*Forward-looking statements*

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items, in particular the outlook paragraph in this report.

By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include, but are not limited to, levels of consumer and business spending in major economies, changes in consumer tastes and preferences, changes in law, the performance of the financial markets, pension costs, the levels of marketing and promotional expenditures by Philips and its competitors, raw materials and employee costs, changes in exchange and interest rates, changes in tax rates and future business combinations, acquisitions or dispositions and the rate of technological changes, political and military developments in countries where Philips operates, and industry consolidation. Statements regarding market share, including as to Philips' competitive position, contained in this document are based on outside sources such as specialized research institutes, industry and dealer panels in combination with management estimates. Where information is not yet available to Philips, those statements may also be based on estimates and projections prepared by outside sources or management. Rankings are based on sales unless otherwise stated.

*Use of non-US GAAP information*

In presenting and discussing the Philips Group's financial position, operating results and cash flows, management uses certain non-US GAAP financial measures. These non-US GAAP financial measures should not be viewed in isolation as alternatives to the equivalent US GAAP measure(s) and should be used in conjunction with the most directly comparable US GAAP measure(s). A discussion of the non-US GAAP measures included in this document and a reconciliation of such measures to the most directly comparable US GAAP measure(s) are contained in this document.

*Use of fair value measurements*

In presenting the Philips Group's financial position, fair values are used for the measurement of various items in accordance with the applicable accounting standards. These fair values are based on market prices, where available, and are obtained from sources that are deemed to be reliable. Readers are cautioned that these values are subject to changes over time and are only valid at the balance sheet date. When a readily determinable market value does not exist, fair values are estimated using valuation models which we believe are appropriate for their purpose. They require management to make significant assumptions with respect to future developments which are inherently uncertain and may therefore deviate from actual developments. In certain cases, independent valuations are obtained to support management's determination of fair values.

Philips reports 34% growth in EBITA Net income increases to EUR 1,569 million

EBITA amounted to EUR 389 million, or 6.4% of sales, compared with EUR 290 million, or 4.5% of sales, in Q2 2006.

Including a EUR 1,220 million gain on the sale of TSMC shares, net income increased to EUR 1,569 million from EUR 301 million in Q2 2006.

Sales totaled EUR 6,100 million, in line with Q2 2006 on a comparable basis; 7% growth at the high-margin divisions.

Reallocation of capital continued with the sale of a further stake in TSMC, additional share repurchases and the announcement or completion of several acquisitions, including Color Kinetics.

Gerard Kleisterlee,

President and CEO of Royal Philips Electronics:

It is good to see that Philips continued to increase its profitability in a quarter that, from a revenue perspective, turned out to be as challenging as we had anticipated. I am pleased with our year-over-year EBITA improvement of more than 30% to EUR 389 million.

It is encouraging to see that the increase in profitability we achieved was driven over a broad front – lower central costs and improved results at our high margin businesses, based on their strong market positions and the overall strength of our business models.

Sales at Medical Systems were impacted in the USA by the effect of the Deficit Reduction Act, but everywhere else showed robust growth with order intake also picking up to a very good level for the quarter.

We are increasingly benefiting from our leadership position in the shift to energy-efficient lighting solutions, both in the professional and consumer

All amounts in millions of euros unless otherwise stated; data included are unaudited.

Financial reporting is in accordance with US GAAP, unless otherwise stated.

---

domain, and will further add to our strength in LED lighting, a fast-growing new segment in the lighting market, not least through our recently-announced intention to acquire Color Kinetics.

Sales in our consumer businesses were negatively impacted by the phase-out of existing product lines ahead of the effect, in the coming months, of the introduction of new, exciting products across a wide range of market segments.

All in all, our first-half-year performance has provided us with a solid basis for another good year and gives us confidence with respect to the achievement of our targets.

Our reallocation of capital is also in full swing with a continuous deal flow in our second trading line for share buy-backs and a good acquisition pipeline to further strengthen our market position in high-margin businesses.

2

**Philips Group**  
**Highlights in the quarter**

**Net income**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007
Sales	6,380	<b>6,100</b>
EBITA	290	<b>389</b>
as a % of sales	4.5	<b>6.4</b>
EBIT	247	<b>302</b>
as a % of sales	3.9	<b>5.0</b>
Financial income and expenses	127	<b>1,336</b>
Income tax expense	(56)	<b>(119)</b>
Results equity-accounted investees	(89)	<b>56</b>
Minority interests	(1)	<b>(2)</b>
Income from continuing operations	228	<b>1,573</b>
Discontinued operations	73	<b>(4)</b>
<b>Net income</b>	301	<b>1,569</b>
Per common share (in euros) basic	0.25	<b>1.43</b>
<b>Net income</b>		

Income from continuing operations increased by EUR 1,345 million compared to Q2 2006, mainly driven by a EUR 1,220 million gain on the sale of a 4.7% stake in TSMC partly offset by EUR 84 million lower dividend income from TSMC due to the reduction in Philips shareholding.

Income tax included a EUR 29 million charge related to a prior-years settlement with tax authorities.

Results relating to equity-accounted investees increased by EUR 145 million compared to Q2 2006, primarily due to higher income from LG.Philips LCD.

Q2 2006 income from discontinued operations was mainly attributable to the operational result of the Semiconductors division, a majority stake in which was sold in Q3 2006.

