1. Description of Business and Going Concern

a)	Description of Business
----	-------------------------

Stargold Mines, Inc. (the "Company"), formerly Sockeye Seafood Group Inc., (Sockeye Seafood Group Inc. merged with its wholly-owned subsidiary Stargold Mines, Inc. on November 23, 2006 and changed its name to Stargold Mines, Inc.) was incorporated under the laws of the State of Nevada on May 21, 2003. The Company was formed to engage in the business of procuring and marketing seafood products direct from Pacific Northwest First Nations organizations to North American and international wholesalers, distributors, and retailers.

The Company's operations have been limited to general administrative operations, purchasing a limited amount of sample inventory, minimal sales and establishing its website. The Company is considered a development stage company in accordance with Statement of Financial Accounting Standards ("SFAS") No. 7 "Accounting and Reporting by Development Stage Enterprises". The Company is currently working on acquiring licenses to develop and extract natural resources in the Siberian and Far Eastern Districts of Russia.

b)	Going Concern
----	---------------

The accompanying condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America with the assumption that the Company will be able to realize its assets and liabilities in the normal course of business. The Company has experienced recurring losses since inception and has negative cash flows from operations that raise substantial doubt as to its ability to continue as a going concern. For the period ended September 30, 2007, the Company experienced a net loss of \$328,214 and has a deficit accumulated during the development stage of \$390,857 at September 30, 2007.

The Company's ability to continue as a going concern is contingent upon its ability to secure additional financing and attaining profitable operations.

Management is pursuing various sources of equity financing. Although the Company plans to pursue additional financing, there can be no assurance that the Company will be able to secure financing when needed or obtain such on terms satisfactory to the Company, if at all.

The accompanying condensed financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the inability of the Company to continue as a going concern.

2. Summary of Significant Accounting Policies

a)

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10 QSB. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Interim results are not necessarily indicative of the results that may be expected for a full year. There have been no significant changes of accounting policies since December 31, 2006. These condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report for the fiscal year ended December 31, 2006.

b)

Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board ("FASB") issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115". This statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This statement is expected to expand the use of fair value measurement, which is consistent with the Board's long term measurement objectives for accounting for financial instruments. This statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. This statement does not affect any existing accounting literature that requires certain assets and liabilities to be carried at fair value. This statement does not establish requirements for recognizing and measuring dividend income, interest income, or interest expense. This statement does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in FASB Statements No. 157, "Fair Value Measurements", and No. 107, "Disclosures about Fair Value of Financial Instruments." This statement is effective as of the beginning of the entity's first fiscal year that begins after November 15, 2007. The Company is currently reviewing the effect, if any, the proposed guidance will have on its financial statements.

In May 2007, the FASB issued a FASB Staff Position on FIN 46(R)-7, "Application of FASB Interpretation No. 46(R) to Investment Companies" ("FSP FIN 46 (R)-7"). FSP FIN 46(R)-7 addresses the application of FASB Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities", by an entity that accounts for its investments in accordance with the specialized accounting guidance in the American Institute of Certified Public Accountants ("AICPA") Audit and Accounting Guide, "Investment Companies" (the "Guide"). The adoption of FSP FIN 46(R)-7 did not have a material impact on the Company's results of operations and financial condition.

2. Summary of Significant Accounting Policies (cont'd)

b)

Recent Accounting Pronouncements (cont'd)

In May 2007, the FASB issued FASB Interpretation FIN No. 48-1, "Definition of Settlement in FASB Interpretation 48" ("FIN 48-1"). FIN 48-1 amends FIN 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109", to provide guidance on how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FIN 48-1 is effective retroactively to January 1, 2007. The adoption of FIN 48-1 did not have a material effect on the Company's condensed financial statements.

In June 2007, the AICPA issued Statement of Position ("SOP") No. 07-1, "Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies" ("SOP No. 07-1"). SOP No. 07-1 clarifies when an entity may apply the provisions of the Guide. Investment companies that are within the scope of the Guide report investments at fair value; consolidation or use of the equity method for investments is generally not appropriate. SOP No. 07-1 also addresses the retention of specialized investment company accounting by a parent company in consolidation or by an equity method investor. SOP No. 07-1 is effective for fiscal years beginning on or after December 15, 2007 with early adoption encouraged. The Company is currently evaluating the impact, if any of SOP No. 07-1 on the Company's condensed financial statements.

