NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2008 AND 2007**

NOTE 1 – DESCRIPTION OF BUSINESS

Overview

BioAuthorize Holdings, Inc., formerly known as Genesis Holdings, Inc. (the “Company”), was incorporated on May 25, 1999 in the State of Nevada. The Company was a holding company for subsidiary acquisitions.

On July 1, 2006, the Company, which was formerly known as AABB, Inc., acquired all of the membership interests of Genesis Land Development, LLC, pursuant to a merger agreement dated as of July 1, 2006, among AABB, Inc., AABB Acquisitions Sub, Inc., certain shareholders and the members of Genesis Land Development, LLC. The Company acquired 100% of the ownership interest of Genesis Land Development, LLC from its sole member for 19,000,000 shares of the company’s common stock.

For accounting purposes, the acquisition of Genesis land Development, LLC was treated as a recapitalization rather than a business combination. After the merger, AABB, Inc. changed its name to Genesis Holdings, Inc., and Genesis Land Development, LLC ceased to exist as it was merged into the Company’s wholly-owned subsidiary, Genesis Land, Inc. The Company was considered a development stage company prior to its acquisition of Genesis Land Development, LLC.

On February 18, 2008, the Company entered into a share exchange with BioAuthorize, Inc., a Colorado corporation (“BioAuthorize, Inc.” or “BioAuthorize”), whereby BioAuthorize became a wholly-owned subsidiary of the Company. Under the provisions of the Share Exchange Agreement (the “Agreement”) dated February 18, 2008, the Company issued 20,000,000 shares of its common stock in exchange for all of the outstanding common stock of BioAuthorize, and the five (5) former BioAuthorize shareholders owned approximately 80% of the outstanding shares of the Company’s common stock on a fully diluted basis. The Company conveyed all ownership interest in Genesis Land, Inc. its wholly owned subsidiary to the Bankston Third Family Limited Partnership in exchange for 16,780,226 shares of our common stock effective March 31, 2008. Pursuant to provisions of the Agreement, the Company was required to change its name to BioAuthorize Holdings, Inc. The name change was completed on June 5, 2008.

The consolidated financial statements include the operations of BioAuthorize, Inc. for the entirety of the periods presented, whereas, the historical financial statements of BioAuthorize, Inc. became the historical financial statements of the Company as required under the purchase method of accounting. See Note 5 as the financial information condensed consolidated statements of operations as if the share exchange under the Agreement occurred on January 1, 2007.

NOTE 2 - BASIS OF PRESENTATION

Interim Financial Statements

The accompanying interim unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008. The unaudited condensed consolidated financial statements should be read in conjunction with the December 31, 2007 financial statements and footnotes thereto included in the Company's annual report on SEC Form 10-K filed with the Securities and Exchange Commission on March 31, 2008.

Development Stage Company

The Company has produced minimal revenue from its principal business and is a development stage company as defined by the Statement of Financial Accounting Standards (SFAS) No. 7 "Accounting and Reporting by Development State Enterprises".

Principles of Consolidations

On February 18, 2008 the Company filed a Current Report on Form 8-K with the Securities and Exchange Commission reporting the share exchange with BioAuthorize, Inc. as the acquirer which is now a wholly owned subsidiary of the Company. As described in the Current Report, for accounting purposes, the share exchange was accounted for as a reverse acquisition, with BioAuthorize, Inc. as the acquirer. The historical financial statements of BioAuthorize, Inc. became the historical financial statements of the Company as required under the purchase method of accounting.

In March 2008 Genesis Land, Inc. was disposed in exchange for the surrender of 16,780,226 shares of common stock of the Company held by the Bankston Third Family L.P. The value of this exchanged was \$596,107 which is based upon the fair value of the shares of capital stock sold by the Company in exchange for the shares of common stock surrendered. There was no gain or loss on the exchange of the common stock for assets.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America which contemplate continuation of the Company as a going concern.

However, the Company has period end losses from operations in September 30, 2008. During the nine months ended September 30, 2008 the Company accumulated a net loss of \$911,843. In early September 2008 the Company received \$80,000 in new capital from a private placement of shares of common stock, and currently the Company has sufficient working capital to maintain or develop its operations for the next sixty (60) days. Thereafter the Company will be dependent upon capitalization from private investors and the financial support of certain stockholders to finance its continued operations.

These factors raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties. The Company cannot reasonably be expected to earn revenue in the development stage of operations. The Company's ability to meet its obligations and continue as a going concern is dependent upon its ability to obtain additional financing, achievement of profitable operations, the continued development of our technology and sales of our biometric

authentication services. The Company is planning to seek additional capital through private placements of its securities include debt and equity financings. No assurance can be made that the Company will be successful in raising additional capital on terms and conditions acceptable to the Company, if at all.

