Management intends to mail this proxy statement and the accompanying form of proxy to stockholders on or about September 25, 2006.

Proxies in the accompanying form, duly executed and returned to the management of the Company and not revoked, will be voted at the Annual Meeting. Any proxy given pursuant to such solicitation may be revoked by the stockholder at any time prior to the voting of the proxy by a subsequently dated proxy, by written notification to the Secretary of the Company, or by personally withdrawing the proxy at the meeting and voting in person.

The address and telephone number of the principal executive offices of the Company are:

Telephone No.: (603) 882-5200

OUTSTANDING STOCK AND VOTING RIGHTS

Only holders of the Company's common stock, par value \$.01 per share, (the "Common Stock") and holders of the Company's Series A Preferred Stock at the close of business on August 22, 2006, (the "Record Date") are entitled to receive notice of and to vote at the Annual Meeting. As of the Record Date, the Company had 36,902,885 shares of Common Stock outstanding. Each share of Common Stock is entitled to one vote on all matters. In addition, holders of the Company's Series A Preferred Stock vote together with holders of the Common Stock as a single class on all actions to be voted on by the stockholders. Each share of Series A Preferred Stock entitles the holder to 100 votes per share. Based upon 5,150 shares of Series A Preferred Stock outstanding on the Record Date, the holders of the Series A Preferred Stock are entitled to an aggregate of 515,000 votes. There are no cumulative voting rights.

VOTING PROCEDURES

The directors will be elected by the affirmative vote of the holders of a plurality of the shares of Common Stock and Series A Preferred Stock voting together as one class that are present in person or represented by proxy at the Annual Meeting, provided a quorum is present. Therefore, the three nominees receiving the greatest number of votes cast at the meeting will be elected as directors of the Company. All other matters at the Annual Meeting, including approval of the proposal to approve the option exchange offer will be decided by the affirmative vote of the holders of a majority of the votes represented by the shares of Common Stock and Series A Preferred Stock cast with respect thereto, provided a quorum is present. A quorum is present if, as of the Record Date, at least a majority of the aggregate votes represented by holders of the shares of Common Stock and Series A Preferred Stock outstanding as of the Record Date are present in person or represented by proxy at the Annual Meeting.

Votes will be counted and certified by one or more Inspectors of Election who are expected to be employees of Continental Stock Transfer & Trust Company, the transfer agent for the Common Stock. In accordance with Delaware law, abstentions and "broker non-votes" (*i.e.*, proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other person entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) will be treated as present for purposes of determining the presence of a quorum. For purposes of determining approval of a matter presented at the meeting, abstentions will be deemed present and entitled to vote and will, therefore, have the same legal effect as a vote "against" a matter presented at the meeting. Broker non-votes will be deemed not entitled to vote on the subject matter as to which the non-vote is indicated and will, therefore, have no legal effect on the vote on that particular matter.

Proxies will be voted in accordance with the instructions thereon. Unless otherwise stated, all shares represented by a proxy will be voted as instructed. If a proxy is executed but no instructions as to how to vote are given the persons named as proxies in the accompanying proxy card intend to vote the shares represented in favor of the three nominees for director listed below and for the approval of Proposal I.

ELECTION OF DIRECTORS

The Company's Certificate of Incorporation provides that the Company's Board of Directors is divided into three classes (Class I, Class II and Class III). At each Annual Meeting of Stockholders, directors constituting one class are elected for a three-year term. At this year's Annual Meeting, three (3) Class I directors will be elected to hold office for a term expiring at the Annual Meeting of Stockholders to be held in 2009. Each director will be elected to serve during his elected term until a successor is elected and qualified or until the director's earlier resignation or removal.

At the Annual Meeting, proxies granted by stockholders will be voted individually for the election, as Class I directors of the Company, of the persons listed below, unless a proxy specifies that it is not to be voted in favor of a nominee for director. In the event any of the nominees listed below is unable to serve, it is intended that the proxy will be voted for such other nominees as are designated by the Board of Directors. Each of the persons named below, who are presently members of the Company's Board of Directors, has indicated to the Board of Directors of the Company that he will be available to serve.

All nominees are recommended by the Nominating and Corporate Governance Committee. With respect to Mr. Ferry, he was originally referred to the Company by an executive search firm which was hired by the Board of Directors.

(2) The potential realizable value columns of the table illustrate values that might be realized upon exercise of the options immediately prior to their expiration, assuming the Company's Common Stock appreciates at the compounded rates specified over the term of the options. These numbers do not take into account provisions of options providing for termination of the option following termination of employment or non transferability of the options and do not make any provision for taxes associated with exercise. Because actual gains will depend upon, among other things, future performance of the Common Stock, there can be no assurance that the amounts reflected in this table will be achieved.

The Company has entered into an employment agreement with Kenneth Ferry that provides for Mr. Ferry's employment as the Company's Chief Executive Officer and President for a term commencing on May 15, 2006 and expiring on December 31, 2008, subject to automatic one-year renewals after the expiration of the initial term under certain conditions, at an annual base salary of \$300,000. The agreement also provided for Mr. Ferry to receive a signing bonus of \$35,000 and for his eligibility to receive during each employment year during the term of the agreement an annual incentive bonus ("Incentive Bonus") in each calendar year of up to \$100,000 (except for the 2006 fiscal year where the bonus will not be less than \$50,000) if the Company achieves goals and objectives mutually agreed upon by the Board and Mr. Ferry.

Mr. Ferry is also entitled to customary benefits, including participation in employee benefit plans, and reasonable travel and entertainment expenses as well as a monthly automobile allowance. The employment agreement provides that if his employment is terminated without cause, Mr. Ferry will receive an amount equal to his base salary then in effect for the greater of the remainder of his original term of employment or one (1) year plus the pro rata portion of any Incentive Bonus earned in any employment year through the date of his termination. In the event that within six months of a "change in control", either (i) Mr. Ferry is terminated by the Company without "cause" or (ii) he terminates his agreement for "good reason," as all such terms are defined in the employment agreement, he will be entitled to receive his base salary then in effect for the greater of the remainder of his original term of employment or two (2) years from the date of termination plus any Incentive Bonus which otherwise would have been payable to him for any employment year in which the date of his termination occurred.

The agreement also provided for Mr. Barnes to receive a signing bonus of \$20,000 and for his eligibility to receive during each employment year during the term of the agreement an annual incentive bonus ("Barnes Incentive Bonus") in each calendar year of up to \$74,000 (except for the 2006 fiscal year where the bonus will not be less than \$37,000) if the Company achieves goals and objectives mutually agreed upon by the Board and Mr. Barnes.

Mr. Barnes is also entitled to customary benefits, including participation in employee benefit plans and reasonable travel and entertainment expenses. In the event that within three months of a "change in control" either (i) Mr. Barnes is terminated by the Company without "cause" or (ii) he terminates his agreement for "good reason," as all such terms are defined in the employment agreement, he will be entitled to receive his base salary then in effect for the greater of the remainder of his original term of employment or one (1) year from the date of termination plus any Barnes Incentive Bonus which otherwise would have been payable to him for any employment year in which the date of his termination occurred.

Separation Agreements with Former Officers

On February 16, 2005, the Company entered into a separation agreement and release with Dr. Steven K. Rogers (the "Agreement") in connection with Dr. Rogers' resignation as Chief Scientific Officer and Director of the Company. Dr. Rogers was formerly President and Chief Executive Officer of Qualia Computing, Inc., a company acquired by the Company in December, 2003. Pursuant to the Agreement, the Company and Dr. Rogers agreed to negotiate a consulting agreement (the "Consulting Agreement") under which Dr. Rogers served as the Company's Chief Consulting Scientist. The Consulting Agreement provided for a one-year term which could be terminated upon 30 days written notice by (i) Dr. Rogers for any reason or (ii) the Company for just and reasonable cause. During the period of the Consulting Agreement and for a period of two years thereafter, Dr. Rogers reaffirmed his previous agreements not to compete with the Company, not to solicit employees of the Company, and not to disclose confidential information of the Company. The Company and Dr. Rogers indicated the change in roles would permit Dr. Rogers to commit a portion of his time to academic activities and research unrelated to the Company's business. Dr. Rogers terminated the Consulting Agreement during the second quarter of 2005.

On April 19, 2006 the Company entered into a separation agreement and release with W. Pursuant to the agreement Mr. Parr received his salary through May 15, 2006 and will receive a separation payment equal to \$480,000 less applicable taxes and withholding, payable in 24 monthly installments. In addition the agreement provides Mr. Parr the ability to exercise his options to purchase Common Stock through the existing term of the options.

REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors is responsible for, among other things, assisting the Board in overseeing the Company's executive compensation strategy and reviewing and approving the compensation of the Company's executive officers. The Company's compensation policy is to base compensation generally on performance, the Company's resources, achievement of financial and operational objectives and comparative compensation data from other companies deemed to be applicable peer groups or benchmarks for the Company's compensation program.

Stock Options. Stock option awards are intended to attract, retain and motivate personnel by affording them an opportunity to receive additional compensation based upon the performance of the Company's Common Stock. The size and grant of actual awards is determined by the Board on an individual basis, taking into account the individual's role in the Company and standard principals of reward, retention and recognition to which option grants are geared. The Board's determination as to the size of actual awards to individual executives is subjective, after taking into account the relative responsibilities and contributions of the individual employee.

STOCK PERFORMANCE GRAPH

The following chart sets forth a line graph comparing the performance of the Company's Common Stock, over the past five years. This graph assumes the investment of \$100 on December 31, 2000, in the Company's Common Stock, and compares the performance with the Nasdaq Composite Index, and the Nasdaq Medical Devices and Supplies, Manufacturers and Distributors Index. Measurement points are at December 31 for each respective year. Those companies which compete with the Company in its principal market are either small subsidiaries or divisions of large United States corporations or are foreign companies which are either not quoted on a stock exchange or for which data is difficult to obtain. For this reason the Company believes that the Nasdaq Medical Devices Index is representative of its peer group. The Company pays no dividends on its Common Stock. The Nasdaq Composite Index and the Nasdaq Medical Devices Index reflect a cumulative total return based upon the reinvestment of dividends of the stocks included in those indices. The historical information set forth below is not necessarily indicative of future performance.

During the fourth quarter of 2005, based on a previous agreement from Mr. Howard to reduce the interest rate pursuant to the Loan Agreement to prime rate plus 1%, the Company applied an interest overpayment totaling \$41,094 to the principal balance of the loan. As of December 31, 2005, \$258,906 was owed by the Company to Mr. Howard and the Company had \$4,741,094 available for future borrowings under the Loan Agreement.

On June 13, 2006 the Company borrowed \$2,000,000 from Mr. Howard, pursuant to the Loan Agreement and at June 30, 2006 \$2,258,906 was owed by the Company to Mr. Howard pursuant to the Loan Agreement and the Company had \$2,741,094 available for future borrowings under the Loan Agreement. Notwithstanding the current expiration date of Loan Agreement, Mr. Howard has agreed not to request repayment of the amounts due to him under the Loan Agreement prior to March 31, 2008. Mr. Howard has also agreed that while the Loan Agreement exists not to convert any outstanding advances under the Loan Agreement into shares of the Company's Common Stock that would exceed the available shares for issuance defined as the authorized shares of the Company's Common Stock less issued and outstanding common shares less any reserved shares for outstanding convertible preferred stock, non-employee warrants and non-employee stock options

On June 19, 2006, the Company borrowed \$200,000 from an emancipated adult son of its Chairman of the Board (the "Purchaser") pursuant to a Note Purchase Agreement dated June 19, 2006 and evidenced by a 7% Convertible Promissory Note ("Promissory Note"). The Promissory Note matures on June 19, 2008, subject to the right of the holder to accelerate payment upon the Company filing for or being adjudicated bankrupt or insolvent. The Purchaser or holder of the Promissory Note may convert the principal and accrued and unpaid interest under the note into shares of the Company's Common Stock at a price of \$1.50 per share, which conversion price is subject to adjustment under certain circumstances such as common stock splits, or combinations or common stock dividends The Purchaser has agreed that he will not convert any principal amount or accrued and unpaid interest outstanding under the Promissory Note into shares of the Company's Common Stock that would exceed the number of shares of the Company's Common Stock then available for issuance defined as the authorized shares of the Company's Common Stock less issued and outstanding common shares less any reserved shares for outstanding convertible preferred stock, non-employee warrants and non-employee stock options.

On June 20, 2006, the Company borrowed \$300,000 from its Chief Executive Officer, Mr. Kenneth Ferry, pursuant to a Note Purchase Agreement dated June 19, 2006 and evidenced by a 7% Convertible Promissory Note (“Note”). The Note matures on June 20, 2008, subject to the right of Mr. Ferry or holder of the Note to accelerate payment upon the Company filing for or being adjudicated bankrupt or insolvent. Mr. Ferry or other holder of the Note may convert the principal and accrued and unpaid interest under the Note into shares of the Company’s Common Stock at a price of \$1.50 per share, which conversion price is subject to adjustment under certain circumstances such as common stock splits, or combinations or common stock dividends. Mr. Ferry has also agreed that he will not convert any principal amount or accrued and unpaid interest outstanding under the Note into shares of the Company’s Common Stock that would exceed the number of shares of the Company’s Common Stock then available for issuance defined as the authorized shares of the Company’s Common Stock less issued and outstanding common shares less any reserved shares for outstanding convertible preferred stock, non-employee warrants and non-employee stock options.