In September 2007, the FASB published Proposed FASB Staff Position ("FSP") No. APB 14-a, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion." The proposed FSP applies to convertible debt instruments that, by their stated terms, may be settled in cash (or other assets) upon conversion, including partial cash settlement, unless the embedded conversion option is required to be separately accounted for as a derivative under SFAS No. 133. Convertible debt instruments within the scope of the proposed FSP are not addressed by APB 14. Therefore, the liability and equity components of convertible debt instruments within the scope of the proposed FSP shall be separately accounted for in a manner that will reflect the entity's nonconvertible debt borrowing rate. This will require an allocation of the convertible debt proceeds between the liability component and the embedded conversion option (i.e., the equity component). The difference between the principal amount of the debt and the amount of the proceeds allocated to the liability component would be reported as a debt discount and subsequently amortized to earnings over the instrument's expected life using the effective interest method. The proposed FSP is expected to be effective for fiscal years beginning after December 15, 2007 and will require retrospective application. The Company is currently reviewing the effect, if any, if the proposed FSP were to be adopted.

3. Loan Receivable

The loan receivable from UniverCompany Limited Liability Company, a Russian limited liability society ("UniverCompany"), is non-interest bearing, unsecured and has no specified terms for repayment, and has face value of \$1,199,000. The fair value of the loan was determined to be \$961,585, estimated based on a collection period of 2 years, using interest rate of 11%. Unrealized loss has been reported in other comprehensive loss.

4. Loan Payable

The loan payable to Blue Water Partners bears interest at prime plus 1% per annum beginning October 31, is unsecured and has no specified terms of repayment.

5. Capital Stock

On November 23, 2006, the Company implemented a one for forty (1:40) forward stock split and increased its authorized shares of common stock on a corresponding basis. The 2006 comparative number of shares have been retroactively adjusted to give effect to the stock split.

On December 19, 2006 the Company issued 1,000,000 units of the Company's securities, each unit consisting of one share of common stock and one share purchase warrant for total proceeds of \$1,000,000. Each warrant is exercisable for one share of common stock at an exercise price of \$2.50 for two years from the date of issuance. Due to the substantial difference between market value and exercise price no value has been attributed to the warrants.

In March 2007, the Company issued 25,000 shares for services valued at \$2,500.

In March 2007, the Company issued 83,200 shares for cash of \$8,320.

In May 2007, the Company issued 111,111 shares by way of the sale of 111,111 units of the Company's securities. Each unit consists of one share of common stock and one half Class A Warrant. Each Class A Warrant is exercisable for one share of common stock at an exercise price of \$7.00 for 2 years from the date of issuance. The units were issued for cash of \$406,112 for the common shares and \$93,888 for the Class A Warrants.

In June 2007, the Company cancelled 40,000,000 issued common shares that were held by former directors.

6.

Income Taxes

The Company accounts for income taxes pursuant to SFAS No. 109. This standard prescribes the use of the liability method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates. The effects of future changes in tax laws or rates are not anticipated.

Under SFAS No. 109 income taxes are recognized for the following: a) amount of tax payable for the current year, and b) deferred tax liabilities and assets for future tax consequences of events that have been recognized differently in the financial statements than for tax purposes.

The current provision for income taxes has been computed as follows:

Expected income tax recovery at the statutory rate - 31%	\$ (103,059)
Valuation allowance	103,059
Current provision for income taxes	-

The Company has tax losses available to be applied against future years' income. Due to the losses incurred in the current period and expected future operating results, management determined that it is more likely than not that the deferred tax asset resulting from the tax losses available for carryforward will not be realized through the reduction of future income tax payments, accordingly a 100% valuation allowance has been recorded for the current income taxes and deferred income tax assets.

