NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

Berkshire Income Realty, Inc. (the “Company”), a Maryland corporation, was incorporated on July 19, 2002 and 100 Class B common shares were issued upon organization. The Company is in the business of acquiring, owning, operating and rehabilitating multifamily apartment communities. As of September 30, 2008, the Company owned, or had an interest in, 26 multifamily apartment communities consisting of a total 7,247 apartment units.

Discussion of acquisitions for the nine months ended September 30, 2008

On September 18, 2008, the Company’s operating partnership, Berkshire Income Realty – OP, L.P. (the “Operating Partnership”), through a newly formed and wholly owned subsidiary, BIR Executive House, L.P., completed the acquisition of 100% of the partnership interests in Executive House Associates, the owner of Executive House Apartments, a 302 unit multifamily apartment community located in Philadelphia, Pennsylvania, from an unaffiliated third party. The purchase price of \$50,000,000 and related closing costs consisted of a cash payment of \$20,148,140 plus the assumption of the outstanding mortgage debt secured by the property. The purchase was subject to normal operating pro rations. The cash portion of the purchase price and related closing costs were funded through a \$10,000,000 advance from the revolving credit facility available from an affiliate and available cash. The acquisition of Executive House is intended to be the qualified replacement property in connection with the pending sale of the Westchester West property, expected to be sold in the fourth quarter of 2008, identified for replacement pursuant to a transaction structured to comply with the requirements of a reverse 1031 Exchange under the Internal Revenue Code of 1986, as amended, (the “Tax Code”). As required by the Tax Code, a qualified 1031 Exchange intermediary was retained to execute the Executive House acquisition and relinquished properties transactions. As of September 30, 2008, the purchase price allocation was final and no further adjustment is contemplated.

Discussion of dispositions for the nine months ended September 30, 2008

On the same day, the Board also declared a common dividend of \$0.169960 per share on the Company’s Class B common stock payable concurrently with the Operating Partnership distribution. Recent Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("SFAS No. 157"). SFAS No. 157 provides guidance for, among other things, the definition of fair value and the methods used to measure fair value. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the effective date of SFAS No. 157 until January 1, 2009 for all non-financial assets and non-financial liabilities except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company adopted SFAS No. 157 as of January 1, 2008. The Company has assessed the impact of SFAS No. 157 and has determined that the adoption of SFAS No. 157 did not have a material impact on the financial position or operating results of the Company. Additionally, the Company is assessing the potential impact that the adoption of SFAS No. 157 may have on non-financial assets and non-financial liabilities.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115" ("SFAS No. 159"). SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The provisions of SFAS No. 159 are effective for fiscal years beginning after November 15, 2007. The Company adopted SFAS No. 159 as of January 1, 2008 and has not opted to fair value any assets or liabilities as of September 30, 2008. The Company has assessed the impact of SFAS No. 159 and, based on not fair valuing any assets or liabilities as of September 30, 2008, has determined that the adoption of SFAS No. 159 did not have a material impact on the financial position or operating results of the Company.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), Business Combinations (“SFAS 141R”), which is intended to improve reporting by creating greater consistency in the accounting and financial reporting of business combinations. SFAS No. 141R establishes principles and requirements for how the acquiring entity shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any non-controlling interest in the acquired entity and goodwill acquired in a business combination. This statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is assessing the potential impact that the adoption of SFAS No. 141R may have on its financial position and results of operations.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51 (“SFAS No. 160”), which is intended to improve the relevance, comparability, and transparency of financial information provided to investors by establishing and expanding accounting and reporting standards for minority interests in a subsidiary. This statement is effective for fiscal years beginning on or after December 15, 2008. The Company is currently assessing the potential impact that the adoption of SFAS No. 160 may have on its financial position and results of operations.

Unaudited interim consolidated financial statements

The accompanying interim consolidated financial statements of the Company are unaudited; however, the consolidated financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with GAAP are omitted. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair statement for the interim periods have been included. The results of operations for the interim periods are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year. The interim financial statements and notes thereto should be read in conjunction with the Company’s financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2007.

Consolidated statements of Comprehensive Income (Loss)

For the nine months ended September 30, 2008 and 2007, comprehensive loss equaled net loss. Therefore, the Consolidated Statement of Comprehensive Income and Loss required to be presented has been omitted from the consolidated financial statements.

