Notes to the Condensed Consolidated Financial Statements

For the Twelve and Forty Week Periods Ended October 8, 2011 and October 9, 2010

(in thousands, except per share data)

(unaudited)

1. Basis of Presentation:

The accompanying condensed consolidated financial statements include the accounts of Advance Auto Parts, Inc., its wholly owned subsidiary, Advance Stores Company, Incorporated ("Stores"), and its subsidiaries (collectively, the "Company"). All significant intercompany balances and transactions have been eliminated in consolidation.

The condensed consolidated balance sheets as of October 8, 2011, January 1, 2011 and October 9, 2010, the condensed consolidated statements of operations for the twelve and forty week periods ended October 8, 2011 and October 9, 2010, the condensed consolidated statements of changes in stockholders' equity for the forty week periods ended October 8, 2011 and October 9, 2010 and the condensed consolidated statements of cash flows for the forty week periods ended October 8, 2011 and October 9, 2010, have been prepared by the Company. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the financial position of the Company, the results of its operations and cash flows have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, have been condensed or omitted. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's consolidated financial statements for the fiscal year ended January 1, 2011, or Fiscal 2010.

The accounting policies followed in the presentation of interim financial results are consistent with those followed on an annual basis. These policies are presented in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for Fiscal 2010 (filed with the Securities and Exchange Commission, or SEC, on March 1, 2011).

The results of operations for the interim periods are not necessarily indicative of the operating results to be expected for the full fiscal year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates.

New Accounting Pronouncements

In September 2011, the Financial Accounting Standards Board, or FASB, issued ASU No. 2011-08 "Intangible-Goodwill and Other – Testing Goodwill for Impairment". ASU 2011-08 modifies the impairment test for goodwill and indefinite lived intangibles so that the fair value of a reporting unit is no longer required to be calculated unless the Company believes, based on qualitative factors, that it is more likely than not that the reporting unit's or indefinite lived intangible asset's fair value is less than the carrying value. ASU 2011-8 is effective for fiscal years beginning after December 15, 2011. The adoption of ASU 2011-08 is not expected to have a material impact on the

Company's condensed consolidated financial statements.

In June 2011, the Financial Accounting Standards Board, or FASB, issued ASU No. 2011-05 "Comprehensive Income – Presentation of Comprehensive Income". ASU 2011-05 requires comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. This update eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments in this update do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. The amendments in this update should be applied retrospectively and is effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of ASU 2011-05 is not expected to have a material impact on the Company's condensed consolidated financial statements.

In January 2010, the Financial Accounting Standards Board, or FASB, issued ASU No. 2010-06 "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements". ASU 2010-06 requires new disclosures for significant transfers in and out of Level 1 and 2 of the fair value hierarchy and the activity within Level 3 of the fair value hierarchy. The updated guidance also clarifies existing disclosures regarding the level of disaggregation of assets or liabilities and the valuation techniques and inputs used to measure fair value. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2009, with the exception of the new Level 3 activity disclosures, which are effective for interim and annual reporting periods beginning after December 15, 2010. The adoption of ASU 2010-06 had no impact on the Company's condensed consolidated financial statements.

2. Inventories, net:

Inventories are stated at the lower of cost or market. The Company used the LIFO method of accounting for approximately 95% of inventories at October 8, 2011, January 1, 2011 and October 9, 2010. Under LIFO, the Company's cost of sales reflects the costs of the most recently purchased inventories, while the inventory carrying balance represents the costs for inventories purchased in Fiscal 2011 and prior years. As a result of utilizing LIFO, the Company recorded an increase to cost of sales of \$16,741 for the forty weeks ended October 8, 2011 due to an increase in supply chain costs and inflationary pressures affecting certain product categories. The Company recorded a reduction to cost of sales of \$33,408 for the forty weeks ended October 9, 2010. Prior to Fiscal 2011, the Company's overall costs to acquire inventory for the same or similar products generally decreased historically as the Company has been able to leverage its continued growth, execution of merchandise strategies and realization of supply chain efficiencies.

An actual valuation of inventory under the LIFO method is performed by the Company at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected fiscal year-end inventory levels and costs.

Inventory balances at October 8, 2011, January 1, 2011 and October 9, 2010 were as follows:

	October 8, 2011	January 1, 2011	October 9, 2010
Inventories at FIFO, net	\$1,999,651	\$1,737,059	\$1,708,833
Adjustments to state inventories at LIFO	110,070	126,811	130,665
Inventories at LIFO, net	\$2,109,721	\$1,863,870	\$1,839,498

3. Goodwill and Intangible Assets:

Goodwill

The Company has goodwill recorded in both the Advance Auto Parts ("AAP") and Autopart International ("AI") segments. The following table reflects the carrying amount of goodwill pertaining to the Company's two segments and the changes in goodwill carrying amounts.

Bank Debt

On May 27, 2011, the Company entered into a new \$750,000 unsecured five-year revolving credit facility with Stores serving as the borrower. This new facility replaced the Company's previous revolving credit facility. Proceeds from the new revolving credit facility were used to repay \$165,000 of principal outstanding on the Company's previous revolving credit facility. In conjunction with this refinancing, the Company incurred \$3,561 of financing costs which it will amortize over the term of the new revolving credit facility. The revolving credit facility also provides for the issuance of letters of credit with a sub-limit of \$300,000, and swingline loans in an amount not to exceed \$50,000. The Company may request, subject to agreement by one or more lenders, that the total revolving commitment be increased by an amount not exceeding \$250,000 (up to a total commitment of \$1,000,000) during the term of the credit agreement. Voluntary prepayments and voluntary reductions of the revolving balance are permitted in whole or in part, at the Company's option, in minimum principal amounts as specified in the revolving credit facility. The revolving credit facility matures on May 27, 2016.

As of October 8, 2011, the Company had \$299,200 outstanding under its revolving credit facility, and had letters of credit outstanding of \$96,154, which reduced the availability under the revolving credit facility to \$354,646. (The

letters of credit generally have a term of one year or less.)

The interest rate on borrowings under the revolving credit facility is based, at the Company's option, on an adjusted LIBOR rate, plus a margin, or an alternate base rate, plus a margin. The current margin is 1.5% and 0.5% per annum for the adjusted LIBOR and alternate base rate borrowings, respectively. A facility fee is charged on the total amount of the revolving credit facility, payable in arrears. The current facility fee rate is 0.25% per annum. Under the terms of the revolving credit facility, the interest rate and facility fee are based on the Company's credit rating.

