Chairman's
Letter to Shareholders

Dear Shareholders,

These are perplexing times for investors. The global economy continues to struggle. The solutions being implemented in the eurozone to deal with the debt crises of many of its member countries are not yet seen as sufficient by the financial markets. The political paralysis in the U.S. has prevented the compromises necessary to deal with the fiscal imbalance and government spending priorities. The efforts by individual consumers, governments and financial institutions to reduce their debts are increasing savings but reducing demand for the goods and services that drive employment. These developments are undermining the rebuilding of confidence by consumers, corporations and investors that is so essential to a resumption of economic growth.

Although it is painfully slow, progress is being made. In Europe, the turnover of a number of national governments reflects the realization by politicians and voters alike that leaders who practiced business as usual had to be replaced by leaders willing to face problems and accept the hard choices needed to resolve them. The recent coordinated efforts by central banks in the U.S. and Europe to provide liquidity to the largest European banks indicates that these monetary authorities are committed to facilitating a recovery in the European banking sector.

In the U.S., the failure of the congressionally appointed Debt Reduction Committee was a blow to those who hoped for a bipartisan effort to finally begin addressing the looming fiscal crisis. Nevertheless, Congress and the administration cannot ignore the issue for long. The Bush era tax cuts are scheduled to expire on December 31, 2012, and six months later the \$1.2 trillion of mandatory across-the-board spending cuts under the Budget Control Act of 2011 begin to go into effect. Any legislative modification would require bipartisan support and the prospects for a bipartisan solution are unclear. The impact of these two developments would be a mixed blessing: a meaningful reduction in the annual budget deficit at the cost of slowing the economic recovery.

It is in these particularly volatile markets that professional investment management is most important. Skillful investment teams who have experienced challenging markets and remain committed to their investment disciplines are critical to the success of an investor's long-term objectives. In fact, many long-term investment track records are built during challenging markets when managers are able to protect investors against these economic crosscurrents. Experienced investment teams know that volatile markets put a premium on companies and investment ideas that will weather the short-term volatility and that compelling values and opportunities are opened up when markets overreact to negative developments. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner
Chairman of the Board
March 22, 2012

Portfolio Managers' Comments

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.

Nuveen Quality Preferred Income Fund (JTP)
Nuveen Quality Preferred Income Fund 2 (JPS)
Nuveen Quality Preferred Income Fund 3 (JHP)

The Funds are sub-advised by a team of specialists at Spectrum Asset Management, a wholly owned subsidiary of Principal Global Investors, LLC. Mark Lieb and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team. Here Mark and Phil talk about their management strategy and the performance of each Fund for six-month period ended January 31, 2012.

What key strategies were used to manage the Funds during the six-month period ended January 31, 2012?

The investment objective of each Fund is to seek high current income consistent with capital preservation. Each Fund's secondary objective is to enhance portfolio value. Under normal market conditions, the Funds seek to invest at least 80% of their net assets in preferred securities and up to 20% in debt securities, including convertible debt and convertible preferred securities.

Our basic strategy is to stay relatively balanced between the individual investor-oriented \$25 par preferred securities often traded on securities exchanges and the institutional investor-oriented \$1000 par preferred securities traded over-the-counter in the capital markets. Both types of securities offer different performance opportunities, which together with the broad diversification benefits of the combined universe, help to produce potentially attractive risk-adjusted rates of return.

We keep a risk-averse posture toward security structure, which is an important core aspect of our effort to preserve capital and provide attractive income over the long term. We also maintain approximately a 60% weighting to U.S. issued securities and a 40% weighting to foreign names as part of the strategy of all three Funds includes seeking to invest in U.S. versus foreign issuers in approximately the same proportion as the Comparative Benchmark.

During the reporting period, we were equal weight in Germany and underweight in France and Britain versus the benchmark. We also were overweight in a number of other countries, such as Canada, Bermuda

and Switzerland. On a market sector basis, we were overweight in capital securities by about 5% because of what we saw as the potential for better call protection and more upside opportunity.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the Performance Overview page for your Fund in this report.

* Six-month returns are cumulative; all other returns are annualized.

** Refer to Glossary of Terms Used in this Report for definitions.

How did the Funds perform over this six-month period?