Between September 12, 2006 and September 19, 2006, the Company borrowed a total sum of \$3,000,000 (the “Loans”) from ten accredited investors including the following: Mr. Robert Howard (as to \$1,350,000), Mr. James Harlan (as to \$300,000) and Dr. Elliot Sussman (as to \$100,000), all of whom are directors of the Company, \$50,000 by each of the following executive officers of the Company: Mr. Jeffrey Barnes and Ms. Stacey Stevens, and \$50,000 by an adult emancipated son of Mr. Howard, pursuant to Note Purchase Agreements (“Agreements”) between the Company and each of the investors. The Loans are and evidenced by 7.25% Convertible Promissory Notes (“Convertible Notes”) issued by the Company in favor of the investors. The Convertible Notes mature two years from the date of issue subject to the right of the Company to repay the Convertible Notes and the right of the holders of the Convertible Notes to accelerate payment of their respective Convertible Notes upon the Company filing for or being adjudicated bankrupt or insolvent. The holders of the Convertible Notes may convert the principal and accrued and unpaid interest under the Convertible Notes into shares of the Company’s Common Stock at a price of \$1.70 per share which conversion price is subject to adjustment under certain circumstances such as common stock splits, or combinations or common stock dividends. Certain of the holders of the Convertible Notes referred to above also agreed that they will not convert any principal amount or accrued and unpaid interest outstanding under their Convertible Note into shares of the Company’s Common Stock that would exceed the number of shares of the Company’s Common Stock then available for issuance defined as the authorized shares of the Company’s Common Stock less issued and outstanding common shares less any reserved shares for outstanding convertible preferred stock, non-employee warrants and non-employee stock options.

PROPOSAL I

APPROVAL OF OPTION EXCHANGE PROGRAM

The Board of Directors has determined that it would be in the best interests of the Company and its stockholders to implement a stock option exchange program (the "Option Exchange Program"). The Board believes that the Option Exchange Program will enhance long-term stockholder value by improving the Company's ability to provide incentives to, and help retain its employees, directors and key consultants. Under the Option Exchange Program, the Company's employees, directors and certain consultants (collectively, "Eligible Persons") will be given a one-time opportunity to exchange their outstanding stock options with exercise prices greater than \$2.00 per share (the "Eligible Options") for options to purchase the same number of shares of the Company's common stock at the greater of (i) the closing sale price of the Company's common stock on the Replacement Grant Date (defined below) or (ii) \$2.00 per share (the "New Options") to be granted on or about the first business day following the expiration of a tender offer to be made to such Eligible Persons (the "Replacement Grant Date"). The New Options will have a term of two (2) years from the Replacement Grant Date.

BACKGROUND

The Board believes that, in order to enhance long-term stockholder value, the Company needs to implement and maintain competitive incentive compensation and retention programs for its employees, directors and consultants who are expected to contribute to the success of the Company. Stock options have been, and continue to be, a key part of the Company's incentive compensation and retention programs. Stock options are designed to motivate and reward employees', directors' and consultants' efforts toward the Company's growth and success. By granting stock options to talented employees, directors and consultants, the Company intends to align their interests with its stockholders, provide incentives for them to grow long-term stockholder value and encourage the long-term employment of such employees and to foster the relationship of the Company with such consultants.

As a result of the market conditions over the past several years and the resulting deterioration in the stock price of the Company in particular, a significant number of the Company's employees, directors and key consultants hold stock options with exercise prices that greatly exceed the current market price of the Company's common stock. Consequently, the Board believes that these options no longer provide the long-term incentive and retention objectives that they were intended to provide. The Option Exchange Program is intended to address this situation by providing Eligible Persons with an opportunity to exchange Eligible Options for the New Options. To meet the Company's need to provide incentive and retention objectives for the Eligible Persons while simultaneously protecting the interests of stockholders, the term of the New Options will be two (2) years from the Replacement Grant Date rather than the term of the options surrendered for exchange. Currently, options available for exchange have an average remaining term of eight (8) years.