The Company's revolving credit facility contains covenants restricting its ability to, among other things: (1) create, incur or assume additional debt, (2) incur liens or engage in sale-leaseback transactions, (3) make loans and investments (including acquisitions), (4) guarantee obligations, (5) engage in certain mergers and liquidations, (6) change the nature of the Company's business and the business conducted by its subsidiaries, (7) enter into certain hedging transactions, and (8) change Advance's status as a holding company. The Company is also required to comply with financial covenants with respect to a maximum leverage ratio and a minimum consolidated coverage ratio. The Company was in compliance with its covenants in place at October 8, 2011 and January 1, 2011, respectively. The Company's revolving credit facility also provides for customary events of default, covenant defaults and cross-defaults to its other material indebtedness.

Senior Unsecured Notes

The Company's 5.75% senior unsecured notes, the Notes, were issued in April 2010 at 99.587% of the principal amount of \$300,000 and are due May 1, 2020. The parent company, or Advance, served as the issuer of the Notes with each of Advance's domestic subsidiaries currently serving as a subsidiary guarantor. The terms of the Notes are governed by an indenture and supplemental indenture (collectively the "Indenture") among the Company, the subsidiary guarantors and Wells Fargo Bank, National Association, as Trustee.

The Notes bear interest at a rate of 5.75% per year payable semi-annually in arrears on May 1 and November 1 of each year. The Company may redeem some or all of the Notes at any time or from time to time, at the redemption price described in the Indenture. In addition, in the event of a Change of Control Triggering Event (as defined in the Indenture), the Company will be required to offer to repurchase the notes at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the repurchase date. The Notes are currently fully and unconditionally guaranteed, jointly and severally, on an unsubordinated and unsecured basis by each of the subsidiary guarantors. The Company will be permitted to release guarantees without the consent of holders of the Notes under the circumstances described in the Indenture.

The Indenture contains customary provisions for events of default including for (i) failure to pay principal or interest when due and payable, (ii) failure to comply with covenants or agreements in the Indenture or the Notes and failure to cure or obtain a waiver of such default upon notice, (iii) a default under any debt for money borrowed by the Company or any of its subsidiaries that results in acceleration of the maturity of such debt, or failure to pay any such debt within any applicable grace period after final stated maturity, in an aggregate amount greater than \$25,000 without such debt having been discharged or acceleration having been rescinded or annulled within 10 days after receipt by the Company of notice of the default by the Trustee or holders of not less than 25% in aggregate principal amount of the Notes then outstanding, and (iv) events of bankruptcy, insolvency or reorganization affecting the Company and certain of its subsidiaries. In the case of an event of default, the principal amount of the Notes plus accrued and unpaid interest may be accelerated. The Indenture also contains covenants limiting the ability of the Company and its subsidiaries to incur debt secured by liens and to enter into sale and lease-back transactions.

Debt Guarantees

Certain domestic subsidiaries of Stores, including its Material Subsidiaries (as defined in the revolving credit facility and Indenture, respectively) serve as guarantors of the Notes and revolving credit facility with Advance also serving

as a guarantor of the revolving credit facility. The subsidiary guarantees related to the Company's Notes and revolving credit facility are full and unconditional and joint and several, and there are no restrictions on the ability of Advance to obtain funds from its subsidiaries. Also, Advance has no independent assets or operations, and the subsidiaries not guaranteeing the Notes and revolving credit facility are minor as defined by SEC regulations.

5. Derivative Instruments and Hedging Activities:

The Company had previously entered into interest rate swap agreements as a hedge to the variable rate interest payments on its bank debt. Effective April 24, 2010, the Company's outstanding interest rate swaps no longer qualified for hedge accounting as a result of the Company's intent to pay off its bank debt with the proceeds from the offering of the Notes. Accordingly, the Company has recorded all subsequent changes in the fair value of the interest rate swaps through earnings and amortized to interest expense the remaining balance of previously recorded unrecognized loss in accumulated other comprehensive loss over the remaining life of the swaps which matured on October 5, 2011.

On September 22, 2011, the Company executed two forward treasury rate locks that mature on December 7, 2011 for a notional amount totaling \$300,000. The average rate under the treasury locks was 1.85%. These agreements, which are derivative instruments, have been designated as cash flow hedges to offset the Company's exposure to increases in the underlying U.S. Treasury benchmark rate. This rate is expected to be used to establish the fixed interest rate for debt that the Company anticipates issuing. The actual coupon rate of the debt will be comprised of the underlying U.S. Treasury benchmark rate, plus a credit spread premium at the date of issuance.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the condensed consolidated balance sheet as of October 8, 2011, January 1, 2011 and October 9, 2010:

	Balance Sheet Location	Fair Value as of October 8, 2011	Fair Value as of January 1, 2011	Fair Value as of October 9, 2010

6. Fair Value Measurements:

The Company's financial assets and liabilities measured at fair value are grouped in three levels. The levels prioritize the inputs used to measure the fair value of these assets or liabilities. These levels are:

Level 1 – Unadjusted quoted prices that are available in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs other than quoted prices that are observable for assets and liabilities at the measurement date, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are less active, and inputs other than quoted prices that are observable for the asset or liability or corroborated by other observable market data.

Level 3 – Unobservable inputs for assets or liabilities that are not able to be corroborated by observable market data and reflect the use of a reporting entity's own assumptions. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The fair value hierarchy requires the use of observable market data when available. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

The following table sets forth the Company's financial liabilities that were measured at fair value on a recurring basis as of October 8, 2011, January 1, 2011 and October 9, 2010:

	Fair Value	Fair Value Measurements at Reporting Date Using		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
As of October 8, 2011				
Treasury rate locks	\$7,815	\$—	\$7,815	\$—
Contingent consideration related to business acquisition	6,156	—	—	6,156
As of January 1, 2011				
Interest rate swaps	\$9,321	\$—	\$9,321	\$—
As of October 9, 2010				
Interest rate swaps	\$12,281	\$—	\$12,281	\$—

The fair values of the Company's treasury rate locks and interest rate swaps represent the estimated amounts that the Company would receive or pay to terminate the agreements taking into consideration the difference between the contract rate of interest and rates currently quoted for agreements of similar terms and maturities (based on the forward yield curve). The fair value of the contingent consideration, which is recorded in Accrued expenses, was based on various estimates including the Company's estimate of the probability of achieving the targets and the time value of money. There were no changes in the fair value of the contingent consideration during the period.

(unaudited)

The carrying amount of the Company's cash and cash equivalents, accounts receivable, bank overdrafts, financed vendor accounts payable, accounts payable, accrued expenses and current portion of long term debt approximate their fair values due to the relatively short term nature of these instruments. As of October 8, 2011, January 1, 2011 and October 9, 2010, the fair value of the Company's long-term debt with a carrying value of \$599,438, \$300,851 and \$301,043, respectively, was approximately \$618,539, \$316,000 and \$337,221, respectively. The fair value of the Company's senior unsecured notes was determined based on quoted market prices. The Company believes that the carrying value of its other long-term debt and certain long-term liabilities approximate fair value.

Non-Financial Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the assets and liabilities are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment). At October 8, 2011, the Company had no significant non-financial assets or liabilities that had been adjusted to fair value subsequent to initial recognition.

7. Stock Repurchase Program:

The Company's stock repurchase program allows it to repurchase its common stock on the open market or in privately negotiated transactions from time to time in accordance with the requirements of the SEC. During the twelve weeks ended October 8, 2011, the Company repurchased 1,700 shares of its common stock at an aggregate cost of \$99,968, or an average price of \$58.81 per share under its \$300,000 stock repurchase program authorized by its Board of Directors on August 9, 2011. During the forty weeks ended October 8, 2011, the Company repurchased 9,912 shares of its common stock at an aggregate cost of \$609,650, or an average price of \$61.51 per share. At October 8, 2011, the Company had \$200,032 remaining under the \$300,000 stock repurchase program.

Additionally, the Company repurchased 1 share of its common stock at an aggregate cost of \$44, or an average price of \$55.41 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock during the twelve weeks ended October 8, 2011. During the forty weeks ended October 8, 2011, the Company repurchased 73 shares of its common stock at an aggregate cost of \$4,500, or an average price of \$61.99 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock.

During the twelve weeks ended October 9, 2010, the Company repurchased 381 shares of its common stock at an aggregate cost of \$20,664, or an average price of \$54.18 per share, under its \$300,000 stock repurchase program, authorized by its Board of Directors on August 10, 2010. During the forty weeks ended October 9, 2010, the Company repurchased 10,660 shares of its common stock at an aggregate cost of \$476,140, or an average price of \$44.66 per share.

Additionally, the Company repurchased 1 share of its common stock at an aggregate cost of \$44, or an average price of \$56.56 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock during the twelve weeks ended October 9, 2010. During the forty weeks ended October 9, 2010, the Company repurchased 47 shares of its common stock at an aggregate cost of \$1,940, or an average price of \$40.91 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock.

8. Earnings per Share:

Certain of the Company's shares granted to employees in the form of restricted stock are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per share. For the twelve week periods ended October 8, 2011 and October 9, 2010, earnings of \$276 and \$386, respectively, were allocated to the participating securities. For the forty week periods ended October 8, 2011 and October 9, 2010, earnings of \$924 and \$1,369, respectively, were allocated to the participating securities.

Diluted earnings per share are calculated by including the effect of dilutive securities. Share-based awards to purchase approximately 52 and 7 shares of common stock that had an exercise price in excess of the average market price of the common stock during the twelve week periods ended October 8, 2011 and October 9, 2010, respectively, were not included in the calculation of diluted earnings per share because they were anti-dilutive. Share-based awards to purchase approximately 51 and 48 shares of common stock that had an exercise price in excess of the average market price of the common stock during the forty week periods ended October 8, 2011 and October 9, 2010, respectively, were not included in the calculation of diluted earnings per share because they are anti-dilutive.

The following table illustrates the computation of basic and diluted earnings per share for the twelve and forty week periods ended October 8, 2011 and October 9, 2010, respectively:

10. Segment and Related Information:

The Company has the following two reportable segments: AAP and AI. The AAP segment is comprised of 3,442 stores as of October 8, 2011, which operated in the United States, Puerto Rico and the Virgin Islands under the trade names "Advance Auto Parts," "Advance Discount Auto Parts" and "Western Auto." These stores offer a broad selection of brand name and proprietary automotive replacement parts, accessories and maintenance items for domestic and imported cars and light trucks. The AAP segment also includes the Company's e-commerce operations.

The AI segment consists solely of the operations of Autopart International, and operates stores under the "Autopart International" trade name. AI mainly serves the Commercial market from its 203 stores as of October 8, 2011 located in the Northeastern and Mid-Atlantic regions of the United States and Florida. In addition, its North American Sales Division services warehouse distributors and jobbers throughout North America.

The Company evaluates each of its segment's financial performance based on net sales and operating profit for purposes of allocating resources and assessing performance. The accounting policies of the reportable segments are generally the same as those used by the Company.

The following table summarizes financial information for each of the Company's business segments for the twelve and forty weeks ended October 8, 2011 and October 9, 2010, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and the notes to those statements that appear elsewhere in this report. Our first quarter consists of 16 weeks divided into four equal periods. Our remaining three quarters consist of 12 weeks with each quarter divided into three equal periods.

Certain statements in this report are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are usually identified by the use of words such as "anticipate," "believe," "could," "estimate," "expect," "forecast," "intend," "likely," "may," "plan," "position," "possible," "potential," "probable," "project," "projection," "should," "strategy," "will," or similar expressions. We intend for any forward-looking statements to be covered by, and we claim the protection under, the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

These forward-looking statements are based upon assessments and assumptions of management in light of historical results and trends, current conditions and potential future developments that often involve judgment, estimates, assumptions and projections. Forward-looking statements reflect current views about our plans, strategies and prospects, which are based on information currently available.

Although we believe that our plans, intentions and expectations as reflected in or suggested by any forward-looking statements are reasonable, we do not guarantee or give assurance that such plans, intentions or expectations will be achieved. Actual results may differ materially from our anticipated results described or implied in our forward-looking statements, and such differences may be due to a variety of factors. Our business could also be affected by additional factors that are presently unknown to us or that we currently believe to be immaterial to our business.

Listed below and discussed in our Annual Report on Form 10-K for the year ended January 1, 2011 (filed with the Securities and Exchange Commission, or SEC, on March 1, 2011), which we refer to as our 2010 Form 10-K, are some important risks, uncertainties and contingencies which could cause our actual results, performance or achievements to be materially different from any forward-looking statements made or implied in this report. These include, but are not limited to, the following:

- a decrease in demand for our products;
- competitive pricing and other competitive pressures;
- our ability to implement our business strategy;
- our ability to expand our business, including the location of available and suitable real estate for new store locations, the integration of any acquired businesses and the continued increase in supply chain capacity and efficiency;
- our ability to attract and retain qualified employees, or Team Members;
- deterioration in general macro-economic conditions, including unemployment, inflation or deflation, consumer debt levels, high fuel and energy costs, uncertain credit markets or other recessionary type conditions which could have a negative impact on our business, financial condition, results of operations and cash flows;
- regulatory and legal risks, such as environmental or OSHA risks, including being named as a defendant in administrative investigations or litigation, and the incurrence of legal fees and costs, the payment of fines or the payment of sums to settle litigation cases or administrative investigations or proceedings;
- business interruptions due to the occurrence of natural disasters, extended periods of unfavorable weather, computer system malfunction, wars or acts of terrorism; and
- the impact of global climate change or legal and regulatory responses to such change.

We assume no obligations to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. In evaluating forward-looking statements, you should consider these risks and uncertainties, together with the other risks described from time to time in our other reports and documents filed with the SEC and you should not place undue reliance on those statements.

Introduction

We are a leading specialty retailer of automotive aftermarket parts, accessories, batteries and maintenance items primarily operating within the United States. Our stores carry an extensive product line for cars, vans, sport utility vehicles and light trucks. We serve both "do-it-yourself," or DIY, and "do-it-for-me," or Commercial, customers. Our Commercial customers consist primarily of delivery customers for whom we deliver product from our store locations to our Commercial customers' places of business, including independent garages, service stations and auto dealers. At October 8, 2011, we operated a total of 3,645 stores.

We operate in two reportable segments: Advance Auto Parts, or AAP, and Autopart International, Inc., or AI. The AAP segment is comprised of our store operations within the Northeastern, Southeastern and Midwestern regions of the United States, Puerto Rico and the Virgin Islands which operate under the trade names "Advance Auto Parts," "Advance Discount Auto Parts" and "Western Auto." At October 8, 2011, we operated 3,442 stores in the AAP segment. Our AAP stores offer a broad selection of brand name and proprietary automotive replacement parts, accessories and maintenance items for domestic and imported cars and light trucks. The AAP segment also includes our e-commerce operations.

At October 8, 2011, we operated 203 stores in the AI segment under the "Autopart International" trade name. AI's business primarily serves the Commercial market from its store locations in the Northeastern and Mid-Atlantic regions of the United States and Florida. In addition, its North American Sales Division services warehouse distributors and jobbers throughout North America. For additional information regarding our segments, see Note 10, Segments and Related Information, of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Management Overview

We generated earnings per diluted share, or diluted EPS, of \$1.41 during our twelve weeks ended October 8, 2011 ("third quarter of Fiscal 2011") compared to \$1.03 for the comparable period of Fiscal 2010. The increase in our diluted EPS was driven by an increase in our operating income and the repurchase of shares of our common stock. Our overall financial results have steadily improved throughout Fiscal 2011 with the largest increase in profitability occurring during the third quarter primarily due to the significant decrease, or leverage, of our selling, general and administrative expense, or SG&A, rate. We believe our strong financial results have been driven by favorable industry dynamics, adjustments we made earlier in the year to slow the pace and breadth of change from the implementation of our strategic initiatives and the benefits from the investments we have made over the last several years to support our Service Leadership and Superior Availability strategies.

Contributing to our favorable operating income results during the third quarter was less SG&A expense partially offset by a decrease in our gross profit rate compared to the comparable period of Fiscal 2010. Our SG&A rate decreased as a result of less incentive compensation, productivity improvements from our new variable store labor model, which enables us to better staff our stores to customer demand, and a focused reduction in support and discretionary expenses partially offset by increased costs associated with initiatives under our two key strategies. The decrease in our gross profit rate during the third quarter compared to the comparable period in Fiscal 2010 was due to a number of internal and external factors, including higher shrink expense, additional supply chain costs associated with our supply chain investments and higher fuel prices and commodity price inflation combined with the timing of retail price changes.

Although our operating cash flow through the third quarter of Fiscal 2011 was less than the comparable period last year, we used available cash and borrowings to repurchase shares of our common stock and invest in capital

improvements and initiatives to support our strategies. As discussed in the Business Update below, we remain committed to investing in our two key strategies. However, we have adapted the pace of change in response to our year-to-date performance in Fiscal 2011 and overall economic uncertainties.

Summary of Third Quarter Financial Results

A high-level summary of our financial results for the third quarter of Fiscal 2011 is included below:

Net sales during the third quarter of Fiscal 2011 increased 4.2% to \$1,465.0 million as compared to the third quarter of Fiscal 2010, driven by the addition of 105 net new stores over the past 12 months and a 2.2% increase in comparable store sales.

Our operating income increased \$30.6 million for the third quarter of Fiscal 2011 over the comparable period of Fiscal 2010 and increased as a percentage of total sales by 167 basis points due to the leverage of our SG&A rate partially offset by a lower gross profit rate.

Our inventory balance as of October 8, 2011 increased \$270.2 million, or 14.7%, over the comparable period last year primarily driven by our Superior Availability initiatives and new store growth.

We generated operating cash flow of \$611.0 million during the the forty weeks ended October 8, 2011, an increase of 2.4% over the comparable period in Fiscal 2010 primarily due to the increase in our net income and provision for deferred income taxes partially offset by an increase in our inventory and other working capital balances.

We used available cash and borrowings to repurchase 1.7 million shares of our common stock under our stock repurchase program at a cost of \$100.0 million during the third quarter of Fiscal 2011.

Refer to the Results of Operations and Liquidity sections for further details of our income statement and cash flow results, respectively.

Business Update

In Fiscal 2011, we have increased our focus on differentiating Advance from our competition through our commitment to exceptional service which is reflected in our new customer promise – service is our best part – and the simplification of our previous four key strategies into two strategies – Service Leadership and Superior Availability. Through these two key strategies, we believe we can continue to build on the initiatives discussed below and produce favorable financial results over the long-term.

Our Commercial sales, as a percentage of total sales, increased to 37% for the third quarter of 2011 as compared to 34% for the same period in Fiscal 2010. Since 2008 we have completed incremental investments in additional parts professionals, delivery trucks and drivers in approximately 50% of our AAP stores with Commercial programs. We have decelerated the pace of these investments during Fiscal 2011 as we have increased our focus on Service Leadership and specifically in those areas we believe have a direct impact on customer satisfaction for both our Commercial and DIY customers such as labor scheduling, training, commercial delivery execution and increased advertising. On an ongoing basis, we closely monitor independent customer satisfaction scores for both Commercial and DIY customers as a measure of customer service and product availability. Our e-commerce operations continue to supplement our store sales growth through an increase in DIY sales from our AdvanceAutoParts.com website and more recently through the added capability for our Commercial customers to order product on-line.

Our Commercial and DIY sales have benefited from our added parts availability and merchandising initiatives. We continue to expand our supply chain network to increase our ability to get the right product to our customers. We upgraded the inventory levels in 116 of our stores during the third quarter and have added 79 stores to our HUB store network since the third quarter of last year bringing the total number of HUBs to 252. Our HUB stores stock a wider selection and greater supply of inventory and provide same-day delivery to our other stores in their respective areas. We plan to open our tenth distribution center in Remington, Indiana during the second quarter of fiscal 2012. This new facility will provide productivity improvements resulting from the added capacity and a more advanced distribution system. We continue to increase the amount of product we source globally, which we believe will

improve our gross profit across numerous product categories and allow us to more quickly source the products our customers need.

We anticipate the pace of our growth in Commercial to continue to exceed the pace of our DIY growth. The continued growth in our Commercial sales emphasizes our focus on an integrated service model and our goal of achieving a 50/50 mix of Commercial and DIY sales. While we expect our gross profit rate for Fiscal 2011 to be lower than Fiscal 2010 due to higher fuel costs, increased shrink, inflationary pressures in the market place and investments we are making in our supply chain network, we believe our current initiatives are key for our long-term sales growth and improvement in our gross profit rate. Combined with our focus on balancing support and discretionary expenses with the additional cost of investments in our key strategies, we are committed to achieving our longer-term growth and profitability goals.

Automotive Aftermarket Industry

The automotive aftermarket industry remains strong despite volatility in the overall economic environment. Favorable industry dynamics include:

- increase in number and average age of vehicles;
- lower new car sales versus the five-year average;
- long-term expectation that miles driven will increase based on historical trends; and
- fragmented commercial market.

Conversely, there are a number of factors which are negatively affecting the automotive aftermarket industry and include:

- higher gas prices;
- near-term downward trend in miles driven; and
- overall reduction in discretionary spending on elective maintenance and other accessories.

Given the uncertainty in the economic environment, we have adjusted our operations and financial plans without compromising our core strategic investments over the long-term. We believe that the execution of the various initiatives under our key strategies will allow us to continue to increase our share of the total automotive aftermarket with a higher growth potential driven by the more fragmented Commercial market.

Consolidated Operating Results and Key Statistics and Metrics

The following table highlights certain consolidated operating results and key statistics and metrics for the twelve and forty weeks ended October 8, 2011 and October 9, 2010, respectively, and fiscal years ended January 1, 2011 and January 2, 2010. We use these key statistics and metrics to measure the financial progress of our key strategies.

- Comparable store sales include net sales from our stores and e-commerce website. The change in store sales is calculated based on the change in net sales starting once a store has been open for 13 complete accounting periods (each period represents four weeks). Relocations are included in comparable store sales from the original date of opening.
- (1) These financial metrics presented for each quarter are calculated on an annual basis and accordingly reflect the last four fiscal quarters completed.
- (2) Average net sales per store is calculated as net sales divided by the average of the beginning and ending store count for the respective period.
- (3) Operating income per store is calculated as operating income divided by the average of beginning and ending total store count for the respective period. Excluding the impact of store divestitures in Fiscal 2009, operating income per store in the third quarter of Fiscal 2010 was \$162. Operating income per store for Fiscal 2009 was \$142 excluding the \$26,100 impact of store divestitures from operating income.
- (4) Gross margin return on inventory is calculated as gross profit divided by an average of beginning and ending inventory, net of accounts payable and financed vendor accounts payable.

Store Development by Segment

The following table sets forth the total number of new, closed and relocated stores and stores with Commercial delivery programs during the twelve and forty weeks ended October 8, 2011 and October 9, 2010 by segment. We lease approximately 79% of our AAP stores. We lease 100% of our AI stores. All of our AI stores have Commercial delivery programs.

Critical Accounting Policies

Our financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Our discussion and analysis of the financial condition and results of operations are based on these financial statements. The preparation of these financial statements requires the application of accounting policies in addition to certain estimates and judgments by our management. Our estimates and judgments are based on currently available information, historical results and other assumptions we believe are reasonable. Actual results could differ materially from these estimates. During the twelve and forty weeks ended October 8, 2011, we consistently applied the critical accounting policies discussed in our 2010 Form 10-K. For a complete discussion regarding these critical accounting policies, refer to the 2010 Form 10-K.

Table of Contents

Components of Statement of Operations

Net Sales

Net sales consist primarily of merchandise sales from our retail store locations to both our DIY and Commercial customers and sales from our e-commerce website. Our total sales growth is comprised of both comparable store sales and new store sales. We calculate comparable store sales based on the change in store sales starting once a store has been opened for 13 complete accounting periods (approximately one year) and by including e-commerce sales. We include sales from relocated stores in comparable store sales from the original date of opening.

Cost of Sales

Our cost of sales consists of merchandise costs, net of incentives under vendor programs; inventory shrinkage, defective merchandise and warranty costs; and warehouse and distribution expenses. Gross profit as a percentage of net sales may be affected by (i) variations in our product mix, (ii) price changes in response to competitive factors and fluctuations in merchandise costs, (iii) vendor programs, (iv) inventory shrinkage, (v) defective merchandise and warranty costs and (vi) warehouse and distribution costs. We seek to minimize fluctuations in merchandise costs and instability of supply by entering into long-term purchasing agreements, without minimum purchase volume requirements, when we believe it is advantageous. Our gross profit may not be comparable to those of our competitors due to differences in industry practice regarding the classification of certain costs.

Selling, General and Administrative Expenses

SG&A expenses consist of store payroll, store occupancy (including rent and depreciation), advertising expenses, Commercial delivery expenses, other store expenses and general and administrative expenses, including salaries and related benefits of store support center Team Members, share-based compensation expense, store support center administrative office expenses, data processing, professional expenses, self-insurance costs, closed store expense, impairment charges, if any, and other related expenses.

Twelve and Forty Weeks Ended October 8, 2011 Compared to Twelve and Forty Weeks Ended October 9, 2010

Net Sales

Net sales for the twelve weeks ended October 8, 2011 were \$1,465.0 million, an increase of \$58.5 million, or 4.2%, as compared to net sales for the twelve weeks ended October 9, 2010. This growth was primarily due to sales from new AAP and AI stores opened within the last four fiscal quarters and an increase in comparable store sales.

For the twelve weeks ended October 8, 2011, AAP produced net sales of \$1,394.9 million, an increase of \$48.3 million, or 3.6%, as compared to net sales for the twelve weeks ended October 9, 2010. The AAP comparable store sales increase of 1.9% was driven by an increase in average sales per customer. For the twelve weeks ended October 8, 2011, AI produced net sales of \$73.6 million, an increase of \$10.1 million, or 15.9%, as compared to net sales for the twelve weeks ended October 9, 2010.

Net sales for the forty weeks ended October 8, 2011 were \$4,842.9 million, an increase of \$187.8 million, or 4.0%, as compared to net sales for the forty weeks ended October 9, 2010. This growth was primarily due to sales from new AAP and AI stores opened within the last four fiscal quarters and an increase in comparable store sales.

For the forty weeks ended October 8, 2011, AAP produced net sales of \$4,618.6 million, an increase of \$143.9 million, or 3.2%, as compared to net sales for the forty weeks ended October 9, 2010. The AAP comparable store sales increase of 1.7% was driven by an increase in average sales per customer. For the forty weeks ended October 8, 2011, AI produced net sales of \$236.5 million, an increase of \$44.8 million, or 23.4%, as compared to net sales for the forty weeks ended October 9, 2010.

Gross Profit

Gross profit for the twelve weeks ended October 8, 2011 was \$724.5 million, or 49.5% of net sales, as compared to \$707.8 million, or 50.3% of net sales, for the comparable period of last year, representing a decrease of 87 basis points. This decrease in gross profit as a percentage of net sales was driven by increased shrink expense, supply chain expense deleverage due to investments in HUBs and higher fuel costs and commodity price inflation combined with the timing of retail price changes. We have balanced the increase in the cost of certain product categories with changes to our retail prices based on market pressures from overall competition and general economic conditions.

Gross profit for the forty weeks ended October 8, 2011 was \$2,418.6 million, or 49.9% of net sales, as compared to \$2,333.8 million, or 50.1% of net sales, for the comparable period of last year, representing a decrease of 19 basis

points. This decrease in gross profit as a percentage of net sales was driven by increased shrink expense, supply chain expense deleverage due to investments in HUBs and higher fuel costs and commodity price inflation partially offset by improved merchandising and pricing capabilities (such as global sourcing and price optimization) and improved parts availability.

Table of Contents

SG&A

SG&A expenses for the twelve weeks ended October 8, 2011 were \$546.7 million, or 37.3% of net sales, as compared to \$560.6 million, or 39.9% of net sales, for the comparable period of last year, representing a decrease of 254 basis points. This decrease as a percentage of sales was primarily due to less incentive compensation as a result of lower comparable store sales growth compared to last year, store labor leverage resulting from productivity improvements resulting from our new variable customer driven labor model and a decrease in support and discretionary expenses. Partially offsetting this decrease were increased strategic investments in areas such as e-commerce and Commercial which support our Service Leadership and Superior Availability strategies.

SG&A expenses for the forty weeks ended October 8, 2011 were \$1,865.8 million, or 38.5% of net sales, as compared to \$1,832.8 million, or 39.4% of net sales, for the comparable period of last year, representing a decrease of 85 basis points. This decrease as a percentage of net sales was primarily due to less incentive compensation and store labor leverage partially offset by increased advertising and strategic investments in support of our Service Leadership and Superior Availability strategies.

Operating Income

Operating income for the twelve weeks ended October 8, 2011 was \$177.8 million, or 12.1% of net sales, as compared to \$147.2 million, or 10.5% of net sales, for the comparable period of last year, representing an increase of 167 basis points. This increase was due to a lower SG&A rate partially offset by a lower gross profit rate.

AAP produced operating income of \$173.3 million, or 12.4% of net sales, for the twelve weeks ended October 8, 2011 as compared to \$144.9 million, or 10.8% of net sales, for the comparable period of last year. AI generated operating income for the twelve weeks ended October 8, 2011 of \$4.7 million as compared to \$2.4 million for the comparable period of last year. AI's operating income increased during the second quarter primarily due to the leverage of SG&A as a result of its improved comparable store sales results over last year and the decelerated pace of new store openings for Fiscal 2011.

Operating income for the forty weeks ended October 8, 2011 was \$552.7 million, or 11.4% of net sales, as compared to \$501.0 million, or 10.8% of net sales, for the comparable period of last year, representing an increase of 65 basis points. This increase was due to a lower SG&A rate partially offset by a slightly lower gross profit rate.

AAP produced operating income of \$541.7 million, or 11.7% of net sales, for the forty weeks ended October 8, 2011 as compared to \$495.5 million, or 11.1% of net sales, for the comparable period of last year. AI generated operating income for the forty weeks ended October 8, 2011 of \$11.4 million as compared to \$5.5 million for the comparable period of last year. AI's operating income increased during the forty weeks ended October 8, 2011 primarily due to the leverage of SG&A as a result of its improved comparable store sales results over last year and decelerated pace of new store openings for Fiscal 2011.

Interest Expense

Interest expense for the twelve weeks ended October 8, 2011 was \$8.2 million, or 0.6% of net sales, as compared to \$7.0 million, or 0.5% of net sales, for the comparable period in Fiscal 2010. The increase in interest expense is primarily a result of higher average borrowings outstanding during the twelve weeks ended October 8, 2011 compared to the comparable period in Fiscal 2010.

Interest expense for the forty weeks ended October 8, 2011 was \$25.9 million, or 0.5% of net sales, as compared to \$20.1 million, or 0.4% of net sales, for the comparable period in Fiscal 2010. The increase in interest expense is

primarily a result of the amortization of the previously recorded losses in accumulated other comprehensive loss over the remaining life of our interest rate swaps and higher average borrowings outstanding during the forty weeks ended October 8, 2011 compared to the comparable period in Fiscal 2010. The swaps were associated with bank debt which we repaid near the beginning of our second quarter of Fiscal 2010.

Income Taxes

Income tax expense for the twelve weeks ended October 8, 2011 was \$63.5 million, as compared to \$52.3 million for the comparable period of Fiscal 2010. Our effective income tax rate was 37.6% and 37.4% for the twelve weeks ended October 8, 2011 and October 9, 2010, respectively.

Table of Contents

Income tax expense for the forty weeks ended October 8, 2011 was \$197.8 million, as compared to \$181.5 million for the comparable period of Fiscal 2010. Our effective income tax rate was 37.6% and 37.9% for the forty weeks ended October 8, 2011 and October 9, 2010, respectively.

Net Income

Net income for the twelve weeks ended October 8, 2011 was \$105.6 million, or \$1.41 per diluted share, as compared to \$87.6 million, or \$1.03 per diluted share, for the comparable period of Fiscal 2010. As a percentage of net sales, net income for the twelve weeks ended October 8, 2011 was 7.2%, as compared to 6.2% for the comparable period of Fiscal 2010. The increase in diluted EPS was primarily driven by an increase in net income and our repurchase of 12.3 million shares of our common stock over the last four fiscal quarters.

Net income for the forty weeks ended October 8, 2011 was \$328.2 million, or \$4.19 per diluted share, as compared to \$297.9 million, or \$3.37 per diluted share, for the comparable period of Fiscal 2010. As a percentage of net sales, net income for the forty weeks ended October 8, 2011 was 6.8%, as compared to 6.4% for the comparable period of Fiscal 2010. The increase in diluted EPS was primarily driven by an increase in net income and our repurchase of 12.3 million shares of our common stock over the last four fiscal quarters.