The performance of the Funds, as well as comparative index and benchmark, are presented in the accompanying table.

Average Annual Total Returns on Common Share Net Asset Value

For the periods ended 1/31/12

Fund	6-Month*	1-Year	5-Year
JTP	1.51%	5.98%	-1.95%
JPS	0.87%	5.38%	-1.21%
JHP	0.92%	5.38%	-1.66%
Barclays Capital U.S. Aggregate Bond Index**	4.25%	8.66%	6.70%
Comparative Benchmark**	1.80%	5.30%	1.26%

For the six-month period ended January 31, 2012, all three Funds underperformed the Barclays Capital U.S. Aggregate Bond Index and Comparative Benchmark.

During the reporting period, several factors contributed positively to each Fund's performance. In general, U.S. securities did well, followed by Great Britain. As of January 31, 2012, each Fund had more than 70% of its portfolio in issues of companies domiciled in the U.S. or Great Britain. Several holdings in particular contributed to positive performance, including issues from Firststar Realty, Reliance Capital, Credit Suisse, HSBC Holdings, Weingarten Realty Trust, Barclays Bank, First Union Capital Trust and Lincoln National Corporation.

The Funds were impacted negatively throughout the reporting period from protracted European sovereign debt concerns that revalued financial risk in the foreign bank names of the region, as well as in some of the foreign insurance issues. In particular, the French and the German sectors did poorly. While each Fund's holdings in European securities was relatively modest when compared with its U.S. positions, the overall impact of these European holdings was negative. Several of the individual positions that contributed to the Funds underperformance included AXA, Deutsche Bank, Aegon and Swiss Re Capital.

Fund Leverage
and Other Information

IMPACT OF THE FUNDS' LEVERAGE STRATEGY ON PERFORMANCE

One important factor impacting the return of the Funds relative to their benchmarks was the Funds' use of leverage through the use of bank borrowings. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common share total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. Leverage had a positive impact on the performance of the Funds over this reporting period. During the period, the Funds entered into interest rate swap contracts to partially fix the interest cost of their leverage. This activity detracted modestly from the overall positive impact of leverage, as rates declined slightly while the positions were in place, meaning it would have been better had the interest rates of the leverage floated rather than being partially fixed in the period.

UPDATE ON LITIGATION REGARDING THE FUNDS' REDEMPTION OF AUCTION RATE PREFERRED SHARES

During 2011, certain funds (including these Funds) were named in a consolidated complaint as nominal defendants in a putative shareholder derivative action captioned *Martin Safier, et al. v. Nuveen Asset Management, et al.* that was filed in the Circuit Court of Cook County, Illinois, Chancery Division (the "Cook County Chancery Court") on February 18, 2011 (the "Complaint"). The Complaint, filed on behalf of purported holders of each fund's common shares, also named Nuveen Fund Advisors, Inc. as a defendant, together with current and former Officers and interested Directors/Trustees of each of the funds (together with the nominal defendants, collectively, the "Defendants"). The Complaint contained allegations regarding breaches of fiduciary duties in connection with the redemption of auction rate preferred shares issued by the funds. The Defendants filed a motion to dismiss the suit and on December 16, 2011, the court granted that motion dismissing the Complaint. The plaintiffs failed to file an appeal of the court's decision within the required time period, resulting in the final disposition of the suit.

RISK CONSIDERATIONS

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation.

Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment Risk. The possible loss of the entire principal amount that you invest.

Price Risk. Shares of closed-end investment companies like these Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Preferred Stock Risk. Preferred stocks are subordinated to bonds and other debt instruments in a company's capital structure, and therefore are subject to greater credit risk.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Non-U.S. Securities Risk. Investments in non-U.S securities involve special risks not typically associated with domestic investments including currency risk and adverse political, social and economic developments. These risks often are magnified in emerging markets.

Derivatives Strategy Risk. Derivative securities, such as calls, puts, warrants, swaps and forwards, carry risks different from, and possibly greater than, the risks associated with the underlying investments.

Common Share Distribution and Price Information

Distribution Information

The following information regarding your Fund's distributions is current as of January 31, 2012, and likely will vary over time based on each Fund's investment activities and portfolio investment value changes.

During the six-month reporting period, the Funds did not make any changes to their monthly distributions to common shareholders. Some of the important factors affecting the amount and composition of these distributions are summarized below.