The Company has deferred income tax assets as follows:

Net operating loss carryforward	\$ 122,730
Valuation allowance for deferred income tax assets	(122,730)
Deferred income tax assets	\$ -

As of September 30, 2007, the Company had \$390,857 of Federal and state net operating loss carryforwards available to offset future taxable income. The Company has the following losses which expire in 20 years from the date the loss was incurred:

Expiry 2023	\$ 1,728
Expiry 2024	4,513
Expiry 2025	5,676
Expiry 2026	50,726
Expiry 2027	328,214
	\$ 390,857

7. Contingency

On November 30, 2006, the Company entered into a stock purchase agreement with UniverCompany and agreed to purchase from shareholders of UniverCompany 100% of the issued and outstanding shares of common stock of UniverCompany. In consideration therefore, the Company will issue to the shareholders of UniverCompany 15,000,000 shares of the Company's common stock.

The acquisition is currently going through the legal procedures required by Russian legislation, and the title did not pass to the Company as of the period end. Shares will be issued when the transaction is approved by the Russian authorities.

8. Restatement

The stockholders' equity has been retroactively restated to December 31, 2005 to give effect to the 1 for 40 stock split as described in note 5.

Item 2. Management's Discussion and Analysis or Plan of Operations.

As used in this Form 10-QSB, references to the "Company," "we," "our" or "us" refer to Stargold Mines, Inc., unless the context otherwise indicates.

Forward-Looking Statements

The following discussion should be read in conjunction with our financial statements, which are included elsewhere in this Form 10-QSB (the "Report"). This Report contains forward-looking statements which relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties, and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Overview

We were incorporated under the laws of the State of Nevada on May 21, 2003 under the name Sockeye Seafood Group, Inc. On November 13, 2006, we entered into a Plan and Agreement of Merger with our wholly-owned subsidiary, Stargold Mines, Inc., a Nevada corporation (the "Subsidiary"). The Subsidiary had no assets or liabilities and no previous operating history; it was formed by us on November 8, 2006 for the sole purpose of entering into the merger.

The merger was consummated on November 23, 2006. On that date, we filed with the Secretary of State of Nevada Articles of Merger, pursuant to which the Subsidiary merged with and into us in accordance with the Plan of Merger. Pursuant to the Articles of Merger, we also changed our name from "Sockeye Seafood Group, Inc." to "Stargold Mines, Inc."

Effective as of November 23, 2006, we implemented a one for forty (1:40) forward stock split and increased our authorized shares of common stock on a corresponding basis. The number of shares of our common stock increased on a one for forty (1:40) basis, from 25,000,000 shares, par value \$0.001, to 1,000,000,000 shares, par value \$0.0001.

As disclosed in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission (the "SEC") on December 5, 2006, on November 30, 2006, the Company entered into a Stock Purchase Agreement with UniverCompany Limited Liability Company, a Russian limited liability society ("UniverCompany"), and the shareholder of UniverCompany, Evgeny Belchenko (the "UniverCompany Shareholder")(collectively, the "Univer Agreement"). Pursuant to the Univer Agreement, the Company agreed to purchase from the UniverCompany Shareholder 100% of the issued and outstanding shares of common stock of UniverCompany in exchange for 41,000,000 shares of the Company's common stock. On May 15, 2007, the Univer Agreement was amended to reduce the consideration to 15,000,000 shares of the Company's common stock.

On August 27, 2007, the Company initiated its acquisition of UniverCompany by acquiring 100% of the issued and outstanding shares of common stock of UniverCompany in accordance with the UniverAgreement, as amended. UniverCompany will become a wholly-owned subsidiary of the Company after the Russian registration procedures

and completed and approved.

Since inception, we have had an insignificant amount of revenues. Our operations have been limited to general administrative operations. We are considered a development stage company in accordance with Statement of Financial Accounting Standards No. 7.

Proposed Business

On August 27, 2007, the Company initiated its acquisition of UniverCompany by acquiring 100% of the issued and outstanding shares of common stock of UniverCompany in accordance with the UniverAgreement. UniverCompany has begun the process of transferring its registration per Russian government procedures. Once this process is complete, UniverCompany will become a wholly-owned subsidiary of the Company. We intend to file under cover of an appropriate SEC periodic report, the financial statements of UniverCompany and pro forma financial statements for UniverCompany and the Company, to the extent required by applicable SEC regulations.