7

NOTE 4- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncement

Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities

In June 2008, the FASB issued FSP Emerging Issues Task Force (“EITF”) Issue No. 03-6-1, “Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities.” The FSP addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method. The FSP affects entities that accrue dividends on share-based payment awards during the awards’ service period when the dividends do not need to be returned if the employees forfeit the award. This FSP is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP EITF 03-6-1 on its consolidated financial position and results of operations.

Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock

In June 2008, the FASB ratified EITF Issue No. 07-5, "Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock" (EITF 07-5). EITF 07-5 provides that an entity should use a two step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. It also clarifies on the impact of foreign currency denominated strike prices and market-based employee stock option valuation instruments on the evaluation. EITF 07-5 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 07-5 on its consolidated financial position and results of operations.

Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)

In May 2008, the FASB issued FSP Accounting Principles Board (“APB”) Opinion No. 14-1, “Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement).” The FSP clarifies the accounting for convertible debt instruments that may be settled in cash (including partial cash settlement) upon conversion. The FSP requires issuers to account separately for the liability and equity components of certain convertible debt instruments in a manner that reflects the issuer's nonconvertible debt (unsecured debt) borrowing rate when interest cost is recognized. The FSP requires bifurcation of a component of the debt, classification of that component in equity and the accretion of the resulting discount on the debt to be recognized as part of interest expense in our consolidated statement of operations. The FSP requires retrospective application to the terms of instruments as they existed for all periods presented. The FSP is effective as of January 1, 2009 and early adoption is not permitted. The Company is currently evaluating the potential impact of FSP APB 14-1 upon its consolidated financial statements.

The Hierarchy of Generally Accepted Accounting Principles

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" (FAS No.162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles". The implementation of this standard will not have a material impact on the Company's consolidated financial position and results of operations.

Determination of the Useful Life of Intangible Assets

In April 2008, the FASB issued FSP FAS No. 142-3, "Determination of the Useful Life of Intangible Assets", which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of intangible assets under SFAS No. 142 "Goodwill and Other Intangible Assets". The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of the expected cash flows used to measure the fair value of the asset under SFAS No. 141 (revised 2007) "Business Combinations" and other U.S. generally accepted accounting principles. The Company is currently evaluating the potential impact of FSP FAS No. 142-3 on its consolidated financial statements.

Disclosure about Derivative Instruments and Hedging Activities

In March 2008, the FASB issued SFAS No. 161, "Disclosure about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133", (SFAS No.161). This statement requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation. The Company is required to adopt SFAS No. 161 on January 1, 2009. The Company is currently evaluating the potential impact of SFAS No. 161 on the Company's consolidated financial statements.

Delay in Effective Date

In February 2008, the FASB issued FSP FAS No. 157-2, "Effective Date of FASB Statement No. 157". This FSP delays the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The impact of adoption was not material to the Company's consolidated financial condition or results of operations.

Business Combinations

In December 2007, the FASB issued SFAS No. 141(R) "Business Combinations" (SFAS 141(R)). This Statement replaces the original SFAS No. 141. This Statement retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. The objective of SFAS No. 141(R) is to improve the relevance, and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. To accomplish that, SFAS No. 141(R) establishes principles and requirements for how the acquirer:

- a. Recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree.
- b. Recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase.

c. Determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination.

9

This Statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 and may not be applied before that date. The Company does not expect the effect that its adoption of SFAS No. 141(R) will have on its consolidated results of operations and financial condition.

Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51

In December 2007, the FASB issued SFAS No. 160 “Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51” (SFAS No. 160). This Statement amends the original Accounting Review Board (ARB) No. 51 “Consolidated Financial Statements” to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years and interim periods within those fiscal years, beginning on or after December 15, 2008 and may not be applied before that date. The does not expect the effect that its adoption of SFAS No. 160 will have on its consolidated results of operations and financial condition.

Fair Value Option for Financial Assets and Financial Liabilities

In February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of SFAS No. 115” (SFAS No. 159), which becomes effective for the Company on February 1, 2008, permits companies to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses in earnings. Such accounting is optional and is generally to be applied instrument by instrument. The Company does not anticipate that the election, of this fair-value option will have a material effect on its consolidated financial condition, results of operations, cash flows or disclosures.

NOTE 5 – SHARE CAPITAL

BioAuthorize Holdings, Inc. F/K/A Genesis Holdings, Inc. was incorporated in Nevada on May 25, 1999 as part of the reorganization of Diagnostic International, Inc. which had filed under Chapter 11 of the United States Bankruptcy Code. The Company has authorized 100,000,000 shares of common stock, par value \$.001 per share, of which 28,225,000 are issued and outstanding and has authorized 1,000,000 shares of preferred stock, par value \$.001 per share, to be designated in series or classes with such voting powers, designations, preferences, limitations, restrictions, relative rights, and distinguishing designation as determined by our Board of Directors in its sole discretion.