**Sales by sector**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007	nominal	% change comparable
Medical Systems	1,630	<b>1,651</b>	1	4
DAP	532	<b>638</b>	20	14
CE	2,484	<b>2,148</b>	(14)	(11)
Lighting	1,296	<b>1,464</b>	13	6
I&EB	402	<b>151</b>	(62)	26

GMS	36	<b>48</b>	33	61
Philips Group	6,380	<b>6,100</b>	(4)	0
<b>Sales by sector</b>				

Sales declined 4% on a nominal basis but, excluding the negative impact of currency and portfolio changes, were on par with Q2 2006. Good comparable growth at the three high-margin divisions was offset by CE, where the impact of the transition to a new product range and strong sales ahead of last year's FIFA World Cup caused sales to decline.

Medical Systems reported solid comparable sales growth at Ultrasound & Monitoring and Customer Services, tempered by flat sales at Imaging Systems.

DAP posted double-digit year-on-year comparable growth, driven mainly by Shaving & Beauty and Domestic Appliances.

Comparable sales at Lighting increased 6% compared to Q2 2006, mainly due to strong growth at Luminaires and Lamps.

I&EB's nominal sales declined due to the ongoing divestment of non-core businesses. On a comparable basis, several innovation-related activities within the sector reported higher sales than in Q2 2006; in addition, CHS reported 15% growth.

#### **Sales by region**

in millions of euros unless otherwise stated

	Q2 2006	Q2 <b>2007</b>	nominal	% change comparable
Europe/Africa	2,763	<b>2,810</b>	2	2
North America	1,854	<b>1,723</b>	(7)	(2)
Latin America	523	<b>456</b>	(13)	(12)
Asia Pacific	1,240	<b>1,111</b>	(10)	5
Philips Group	6,380	<b>6,100</b>	(4)	0
<b>Sales by region</b>				

The increase in comparable sales in Europe/Africa was driven primarily by Lighting, DAP and Medical Systems. In North America, higher sales at DAP and Medical Systems were more than offset by a decline at CE. The lower sales in Latin America were mostly due to ongoing weakness in the CRT TV market in Brazil. Asian comparable sales growth centered on DAP and Lighting.

**EBITA**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007
Medical Systems	210	218
DAP	60	84
CE	21	22
Lighting	149	161
Innovation & Emerging Businesses	(22)	(35)
Group Management & Services	(128)	(61)
Philips Group	290	389
as a % of sales	4.5	6.4

**Earnings**

EBITA increased by more than one-third EUR 99 million compared to Q2 2006, taking profitability from 4.5% last year to 6.4%. Higher EBITA was reported by all four operating divisions. Excluding the impact of a EUR 35 million non-cash impairment charge on MedQuist-related goodwill, EBIT increased by EUR 90 million compared to Q2 2006.

Medical Systems EBITA improved mainly at Patient Monitoring, Cardiac Care, Customer Services and X-Ray, with lower earnings at Computed Tomography.

All businesses within DAP contributed to the sales-driven increase in EBITA compared to Q2 2006.

CE s EBITA was in line with Q2 2006. Entertainment Solutions and Home Networks reported higher earnings in the quarter. Tight supply chain management limited the EBITA impact of a decline in sales at Connected Displays compared to Q2 2006, a quarter which saw considerable sell-in ahead of the FIFA World Cup.

The EBITA improvement at Lighting was mainly due to Lamps and Luminaires and included EUR 11 million in acquisition-related charges for Partners in Lighting International.

EBITA at Innovation & Emerging Businesses included additional investments in the Healthcare and Lifestyle Incubators as well as lower IP license income.

Compared to Q2 2006, lower Corporate cost levels (including last year s implementation costs related to Sarbanes-Oxley compliance) and lower pension expense were the primary drivers of the improved EBITA at Group Management & Services.

**EBIT**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007
Medical Systems	180	151
DAP	58	80

Edgar Filing: KONINKLIJKE PHILIPS ELECTRONICS NV - Form 6-K

CE	20	<b>21</b>
Lighting	143	<b>150</b>
Innovation & Emerging Businesses	(26)	<b>(39)</b>

**Financial income and expenses**

in millions of euros

	Q2 2006	Q2 2007
Interest expenses, net	(67)	(24)
TSMC		
- sale of securities		1,220
- dividend	223	139
Other	(29)	1
Total	127	1,336

**Financial income and expenses**

Net interest expense declined significantly compared to Q2 2006, as a result of moving, over the last 12 months, from a net debt to a net cash position.

The sale of a further stake in TSMC, together with recognition of TSMC's annual cash and stock dividend, resulted in a gain of EUR 1,359 million. Last year, a total of EUR 223 million related to the TSMC cash dividend was recognized in the second quarter.

An increase in the fair value of TPV options resulted in a gain of EUR 8 million, compared to a EUR 32 million loss in Q2 2006.

**Results relating to equity-accounted investees**

in millions of euros

	Q2 2006	Q2 2007
LG.Philips LCD	(85)	68
Other	(4)	(12)
Total	(89)	56

**Results relating to equity-accounted investees**

Results relating to equity-accounted investees improved significantly compared to Q2 2006, driven mainly by stronger results from LG.Philips LCD.

**Cash balance**

in millions of euros

	Q2 2006	Q2 2007
Beginning balance	3,389	5,906
Net cash from operating activities	(29)	(27)
Gross capital expenditures	(193)	(241)
Acquisitions/divestments	(129)	(233)
Other cash from investing activities	67	1,936
Changes in debt/other	(103)	(475)
Dividend paid	(523)	(639)
Net cash discontinued operations	59	34
Ending balance	2,538	6,261

**Cash balance**

During the second quarter, proceeds of EUR 1,841 million from the sale of shares in TSMC were partially offset by the dividend payment to shareholders of EUR 639 million and EUR 423 million used for capital reduction. The acquisition of Health Watch, DLO and TIR further reduced the cash balance by EUR 226 million.

