**Item 8.01.**

**Other Events.**

On January 20, 2015, California Water Service Company ( Cal Water ), a wholly-owned subsidiary of California Water Service Group, and three other Class A water utilities confirmed by a letter to the Executive Director of the California Public Utilities Commission (the CPUC ) that the CPUC 's conditions for granting a one year deferral for filing the next Cost of Capital proceeding to March 31, 2016 were acceptable. Cal Water and the other utilities agreed to postpone adjustments in the Water Cost of Capital Adjustment Mechanism for one year. In requesting the delay, the utilities had pointed out that capital market conditions have been stable since the last adjustment to the CPUC 's authorized cost of capital for water utilities and a filing would have strained the resources of the utilities and the CPUC.