As previously disclosed on December 4, 2006, UniverCompany holds licenses to develop and extract natural resources of gold, copper, tin and lead located in the Siberian and Far Eastern Federal Districts of Russia. Once its acquisition of UniverCompany is complete, StarGold will own rights to the "Nerchinsk" minerals & metals deposit, which StarGold believes contains significant amounts of gold and silver, and approximately 17% of the "Karon" deposit, which the Company believes has both precious metals and other scarce resources such as copper, lead and tin. The balance of the purchase price for Nerchinsk license of approximately \$26 million USD must be paid prior to January 2013. Under an agreement dated December 2006, UniverCompany has the option to acquire an additional 63% of the Karon deposit in return for a payment of \$2.8 million USD.

In December 2006 we received \$1,000,000 gross proceeds from the sale of 1,000,000 units to Hampton Park Capital LLC. Each unit consisted of one share of common stock and one share purchase warrant, exercisable for one share of common stock at an exercise price of US\$2.50 for two years from the date of issuance. The \$1,000,000 raised by us was lent to UniverCompany on an unsecured basis, with no specific terms for repayment.

In May 2007, the Company received gross proceeds of an aggregate of \$500,000 from the sale of 111,111 units of the Company's securities. Each unit consisted of one share of common stock and one half Class A Warrant. Each Class A Warrant is exercisable for one share of common stock at an exercise price of \$7.00 for two years from the date of issuance. The units were sold pursuant to Section 4(2) of the Securities Act of 1933.

In June 2007, the Company cancelled 40,000,000 shares of its common stock which had previously been issued to former directors.

Plan of Operation

We have not generated any revenues during the nine months ended September 30, 2007 and do not expect to generate any revenues over the next six to twelve months. The company's strategy is to complete the procedural steps necessary to register UniverCompany as a wholly-owned subsidiary of StarGold and to raise funds to prove and possibly exploit the Nerchinsk and Karon properties. Further, Company will continue to seek out investment and acquisition opportunities in Russia and Eastern Europe with the aim of extracting natural resources from existing licenses and acquiring and exploiting other natural resource licenses and properties ultimately developing a portfolio of natural resource opportunities attractive to Western investors.

Our principal business objective for the next twelve months will be to raise funds. If we are not successful, we will then have to seek, investigate and, if such investigation warrants, engage in a business combination with another private entity whose business presents an opportunity for our shareholders.

As of September 30, 2007, we had \$6,990 in cash. We incurred a net loss of \$205,622 for the period July 1, 2007 to September 30, 2007. During the quarter covered by this Report, the Company made a \$99,000 non-interest bearing, unsecured loan to UniverCompany. During the quarter ended September 30, 2007, there was an increase in professional fees corresponding with the increase in legal and accounting activity associated with completing the acquisition of UniverCompany. Salaries and benefits for the six and nine month period ending June 30, 2007 and September 30, 2007, was \$40,000 and \$60,000 respectively, as Marcus Segal, the Company's Chief Executive Officer and Chief Financial Officer receives a salary of \$20,000 per quarter for services.

During the next twelve months we anticipate incurring costs related to finalizing the acquisition of UniverCompany and the filing of the appropriate SEC periodic reports. We believe we will be able to meet these costs through funds to be loaned by or invested in us by our stockholders, management or other investors. We have no specific plans, understandings or agreements with respect to the raising of such funds, and we may seek to raise the required capital by the issuance of equity or debt securities or by other means. Since we have no such arrangements or plans currently in effect, our inability to raise funds for the consummation of an acquisition may have a severe negative impact on our ability to become a viable company.

Item 3. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures are designed to ensure that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the United States Securities and Exchange Commission. Our Chief Executive Officer and Chief Financial Officer has reviewed the effectiveness of our "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c)) within the end of the period covered by this Quarterly Report on Form 10-QSB and has concluded that the disclosure controls and procedures are effective to ensure that material information relating to the Company is recorded, processed, summarized, and reported in a timely manner. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the last day they were evaluated by our Chief Executive Officer and Chief Financial Officer.

Changes in Internal Controls over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the last quarterly period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION
