Items 2 and 5. Acquisition or Disposition of Assets; Other Matters

York Research Corporation ("York") today received notice of termination from NRG Energy, Inc. of the previously reported agreement to sell York's 215 megawatt generating facility in Trinidad and Tobago for \$140,000,000. Such agreement had required a closing to occur on or before November 21, 2001. In addition, the previously reported Standstill Agreement with certain holders of the \$150,000,000 12% Senior Secured Bonds due October 30, 2007 (the "Portfolio Bonds") issued by York Power Funding (Cayman) Limited also terminates effective November 21, 2001.

There can be no assurance that the holders of the Portfolio Bonds will not exercise remedies against the collateral securing the Portfolio Bonds (which includes York's direct or indirect interests in its Trinidad Project, Big Spring

Project and Brooklyn Navy Yard Project), or that York's other creditors will not commence action against York. If York is unable to obtain an extension of the Standstill Agreement, as to which there can be no assurance, it is likely that a bankruptcy filing involving York and certain of its subsidiaries will be commenced.

This Current Report on Form 8-K contains forward looking statements as to which there can be no assurance. Reference is made to York's Annual Report on Form 10-K and subsequent reports filed with the SEC for information as to, and risks inherent in, such forward looking statements.