(“BVF”), an affiliate of Berkshire Property Advisors, L.L.C. (“Berkshire Advisor” or the “Advisor”). Under the terms of the agreement and the related limited partnership agreement, the Company and its affiliates agreed to invest up to \$25,000,000, or approximately 7%, of the total capital of the partnership. The Company’s final commitment under the subscription agreement with BVF totals \$23,400,000. BVF’s investment strategy is to acquire middle-market properties where there is an opportunity to add value through repositioning or rehabilitation. Under the terms of the BVF partnership agreement, the Company’s ability to acquire additional properties is restricted to the two following conditions: (1) the Company can invest up to \$8,000,000 per year in new properties from available cash or cash generated from the refinancing of existing properties, for a period of up to thirty-nine months, at which time such restriction will lapse, and (2) the Company is authorized to sell existing properties and reinvest those proceeds through transactions structured to comply with 1031 Exchanges under the Tax Code, without limit.

The managing partner of BVF is an affiliate of the Company. The Company has evaluated its investment in BVF and concluded that the investment, although subject to the requirements of FIN 46R, will not require the Company to consolidate the activity of BVF as the Company has determined that it is not the primary beneficiary of the venture as defined in FIN 46R.

In relation to its investment in BVF, the Company has elected to adopt a three-month lag period in which it recognizes its share of the equity earnings of BVF in arrears. The lag period is allowed under the provisions of Accounting Principles Board Opinion No. 18 (as Amended) – The Equity Method of Accounting for Investments in Common Stock Statement of Position 78-9 (“APB No.18”), and is necessary in order for the Company to consistently meet its regulatory filing deadlines. As of September 30, 2008 and December 31, 2007, the Company has accounted for its share of the equity in BVF operating activity through June 30, 2008 and September 30, 2007, respectively.

The contribution was paid to BVF on September 26, 2008 and brought the total direct investment by the Company in BVF to \$21,772,326, or 93.0% of the total committed capital amount of \$23,400,000.

6. REVOLVING CREDIT FACILITY - AFFILIATE

On June 30, 2005, the Company obtained financing in the form of a revolving credit facility in the amount of \$20,000,000. The revolving credit facility was provided by an affiliate of the Company. The revolving credit facility provides for interest on borrowings at a rate of 5% above the 30 day LIBOR rate, as announced by Reuter's, and fees based on borrowings under the revolving credit facility and various operational and financial covenants, including a maximum leverage ratio and a maximum debt service ratio. The agreement had a maturity date of December 31, 2006, with a one-time six-month extension available at the option of the Company. The terms of the revolving credit facility were agreed upon through negotiations and were approved by the Audit Committee of the Board, which is comprised solely of directors who are independent under applicable rules and regulations of the SEC and the American Stock Exchange.

The amendment provides for an extension of the maturity date by replacing the maturity date of June 30, 2007 with a 60-day notice of termination provision by which the lender can affect a termination of the commitment under the Agreement and render all outstanding amounts due and payable. The amendment also adds a clean-up requirement to the Agreement, which requires the Company to repay in full all outstanding loans and have no outstanding obligations under the Agreement for a 14 consecutive day period during each 365-day period. This requirement has been satisfied for the initial 365-day period starting on June 1, 2007.

11. LEGAL PROCEEDINGS

The Company is currently party to a legal proceeding initiated by a seller/developer from whom the Company acquired a property in 2005. The dispute involves the interpretation of certain provisions of the purchase and sales agreement related to post acquisition construction activities. Specifically, the purchase and sales agreement provided that if certain conditions were met, the seller/developer would develop a vacant parcel of land contiguous to the acquired property with 18 new residential apartment units (the "New Units") for the benefit of the Company at an agreed-upon price. The purchase and sales agreement also provided the opportunity for the seller/developer to build a limited number of garages (the "Garages") for the existing apartment units for the benefit of the Company at an agreed-upon price.

In 2006, the Company accrued \$190,000 with respect to the New Units matter based on a settlement offer extended to the plaintiff, which was not accepted at that time. On November 9, 2007, the judge issued a summary judgment against the Company with respect to the construction of the New Units. On February 13, 2008, the court entered judgment related to the New Units on the seller/developer's behalf awarding them a judgment in the amount of \$774,292 for costs and damages. The Company believes that there are reasonable grounds for appeal of this ruling and is pursuing an appeal of the judgment awarded by the court.