The Company believes that in light of the Company's recent financial condition, historical stock price ranges and the current price of its common stock, the exercise price of the New Options together with the reduction in the term of the New Options compared to the Eligible Options available for exchange will result in no compensation charge to the Company, although there can be no assurance that this will be the case. In addition, the Company believes, although there can be no assurance, that, at the same time, it is likely that the exercise price of the New Options will be sufficiently lower than the exercise price of the Eligible Options to achieve the goal of providing a further incentive to existing option holders to more closely align their interest with the interest of the Company's stockholders. At September 21, 2006, the closing sale price of the Company's Common Stock as listed on Nasdaq was \$ 1.85.

Under Nasdaq rules stockholder approval is required to implement the Option Exchange Program. If approved by the stockholders, the Option Exchange Program would provide the Company with an opportunity to motivate its workforce to achieve future growth. By realigning the exercise prices of previously-granted stock options with the current value of the Company's common stock, the Board believes that the outstanding options that are subject to the Option Exchange Program will again become important tools to help motivate and retain the Company's employees, directors and key consultants and continue to align their interests with those of the Company's stockholders. In addition, the Option Exchange Program is designed to reduce the period of time that the outstanding stock options can remain outstanding.

OVERVIEW OF THE OPTION EXCHANGE PROGRAM

In order to implement the Option Exchange Program, the Company proposes to commence an offer to Eligible Persons whereby, upon the terms and subject to the conditions set forth in "tender offer" documents and related materials that the Company is filing with the Securities and Exchange Commission ("SEC") and distributing to all Eligible Persons in September 2006 (the "Offer to Exchange"), Eligible Persons will be offered an opportunity to exchange their Eligible Options for New Options. All New Options will be granted under the respective plans under which the options surrendered for exchange were issued, or in the case of non-plan options, pursuant to agreements that provide for the new exercise price and term of the option. Each New Option will have an exercise price equal to the greater of (i) the closing sale price of the Company's common stock on the Replacement Grant Date or (ii) \$2.00 per share (the "Option Price"). The ratio of exchanged Eligible Options to New Options will be one-to-one, meaning that Eligible Persons will receive New Options for the same number of shares that they elect to surrender in the Option Exchange Program. The Company currently expects that if this Proposal for the Option Exchange Program is approved by the stockholders, the Replacement Grant Date will occur on or about the first business day after the Annual Meeting. All of the New Options will vest in full on the Replacement Grant Date.

DETAILS OF THE OPTION EXCHANGE PROGRAM

IMPLEMENTING THE OPTION EXCHANGE PROGRAM

The Board of Directors has authorized the Option Exchange Program upon the recommendation of the Compensation Committee and subject to stockholder approval. The opportunity to participate in the Option Exchange Program will be made available to Eligible Persons through the "Offer to Exchange." Eligible Persons will be given at least 20 business days to decide whether to cancel all or a portion of their Eligible Options in exchange for New Options. The Eligible Options tendered for cancellation under the Option Exchange Program will be cancelled on the expiration date of the offer which is currently expected to occur at the close of business on the date of the Annual Meeting unless the Company elects, in its sole discretion, not to accept any or all of such tendered options or otherwise extends the expiration date of the Offer to Exchange. The New Options will be granted on the Replacement Grant Date if the Option Exchange Program is approved by the stockholders and if the Company accepts the tendered options for cancellation. The Offer to Exchange will not be consummated, and accordingly there will be no exchange of options under the Option Exchange Program and the Option Exchange Program will automatically terminate, if this Proposal to approve the Option Exchange Program does not receive the requisite affirmative vote of stockholders at the Annual Meeting or any adjournment or postponement thereof. Even if approved by the stockholders, the Board will retain the authority, in its sole discretion, to terminate, modify or postpone the Option Exchange Program at any time prior to the expiration date of the Offer to Exchange.

OUTSTANDING OPTIONS ELIGIBLE FOR THE OPTION EXCHANGE PROGRAM

As of September 22, 2006, options to purchase 1,692,065 shares of common stock were outstanding and eligible to participate in the Option Exchange Program. These options are fully vested, have exercise prices ranging from \$2.55 to \$5.28, an average exercise price of \$3.76, and expire between June 2012 and August 2015.