The Company has no options or warrants issued or outstanding as of September 30, 2008.

Effective June 5, 2008 the Company completed the corporate action required to amend its Articles of Incorporation to change its name to BioAuthorize Holdings, Inc., to increase the number of authorized shares of common stock from 25,000,000 to 100,000,000 and to authorize a total of 1,000,000 shares of preferred stock to be designated in series or classes with such voting powers, designations, preferences, limitations, restrictions, relative rights, and distinguishing designation as our Board of Directors shall determine in its sole discretion.

NOTE 6 - SHARE EXCHANGE

Effective February 18, 2008, the Company completed its acquisition of BioAuthorize, Inc. pursuant to a Share Exchange Agreement dated February 22, 2008. BioAuthorize, Inc. is a wholly owned subsidiary of the Company. In the share exchange, the former stockholders of BioAuthorize, Inc. received common shares in the Company.

Pursuant to the Share Exchange Agreement, 100% of the outstanding common stock of BioAuthorize Inc. was exchanged for 80% of the Company's shares of common stock and no cash consideration or other consideration was issued or used in the share exchange. Immediately after the share exchange, the former BioAuthorize, Inc. shareholders owned a total of approximately 80% of the outstanding common stock of the Company. In addition, one of the BioAuthorize Inc. board members became a member of the Board of Directors of the Company and the management of BioAuthorize, Inc became the management team of the Company. At a later time, the other two board members of BioAuthorize, Inc. became members of the Board of Directors of the Company. In early October 2008, those two members resigned their board seats and their management positions with the Company and BioAuthorize, Inc.

The share exchange was accounted for as a reverse acquisition by BioAuthorize, Inc, and accordingly the issuance of shares of common stock of the Company was deemed to be an equivalent fair market value, for accounting purposes, to the shares of capital stock of BioAuthorize, Inc. received in the share exchange. The reasons for the share exchange are as follows:

- The share exchange allows for the shareholders of BioAuthorize, Inc. to receive shares of common stock with increased liquidity and stronger market value;
- The ability of the combined companies to utilize publicly-traded securities in capital raising transactions and as consideration in connection with future potential mergers or acquisitions.

In March 2008 all of the outstanding capital stock of Genesis Land, Inc. was transferred to in exchange for the surrender of 16,780,226 shares of the common stock of the Company held by the Bankston Third Family L.P. The value of this exchange was \$596,107 which is based upon the fair value of the shares of capital stock sold by the Company in exchange for the shares of common stock of the Company that were surrendered. There was no gain or loss on the exchange of the common stock for assets.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis and the Risk Factors set forth in this Report on Form 10-Q may contain various "forward looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, regarding future events or the future financial performance of the Company that involve risks and uncertainties. Certain statements included in this Form 10-Q, including, without limitation, statements related to anticipated cash flow sources and uses, and words including but not limited to "anticipates", "believes", "plans", "expects", "intends", "could", "might", "estimates", "future" and similar statements or expressions, identify forward looking statements. Forward-looking statements involve risks, uncertainties and other factors, which may cause our business, results of operations and financial position, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Any forward-looking statements herein are subject to certain risks and uncertainties in the Company's business, including but not limited to, the completed development of our biometric technology, ongoing business strategies or prospects, the ability of the Company to execute its business plan, the functionality of our biometric technology, the acceptance of our biometric technology in the marketplace, reliance on key customers and competition in its markets, market demand for the biometric authentication services of the Company, performance of the services, difficulties of hiring or retaining key personnel and any changes in current accounting rules, all of which may be beyond the control of the Company. Additional, factors and risks that could affect our results and achievements and cause them to materially differ from those contained in the forward-looking statements include those identified in the section titled "Risk Factors" in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2007 as well as other factors that we are currently unable to identify or quantify, but that may exist in the future. The Company's actual results could differ materially from those anticipated in these

forward-looking statements as a result of certain factors, including those set forth herein. Forward-looking statements speak only as of the date the statement was made. We do not undertake and specifically decline any obligation to update any forward-looking statements.

Recent Developments

In April, 2008 a majority in interest of our stockholders approved an amendment to our Articles of Incorporation to change our name from Genesis Holdings, Inc. to BioAuthorize Holdings, Inc. and to increase our authorized capital to 100 million shares of common stock, par value \$.001 per share, and 1 million shares of preferred stock, par value \$.001 per share, all as set forth in the Schedule 14C filed on May 12, 2008 and mailed to stockholders of record on April 25, 2008.

