This Information Statement is being first sent to stockholders on or about August 1, 2005. The Company anticipates that the Amendment will become effective on or about August 29, 2005.

Proposals

The following proposals are being presented at the meeting (the "Proposals"):

1. To elect four (4) directors to serve until the next Annual Meeting of Shareholders and thereafter until their successors are elected and qualified;
2. To approve an amendment to the Company's Articles of Incorporation to increase the Company's authorized common stock to 250,000,000 shares;
3. To approve the Speedemissions, Inc. 2005 Omnibus Stock Grant and Option Plan;

5. To transact such other business as may properly come before the meeting or any adjournments thereof.

Vote Required

The vote which is required to approve the above Proposals is the affirmative vote of the holders of a majority of the Company's voting securities. Each holder of common stock is entitled to one (1) vote for each share held, and each holder of Series A Convertible Preferred Stock is entitled to one thousand (1,000) votes for each share held, representing a total of 2,500,000 votes

The record date for purposes of determining the number of outstanding shares of voting securities of the Company, and for determining stockholders entitled to vote, is the close of business on July 11, 2005 (the "Record Date"). The Board of Directors of the Company adopted the resolution approving and recommending each of the Proposals on July 8, 2005. As of the Record Date, the Company had outstanding 25,416,595 shares of common stock and 2,500 shares of Series A Convertible Preferred Stock. Holders of the shares have no preemptive rights. All outstanding shares are fully paid and nonassessable. Vote Obtained - Section 607.0704 Florida Revised Statutes

Section 607.0704 of the Florida Revised Statutes (the “Florida Law”) provides that the written consent of the holders of the outstanding voting securities, having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted, may be substituted for such a meeting. In order to eliminate the costs and management time involved in obtaining proxies and in order to effect the Proposals as early as possible in order to accomplish the purposes of the Company as hereafter described, the Board of Directors of the Company voted to utilize, and did in fact obtain, the written consent of the holders of a majority in interest of the outstanding voting securities of the Company, approving each of the Proposals.

Pursuant to Section 607.0704 of the Florida Revised Statutes, the Company is required to provide prompt notice of the taking of the corporate action without a meeting to the stockholders of record who have not consented in writing to such action. This Information Statement is intended to provide such notice. No dissenters’ or appraisal rights under the Florida Law are afforded to the Company’s stockholders as a result of the approval of the Proposals.

**PROPOSAL ONE
ELECTION OF DIRECTORS**

Directors are elected by the shareholders at each annual meeting to hold office until their respective successors are elected and qualified, and need not be shareholders of the Company or residents of the State of Florida. Directors may receive compensation for their services as determined by the Board of Directors. See “Compensation of Directors.” The number of Directors as set by the Bylaws of the Company shall be no less than one (1) nor more than seven (7). Presently, the Board consists of four (4) members, namely Richard A. Parlontieri, Bahram Yusefzadeh, Bradley A. Thompson, and Erik Sander. Mr. Parlontieri is an employee-director and Messrs. Yusefzadeh, Thompson, and Sander are outside (non-employee) directors. All four current directors have chosen to stand for re-election, and have nominated one (1) additional individual to the Board of Directors, namely Ernest A. Childs, Phd. (collectively the “Director Nominees”).

Voting for the election of directors is non-cumulative, which means that a simple majority of the shares voting may elect all of the directors. Each share of common stock is entitled to one (1) vote and, therefore, has a number of votes equal to the number of authorized directors. Each share of Series A Convertible Preferred Stock is entitled to one thousand (1,000) votes.

Although management of the Company expects that each of the following nominees will be available to serve as a director, in the event that any of them should become unavailable prior to the shareholders meeting, a replacement will be appointed by a majority of the then-existing Board of Directors. Management has no reason to believe that any of its nominees, if elected, will be unavailable to serve. All nominees are expected to serve until the next Annual Meeting of Shareholders or until their successors are duly elected and qualified.

The following table sets forth certain information with respect to persons nominated by the Board of Directors of the Company for election as Directors of the Company and who will be elected following the annual shareholders meeting:

Compensation of Directors

Our directors receive \$250 for each meeting attended, including meetings of the committees. They are also entitled to reimbursement for their travel expenses.