ELIGIBILITY

The Option Exchange Program generally will be made available to all current Eligible Persons who hold Eligible Options. An eligible employee must be employed and may not have received nor have given a notice of termination at the time the Offer to Exchange commences. Additionally, an eligible employee, director or consultant who surrenders his or her Eligible Options for exchange must also be an employee, director or consultant on the date that the New Options are granted in order to receive the New Options. As of September 22, 2006 there were 52 employees holding Eligible Options.

ELECTION TO PARTICIPATE

Under the Option Exchange Program, Eligible Persons will be given a one-time opportunity to exchange some or all of their Eligible Options for the same number of New Options at a new exercise price to the greater of (i) the closing sale price of the Company's common stock on the Replacement Grant Date or (ii) \$2.00 per share.

Participation in the Option Exchange Program will be voluntary. Eligible Persons will be permitted to exchange all or any portion of their Eligible Options for New Options on a whole-grant-by-whole-grant basis.

Voting by Eligible Persons in favor of this Proposal at the annual meeting does not constitute an election by them to participate in the Option Exchange Program.

EXERCISE PRICE OF NEW OPTIONS

The exercise price, or the Option Price, of the New Options will be the greater of (i) the closing sale price of the Company's common stock on the Replacement Grant Date or (ii) \$2.00 per share .

VESTING OF NEW OPTIONS

The New Options will be completely vested at the the Replacement Grant Date.

Other restrictions or terms regarding the exercise of New Options will be set forth in an option agreement to be entered into as of the Replacement Grant Date.

TERM OF THE NEW OPTIONS

Each New Option will have a term equal to two years from the Replacement Grant Date (subject to earlier expiration of the New Option upon termination of the employment of an optionee who is an employee).

FORM OF THE NEW OPTIONS

All New Options will be non-qualified options under U.S. tax laws, regardless of whether the Eligible Persons tendered in the Offer to Exchange are incentive stock options or non-qualified options.

OTHER TERMS AND CONDITIONS OF THE NEW OPTIONS

The other terms and conditions of the New Options will be set forth in an option agreement to be entered into effective as of the Replacement Grant Date. The New Options to be granted under one of the Company's Option Plans will also be subject to the terms and conditions of such plan, which generally are expected to be comparable to the other terms and conditions of the Eligible Options. The shares of common stock for which the New Options may be exercised are expected to be registered with the SEC.

CANCELLATION OF ELIGIBLE OPTIONS SURRENDERED

The Eligible Options surrendered will be cancelled on the expiration date of the Exchange Offer, unless the Company elects, in its sole discretion, not to accept for surrender any or all of the Eligible Options.

ACCOUNTING TREATMENT

The Company will recognize a compensation expense for financial reporting purposes with respect to the New Options issued pursuant to the Offer. The amount of the expense will be determined on an option-by-option basis and will be equal to the amount by which (i) The fair value of each tendered option exceeds (ii) the fair value of the cancelled Eligible Options as calculated immediately before their cancellation. Such fair value will be determined in accordance with the valuation standards of Financial Accounting Standard 123R. Any resulting compensation charge will be recognized at the Replacement Grant Date. The Company believes that in light of the Company's recent financial condition, historical stock price ranges and the current price of its common stock, the anticipated new exercise price of the New Options together with the reduction in the term of the New Options compared to the options available for exchange will result in no compensation charge to the Company, although there can be no assurance that this will be the case. Therefore, depending upon the number of eligible options that are tendered for exchange and the actual exercise price of the New Options, the compensation charge to the Company could be material.

U.S. FEDERAL INCOME TAX CONSEQUENCES

The following general summary of the material U.S. federal income tax consequences of the exchange of Eligible Options under this Option Exchange Program to Eligible Persons.

This discussion is based on the current Internal Revenue Code of 1986, as amended, its legislative history, Treasury Regulations and administrative and judicial interpretations, all of which may change, possibly on a retroactive basis. **This summary does not discuss all of the tax consequences that may be relevant to an Eligible Person nor is it intended to apply in all respects to all categories of Eligible Employees.**

U.S. Federal Income Tax Consequences of Nonqualified Stock Options. The exchange of Eligible Options that are nonqualified options should be treated as a non-taxable exchange and no income should be recognized for U.S. federal income tax purposes upon grant of the New Options. However, when a New Option is exercised, the difference between the exercise price of such option and the fair market value of the shares subject to the option on the date of exercise will be treated as taxable compensation income to the exercising holder who will be subject to withholding of income and employment taxes at that time.