As set forth in the Schedule 14F-1 filed on May 12, 2008, notice of a change in control of our Board of Directors was sent to our stockholders of record as of April 25, 2008 to occur no earlier than 10 days after the mailing to the stockholders. Directors Larry Don Bankston and Lenny Amado resigned as of August 30, 2008 and Gerald B. Van Wie and G. Neil Van Wie were appointed on September 3, 2008 to fill the vacancies. On October 2, 2008 Gerald B. Van Wie and G. Neil Van Wie resigned as directors and officers of the Company and its wholly-owned subsidiary BioAuthorize, Inc. On October 7, 2008, Jeffrey R. Perry and Kim Garvey were appointed as directors of the Company to fill the vacancies. Mr. Perry was also appointed Vice-President, Chief Financial Officer, Chief Operating Officer and Secretary of the Company.

On September 3, 2008 we completed a private placement of 4,000,000 shares of common stock at \$.02 per share for a total sum of \$80,000 in cash. We continue to seek additional capital for our business but have not been successful in securing additional capital on terms and conditions acceptable to us. Our Chief Executive Officer, Yada Schneider, has personally made payment of our payables and expenses totaling approximately \$7,962 for which we are obligated to make reimbursement to him. Salaries of our three employees under contract have been deferred since April 2008, and no payments of health insurance and life insurance benefits have been made since June 21, 2008. We have received waivers of the deferred salaries for Gerald B. Van Wie and G. Neil Van Wie following their resignations in October 2008 and in the year ended December 31, 2008 will make adjustments to the deferred salaries to eliminate approximately \$199,233 of the deferred salaries which are currently reflected under accrued liabilities in our financial statements for the period ended September 30, 2008.

Overview

BioAuthorize Holdings, Inc. F/K/A Genesis Holdings, Inc. (the "Company") was incorporated in Nevada on May 25, 1999 as part of the reorganization of Diagnostic International, Inc. which had filed a petition under Chapter 11 of the United States Bankruptcy Code. At that time and until July 1, 2006, the Company had no operations and was considered a development stage company as defined in FASB No. 7. The Company was formed specifically to be a publicly held reporting corporation for the purpose of either merging with or acquiring an operating company with assets and some operating history. 980,226 shares of common stock of the Company were issued to certain and various creditors of Diagnostic International, Inc. pursuant to the Plan of Reorganization confirmed by the Bankruptcy Court on May 25, 1999. Genesis Holdings, Inc. was formerly known as AABB, Inc., and this name change took effect on September 5, 2006.

In fiscal 2007, the Company's sole operating company was its wholly owned subsidiary Genesis Land, Inc. All income and expense of the Company have been derived from operations of Genesis Land until its disposition on March 31, 2008.

On February 18, 2008, the Company entered into a share exchange with BioAuthorize, Inc., a Colorado corporation, whereby BioAuthorize became a wholly-owned subsidiary of the Company. Under the provisions of the Share Exchange Agreement (the "Agreement") dated February 18, 2008, the Company issued 20,000,000 shares of its common stock in exchange for all of the outstanding common stock of BioAuthorize, and the five (5) former BioAuthorize shareholders acquired approximately 80% of the outstanding shares of the Company's common stock on a fully diluted basis. The BioAuthorize shareholders who received shares of the Company's common stock in the share exchange are Yada Schneider, G. Neil Van Wie, Gerald B. Van Wie, Soliton, LLC and Members Only Financial, Inc. There are no agreements among the former BioAuthorize shareholders regarding their holdings of the Company's common stock. Yada Schneider, G. Neil Van Wie and Gerald B. Van Wie, the directors and officers of BioAuthorize, received approximately 60.54% of the outstanding shares of the Company's common stock on a fully diluted basis.

The Business of BioAuthorize

With the acquisition of BioAuthorize and the disposition of Genesis Land, the Company will focus its business operations on the development and growth of the BioAuthorize business. BioAuthorize is a hi-tech biometric technology company delivering voice-enabled payment authorization services to the payment processing industry.

Founded in March 2006, the company is a Colorado corporation with its home office in Scottsdale, Arizona.

BioAuthorize has developed a method for payment processing by coupling a new financial instrument with a patent-pending payment solution. The method is expected to function whereby the technology is implemented with lines of credit or other credit accounts which have been issued to qualified consumers by third parties that can be used for purchases at participating merchants that utilize the voice-enabled payment authorization services. BioAuthorize seeks to employ the latest technologies to enable automated biometric identification for payment authorization. Consumers and merchants should benefit from the low cost, convenience, and security delivered by this service. BioAuthorize is continuing its efforts to complete implementation of its voice authentication payment processing solution, providing a more secure way to process financial transactions.

