income of \$81,494, resulting in an effective income tax rate of 30.0% for the three months ended June 30, 2011. The effective income tax rate is lower than the Company's statutory rate primarily because of income earned in lower tax rate jurisdictions.

Table of Contents

The effective income tax rate of 33.5% for the three months ended June 30, 2010 was lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions and the utilization of foreign tax loss carryforwards for which valuation allowances had been previously recognized.

Net Income: Net income for the second quarter 2011 was \$57,013 compared with Net income of \$32,540 in the second quarter 2010. Diluted earnings per share for the second quarter 2011 was \$0.68 compared with \$0.38 in the second quarter 2010. Foreign currency exchange rate movements had a favorable translation effect of \$1,987 on Net income for the second quarter 2011.

Gross Profit: Gross profit increased 31.3% to \$356,942 for the six months ended June 30, 2011 compared with \$271,916 in the six months ended June 30, 2010. As a percentage of Net sales, Gross profit was essentially flat at 27.5% in the six months ended June 30, 2011 as compared to 27.6% in the same period in 2010. In the prior year period, the South America Welding segment recorded \$4,940 of charges resulting from the change in functional currency and related devaluation of the Venezuelan currency. Foreign currency exchange rates had a \$8,169 favorable translation impact in the six months ended June 30, 2011.

Selling, General & Administrative (SG&A) Expenses: SG&A expenses were higher than prior year by \$28,325, or 15.0%, in the six months ended June 30, 2011 compared with 2010. As a percentage of Net sales, SG&A expenses were 16.7% in the six months ended June 30, 2011 and 19.1% in the same period in 2010. The increase in SG&A expenses was predominantly due to higher bonus expense of \$18,706, an unfavorable impact of foreign currency translation of \$5,331, increased selling, administrative and research and development expense of \$4,805 and higher foreign currency transaction losses of \$4,010, partially offset by a decrease in legal expenses of \$5,442. In the prior year period, the South America Welding segment recorded a gain of \$2,632 due to the change in the functional currency and related devaluation of the Venezuelan currency.

Rationalization and Asset Impairment Charges (Gains): In the six months ended June 30, 2011, the Company recognized \$282 (\$237 after-tax) in charges primarily related to rationalization actions initiated in 2009.

Interest Income: Interest income increased to \$1,269 in the six months ended June 30, 2011 from \$1,179 in the six months ended June 30, 2010. The increase was due to the net effect of lower average Cash and cash equivalents balances earning higher interest rates in the six months ended June 30, 2011 when compared with the same period in 2010.

Equity Earnings in Affiliates: Equity earnings in affiliates were \$2,545 in the six months ended June 30, 2011 compared with earnings of \$1,614 in the same period in 2010. The increase was due to an increase in earnings of \$723 in Turkey and an increase of \$209 in Chile.

Interest Expense: Interest expense increased to \$3,285 in the six months ended June 30, 2011 from \$3,080 in the comparable prior year period as a result of higher interest rates partially offset by lower levels of debt in 2011.

Income Taxes: The Company recognized \$38,067 of tax expense on pre-tax income of \$142,031, resulting in an effective income tax rate of 26.8% for the six months ended June 30, 2011. The effective income tax rate is lower than the Company's statutory rate primarily because of income earned in lower tax rate jurisdictions and a tax benefit of \$4,844 for tax audit settlements.

The effective income tax rate of 32.7% for the six months ended June 30, 2010 was lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions and the utilization of foreign tax loss carryforwards for which valuation allowances had been previously recognized.

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

Net Income: Net income for the six months ended June 30, 2011 was \$103,923 compared with Net income of \$56,268 in the same period in 2010. Liquidity and Capital Resources

The Company's cash flow from operations can be cyclical. Operational cash flow is a key driver of liquidity, providing cash and access to capital markets. In assessing liquidity, the Company reviews working capital measurements to define areas for improvement. Management anticipates the Company will be able to satisfy cash requirements for its ongoing businesses for the foreseeable future primarily with cash generated by operations, existing cash balances and, if necessary, borrowings under its existing credit facilities.

The Company continues to expand globally and periodically looks at transactions that would involve significant investments. The Company can fund its global expansion plans with operational cash flow, but a significant acquisition may require access to capital markets, in particular, the long-term debt market, as well as the syndicated bank loan market. The Company's financing strategy is to fund itself at the lowest after-tax cost of funding. Where possible, the Company utilizes operational cash flows and raises capital in the most efficient market, usually the United States, and then lends funds to the specific subsidiary that requires funding. If additional acquisitions providing appropriate financial benefits become available, additional expenditures may be made.