Liquidity and Capital Resources

Overview

Our primary cash requirements to maintain our current operations include payroll and benefits, the purchase of inventory, contractual obligations and capital expenditures as well as the payment of quarterly cash dividends and estimated income taxes. In addition, we have used available funds to repay borrowings under our revolving credit facility and repurchase shares of our common stock under our stock repurchase program. We have funded these requirements primarily through cash generated from operations, supplemented by borrowings under our revolving credit facilities and notes offering as needed. We believe funds generated from our expected results of operations, available cash and cash equivalents, and available borrowings under our revolving credit facility will be sufficient to fund our primary obligations for the next fiscal year.

At October 8, 2011, our cash and cash equivalents balance was \$65.9 million, an increase of \$6.7 million compared to January 1, 2011 (the end of Fiscal 2010). This increase in cash primarily resulted from cash inflow from operations and borrowings under our revolving credit facility partially offset by the purchase of property and equipment and the repurchase of shares of our common stock. Additional discussion of our cash flow results, including the comparison of the activity for the forty weeks ended October 8, 2011 to the comparable period of Fiscal 2010, is set forth in the Analysis of Cash Flows section.

At October 8, 2011, our outstanding indebtedness was \$600.4 million, or \$298.2 million higher when compared to January 1, 2011, and consisted of borrowings of \$299.2 million under our revolving credit facility, \$298.9 million under our senior unsecured notes, \$2.1 million outstanding on an economic development note and \$0.2 million outstanding under other financing arrangements. Additionally, we had \$96.2 million in letters of credit outstanding, which reduced our total availability under the revolving credit facility to \$354.6 million. The letters of credit serve as collateral for our self-insurance policies and routine purchases of imported merchandise.

Capital Expenditures

Our primary capital requirements have been the funding of our continued new store openings, maintenance of existing stores, the construction and upgrading of distribution centers, and the development of both proprietary and purchased

information systems. Our capital expenditures were \$207.5 million for the forty weeks ended October 8, 2011, or \$60.3 million more than the forty weeks ended October 9, 2010. During the forty weeks ended October 8, 2011, we opened 76 AAP stores and 9 AI stores.

Our future capital requirements will depend in large part on the number of and timing for new stores we open within a given year and the investments we make in information technology and our supply chain network. We anticipate adding approximately 100 AAP and 10 AI stores, respectively, and closing approximately 10 stores during Fiscal 2011. We also plan to make continued investments in the maintenance of our existing stores and additional investments in our supply chain, information technology and other capabilities to support our key strategies.

Stock Repurchase Program

Our stock repurchase program allows us to repurchase our common stock on the open market or in privately negotiated transactions from time to time in accordance with the requirements of the SEC. During the twelve weeks ended October 8, 2011, we repurchased 1.7 million shares of our common stock at an aggregate cost of \$100.0 million, or an average price of \$58.81 per share under our \$300 million stock repurchase program authorized by our Board of Directors on August 9, 2011. During the forty weeks ended October 8, 2011, we repurchased 9.9 million shares of our common stock at an aggregate cost of \$609.7 million, or an average price of \$61.51 per share. At October 8, 2011, we had \$200.0 million remaining under the \$300 million stock repurchase program.

Additionally, we repurchased one thousand shares of our common stock at an aggregate cost of \$44 thousand, or an average price of \$55.41 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock during the twelve weeks ended October 8, 2011. During the forty weeks ended October 8, 2011, we repurchased 73 thousand shares of our common stock at an aggregate cost of \$4.5 million, or an average price of \$61.99 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock.

Dividend

Since Fiscal 2006, our Board of Directors has declared quarterly dividends of \$0.06 per share to stockholders of record. Subsequent to October 8, 2011, our Board of Directors declared a quarterly dividend of \$0.06 per share to be paid on January 6, 2012 to all common stockholders of record as of December 23, 2011.

Analysis of Cash Flows

A summary and analysis of our cash flows for the forty week period ended October 8, 2011 as compared to the forty week period ended October 9, 2010 is included below.

	Forty Week Periods Ended	
	October 8, 2011	October 9, 2010
	(in millions)	
Cash flows from operating activities	\$611.0	\$596.5
Cash flows from investing activities	(224.6) (147.0
Cash flows from financing activities	(379.7) (355.0
Net increase in cash and cash equivalents	\$6.7	\$94.5

Operating Activities

For the forty weeks ended October 8, 2011, net cash provided by operating activities increased \$14.5 million to \$611.0 million. This net increase in operating cash flow was primarily due to an increase in net income of \$30.3 million and a \$19.8 million increase in provision for deferred income taxes partially offset by a larger increase in inventory, net of accounts payable, and a smaller increase in cash flows resulting from routine fluctuations in other working capital. The increase in inventory as of the end of the third quarter of Fiscal 2011 compared to the comparable period of last year was primarily driven by our Superior Availability initiatives and new store growth.

Investing Activities

For the forty weeks ended October 8, 2011, net cash used in investing activities increased \$77.6 million to \$224.6 million. The increase in cash used was primarily driven by investments in our existing stores, supply chain and

information technology as well as the acquisition of a technology company in support of our e-commerce strategy. The majority of the increase in our supply chain investments is related to the completion of our Remington distribution center which is scheduled to open during the second quarter of Fiscal 2012.

3BUFinancing Activities

For the forty weeks ended October 8, 2011, net cash used in financing activities increased \$24.7 million to \$379.7 million. Cash flows from financing activities increased as a result of an increase of \$200.4 million in net borrowings.

Cash flows from financing activities decreased as a result of:

- a \$151.1 million increase in the repurchase of common stock under our stock repurchase program;
- a \$49.9 million decrease in financed vendor accounts payable; and
- a \$23.9 million decrease in proceeds from the issuance of common stock related to the exercise of share-based compensation awards.

Long-Term Debt

Bank Debt

On May 27, 2011, we entered into a new \$750.0 million unsecured five-year revolving credit facility with our wholly-owned subsidiary, Advance Stores Company, Incorporated, or Stores, serving as the borrower. This new facility replaced our previous revolving credit facility. Proceeds from the new revolving credit facility were used to repay \$165.0 million of principal outstanding on our previous revolving credit facility. In conjunction with this refinancing, we incurred \$3.6 million of financing costs which we will amortize over the term of the new revolving credit facility. The revolving credit facility also provides for the issuance of letters of credit with a sub-limit of \$300 million, and swingline loans in an amount not to exceed \$50 million. We may request, subject to agreement by one or more lenders, that the total revolving commitment be increased by an amount not exceeding \$250 million (up to a total commitment of \$1 billion) during the term of the revolving credit facility. Voluntary prepayments and voluntary reductions of the revolving balance are permitted in whole or in part, at our option, in minimum principal amounts as specified in the revolving credit facility. The revolving credit facility matures on May 27, 2016.

