## TAT Technologies Reports Year 2013 Third Quarter Results

GEDERA, Israel, Monday, November 25, 2013 - TAT Technologies Ltd. (NASDAQ: TATT - News) (“the Company”), a leading provider of services and products to the commercial and military aerospace and ground defense industries, reported today its results for the three month and nine month periods ended September 30, 2013.

## Financial Highlights:

TAT announced revenues of \$21.1 million with a net income of \$0.8 million for the three months ended September 30, 2013, compared to revenues of \$22.1 million with a net income of \$1.8 million for the three months ended September 30, 2012, a decrease of 4.2% in revenues along with a decrease of \$1.0 million in net income.

During the Third quarter of 2013, revenues were impacted by (i) the decrease in revenues in the OEM of Heat Management Solutions operating segment; (ii) the decrease in revenues in the MRO Services for Aviation Components operating segment; (iii) the decrease in revenues in the OEM of Electric Motion Systems operating segment; partially offset by (iv) the increase in revenues in the Heat Transfer Services and Products operating segment.

Revenue breakdown by operating segments for the three month and nine month periods ended September 30, 2013 and 2012 was as follows:

	2013		Three Months Ended September 30, 2012		% of Change Between Periods
	Revenues in Thousands	% of Total Revenues	Revenues in Thousands Unaudited	% of Total Revenues

For the nine months ended September 30, 2013, TAT announced revenues of \$64.5 million with a net income of \$3.5 million compared to revenues of \$64.9 million with a net loss of \$1.8 million for the nine months ended September 30, 2012. The net loss reported for the nine month period ended September 30, 2012 was the result of a \$1.0 million impairment charge of goodwill in TAT's OEM for Electric Motion Systems operating segment and a \$3.3 million impairment charge with respect to TAT's investment in FAvS. Excluding the impairment charges recorded during 2012, net income for the nine months ended September 30, 2013 increased by \$1.0 million compared to the same period in 2012.

During the nine months ended September 30, 2013, revenues were impacted by (i) the increase in revenues in the Heat Transfer Services and Products operating segment; (ii) the increase in revenues in the MRO Services for Aviation Components operating segment; offset by (iii) the decrease in revenues in the OEM of Heat Management Solutions operating segment; and (iv) the decrease in revenues in the OEM of Electric Motion Systems operating segment, which is a continuation of the decrease in revenues this segment had experienced during 2012 and 2011.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Background

TAT operates under four operating segments: (i) Original Equipment Manufacturing or "OEM" of Heat Management Solutions; (ii) Heat Transfer Services and Products; (iii) Maintenance, Repair and Overhaul or "MRO" services for Aviation Components; and (iv) OEM of Electric Motion Systems.

OEM of Heat Management Solutions primarily includes the design, development, manufacture and sale of (i) a broad range of heat transfer components (such as heat exchangers, pre-coolers and oil/fuel hydraulic coolers) used in mechanical and electronic systems on-board commercial, military and business aircraft; (ii) environmental control and cooling systems on board aircraft and for ground applications; and (iii) a variety of other electronic and mechanical aircraft accessories and systems such as pumps, valves, power systems and turbines.

Heat Transfer Services and Products primarily includes the maintenance, repair and overhaul of heat transfer equipment and to a lesser extent, the manufacturing of certain heat transfer products. TAT's Limco subsidiary operates an FAA certified repair station, which provides such heat transfer MRO services and products for airlines, air cargo carriers, maintenance service centers and the military.

MRO services for Aviation Components primarily includes the maintenance, repair and overhaul of APUs, landing gear and other aircraft components. TAT's Piedmont subsidiary operates an FAA certified repair station, which provides such aircraft component MRO services for airlines, air cargo carriers, maintenance service centers and the military.

OEM of Electric Motion Systems primarily includes the design, development, manufacture and sale of a broad range of electrical motors and motion applications for airborne and ground systems.