As of September 30, 2008 and December 31, 2007, respectively, the Company did not increase its accrual of \$190,000 related to the New Units matter as it is moving forward with an appeal of the judgment awarded by the court. Based on the court's award of damages in the amount of \$774,292, if the appeal were to be unsuccessful, the Company would record an additional cost of \$584,292 related to the New Units matter, the amount in excess of the \$190,000 accrued as of September 30, 2008.

The Company settled the matter related to the Garages and has executed a contract with the seller/developer for the construction of 48 Garages at an aggregate cost of \$740,000. As of September 30, 2008, the garage construction project was in process and scheduled to be completed in the fourth quarter of 2008.

The Company and our properties are not subject to any other material pending legal proceedings.

Forward Looking Statements

Certain statements contained in this report, including information with respect to our future business plans, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements, subject to a number of risks and uncertainties that could cause actual results to differ significantly from those described in this report. These forward-looking statements include statements regarding, among other things, our business strategy and operations, future expansion plans, future prospects, financial position, anticipated revenues or losses and projected costs, and objectives of management. Without limiting the foregoing, the words "may," "will," "should," "could," "expect," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of such terms and comparable terminology are intended to identify forward-looking statements. There are a number of important factors that could cause our results to differ materially from those indicated by such forward-looking statements. These factors include, but are not limited to, changes in economic conditions generally and the real estate and bond markets specifically, legislative/regulatory changes (including changes to laws governing the taxation of real estate investment trusts ("REITs")), possible sales of assets, the acquisition restrictions placed on the Company by its investment in Berkshire Multifamily Value Fund, LP, ("BVF" or the "Fund"), the acquisition restrictions placed on the Company by an affiliated entity Berkshire Multifamily Value Fund II, LP, ("BVF II" or "Fund II"), availability of capital, interest rates and interest rate spreads, changes in accounting principles generally accepted in the United States of America ("GAAP") and policies and guidelines applicable to REITs, those factors set forth in Part I, Item 1A "Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC and other risks and uncertainties as may be detailed from time to time in our public announcements and our reports filed with the Securities and Exchange Commission (the "SEC").

The foregoing risks are not exhaustive. Other sections of this report may include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risks factors, nor can it assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, undue reliance should not be placed on forward-looking statements as a prediction of actual results.

Current economic conditions have lead to instability and tightening in the credit markets and have lead to increases in spreads and the related pricing of secured and unsecured debt. Prolonged interest rate increases could negatively impact the Company's ability to make future acquisitions, develop or renovate properties or refinance existing debt at acceptable rates. Additionally, prospective buyers of our properties may also have difficulty obtaining debt which might make it more difficult for the Company to sell properties a acceptable pricing levels. Continued disruptions in the credit markets may also indirectly adverse effects on the Company's operations or the overall economy in which it operates.

SFAS No. 157 provides guidance for, among other things, the definition of fair value and the methods used to measure fair value. The Company adopted SFAS No. 157 as of January 1, 2008. The Company has assessed the impact of SFAS No. 157 and has determined that the adoption of SFAS No. 157 did not have a material impact on the financial position or operating results of the Company. Additionally, the Company is assessing the potential impact that the adoption of SFAS No. 157 may have on non-financial assets and non-financial liabilities.

In February 2007, the Statement of Financial Accounting Standards issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115" ("SFAS No. 159"). During the nine months ended September 30, 2008, cash decreased by \$14,175,710. The main component of the overall decrease was \$27,086,950 used by financing activities of the Company, which was used for payment of mortgage notes of \$11,685,713, prepayment of a mortgage note of \$6,433,293, distributions of common and special dividends of \$13,000,000 and preferred dividends of \$5,025,539 which were partially offset by a draw on the revolving credit facility available from an affiliate of \$10,000,000. Increases in cash related to investing activities total \$3,494,567 and was mainly from the sale of St. Marin and Westchase properties which provided a total of \$41,643,556, which was offset by \$20,148,140 used to acquire Executive House and \$19,155,849 used to fund capital improvements and development at properties throughout the Company's portfolio.

The Company's principal liquidity demands are expected to be distributions to our preferred and common shareholders and Operating Partnership unitholders, capital improvements, rehabilitation projects and repairs and maintenance for the properties, acquisition of additional properties within the investment restrictions placed on it by BVF, and debt repayment and investment in the affiliated BVF. (See footnote 3 to the consolidated financial statements in Part I, Item I herein for additional information).

The Company intends to meet its short-term liquidity requirements through net cash flows provided by operating activities, cash distributions from its investments, including the Company's investments in the Multifamily Venture, and advances from the revolving credit facility. The Company considers its ability to generate cash to be adequate to meet all operating requirements and make distributions to its stockholders in accordance with the provisions of the Internal Revenue Code of 1986, as amended, applicable to REITs. Funds required to make distributions to our preferred and common shareholders and Operating Partnership unitholders that are not provided by operating activities will be supplemented by property debt financing and refinancing activities.

The Company intends to meet its long-term liquidity requirements through property debt financing and refinancing noting that prolonged interest rate increases resulting from current economic conditions could negatively impact the Company's ability to refinance existing debt at acceptable rates. As of September 30, 2008, approximately \$38,705,000 of principal, or 7.93% of the Company's outstanding mortgage debt is due to be repaid within the next four years. Additionally, 42 units, or 18%, of the individual apartment units have been renovated and 27 of the renovated units have been leased as of September 30, 2008. Scope changes are expected to increase the overall cost of the project by approximately \$900,000. The exterior improvements have been completed as of September 30, 2008.

The Company owns two parcels of vacant land. One parcel is the Arboretum Land which is contiguous to an existing property owned by the Company and the other is also a parcel contiguous with an existing property owned by the Company. The funds in the escrow accounts are disbursed to the Company upon completion of the required repairs or renovations activities. The Company is required to provide to the lender documentation evidencing the completion of the repairs, and in some cases, are subject to inspection by the lender.

The Company's capital budgets for 2008 anticipate spending approximately \$32,935,000 for ongoing rehabilitation, including the Hampton House project and development of current portfolio properties, including the Arboretum Land development project during the year. Results of Operations and Financial Condition

During the nine months ended September 30, 2008, the Company's portfolio (the "Total Property Portfolio"), which consists of all properties acquired or placed in service and owned through September 30, 2008, was reduced by the sale of two properties-St. Marin/Karrington and Berkshire at Westchase and increased by the purchase of one property – Executive House in Philadelphia Pennsylvania. As a result of changes in the composition of the property holdings in the Total Property Portfolio over the nine-month period ended September 30, 2008, the consolidated financial statements show changes in revenue and expenses from period to period and as a result, the Company does not believe that its period-to-period financial data are comparable. Therefore, the comparison of operating results for the nine months ended September 30, 2008 and 2007 reflects the changes attributable to the properties owned by the Company throughout each period presented (the "Same Property Portfolio").

"Net Operating Income" ("NOI") falls within the definition of a "non-GAAP financial measure" as stated in Item 10(e) of Regulation S-K promulgated by the SEC and should not be considered as an alternative to net income (loss), the most directly comparable financial measure of our performance calculated and presented in accordance with GAAP. The Company believes NOI is a measure of operating results that is useful to investors to analyze the performance of a real estate company because it provides a direct measure of the operating results of the Company's multifamily apartment communities. The Company also believes it is a useful measure to facilitate the comparison of operating performance among competitors. The calculation of NOI requires classification of income statement items between operating and non-operating expenses, where operating items include only those items of revenue and expense which are directly relate to the income producing activities of the properties. We believe that to achieve a more complete understanding of the Company's performance, NOI should be compared with our reported net income (loss). Management uses NOI to evaluate the operating results of properties without reflecting the effect of capital decisions such as the issuance of mortgage debt and investments in capital items, in turn these capital decisions have an impact on interest expense and depreciation and amortization.

The most directly comparable financial measure of the Company's NOI, calculated and presented in accordance with GAAP, is net income (loss), shown on the consolidated statement of operations. For the three month period ended September 30, 2008 and 2007, net income (loss) was \$(7,141,559) and \$(7,107,515), respectively. For the nine month period ended September 30, 2008 and 2007, the net income (loss) was \$(4,944,515) and \$9,104,119, respectively. A reconciliation of the Company's NOI to net loss for the three and nine month period ended September 30, 2008 and 2007 are presented as part of the following table on pages 25 and 29.