The Funds employ leverage through the use of bank borrowings. Financial leverage provides the potential for higher earnings (net investment income), total returns and distributions over time, but as noted earlier also increases the variability of common shareholders' net asset value (NAV) per share in response to changing market conditions.

During certain periods, the Funds may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Funds during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of earnings, the excess constitutes negative UNII that is likewise reflected in a Funds' NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of January 31, 2012, all three Funds had positive UNII balances, based upon our best estimate, for tax purposes. JTP and JPS had positive UNII balances and JHP had a negative UNII balance for financial reporting purposes.

Common Share Repurchases and Share Price Information

As of January 31, 2012, and since the inception of the Funds' repurchase program, the Funds have not repurchased any of their outstanding common shares.

At January 31, 2012, the Funds' common share prices were trading at (+) premiums/(-) discounts to their common share NAVs as shown in the accompanying table.

Fund	1/31/12 (+) Premium/(-) Discount	Six-Month Average (-) Discount
JTP	(+)0.62%	(-)2.08%
JPS	(-)0.59%	(-)4.19%
JHP	(+)2.31%	(-)2.92%

* Annualized.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.

(2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(3) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(4) Non-income producing; issuer has not declared a dividend within the past twelve months.

(5) Borrowings as a percentage of Total Investments is 27.6%.

(6) The Fund may pledge up to 100% of its eligible investments in the Portfolio of Investments as collateral for Borrowings. As of January 31, 2012, investments with a value of \$586,465,520 have been pledged as collateral for Borrowings.

(7) Other Assets Less Liabilities includes the net Unrealized Appreciation (Depreciation) of derivative instruments as noted within Investments in Derivatives at January 31, 2012.

N/R Not rated.

144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

CORTS Corporate Backed Trust Securities.

* Annualized

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.

(2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(3) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(4) Non-income producing; issuer has not declared a dividend within the past twelve months.

(5) Principal Amount (000) rounds to less than \$1000.

(6) Borrowings as a percentage of Total Investments is 27.8%.

(7) The Fund may pledge up to 100% of its eligible investments in the Portfolio of Investments as collateral for Borrowings. As of January 31, 2012, investments with a value of \$1,164,975,422 have been pledged as collateral for Borrowings.

(8) Other Assets Less Liabilities includes the net Unrealized Appreciation (Depreciation) of derivative instruments as noted within Investments in Derivatives at January 31, 2012.

N/R Not rated.

144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

CORTS Corporate Backed Trust Securities.

* Annualized.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.

(2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(3) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(4) Non-income producing; issuer has not declared a dividend within the past twelve months.

(5) Principal Amount (000) rounds to less than \$1,000.

(6) Borrowings as a percentage of Total Investments is 27.6%.

(7) The Fund may pledge up to 100% of its eligible investments in the Portfolio of Investments as collateral for Borrowings. As of January 31, 2012, investments with a value of \$226,238,922 have been

pledged as collateral for Borrowings.

(8) Other Assets Less Liabilities includes the net Unrealized Appreciation (Depreciation) of derivative instruments as noted within Investments in Derivatives at January 31, 2012.

N/R Not rated.

144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

CORTS Corporate Backed Trust Securities.

PPLUS PreferredPlus Trust.

WI/DD Purchased on a when-issued or delayed delivery basis.

USD-LIBOR United States Dollar London Inter-Bank Offered Rate.

(a) Per share Net Investment Income (Loss) is calculated using the average daily shares method.

(b) The amounts shown are based on Common share equivalents.

(c) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(d) After expense reimbursement from the Adviser, where applicable. Ratios do not reflect the effect of custodian fee credits earned on the Fund's net cash on deposit with the custodian bank, where applicable. As of June 30, 2010, September 30, 2010 and December 31, 2010, the Adviser is no longer reimbursing Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP), respectively, for any fees and expenses.

FINANCIAL STATEMENTS (Unaudited)

1. General Information and Significant Accounting Policies

General Information

The funds covered in this report and their corresponding Common share New York Stock Exchange ("NYSE") symbols are Nuveen Quality Preferred Income Fund (JTP), Nuveen Quality Preferred Income Fund 2 (JPS) and Nuveen Quality Preferred Income Fund 3 (JHP) (each a "Fund" and collectively, the "Funds"). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end registered investment companies.