The cash outflow in Q2 2006 was mainly a result of the annual dividend payment of EUR 523 million and the acquisition of Witt Biomedical for EUR 110 million.

**Cash flows from operating activities**

Cash flows from operating activities were on par with Q2 2006, as higher working capital requirements were offset by higher net income.

**Gross capital expenditures (PPE\*)**

Investments in gross capital expenditure for property, plant and equipment were somewhat above the level of Q2 2006. Higher expenditure at Medical Systems partly related to the one-time reclassification of product training equipment was largely offset by lower investments in Lighting, DAP and Innovation & Emerging Businesses.

## **Inventories**

Inventories as a percentage of sales increased compared to Q2 2006 due to the acquisition of Partners in Lighting International, (temporary) customer-service-driven inventory at Medical Systems and higher inventory at DAP (due to upcoming product introductions in Shaving and Oral Healthcare). Inventories at Consumer Electronics were below the level of Q2 2006.

## **Net debt and group equity**

During the quarter, the net cash position increased by EUR 0.5 billion, mainly due to a EUR 0.4 billion increase in liquid assets driven by the EUR 1.8 billion sale of TSMC shares, partly offset by the dividend payment of EUR 0.6 billion and additional share repurchases of EUR 0.4 billion.

Compared to Q2 2006, group equity increased by over EUR 2.1 billion due to higher retained earnings, including the impact of the gain on the sale of a majority stake in the Semiconductors division in Q3 2006, offset by the impact of the share repurchase programs.

## **Employment**

The number of employees at the end of Q2 2007 was 125,834, compared to 121,348, excluding discontinued operations, at the end of Q2 2006. The increase is mainly due to acquisitions completed during the last 12 months notably Intermagnetics, Avent and Partners in Lighting International partly offset by divestments, mainly Optical Storage and the Enabling Technologies Group within Corporate Investments.

**Medical Systems****Key data**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007
Sales	1,630	1,651
Sales growth		
% nominal	9	1
% comparable	9	4
EBITA	210	218
as a % of sales	12.9	13.2
EBIT	180	151
as a % of sales	11.0	9.1
Net operating capital (NOC)	3,387	4,272
Number of employees (FTEs)	31,261	33,033

**Business highlights**

In line with the strategy to bolster its healthcare presence in emerging markets, Philips announced it will buy Brazil's leading general X-ray manufacturer, VMI-Sistemas Medicos.

In June, Philips and Germany's University Medical Center Hamburg-Eppendorf began a clinical evaluation of a computer-aided-diagnosis software package that automatically interprets MRI/PET brain scans and can potentially help doctors treat diseases like Alzheimer's faster.

In May, Philips signed a multi-modality contract with Samsung Medical Center (SMC) in Korea comprising several Magnetic Resonance Imaging devices, Cardio Vascular solutions and Ultrasound systems for the Samsung Cancer Center project. Samsung is a strategic partner of Philips for MR-guided HIFU research.

**Financial performance**

In Q2, equipment order intake picked up after a sluggish first quarter, growing 12% compared to Q2 2006 on a currency-comparable basis. Growth was driven by all businesses except Computed Tomography and Cardiovascular X-Ray, which continued to suffer from a softening of the US market, including the impact of the Deficit Reduction Act.

Comparable sales grew 4% compared to Q2 2006, thanks to strong growth at Patient Monitoring, Cardiac Care, Customer Services and General X-Ray, partially offset by declines at Computed Tomography and MedQuist.

EBITA profitability improved from 12.9% in Q2 2006 to 13.2%, mainly due to higher results at Patient Monitoring, Cardiac Care, Customer Services and X-Ray, offset by lower Computed Tomography earnings.

EBIT was impacted by a EUR 35 million non-cash impairment of MedQuist-related goodwill.

The increase in net operating capital and employee numbers is mainly attributable to the acquisition of Intermagnetics in Q4 2006.

**Looking ahead**

The effect of purchase-accounting and integration-related, charges for Intermagnetics are expected to be approximately EUR 15 million per quarter for the remainder of 2007 (of which EUR 5 million will impact EBITA).

8

as a % of sales	10.9	12.5
Net operating capital (NOC)	436	1,297
Number of employees (FTEs)	8,560	10,059

**Business highlights**

Philips celebrated the production of its 500 millionth electric shaver. Also this quarter, Philips offered the market a sneak preview of arcitec – the new iconic electric shaver that will be launched in September.

Philips entered the global water purification market when it launched its Intelligent UV Water Purifier in India, intending to become a top player in this segment in the country by 2010.

Philips launched its latest brand campaign showcasing simple, consumer-centric solutions for health and well-being. The Philips whole-fruit Juicer and Philips Sonicare toothbrush are key elements of the campaign.

Philips Bodygroom continues to be recognized for its innovative online campaign as it received several awards, including two EFFIE awards and a coveted PRSA (Public Relations Society of America) silver award.

**Financial performance**

Sales grew 14% on a comparable basis compared to Q2 2006, led by double-digit growth at Shaving & Beauty and Domestic Appliances, where Kitchen Appliances in particular showed strong growth driven by its innovative product range and the healthy living initiative. Geographically, sales growth was especially strong in emerging markets.

EBITA increased from EUR 60 million in Q2 2006 to EUR 84 million, primarily due to the higher sales level.

The increase in net operating capital and number of employees compared to Q2 2006 was almost entirely attributable to the integration of Avent in September 2006.

**Looking ahead**

DAP plans to launch new, innovative products (mainly at Shaving and Oral Healthcare) in the second half of 2007, supported, in line with its business model, by significant investments in advertising and promotion. The focus on emerging markets will continue.