(Same Property Portfolio)

Revenue

Rental Revenue

Rental revenue of the Same Property Portfolio increased for the three-month period ended September 30, 2008 in comparison to the similar period of 2007. The majority of the increase is attributable mainly to properties that have completed major renovations in 2007 and are leasing the newly renovated units at premium rent levels and with rising occupancy levels at the properties following the completion of the rehabilitation projects. Properties experiencing increased post rehabilitation rent levels include the Berkshire of Columbia in Maryland, Berkshire on Brompton in Texas and Berkshires at Lenox Park in Atlanta. Market conditions remain favorable in the majority of the sub-markets in which the Company owns and operates apartments however the current economic environment has resulted in increased bad debts at certain properties in the portfolio. The Company continues to benefit from property rehabilitation projects at various properties in the Same Property Portfolio where successful projects improve the consumer appeal and historically have yielded increased rental revenues as rehabilitated units become available for occupancy at the incrementally higher rental rates than the pre-rehabilitation levels. Given current economic conditions, the Company is prioritizing the retention of quality tenants in properties throughout the portfolio.

Interest, utility reimbursement and other revenue

Same Property Portfolio interest, utility reimbursement and other revenues increased for the three-month period ended September 30, 2008 as compared to the three-month period ended September 30, 2007. Utility reimbursement decreased slightly, primarily due to normal fluctuations. Miscellaneous revenues increased due to revenues from the fees charged to tenants and potential tenants, including late fees, valet trash and other similar revenue items.

Operating Expenses

Operating

Overall operating expenses increased slightly in the quarter ended September 30, 2008 as compared to the same period of 2007. The increase is due mainly to normal fluctuations. The Company continues to realize savings from improved insurance premium levels when it renewed its property insurance coverage for the portfolio for the policy period as of May 1, 2007 when it was able to achieve modest cost reductions in premiums for its property insurance coverage. Further insurance cost reductions were achieved in 2008. The savings were partially offset by increases in some utilities, including gas and water and sewer, advertising publications and rubbish removal. The Seasons of Laurel property has historically contributed significantly to the Company's overall utility expense as the electricity charges at the property have been paid by the Company and were not billed directly to tenants for usage of their apartment unit. The Company has substantially completed a project to modify the utility infrastructure to allow for direct billing of electric costs by individual apartment unit. The changes to the infrastructure will be completed in the fourth quarter of 2008 with the related direct billing to tenants currently tracking to be implemented to all units by the end of 2008. As a result of the individual apartments units being migrated to a direct tenant billing the Company has realized a reduction in electricity expense at Season's and anticipates the reductions and related comparative savings to continue going forward.

Maintenance

Maintenance expense increased slightly in the three-months ended September 30, 2008 as compared to the same period of 2007 and is due mainly to higher operating costs in recurring, non-recurring and painting maintenance activities, including normal maintenance activities including interior cleaning and janitorial services, interior painting as well as exterior activities such as landscaping, snow removal and pool services. Management continues to employ a proactive maintenance rehabilitation strategy at its apartment communities and considers the strategy an effective program that preserves and in some cases increases, its occupancy levels through improved consumer appeal of the apartment communities, from both an interior and exterior perspective.

Real Estate Taxes

Real estate taxes increased for the three-months ended September 30, 2008 from the comparable period of 2007. The increase is due mainly to increased costs at numerous properties including the payment of a prior year liability for a property that was split into two separate parcel billings, one of which was not received and paid until the current three-month period. Additionally, the Company continues to see a trend of escalation in assessed property valuations for properties across the portfolio as renovation projects are completed resulting in new values and the effects of continued reliance placed on local and state property tax revenues. The Company continually scrutinizes the assessed values of its properties and avails itself of arbitration or similar forums made available by the taxing authority for increases in assessed values that the Company considers to be unreasonable. The Company has had success in achieving tax abatements for certain of its properties based on challenges made to the assessed values and anticipates continued success with certain future challenges given the current economic climate.

General and Administrative

General and administrative expenses increased in the three-month period ended September 30, 2008 compared to 2007. The overall increase is due mainly to normal operating expense fluctuations experienced throughout the properties of the Same Property Portfolio including legal expense related to tenant issues.

Management Fees

Management fees of the Same Property Portfolio increased in the three-month period ended September 30, 2008 compared to the same period of 2007 based on a proportionate increased level of revenues in the comparative periods. Property management fees are assessed on the revenue stream of the properties managed by an affiliate of the Company.