Summary of the Invention of BioAuthorize

BioAuthorize has a present invention related to the field of biometrically identifying a consumer for use in connection with the processing of an electronically generated invoice. Specifically, this invention is focused on processing electronic payments between a consumer and a merchant. Types of payments suitable for the present invention are credit card, debit card, electronic check, electronic funds transfer, or any other method wherein the payment method is intangible and capable of electronic processing. The present invention provides a merchant the ability to generate invoices for any type of goods or services and to specify to a consumer at least one payment type acceptable to the merchant. Additionally, the present invention enables a consumer to provide payment information for an invoice from any computing device which can access the Internet. Furthermore, with the method of the present invention, sensitive consumer information, such as identifying or financial information, is afforded maximum security by reducing the sources to which the information is shared to only one source, which source is referred to herein as a Biometric Invoice Payment System (BIPS). Description of Related Art Including Information Disclosed Under 37 CFR 1.97 and 37 CFR 1.98 Biometric identification devices and methods are known in the prior art. Among the common biometric identification means are fingerprints, palm prints, voice prints, retinal scans and the like. BioAuthorize uses prior art biometric identification devices, methods and systems through the use of various US Patents which include a tokenless, biometric identification system.

The object of the present invention is to protect a consumer from identity theft. This objective is accomplished by the method of the present invention by eliminating the requirement for a consumer to pass repeatedly his sensitive information, comprising personal information, financial data and the like, to a merchant website. In the present invention, a consumer need supply this information to only a single secure entity, a Biometric Invoice Payment System (“BIPS”). Another object of the present invention is to provide a consumer with the ability to authenticate his identity and to provide payment for a merchant invoice from any biometrically enabled device that has Internet connectivity.

The method of the present invention for biometric authorization of an electronic payment between a consumer and a merchant, comprises the steps of: (1) a consumer enrollment step, wherein a consumer enrolls with a Biometric Invoice Payment System (“BIPS”) at least one bid biometric sample, consumer identification information and consumer shipping information; further wherein the biometric sample, consumer identification information and consumer shipping information are used to generate and assign a unique digital identification number, or consumer index number, to the consumer (The consumer index number is created by the method of the present invention and assigned to a consumer during enrollment. The consumer index number is used within the method of the present invention as an identification match factor to correlate the consumer’s biometric sample to the consumer’s identification information, and is not necessarily made known to the consumer); (2) an invoice submittal step, wherein an electronic invoice is created by a merchant and submitted to said BIPS; further wherein the electronic invoice is used to generate an invoice identifier by said BIPS; (3) a consumer notification step, wherein a consumer is notified by said BIPS that an invoice is pending for the consumer and said BIPS provides to the consumer said invoice identifier; (4) a consumer authentication step, wherein a consumer submits a comparator bid biometric sample to said BIPS for identification and authentication; further wherein said BIPS compares said comparator bid biometric sample with said enrolled bid biometric sample for identification and authorization of the consumer; (5) an invoice retrieval step, wherein an invoice is retrieved from said BIPS by a consumer; (6) an invoice disposition step, wherein a consumer disposes of the invoice by an action consisting of approval or rejection; (7) a payment authorization step, wherein a consumer chooses a financial instrument for payment of said invoice; further wherein the consumer provides to said BIPS a financial instrument choice and requisite information for use of the financial instrument; and (8) an invoice payment processing step, wherein said BIPS uses said invoice identifier and said financial instrument requisite information to process payment from a consumer to a merchant.

The method of the present invention further comprises identification information submitted by a consumer during said enrollment step further enrolls data elements selected from a group comprising a consumer personal identification code (which may be selected from a group comprising a personal identification number, or a consumer password, which password may be any alpha, numeric, or alphanumeric combination), a consumer first name, a consumer last name, a consumer social security number, a consumer birth date, or a consumer secret question and answer. Also further comprises a bid biometric sample submitted by a consumer during said enrollment step further enrolls a bid biometric sample selected from a group comprising a consumer fingerprint, a consumer facial scan, a consumer retinal image, a consumer iris scan, or a consumer voice print.

The method of the present invention further comprises

- a) an invoice identifier which consists of data elements selected from a group comprising a merchant invoice amount, a merchant identifier, a merchant invoice number, or a merchant financial account,
- b) a consumer authentication step which requires a consumer to specify a consumer personal identification code, a means to capture a consumer bid biometric sample during a consumer enrollment step and to transmit the bid biometric sample to a BIPS.
- c) a means to capture a consumer bid biometric sample during a consumer authentication step and to transmit the bid biometric sample to a BIPS.
- d) an invoice display step, wherein the invoice is displayed for a consumer with a display means.
- e) the selection of a financial instrument from a payment construct group comprising a credit instrument, a debit instrument, an automatic clearing house instrument, an electronic check instrument, a bank draft instrument, a loyalty card instrument, a prepaid card instrument, a reward card instrument, or an electronic funds transfer instrument.

