Edgar Filing: DRS TECHNOLOGIES INC - Form 8-K

announcing that it is planning to offer an additional \$150 million aggregate principal amount of 6-7/8 percent senior subordinated notes due 2013. The notes are being offered as additional debt securities under the indenture dated as of October 30, 2003, pursuant to which DRS, on that date, issued \$350 million aggregate principal amount of 6-7/8 percent senior subordinated notes due 2013.

DRS is obligated, pursuant to its senior credit facility, to offer the lenders under its senior credit facility their pro rata share of the net proceeds of the offering. DRS intends to use any remaining net proceeds of the offering to replenish cash balances, following a \$42.5 million cash payment for its previously announced acquisition of Night Vision Equipment Company completed on December 14, 2004, and for working capital and general corporate purposes, which may include future acquisitions. The offering is subject to market and other customary conditions.

The notes will be offered in the United States to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933, as amended, and outside the United States in reliance on Regulation S under the Securities Act. The notes have not been registered under the Securities Act and may not be offered or sold in the United States without registration or an applicable exemption of registration requirements. No assurance can be given that the offering will be completed or, if completed, as to the terms on which it is completed.