Three months ended September 30, 2013 compared with three months ended September 30, 2012

Revenues. Total revenues for the three months ended September 30, 2013, were \$21.1 million compared to \$22.1 million for the three months ended September 30, 2012, a decrease of 4.2%. This reflects (i) the decrease in revenues in the OEM of Heat Management Solutions operating segment; (ii) the decrease in revenues in the MRO Services for Aviation Components operating segment; (iii) the decrease in revenues in the OEM of Electric Motion Systems operating segment; partially offset by (iv) the increase in revenues in the Heat Transfer Services and Products operating segment.

Cost of revenues. Cost of revenues was \$16.5 million for the three months ended September 30, 2013, similar to \$16.3 million for the three months ended September 30, 2012. This reflects (i) the increase in cost of revenues in the Heat Transfer Services and Products operating segment, which is primarily attributable to the increase in material cost associated with the increase in revenues; (ii) the increase in cost of revenues in the OEM of Heat Management Solutions operating segment, which is primarily attributable to an increase in production costs resulting from the decrease in exchange rates between the U.S. dollar and the Israeli Shekel; (iii) similar cost of revenues in the OEM of Electric Motion Systems operating segment, impacted by the decrease in exchange rates between the U.S. dollar and the Israeli Shekel; partially offset by (iv) the decrease in cost of revenues in the MRO Services for Aviation Components operating segments, which is primarily attributable to the decrease in material costs associated with the decrease in revenues.

Cost of revenues as a percentage of revenues increased to 78.0% for the three months ended September 30, 2013, compared to 73.7% for the three months ended September 30, 2012. This increase is primarily attributable to (i) product mix with lower margin products sold during the quarter in the OEM of Heat Management Solutions, in the MRO Services for Aviation Components and in the OEM of Electric Motion Systems operating segments; partially offset by (ii) product mix with higher margin products sold during the quarter in the Heat Transfer Services and Products operating segment.

Research and development, net. Research and Development expenses were \$0.2 million for the three months ended September 30, 2013, similar to the three months ended September 30, 2012, and are related to new products and technologies within the OEM operations in Israel and the Heat Transfer Services and Products operating segment.

Research and Development expenses as a percentage of revenues were 0.8% for the three months ended September 30, 2013, similar to 0.7% for the three months ended September 30, 2012. TAT expects to continue to invest additional resources in research and development activities, and accordingly will continue to incur and record additional research and development expenses in coming years.

Selling and marketing expenses. Selling and marketing expenses were \$0.9 million for the three months ended September 30, 2013, similar to \$0.8 million for the three months ended September 30, 2012. This was impacted by (i) the increase in selling and marketing expenses in the OEM of Heat Management Solutions and in the MRO Services for Aviation Components operating segments, primarily attributable to increased payroll costs (ii) similar selling and marketing expenses in the Heat Transfer Services and Products operating segment; partially offset by (iii) the decrease in selling and marketing expenses in the OEM of Electric Motion Systems operating segment, primarily attributable to decreased payroll costs, advertising and exhibitions.

Selling and marketing expenses as a percentage of revenues were 4.1% for the three months ended September 30, 2013, compared to 3.5% for the three months ended September 30, 2012. TAT expects to continue to invest additional resources in selling and marketing activities in coming years.

General and administrative expenses. General and administrative expenses were \$2.5 million for the three months ended September 30, 2013, similar to the three months ended September 30, 2012. This was impacted by (i) the decrease in general and administrative expenses in the OEM of Heat Management Solutions and in the OEM of Electric Motion Systems operating segments, primarily attributable to decreased payroll and consultancy costs; offset by (ii) the increase in general and administrative expenses in the MRO Services for Aviation Components operating segment, primarily attributable to a decrease in FAvS' participation in certain from Piedmont's operating expenses; (iii) the increase in general and administrative expenses in the Heat Transfer Services and Products primarily attributable to increased payroll and travel expenses.

General and administrative expenses as a percentage of revenues were 11.8% for the three months ended September 30, 2013, similar to 11.3% for the three months ended September 30, 2012.