Quality Preferred Income's (JTP) investment objective is high current income consistent with capital preservation. The Fund's secondary investment objective is to enhance portfolio value. The Fund invests at least 80% of its managed assets in taxable preferred securities that, at the time of investment, are rated investment grade (Baa/BBB or better). The Fund may invest up to 20% of its managed assets in debt securities, including convertibles, rated investment grade at the time of investment.

Quality Preferred Income 2's (JPS) and Quality Preferred Income 3's (JHP) investment objective is high current income consistent with capital preservation. Each Fund's secondary investment objective is to enhance portfolio value. Each Fund invests at least 80% of its managed assets in preferred securities; up to 20% of its managed assets in debt securities, including convertible debt securities and convertible preferred securities; and 100% of each Fund's total assets in securities that, at the time of investment, are investment grade quality (BBB/Baa or better), which may include up to 10% in securities that are rated investment grade by at least one nationally recognized statistical rating organization and lower by another.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Valuation

Common stocks and other equity-type securities are valued at the last sales price on the securities exchange on which such securities are primarily traded and are generally classified as Level 1 for fair value measurement purposes. Securities primarily traded on the NASDAQ National Market ("NASDAQ") are valued, except as indicated below, at the NASDAQ Official Closing Price and are generally classified as Level 1. However, securities traded on a securities exchange or NASDAQ for which there were no transactions on a given day or securities not listed on a securities exchange or NASDAQ are valued at the quoted bid price and are generally classified as Level 2. Investments in investment companies are valued at their respective net asset values on the valuation date. These investment vehicles are generally classified as Level 1.

Prices of fixed-income securities and interest rate swap contracts are provided by a pricing service approved by the Funds' Board of Trustees. These securities are generally classified as Level 2. When price quotes are not readily available, the pricing service establishes a security's fair value using methods that

may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity provided by Nuveen Fund Advisors, Inc. (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Repurchase agreements are valued at contract amount plus accrued interest, which approximates market value. These securities are generally classified as Level 2.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds' Board of Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or as Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Trustees or its designee.

Refer to Footnote 2 Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At January 31, 2012, Quality Preferred Income (JTP) and Quality Preferred Income Fund 3 (JHP) had outstanding when-issued/delayed delivery purchase commitments of \$3,365,188 and \$1,464,318, respectively. There were no outstanding when-issued/delayed delivery purchase commitments in Quality Preferred Income 2 (JPS).

Investment Income

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also reflects paydown gains and losses, if any.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies ("RICs"). Therefore, no federal income tax provision is required.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends to Common shareholders are declared monthly. Net realized capital gains from investment transactions, if any, are declared and distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

FundPreferred Shares

The Funds are authorized to issue auction rate preferred ("FundPreferred") shares. As of December 31, 2009, Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) redeemed all of their outstanding FundPreferred shares, at liquidation values of \$440,000,000, \$800,000,000 and \$166,000,000, respectively.

During the fiscal year ended December 31, 2010, lawsuits pursuing claims made in a demand letter alleging that the Funds' Board of Trustees breached their fiduciary duties related to the redemption at par of the Funds' FundPreferred shares had been filed on behalf of shareholders of the Funds, against the Adviser, the Nuveen holding company, the majority owner of the holding company, the lone interested trustee, and current and former officers of the Funds. Nuveen and the other defendants have filed a motion to dismiss the lawsuits, and on December 16, 2011, the court granted that motion dismissing the lawsuits. The plaintiffs failed to file an appeal on the court's decision within the required time period, resulting in the final disposition of the lawsuit.

Foreign Currency Transactions

Each Fund is authorized to engage in foreign currency exchange transactions, including foreign currency forwards, futures, options and swap contracts. To the extent that the Funds invest in securities and/or contracts that are denominated in a currency other than U.S. dollars, the Fund will be subject to currency risk, which is the risk that an increase in the U.S. dollar relative to the foreign currency will reduce returns or portfolio value. Generally, when the U.S. dollar rises in value against a foreign currency, the Fund's investments denominated in that currency will lose value because its currency is worth fewer U.S. dollars; the opposite effect occurs if the U.S. dollar falls in relative value. Investments and other assets and liabilities denominated in foreign currencies are converted into U.S. dollars on a spot (i.e. cash) basis at the spot rate prevailing in the foreign currency exchange market at the time of valuation. Purchases and sales of investments and income denominated in foreign currencies are translated into U.S. dollars on the respective dates of such transactions.