On June 13, 2003, our subsidiary entered into a consulting agreement with V2R, Inc., which is controlled by Bahram Yusefzadeh, who subsequent to June 13, 2003 became one of our directors. Under the terms of the agreement, our subsidiary agreed to pay to V2R, upon the successful closing of a merger or acquisition of our subsidiary with a publicly traded corporation, the sum of \$225,000. Of this amount, \$125,000 was to be paid in accordance with the terms of a promissory note. The principal balance of the note was due on December 31, 2003, but was extended pursuant to an amendment dated December 30, 2003 to the earlier to occur of (i) the closing of a round of equity or debt financing in excess of \$1,500,000, (ii) 90 days after the effectiveness of a registration statement, or (iii) in three equal installments beginning March 1, 2004, May 1, 2004, and July 1, 2004. We are currently in default on this note.

On June 16, 2003, our subsidiary entered into a consulting agreement with V2R, LLC, which is controlled by Bahram Yusefzadeh, who subsequent to June 16, 2003 became one of our directors. On October 19, 2003 we assumed the obligations under this agreement. Under the terms of the agreement, we agreed to pay V2R \$8,334 per month, effective June 1, 2003 for 36 months, of which \$3,334 was deferred until after the closing of an initial round of financing. In addition, we agreed to pay to V2R a sales commission on any money raised as a result of their introductions. V2R, LLC was entitled to receive 130,000 warrants to acquire common stock at \$0.01 per share, of which 25,000 vested immediately, 35,000 would vest if we raised \$1.5 million in any offering, 35,000 more would vest if we raised \$3.0 million in any offering, and a final 35,000 would vest if we raised \$4.5 million in any offering. On January 1, 2004, we terminated this consulting agreement and entered into a new consulting agreement with V2R. Under the terms of the new consulting agreement, we agreed to pay V2R \$8,334 per month, effective January 1, 2004, for 30 months, plus a success fee for any closed acquisitions arranged by the V2R. We also issued to V2R warrants to acquire 100,000 shares of common stock at \$0.25 per share, of which one-half vest on January 1, 2005 and the other half vest on January 1, 2006. Effective on May 31, 2005, we terminated the new consulting agreement with V2R.

In October 2003, we issued 300,000 shares of common stock to the designees of V2R, LLC as a bonus for services rendered not in connection with any consulting agreement. The shares were never beneficially owned by V2R or Mr. Yusefzadeh.

Effective September 5, 2003, we entered into a separate indemnification agreement with each of our then-current directors. Under the terms of the indemnification agreements, we agreed to indemnify each director to the fullest extent permitted by law if the director was or is a party or threatened to be made a party to any action or lawsuit by reason of the fact that he is or was a director. The indemnification shall cover all expenses, penalties, fines and amounts paid in settlement, including attorneys' fees. A director will not be indemnified for intentional misconduct for the primary purpose of his own personal benefit. On July 8, 2005, we entered into an identical agreement with our newly appointed director, Mr. Sander.

Effective September 15, 2003, we entered into a three-year employment agreement with Richard A. Parlontieri, our President and Chief Executive Officer. This employment agreement was amended on December 19, 2003. Under the terms of the agreement, as amended, Mr. Parlontieri will receive a salary of \$180,000 per year, plus an automobile and expense allowance, and will be eligible for quarterly bonuses as set forth in the agreement. In addition, Mr. Parlontieri was granted options to purchase up to 400,000 shares of our common stock at \$0.25 per share. The agreement may be terminated by us for cause, in which case Mr. Parlontieri would not be entitled to severance compensation, or without cause, in which case Mr. Parlontieri would be entitled to the balance of his salary due under the agreement, plus other compensation earned through the date of termination.

The Compensation Committee of our Board of Directors originally agreed to issue to Mr. Parlontieri, pursuant to the terms of his employment agreement, options to purchase up to 400,000 shares of our common stock at an exercise price of \$2.00 per share. The exercise price was determined based on conversations with our independent auditors about the deemed fair market value if we subsequently file a registration statement for a primary offering at \$2.00 per share. However, after we withdrew the registration statement, and the proposed primary offering was cancelled, the Committee decided to reprice Mr. Parlontieri's options at \$0.25 per share, which was at or close to the fair market value of our common stock based on the closing bid price on the date of repricing, and within the parameters of our Speedemissions, Inc. 2001 Stock Option Plan.