**Consumer Electronics****Key data**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007
Sales	2,484	<b>2,148</b>
Sales growth

Number of employees (FTEs)	14,677	<b>14,499</b>

**Business highlights**

Recently-acquired Digital Lifestyle Outfitters has launched a number of accessories for the now-available Apple iPhone.

Philips received two prestigious awards from Dixons Store Group International: Best Supplier of the Year for Consumer Electronics and Overall Best Supplier of the Year. Additionally, Philips was named Supplier of the Year by Euronic.

Adding to earlier efforts to further increase the sustainability of its product range, Philips introduced a new consumer logo for its environmentally friendly and safe consumer range the Philips Green Logo. These products outperform the competition in energy efficiency, as well as offering other environmental benefits.

**Financial performance**

Consumer Electronics sales amounted to EUR 2,148 million, a comparable decline of 11% compared to Q2 2006, a quarter in which sales were buoyed, particularly at Connected Displays, by the high sell-in ahead of soccer's FIFA World Cup.

Despite the lower sales, EBITA increased slightly, both in value and as a percentage of sales. Margin pressure at Connected Displays caused in part by the impact of the transition to a new product range was more than offset by higher EBITA at Entertainment Solutions and Home Networks.

Net operating capital increased to EUR 254 million, compared to EUR 5 million in Q2 2006, mainly driven by the DLO acquisition in Peripherals & Accessories and a higher receivables position at the end of the quarter.

**Looking ahead**

Driven by new product introductions, sales in the second half of 2007 are set to exceed the weaker, post-World Cup sales in Q3 and Q4 of last year, underpinning the full-year EBITA target of 3%.

**Lighting****Key data**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007

Net operating capital (NOC)	2,652	3,578
Number of employees (FTEs)	46,652	53,500

**Business highlights**

Philips reached an agreement to acquire Color Kinetics, based in Boston, USA, a leader in innovative light-emitting diode (LED) lighting systems. Philips also completed its acquisition of Vancouver, Canada-based TIR Systems Ltd, a leading company in LED technology for modules that generate high-quality white light. These acquisitions will give Philips a leading position in the entire LED lighting value chain and strengthen its IP portfolio.

Philips has introduced a range of new high-quality energy-efficient lighting solutions, such as the MASTER TL-D Eco fluorescent lamps for offices and buildings and the halogen MasterClassic for commercial areas like hotels and restaurants, which last three times longer and use just 50% of the energy consumed by an incandescent lamp.

The Bosphorus Bridge in Turkey, which connects Asia and Europe and features state-of-the-art dynamic, multi-colored LED illumination from Philips, has been officially opened. The bridge's lighting installation provides a 50% energy saving compared to the previous installation.

**Financial performance**

Sales amounted to EUR 1,464 million, a 6% comparable increase compared to Q2 2006, driven by the continuing strong growth of energy-efficient lighting solutions, particularly in Europe and Asia.

Recently-acquired Partners in Lighting International – the European leader in home luminaires – reported sales of EUR 102 million and incurred purchase-accounting-related charges of EUR 14 million, EUR 11 million of which impacted EBITA.

Despite the EUR 11 million PLI-related charges and restructuring charges of EUR 7 million, EBITA increased by EUR 12 million, mainly at Lamps and Luminaires, supported by the ongoing growth in Green-Switch lighting solutions.

**Looking ahead**

Restructuring, acquisition-related and other incidental charges are expected to amount to EUR 10 million in Q3 2007.

Lighting expects to complete the acquisition of Color Kinetics in Q3 2007, further enhancing its LED portfolio and IP position in solid-state lighting solutions.

**Innovation & Emerging Businesses****Key data**

in millions of euros unless otherwise stated

	Q2 2006	Q2 2007

**Business highlights**

Organon and Philips joined forces in the development of new drugs and therapies for mental disorders and cancer.

With the help of biomarkers and Philips' advanced medical imaging technology, it will, for example, be possible to study the effects of psychiatric drugs in the brain at the molecular level.

Philips climbed from 67<sup>th</sup> position to 38<sup>th</sup> in the 2007 edition of an annual ranking of the world's most innovative companies compiled by Business Week and The Boston Consulting Group.

Philips received several important design awards during the quarter. The Philips Bagless Vacuum Cleaner Range was given the highly-regarded 'red dot' award by the German Design Zentrum Nordrhein Westfalen, while Philips Design was nominated for the first Design Management Europe Award. This award will be given to European organizations that have successfully integrated design into their business.

**Financial performance**

Corporate Technologies' EBITA declined compared to Q2 2006 due to higher investments in the Healthcare and Lifestyle Incubators and lower license revenues.

Sales at Consumer Healthcare Solutions grew 15% on a comparable basis, driven by Lifeline. The EBITA of CHS was in line with Q2 2006 as ongoing investments in business expansion offset operational margin in the quarter.

The EBITA of Corporate Investments declined slightly compared to Q2 2006 due to various incidental charges at businesses within its portfolio.

**Looking ahead**

The divestment of Power Solutions is expected to be completed by the end of Q3 2007.

The EBITA run-rate for the first half of the year is expected to continue in Q3 and Q4.

**Business highlights**

Philips ranked 8<sup>th</sup> in research by the British newspaper The Independent together with EIRIS (Ethical Investment Research Services) listing the greenest companies in the world.

Philips continued taking initiatives to increase environmental awareness with the launch of a consumer campaign called [asimpleswitch.com](http://asimpleswitch.com) and partnering with the Alliance for Climate Protection and the global Live Earth concerts on July 7, 2007. Live Earth aimed to inspire more than two billion people to take simple steps, such as switching to energy-efficient lighting, to lead a more energy-efficient life.