Non Operating Expenses

Depreciation

Depreciation expense of the Same Property Portfolio increased for the three-months ended September 30, 2008 as compared to the same period of the prior year. The increased expense is related to the additions to the basis of fixed assets in the portfolio driven by substantial rehabilitation projects ongoing at the Seasons of Laurel, Hannibal Grove, Standard of Lenox and the Hampton House properties and to a lesser degree, normal recurring capital spending activities over the remaining properties in the Same Property Portfolio.

Interest

Interest expense for the three-months ended September 30, 2008 decreased over the comparable period of 2007. The majority of the decrease is attributable to the pay off of the Briarwood loan balance of \$8,600,333 at maturity in April 2008 for which there is no interest charges in the comparative period as new mortgage debt financing has not been obtained as of September 30, 2008.

Amortization of acquired in-place leases and tenant relationships

Amortization of acquired in-place-leases and tenant relationships decreased significantly in the three-months ended September 30, 2008 as compared to the same period of 2007. The decrease is related mainly to the completion of amortization of the acquired-in-place lease intangible assets booked at acquisition and amortized over a 12 month period which did not extend into the twelve-months period ended September 30, 2008. The decreases were partially

offset by the amortization of acquired in-place-leases and tenant relationships related to the new property, Executive House, which was acquired during the quarter.

Comparison of the three months ended September 30, 2008 to the three months ended September 30, 2007 (Total Property Portfolio).

In general, increases in revenues and operating expenses and decreases in non-operating expenses and the related losses of the Total Property Portfolio for the three months ended September 30, 2008 as compared to the three months ended September 30, 2007 are due mainly to profitable operations of properties across the portfolio. As with the Same Store Portfolio, increases in revenues were attributable mainly to properties that have completed major renovations in 2007 and are leasing the newly renovated units at premium rent levels and were offset by increases in real estate taxes and other operational expenses.

In addition, OneSite Payments expense has been increased significantly due to high volume payments through OneSite as compared to the same period of 2007.

Management Fees

Management fees of the Same Property Portfolio increased in the nine-month period ended September 30, 2008 compared to the same period of 2007 based on a proportionate increased level of revenues in the comparative periods. Interest

Interest expense for the nine-months ended September 30, 2008 increased slightly over the comparable period of 2007. The majority of the increase is attributable to the refinancing of a mortgage on the Berkshires on Brompton property at an incrementally higher principal level than the related paid-off loan, which was partially offset by the reduced interest rate obtained on the new debt. Additionally, new second mortgage debt on two properties that was not in place in the comparative period of 2007 also contributed to the increased interest expense.

Amortization of acquired in-place leases and tenant relationships

Amortization of acquired in-place-leases and tenant relationships decreased significantly in the nine-months ended September 30, 2008 as compared to the same period of 2007. Comparison of the nine months ended September 30, 2008 to the nine months ended September 30, 2007 (Total Property Portfolio)

In general, increases in revenues, operating expenses, non-operating expenses and the related losses of the Total Property Portfolio for the nine months ended September 30, 2008 as compared to the nine months ended September 30, 2007 are due mainly to the change in the mix of properties owned by the Company and the related periods of ownership of those properties in the comparative periods presented and to the increase in the level of mortgage and revolving credit debt outstanding during the comparative periods.

The Company's "Debt-to-Fair Value of Real Estate Assets" as of September 30, 2008 and December 31, 2007 is presented in the following table. Fair value of real estate assets is based on management's best estimate of fair value for properties purchased in prior years or purchase price for properties acquired within the current year. As with any estimate, management's estimate of the fair value of properties purchased in prior years represents only its good faith opinion as to that value, and there can be no assurance that the actual value that might, in fact, be realized for any such property would approximate that fair value. The following information is presented in lieu of information regarding the Company's "Debt-to-Total Market Capitalization Ratio", which is a commonly used measure in our industry, because the Company's market capitalization is not readily determinable since there was no public market for its common equity during the periods presented in this report.

The Board has established investment guidelines under which management may not incur indebtedness such that at the time we incur the indebtedness our ratio of debt to total assets exceeds 75%. This measure is calculated based on the fair value of the assets determined by management as described above.

The information regarding "Debt-to-Fair Value of Real Estate Assets" is presented to allow investors to calculate our loan-to-value ratios in a manner consistent with those used by management and others in our industry, including those used by our current and potential lenders. Management uses this information when making decisions about financing or refinancing properties. Management also uses fair value information when making decisions about selling assets as well as evaluating acquisition opportunities within markets where we have assets.