The following table reflects changes in key cash flow measures:

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

Cash and cash equivalents decreased 7.7% or \$28,278 during the six months ended June 30, 2011 to \$337,915 from \$366,193 as of December 31, 2010. This compares to a decrease of 3.7% or \$14,235 to \$373,901 during the six months ended June 30, 2010.

Cash provided by operating activities decreased by \$2,167 for the six months ended June 30, 2011, compared with the six months ended June 30, 2010. This decrease was predominantly related to an increase in Net income offset by increases in net operating working capital required to support higher sales levels. Net operating working capital is defined as the sum of Accounts receivable and Total inventory less Trade accounts payable. Net operating working capital to sales, defined as net operating working capital divided by annualized rolling three months of Net sales, increased to 21.8% at June 30, 2011 compared with 20.7% at December 31, 2010 and decreased from 22.0% at June 30, 2010. Days sales in inventory increased to 102.2 days at June 30, 2011 from 89.8 days at December 31, 2010 and decreased from 104.3 days at June 30, 2010. Accounts receivable days increased to 56.2 days at June 30, 2011 from 55.4 days at December 31, 2010 and decreased from 57.0 days at June 30, 2010. Average days in accounts payable increased to 45.3 days at June 30, 2011 from 35.2 days at December 31, 2010 and 39.6 days at June 30, 2010.

Table of Contents

Cash used by investing activities for the six months ended June 30, 2011 compared with the six months ended June 30, 2010 increased by \$30,679. This reflects an increase in capital expenditures of \$5,880 in the six months ended June 30, 2011, and an increase in cash used in the acquisition of businesses of \$17,699. The Company anticipates capital expenditures in 2011 to be in the range of \$60,000 to \$70,000. Anticipated capital expenditures reflect investments for capital maintenance to improve operational effectiveness and the Company's continuing international expansion. Management critically evaluates all proposed capital expenditures and requires each project to increase efficiency, reduce costs, promote business growth, or to improve the overall safety and environmental conditions of the Company's facilities.

Cash used by financing activities decreased by \$7,569 to \$32,574 in the six months ended June 30, 2011 compared with the comparable period of 2010. The decrease was predominantly due to higher proceeds from the exercise of stock options of \$5,191 and decreased net payments of short-term borrowings of \$3,972 compared with the prior year comparable period.

The Company's debt levels decreased from \$97,705 at December 31, 2010 to \$97,199 at June 30, 2011. Debt to total invested capital decreased to 7.1% at June 30, 2011 from 7.8% at December 31, 2010. Included in the Company's debt is a Senior Unsecured Note with a balance of \$80,000, which is due in March 2012. The Company expects to repay this note with cash generated by operations, existing cash balances or through borrowings under its existing credit facilities.

In July 2011, the Company paid a cash dividend of \$0.155 per share, or \$12,996, to shareholders of record on June 30, 2011.

Venezuela Foreign Currency

Effective January 1, 2010, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency (U.S. dollar). A currency control board exists in Venezuela that is responsible for foreign exchange procedures, including approval of requests for exchanges of the Venezuelan currency (the bolivar) for U.S. dollars at the official (government established) exchange rates. An unregulated parallel market that existed for exchanging bolivars for U.S. dollars through securities transactions was terminated by the Venezuelan government on May 17, 2010 and subsequently established as a regulated market on June 9, 2010.

The official exchange rate in Venezuela had been fixed at 2.15 bolivars to 1 U.S. dollar for several years. On January 8, 2010, the Venezuelan government announced the devaluation of its currency relative to the U.S. dollar. The official exchange rate for imported goods classified as essential changed from 2.15 to 2.60 (the Essential Rate), while the official exchange rate for other non-essential goods moved to an exchange rate of 4.30 (the Non-Essential Rate). In remeasuring the financial statements the Non-Essential Rate is used as this is the rate expected to be applicable to dividend repatriations.

In December 2010, the Venezuelan government announced the elimination of the Essential Rate effective as of January 1, 2011. The impact of the elimination of the Essential Rate did not have a significant impact on the Company's consolidated financial statements.

Venezuela Highly Inflationary Economy

Venezuela is a highly inflationary economy under GAAP. As a result, the financial statements of the Company's Venezuelan operation are reported under highly inflationary accounting rules as of January 1, 2010. Under highly inflationary accounting, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency and exchange gains and losses from the remeasurement of monetary assets and liabilities are reflected in current earnings.

Future impacts to earnings of applying highly inflationary accounting for Venezuela on the Company's consolidated financial statements will be dependent upon movements in the applicable exchange rates between the bolivar and the U.S. dollar and the amount of monetary assets and liabilities included in the Company's Venezuelan operation's balance sheet. The bolivar-denominated monetary net asset position was \$601 at June 30, 2011 and net liability position was \$4,715 at December 31, 2010.