In an alternative embodiment of the present invention, in an invoice submittal step, an electronic invoice is created by a merchant and submitted to the BIPS; further wherein the electronic invoice is used to generate an invoice identifier by the BIPS and in a consumer notification step, a consumer is notified by a merchant that an invoice is pending for the consumer and the merchant provides to the consumer the invoice identifier generated by the BIPS.

Products and Services

The services and products offerings that we anticipate will be available with the BioAuthorize technology are not yet available as efforts continue to complete the development and implementation of the technology necessary for such offerings. A prototype of the voice-enabled payment authorization and processing technology has been completed. We have recently modified our expected product offerings which we expect to be narrowed and more simplified. We anticipate accomplishing these tasks by entering into agreements with e-commerce merchants to use our voice biometric services for authenticating customer purchases using bank account, debit card or credit card payment methods. We expect that these agreements will include a beta testing period of approximately 60 days followed by live service of the biometric authentication services for the remaining term of each agreement.

We believe that our biometric authentication technology addresses at least two distinct problems associated with e-commerce today: (i) the growth in cyber-crime, including identity theft and credit card fraud, and (ii) the high transaction costs that merchants incur today in order to process traditional credit transactions.

E-commerce is growing exponentially. With the growth in e-commerce has come an even higher growth in the proliferation of cyber-crime. We believe that current internet security technology has proven to be ineffective in the prevention of cyber-crime. Past attempts to reduce fraud have been too costly to implement.

Victims of identity theft suffer emotionally and financially. Some consumers avoid e-commerce altogether because of the risk of identity theft.

Merchants also suffer from cyber-crime. Due to the inherent risks associated with “card not-present transactions,” e-commerce merchants pay the highest interchange rate. Merchants are also responsible for charge-backs associated with fraudulent transactions.

Banking institutions are losing substantial dollars every year due to fraudulent transactions. Conceding that such losses are a cost of doing business, the banking community plans for fraud in financial terms by allocating money to cover this loss in their operating budgets.

Conducting safe and effective e-commerce requires a highly secure and cost-effective method for authorizing and authenticating e-commerce financial transactions today. The technologies that have been implemented do little to ensure that the purchase is authentic and/or authorized. BioAuthorize technology is expected to deliver a

biometric-focused technology solution to provide this much needed capability.

15

Marketing Strategy

The services and product offerings that we expect to deliver once development and implementation are completed should provide a lower cost, more convenient, and more secure alternative for merchants and consumers. Additional capital investments in physical infrastructure, or in new electronic components, are not required in order to take advantage of our voice biometric authentication payment solution. Also, both merchants and consumers should find it easy to use this expedited payment process. Finally, the use of the service and product offerings are expected to provide real protection against identity theft and credit card fraud.

As merchants will drive consumer adoption of this new payment option, we will focus initial marketing efforts on merchants that make sales online and later focus will be on point-of-sale merchants. Merchants will be attracted to our voice biometric authentication payment option because of the low transaction fees.

Initial inquiries with various merchants, although limited in quantity and scope, indicate a ready market for our voice-enabled payment authorization and processing service. This solution can be integrated into online, as well as retail point of sale, merchant applications. Our initial focus is on the e-commerce market. We have contacted several merchants across segments of these key markets regarding their interest in contracting for our voice biometric authentication services by initially beta testing the technology for approximately 60 days followed by a live offering of the service. The responses have been favorable but no agreements have been executed as of the date of this report.

Competition and Market Factors

BioAuthorize competition includes companies that do payment processing, consumer lending, and/or biometric authentication. The closest competitor from a technology perspective is VoicePay, a company based in the United Kingdom which is focused on the European market. The closest competitor from a business model perspective would be national banks who have acquired credit card payment processors. Examples include JP Morgan Chase and its Paymentech program. Many of these competitors have more significant relationships, greater financial resources and longer histories of successful operations in payment processing which may make it difficult for us to compete.