"Fair Value of Real Estate Assets" is not a GAAP financial measure and should not be considered as an alternative to net book value of real estate assets, the most directly comparable financial measure calculated and presented in accordance with GAAP. The net book value of our real estate assets was \$463,444,134 and \$464,265,061 at September 30, 2008 and December 31, 2007, respectively, and is presented on the balance sheet as multifamily apartment communities, net of accumulated depreciation. The following table reconciles the fair value of our real estate assets to the net book value of real estate assets as of September 30, 2008.

Debt-to-Fair Value of Real Estate Assets as of

	September 30, 2008	December 31, 2007
Net book value of multifamily apartment communities	\$ 462,403,236	\$ 464,265,061
Accumulated depreciation	154,285,956	144,240,061
Historical cost	616,689,192	608,505,122
Increase in fair value over historical cost	183,317,616	216,414,878
Fair Value – estimated	\$ 800,006,808	\$ 824,920,000
 Mortgage Debt and Revolving Credit Facility	 \$ 498,072,643	 \$ 506,903,882
 Debt-to-Fair Value of Real Estate Assets	 62.26%	 61.45%

The Debt-to-Fair Value of Real Estate Assets includes the outstanding borrowings under the Company's revolving credit facility, which were \$10,000,000 and \$0 at September 30, 2008 and December 31, 2007, respectively. The

revolving credit facility contains covenants that require the Company to maintain certain financial ratios, including an indebtedness to value ratio not to exceed 75%. If the Company were to be in violation of this covenant, we would be unable to draw advances from our line, which could have a material impact on the Company's ability to meet its short-term liquidity requirements. Further, if the Company were unable to draw on its revolving credit facility, the Company may have to slow or temporarily stop our rehabilitation projects, which could have a negative impact on its results of operations and cash flows. As of September 30, 2008 and December 31, 2007, the Company was in compliance with the covenants of the revolving credit facility. Fair value of the real estate assets is based on management's most current valuation of properties, which was made for all properties owned at December 31, 2007, acquisition cost of properties acquired subsequent to December 31, 2007, if any, and sales price of assets under contract of sale as of September 30, 2008.

Funds From Operations

The Company has adopted the revised definition of Funds from Operations (“FFO”) adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”). Management considers FFO to be an appropriate measure of performance of an equity REIT. We calculate FFO by adjusting net income (loss) (computed in accordance with GAAP, including non-recurring items), for gains (or losses) from sales of properties, real estate related depreciation and amortization, and adjustment for unconsolidated partnerships and ventures. Management believes that in order to facilitate a clear understanding of the historical operating results of the Company, FFO should be considered in conjunction with net income as presented in the consolidated financial statements included elsewhere herein. Management considers FFO to be a useful measure for reviewing the comparative operating and financial performance of the Company because, by excluding gains and losses related to sales of previously depreciated operating real estate assets and excluding real estate asset depreciation and amortization (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help one compare the operating performance of a company’s real estate between periods or as compared to different companies.

The Company’s calculation of FFO may not be directly comparable to FFO reported by other REITs or similar real estate companies that have not adopted the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently. FFO is not a GAAP financial measure and should not be considered as an alternative to net income (loss), the most directly comparable financial measure of our performance calculated and presented in accordance with GAAP, as an indication of our performance. FFO does not represent cash generated from operating activities determined in accordance with GAAP and is not a measure of liquidity or an indicator of our ability to make cash distributions. We believe that to further understand our performance, FFO should be compared with our reported net income (loss) and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements.

The following table presents a reconciliation of net income (loss) to FFO for the three and nine months ended September 30, 2008 and 2007:

	Three months ended		September

FFO for the nine months ended September 30, 2008 increased as compared to FFO for the nine month periods ended September 30, 2007. The increase is due mainly to increases in Net Operating Income of the properties, due to increased rental revenues in the comparable periods, which was partially offset by increases in interest expense related to increased debt balances in the comparative nine-month periods ended September 30, 2008 and 2007.

Environmental Issues

There are no recorded amounts resulting from environmental liabilities because there are no known contingencies with respect to environmental liabilities. The Company obtains environmental audits through various sources, including lender evaluations and acquisition due diligence, for each of its properties at various intervals throughout a property's useful life. The Company has not been advised by any third party as to the existence of, nor has it identified on its own, any material liability for site restoration or other costs that may be incurred with respect to any of its properties.