The subsequent sale of the shares acquired pursuant to the exercise of a nonqualified stock option generally will give rise to capital gain or loss equal to the difference between the sale price and the sum of the exercise price paid for the shares plus the ordinary income previously recognized with respect to the shares, and these capital gains or losses will be treated as long-term capital gains or losses if the shares are held for more than one year following exercise of the option.

U.S. Federal Income Tax Consequences of Incentive Stock Options. The exchange of Eligible Options that are incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended should be treated as a non-taxable exchange and no income should be recognized for U.S. federal tax purposes upon grant of the New Options. All of the New Options will be nonqualified stock options, and will be subject to federal income taxation as described above. Unlike incentive stock options, nonqualified stock options are not eligible for certain favorable tax treatment available to incentive stock options described below.

Under current law, a holder will not realize taxable income when incentive stock options were granted to the holder. In addition, a holder generally would not realize taxable income when the holder exercises an incentive stock option. However, alternative minimum taxable income would be increased by the amount that the aggregate fair market value of the shares a holder can purchase under the option, which is generally determined as of the date of exercise the option, exceeds the aggregate exercise price of the option. Generally, if an incentive stock option is exercised more than three months after employment of an option holder is terminated, even if permitted by the option agreement, the option will not be treated as an incentive stock option and will be subject to taxation under the rules applicable to nonqualified stock options that are discussed above.

If common stock acquired by exercising an incentive stock option is sold, the tax consequences of the sale depend on whether the disposition is “qualifying” or “disqualifying.” The disposition of the common stock is qualifying if it is made after the later of: (a) more than two years from the date the incentive stock option was granted and (b) more than one year after the date the incentive stock option was exercised.

If the disposition of the common stock received upon exercise of an incentive stock option is qualifying, any excess of the sale price over the exercise price of the option will be treated as long-term capital gain taxable to the holder at the time of the sale. If the disposition is not qualifying, which is referred to as a “disqualifying disposition,” the excess of the fair market value of the common stock on the date the option was exercised over the exercise price will be taxable ordinary income to the holder at the time of the sale. However, if the difference between the sale price and the option exercise price is less than the difference between the fair market value of the common stock on the exercise date and the exercise price, this lesser amount is ordinary income to the holder. Any amount in excess of the ordinary income amount will be long term capital gain or short term capital gain, depending on whether or not the common stock was sold more than one year after the option was exercised.

The above description is only a summary of the U.S. federal income tax consequences of the exchange of Eligible Options under the Option Exchange Program to a holder of Eligible Options, and is not intended to provide any tax advice in connection with the Option Exchange Program.

POTENTIAL MODIFICATIONS OF TERMS TO COMPLY WITH GOVERNMENTAL OR OTHER REQUIREMENTS

The terms of the Option Exchange Program will be described in an Offer to Exchange that will be filed with the SEC. It is possible that the SEC will require material modification of the terms of the Option Exchange Program. Consequently, the Company may be required to alter the terms of the Option Exchange Program to comply with SEC comments. The Company also reserves the right, in its sole discretion, to suspend, modify or terminate the Option Exchange Program at any time for any reason prior to the Replacement Grant Date. Eligible Persons, as well as stockholders and members of the public will be able to obtain a copy of the Offer to Exchange and other documents filed by the Company with the SEC with respect to the Option Exchange Program free of charge from the SEC’s website at www.SEC.gov.

EFFECT ON STOCKHOLDERS

The proposed Option Exchange Program has been designed so that, assuming all Eligible Options are exchanged, the value of the Eligible Options surrendered (as determined by the Company under the Black-Sholes pricing model that the Company uses to calculate the value of its options) on an aggregate basis, is expected to be greater than or equal to the value of the New Options granted (due to the effect under the Black-Sholes pricing model of the decrease in the term of the New Options when compared to the Eligible Options), which is expected to minimize the dilution in ownership that normally results from supplemental grants of new stock options. However, the Company is not able to predict with certainty the impact the Option Exchange Program will have on stockholders, because it is unable to predict how many Eligible Persons will exchange their Eligible Options or what the future market price of the Company’s common stock will be.

STOCKHOLDER VOTE REQUIRED

The affirmative vote of the holders of a majority of the aggregate votes represented by the shares of Common Stock and Series A Preferred Stock cast at the annual meeting with respect to the proposal is required for the approval of the Option Exchange Program.

Recommendation

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE OPTION EXCHANGE PROGRAM.
