Item 1.01. Entry into a Material Definitive Agreement.

On June 12, 2008 IR BioSciences Holdings, Inc. (the “Company”) sold an additional \$1,000,000 of convertible debentures (the “Second Closing”) to YA Global Investments, L.P. (the “Buyer”). The Convertible Debentures were sold pursuant to a Securities Purchase Agreement dated as of January 3, 2008 (the “Agreement”) providing for the issuance of (i) convertible debentures in an aggregate principal amount up to \$3,000,000 (collectively, the “Convertible Debentures”) which are convertible into shares (the “Conversion Shares”) of the Company’s common stock, par value \$.001 per share (the “Common Stock”), and (ii) warrants (the “Warrants”) to purchase 7,500,000 shares of Common Stock (the “Warrant Shares”).

The initial closing of the Agreement occurred on January 3, 2008, at which time the Company sold to the Buyer \$2 million of the Convertible Debentures and the Warrants (the “First Closing”), and at the Second Closing the Company exercised its option to sell and issue to the Buyer an additional \$1 million of the Convertible Debentures. Obligations under the Convertible Debentures are guaranteed by ImmuneRegen BioSciences, Inc., the Company’s wholly-owned subsidiary (the “Guarantor”). The Company’s obligations under the Convertible Debentures are secured by (i) all of the assets and property of the Guarantor pursuant to a Security Agreement, and (ii) by Patent Collateral of the Company and the Guarantor in accordance with a Patent Security Agreement by and among the Company, the Buyer and the Guarantor.

The Convertible Debentures sold in the Second Closing mature on May 31, 2011, unless extended by the holder, and accrue interest at the rate of 8% per annum. Interest is payable in cash quarterly on the last day of each calendar quarter beginning on June 30, 2008, or at the Company’s option if “Equity Conditions” (as defined in the Convertible Debenture) are satisfied, it may be paid by the issuance of Common Stock. The Convertible Debentures are convertible at any time at the option of the holder into shares of the Company’s Common Stock at a price equal to \$0.20 per share. On or after December 31, 2009 or if the Company’s fails to achieve certain milestones based on preclinical studies and submission of a Investigational New Drug Application, as set forth in the Convertible Debenture, the conversion price of the Convertible Debentures becomes the lower of (i) \$0.20 per share or (ii) 80% of the lowest daily volume weighted average price during the five trading days immediately preceding conversion.

The Company may redeem a portion or all amounts outstanding under the Convertible Debentures prior to May 31, 2011 provided that certain conditions to redemption have been satisfied. The Company may force a conversion of the Convertible Debentures into Common Stock, provided that specified conditions have been satisfied. Holders of the Convertible Debentures are subject to limitations on their right to convert the Convertible Debentures, or receive shares of Common Stock as payment of interest, if after giving effect to such conversion or receipt of shares, the holder would be deemed to beneficially own more than 9.99% of the Company’s then outstanding Common Stock. Upon the occurrence of certain events of default defined in the Convertible Debentures, including the Company’s failure to pay the holder any amount of principal, interest, or other amounts when due, the full principal amount of the Convertible Debentures, together with interest and other amounts due, become immediately due and payable in cash, provided however, that holder may request payment of such amounts in Common Stock of the Company.

In the event the Company effects any “fundamental transaction” as defined in the Convertible Debentures, including a merger or consolidation of the Company or sale of more than 50% of its assets, the holder may (i) require the redemption of all amounts owed, including principal, accrued and unpaid interest and any other charges; (ii) require the conversion of the Convertible Debentures into shares of common stock and other securities, cash and property; or (iii) in the case of a merger or consolidation, require the surviving entity to issue to the holder a convertible debenture with a principal amount equal to the Convertible Debentures then held by the holder, plus all accrued and unpaid interest and other amounts, and with the same terms and conditions as the Convertible Debentures.

The Company placed \$75,000 into an escrow account upon the Second Closing. The funds in escrow will be used to compensate the Buyer's investment manager for monitoring and managing the Buyer's purchase and investment.

The Buyer has a right of first refusal on any future funding that involves the issuance of the Company's capital stock for so long as a portion of the Convertible Debentures is outstanding.

The summary of the Agreement and the First Closing set forth above do not purport to be a complete statement of the terms of the Agreement and the First Closing. This summary is qualified in its entirety by reference to the full text of the Convertible Debenture attached as Exhibit 4.1, the Common Stock Purchase Warrant attached as Exhibit 4.2, the Agreement attached as Exhibit 10.1, the Guaranty Agreement attached as Exhibit 10.2, the Security Agreement attached as Exhibit 10.3 and the Patent Security Agreement attached as Exhibit 10.4, all to the report on Form 8-K filed on January 9, 2008 which is incorporated herein by this reference.