Inflation and Economic Conditions

Substantially all of the leases at our properties are for a term of one year or less, which enables the Company to seek increased rents for new leases or upon renewal of existing leases. These short-term leases minimize the potential adverse effect of inflation on rental income, although residents may leave without penalty at the end of their lease terms and may do so if rents are increased significantly.

The Company believes the domestic economy is poised for continued slow down and believes a recession is reasonably possible which would continue to disadvantage single family homeowners with unfavorable credit arrangements. While an economic slowdown that may result in a recession would not provide a favorable economic environment to operate within, the multifamily sector may benefit from the displacement of single family homeowners due to increasing foreclosure activity in the credit markets and continue to benefit from favorable ongoing demographic trends. While the apartment sector had previously experienced slower growth over recent years due to rising unemployment and a significant renter migration to single family homes, the reversal of the renter migration to single family homes trend is now expected to contribute to an apartment sector recovery. The Company believes that, for single family homebuyers over the next several years, increasing housing costs, higher interest rates, and continued escalation in foreclosure activity may make purchases increasingly expensive and out of reach as well as force existing homeowners back into the rental market. In addition, we believe the projected demographic trends strongly favor the multifamily sector, driven primarily by the continued flow of echo boomers (children of baby boomers, age 20 to 29), the fastest growing segment of the population, and an increasing number of immigrants who are typically renters by necessity.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's mortgage notes are fixed rate instruments; therefore, the Company's outstanding mortgage debt is not sensitive to changes in the capital market except upon maturity. The Company's revolving credit facility is a variable rate arrangement tied to LIBOR and is therefore sensitive to changes in the capital market. The table below provides information about the Company's financial instruments, specifically debt obligations.

The table presents principal cash flows and related weighted average interest rates by expected maturity dates for the mortgage notes payable as of September 30, 2008.

2008	2009	2010	2011	2012	Thereafter	Total
------	------	------	------	------	------------	-------

Fixed Rate Debt	\$ 695,571	\$ 19,893,074	\$ 4,517,557	\$ 4,816,074	\$ 8,783,206	\$ 449,367,161	\$ 488,072,643
Average Interest Rate	5.23%	5.21%	5.22%	5.23%	5.55%	5.53%	5.56%

The level of market interest rate risk remained relatively consistent from December 31, 2007 to September 30, 2008. As of September 30, 2008, \$0 of the Company's outstanding debt outstanding subject to variable interest rates. The Company estimates that the effect of a 1% increase or decrease in interest rates would not have a material impact on interest expense.

Item 4.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company is currently party to a legal proceeding initiated by a seller/developer from whom the Company acquired a property in 2005. The dispute involves the interpretation of certain provisions of the purchase and sales agreement related to post acquisition construction activities. Specifically, the purchase and sales agreement provided that if certain conditions were met, the seller/developer would develop a vacant parcel of land contiguous to the acquired property with 18 new residential apartment units (the "New Units") for the benefit of the Company at an agreed-upon price. The purchase and sales agreement also provided the opportunity for the seller/developer to build a limited number of garages (the "Garages") for the existing apartment units for the benefit of the Company at an agreed-upon price.

In 2006, the Company accrued \$190,000 with respect to the New Units matter based on a settlement offer extended to the plaintiff, which was not accepted at that time. On November 9, 2007, the judge issued a summary judgment against the Company with respect to the construction of the New Units. The judgment did not specify damages, which the plaintiff will be required to demonstrate at trial. On February 13, 2008, the court entered judgment related to the New Units on the seller/developer's behalf awarding them the amount of \$774,292 for costs and damages. The Company believes that there are reasonable grounds for appeal of this ruling and is pursuing an appeal of the judgment awarded by the court.

As of September 30, 2008 and December 31, 2007, respectively, the Company did not increase its accrual of \$190,000 related to the New Units matter as it is moving forward with an appeal of the judgment awarded by the court. Based on the court's award of damages in the amount of \$774,292, if the appeal were to be unsuccessful, the Company would record an additional cost of \$584,292 related to the New Units matter, the amount in excess of the \$190,000 accrued as of September 30, 2008.

The Company settled the matter related to the Garages and has executed a contract with the seller/developer for the construction of 48 Garages at an aggregate cost of \$740,000. As of September 30, 2008, the garage construction project was in progress and scheduled to be completed in the fourth quarter of 2008.

The Company and our properties are not subject to any other material pending legal proceedings.