Philips launched its latest brand campaign showcasing a range of simplicity solutions to empower consumers, their families and care providers to manage a healthy lifestyle.

Philips continued its drive to use e-bidding as a selection process for suppliers, which leads to greater cost efficiency in supply across businesses. E-bidding covered 11% of spend in the first half of 2007, compared with 3% in the same period last year.

**Financial performance Group Services**

Corporate & Regional Costs showed a considerable decline compared to Q2 2006. This is attributable to ongoing cost savings, the incidental nature of last year's FIFA World Cup-related expenses and implementation costs related to compliance with the Sarbanes-Oxley Act.

Compared to Q2 2006, the higher investment in the global brand campaign is wholly due to a slightly different seasonal spending pattern.

Pension costs were lower than in Q2 2006 in a number of countries, notably the Netherlands.

**Looking ahead**

Investments in the global brand campaign are expected to be approximately EUR 30 million in Q3.

Restructuring charges of EUR 15 million related to the simplification of the regional and country management structures are expected in the second half of 2007.

Pension costs for Group Management & Services are expected to be approximately EUR 25 million for the full year 2007.

**Highlights in the 1<sup>st</sup> six months****The 1<sup>st</sup> six months of 2007**

Income from continuing operations up from EUR 367 million to EUR 2,420 million due to higher earnings and the sale of a further 8.3% stake in TSMC

EBITA 30% higher than in the corresponding period of 2006

Comparable sales were 1% higher than in the 1<sup>st</sup> half of 2006; high-margin businesses grew 7% on a comparable basis

Results relating to equity-accounted investees increased by EUR 114 million, driven by improved results from LG.Philips LCD

Cash flows from operating activities improved by EUR 802 million compared to January-June 2006

**Net income**

**Management summary**

Income from continuing operations increased by EUR 2,053 million compared to the first six months of 2006 due to higher earnings, the sale of a further 8.3% stake in TSMC and an upturn in income from LG.Philips LCD.

Sales for the first half-year totaled EUR 12,091 million, 1% higher than in the corresponding period of 2006 on a comparable basis. Sales at the high-margin divisions continued to show solid comparable growth 7% above January-June 2006 largely offset by lower sales at CE caused by the impact of last year's World Cup. At Innovation & Emerging Businesses, comparable sales increased (primarily in technology-related businesses); however, nominal sales declined by over 50% due to the disposal of businesses within the Corporate Investments portfolio. EBITA in the first six months was 30% above the same period of 2006, driven by higher earnings at all operating divisions and lower costs within Group Management & Services.

Excluding the impact of a EUR 35 million impairment charge to MedQuist-related goodwill, EBIT in the first six months grew 28% year-on-year.

Net income in the first half of 2007 grew by EUR 1,983 million compared to last year. This increase is attributable to higher earnings and EUR 1,869 million of higher income related to TSMC EUR 1,953 million from the sale of additional Philips shareholding in TSMC somewhat offset by EUR 84 million lower dividend income.

Excluding the impact of last year's additional funding for the UK pension fund (EUR 582 million), cash flows from operating activities increased by EUR 220 million compared to the first half of 2006, driven by higher earnings and lower working capital requirements.

Net operating capital increased by EUR 2.6 billion compared to Q2 2006, wholly attributable to acquisitions made during the past year. The debt: equity ratio was (12) : 112 at the end of the first half of the year.

**Outlook**

**Outlook**

Our performance in the second quarter of 2007 confirms that we are on track to achieve our targets – EBITA of at least 7.5% in 2007 and 5-6% average annual sales growth. We expect to see an upturn in sales growth in the second half of the year, boosted by a strong order pipeline at Medical Systems, the ongoing impact of ‘Green-Switch’ at Lighting and a number of exciting new product launches in our consumer businesses.

We will continue our value-creating management of capital, focusing on further acquisitions consistent with our strategic direction and on returning cash to shareholders.

We are confident that 2007 will be a year of continued top and bottom-line growth for Philips.

Amsterdam, July 16, 2007

Philips CEO reconfirms strategic direction to market at annual EPG conference in Florida  
Tuesday, May 22, 2007

Longboat Key, Florida, USA Today, Gerard Kleisterlee, President and Chief Executive Officer of Royal Philips Electronics (NYSE: PHG, AEX: PHI), will be giving a presentation at the Electrical Products Group 2007 Annual Spring Conference organized by Morgan Stanley in Longboat Key, Florida, USA, in which he will update the market on Philips' continuing transformation into a healthcare, lifestyle and technology company.

In his presentation, Mr. Kleisterlee will discuss how Philips has evolved into a simpler, more focused company with a portfolio of operations focused on value creation and sustainable growth. Mr. Kleisterlee will also discuss recent acquisitions, and will elaborate on the company's growth strategy going forward, including the ongoing reallocation of capital.

At the conference, Mr. Kleisterlee will also re-confirm that Philips is on track to meeting its EBITA-target, which is to exceed 7.5% of sales in 2007.

The presentation starts at 8:15 AM local time, or 14:15 PM Amsterdam time (CET), and will be available via audio webcast. Please click [here](#) to listen to this webcast.

Philips updates market on Medical Systems business in meeting with financial analysts

Thursday, May 31, 2007

Amsterdam, the Netherlands Today, at a meeting with investors and financial analysts, Royal Philips Electronics (NYSE: PHG, AEX: PHI) will update the market on its Medical Systems division - the foundation of Philips professional healthcare business. At the meeting, Philips will explain that its approach to healthcare focused on making healthcare simpler, both for medical professionals and patients is setting the company apart from the competition, and is positioning the Medical Systems division for long-term, profitable growth.

