Item 1.01 Entry Into a Material Definitive Agreement

On June 30, 2005, we entered into a licensing agreement and an investment agreement with Boston Scientific Scimed, Inc. ("BSS"), a wholly-owned subsidiary of Boston Scientific Corporation, in connection with the licensing of our technology to BSS. We refer to the licensing and investment agreements together as the "Agreements."

The license agreement grants BSS licenses covering patents related to our

Magnetic Resonance Imaging ("MRI") safety and image compatibility technologies. The license agreement provides for both exclusive and non-exclusive product categories and grants BSS certain rights to sublicense the technologies covered in the license agreement. Under the license agreement, BSS is obligated to pay to us an upfront license fee of \$750,000 and annual license maintenance fees. In addition, BSS will be required to make certain milestone payments to us upon the launch of a commercial product based upon the licensed technologies. The license agreement also provides for the payment of certain royalty payments to us for the sale of products by BSS based upon the licensed technologies. The license agreement also provides for payments to us in the event that BSS sublicenses the technologies subject to the license agreement.

Additionally, BSS has a right of first negotiation on any new technology we acquire in the area of MRI safety and image compatability related to products covered by the license. At the request of BSS we have agreed to keep all other details of the transaction confidential, including product catgories, royalty rates, annual minimums and investor payments.

In connection with the license agreement, we also entered into an investment agreement with BSS. The investment agreement calls for the purchase by BSS of shares of our common stock for a total purchase price of \$5 million; the shares will be priced at 110% of the average of the closing price for the 30 calendar-day period prior to the closing. Funding under both agreements is expected to occur following confirmation of paperwork related to our recent acquisitions. We have agreed to prepare and file a registration statement with the Securities and Exchange Commission to register the shares for resale by BSS.

The Agreements may be terminated upon the occurrence of certain events, including, a material breach that is not cured; if BSS fails to pay the \$750,000 upfront license fee or fails to pay the full purchase price of the shares subject to the investment agreement on or before August 15, 2005; or in the event that royalty fees due under the license agreement are not paid. BSS may terminate the license agreement at any time upon ninety days prior written notice.