The books and records of the Funds are maintained in U.S. dollars. Foreign currencies, investments, other assets and liabilities are translated into U.S. dollars at 4:00 p.m. Eastern time. Investments, income and expenses are translated on the respective dates of such transactions. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date of the transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of a Fund and the amounts actually received.

The realized gains and losses resulting from changes in foreign currency exchange rates and changes in foreign exchange rates associated with other assets and liabilities on investments, foreign currency forwards, futures, options purchased, options written and swaps are recognized as a component of "Net realized gain (loss) from investments and foreign currency" on the Statement of Operations, when applicable.

The unrealized gains and losses resulting from changes in foreign currency exchange rates and changes in foreign exchange rates associated with other assets and liabilities on investments are recognized as a component of "Change in unrealized appreciation (depreciation) of investments and foreign currency" on the Statement of Operations when applicable. The unrealized gains and losses resulting from changes in foreign exchange rates associated with foreign currency exchange contracts, futures, options purchased,

options written and swaps are recognized as a component of "Change in net unrealized appreciation (depreciation) of foreign currency exchange contracts, futures, options purchased, options written and swap contracts" respectively on the Statement of Operations, when applicable.

Interest Rate Swap Contracts

Each Fund is subject to interest rate risk in the normal course of pursuing its investment objectives and is authorized to invest in interest rate swap transactions in an attempt to manage such risk. Each Fund's use of interest rate swap contracts is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap contracts involve each Fund's agreement with the counterparty to pay or receive a fixed rate payment in exchange for the counterparty receiving or paying a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on Fund Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swap contracts do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Each Fund accrues the fixed rate payment expected to be paid or received and the variable rate payment expected to be received or paid on interest rate swap contracts on a daily basis, and recognizes the daily change in the fair value of the Fund's contractual rights and obligations under the contracts. The net amount recorded for these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or depreciation on interest rate swaps" with the change during the fiscal period recognized on the Statement of Operations as a component of "Change in net unrealized appreciation (depreciation) of interest rate swaps." Income received or paid by each Fund is recognized as a component of "Net realized gain (loss) from interest rate swaps" on the Statement of Operations, in addition to the net realized gains or losses recognized upon the termination of an interest rate swap contract, and are equal to the difference between the Fund's basis in the interest rate swap and the proceeds from (or cost of) the closing transaction. Payments received or made at the beginning of the measurement period are recognized as a

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

component of "Interest rate swap premiums paid and/or received" on the Statement of Assets and Liabilities. For tax purposes, periodic payments are treated as ordinary income or expense.

During the six months ended January 31, 2012, each Fund used interest rate swaps to partially fix the interest cost of leverage, which each Fund uses through the use of bank borrowings. The average notional amount of interest rate swap contracts outstanding during the six months ended January 31, 2012, was as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Average notional amount of interest rate swap contracts outstanding*	\$ 116,156,250	\$ 231,600,000	\$ 44,175,000

* The average notional amount is calculated based on the outstanding notional amount at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal period.

Refer to Footnote 3 Derivative Instruments and Hedging Activities for further details on interest rate swap contract activity.

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange's clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 Quoted prices in active markets for identical securities.

Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of January 31, 2012:

Quality**Preferred****Income (JTP)**

Investments:

	Level 1	Level 2	Level 3	Total

* Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

During the six months ended January 31, 2012, the Funds recognized no significant transfers to or from Level 1, Level 2 or Level 3.

3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. For additional information on the derivative instruments in which the Funds were invested during and at the end of the reporting period, refer to the Portfolios of Investments, Financial Statements and Footnote 1 General Information and Significant Accounting Policies.

The following tables present the fair value of all derivative instruments held by the Funds as of January 31, 2012, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure.