On track with 2007 financial targets further EBITA improvement seen for 2008/2009

During the meeting, Mr. Steve Rusckowski, CEO of Philips Medical Systems, along with the Philips Medical Systems management team, will detail Philips ongoing measures to fine-tune its professional healthcare business as an engine for long-term value creation at Philips. Management will reconfirm the division is on track to achieving annual organic sales growth of 6% and an EBITA margin of 14-15% in 2007. Furthermore, the Medical Systems management team will discuss how measures to improve the operational performance of the business can be expected to lead to a further improvement of approximately one additional percentage point in the EBITA margin of the Medical Systems division by the 2008/2009 timeframe.

To achieve these improvements, Philips will continue building on its pipeline of innovative products such as the first PET/CT system to use time-of-flight technology that captures sharper images faster, increasing the number of patients that can be examined. Philips will also take steps to further enhance the operational excellence of its Medical Systems business and build on the market share gains achieved over the past three years by focusing on high-value developed and high-growth emerging markets. Philips expects these measures will help the company continue gaining market share over the next three years. Following the successful acquisition of Intermagnetics General Corporation, Witt Biomedical Inc. and Stentor Inc., Philips is continuing to explore opportunities for forming alliances and making further acquisitions that support its contribution to the care cycle, enhance the company's product offering and create long-term value.

Philips focus on care cycle is making healthcare simpler for patients and caregivers Both patients and caregivers struggle with a complex, fragmented healthcare system. We believe the best way to reduce this complexity is by addressing the needs of the healthcare industry from the perspective of patients and their health problems, explained Mr. Rusckowski, who was appointed CEO of Philips Medical Systems in November 2006, and brings over twenty years experience in the professional healthcare sector. That means delivering solutions in the fields of cardiology, oncology and women's health that address what we call the care cycle the cycle of prevention, screening, diagnosis, treatment and management of medical conditions with technologies and services both inside and outside the hospital, Mr. Rusckowski added.

---

Presentations will begin at 10:00 AM (CET), and can also be followed via audio webcast.

Philips completes acquisition of TIR Systems

Friday, June 08, 2007

Amsterdam, The Netherlands and Vancouver, Canada Royal Philips Electronics (NYSE:PHG, AEX:PHI) announced today that it has completed its acquisition of Vancouver, Canada-based TIR Systems Ltd, a leading company in Solid State Lighting (SSL) technology for products that generate high quality white light.

Under the terms of the agreement, which was announced on March 13, 2007, Philips acquired TIR Systems for a total consideration of approximately C\$ 75 million, or approximately EUR 53 million, which was paid in cash upon completion. As a result of the transaction, TIR Systems will be financially consolidated with immediate effect within the Solid State Lighting business unit of Philips Lighting division.

The transaction was completed by Philips wholly-owned, indirect subsidiary, Philips Electronics Ltd., 281 Hillmount Road, Markham, Ontario, which acquired all of the outstanding common shares of TIR Systems at a price of C\$1.60 per share in cash pursuant to a court-approved plan of arrangement.

Philips to acquire Color Kinetics to strengthen leading position in Led lighting systems, components and technologies  
Tuesday, June 19, 2007

Combination strengthens Philips LED portfolio, technology base and intellectual property position Color Kinetics application know-how in combination with Philips global market presence will accelerate Philips Lighting's growth in Solid State Lighting Builds on Philips Lumileds and TIR Systems acquisitions in the sector Purchase price corresponds to a Color Kinetics enterprise value of approximately EUR 516 million

Amsterdam, The Netherlands and Boston, Massachusetts, USA - Royal Philips Electronics (NYSE:PHG, AEX:PHI) today announced it has reached an agreement with Color Kinetics Incorporated (NASDAQ: CLRK) under which Philips will acquire all of the outstanding shares of Color Kinetics for USD 34 per share, or a total consideration of approximately EUR 592 million to be paid in cash upon completion. The implied enterprise value of Color Kinetics in this offer is EUR 516 million, taking into account approximately EUR 76 million of cash on balance sheet as of March 31, 2007. This transaction is subject to the terms and conditions of the merger agreement and to the approval of Color Kinetics shareholders, as well as to customary regulatory clearance, and is expected to close in the second half of 2007.

Color Kinetics, based in Boston, Massachusetts, USA, is a leader in designing and marketing innovative lighting systems based on Light Emitting Diode (LED) technology. The company has a broad technological portfolio covering important patents relating to intelligence and control technology for LED lighting. Color Kinetics also has in excess of 15,000 professional installations worldwide and an array of large, industrial customers in professional channels. This merger builds on the acquisition of Lumileds in 2005, through which Philips ensured a leading position in high-power LED dies, and on the recent acquisition of TIR Systems, which provided Philips with a strong line of fully-integrated Solid State Lighting (SSL)-modules used to deliver integrated lighting products to fixture manufacturers. With Color Kinetics, Philips will become a leader in SSL luminaires, establishing a strong presence in all aspects of the SSL value chain. This will further enhance Philips position to lead the future global shift to more energy-efficient lighting solutions, using LED sources.

This acquisition uniquely positions Philips as a major player in the fast-growing SSL business with technology, expertise and intellectual property in all parts of the value chain of integrated LED-based lighting solutions, Theo van Deursen, Chief Executive of Philips Lighting division, said. The technological platform obtained through this acquisition will serve as a springboard for Philips to further create sustainable value through making innovative LED lighting solutions widely available. We admire Color Kinetics expertise, which they built up in only 10 years of existence, and we will foster the company's creative and entrepreneurial flair in the future while boosting growth by integrating it into the global lighting leader.