As of October 8, 2011, we had \$299.2 million outstanding under our revolving credit facility, and had letters of credit outstanding of \$96.2 million, which reduced the availability under the revolving credit facility to \$354.6 million. (The letters of credit generally have a term of one year or less.)

The interest rate on borrowings under the revolving credit facility is based, at our option, on an adjusted LIBOR rate, plus a margin, or an alternate base rate, plus a margin. The current margin is 1.5% and 0.5% per annum for the adjusted LIBOR and alternate base rate borrowings, respectively. A facility fee is charged on the total amount of the revolving credit facility, payable in arrears. The current facility fee rate is 0.25% per annum. Under the terms of the revolving credit facility, the interest rate and facility fee are based on our credit rating.

Our revolving credit facility contains covenants restricting our ability to, among other things: (1) create, incur or assume additional debt, (2) incur liens or engage in sale-leaseback transactions, (3) make loans and investments (including acquisitions), (4) guarantee obligations, (5) engage in certain mergers and liquidations, (6) change the nature of our business and the business conducted by our subsidiaries, (7) enter into certain hedging transactions, and (8) change our status as a holding company. We are also required to comply with financial covenants with respect to a maximum leverage ratio and a minimum consolidated coverage ratio. We were in compliance with our covenants in place at October 8, 2011 and January 1, 2011, respectively. Our revolving credit facility also provides for customary events of default, covenant defaults and cross-defaults to its other material indebtedness.

Senior Unsecured Notes

Our 5.75% senior unsecured notes, the Notes, were issued in April 2010 at 99.587% of the principal amount of \$300 million and are due May 1, 2020. We served as the issuer of the Notes with each of our domestic subsidiaries currently serving as subsidiary guarantors. The terms of the Notes are governed by an indenture and supplemental indenture (collectively the "Indenture") among us, the subsidiary guarantors and Wells Fargo Bank, National Association, as Trustee.

The Notes bear interest at a rate of 5.75% per year payable semi-annually in arrears on May 1 and November 1 of each year. We may redeem some or all of the Notes at any time or from time to time, at the redemption price described in the Indenture. In addition, in the event of a Change of Control Triggering Event (as defined in the Indenture), we will be required to offer to repurchase the notes at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the repurchase date. The Notes are currently fully and unconditionally guaranteed, jointly and severally, on an unsubordinated and unsecured basis by each of the subsidiary guarantors. We will be permitted to release guarantees without the consent of holders of the Notes under the circumstances described in the Indenture.

Table of Contents

On September 22, 2011, we executed two forward treasury rate locks that mature on December 7, 2011 for a notional amount totaling \$300.0 million. The average rate under the treasury locks was 1.85%. These agreements, which are derivative instruments, have been designated as cash flow hedges to offset our exposure to increases in the underlying U.S. Treasury benchmark rate. This rate is expected to be used to establish the fixed interest rate for debt that we anticipate issuing. The actual coupon rate of the debt will be comprised of the underlying U.S. Treasury benchmark rate, plus a credit spread premium at the date of issuance. We remain committed to managing our debt level in a way that will preserve our investment grade credit rating.

As of October 8, 2011, we had a credit rating from Standard & Poor's of BBB- and from Moody's Investor Service of Baa3. The current outlooks by Standard & Poor's and Moody's are both stable. The current pricing grid used to determine our borrowing rate under our revolving credit facility is based on our credit ratings. If these credit ratings decline, our interest rate on outstanding balances may increase. Conversely, if these credit ratings improve, our interest rate may decrease. In addition, if our credit ratings decline, our access to financing may become more limited.

Off-Balance-Sheet Arrangements

As of October 8, 2011, we had no off-balance-sheet arrangements as defined in Regulation S-K Item 303 of the SEC regulations. We include other off-balance-sheet arrangements in our contractual obligations table including operating lease payments, interest payments on our revolving credit facility and letters of credit outstanding.

Contractual Obligations

As of October 8, 2011, there were no material changes to our outstanding contractual obligations as compared to our contractual obligations outstanding as of January 1, 2011. For information regarding our contractual obligations see "Contractual Obligations" in our 2010 Form 10-K.

Seasonality

Our business is somewhat seasonal in nature, with the highest sales usually occurring in the spring and summer months. In addition, our business can be affected by weather conditions. While unusually heavy precipitation tends to soften sales as elective maintenance is deferred during such periods, extremely hot or cold weather tends to enhance sales by causing automotive parts to fail at an accelerated rate.

New Accounting Pronouncements

For a description of recently announced accounting standards, including the expected dates of adoption and estimated effects, if any, on our condensed consolidated financial statements, see New Accounting Pronouncements in Note 1 of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

On September 22, 2011, we executed forward treasury rate locks for a notional amount totaling \$300.0 million to hedge the risk associated with the interest rates paid on forecasted debt issuances. The counterparties to treasury rate locks are major financial institutions and we anticipate performance by all counterparties to the agreements.

As of October 8, 2011, we have \$298.9 million of senior unsecured notes outstanding with an interest rate of 5.75% due in 2020 and \$299.2 million outstanding on our revolving credit facility which matures in May 2016. As a result of our borrowings under our revolving credit facility, we may be exposed to cash flow risk due to changes in LIBOR.

The table below presents principal cash flows and related weighted average interest rates on our revolving credit facility outstanding at October 8, 2011, by expected maturity dates. Weighted average variable rates are based on implied forward rates in the yield curve at October 8, 2011. Implied forward rates should not be considered a predictor of actual future interest rates.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report in accordance with Rule 13a-15(b) under the Exchange Act. Based on this evaluation, our principal executive officer and our principal financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended October 8, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth the information with respect to repurchases of our common stock for the quarter ended October 8, 2011 (amounts in thousands, except per share amounts):

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share ⁽¹⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Dollar Value that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
July 17, 2011 to August 13, 2011	—	\$—	—	\$300,000
August 14, 2011 to September 10, 2011	791	58.03	790	254,138
September 11, 2011 to October 8, 2011	910	59.48	910	200,032
Total	1,701	\$58.80	1,700	\$200,032

(1) In addition to the shares of common stock we repurchased under our \$300 million stock repurchase program, we repurchased one thousand shares of our common stock at an aggregate cost of \$44 thousand, or an average purchase price of \$55.41 per share, in connection with the net settlement of shares issued as a result of the vesting of restricted stock during the twelve weeks ended October 8, 2011.

(2) Excepted as noted in footnote 1 above, all of the above repurchases were made on the open market at prevailing market rates plus related expenses under our stock repurchase program, which authorized the repurchase of up to \$300 million in common stock. Our stock repurchase program was authorized by our Board of Directors and publicly announced on August 9, 2011.
