Item 2. Management's Discussion And Analysis Or Plan Of Operation

This report contains forward-looking statements within the meaning of Section 29a of the Securities Act of 1933, as amended, and Section 21e of the Securities Exchange Act of 1934, as amended. These forward-looking statements are subject to numerous risks and uncertainties that could cause actual results to differ materially from historical or anticipated results. You should not place undue reliance on such forward-looking statements, and, when considering such forward-looking statements, you should keep in mind the risk factors noted throughout this Form 10-QSB, including the section of this report entitled "Risks Related to Our Business and Operations." You should also keep in mind that all forward-looking statements are based on management's existing beliefs about present and future events outside of management's control and on assumptions that may prove to be incorrect. The following discussion and analysis should be read in conjunction with our financial statements and notes thereto, which are included elsewhere in this report.

Overview

On February 5, 2007, we spun off our wholly owned subsidiary SKREEM Entertainment Corporation ("SKREEM") whose business was to find and manage artists in the music industry.

We currently have a Letter of Intent to acquire 75% of the stock of Sector 10 Services USA, Inc. ("Sector 10"), a Washington corporation, for 50,000,000 newly issued shares and 15,000,000 issued and outstanding shares owned by Jeffery Martin, a major shareholder.

Sector 10 seeks to become the leading provider of pre-deployed emergency life response equipment across all major US cities. Sector 10 is the exclusive provider of Pericles LogiX System in the United States. Sector 10's core focus is on the first response solutions, utilizing two lines of patented products, Mobile Response United ("MRU") and Stationary Response Units ("SRU").

As of July 31, 2007, Sector 10 expects to complete its audit within 30 days as required by the Letter of Intent and SKRM expects to close the transaction in November.

Sector 10 Services seeks to become a leading provider of pre-deployed emergency life response equipment across a number of major metropolitan areas located in the United States. The core focus of Sector 10 Services is on developing and marketing first response solutions, utilizing two lines of patented products, Mobile Response Units ("MRU") and Stationary Response Units ("SRU"). Sector 10 Services intends to position its product offerings to market and address the city-centric emergency needs of larger metropolitan areas with the Pericles LogiX System. The Pericles LogiX System is a structured and integrated emergency solution designed to pre-deploy emergency and disaster response equipment in multi-story residential and commercial buildings. Sector 10 Services is the exclusive provider of the Pericles LogiX System in the United States. Sector 10 also offers the SRU and MRU product lines, which are designed to provide emergency safety services in large metropolitan areas. Sector 10 has completed development and production of the initial MRU product, has commenced test marketing and sales of the units.

Going Concern Qualification

Our notes to the consolidated financial statements disclose that the cash flow of the Company has been absorbed in operating activities and has incurred net losses for the three months, and have a working capital deficiency. In the event that funding from internal sources or from public or private financing is insufficient to fund the business at current levels, we will have to substantially cut back our level of spending which could substantially curtail our operations. These factors raise substantial doubt about our ability to continue as a going concern. Our going concern uncertainty may affect our ability to raise additional capital, and may also affect our ability to raise additional capital, and may also affect our relationships with suppliers and customers. Investors should carefully examine our financial

statements.

6

Results of Operations

Three Months Ended September 30, 2007 as Compared to the Three Months Ended September 30, 2006

Revenues -

The Company's had no revenues for the three months ended June 30, 2007; however, we are actively pursuing opportunities for revenue growth in the near future.

We do not have revenue relating to SKRM for the three months ended June 30, 2006. Our discontinued operations had revenues of \$66,695 which were comprised of revenue from licensing agreements and sales of records for this same period.

Operating Expenses -

SKRM had no operating expenses for the three months ended June 30, 2007 and 2006, respectively.

Our discontinued operations had operating expenses of \$323,105 for the three months ended June 30, 2006. The operating expenses related to the support of our artists touring in Germany and other countries.

General and Administrative Expenses -

General and administrative expenses were \$325,629 for the three months ended June 30, 2007. These expenses are made up in large part by compensation expense to a major shareholder of \$234,897, accounting fees of \$43,873, consulting and professional fees of \$24,845 and additional expense relating to our 2% penalty for the late filing of our registration statement.

General and administrative expenses were \$0 for the three months ended June 30, 2006. Our discontinued operations had general and administrative expenses of \$149,352 which were mainly attributed to salaries, professional fees and delivery expenses.

Interest Expense -

Interest expense for the three months ended June 30, 2007 was \$19,071. The interest expense is comprised of \$1,946 of amortization of deferred financing costs, \$4,086 of accretion of debt discount, \$12,939 relating to the convertible notes payable and \$100 relating to a notes payable to a major shareholder.

Interest expense for the three months ended June 30, 2006 was \$0 for SKRM. Our discontinued operations had interest expense of \$27,776 which was attributed to interest due on our notes payable during this period.