Operational Strategy

Outsourcing is a key strategy throughout the early period to reduce overhead and capital acquisition costs, while minimizing time to market. Currently, we have limited in-house business administrative capabilities with only two employees since early October 2008. No Company benefits, including health insurance & life insurance benefits, are being offered to employees. No salaries have been paid since April 2008 although salaries for Yada Schneider, G. Neil Van Wie and Gerald B. Van Wie have been deferred since that time. Following the close of the quarterly period ended September 30, 2008 we received waivers of the accrued portion of the salaries for G. Neil Van Wie and Gerald B. Van Wie following their resignations and adjustments for the waiver of those accrued salaries will be reflected in the financial statements for the year ended December 31, 2008. Health insurance and life insurance benefits were terminated effective June 21, 2008. Accounting, Product Engineering, Core IT, and Client Services are not expected to be outsourced. However, the operations of the Company since June 2008 have been substantially restricted as the Company seeks additional capital. No testing of the beta test program with the prototype of the voice-enabled payment authorization and processing technology have yet been implemented and no sales of the service or product offerings have been made.

Government Regulation and Environmental Matters

With regard to the BioAuthorize voice-enabled biometric payment authorization and processing technology, we must adhere to regulations related to verifying the identity of each person who enrolls to use our services and regulations regarding privacy of consumer information. We believe that compliance with these laws, regulations and rules in the context of our anticipated service and product offerings will be manageable. However, our failure to comply with any or all of these requirements will have a material adverse effect on our business.

RESULTS OF OPERATIONS

Revenues

We are a development stage company and the BioAuthorize, Inc. business has not generated revenues since inception on August 23, 2006.

Selling, General and Administrative Expense

General and administrative expenses for the three months ended September 30, 2008 was \$203,110 and \$318,783 in 2007, respectively as compared to the nine months ended September 30, 2008 of \$852,935 and 644,179 in 2007, respectively. The decrease in the expenses for the three month period and the increase for the nine month period are related to the acquisition of BioAuthorize, Inc. in a share exchange and the related accounting and legal fees.

Depreciation and amortization expenses for the three months ended September 30, 2008 was \$7,801 and \$6,896 in 2007, respectively as compared to the nine months ended September 30, 2008 of \$23,404 and \$8,894 in 2007, respectively. The increase in the expenses is related to the increase in the purchase of fixed assets such as computer equipment to implement our business plan.

Net loss for the three months ended September 30, 2008 was \$210,869 and \$310,459 in 2007, respectively as compared to the nine months ended September 30, 2008 of \$911,844 and \$689,290 in 2007, respectively. The decrease for the three month period was partly due to the elimination of some personnel during the second quarter of 2008 and the elimination of some outsourced services for the company. The increase in the net loss for the nine month period is related to expenditures made for accounting and legal fees and consulting fees related to the share exchange for the acquisition of BioAuthorize, Inc. as well as the increase in research and development expenses.

LIQUIDITY AND CAPITAL RESOURCES

The Company's current cash on hand and expected cash flow is not substantial enough to sustain the Company for a period in excess of sixty (60) days. Our Chief Executive Officer, Yada Schneider, has personally made payment of various expenses and obligations for the Company which have a currently balance owed of approximately \$7,962 as of September 2008. Currently, the Company does not have the capability or a plan to repay our CEO for these personal advances. The Company is seeking financing to repay our CEO and to continue to implement our business plan. Our primary capital expenditures are for our office location and our server facility. Although we have accrued salaries and related benefits since April 2008 no salaries have actually been paid since that time. Our operations have been restricted due to a lack of capital. Although we were successfully in securing \$80,000 of new capital through a private placement of our common stock in early September 2008, we have a continuing need for additional capital. We are actively seeking additional capital but no assurance can be made that we will obtain additional capital or that additional capital may be obtained on terms and conditions that are acceptable to us.

In the past, the Company's operating capital requirements have been funded primarily through investor funds obtained in private placements of our securities and from new capital provided by our existing shareholders.

The Company's ability to meet its obligations and continue as a going concern is dependent upon its ability to obtain additional financing, complete the development and implementation of its voice biometric authentication technology, provide live services to paying clients and achieve profitable operations.

Cash used by operating activities for the nine months ended September 30, 2008 was (\$518,972) as compared to (\$630,830) for 2007. The change is due primarily to the acquisition of BioAuthorize, Inc. which is a development stage company which remains in the process of implementing its business plan and to the larger loss we have experienced during the first nine months of 2008.

Cash used from investing activities for the nine months ended September 30, 2008 was (\$0.00) as compared to (\$91,814) for 2007. The decrease in the investing activities is due to the development stage of the company and the company's limited capital sources for new purchases or investments.

Cash provided from financing activities for the nine months ended September 30, 2008 was \$87,962 as compared to \$2,000,000 for 2007. The decrease in our financing activities is due to the decrease in our ability to identify funding sources and raise additional capital. During 2008 our CEO made direct payments for some of the expenses of the company and currently is owed approximately \$7,962. In addition, we obtained additional capital totaling \$80,000 from a private placement of our common stock in the three months ended September 30, 2008. The capital raising efforts in 2008 were much less successful than in 2007. During 2007, prior to the share exchange for the acquisition of BioAuthorize, Inc., BioAuthorize, Inc. was successful in raising \$2,000,000 from the sale of share of its preferred stock to develop and implement our business plan and the development of our voice-enabled biometric authentication technology.