Quality Preferred Income (JTP)

Underlying Risk Exposure	Derivative Instrument	Location on the Statement of Assets and Liabilities			
		Asset Derivatives		Liability Derivatives	
		Location	Value	Location	Value
Interest Rate	Swaps	Unrealized appreciation on interest rate swaps*	\$	Unrealized depreciation on interest rate swaps*	\$ 2,939,608

Quality Preferred Income 2 (JPS)

Underlying Risk Exposure	Derivative Instrument	Location on the Statement of Assets and Liabilities			
		Asset Derivatives		Liability Derivatives	
		Location	Value	Location	Value
Interest Rate	Swaps	Unrealized appreciation on interest rate swaps*	\$	Unrealized depreciation on interest rate swaps*	\$ 5,861,184

Quality Preferred Income 3 (JHP)

Underlying Risk Exposure	Derivative Instrument	Location on the Statement of Assets and Liabilities			
		Asset Derivatives		Liability Derivatives	
		Location	Value	Location	Value
Interest Rate	Swaps	Unrealized appreciation on interest rate swaps*	\$	Unrealized depreciation on interest rate swaps*	\$ 1,117,953

* Value represents cumulative gross unrealized appreciation (depreciation) of interest rate swap contracts as reported in each Fund's Portfolio of Investments.

The following tables present the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized for the six months ended January 31, 2012, on derivative instruments, as well as the primary risk exposure associated with each.

Net Realized Gain (Loss) from Interest Rate Swaps	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Risk Exposure			
Interest Rate	\$ (565,994)	\$ (1,128,517)	\$ (215,251)
Change in Net Unrealized Appreciation (Depreciation) of Interest Rate Swaps	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Risk Exposure			
Interest Rate	\$ (1,259,817)	\$ (2,511,905)	\$ (479,117)

4. Fund Shares

Common Shares

Since the inception of the Funds' repurchase program, the Funds have not repurchased any of their outstanding Common shares.

Transactions in Common shares were as follows:

	Quality Preferred Income (JTP)			Quality Preferred Income 2 (JPS)			Quality Preferred Income 3 (JHP)		
	Six Months Ended	Seven Months Ended	Year Ended	Six Months Ended	Seven Months Ended	Year Ended	Six Months Ended	Seven Months Ended	Year Ended
	1/31/12	7/31/11	12/31/10	1/31/12	7/31/11	12/31/10	1/31/12	7/31/11	12/31/10
Common shares issued to shareholders due to reinvestment of distributions							2,529		3,042

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments and derivative transactions) during the six months ended January 31, 2012, were as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Purchases	\$ 84,835,270	\$ 110,154,063	\$ 26,276,146
Sales and maturities	53,571,950	71,225,051	16,679,185

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to recognition of premium amortization, timing differences in the recognition of income and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as listed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At January 31, 2012, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives), as determined on a federal income tax basis, were as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Cost of investments	\$ 722,410,630	\$ 1,421,200,312	\$ 272,106,008
Gross unrealized:			
Appreciation	\$ 28,672,936	\$ 55,101,807	\$ 11,750,468
Depreciation	(21,508,182)	(57,708,370)	(11,660,016)
Net unrealized appreciation (depreciation) of investments	\$ 7,164,754	\$ (2,606,563)	\$ 90,452

Nuveen Investments

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

Permanent differences, primarily due to expiration of capital loss carryforwards, foreign currency reclasses, adjustments for investments in real estate investment trusts and complex securities character adjustments, resulted in reclassifications among the Funds' components of Common share net assets at July 31, 2011, the Funds' last tax year end, as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Paid-in-surplus	\$ (11,325,351)	\$ 2,682,433	\$ 2,163,833
Undistributed (Over-distribution of) net investment income	(5,704,003)	(3,656,982)	(2,345,255)
Accumulated net realized gain (loss)	17,029,354	974,549	181,422

The tax components of undistributed net ordinary income and net long-term capital gains at July 31, 2011, the Funds' last tax year end, were as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Undistributed net ordinary income *	\$ 6,117,637	\$ 5,618,546	\$ 1,362,074
Undistributed net long-term capital gains			

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any. Undistributed net ordinary income (on a tax basis) has not been reduced for the dividend declared on July 1, 2011, paid on August 1, 2011.