Change in Fair Value of Derivatives

The change in fair value of our derivatives for the three months ended June 30, 2007 was a loss of \$473,964. The loss is comprised of (a) the fair value of our single compound embedded derivatives within the convertible notes decreased in value by \$891, and (b) the fair value of our warrants increased by \$474,855, with a net change of \$473,964 for the period. Our warrants increased in value due to a change in one of our assumptions within the valuation model. We felt it was necessary to consider a possible reset of the exercise price of the warrants due to a small possibility of the Company issuing new debt with additional equity or derivative instruments.

The change in fair value of our derivatives for the three months ended June 30, 2006 was \$0. We did not have any embedded or freestanding derivatives during this period. Our discontinued operations also did not have any embedded or freestanding derivatives during this same period.

Discontinued Operations

Our discontinued operations are only reflected in the three months ended June 30, 2006. The discontinued operations for our wholly owned subsidiary SKREEM Entertainment Corporation (“SKREEM”) had a net loss of \$433,538 for the three months ended June 30, 2006. SKREEM’s core business was to find and management artist in the music industry. SKREEM was spun-off on February 5, 2007 into its own separate and distinct company.

Liquidity and Capital Resources

As of June 30, 2007, SKRM had cash of \$397 and a deficit in working capital of \$1,995,157 and we believe this is not sufficient to meet our working capital requirements for the coming year.

We have financed our operations almost exclusively through the sale of our common shares to investors and borrowers. We expect to finance operations through the sale of equity in the foreseeable future as we receive minimal revenue from our current business operations. There is no guarantee that we will be successful in arranging financing on acceptable terms.

We anticipate that up to \$375,000 of additional working capital will be required over the next 9 months to meet our budgeted needs for the current fiscal year. We do not have sufficient cash on hand to meet these anticipated obligations.

We do not currently have any arrangements for financing and we may not be able to find such financing if required. Obtaining additional financing would be subject to a number of factors, including investor sentiment. Market factors may make the timing, amount, terms or conditions of additional financing unavailable to us.

Our continuation as a going concern is dependent upon continued financial support from our shareholders and other related parties.

Total Assets -

SKRM currently has \$99,768 in total assets as of June 30, 2007. Our total assets are comprised of (a) \$397 in cash, (b) \$14,123 due from our affiliate and (c) \$85,248 of deferred financing costs.

Total Liabilities -

SKRM currently has \$2,035,384 in total liabilities as of June 30, 2007. Our total liabilities are comprised of (a) \$145,395 of accounts payable and accrued liabilities, (b) \$1,870,209 of derivative liabilities, (c) \$8,500 in notes payable to an affiliate, and (d) a net balance of \$11,280 on our callable convertible notes payable, with the callable convertible notes having a notional balance of \$600,000 and \$588,720 of discount to the debt still remaining to be accreted.

Operating Activities -

Cash used in operations for the three months ended June 30, 2007 was \$374,884. Operating activities were affected by non-cash expenses of \$473,964 for the change in fair value of the derivative liabilities and \$6,032 of amortized deferred financing costs and accreted discounts on the convertible notes. Operating activities were also affected by the change in accounts payable and accrued liabilities of \$9,015 and the change in the amount due to an affiliate by \$27,201.

Cash used in operations for the three months ended June 30, 2006 was \$0. Cash used in discontinued operations for this same period was \$139,230.

Investing Activities -

Cash from our investing activities for the three months ended June 30, 2007 was \$400,000. We received payment from Weaver Interactive, Inc. for a notes receivable in the amount of \$400,000 in April of 2007.

Cash used in investing activities for the three months ended June 30, 2006 was \$0. Our discontinued operations used \$373 for this same period in investing activities.

8

Financing Activities -

Cash used in financing activities for the three months ended June 30, 2007 was \$26,500. Our financing activities for this period are comprised of (a) payments made by a shareholder on a notes payable of \$35,000 and (b) proceeds from a new notes payable of \$8,500.

Cash used in financing for the three months ended June 30, 2006 was \$0. Our discontinued operations provided \$84,695 in cash for financing activities for this same period which was provided by new promissory notes to SKREEM.

Risks Related to our Business and Operations

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below, and all of the other information set forth in this Report before deciding to invest in shares of our common stock. In addition to historical information, the information in this Report contains forward-looking statements about our future business and performance. Our actual operating results and financial performance may be different from what we expect as of the date of this Report. The risks described in this Report represent the risks that management has identified and determined to be material to our company. Additional risks and uncertainties not currently known to us, or that we currently deem to be immaterial, may also materially harm our business operations and financial condition.

We have not paid any cash dividends on our common stock to date and do not anticipate any cash dividends being paid to holders of our common stock in the foreseeable future. While our dividend policy will be based on the operating results and capital needs of the business, it is anticipated that any earnings will be retained to finance our future expansion. As we have no plans to issue cash dividends in the future, our common stock could be less desirable to other investors and as a result, the value of our common stock may decline, or fail to reach the valuations of other similarly situated companies who have

Compliance with existing and new regulations of corporate governance and public disclosure may result in additional expenses.