On March 15, 2005, the Compensation Committee of our Board of Directors issued to Mr. Parlontieri warrants to acquire 250,000 shares of our common stock at \$0.25 per share, the fair market value of our common stock based on the closing bid price on the date of grant.

On June 29, 2005, we issued options to acquire 25,000 shares of our common stock under our 2001 Stock Option Plan to Erik Sander, our director. The options vested immediately and are exercisable at \$0.20 per share for a period of ten years.

Board Meetings and Committees

During the fiscal year ended December 31, 2004, the Board of Directors met on two and took action by unanimous written consent on several other occasions.

On August 26, 2003, an Audit Committee, established in accordance with section 3(a)(58)(A) of the Exchange Act, of the Board of Directors was formed. The Audit Committee held two meetings in 2003 and one meeting in 2004. In accordance with a written charter adopted by the Company's Board of Directors, the Audit Committee assists the Board of Directors in fulfilling its responsibility for oversight of the quality and integrity of the Company's financial reporting process, including the system of internal controls. The directors who are members of the Audit Committee are Bradley A. Thompson and Bahram Yusefzadeh, both of whom are considered audit committee financial experts, with Mr. Yusefzadeh considered an independent director under Section 121(A) of the AMEX listing standards.

On August 26, 2003, a Compensation Committee of the Board of Directors was formed. The Compensation Committee consists of Bradley A. Thompson and Bahram Yusefzadeh. The Compensation Committee held one meeting in 2003 and one meeting in 2004, and has approved the employment agreement and other compensation of Richard Parlontieri.

**PROPOSAL TWO
AMENDMENT TO THE ARTICLES OF INCORPORATION
TO INCREASE THE AUTHORIZED COMMON STOCK**

General

On July 8, 2005, the Board of Directors of the Company approved, declared it advisable and in the Company's best interests, and directed that there be submitted to the holders of a majority of the Company's common stock for action by written consent, the proposed amendment to Article IV of the Company's Articles of Incorporation to effectuate an increase in the authorized common stock from 100,000,000 shares with a par value of \$0.001 to 250,000,000 shares with a par value of \$0.001. The Company believes this amendment will be effective August 29, 2005.

Purpose of the Increase in Authorized Common Stock

The Board of Directors believes that it is advisable and in the Company's best interests to have available additional authorized but unissued shares of common stock in an amount adequate to provide for the Company's future needs. As detailed below, the Company recently closed a financing transaction to provide the Company with working capital to continue its operations and acquisition activities. Under the terms of the financing the Company issued Series B Convertible Preferred Stock and warrants. The Company must have sufficient authorized but unissued shares of common stock for the conversion of the Series B Convertible Preferred Stock, and the exercise of the warrants, if requested by the investor. Under the terms of the financing transaction the Series B Preferred Stock is convertible into up to 107,000,000 shares of the Company's common stock and the warrants are exercisable into up to 46,750,000 shares of the Company's common stock. Therefore, the Company must have at least 153,750,000 shares of common stock authorized but unissued under the terms of the financing deal. Currently, the Company is authorized to issue 100,000,000 shares of common stock and as of July 11, 2005, the Company had 25,416,595 shares of its common stock outstanding. Therefore, in order for the Company to be in compliance with the terms of the financing transaction the Company must increase its authorized common stock in an amount sufficient to issue up to an additional 153,750,000 shares of common stock in the event all the Series B Convertible Preferred Stock is converted and the warrants are exercised. This increase in the authorized common stock is meant to ensure the Company has sufficient authorized common stock.

Additionally, shares of common stock need to be available for issuance from time to time by the Company in the discretion of the Board of Directors, normally without further stockholder action (except as may be required for a particular transaction by applicable law, requirements of regulatory agencies or by stock exchange rules), for any proper corporate purpose including, among other things, future acquisitions of property or securities of other corporations, stock dividends, stock splits, stock options, convertible debt and equity financing. The availability of additional authorized but unissued shares will be achieved by effectuating an increase in the number of authorized shares of common stock from 100,000,000 to 250,000,000 shares. As of the date of this Information Statement, other than as set forth herein, the Company does not have any plans for the additional authorized common shares.

Impact on Shareholders

Increasing the Company's authorized common stock should benefit the Company's shareholders since it will allow the Company to be compliant with the terms of the financing transaction, which is necessary to help the Company fund its operations and potentially acquire additional emissions testing centers. If the Company does not increase its authorized common stock it will not be compliant with the terms of the financing transaction and potentially would have to return the funds it received under the deal or incur substantial penalties. If the Company is in breach of its obligations under the financing transaction or if the Company does not have funds to continue its acquisition strategy this could adversely affect the Company's operations and, therefore, decrease shareholder value.

Increasing the Company's authorized common stock will also allow the Company's Board of Directors to issue up to 250,000,000 shares of the Company's common stock, either under the financing transaction or for other interests of the Company. This additional outstanding stock, if issued, would dilute the ownership of the Company's existing shareholders, and if the additional stock is sold on the open market, it could decrease the value of the Company's common stock.

**PROPOSAL THREE
APPROVAL OF THE SPEEDEMISSIONS, INC.
2005 STOCK GRANT AND OPTION PLAN**

General

On July 8, 2005, our directors and shareholders approved the Speedemissions, Inc. 2005 Stock Grant and Option Plan (the "Plan"), to be effective August 31, 2005. The Plan offers selected employees, directors, and consultants an opportunity to acquire our common stock, and serves to encourage such persons to remain employed by us and to attract new employees. The Plan allows for the award of stock and options, up to 2,500,000 shares of our common stock. We have not issued any options or stock awards under the Plan.

Purpose

The purpose of the Plan is to promote the interests of the Company (including its subsidiaries) and its stockholders by using investment interests in the Company to attract, retain and motivate its management and other persons, including officers, directors, key employees and certain consultants, to encourage and reward such persons' contributions to the performance of the Company and to align their interests with the interests of the Company's stockholders. In furtherance of this purpose, the Plan authorizes the granting of the following types of stock-based awards (each, an "Award"):

- stock options (including incentive stock options and non-qualified stock options);
 - restricted stock awards;
 - unrestricted stock awards; and
 - performance stock awards.

Each of these types of Awards is described below under "Awards."

Eligibility

Key employees (including employees who are also directors or officers), directors and certain consultants of the Company or any subsidiary are eligible to be granted Awards under the Plan at the discretion of the Board of Directors. In determining the eligibility of any person, as well as in determining the number of shares to be covered by an Award and the type or types of Awards to be made, the Board of Directors may consider:

- the position, relationship, responsibilities and importance of the person to the Company; and
 - such other factors as the Board of Directors deems relevant.

Selected consultants may participate in the Plan if:

- the consultant renders *bona fide* services to the Company or one of its subsidiaries;
- the services rendered by the consultant are not in connection with the offer or sale of securities in a capital-raising transaction and do not directly or indirectly promote or maintain a market for the Company's securities; and
 - the consultant is a natural person who has contracted directly with the Company or a subsidiary of the Company to render such services.

Administration

The Plan currently is administered by the Compensation Committee of the Board of Directors. The Board of Directors has delegated to the Compensation Committee full authority, in its discretion, to:

- select the persons to whom Awards will be granted (each a "Participant");
 - grant Awards under the Plan;
 - determine the number of shares to be covered by each Award;
 - determine the nature, amount, pricing, timing and other terms of the Award;
- interpret, construe and implement the provisions of the Plan (including the authority to adopt rules and regulations for carrying out the purposes of the plan); and
 - terminate, modify or amend the Plan.

The Plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974.

Shares Subject to the Plan

A total of 2,500,000 shares of Common Stock (subject to adjustment as described below) are reserved for issuance under the Plan. Shares of common stock issued under the Plan may be authorized but unissued shares, or shares reacquired by the Company, including shares purchased on the open market. The unexercised, unearned or yet-to-be acquired portions of any Award that expire, terminate or are canceled, and shares of common stock issued pursuant to Awards under the Plan that are reacquired by the Company pursuant to the terms under which such shares were issued, will again become available for the grant of further Awards.

Adjustment. In general, the aggregate number of shares as to which Awards may be granted to Participants under the Plan, the number and kind of shares thereof covered by each outstanding Award, and/or the price per share thereof in each such Award will, upon a determination of the Board of Directors, all be proportionately adjusted for any increase or decrease in the number of issued shares of common stock resulting from an increase, decrease or exchange in the outstanding shares of common stock or additional shares or new or different shares are distributed in respect of such shares of common stock, through merger, consolidation, sale or exchange of all or substantially all of the assets of the Company, reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split, spin-off or other distribution with respect to such shares. On September 1 of each year, the number of shares in the Plan shall automatically be adjusted to an amount equal to ten percent (10%) of the outstanding stock of the Company on August 31 of the immediately preceding year.

Fractional interests will not be issued upon any adjustments made by the Board or Directors; however, the committee may, in its discretion, make a cash payment in lieu of any fractional shares of common stock issuable as a result of such adjustments.

Awards

Stock Options. Under the Plan, the Board of Directors may grant either incentive stock options or nonqualified stock options. Incentive stock options and non-qualified stock options may be granted for such number of shares of common stock as the Board of Directors determines.

The exercise price for each stock option is determined by the Board of Directors. Stock options must have an exercise price of at least 85% (100% in the case of incentive stock options, or at least 110% in the case of incentive stock options granted to certain employees owning more than 10% of the outstanding voting stock) of the fair market value of the common stock on the date the stock option is granted. Under the Plan, fair market value of the common stock for a particular date is generally the average of the closing bid and asked prices per share for the stock as quoted on the OTC Bulletin Board on such date.

No stock option may be exercised after the expiration of ten years from the date of grant (or five years in the case of incentive stock options granted to certain employees owning more than 10% of the outstanding voting stock). Pursuant to the Plan, the aggregate fair market value of the common stock, for which one or more incentive stock options granted to any participant may for the first time become exercisable as incentive stock options under the federal tax laws during anyone calendar year shall not exceed \$100,000.

A stock option may be exercised in whole or in part according to the terms of the applicable stock option agreement by delivery of written notice of exercise to the Company specifying the number of shares to be purchased. The exercise price for each stock option may be paid by the Participant in cash or by such other means as the Board of Directors may authorize. Fractional shares are not to be issued upon exercise of a stock option. The Board of Directors may grant reload stock options in tandem with stock options that provide for an automatic grant of a stock option in the event a participant pays the exercise price of a stock option by delivery of common stock.

The Board of Directors may, in its discretion, at any time after the grant of a stock option, accelerate vesting of such option, as a whole or in part, by increasing the number of shares then purchasable. However, the Board of Directors may not increase the total number of shares subject to an option.

Subject to the foregoing and the other provisions of the Plan, stock options may be exercised at such times and in such amounts and be subject to such restrictions and other terms and conditions, if any, as determined by the Board of Directors.

Restricted Stock. Restricted stock may be awarded by the Board of Directors subject to such terms, conditions and restrictions as it deems appropriate. Restrictions may include limitations on voting rights and transferability of the shares, restrictions based on the duration of employment or engagement with the Company, and Company or individual performance. Restricted stock may not be sold or encumbered until all restrictions expire or are terminated. In this regard, the Secretary of the Company or such other escrow holder as the Board of Directors may appoint shall retain physical custody of each certificate representing restricted stock until all restrictions imposed under the applicable Award Agreement shall expire or be removed.

The Board of Directors may require the Participant to pay the Company an amount at least equal to the par value of the common stock awarded to the Participant. Subject to any limitations imposed by the applicable Award Agreement, from the date a Participant becomes the holder of record of restricted stock, the Participant has all the rights of a stockholder with respect to such shares, including the right to vote the shares and to receive all dividends and other distributions paid with respect to the shares.

The Plan provides that to the extent the Board of Directors elects to grant an Award of restricted stock, the Award Agreement applicable thereto shall, except in certain specified situations, provide the Company with the right to repurchase the restricted stock then subject to restrictions immediately upon a termination of employment or engagement for any reason whatsoever at a cash price per share equal to the price paid by the Participant for the restricted stock.

Unrestricted Stock. The Board of Directors may, in its discretion, grant an Award of unrestricted stock to any eligible Participant, pursuant to which such Participant may receive shares of Common Stock free of any vesting restrictions under the Plan. The Board of Directors may also sell shares of unrestricted stock to eligible Participants at a purchase price determined in its discretion. Unrestricted stock may be granted or sold in respect of past services or other valid consideration, or in lieu of any cash compensation due to such individual.

Performance Stock Awards. The Board of Directors may make performance stock awards under the 2005 Omnibus Stock Grant and Option Plan based upon terms it deems appropriate. The Board of Directors may make performance stock awards independent of or in connection with the granting of any other Award under the Plan. The Board of Directors shall determine whether and to whom performance stock awards shall be made, the performance criteria applicable under each such Award, the periods during which performance is to be measured, and all other limitations and conditions applicable to the awarded shares. The Board of Directors may utilize any of the following performance criteria when granting performance stock awards:

- net income;
- pre-tax income;

- operating income;
 - cash flow;
- earnings per share;
 - return on equity;
- return on invested capital or assets;
 - cost reductions or savings;
 - funds from operations;
- appreciation in the fair market value of the common stock;
- earnings before anyone or more of the following: interest, taxes, depreciation or amortization; and
 - such other criteria deemed appropriate by the Board of Directors.

The Participant receiving a performance stock award shall have the rights of a stockholder only as to shares actually received by the Participant and not with respect to shares subject to the Award but not actually received. At any time prior to the Participant's termination of employment (or other business relationship) by the Company, the Board of Directors may, in its discretion, accelerate, waive or, subject to the other provisions of the Plan, amend any and all performance criteria specified under any performance stock award.

Federal Income Tax Consequences

The following is a brief summary of the principal federal income tax consequences of the grant and exercise of Awards under present law. This summary is not intended to be exhaustive and does not describe foreign, state or local tax consequences. Recipients of Awards are advised to consult their personal tax advisors with regard to all tax consequences arising with respect to the Awards.

Tax Withholding. If a distribution is made under this Plan in cash, the Company will withhold taxes as required by law. If an Award is satisfied in the form of shares of the common stock, then no shares may be issued unless and until arrangements satisfactory to the Company have been made to satisfy any tax withholding obligations applicable with respect to such Award.

Deductibility of Awards. Company deductions for Awards granted under the Plan are limited by Section 162(m) of the Internal Revenue Code of 1986 (the "Code") which generally limits the Company's deduction for non-performance based compensation to \$1.0 million per year for the Company's CEO and its other four (4) most highly compensated officers. The Company has not paid any compensation to any executive officers that was not deductible by reason of the prohibition of Section 162(m).

Incentive Stock Options. Pursuant to the Plan, employees may be granted stock options that are intended to qualify as "incentive stock options" under the provisions of Section 422 of the Code. An optionee will not recognize any taxable income for federal income tax purposes upon receipt of an incentive stock option or, generally, at the time of exercise of an incentive stock option. The exercise of an incentive stock option generally will result in an increase in an optionee's taxable income for alternative minimum tax purposes.

If an optionee exercises an incentive stock option and does not dispose of the shares received in a subsequent "disqualifying disposition" (generally, a sale, gift or other transfer within two years after the date of grant of the incentive stock option or within one year after the shares are transferred to the optionee), upon disposition of the shares any amount realized in excess of the optionee's tax basis in

the shares disposed of will be treated as a long-term capital gain, and any loss will be treated as a long-term capital loss. In the event of a disqualifying disposition, the difference between the fair market value of the shares received on the date of exercise and the exercise price (limited, in the case of a taxable sale or exchange, to the excess of the amount realized upon disposition over the optionee's tax basis in the shares) will be treated as compensation received by the optionee in the year of disposition. Any additional gain will be taxable as a capital gain and any loss as a capital loss, which will be long-term or short-term, depending on the length of time the optionee held the shares.