The devaluation of the bolivar and the change to the U.S. dollar as the functional currency for the six months ended June 30, 2010 resulted in a foreign currency transaction gain of \$2,632 in Selling, general & administrative expenses and higher Cost of goods sold of \$4,940 due to the liquidation of inventory valued at the historical exchange rate.

New Accounting Pronouncements

Refer to Note 2 to the consolidated financial statements for a discussion of accounting standards recently adopted or required to be adopted in the future.

Acquisitions

On July 29, 2011, the Company acquired substantially all of the assets of Techalloy Company, Inc. and certain assets of its parent company, Central Wire Industries Ltd. (collectively, Techalloy) for approximately \$38,700 in cash and assumed debt. Techalloy, based in Baltimore, Maryland, was a privately-held manufacturer of nickel alloy and stainless steel welding consumables. The acquisition will add to the Company's consumables portfolio. Annual sales for Techalloy at the date of acquisition were approximately \$70,000.

On July 29, 2011, the Company acquired substantially all of the assets of Applied Robotics, Inc. (d/b/a Torchmate) (Torchmate) for approximately \$9,000 in cash. Torchmate, based in Reno, Nevada, provides a wide selection of computer numeric controlled plasma cutter and oxy-fuel cutting systems. The acquisition will add to the Company's product offering. Annual sales for Torchmate at the date of acquisition were approximately \$13,000.

On March 11, 2011, the Company completed the acquisition of OOO Severstal-metiz: welding consumables (Severstal) for approximately \$16,861 in cash and assumed debt. The preliminary fair value of the assets acquired were \$8,322, resulting in goodwill of \$8,539. Severstal is a leading manufacturer of welding consumables in Russia and was a subsidiary of OAO Severstal, one of the world's leading vertically integrated steel and mining companies. This acquisition expanded the Company's capacity and distribution channels in Russia and the Commonwealth of Independent States (CIS). Sales for Severstal during 2010 were approximately \$40,000.

On January 31, 2011, the Company acquired substantially all of the assets of SSCO Manufacturing, Inc. (d/b/a Arc Products) (Arc Products) for approximately \$3,280 in cash and a contingent consideration liability fair valued at \$3,806. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The preliminary fair value of the assets acquired were \$3,613, resulting in goodwill of \$3,473. Arc Products was a privately-held manufacturer of orbital welding systems and welding automation components based in Southern California. Orbital welding systems are designed to automatically weld pipe and tube in difficult to access locations and for mission-critical applications requiring high weld integrity and sophisticated quality monitoring capabilities. The acquisition will complement the Company's ability to serve global customers in the nuclear, power generation and process industries worldwide. Sales for Arc Products during 2010 were not significant.

Pro forma information related to these acquisitions has not been presented because the impact on the Company's Consolidated Statements of Income is not material.

On October 29, 2010, the Company acquired all of the outstanding stock of Mezghosmetiz-Mtsensk OAO (MGM), a privately-held welding wire manufacturer based in the Orel region of Russia, for approximately \$28,500 in cash and assumed debt. This acquisition represented the

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

Company's first manufacturing operation in Russia as well as established distribution channels to serve the growing Russian and CIS welding markets. Annual sales at the date of acquisition were approximately \$30,000.

Acquired companies are included in the Company's consolidated financial statements as of the date of acquisition.

Rationalization and Asset Impairments

During 2009, the Company initiated rationalization actions including the consolidation of certain manufacturing operations in the Europe Welding, Asia Pacific Welding and The Harris Products Group segments. The Company recognized a net charge of \$282 for the six months ended June 30, 2011, composed of a charge of \$259 related to activities for employee severance and other related charges and a net charge of \$23 related to asset impairments. At June 30, 2011, a liability relating to these actions of \$1,368 was recognized in Other current liabilities. The Company does not expect any further material costs associated with these actions in 2011 as they were substantially completed in 2010 and are expected to be substantially paid by the end of 2011.

Debt

The Company's \$80,000 Series C Note (the Note) is due in March 2011. The Company has a line of credit totaling \$150,000 through the Amended and Restated Credit Agreement (the Credit Agreement) which was entered into on November 18, 2009. As of June 30, 2011, the Company was in compliance with all of its covenants and had no outstanding

Table of Contents

borrowings under the Credit Agreement, but had letters of credit outstanding totaling \$60, which reduced the availability under the Credit Agreement to \$149,940. The Credit Agreement has a three-year term and may be increased, subject to certain conditions, by an additional amount up to \$75,000 at any time not later than 180 days prior to the last day of the term.