Critical Accounting Policies

Accounting Policies and Estimates

The preparation of our financial statements in conformity with accounting principles generally accepted in the United States of America requires our management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our management periodically evaluates the estimates and judgments made. Management bases its estimates and judgments on historical experience and on various factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates as a result of different assumptions or conditions. As such, in accordance with the use of accounting principles generally accepted in the United States of America, our actual realized results may differ from management's initial estimates as reported. A summary of significant accounting policies are detailed in notes to the financial statements which are an integral component of this filing.

Revenues

The Company has adopted the Securities and Exchange Commission's Staff Accounting Bulletin (SAB) No. 104, which provides guidance on the recognition, presentation and disclosure of revenue in financial statements.

Long-Lived Assets

Statement of Financial Accounting Standards No. 144. "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed," requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value. This standard did not have a material effect on the Company's results of operations, cash flows or financial position.

Additional Information

We file reports and other materials with the Securities and Exchange Commission. These documents may be inspected and copied at the Commission's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C., 20549. You can obtain information on the operation of the Public Reference Room by calling the Commission at 1-800-SEC-0330. You can also get copies of documents that the Company files with the Commission through the Commission's Internet site at www.sec.gov.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not hold any derivative instruments or other market risk sensitive instruments and do not engage in any hedging activities. As a result, we have no exposure to potential loss in future earnings, fair values or cash flows as a result of holding any market risk sensitive instruments. All of our business activity is in the development stage and the development of our technology.

ITEM 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

Our management team, under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. The term disclosure controls and procedures means our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective as of September 30, 2008. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Our Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving their control objectives. Furthermore, smaller reporting companies face additional limitations. Smaller reporting companies employ fewer individuals and find it difficult to properly segregate duties. Often, one or two individuals control every aspect of the Company's operation and are in a position to override any system of internal control. Additionally, smaller reporting companies tend to utilize general accounting software packages that lack a rigorous set of software controls.

b) Changes in Internal Control over Financial Reporting.

During the Quarter ended September 30, 2008, there was no change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

LACK OF INDEPENDENT BOARD OF DIRECTORS AND AUDIT COMMITTEE

Management is aware that an audit committee composed of the requisite number of independent members along with a qualified financial expert has not yet been established. Considering the costs associated with procuring and providing the infrastructure to support an independent audit committee and the limited number of transactions, Management has concluded that the risks associated with the lack of an independent audit committee are not justified. Management will periodically reevaluate this situation.

LACK OF SEGREGATION OF DUTIES

Management is aware that there is a lack of segregation of duties at the Company due to the small number of employees dealing with general administrative and financial matters. However, at this time management has decided that considering the abilities of the employees now involved and the control procedures in place, the risks associated with such lack of segregation are low and the potential benefits of adding employees to clearly segregate duties do not justify the substantial expenses associated with such increases. Management will periodically reevaluate this situation

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is not involved in any material pending legal proceedings that would not be considered ordinary routine litigation that is incidental to the business.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS SECURITIES

(a) On September 3, 2008, the Company entered into a Securities Purchase Agreement (the "Securities Agreement") with Launch Pad Research and Marketing Company, an Arizona corporation ("Launch"), whereby Launch agreed to purchase from the Company 4,000,000 shares of the Company's common stock, par value \$.001 per share (the "Shares"), at \$0.02 per share for a total sum of \$80,000 in cash. The Shares of the Company's common stock were issued in reliance upon an exemption from registration afforded under Section 4(2) of the Securities Act of 1933, as amended, for transactions not involving a public offering, and/or Regulation D promulgated thereunder, and in reliance upon exemptions from registration under applicable state securities laws.

ITEM 3. DEFAULT UPON SENIOR SECURITIES

There were no defaults upon any senior securities of the Company during the period ended September 30, 2008.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matter was submitted to a vote of securities holders of the Company during the period ended September 30, 2008.

ITEM 5. OTHER INFORMATION

(a) None.

(b) None.

ITEM 6. EXHIBITS

Exhibit #	Description
31.1	Certification Pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934 as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 - Chief Executive Officer
31.2	Certification Pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934 as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 - Chief Financial Officer
32.1	Certification Pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 - Chief Executive Officer*
32.2	Certification Pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 - Chief Financial Officer*

* This exhibit shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, whether made before or after the date hereof except to the extent that the registrant specifically incorporates it by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