---

We have long said that LEDs are the future of illumination - not a passing novelty - and we've supported that view with unwavering focus on the research and development of new technologies, sales channels, partnerships and industry initiatives to make it a reality. Today we announce our biggest and most significant step towards putting our core technology and IP at the heart of every future application of intelligent LED lighting," said Bill Sims, President and CEO, Color Kinetics. "We believe that joining Philips, the global lighting leader, is in the best interest of our shareholders, customers, partners, and employees, and that our combined resources will produce the best possible entity to drive the LED lighting revolution forward.

Color Kinetics had 2006 sales of approximately USD 65 million. The company's sales have grown at a compound annual growth rate of 31% in the period 2001-2006. Operating margins are expected to increase as the company benefits from economies of scale. In addition to its product sales, Color Kinetics has a fast-growing licensing income stream that adds significantly to its value.

The market for SSL is at an inflection point for growth as the performance of LEDs measured in lumens per watt is rapidly becoming competitive with traditional light sources. While the market for SSL has up until now been driven by the application of color LEDs, technology in white light has improved significantly, which Philips expects will cause market growth to increase substantially going forward. Independent market sources project that the SSL addressable market will reach USD 20 billion to USD 30 billion in 2025 and is growing currently by approximately 30% per year.

Through this merger Philips and Color Kinetics expect to further accelerate growth in this area of the lighting market. Philips and Color Kinetics will drive to stimulate the speed of adoption of LED technologies and applications in the industry. By enabling Color Kinetics' innovative systems to be distributed and sold globally, the benefits of LED will be brought to a far larger market more quickly.

#### Images - Products

Color Kinetics offers intelligent LED lighting systems for indoor and outdoor applications in a multitude of sizes and shapes, from wall washing lighting fixtures to cove accents to submersible lighting solutions, complete with controller and power supply options. See two of their product examples below.

iColor® Accent Powercore is ideally suited for creating seamless columns of color and color-changing effects. Its precise level of control allows the fixtures to run video, graphics and intricately designed effects in a host of architectural and entertainment settings.

Color Kinetics eW Flex SLX is a versatile strand of 50 white LED nodes that apply Chromasite®-based intelligence for individual control. The durable, flexible form factor allows for dynamic points of white light to be installed across nearly any interior or exterior surface - walls, ceilings, floors, and three-dimensional sculptures and set pieces.

interior or exterior surface - walls, ceilings, floors, and three-dimensional sculptures and set pieces.

Images - Showcases

Color Kinetics' customers, OEM and Licensing partners break boundaries in their forward-looking use of light to transform spaces, build brands, and incite imagination. The three showcase examples below speak for themselves. Costa Concordia joined the fleet of Italy's Costa Cruise line in 2006, offering all the comforts of a floating palace with meticulous detail to its stylish design. It is the largest and longest ship among the fleet, and its visually striking interior features multiple applications of Color Kinetics LED lighting technology.

Philadelphia's historic Boathouse Row received a high-tech lighting makeover. Made possible by Color Kinetics' intelligent solid-state lighting technology, the new lighting system replaced a 30-year-old incandescent system that required frequent and costly maintenance. By installing the LED-based system, the Fairmount Park Commission expects to save approximately US\$57,000 in annual operating costs.

In December 2006 Color Kinetics added another global landmark to its growing list of prominent installations: the London Eye, which is visible from more than a mile away. It was previously lit by fluorescent tubes that proved costly to maintain, and required the manual installation of gels to produce colored light for special events. Color Kinetics was approached to replace this system with an LED-based alternative.

Japan's prestigious Takarazuka University of Art and Design facilitates traditional art and design education while encouraging new opportunities made possible by on-going technological innovation. To best symbolize its focus on the marriage of traditional art and modern innovation, the approximately 200-foot high building makes use of the latest advancements in intelligent LED illumination from Color Kinetics Japan to distinguish its presence against the Osaka city skyline.

About Royal Philips Electronics

Royal Philips Electronics of the Netherlands (NYSE: PHG, AEX: PHI) is a global leader in healthcare, lifestyle and technology, delivering products, services and solutions through the brand promise of sense and simplicity. Headquartered in the Netherlands, Philips employs approximately 124,300 employees in more than 60 countries worldwide. With sales of EUR 27.0 billion in 2006, the company is a market leader in medical diagnostic imaging and patient monitoring systems, energy efficient lighting solutions, personal care and home appliances, as well as consumer electronics. News from Philips is located at [www.philips.com/newscenter](http://www.philips.com/newscenter).

About Color Kinetics

Celebrating its 10th anniversary this year, Color Kinetics Incorporated (NASDAQ: CLRK) transforms environments through new, dynamic uses of light. Its award-winning lighting systems and technologies apply the benefits of LEDs as a highly efficient, long lasting, environmentally friendly, and inherently digital source of illumination reinventing light itself as a highly controllable medium. Color Kinetics also enables widespread adoption of LED lighting through OEM and licensing partnerships in diverse markets. The company is headquartered in Boston, MA with offices in the UK and China. More information is available at [www.ColorKinetics.com](http://www.ColorKinetics.com).

Forward-looking statements

This release may contain certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. This release also contains certain forward-looking statements with respect to Color Kinetics and the proposed transaction, the expected timetable for completing the transaction, Color Kinetics' financial and operating results, benefits and synergies of the transaction, future opportunities for the combined company and other statements about Color Kinetics management's future expectations, beliefs, goals, plans or prospects. Any statements that are not statements of historical fact (including statements containing the words believes, plans, anticipates, expects, estimates and similar expressions) should also be considered to be forward-looking statements. There are a number of important factors that could cause actual results or events to differ materially from those indicated by such forward-looking statements, including: the Color Kinetics shareholders could fail to approve the transaction; regulatory approvals might not be obtained; and the other factors described in Color Kinetics' Annual Report on Form 10-K for the year ended December 31, 2006 and its most recent quarterly report filed with the SEC. Color Kinetics disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this press release.