Operating income. For the three months ended September 30, 2013, TAT reported operating income of \$1.1 million, compared to operating income of \$2.3 million for the three months ended September 30, 2012, a decrease of 51.7%. The decrease in operating income is primarily attributable to (i) the decrease in operating income in the OEM of Heat Management Solutions, in the MRO Services for Aviation Components and in the OEM of Electric Motion Systems operating segments; partially offset by (ii) the increase in operating income in the Heat Transfer operating segments.

Financial expenses. Financial expense for the three months ended September 30, 2013, was \$0.2 million compared to financial expenses of \$0.4 million for the three months ended September 30, 2012. Financial expenses during the quarter primarily resulted from changes in exchange rates between the U.S. dollar and the Israeli Shekel and between the U.S. dollar and the Euro.

Financial income. Financial income for the three months ended September 30, 2013, was \$0.2 million, compared to \$0.4 million for the three months ended September 30, 2012. Financial income during the quarter primarily resulted from changes in exchange rates between the U.S. dollar and the Israeli Shekel and between the U.S. dollar and the Euro and interest income from short term bank deposits.

Taxes on income. Taxes on income for the three months ended September 30, 2013, were \$0.2 million, compared to \$0.6 million for the three months ended September 30, 2012. Taxes on income for the three months ended September 30, 2013, were impacted by (i) the decrease in pre-tax income in the MRO Services for Aviation Components and in the OEM of Heat Management Solutions operating segments; along with (ii) similar pre-tax income in the Heat Transfer Services and Products operating segment. The Company has carryforward losses in the OEM of Electric Motion Systems operating segment. The Company estimates that it will not utilize the deferred taxes related to these carryforward losses in the foreseeable future and thus has full valuation allowance thereon, in accordance with generally accepted accounting principles.

Share in Results of affiliated Company. TAT recognized an immaterial income from its 30% interest in FAvS's results for the three months ended September 30, 2013 compared to an income of \$0.2 million for the three months ended September 30, 2012.

Net income attributable to noncontrolling interest. TAT recognized a net income of \$0.1 million attributable to noncontrolling interest for the three months ended September 30, 2013, similar to the net income attributable to noncontrolling interest for the three months ended September 30, 2012. In both periods net income attributable to noncontrolling interest was attributable to our 70% held Bental subsidiary.

Net income attributable to controlling interest. TAT recognized a net income of \$0.8 million for the three months ended September 30, 2013 compared to a net income of \$1.8 million for the three months ended September 30, 2012, a decrease of \$1.0 million in net income.

Nine months ended September 30, 2013 compared with Nine months ended September 30, 2012

Revenues. Total revenues for the nine months ended September 30, 2013, were \$64.5 million, similar to \$64.9 million for the nine months ended September 30, 2012. This reflects (i) the increase in revenues in the Heat Transfer Services and Products operating segment; (ii) the increase in revenues in the MRO Services for Aviation Components operating segment; offset by (iii) the decrease in revenues in the OEM of Heat Management Solutions operating segment; and (iv) the decrease in revenues in the OEM of Electric Motion Systems operating segment, which is a continuation of the decrease in revenues this segment had experienced during 2012 and 2011.

Cost of revenues. Cost of revenues was \$49.7 million for the nine months ended September 30, 2013 compared to \$48.8 million for the nine months ended September 30, 2012, a moderate increase of 1.9%. This reflects (i) the increase in cost of revenues in the Heat Transfer Services and Products and in the MRO Services for Aviation Components operating segments, which is primarily attributable to the increase in material cost associated with the increase in revenues; (ii) similar cost of revenues in the OEM of Heat Management Solutions; partially offset by (ii) the decrease in cost of revenues in the OEM of Electric Motion Systems operating segments, which is primarily attributable to the decrease in material cost associated with the decrease in revenues.

Cost of revenues as a percentage of revenues was 77.1% for the nine months ended September 30, 2013 compared to 75.2% for the nine months ended September 30, 2012. This is primarily attributable to (i) product mix with lower margin products sold during the quarter in the OEM of Heat Management Solutions, in the MRO Services for Aviation Components and in the OEM of Electric Motion Systems operating segments; partially offset by (ii) product mix with higher margin products sold during the quarter in the Heat Transfer Services and Products operating segment.

