EARNINGS RELEASE

FOR IMMEDIATE RELEASE

**SILICOM REPORTS SECOND QUARTER AND
FIRST SIX MONTH 2004 RESULTS**

KFAR SAVA, Israel July 21, 2004 Silicom Ltd. (NASDAQ:**SILCF**) today reported financial results for the second quarter ended June 30, 2004.

Revenues for the second quarter of 2004 were \$895,000, an increase of 28% compared to \$700,000 in the second quarter of 2003. Net loss for the quarter was (\$544,000), or (\$0.13) per share, compared to (\$544,000), or (\$0.13) per share for the second quarter of 2003.

Revenues for the first half of 2004 were \$1,743,000 compared to \$2,025,000 for the first half of 2003. Net loss for the period was (\$946,000), or (\$0.23) per share, compared to (\$767,000), or (\$0.19) per share for the first six months of 2003.

Commenting on the results, Shaiké Orbach, President and CEO, said, "Our results reflect the significant progress we are making according to our work plan and are in line with our expectations. During the quarter, we recorded a growing number of orders and design wins for our server adapter product lines from Silicon Graphics, Netasq and others, enabling us to increase our revenues despite the continued decline in sales of legacy products. As expected during this transitional period, the current manufacturing quantities, which represent only initial quantities for the new design wins, translate into high manufacturing costs, significantly impacting our current profitability. As sales continue to build in the wake of both already-recorded and new design wins, manufacturing quantities will rise, bringing our profitability back to the normal range.

Overall, we are pleased with our success in penetrating new markets, securing new customers and establishing important new partnerships. We are encouraged by rising demand in a variety of target markets and continue to believe in our long-term prospects.

Silicom Ltd. is an industry-leading provider of communications connectivity solutions and advanced enabling technologies, making it the preferred time-to-market and performance partner to many of the industry's significant players. With core expertise in high performance, innovative technologies for networking and operating systems, the Company develops high-performance networking solutions for manufacturers of storage, Internet traffic management, security, and other types of server-based systems characterized by multi-port high-performance environments. Silicom also offers an extensive range of PC Cards, PCI cards and USB products. For more information, please visit: www.silicom.co.il.

Statements in this press release which are not historical data are forward-looking statements which involve known and unknown risks, uncertainties, or other factors not under the Company's control, which may cause actual results, performance, or achievements of the Company to be materially different from the results, performance, or other expectations implied by these forward-looking statements. These factors include, but are not limited to, those detailed in the Company's periodic filings with the Securities and Exchange Commission. The Company disclaims any duty to update such statements.
