Item 8.01 Other Events.

On September 10, 2008, Public Service Company of New Mexico (“PNM”), which is a wholly-owned subsidiary of PNM Resources, Inc. (“PNMR”), the staff of the New Mexico Public Regulation Commission (“NMPRC”), the New Mexico Attorney General’s Office, the City of Albuquerque and the Coalition for Clean Affordable Energy signed a stipulation supporting the recovery of the costs of adding 357 megawatts to PNM’s retail generation portfolio. Other parties may support the stipulation, oppose it, or take no position. The stipulation is subject to approval by the NMPRC, which as of September 16, 2008, has not scheduled hearings on the stipulation.

The stipulation provides that PNM should be able to recover the costs of the purchase-power agreement associated with a 145-megawatt natural gas generation plant in Valencia County, just south of Albuquerque, as well as operating the Luna Energy Facility and the Lordsburg Generation Station as jurisdictional plants to serve retail customers. Additionally, the stipulation provides for approval of PNM’s acquisition of the beneficial interest in 29.8 megawatts of the Palo Verde Nuclear Generating Station Unit 2, which is currently leased from another subsidiary of PNMR.

On September 10, 2008, PNMR issued a press release announcing the stipulation. The press release is furnished herewith as Exhibit 99.1 and incorporated by reference herein.