The Company historically utilized interest rate swaps to manage interest rate risks. The Company terminated its remaining interest rate swaps in 2009 and had no interest rate swaps outstanding as of June 30, 2011. The termination of interest rate swaps in 2009 resulted in a realized gain of \$5,079. This gain was deferred and is being amortized over the remaining life of the Note. The amortization of this gain reduced Interest expense by \$824 in the six month periods ended June 30, 2011 and 2010 and is expected to reduce annual interest expense by \$1,661 during 2011. At June 30, 2011, \$1,165 remains to be amortized and is recognized in Long-term debt, current portion. The weighted average effective interest rate on the Note, net of the impact of swaps, was 4.0 % for the six months ended June 30, 2011.

Forward-looking Statements

The Company's expectations and beliefs concerning the future contained in this report are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect management's current expectations and involve a number of risks and uncertainties. Forward-looking statements generally can be identified by the use of words such as may, will, expect, intend, estimate, anticipate, believe, forecast, guidance or words of similar meaning. Actual results may differ materially from such statements due to a variety of factors that could adversely affect the Company's operating results. The factors include, but are not limited to: general economic and market conditions; the effectiveness of operating initiatives; currency exchange and interest rates; adverse outcome of pending or potential litigation; possible acquisitions; market risks and price fluctuations related to the purchase of commodities and energy; global regulatory complexity; and the possible effects of events beyond our control, such as political unrest, acts of terror and natural disasters, on the Company or its customers, suppliers and the economy in general. For additional discussion, see Item 1A. Risk Factors in this Form 10-Q and in the Company's Annual Report on Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's exposure to market risk since December 31, 2010. See Item 7A. Quantitative and Qualitative Disclosures About Market Risk in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this Form 10-Q. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures are effective as of June 30,

2011.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2011 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject, from time to time, to a variety of civil and administrative proceedings arising out of its normal operations, including, without limitation, product liability claims and health, safety and environmental claims. Among such proceedings are the cases described below.

At June 30, 2011, the Company was a co-defendant in cases alleging asbestos induced illness involving claims by approximately 16,881 plaintiffs, which is a net increase of 40 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The asbestos claimants seek compensatory and punitive damages, in most

Table of Contents

cases for unspecified sums. Since January 1, 1995, the Company has been a co-defendant in other similar cases that have been resolved as follows: 39,025 of those claims were dismissed, 18 were tried to defense verdicts, seven were tried to plaintiff verdicts (two of which are being appealed), one was resolved by agreement for an immaterial amount and 580 were decided in favor of the Company following summary judgment motions. On June 3, 2011, a jury returned a defense verdict in one such case in Common Pleas Court in Philadelphia, Pennsylvania.

At June 30, 2011, the Company was a co-defendant in cases alleging manganese induced illness involving claims by approximately 1,003 plaintiffs, which is a net decrease of 192 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The claimants in cases alleging manganese induced illness seek compensatory and punitive damages, in most cases for unspecified sums. The claimants allege that exposure to manganese contained in welding consumables caused the plaintiffs to develop adverse neurological conditions, including a condition known as manganism. At June 30, 2011, cases involving 187 claimants were filed in or transferred to federal court where the Judicial Panel on Multidistrict Litigation has consolidated these cases for pretrial proceedings in the Northern District of Ohio. Since January 1, 1995, the Company has been a co-defendant in similar cases that have been resolved as follows: 15,831 of those claims were dismissed, 23 were tried to defense verdicts in favor of the Company and five were tried to plaintiff verdicts (three of which were reversed on appeal and one of which has an appeal pending). In addition, 13 claims were resolved by agreement for immaterial amounts and one was decided in favor of the Company following a summary judgment motion.

On December 13, 2006, the Company filed a complaint in U.S. District Court (Northern District of Ohio) against Illinois Tool Works, Inc. seeking a declaratory judgment that eight patents owned by the defendant relating to certain inverter power sources have not and are not being infringed and that the subject patents are invalid. Illinois Tool Works, Inc. filed a motion to dismiss this action, which the Court denied on June 21, 2007. On September 7, 2007, the Court stayed the litigation, referencing pending reexaminations before the U.S. Patent and Trademark Office. On June 17, 2008, the Company filed a motion to amend its pleadings in the foregoing matter to include several additional counts, including specific allegations of fraud on the U.S. Patent and Trademark Office with respect to portable professional welding machines and resulting monopoly power in that market.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, the reader should carefully consider the factors discussed in Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 and on Form 10-Q for the quarter ended March 31, 2011, which could materially affect the Company's business, financial condition or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer purchases of its common stock during the second quarter of 2011 were as follows:

Period	Total Number of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Repurchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs (1)
April 1 - 30, 2011		\$		6,162,986
