**TURKEY**

**VAT EXEMPTION AND NEW MINING LAW**

SIGNATURE

(all figures in U.S. dollars)

VANCOUVER, BC - Eldorado Gold Corporation ( Eldorado , the Company , or we ) is pleased to announce that the government of Turkey has passed into law two major pieces of legislation positively impacting the mining industry. Legislation exempting the production of gold in Turkey from Value Added Tax ( VAT ) and amendments to the Mining Law have been passed by the Turkish Parliament.

#### *The VAT*

The Turkish VAT Law is amended to exempt the gold mining industry (producers of gold and/silver in Turkey) from paying VAT on their activities including exploration, construction, purchase of equipment, mine operation, smelting and refining. The amended VAT Law makes Turkey consistent and competitive with other countries in its treatment of VAT by reducing the cost of mine construction and production of precious metals.

The VAT Law states that: deliveries of goods and services to the explorers, operators, smelters and refiners of precious metals, such as gold and silver, are exempted from VAT . Therefore vendors will not charge VAT on their invoices for the goods and services they provide. Similarly Eldorado will not charge VAT on sales of gold doré or gold bullion.

The amendment to the VAT Law positively impacts the Company 's Kisladag Project. The initial capital investment for the project will decrease by \$10.7 million and cash operating cost will decrease by \$23.00 per ounce to \$165.00 as stated in our May 20, 2004 press release Kisladag Project Update . Paul Wright commented this change improves the return on the Kisladag Project to 43% at a \$350.00/oz gold price. We are very proud of our Turkish staff and the mining industry for working with the Government to resolve this issue.

#### *The Mining Law*

The Mining Law now consolidates the activity of all sectors of the industry including, hard rock, soft rock and industrial minerals mining as well as quarrying and aggregate industries. Some significant changes affecting the activities of the Company in Turkey are summarized as follows:

- Access to lands previously restricted from mining activities will now be possible through a general regulation of the Council of Ministers;
- Fund Fees of 5% on capital installations on Forest Lease Lands required in the old legislation no longer apply;

- The Expropriation Law No 2942 which governs procedure to acquire land critical to fulfillment of investment now applies to mining activities;
- A Royalty on ore processed off site will be paid to the State for mining activities amounting to 2% of the sales value of the ore mined. Ore processed on site at the operators plant is reduced to 1%. This compares with previous royalties of 3% of operating cash costs.

At a time when many jurisdictions are increasing the tax burden for gold mining companies, we are extremely appreciative of the continued enlightened attitude of the Turkish Government. The elimination of VAT and the significant amendments to the Mining Law exemplify the continued active support of the Government in promoting a positive environment enabling the industry to flourish in Turkey. commented Paul Wright, President and CEO.

Eldorado is a gold producing and exploration company with gold assets in Brazil and Turkey; two countries that we believe have substantial geological potential. With our international expertise in mining, finance and project development, together with highly skilled and dedicated staff, we believe that Eldorado is well positioned to experience continued growth and value as we create and pursue new opportunities.