Research and development, net. Research and Development expenses were \$0.7 million for the nine months ended September 30, 2013, compared to \$0.8 million for the nine months ended September 30, 2012 and are related to new products and technologies within the OEM operations in Israel and the Heat Transfer Services and Products operating segment.

Research and Development expenses as a percentage of revenues were 1.1% for the nine months ended September 30, 2013, similar to 1.3% for the nine months ended September 30, 2012. TAT expects to invest additional resources in research and development activities, and accordingly will continue to incur and record additional research and development expenses in coming years.

Selling and marketing expenses. Selling and marketing expenses were \$2.7 million for the nine months ended September 30, 2013, similar to \$2.6 million for the nine months ended September 30, 2012. This was impacted by (i) the increase in selling and marketing expenses in the MRO Services for Aviation Components operating segment and in the OEM of Heat Management Solutions operating segment, primarily attributable to increases in payroll costs, commissions and travel expenses; and (ii) similar selling and marketing expenses in the Heat Transfer Services and Products operating segments; offset by (iii) the decrease in selling and marketing expenses in the OEM of Electric Motion Systems operating segment, primarily attributable to decreased payroll costs, advertising and exhibitions.

Selling and marketing expenses as a percentage of revenues were 4.1% for the nine months ended September 30, 2013, similar to 4.0% for the nine months ended September 30, 2012. TAT expects to continue to invest additional resources in selling and marketing activities in coming years.

General and administrative expenses. General and administrative expenses were \$7.9 million for the nine months ended September 30, 2013, compared to \$8.3 million for the nine months ended September 30, 2012, a decrease of 4.1%. The decrease in general and administrative expenses was impacted by (i) the decrease in general and administrative expenses in the OEM of Heat Management Solutions operating segment, primarily attributable to the decrease in management fees to our previously controlling shareholder; (ii) the decrease in general and administrative expenses in the OEM of Electric Motion Systems operating segment, primarily attributable to the decrease in payroll costs; along with (iii) similar general and administrative expenses in the Heat Transfer Services and Products and in the MRO Services for Aviation Components operating segments.

General and administrative expenses as a percentage of revenues moderately decreased to 12.3 % for the nine months ended September 30, 2013, from 12.7% for the nine months ended September 30, 2012.

Impairment of Goodwill. During the nine month period ended September 30, 2012 the Company recorded an impairment charge of \$1.0 million to reflect the impairment of the entire balance of the goodwill included in the OEM of Electric Motion Systems operating segment, which was based on an independent appraisal.

Operating income. For the nine months ended September 30, 2013, TAT reported operating income of \$3.5 million compared to \$3.4 million for the nine months ended September 30, 2012. Excluding the above mentioned impairment charge of goodwill, operating income for the nine months ended September 30, 2012 was \$4.4 million. The decrease in operating income is primarily attributable to (i) the decrease in operating income in the MRO Services for Aviation Components, the OEM of Heat Management Solutions segment and in the OEM of Electric Motion Systems operating segments; partially offset by (ii) the increase in operating income in the Heat Transfer Services and the Products.

Financial expenses. Financial expenses for the nine months ended September 30, 2013, was \$0.8 million compared to financial expenses of \$1.7 million for the nine months ended September 30, 2012. Financial expenses during the nine months ended September 30, 2013 primarily resulted from changes in exchange rates between the U.S. dollar and the Israeli Shekel and between the U.S. dollar and the Euro, interest payments on long-term loans and short-term credit and bank commissions.

Financial income. Financial income for the nine months ended September 30, 2013, was \$0.8 million, compared to \$1.5 million for the nine months ended September 30, 2012. Financial income during the nine months ended September 30, 2013 primarily resulted from changes in exchange rates between the U.S. dollar and the Israeli Shekel and between the U.S. dollar and the Euro, interest income related to tax refunds from tax authorities and interest from short term bank deposits.