---

**IMPORTANT ADDITIONAL INFORMATION WILL BE FILED WITH THE SEC**

Color Kinetics intends to mail to its stockholders and file with the Securities and Exchange Commission (the SEC) a Proxy Statement in connection with the proposed transaction, and to file other relevant materials with the SEC. The Proxy Statement and other materials filed with the SEC will contain important information about Color Kinetics, Philips, the Merger and related matters. Investors and security holders are urged to read the Proxy Statement carefully when it is available. Investors and security holders will be able to obtain free copies of the Proxy Statement and other documents filed with the SEC by Color Kinetics and Philips through the web site maintained by the SEC at [www.sec.gov](http://www.sec.gov). In addition, investors and security holders will be able to obtain free copies of the Proxy Statement from Color Kinetics by contacting Justine Alonzo, Investor Relations Manager, Color Kinetics Incorporated at 617-701-2272 or on Color Kinetics web site at [www.colorkinetics.com](http://www.colorkinetics.com).

Color Kinetics and its directors and executive officers also may be deemed to be participants in the solicitation of proxies from the stockholders of Color Kinetics in connection with the transaction described herein. Information regarding the special interests of these directors and executive officers in the transaction described herein will be included in the Proxy Statement described above. Additional information regarding these directors and executive officers is also included in Color Kinetics proxy statement for its 2007 Annual Meeting of Stockholders, which was filed with the SEC on or about April 27, 2007. This document is available free of charge at the SEC's web site at [www.sec.gov](http://www.sec.gov) and from Color Kinetics by contacting Justine Alonzo, Investor Relations Manager, Color Kinetics Incorporated at 617-701-2272 or on Color Kinetics web site at [www.colorkinetics.com](http://www.colorkinetics.com).

Philips notifies financial authorities of increase in shares held

Thursday, June 28, 2007

Amsterdam, The Netherlands- Royal Philips Electronics (NYSE: PHG, AEX: PHI) today notified the Netherlands Authority for the Financial Markets (Autoriteit Financiële Markten or AFM ) that the company's holding in Philips shares has exceeded 5 percent of Philips' total issued shares. Philips informed the AFM in accordance with Dutch law, which states that shareholders are to inform the AFM whenever their shareholding in a Dutch listed company exceeds the 5 percent threshold.

As of the close of business on June 27, 2007, Philips held approximately 57.3 million Philips shares, or approximately 5.02 percent of the company's issued shares. On January 9, 2007, Philips announced the start of a EUR 1.63 billion share repurchase program for capital reduction purposes to complete the return of a total of EUR 4 billion to its shareholders.

Philips sells Ommic to Financière Victoire of France

Friday, June 29, 2007

Amsterdam, the Netherlands - Royal Philips Electronics (NYSE: PHG, AEX: PHI) today announced it has sold its controlling stake in Ommic S.A.S. to Financière Victoire SAS of France for an undisclosed amount. Ommic develops and manufactures semiconductor wafers based on gallium arsenide technology for specific applications such as wireless telecoms infrastructure, optical networks and automotive mobile TV.

The sale of Ommic represents another step Philips is taking to focus on its Healthcare, Lifestyle and Technology activities supported by the strength of the company's brand. Ommic, which employs approximately 75 people, is part of Philips' Corporate Investments portfolio and will remain based in Paris and subject to French law and governance. The sale closed today.

Philips notified of filing of MedQuist audited financial statements for the period 2003 to 2005  
Friday, July 06, 2007

Amsterdam, The Netherlands- Royal Philips Electronics (NYSE:PHG, AEX:PHI) was informed yesterday that MedQuist Inc. (Pink Sheets: MEDQ.PK) announced the filing with the United States Securities and Exchange Commission (SEC) of its Form 10-K Annual Report for the year ended December 31, 2005. The filing contains annual and quarterly financial information of MedQuist for the years ended December 31, 2005, 2004 and 2003. The financial information contained in MedQuist's Form 10-K filing has no material impact on the financial information contained in Philips' Annual Reports for the years 2005, 2004 and 2003.

In its announcement, MedQuist has also indicated that it is now immediately shifting its attention to completing the work on its remaining outstanding SEC filings, which MedQuist anticipates filing during the third quarter of 2007. The MedQuist announcement can be found on the MedQuist internet site at <http://www.medquist.com>. The filing can be found on the SEC's website at <http://www.sec.gov>.

In commenting on MedQuist's announcement of the filing with the SEC, Pierre-Jean Sivignon, Chief Financial Officer of Royal Philips Electronics, said: We're very pleased to see that MedQuist has taken this major step forward in its filings with the SEC. In light of this progress, Philips is reviewing all of its future options for its approximate 70% stake in MedQuist, as Philips views this stake as a non-core holding. To this end, Philips is making an amendment to its Schedule 13D filing with the SEC, in which Philips indicates it may consider possible transactions or other changes in its ownership stake in MedQuist.

In accordance with US GAAP accounting standards, Philips annually tests goodwill for impairment in the second quarter. As a result of the test of its MedQuist-related goodwill, Philips will recognize a non-cash impairment charge of approximately EUR 35 million in the second quarter of 2007. This charge will have no impact on the 2007 EBITA for Philips Medical Systems or for Royal Philips Electronics.