Compliance with changing laws, regulations, and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002 and other SEC regulations, requires large amounts of management attention and external resources. This may result in increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

Our directors, executive officers and principal stockholders have effective control of the company, preventing non-affiliate stockholders from significantly influencing our direction and future.

Our directors, officers, and 5% stockholders and their affiliates control in excess of [_____]%. If our outstanding shares of common stock and are expected to continue to control a majority of our outstanding common stock following any financing transactions projected for the foreseeable future. These directors, officers and affiliates effectively control all matters requiring approval by the stockholders, including any determination with respect to the acquisition or disposition of assets, future issuances of securities, declarations of dividends and the election of directors. This concentration of ownership may also delay, defer, or prevent a change in control and otherwise prevent stockholders other than our affiliates from influencing our direction and future.

There is a public market for our stock, but it is thin and subject to manipulation.

The volume of trading in our common stock is limited and can be dominated by a few individuals. The limited volume, if any, can make the price of our common stock subject to manipulation by one or more stockholders and will significantly limit the number of shares that one can purchase or sell in a short period of time. An investor may find it difficult to dispose of shares of our common stock or obtain a fair price for our common stock in the market.

The market price for our common stock is volatile and may change dramatically at any time.

The market price of our common stock, like that of the securities of other early-stage companies, is highly volatile. Our stock price may change dramatically as the result of announcements of our quarterly results, the rate of our expansion, significant litigation or other factors or events that would be expected to affect our business or financial condition, results of operations and other factors specific to our business and future prospects. In addition, the market price for our common stock may be affected by various factors not directly related to our business, including the following:

- intentional manipulation of our stock price by existing or future stockholders;
- short selling of our common stock or related derivative securities;
- a single acquisition or disposition, or several related acquisitions or dispositions, of a large number of our shares;
- the interest, or lack of interest, of the market in our business sector, without regard to our financial condition or results of operations;
- the adoption of governmental regulations and similar developments in the United States or abroad that may affect our ability to offer our products and services or affect our cost structure;
- developments in the businesses of companies that purchase our products; and
- economic and other external market factors, such as a general decline in market prices due to poor economic indicators or investor distrust.

Our business may be affected by increased compensation and benefits costs.

Compliance with existing and new regulations of corporate governance and public disclosure may result in additional expenses.

We are unlikely to pay dividends on our common stock in the foreseeable future.

We have never declared or paid dividends on our stock. We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business. We do not anticipate paying any cash dividends in the foreseeable future, and it is unlikely that investors will derive any current income from ownership of our stock. This means that your potential for economic gain from ownership of our stock depends on appreciation of our stock price and will only be realized by a sale of the stock at a price higher than your purchase price.

Our common stock is a “low-priced stock” and subject to regulation that limits or restricts the potential market for our stock.

Shares of our common stock may be deemed to be “low-priced” or “penny stock,” resulting in increased risks to our investors and certain requirements being imposed on some brokers who execute transactions in our common stock. In general, a low-priced stock is an equity security that:

- Is priced under five dollars;
- Is not traded on a national stock exchange, the Nasdaq Global Market or the Nasdaq Capital Market;
- Is issued by a company that has less than \$5 million in net tangible assets (if it has been in business less than three years) or has less than \$2 million in net tangible assets (if it has been in business for at least three years); and
- Is issued by a company that has average revenues of less than \$6 million for the past three years.

We believe that our common stock is presently a “penny stock.” At any time the common stock qualifies as a penny stock, the following requirements, among others, will generally apply:

Certain broker-dealers who recommend penny stock to persons other than established customers and accredited investors must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale.

- Prior to executing any transaction involving a penny stock, certain broker-dealers must deliver to certain purchasers a disclosure schedule explaining the risks involved in owning penny stock, the broker-dealer's duties to the customer, a toll-free telephone number for inquiries about the broker-dealer's disciplinary history and the customer's rights and remedies in case of fraud or abuse in the sale.
- In connection with the execution of any transaction involving a penny stock, certain broker-dealers must deliver to certain purchasers the following:

- o bid and offer price quotes and volume information;
- o the broker-dealer's compensation for the trade;
- o the compensation received by certain salespersons for the trade;
- o monthly accounts statements; and
- o a written statement of the customer's financial situation and investment goals.

Item 3. Controls and Procedures

(a) Based on the evaluation of our “disclosure controls and procedures” (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) or 15d-15(e)) required by paragraph (b) of Rules 13a-15 or 15d-15, the Company’s principal executive officer and principal financial officer concluded that as of September 30, 2007, the Company’s disclosure controls and procedures were effective in ensuring that information required to be disclosed by the Company in its reports that it files or submits under the Securities Exchange Act of 1934 (as amended) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

(b) There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

[Insert description of Sector 10 transaction]

The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Section 4(2) of the Securities Act and/or Regulation D promulgated thereunder, based upon the following: (a) the investor confirmed to us that the investor was an “accredited investor,” as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investor was provided with certain disclosure materials and all other information requested with respect to our company; (d) the investor acknowledged that all securities being purchased were “restricted securities” for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.