If the exercise price of an incentive stock option is paid in whole or in part with shares of common stock, no income gain or loss generally will be recognized by the optionee with respect to the shares of common stock paid as the exercise price. However, if such shares of common stock were received upon the exercise of an incentive stock option, the use of those shares as payment of the exercise price will be considered a disposition for purposes of determining whether there has been a disqualifying disposition of those shares.

Neither the Company nor any of its subsidiaries will be entitled to a deduction with respect to shares received by an optionee upon exercise of an incentive stock option and not disposed of in a disqualifying disposition. If an amount is treated as compensation received by an optionee because of a disqualifying disposition, the Company or one of its subsidiaries generally will be entitled to a corresponding deduction in the same amount for compensation paid.

Non-Qualified Stock Options. An optionee will not recognize any taxable income for federal income tax purposes upon receipt of a non-qualified stock option. Upon the exercise of a non-qualified stock option the amount by which the fair market value of the shares received, determined as of the date of exercise, exceeds the exercise price, the stock option will be treated as compensation received by the optionee in the year of exercise. If the exercise price of a non-qualified stock option is paid in whole or in part with shares of common stock, (i) no income, gain or loss will be recognized by the optionee on the receipt of shares equal in value on the date of exercise to the shares delivered in payment of the exercise price, and (ii) no income, gain or loss will be recognized by the optionee with respect to the shares of common stock paid as the exercise price of the option. The fair market value of the remainder of the shares received upon exercise of the non-qualified stock option, determined as of the date of exercise, less the amount of cash, if any, paid upon exercise, will be treated as compensation income received by the optionee on the date of exercise of the stock option. The Company or one of its subsidiaries, generally will be entitled to a deduction for compensation paid in the same amount treated as compensation received by the optionee.

Reload Option Rights. An optionee should not recognize any taxable income for federal income tax purposes upon receipt of reload option rights, and a reload option should be treated as a non-qualified stock option.

Restricted Stock. A recipient of restricted stock will not recognize any taxable income for federal income tax purposes in the year of the Award, provided the shares are subject to restrictions (that is, they are non-transferable and subject to a substantial risk of forfeiture). However, the recipient may elect under Section 83(b) of the Code to recognize compensation income in the year of the Award in an amount equal to the fair market value of the shares on the date of the Award (less the amount paid by the recipient for such shares), determined without regard to the restrictions. If the recipient does not make a Section 83(b) election, the fair market value of the shares on the date the restrictions lapse (less the amount paid by the recipient for such shares) will be treated as compensation income to the recipient and will be taxable in the year the restrictions lapse. The Company or one of its subsidiaries generally will be entitled to a deduction for compensation paid in the same amount treated as compensation income to the recipient.

Unrestricted Stock. Any shares of common stock received pursuant to an Award of unrestricted stock will be treated as compensation income received by the recipient, generally, in the year in which the recipient receives such shares. In each case, the amount of compensation income will equal the fair market value of the shares of common stock on the date compensation income is recognized (less the amount, if any, paid by the recipient for such shares). The Company or one of its subsidiaries, generally, will be entitled to a corresponding deduction in the same amount for compensation paid.

Performance Stock Awards. A recipient of a performance stock award will not recognize any taxable income for federal income tax purposes upon receipt of the Award. Any shares of common stock received pursuant to the Award will be treated as compensation income received by the recipient, generally, in the year in which the recipient receives such shares of common stock. The amount of compensation income will equal the fair market value of the shares of common stock on the date compensation income is recognized. The Company or one of its subsidiaries, generally, will be entitled to a deduction for compensation paid in the same amount treated as compensation income to the recipient.

Other Tax Matters. The exercise by a recipient of a stock option, the lapse of restrictions on restricted stock, or the deemed earnout of performance stock awards following the occurrence of a change in control, in certain circumstances, may result in:

- a 20% federal excise tax (in addition to federal income tax) to the recipient on certain payments of common stock or cash resulting from such exercise or deemed earnout of performance stock awards or, in the case of restricted stock, on all or a portion of the fair market value of the shares on the date the restrictions lapse; and
- the loss of a compensation deduction which would otherwise be allowable to the Company or one of its subsidiaries as explained above.