The tax character of distributions paid during the Funds' last tax years ended July 31, 2011 and July 31, 2010, was designated for purposes of the dividends paid deduction as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Distributions from net ordinary income *	\$ 38,520,847	\$ 79,171,774	\$ 14,751,546
Distributions from net long-term capital gains			

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

At July 31, 2011, the Funds' last tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Expiration:			
July 31,2015	\$ 1,000,781	\$	\$ 1,054,637
July 31,2016	14,951,415	19,410,408	8,151,820
July 31,2017	185,142,331	307,494,854	77,582,335
July 31,2018	164,307,763	317,825,546	47,045,512
July 31,2019	3,415,543	11,054,414	57,163
Total	\$ 368,817,833	\$ 655,785,222	\$ 133,891,467

At July 31, 2011, the Fund's last tax year end, \$16,197,046 of Quality Preferred Income's (JTP) capital loss carryforward expired.

The Funds have elected to defer net realized losses from investments incurred from November 1, 2010 through July 31, 2011, the Funds' last tax year end, ("post-October losses") in accordance with federal income tax regulations. Post-October losses are treated as having arisen on the first day of the current fiscal year. The following Fund has elected to defer post-October losses as follows:

	Quality Preferred Income 3 (JHP)
Post-October currency losses	\$ 7,944

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee consists of two components a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Average Daily Managed Assets*	Fund-Level Fee Rate
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For managed assets over \$2 billion	.6000

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469

\$300 billion

.1445

* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen Funds and assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of January 31, 2012, the complex-level fee rate for these Funds was .1739%.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible for the Funds' overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Spectrum Asset Management, Inc. ("Spectrum"), under which Spectrum manages the investment portfolios of the Funds. The Adviser is responsible for overseeing the Funds' investments in interest rate swap contracts. Spectrum is compensated for its services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds. During the six months ended January 31, 2012, Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) paid Spectrum commissions of \$22,989, \$38,451 and \$9,155, respectively.

The Funds pay no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual

Nuveen Investments

47

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

8. Borrowing Arrangements

Each Fund has entered into a prime brokerage facility ("Borrowings") with BNP Paribas Prime Brokerage, Inc. ("BNP") as a means of financial leverage. Each Fund's maximum commitment amount under these Borrowings is as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Maximum commitment amount	\$ 217,000,000	\$ 427,000,000	\$ 81,000,000

As of January 31, 2012, each Fund's outstanding balance on its Borrowings was as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Outstanding borrowings	\$ 201,000,000	\$ 394,000,000	\$ 75,000,000

On November 9, 2011, each Fund amended its prime brokerage facility with BNP. Prior to November 9, 2011, each Fund's maximum commitment amount was as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Maximum commitment amount	\$ 164,000,000	\$ 325,000,000	\$ 62,000,000

During the six months ended January 31, 2012, the average daily balance outstanding and average annual interest rate on each Fund's Borrowings were as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Average daily balance outstanding	\$ 171,881,890	\$ 339,801,575	\$ 64,782,677

Average annual interest rate	1.39%	1.39%	1.39%
------------------------------	-------	-------	-------

In order to maintain these Borrowings, the Funds must meet certain collateral, asset coverage and other requirements. Borrowings outstanding are fully secured by securities held in each Fund's portfolio of investments. Interest is charged on these Borrowings for each Fund at 3-Month London Inter-Bank Offered Rate (LIBOR) plus .95% on the amounts borrowed and .85% on the undrawn balance. Each Fund also incurred a one-time .25% amendment fee on the increase to the maximum commitment amount, which was fully expensed during the current reporting period.

Effective January 9, 2012 interest charged on the amount borrowed changed from 3-Month LIBOR plus .95% on the amounts borrowed and .85% on the undrawn balance to 3-Month LIBOR plus .85% on the amounts borrowed and .50% on the undrawn balance. All other terms remain unchanged.

Borrowings outstanding are recognized as "Borrowings" on the Statement of Assets and Liabilities. Interest expense incurred on each Fund's borrowed amount and undrawn balance and the one-time amendment fee are recognized as a component of "Interest expense on borrowings" on the Statement of Operations.

