Joint Press Release  
SGL Carbon AG

ADCURAM Industriekapital AG

-----  
Adcuram Acquires SGL Carbon's Surface Protection Business

Wiesbaden / Munich, January 6, 2005. As announced today in the ad hoc notification from SGL Carbon, Adcuram Industriekapital AG will acquire SGL Carbon's surface protection business as of January 6, 2005.

The surface protection business of the SGL Carbon Group has been under the responsibility of SGL Acotec GmbH, a specialist in coatings, rubber linings, acid-resistant brick linings, floor coverings, pipelines, vessels, and equipment made of plastic. The company holds a leading position worldwide in industrial corrosion protection. The surface protection business achieved in 2004 a turnover of 120 Mio. (euro) with approx. 1.400 employees.

As already been reported in conjunction with its intention to focus on core businesses, SGL Carbon has been looking into divestiture possibilities since the middle of last year with the assistance of the investment bank Sal. Oppenheim.

Adcuram Industriekapital AG is a financial investor specializing in the acquisition of companies and subsidiaries that no longer belong to the core business of the previous parent company. Engineering and plant construction is one of the key areas that Adcuram emphasizes in its investments. With its business in industrial corrosion protection, SGL Acotec GmbH fits in very well with Adcuram's sectorial focus on plant construction, which the company intends to expand through further acquisitions.

Adcuram has extensive experience in managing companies and will continue to operate Acotec as a medium-sized enterprise. Adcuram supports its participations with his own teams of experts.

## Edgar Filing: SGL CARBON AKTIENGESELLSCHAFT - Form 6-K/A

(Wertpapierhandelsgesetz)

SGL Carbon divests its Surface Protection Business

Wiesbaden, January 6, 2005. SGL Carbon announced today the sale of its shares in SGL Acotec GmbH to the Munich-based investment company ADCURAM Industriekapital AG. SGL Acotec GmbH had been responsible for SGL Carbon's surface protection business. The divestiture will eliminate consolidated sales of approximately 120 (euro) million based on preliminary figures for 2004.

In the context of this share deal, the financial investor specialized in the acquisition of medium-sized companies is acquiring some 1,400 employees as well as all assets and liabilities including pension obligations totaling approximately (euro) 30 million. Adcuram will continue the business in private ownership and further establish the internationally known brand names HAW Linings and Keramchemie.

As a result of the sale, SGL Carbon AG will book a non-cash write-down of approximately (euro) 58 million which includes already capitalized deferred tax assets.

Due to the decline of the balance sheet total resulting from the sale, the equity ratio, however, will remain virtually unchanged at 24% following the completion of the transaction based on a proforma calculation. The earnings potential of SGL Carbon will be favorably impacted by focusing on its core businesses. Based on the expected results for 2004, the divestiture will improve earnings per share by approximately (euro) 0.27.

Already before the divestiture, the process technology business generating sales of approximately (euro) 50 million was separated and integrated into the Graphite Specialties Business Unit. Process Technology is a mainstream and global business for SGL Carbon which hold a leading market and competitive position with further growth opportunities.

The described results of the sale and their impact on the consolidated balance sheet and income statement are based on preliminary calculations following the Company's accounting and valuation principles. They are subject to change and examination by the external auditor. Final and certified consolidated annual financial statements are presently not yet available.

The investment bank Sal. Oppenheim jr. & Cie. KGaA advised SGL Carbon during the structure and realization of the transaction.

Forward-looking statements:

This press release contains forward-looking statements. These statements reflect the current belief of SGL Carbon's management as well as assumptions made by, and information available to, the SGL Group. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties. Actual future results and developments could differ materially from those set forth in these statements due to various factors. These factors include changes in the general economic and competitive situation, particularly in SGL Carbon's