Taxes on income. Taxes on income for the nine months ended September 30, 2013, were \$1.2 million, compared to \$1.9 million for the nine months ended September 30, 2012. Taxes on income for the nine months ended September 30, 2013, were impacted by (i) the decrease in pre-tax income in the MRO Services for Aviation Components and in the OEM of Heat Management Solutions operating segments; offset by (ii) the increase in pre-tax income in the Heat Transfer Services and Products operating segment. The Company has carryforward losses in the OEM of Electric Motion Systems operating segment. The Company estimates that it will not utilize the deferred taxes related to these carryforward losses in the foreseeable future and thus has full valuation allowance thereon, in accordance with generally accepted accounting principles.

Share in Results of affiliated Company. TAT recognized income of \$1.1 million from its approximately 30% interest in FAvS's results for the nine months ended September 30, 2013 compared to income of \$0.1 million for the nine months ended September 30, 2012.

Impairment of share in affiliated Company. During the nine months ended September 30, 2012 TAT recognized an impairment of \$3.3 million with respect to its approximately 30% interest in FAvS's, which was based on an independent appraisal.

Net loss attributable to noncontrolling interest. TAT recognized a net loss of \$0.2 million attributable to noncontrolling interest for the nine months ended September 30, 2013, compared with a net loss of \$0.1 million attributable to noncontrolling interest for the nine months ended September 30, 2012. In both periods net loss attributable to noncontrolling interest was attributable to our 70% held Bental subsidiary.

Net income (loss) attributable to controlling interest. TAT recognized a net income of \$3.5 million for the nine months ended September 30, 2013 compared to net loss of \$1.8 million for the nine months ended September 30, 2012. Excluding the above mentioned impairment charges of goodwill and share in affiliated company, net income for the nine months ended September 30, 2012 was \$2.5 million.

### Liquidity and Capital Resources

Financial assets, net of debt were \$30.5 million on September 30, 2013 compared to \$24.7 million on September 30, 2012, an increase of 23.6%.

As of September 30, 2013, TAT had cash and cash equivalents and short-term bank deposits of \$31.8 million with total debt of \$1.3 million. As of September 30, 2012 TAT had cash and cash equivalents and short-term deposits of \$25.3 million, marketable securities of \$1.8 million and restricted cash of \$2.9 million, which equals \$30.0 million of financial assets, with total debt of \$5.3 million.

On September 8, 2013 TAT's subsidiary, Bental, made an on time repayment of a loan originally received from an Israeli bank in the total amount of NIS2.5 million (approximately \$0.7 million).

On May 1, 2013, the Company made a payment of \$1.6 million, in accordance with its payment schedule of loans in the total original amount of \$6.25 million received by the Company from an Israeli bank. The loans' remaining balance following the payment was \$0.9 million.

As of September 30, 2013 TAT met all financial covenants related to its loans and credit facilities.

### Seasonality

In the OEM industry in general and in TAT's OEM businesses in particular, the majority of customers operate based on annual budgets and tend to utilize during the fiscal fourth quarter the remaining balance of any un-used budgets. This trend is more typical with customers from the defense industry. Accordingly, TAT is more likely to generate increased revenues in the OEM businesses (such as TAT's OEM of Heat Management Solutions and OEM of Electric Motion Systems) during the fiscal fourth quarter. The aviation industry is known for its highest traffic in the third quarter, primarily attributable to summer vacations. As a result, during the fiscal third quarter, airlines tend to postpone, to the extent possible, maintenance and repair of their aircraft to minimize aircraft grounding. Accordingly, TAT is more likely to notice decreased revenues in the MRO businesses (such as TAT's MRO for Aviation Components and Heat Transfer Services and Products) during the fiscal third quarter with recovery during subsequent quarters.

TAT's executive offices are located in the Re'em Industrial Park, Neta Boulevard, Bnei Ayish, Gedera 70750, Israel, and TAT's telephone number is 972-8-862-8500.