9. New Accounting Pronouncements

Financial Accounting Standards Board ("FASB") Transfers and Servicing (Topic 860): Reconsideration of Effective Control for Repurchase Agreements

On April 15, 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-03 ("ASU No. 2011-03"). The guidance in ASU No. 2011-03 is intended to improve the accounting for repurchase agreements and other similar agreements. Specifically, ASU No. 2011-03 modifies the criteria for determining when these transactions would be accounted for as financing transactions (secured borrowings/lending agreements) as opposed to sale (purchase) transactions with commitments to repurchase (resell). The effective date of ASU No. 2011-03 is for interim and annual periods beginning on or after December 15, 2011. At this time, management is evaluating the implications of this guidance and the impact it will have to the financial statement amounts and footnote disclosures, if any.

Fair Value Measurements and Disclosures

On May 12, 2011, the FASB issued ASU No. 2011-04 modifying Topic 820, *Fair Value Measurements and Disclosures*. At the same time, the International Accounting Standards Board ("IASB") issued International Financial Reporting Standard ("IFRS") 13, Fair Value Measurement. The objective of the FASB and IASB is convergence of their guidance on fair value measurements and disclosures. Specifically, ASU No. 2011-04 requires reporting entities to disclose i) the amounts of any transfers between Level 1 and Level 2, the reasons for the transfers and ii) for Level 3 fair value measurements, a) quantitative information about significant unobservable inputs used, b) a description of the valuation processes used by the reporting entity and c) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs might result in a significantly higher or lower fair value measurement. The effective date of ASU No. 2011-04 is for interim and annual periods beginning after December 15, 2011. At this time, management is evaluating the implications of this guidance and the impact it will have to the financial statement amounts and footnote disclosures, if any.

Nuveen Investments

49

Reinvest Automatically
Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Dividend Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be

paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of Terms
Used in this Report

- **Average Annual Total Return:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- **Barclays Capital Aggregate Bond Index:** An unmanaged index that includes all investment-grade, publicly issued, fixed-rate, dollar denominated, nonconvertible debt issues and commercial mortgage backed securities with maturities of at least one year and outstanding par values of \$150 million or more. Index returns assume reinvestment of distributions, but do not include the effects of any applicable sales charges or management fees. It is not possible to invest directly in an index.
- **Comparative Benchmark:** A blended return consisting of: 1) 55% of the Merrill Lynch Fixed Rate Index, an unmanaged index of investment-grade, exchange traded preferred stocks with outstanding market values of at least \$30 million and at least one year to maturity; and 2) 45% of the Barclays Capital Tier 1 Capital Securities Index, an unmanaged index that includes securities that can generally be viewed as hybrid fixed-income securities that either receive regulatory capital treatment or a degree of "equity credit" from a rating agency. Benchmark returns do not include the effects of any sales charges or management fees. It is not possible to invest directly in this benchmark.
- **Effective Leverage:** Effective leverage is a Fund's effective economic leverage, and includes both Regulatory leverage (see below) and the leverage effects of certain derivative investments in the Fund's portfolio that increase the Funds' investment exposure.
- **Leverage:** Using borrowed money to invest in securities or other assets, seeking to increase the return of an investment or portfolio.
- **Market Yield (also known as Dividend Yield or Current Yield):** Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.
- **Net Asset Value (NAV):** The net market value of all securities held in a portfolio.
- **Net Asset Value (NAV) Per Share:** The market value of one share of a mutual fund or closed-end fund. For a Fund, the NAV is calculated daily by taking the Fund's total assets (securities, cash, and accrued earnings), subtracting the Fund's liabilities, and dividing by the number of shares outstanding.
- **Regulatory Leverage:** Regulatory leverage consists of preferred shares issued by or borrowings of the Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is sometimes referred to as "40 Act Leverage" and is subject to asset coverage limits set forth in the Investment Company Act of 1940.

Quarterly Portfolio of Investments and Proxy Voting Information

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public Reference Section at 100 F Street NE, Washington, D.C. 20549.

CEO Certification Disclosure

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Common Share Information

Each Fund intends to repurchase shares of its own common stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds repurchased shares of their common stock as shown in the accompanying table.

Fund	Common Shares Repurchased
JTP	
JPS	
JHP	

Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

ITEM 2. CODE OF ETHICS.

Not applicable to this filing.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable to this filing.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable to this filing.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable to this filing.

ITEM 6. SCHEDULE OF INVESTMENTS.

a) See Portfolio of Investments in Item 1.

b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act) (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT attached hereto.

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
